

El Dorado Mule Ears

El Dorado Bedstraw

Layne's Butterweed

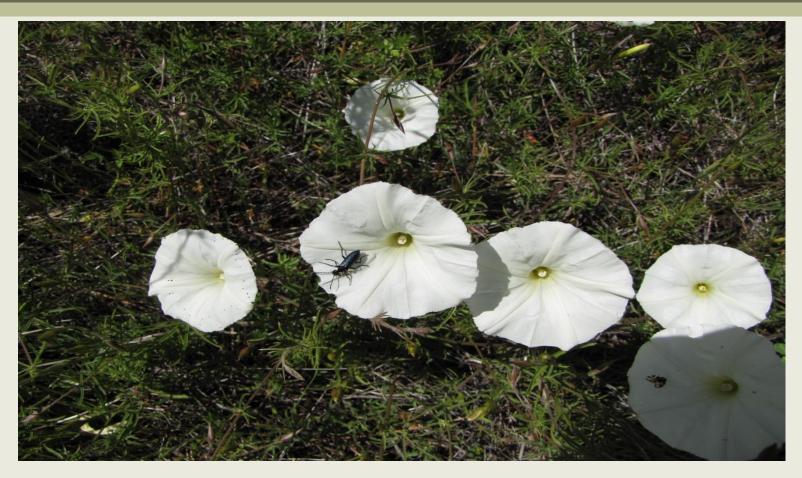

Pine Hill Ceanothus

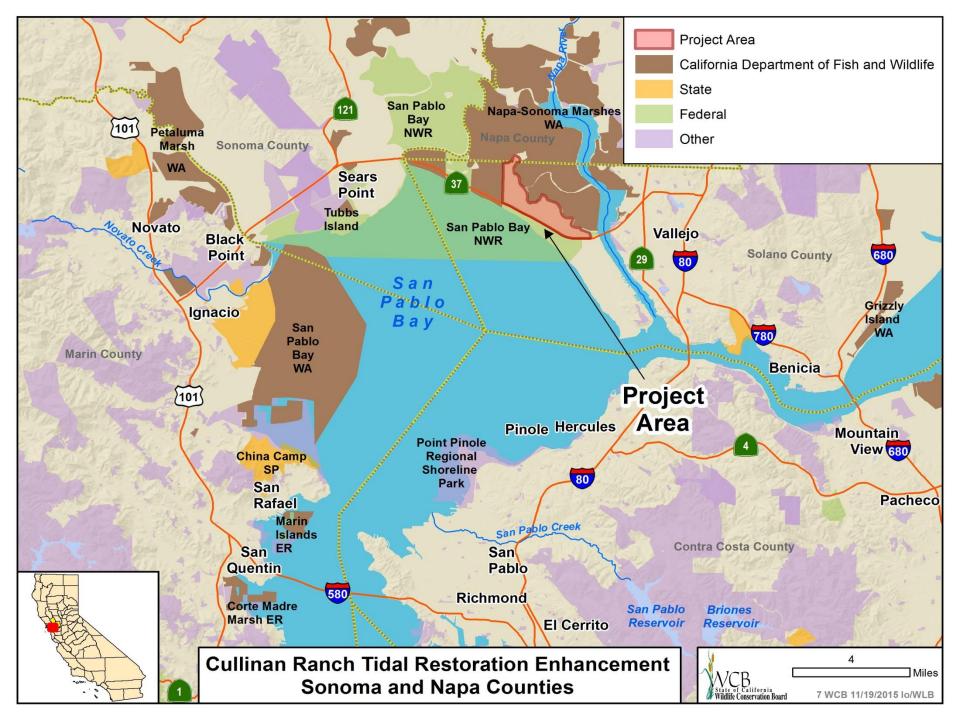

Red Hills Soaproot

Stebbin's Morning Glory

Looking northeast from entrance on Pond 1 Levee Road, Cullinan Ranch propoerty to the right (prior to construction)

Looking northwest from southeast corner of Cullinan Ranch, next to gate opening off Highway 37 (prior to construction)

Breaching of levees, January 2015

Tidal flow through the breach, April 2015

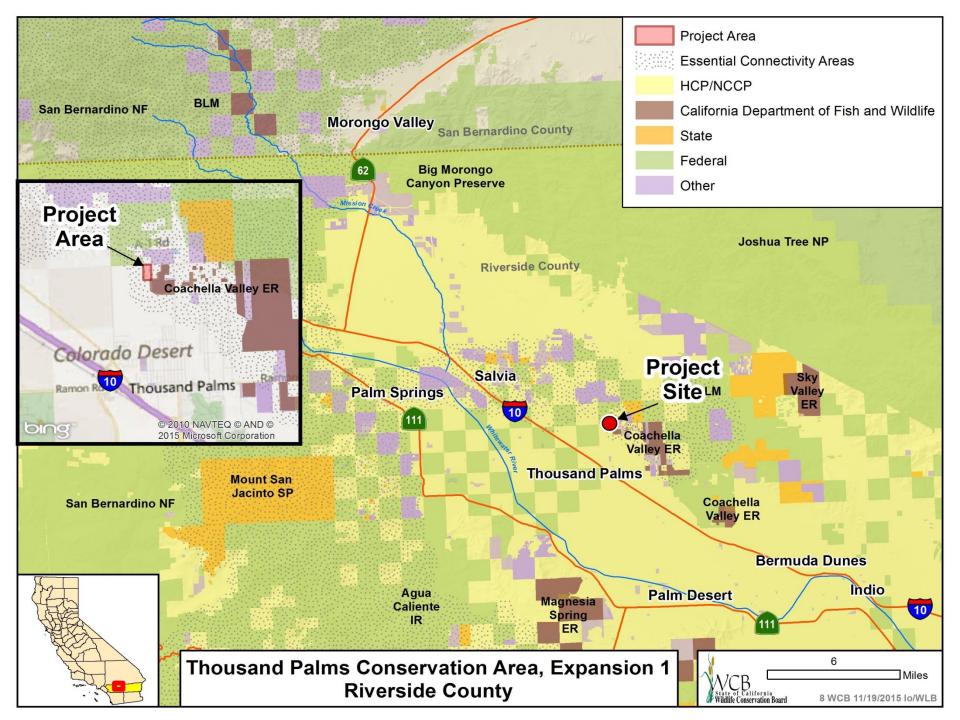

Aerial view prior to construction and breaching, May 2008

Post construction and breaching aerial view, April 2015

#8. Thousand Palms Conservation Area, Expansion 1

Southerly view of the Property with the San Jacinto Mountain Range in the background.

