2 68320. The owner of a dam is not liable in damages to any person exercising the
3 right to fish, who suffers any injury through coming in contact with, or tampering
4 with, any of the property of the owner of the dam.

5 **Comment.** Section 68320 continues former Fish and Game Code Section 5944 without
6 substantive change.

7 Article 2. Requirements for Existing Dams

8 **§ 68400. Department examination of dams**

9 68400. The department shall, from time to time, examine all dams in all rivers
10 and streams in this State naturally frequented by fish.

11 **Comment.** Section 68400 continues former Fish and Game Code Section 5930 without
12 substantive change.

13 **§ 68405. Required fishway**

14 68405. (a) If, in the opinion of the commission, there is not free passage for fish
15 over or around any dam, the department shall cause plans to be furnished for a
16 suitable fishway, and order in writing the owner of the dam to provide the dam,
17 within a specified time, with a durable and efficient fishway, of such form and
18 capacity and in such location as shall be determined by the department.

19 (b) The fishway shall be completed by the owner of the dam to the satisfaction
20 of the department within the time specified.

21 **Comment.** Section 68405 continues former Fish and Game Code Section 5931 without
22 substantive change.

23 **§ 68410. Additional structures**

24 68410. When all of the provisions of this chapter have been complied with, if in
25 the opinion of the commission changed conditions make additional structures
26 desirable for the free passage of fish, the department may make any additional
27 structures and may expend any sums of money that it deems necessary for the
28 additional construction, including the cost of insurance against any liability that
29 the department may incur in connection with those structures.

30 **Comment.** Section 68410 continues former Fish and Game Code Section 5932 without
31 substantive change.

32 Article 3. Requirements for New and Enlarged Dams

33 **§ 68500. Application to build or enlarge dam**

34 68500. Whenever an application for approval of plans and specifications for a
35 new dam in any stream in this state, or for the enlargement of any dam in any
36 stream in this state, is filed with the Department of Water Resources, pursuant to

1 Part 1 (commencing with Section 6000) of Division 3 of the Water Code, a copy
2 of the application shall be filed by the applicant with the commission.

3 **Comment.** Section 68500 continues the first sentence of former Fish and Game Code Section
4 5933 without substantive change.

5 **§ 68505. Initial determination of necessity**

6 68505. If the commission deems that the construction of a fishway over the dam
7 is necessary for the preservation and protection of fish, and that construction and
8 operation of a fishway is practicable, it shall set a date for a hearing to be held
9 within 90 days after filing of the application with the commission.

10 **Comment.** Section 68505 continues the second sentence of former Fish and Game Code
11 Section 5933 without substantive change.

12 **§ 68510. Hearing**

13 68510. At the hearing provided pursuant to Section 68505 the applicant shall be
14 entitled to introduce evidence to show that construction of the fishway is not
15 necessary or is not practicable, taking into consideration the height of the dam and
16 the amount of water available.

17 **Comment.** Section 68510 continues the third sentence of former Fish and Game Code Section
18 5933 without substantive change.

19 **§ 68515. Deposition of witnesses in hearing**

20 68515. The commission or any party may, in any hearing, cause the deposition
21 of witnesses to be taken in the manner prescribed by law for depositions in civil
22 actions in the superior courts of this state under Title 4 (commencing with Section
23 2016.010) of Part 4 of the Code of Civil Procedure.

24 **Comment.** Section 68515 continues former Fish and Game Code Section 5934 without
25 substantive change.

26 **§ 68520. Notice of fishway requirement**

27 68520. (a) If, after the hearing, the commission finds that the construction of the
28 fishway is necessary and practicable it shall, within five days after the hearing,
29 notify the applicant to that effect.

30 (b) After notice from the commission that a fishway is required, it shall be
31 unlawful to commence the construction of any new dam or the enlargement of any
32 dam without first obtaining the written approval of the commission of the design
33 for the fishway.

34 **Comment.** Section 68520 continues the fourth and fifth sentences of former Fish and Game
35 Code Section 5933 without substantive change.

Article 4. Requirements in District 2560

§ 68600. Dams constructed in District 2560

68600. (a) The provisions of Section 68650 shall not be applicable to dams constructed in District 2560 after September 9, 1953.

(b) Plans and specifications for the dam shall not be approved by the Department of Water Resources unless adequate provision is made for full compliance with Section 68310.

