

Statewide Apprentice Pheasant Hunt – Interim Progress Report

Since July of 2018, California Waterfowl has worked closely with five game bird clubs located in four regions in California. Through the program CWA has: expanded the participant list using upland game bird coupons for pheasant, chukar, and quail, promoted these opportunities through our website, newspapers, and social media pages, received and managed registrations, voucher drawing, and coordinated hunt plans with the hunters.

Below are the participating game bird clubs and the number of applications received.

Region 1 – Northern (Clear Creek): 24 applications received.

Region 2 – North Central (Quail Point): 35 applications received.

Region 3 – Bay-Delta (Birds Landing and Hastings Island): Birds Landing 50 applications received, Hastings Island 42 applications received.

Region 6 – Inland Deserts (Raahauges): 25 applications received.

Applicants registered for free through a secured page on calwaterfowl.org. Through a random draw process 75 winners were selected. Each winner received a \$150 voucher with instructions to contact the drawn game bird club. Tasks one through seven were completed on schedule.