#8. Thousand Palms Conservation Area, Expansion 1

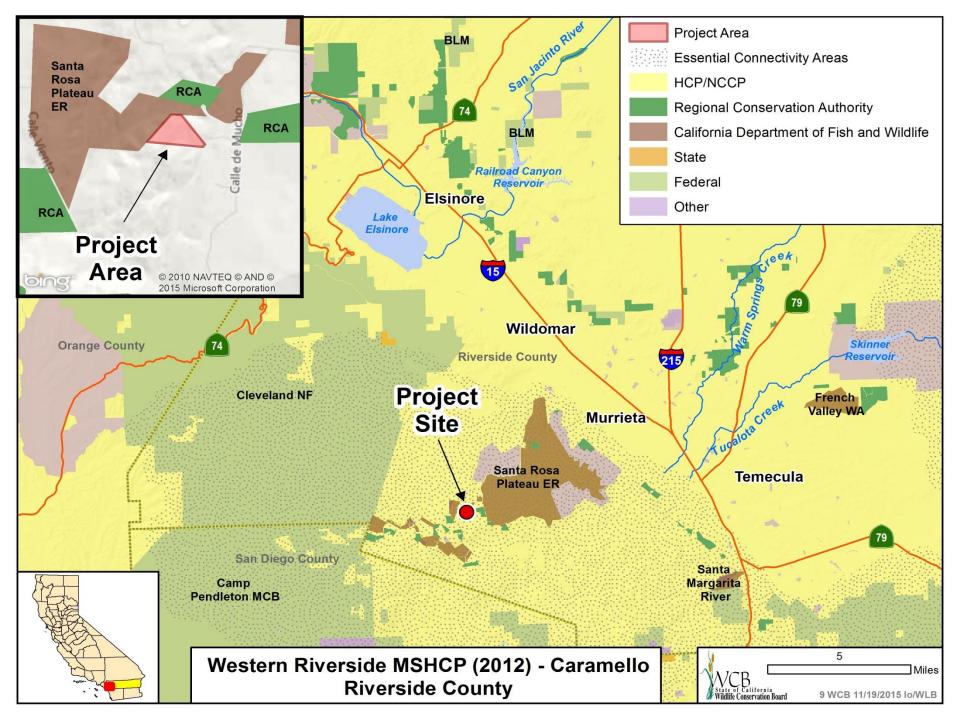

Northerly view of the Property

#8. Thousand Palms Conservation Area, Expansion 1

Blowsand which supports both state and federally listed species.

#9. Western Riverside MSHCP(2012) - Caramello

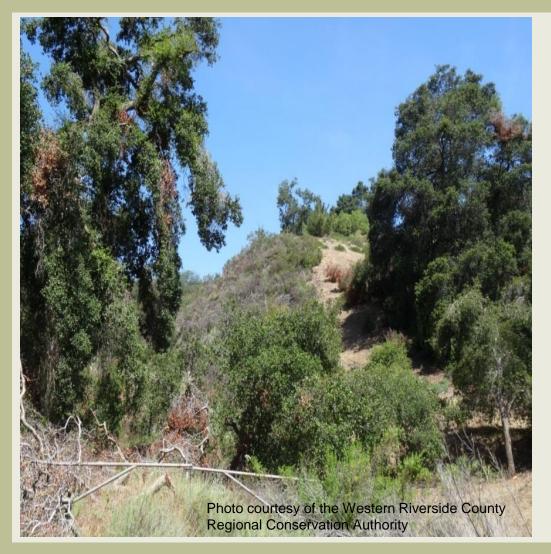

The Property's neighborhood boundaries are Interstate 15 and the City of Murrieta to the east; the San Diego County line to the south; the Cleveland National Forest to the west; and the southerly city limits of Wildomar to the north.

#9. Western Riverside MSHCP(2012) - Caramello

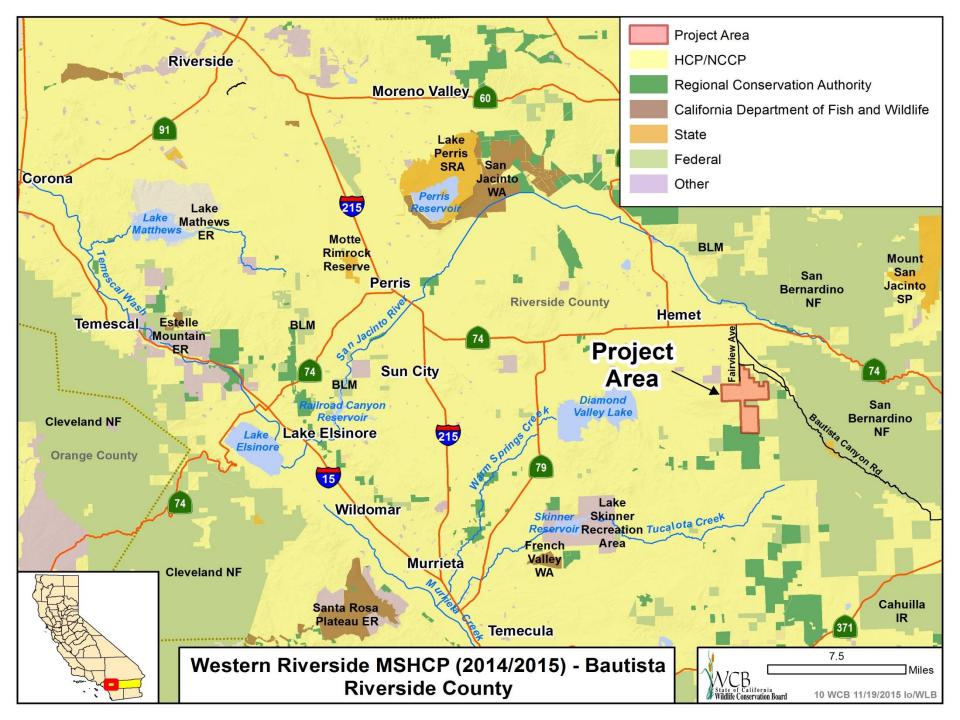

The site has a rolling to rough mountainous typography covered with various types of vegetation including chaparral and coastal sage scrub, a softleaved drought-deciduous subshrub, which serves an important and necessary component to the survival of several resident species. (Photo courtesy of Western Riverside County Regional Conservation Authority)