(c) No permit or license to appropriate water in District 2560 shall be issued by the State Water Rights Board after September 9, 1953, unless conditioned upon full compliance with Section 68310.

Comment. Section 68600 continues former Fish and Game Code Section 5946 without substantive change.

Note. Existing Section 5946 (last amended by 1957 Cal. Stat. ch. 1932) refers to the “State Water Rights Board.” See proposed Section 68600(c). That reference is obsolete; there is no such entity in state government. **The Commission invites comment on whether the provision should be revised to refer to the State Water Resources Control Board, the Department of Water Resources, or some other entity. Alternatively, the provision could be omitted as entirely obsolete.**

§ 68605. Release of water from dam in District 2560

68605. It is unlawful for the owner of a dam in District 2560 to release water from the dam, or any facilities for the generation of hydroelectric energy operated in connection therewith, in varying flows in such a manner as to destroy fish life below such release.

Comment. Section 68605 continues former Fish and Game Code Section 5947 without substantive change.

Article 5. Alternatives

§ 68650. Hatchery in lieu of fishway

68650. (a) Whenever in the opinion of the commission it is impracticable, because of the height of any dam, or other conditions, to construct a fishway over or around the dam, the commission may, in lieu of the fishway, order the owner of the dam completely to equip, within a specified time, on a site to be selected by the department, a hatchery, together with dwellings for help, traps for the taking of fish, and all other equipment necessary to operate a hatchery station, according to plans and specifications furnished by the department.

(b) After the hatchery has been constructed, the department shall operate it without further expense to the owner of the dam except as provided in Sections 68660 and 68665.

Comment. Section 68650 continues former Fish and Game Code Section 5938 without substantive change.

1 **§ 68655. Hatchery size and location**

2 68655. (a) The hatchery, traps, and other equipment necessary to operate a
3 hatchery station shall not be of a size greater than necessary to supply the stream
4 or river with a reasonable number of fish.

5 (b) The owner of the dam shall permit the department to locate the hatchery,
6 dwellings, traps, and other equipment upon any of the land of the owner of the
7 dam upon a site or sites to be mutually agreed upon by the department and the
8 owner of the dam.

9 **Comment.** Section 68655 continues former Fish and Game Code Section 5939 without
10 substantive change.

11 **§ 68660. Provision of electricity to hatchery**

12 68660. If the owner of the dam generates electricity at the place of the dam, the
13 owner shall furnish sufficient light, without charge, for the use of the hatchery.

14 **Comment.** Section 68660 continues former Fish and Game Code Section 5940 without
15 substantive change.

16 **§ 68665. Use of water to operate hatchery**

17 68665. The owner shall permit the use of water, without charge, to operate the
18 hatchery.

19 **Comment.** Section 68665 continues former Fish and Game Code Section 5941 without
20 substantive change.

21 **§ 68670. Fish planting in lieu of fishway or hatchery**

22 68670. The commission may, in lieu of a fishway, hatchery, dwelling, traps or
23 other equipment necessary to operate a hatchery station, order the owner of the
24 dam to plant, under the supervision of the department, the young of any fish that
25 naturally frequent the waters of the stream or river, at such times, in such places,
26 and in such numbers as the commission may order.

27 **Comment.** Section 68670 continues former Fish and Game Code Section 5942 without
28 substantive change.

29 **§ 68675. Sale of fish to be planted**

30 68675. The department may sell, at cost, to the owner of a dam, young fish
31 ordered to be planted.

32 **Comment.** Section 68675 continues former Fish and Game Code Section 5945 without
33 substantive change.

CHAPTER 4. CONDUITS AND SCREENS: DIVERSIONS OVER 250 CUBIC
FEET PER SECOND

Article 1. General provisions

§ 68800. Application of title

68800. (a) This chapter shall apply only to a conduit that meets one or both of the following criteria:

(1) The conduit is described in Section 68920.

(2) The conduit has a maximum flow capacity over 250 cubic feet per second of water.

(b) In classifying conduits it is recognized that those involving the passage of water through power devices and those of large size tend to destroy fish in a greater degree than conduits of smaller size or different type.

(c) If this section is for any reason held to be unconstitutional, that decision shall not affect the validity of the remainder of this chapter.

(d) The Legislature hereby declares that the persons owning conduits referred to in this section are subject to the provisions of this chapter.

Comment. Section 68800 restates former Fish and Game Code Section 5980 without substantive change.

Note. Existing Section 5980 provides that “this article” only applies to “conduits described in Section 5987, and conduits with a maximum flow capacity over 250 cubic feet per second of water.” The Commission has two questions about this provision:

(1) Section 5987 (proposed Section 68920) does not seem to describe a kind of conduit. That provision is a special cost-reimbursement rule applicable to persons involved in energy production and transmission. **What is the meaning of the reference to Section 5987?**

(2) It appears that the provision governs a conduit that meets *either* of the stated criteria. This can be inferred from the first sentence of existing Section 6020 (proposed Section 69000), which appears to govern conduits that are *not* governed by Section 5980 (“This article shall apply only to conduits with a maximum flow capacity of 250 cubic feet per second or less of water, other than those conduits described in Section 5987.”). Proposed Section 68800(a) has been restated to make its meaning clearer. **The Commission invites comment on whether that revision would cause any problems.**

Article 2. Screen Requirements

§ 68850. General requirement

68850. (a) The department shall examine all conduits. If, in the opinion of the department, a screen is necessary to prevent fish from passing into a conduit, the department shall order the owner of the conduit to install a screen.

(b) Except as provided in Sections 68920, 68865 and 68870, one-half of the expense of constructing or installing a screen shall be paid by the owner of a conduit and one-half by the department.

1 **Comment.** Subdivision (a) of Section 68850 restates the first sentence of former Fish and
2 Game Code Section 5981 without substantive change.

3 Subdivision (b) continues the second sentence of former Fish and Game Code Section 5981
4 without substantive change.

5 **Note.** Proposed Section 68850(a) would restate the first sentence of existing Section 5981 to
6 improve its clarity, without changing its substantive effect. The existing provision reads as
7 follows:

8 “The department shall examine all conduits; and order the owner of a conduit to install, and it is
9 the duty of such an owner to install, a screen on the conduit when, in the opinion of the
10 department, a screen is necessary to prevent fish from passing into the conduit.”

11 The language stating the owner’s duty to comply with a department order is omitted as redundant.
12 Existing Section 5990 (proposed Section 68860) expressly states an owner’s duty to comply with
13 a department order to install a screen. **The Commission invites comment on whether the**
14 **proposed restatement would cause any problems.**

15 **§ 68855. Content of order**

16 68855. An order to install a screen shall be in writing, and shall specify the type,
17 size, mesh, material and location of the screen, the time within which the screen
18 shall be installed, and an estimate of the expense of installing the screen.

19 **Comment.** Section 68855 continues former Fish and Game Code Section 5982 without
20 substantive change.

21 **§ 68860. Duty to install and maintain screen**

22 68860. It is unlawful for the owner of a conduit to refuse, fail, or neglect to
23 install a screen in compliance with an order from the department or to permit the
24 screen to be removed or taken out of place, except for repairs or cleaning while
25 water is running in the conduit.

26 **Comment.** Section 68860 continues former Fish and Game Code Section 5990 without
27 substantive change.

28 **§ 68865. Acceptance**

29 68865. (a) When a screen has been installed, the owner may, by written notice
30 within 90 days after the installation, request the department to inspect the screen
31 for the purpose of accepting it.

32 (b) It is then the duty of the department to inspect the screen, and if it has been
33 installed in accordance with the order and plans and specifications agreed upon by
34 the department and the owner as provided in Section 68925 or approved by the
35 Department of Water Resources the department shall accept and approve the
36 screen in writing.

37 (c) If, upon inspection it appears that the screen has not been constructed and
38 installed in accordance with plans and specifications, the department shall, within
39 60 days after the inspection, notify the owner of any deviation from the order.

40 (d) The deviation may be remedied within 90 days, and a further inspection
41 requested.

1 **Comment.** Section 68865 continues former Fish and Game Code Section 5988 without
2 substantive change.

3 **§ 68870. Inefficient screen**

4 68870. After acceptance, if the screen fails to function in an efficient manner, no
5 changes in conditions affecting its operation having occurred subsequent to the
6 acceptance of the screen:

7 (a) The owner shall not be required to install a new screen.

8 (b) The department may install another screen at the sole cost and expense of the
9 department of a type, size, mesh, and at a location agreed upon by the department
10 and the owner, or approved by the Department of Water Resources, as provided in
11 Section 68925.