#9. Western Riverside MSHCP(2012) - Caramello

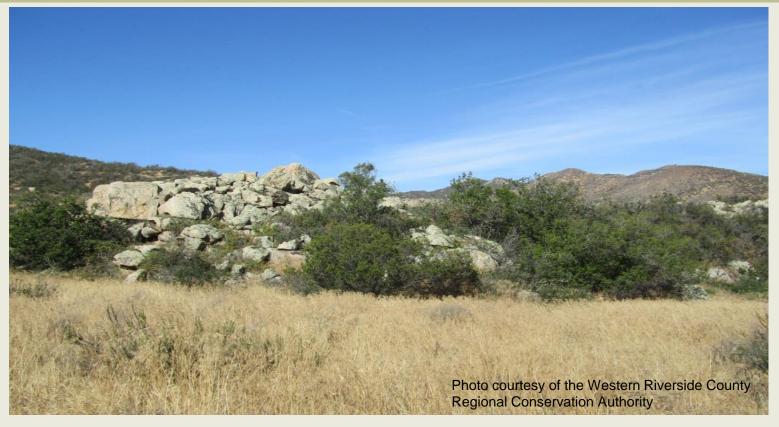

The Authority will manage the Property as part of the WRC MSHCP reserve system, which serves to provide permanent habitat protection for populations of federal and state-listed endangered and threatened species.

#10. Western Riverside MSHCP (2014/2015) - Bautista

The Bautista Property is situated within a high priority conservation area in the WRC MSHCP. This high priority area focuses its conservation efforts on the western slope of the San Jacinto Mountains.

#10. Western Riverside MSHCP (2014/2015) - Bautista

The Property is situated in an area that supports a suite of covered species that contain key populations of eight federally listed species, five of which are also State listed, and at least eleven sensitive, unlisted species.

#10. Western Riverside MSHCP (2014/2015) - Bautista

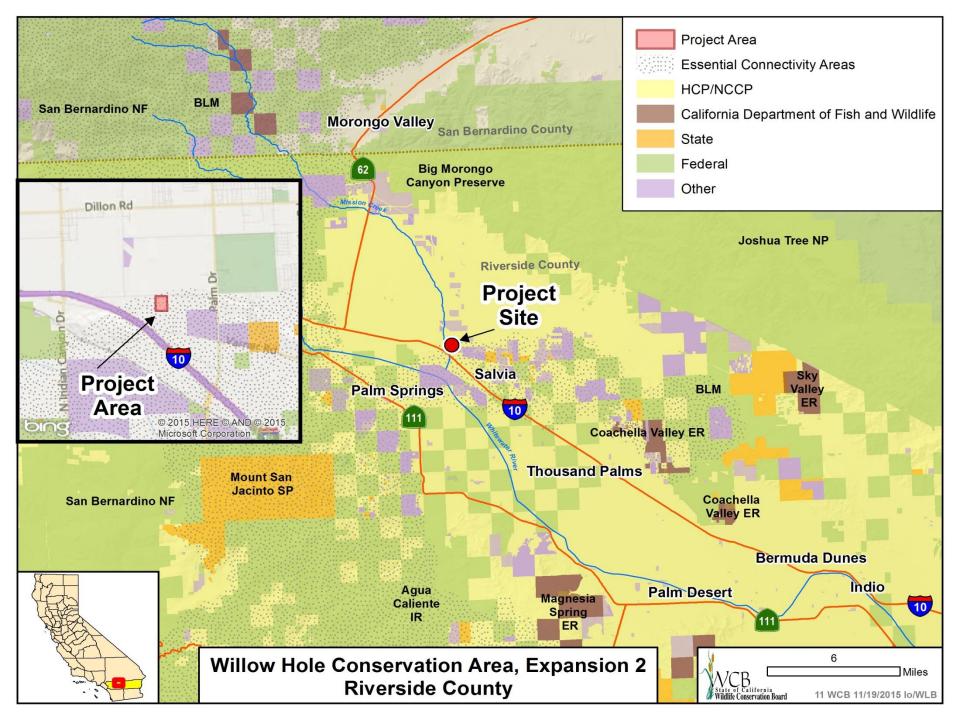

The Property is located in an area that will provide core living and breeding habitat for several covered species that include the coastal California gnatcatcher, quino checkerspot butterfly, least Bell's vireo, southwestern willow flycatcher and the Stephens' kangaroo rat.

#10. Western Riverside MSHCP (2014/2015) - Bautista

Scenic view of the property

#11. Willow Hole Conservation Area, Expansion 2

Westerly view of the Property

#11. Willow Hole Conservation Area, Expansion 2

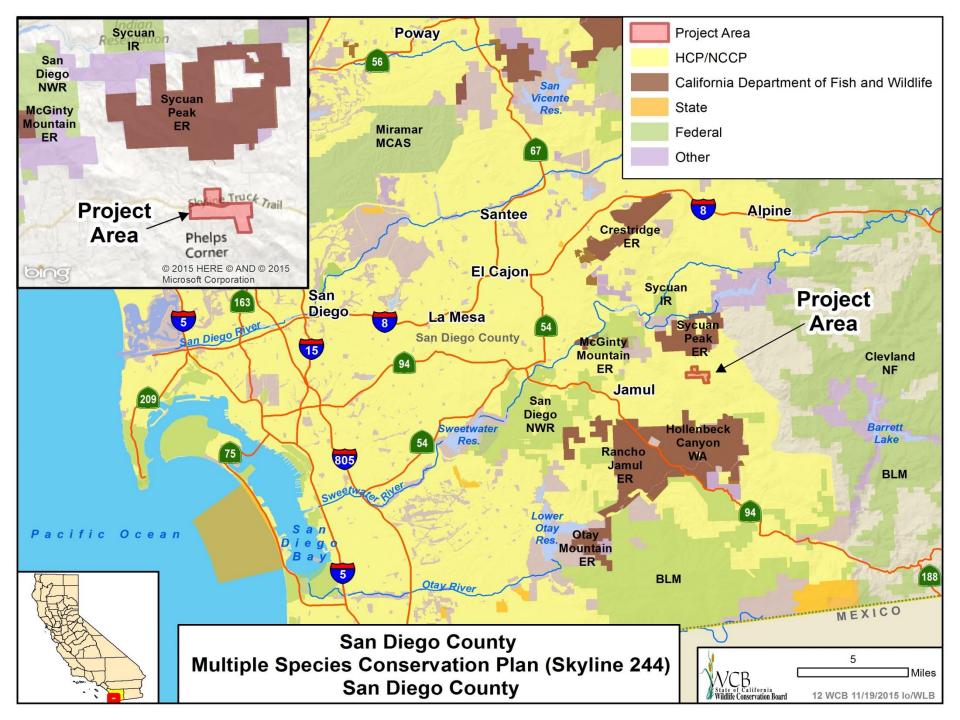

Easterly view of the Property

#11. Willow Hole Conservation Area, Expansion 2

Blowsand flat with creosote bushes that support the Coachella Valley fringe-toed lizard.