12 **Comment.** Section 68870 continues former Fish and Game Code Section 5989 without
13 substantive change.

14 **§ 68875. Department election to install screen**

15 68875. (a) In lieu of ordering the owner to install a screen, the department may,
16 at its option, elect to construct and install the screen itself, in which event the type,
17 size, mesh, and location of the screen and the time within which it shall be
18 installed shall be determined as provided by Section 68925.

19 (b) When the department elects to construct and install a screen, one-half of the
20 cost of construction and installation shall be paid by the owner.

21 (c) The department may pay the entire cost of the construction and installation
22 of a screen from the Fish and Game Preservation Fund, in which case it shall,
23 upon completion of the screen, notify the owner of the amount of one-half of the
24 cost, and the owner shall, within 30 days thereafter, remit that amount to the
25 department.

26 **Comment.** Section 68875 continues former Fish and Game Code Section 5991 without
27 substantive change.

28 Article 3. Costs

29 **§ 68900. Department contribution**

30 68900. When an order is made to install a screen, the department shall pay the
31 owner of the conduit upon whom the order is served one-half of the estimated
32 expense of the construction or installation of the screen.

33 **Comment.** Section 68900 continues former Fish and Game Code Section 5983 without
34 substantive change.

35 **§ 68905. Additional contribution**

36 68905. If the expense of constructing or installing a screen exceeds the
37 estimated expense the department shall, upon written notification by the owner of
38 the conduit, inspect the screen, and pay to the owner one-half of the amount
39 estimated to be necessary to complete the construction or installation of the screen.

1 **Comment.** Section 68905 continues former Fish and Game Code Section 5984 without
2 substantive change.

3 **§ 68910. Return of surplus contribution**

4 68910. The owner of the conduit shall, within 10 days after completing the
5 installation of the screen, return to the department any surplus money advanced by
6 the department pursuant to this chapter.

7 **Comment.** Section 68910 continues former Fish and Game Code Section 5985 without
8 substantive change.

9 **§ 68915. Source of funds**

10 68915. All money paid by the department to the owner of a conduit pursuant to
11 this chapter shall be paid out of the Fish and Game Preservation Fund.

12 **Comment.** Section 68915 continues former Fish and Game Code Section 5986 without
13 substantive change.

14 **§ 68920. Contribution exception**

15 68920. (a) The department shall not pay one-half of the expense of the
16 construction and installation of any screen as provided in Sections 68850, 68900,
17 and 68905 to any person engaged in producing, generating, transmitting,
18 delivering, or furnishing electricity for light, heat or power.

19 (b) If this section is for any reason held to be unconstitutional, the decision shall
20 not affect the validity of Section 68850, 68900 or 68905, and the Legislature
21 hereby declares that the persons mentioned in this section shall be subject to the
22 provisions of Sections 68850, 68900 and 68905.

23 **Comment.** Section 68920 continues former Fish and Game Code Section 5987 without
24 substantive change.

25 **§ 68925. Screen standards**

26 68925. (a) Any screen installed under any of the provisions of this chapter shall
27 be reasonably adequate to prevent fish from passing into the conduit and not
28 unnecessarily impede the flow of water or prevent the owner from diverting the
29 amount of water the owner is legally entitled to divert.

30 (b) The type, size, mesh, and location of the screen and the time within which it
31 shall be installed shall be mutually agreed upon by the department and the owner
32 of the conduit. In the event the department and the owner of the conduit cannot
33 agree upon the type, size, mesh, and location of the screen and the time within
34 which it shall be installed, those matters shall be submitted for determination to
35 the Department of Water Resources whose decision thereon shall be final and
36 conclusive.

37 (c) If the owner and the department fail to agree upon the type, size, mesh,
38 location, and time of installation of the screen within 60 days from the first
39 submission of proposed plans and specifications by the department to the owner,
40 either the department or the owner may submit those matters, in writing to the

Department of Water Resources for final and conclusive decision, and it shall, within 60 days from that reference, render its decision in writing determining those matters.

(d) The department shall maintain and keep the screen in repair, and shall quarterly notify the owner in writing of the cost thereof, and the owner shall within 30 days thereafter remit to the department an amount equal to one-half of the cost.

(e) The owner shall operate and keep free from debris any screen installed, and shall quarterly notify the department in writing of the cost thereof, and the department shall within 30 days thereafter remit to the owner an amount equal to one-half of the cost.

Comment. Section 68925 continues former Fish and Game Code Section 5992 without substantive change.

§ 68930. Cost agreement

68930. Before the installation of any screen under the provisions of this chapter, the department and the owner shall enter into an agreement defining the method of determining the cost of maintenance, repairs, operation, and keeping the screen free of debris, which agreement shall provide that in the event either the department or the owner objects to the cost the matter shall be referred to the Director of General Services for a final and conclusive decision.

Comment. Section 68930 continues former Fish and Game Code Section 5993 without substantive change.

CHAPTER 5. CONDUITS AND SCREENS: DIVERSIONS OF 250 CUBIC FEET PER SECOND OR LESS

Article 1. General Provisions

§ 69000. Application of title

69000. (a) This chapter shall apply only to conduits with a maximum flow capacity of 250 cubic feet per second or less of water, other than those conduits described in Section 68920.

(b) If this section is for any reason held to be unconstitutional, that decision shall not affect the validity of Chapter 4 (commencing with Section 68800) and the Legislature hereby declares that the persons owning conduits referred to in this section shall be subject to the provisions of Chapter 4 (commencing with Section 68800).

Comment. Section 69000 continues former Fish and Game Code Section 6020 without substantive change.

Note. Existing Section 6020 refers to a conduit “described in Section 5987.” As explained in the Note following proposed Section 68800, Section 5987 does not describe a kind of conduit. **What is the meaning of the reference to Section 5987?**

Article 2. Screen or Bypass Requirements

§ 69050. General requirement

69050. (a) The department shall examine new or existing conduits, and may install, maintain, repair, and replace fish screens, bypasses, or other devices to prevent the passage of fish through a conduit, when in the opinion of the department the screen or device is practical and necessary.

(b) The owner of a conduit shall grant to the department the right of access to the conduit for the installation and maintenance of the screen, and shall provide the department with an easement for a site for the installation of the screen or device deemed suitable by the department.

(c) The owner shall supply sufficient water for a bypass to carry fish stopped by the screen or device back to the channel from which they were diverted, and an easement for the bypass channel, but the easement shall not require the acquisition or leasing of additional lands by the owner.

(d) No water for a bypass shall be required if the channel from which the water is diverted is dry or incapable of supporting fish life below the point of diversion.

Comment. Section 69050 continues former Fish and Game Code Section 6021 without substantive change.

§ 69055. Screen standards

69055. Any screen installed under this chapter shall meet both of the following requirements:

(a) The screen shall be reasonably adequate to prevent fish from passing into the conduit.

(b) The screen will not unnecessarily impede the flow of water or prevent the owner from diverting the amount of water the owner is legally entitled to divert.

Comment. Section 69055 restates former Fish and Game Code Section 6026 without substantive change.

§ 69060. Sufficient water for bypass

69060. Sufficient water for a bypass shall not exceed the following:

(a) Diversions under three cubic feet per second capacity shall not be required to bypass more than 18 gallons per minute.

(b) Diversions of three cubic feet per second or more, but under 10 cubic feet per second, shall not be required to bypass more than 30 gallons per minute.

(c) Diversions of 10 cubic feet per second or more, but under 20 cubic feet per second, shall not be required to bypass more than 40 gallons per minute.

(d) Diversions of 20 cubic feet per second or over shall not be required to bypass more than one-half of 1 percent of the capacity of the diversion.

(e) Diversions built by the Government of the United States and requiring bypasses longer than one-quarter mile shall bypass an amount of water necessary to return fish to the permanent channel satisfactorily.

Comment. Section 69060 continues former Fish and Game Code Section 6022 without substantive change.

§ 69065. Written notice and agreement

69065. (a) The department shall serve written notice upon each owner of its intention to install a fish screen.

(b) The notice shall describe the location of the screen, the access required, and the amount of water required for the bypass. The location of the screen may be described by the distance downstream from the intake or by another method.

(c) The notice shall be served upon the owner in duplicate.

(d) Once signed by the owner, the notice shall serve as an agreement to the installation of the screen or device, according to the terms set out in the notice

(e) The signed agreement shall require the owner to render any assistance, other than mechanical repair or replacement of parts, necessary to keep the screen or device in satisfactory operating condition. The hiring of additional labor shall not be required for that assistance.