#12. San Diego County Multiple Species Conservation Plan (Skyline 244)

Vegetation and topography found on property

#12. San Diego County Multiple Species Conservation Plan (Skyline 244)

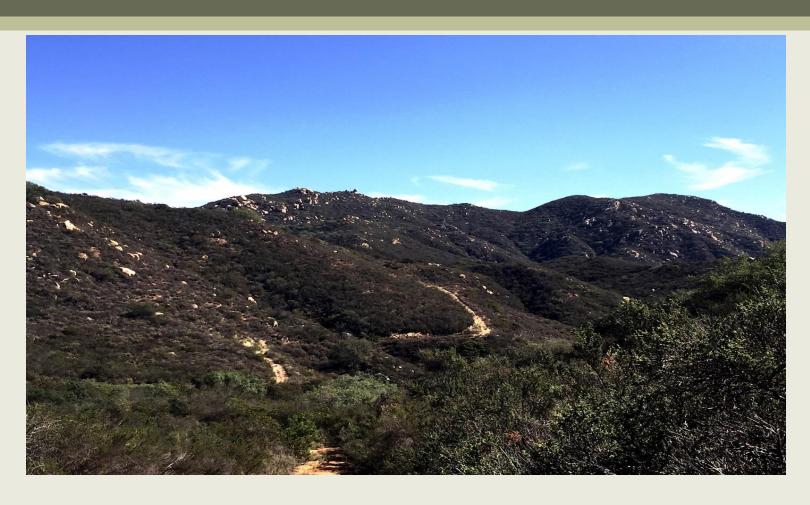

#12. San Diego County Multiple Species Conservation Plan (Skyline 244)

No Name Slough and pump along the southern boundary of the property. View is looking east along Eagle Lane.

Silvery legless lizard

One of the many drainages on the property and one of the lots used for row crops

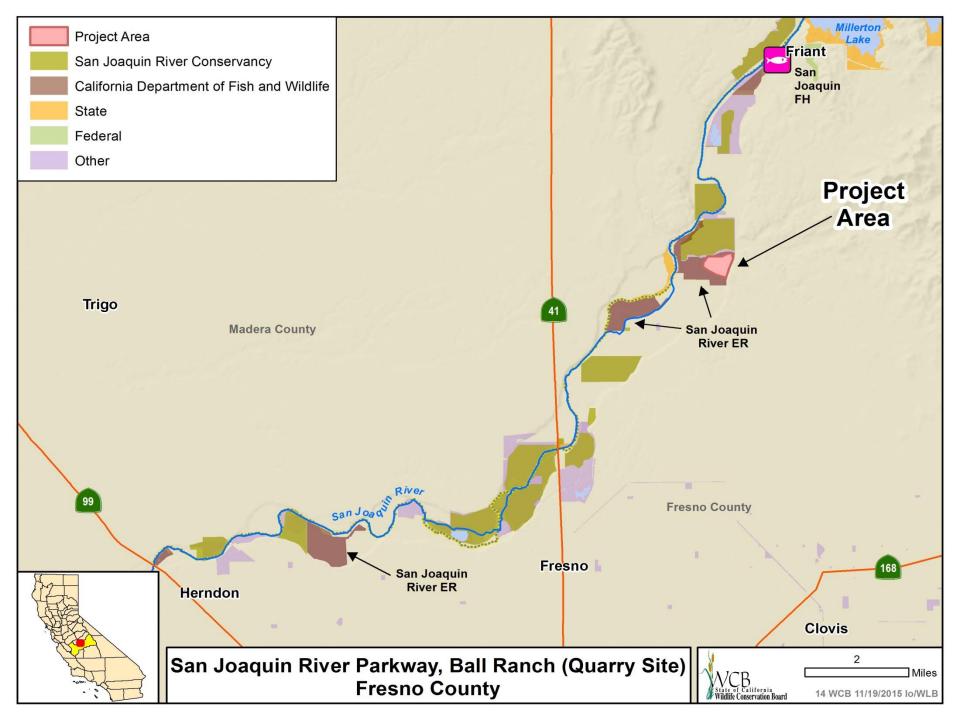

Looking west, with Mount Diablo in the background. One of many drainage ditches on the Property.