Comment. Section 69065 restates former Fish and Game Code Section 6023 without substantive change.

Note. Proposed Section 69065 would restate existing Section 6023 to improve its clarity, without changing its substantive effect. The existing provision reads as follows:

“The department shall serve written notice upon each owner of its intention to install a fish screen, and shall describe therein the distance downstream from the intake or in other manner the location of the screen, the access required, and the amount of water required for the bypass. The notice shall be served upon the owner in duplicate, and in such form that the original copy upon signature by the owner shall serve as an agreement to the installation of the screen or device under the terms therein, and shall require the owner to render such assistance, other than mechanical repair or replacement of parts, necessary to keep the screen or device in satisfactory operating condition. The hiring of additional labor shall not be required for such assistance.”

The Commission invites comment on whether that restatement would cause any problems.

§ 69070. Disagreement

69070. (a) If the owner fails to sign and return the agreement granting the department the necessary rights for the installation of the screen or device within 60 days after its service on the owner, the department may install the screen as though the agreement had been signed unless a decision of the Department of Water Resources is requested.

(b) In the event the department and the owner of the conduit cannot agree upon the type, size, mesh, or location of the screen or device, the amount of water required for a bypass, or the time within which the screen or device shall be installed, the matter shall be submitted for determination to the Department of Water Resources, whose decision on those matters shall be final and conclusive.

(c) The Department of Water Resources shall render its decision within 60 days after either the department or the owner has submitted the matter in writing and requested a decision.

1 **Comment.** Section 69070 continues former Fish and Game Code Section 6024 without
2 substantive change.

3 **§ 69075. Duty to maintain screen or bypass**

4 69075. It is unlawful for the owner of a conduit to do either of the following:

5 (a) Cause or permit a screen to be removed or taken out of place, except for
6 repairs or cleaning, while water is running in the conduit.

7 (b) Operate the conduit with the bypass closed when the screen is operating as
8 provided in this chapter.

9 **Comment.** Section 69075 continues former Fish and Game Code Section 6025 without
10 substantive change.

11 **§ 69080. Temporary removal or closure**

12 69080. This chapter does not prevent the department from removing or
13 permitting an owner to remove a screen or close a bypass during any part of the
14 year when the department finds that the action will not endanger fish life.

15 **Comment.** Section 69080 continues former Fish and Game Code Section 6027 without
16 substantive change.

17 **§ 69085. Source of funds**

18 69085. All money paid by the department to the owner of a conduit pursuant to
19 this chapter shall be paid out of the Fish and Game Preservation Fund.

20 **Comment.** Section 69085 continues former Fish and Game Code Section 6028 without
21 substantive change.

22 CHAPTER 6. SPECIFIC AREAS

23 Article 1. Isabella Dam

24 **§ 69200. Isabella Dam**

25 69200. (a) The director shall use the department's resources, to the fullest extent
26 feasible, to coordinate with the federal government to promote the preservation of
27 species, including species listed as endangered species or threatened species under
28 the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.) and the
29 California Endangered Species Act, Part 1 (commencing with Section 62000) of
30 Division 17, and their habitats within the locale of Isabella Dam and Reservoir in
31 Kern County in order to facilitate the continued operation of those facilities for
32 flood control and water conservation storage as authorized by Congress and as
33 provided in an agreement, dated October 23, 1964, among the United States and
34 various local public agencies.

35 (b) Nothing in this section is intended to amend, modify, or alter in any manner
36 the intent of the California Endangered Species Act.

37 **Comment.** Section 69200 continues former Fish and Game Code Section 1018 without
38 substantive change.

Article 2. Klamath River Fish and Wildlife District (Division 2670)

§ 69250. Prohibition

69250. (a) Every person, firm, corporation, or company that constructs or maintains any dam or other artificial obstruction in any of the waters of Fish and Wildlife District 2670 is guilty of a crime.

(b) Any dam or other artificial obstruction constructed, placed, or maintained in any of the waters of Fish and Wildlife District 2670 is a public nuisance.

Comment. Section 69250 continues part of the fourth paragraph of former Fish and Game Code Section 11036 without substantive change.

See also Section 6410 (enforcement).