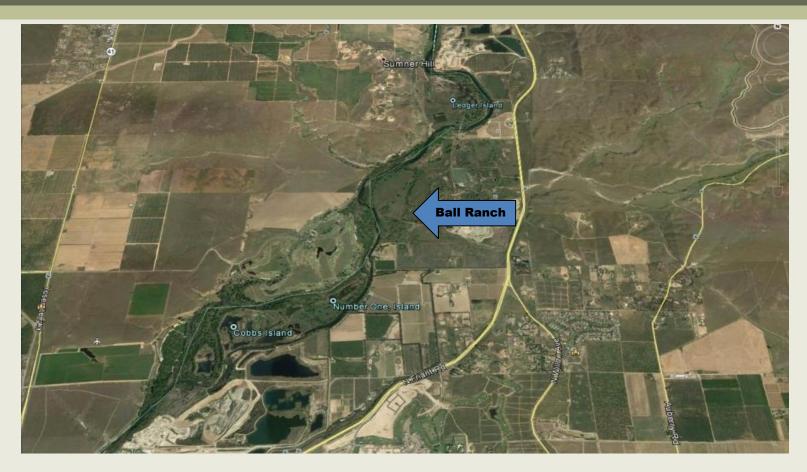

View of cropland on the property looking east from Byron Highway

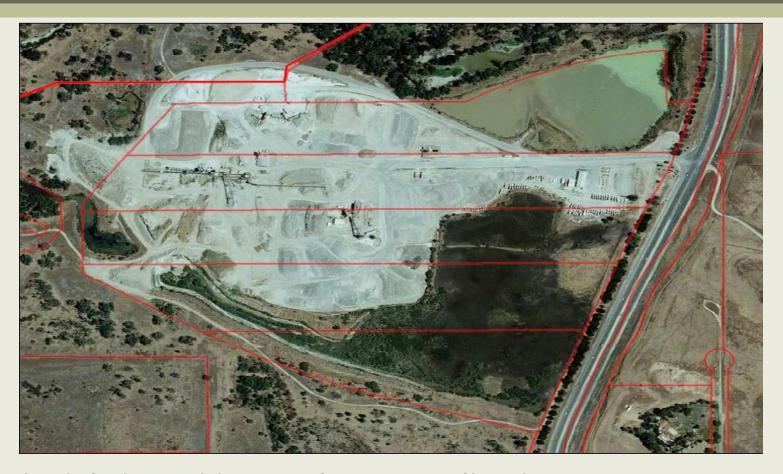

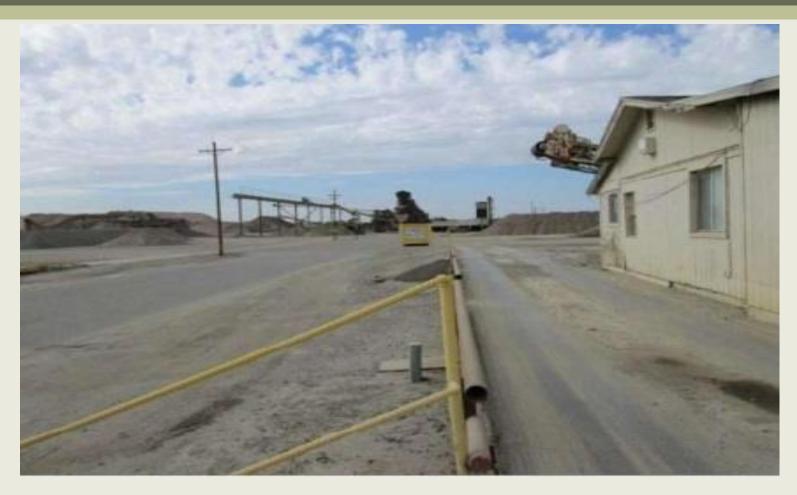

Aerial view of Ball Ranch

Aerial view with parcel maps outlined

Plant Site

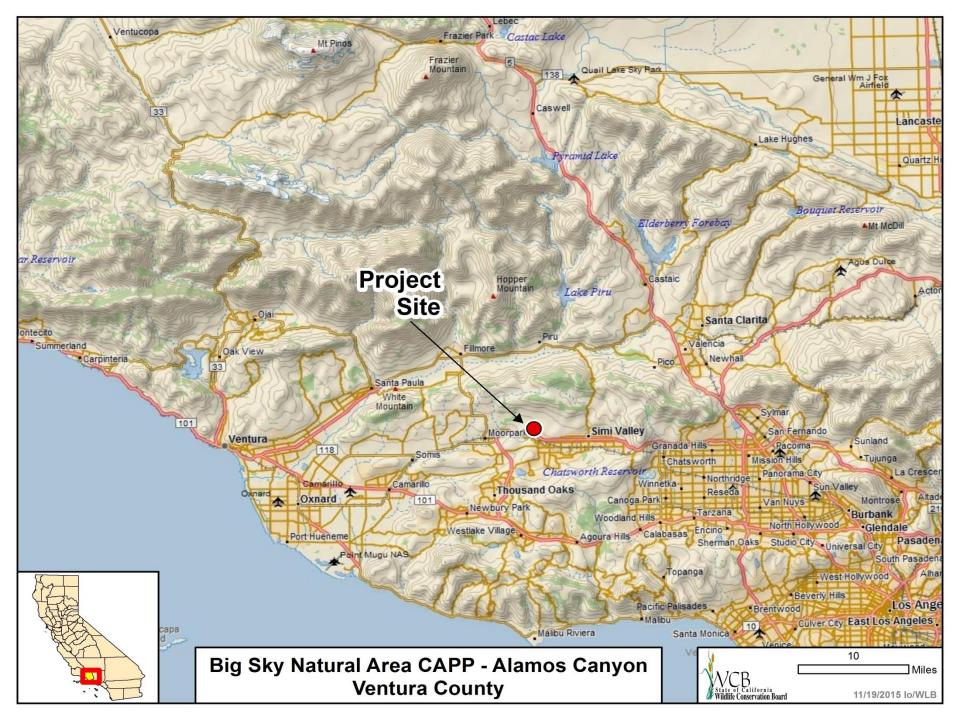

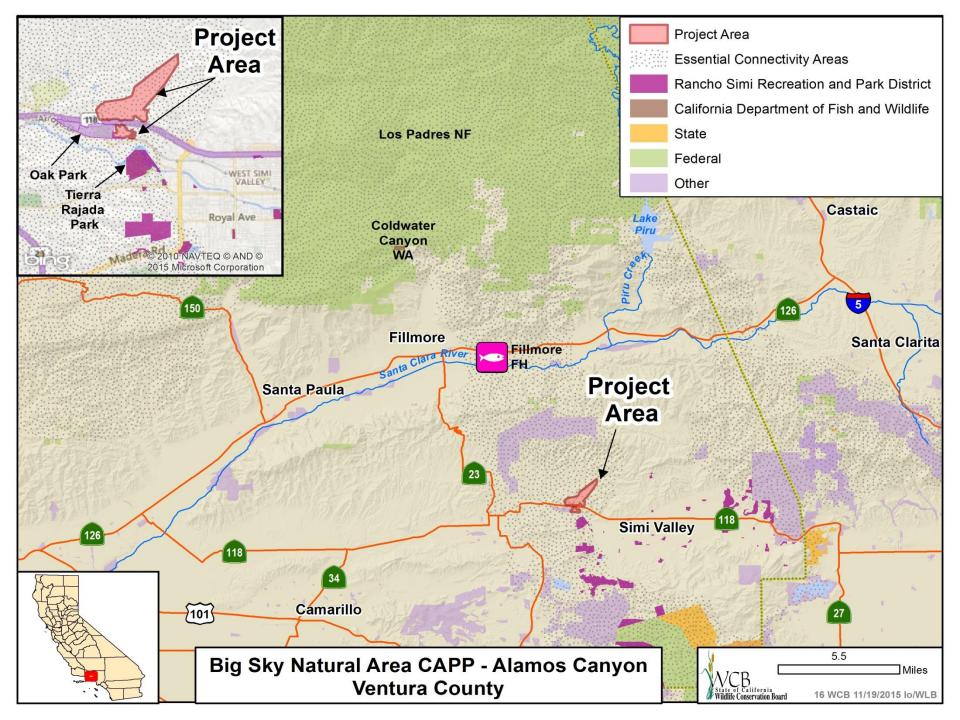

Road along the southern end of the Property

#15. Big Creek Reserve Facility Improvements, Phase II

This Project was withdrawn from consideration at this time.

Underpass to be used as a wildlife passage under the 118 freeway looking west

Underpass to be used as a wildlife passage under the 118 freeway looking east

Western side of property

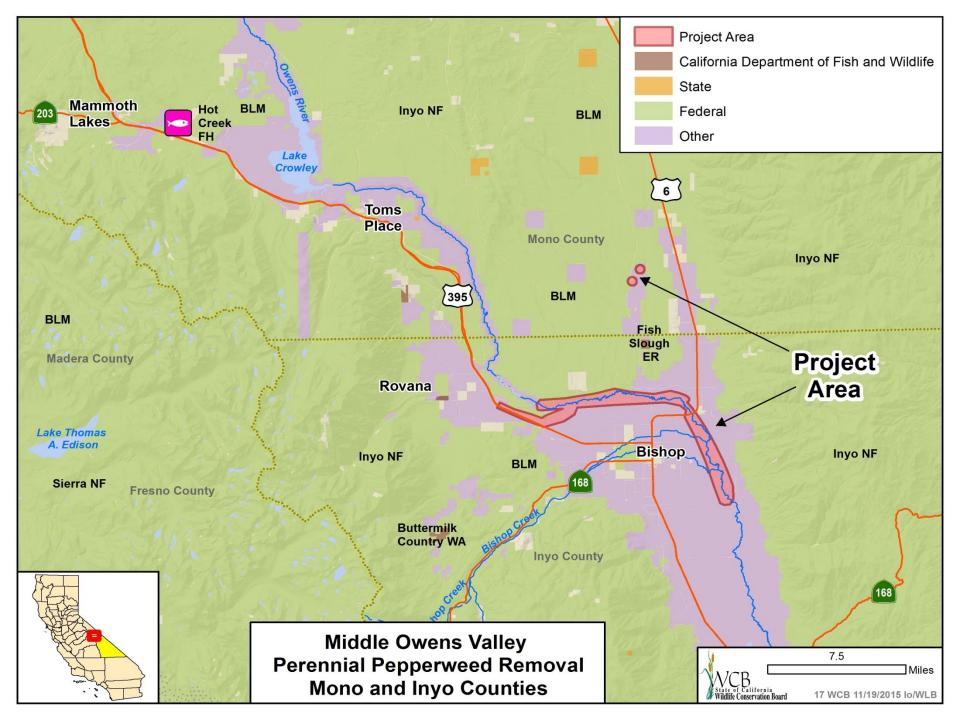

Riparian corridor looking northwest on Alamos Canyon

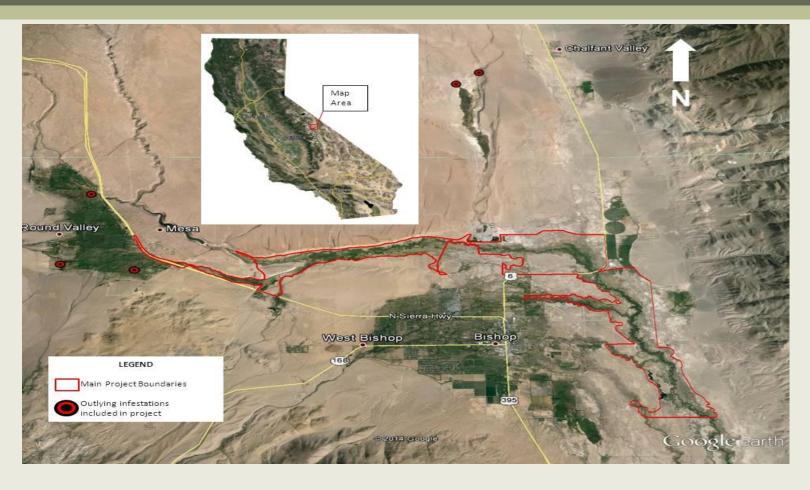

Overview of main parcel on east side of 118 freeway

Treatment area, middle Owens River and Fish Slough

This project would enhance habitat in the middle Owens River project area, as well as protecting sensitive areas of the recovering Lower Owens River downstream

Middle Owens Riparian project area

Pepperweed infestation near proposed project area

Potential for severe impacts: A section of the Truckee River infested with pepperweed near Reno, NV

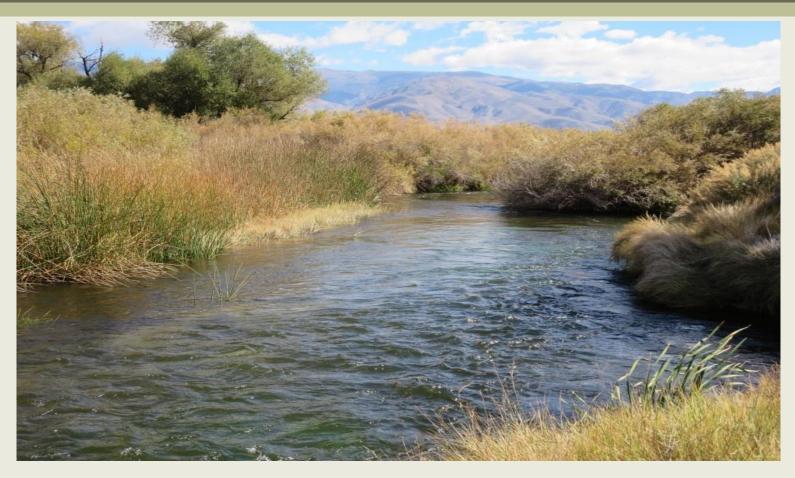

Treated area at Fish Slough

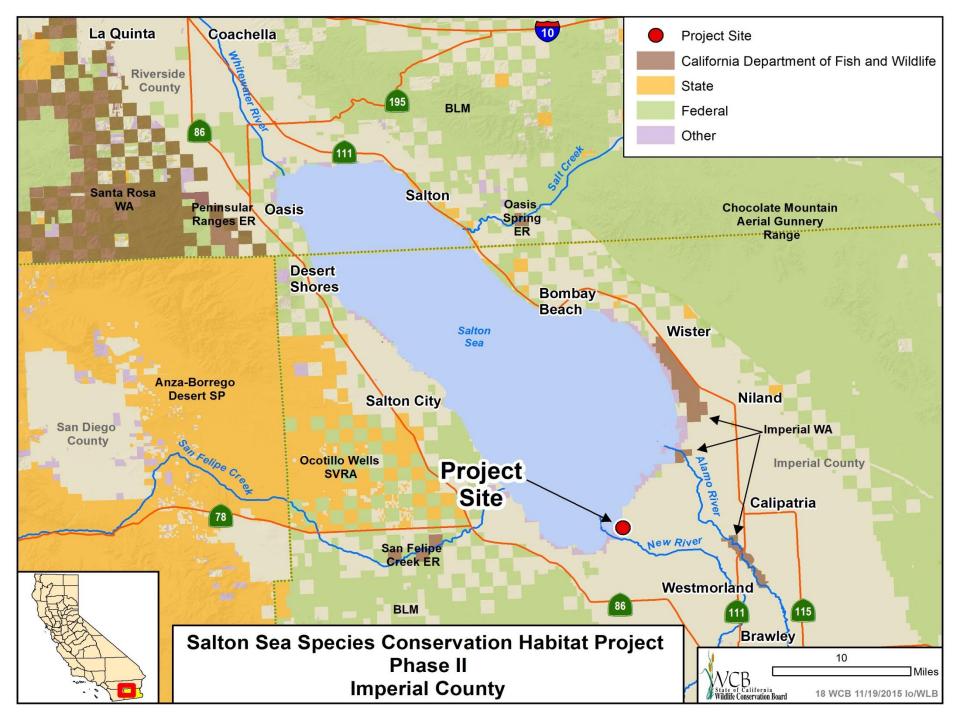

Recovered habitat after pepperweed removal

Middle Owens River

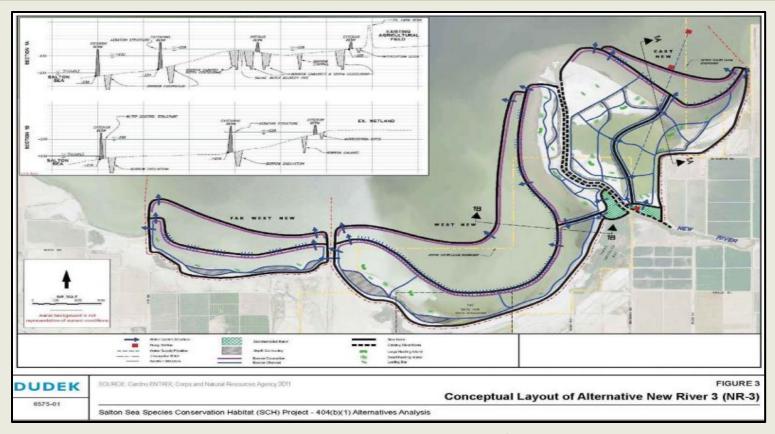

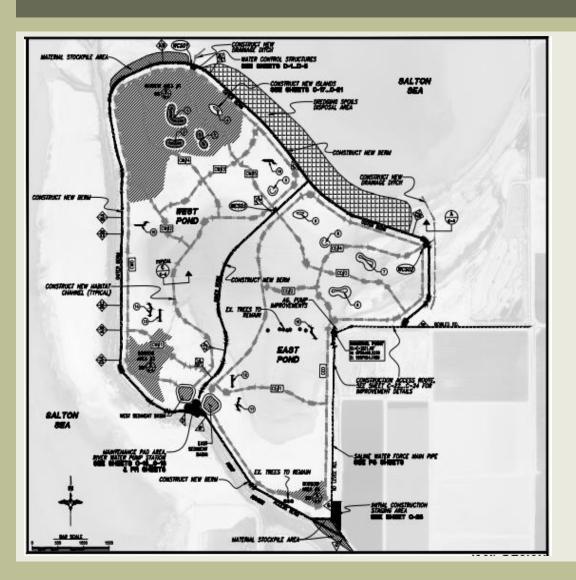

Looking north at the Salton Sea. Imperial Valley agriculture runoff flows into the New and Alamo Rivers and empties into the Sea.

Conceptual layout of the 3,770 acres of Species Conservation Habitat (SCH) ponds. This project will construct 640 acres just east of the New River

Current project will construct 640 acres of the SCH ponds. Project will consist of two ponds with multiple islands and channels.

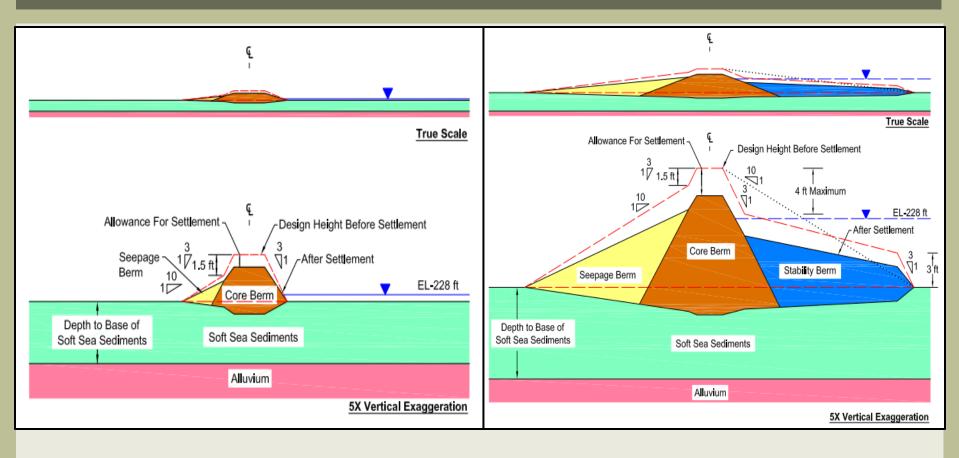

Looking north towards the Salton Sea at the New River. The Species Conservation Habitat (SCH) ponds will be constructed just east (to the right in photo above) of the New River on the exposed playa.

Looking west across playa where SCH ponds will be constructed with the New River and Salton Sea in the background.

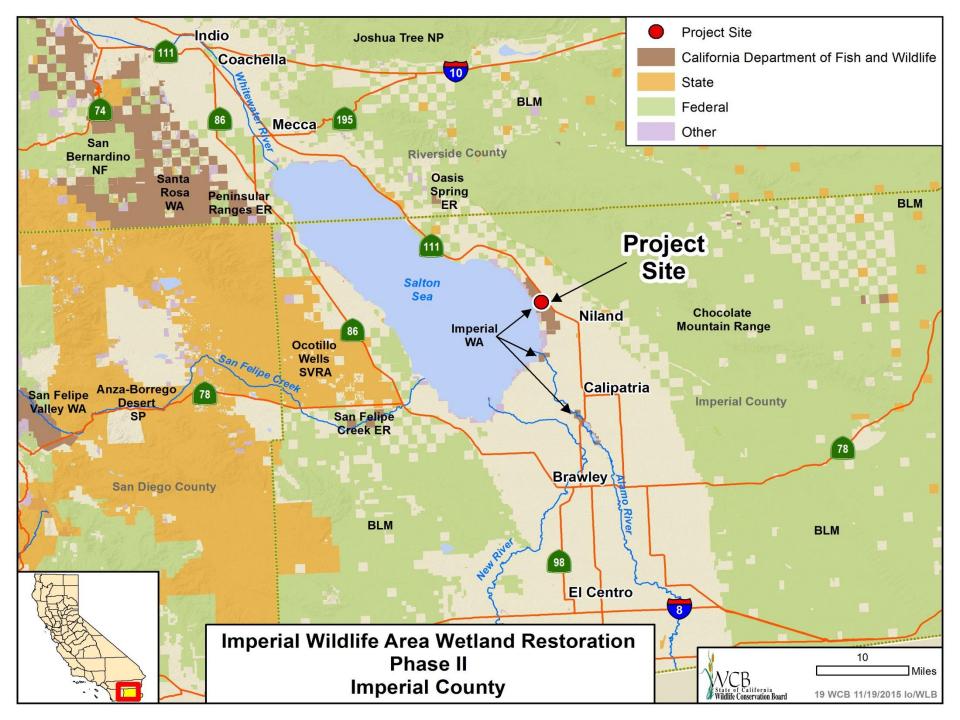

Engineered Berm Construction for SCH Ponds. From simple to highly complex

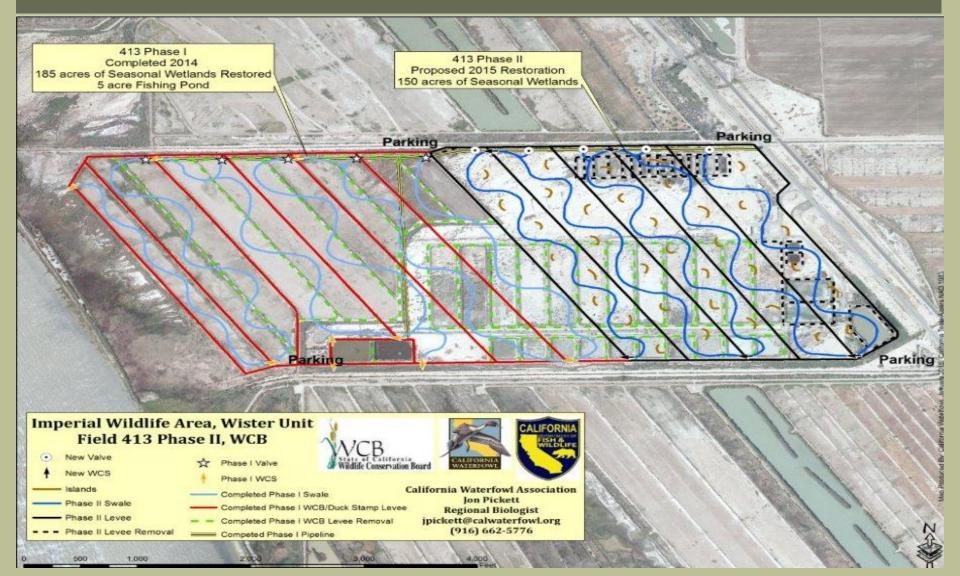

Mullet Island located near the project site in the Salton Sea was one of the most productive nesting sites for double-crested cormorants and at times hosted the largest inland colony in the western U.S. In 2014, the water level of the Sea dropped and a land bridge formed, resulting in predator access and zero nesting cormorants. The proposed project will mimic this habitat on 1-2 acre islands in the SCH ponds.

#19. Imperial Wildlife Area Wetland Restoration, Phase II

#19. Imperial Wildlife Area Wetland Restoration, Phase II

Federal and State funded projects since 2008

#19. Imperial Wildlife Area Wetland Restoration, Phase II

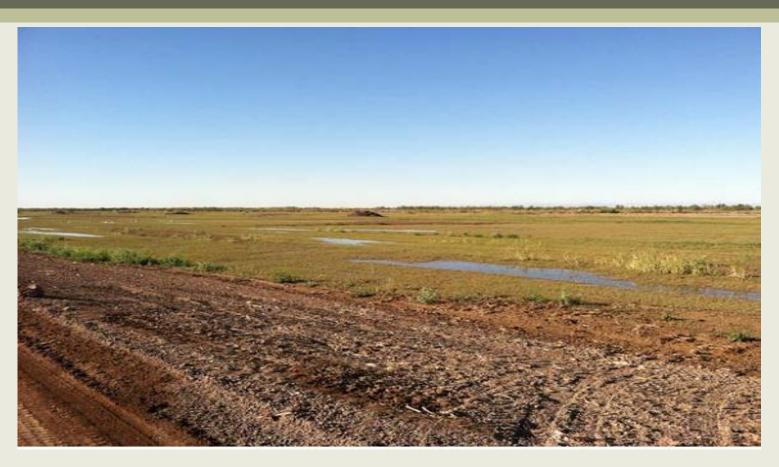

Clean site ready for restoration

#19. Imperial Wildlife Area Wetland Restoration, Phase II

Improved waterfowl feed production 2015