TITLE 2. DIVERSION OF WATER FROM
STREAMS

CHAPTER 1. DIVERSION DELETERIOUS TO SALMON OR STEELHEAD

§ 69500. Diversion deleterious to salmon or steelhead

69500. (a) Notwithstanding any provision of Chapter 4 (commencing with Section 68800) of, and Chapter 5 (commencing with Section 69000) of Title 1, on or after January 1, 1972, any new diversion of water from any stream having populations of salmon and steelhead that is determined by the department to be deleterious to salmon and steelhead shall be screened by the owner.

(b) The construction, operation, or maintenance costs of any screen required pursuant to this chapter shall be borne by the owner of the diversion.

Comment. Section 69500 continues former Fish and Game Code Section 6100(a) without substantive change.

See also Section 6552 (enforcement).

§ 69505. Notice of determination

69505. (a) If the department has determined that a diversion is deleterious to salmon and steelhead pursuant to Section 69500, it shall provide written notice of its determination to the owner.

(b) The department shall notify the owner that it shall make onsite investigation and shall make any other investigation before it shall propose any measures necessary to protect fishlife.

(c) Within 30 days of providing notice under this section, or within a time determined by mutual written agreement, the department shall submit to the owner its proposals as to measures necessary to protect the salmon and steelhead.

Comment. Section 69505 restates former Fish and Game Code Section 6100(b) without substantive change.

 **Note.** Proposed Section 69505 would restate existing Section 6100(b) to improve its clarity. The restatement would also make explicit a point that is only implicit in existing law: the

1 department must provide written notice to a property owner before taking action under Section
2 6100. The existing provision reads as follows:

3 “The department within 30 days of providing written notice to the owner that the department has
4 determined that the diversion is deleterious to salmon and steelhead pursuant to subdivision (a),
5 or within the time determined by mutual written agreement, shall submit to the owner its
6 proposals as to measures necessary to protect the salmon and steelhead. The department shall
7 notify the owner that it shall make onsite investigation and shall make any other investigation
8 before it shall propose any measures necessary to protect fishlife.”

9 **The Commission invites comment on whether that restatement would cause any problems.**

10 **§ 69510. Provision of information to owner**

11 69510. The department, or any agency of the state, shall provide the owner of
12 the diversion any available information that is required by the owner in order to
13 comply with the provisions of this chapter.

14 **Comment.** Section 69510 continues former Fish and Game Code Section 6100(c) without
15 substantive change.

16 **§ 69515. Department approval requirement**

17 69515. The diversion shall not commence until the department has determined
18 that measures necessary to protect fishlife have been incorporated into the plans
19 and construction of the diversion.

20 **Comment.** Section 69515 continues former Fish and Game Code Section 6100(d) without
21 substantive change.

22 **CHAPTER 2. ENFORCEMENT OF WATER CODE PROVISIONS**

23 **§ 69550. Violations deleterious to fish and wildlife**

24 69550. (a) The director or his or her designee may issue a complaint to any
25 person or entity in accordance with Section 1055 of the Water Code alleging a
26 violation for which liability may be imposed under Section 1052 or 1847 of the
27 Water Code that harms fish and wildlife resources.

28 (b) The complaint is subject to the substantive and procedural requirements set
29 forth in Section 1055 of the Water Code, and the department shall be designated a
30 party to any proceeding before the State Water Resources Control Board regarding
31 a complaint filed pursuant to this section.

32 **Comment.** Section 69550 continues former Fish and Game Code Section 12025.2 without
33 substantive change.

1 TITLE 3. FISH AND WILDLIFE PROTECTION
2 AND CONSERVATION

3 CHAPTER 1. GENERAL PROVISIONS

4 **§ 69700. Findings and declarations**

5 69700. The Legislature finds and declares that the protection and conservation
6 of the fish and wildlife resources of this state are of utmost public interest. Fish
7 and wildlife are the property of the people and provide a major contribution to the
8 economy of the state, as well as providing a significant part of the people's food
9 supply; therefore their conservation is a proper responsibility of the state. This title
10 is enacted to provide conservation for these resources.

11 **Comment.** Section 69700 continues former Fish and Game Code Section 1600 without
12 substantive change.

13 **§ 69705. Definitions**

14 69705. The following definitions apply to this title:

15 (a) "Agreement" means a lake or streambed alteration agreement.

16 (b) "Day" means calendar day.

17 (c) "Emergency" has the same definition as in Section 21060.3 of the Public
18 Resources Code.

19 (d) "Entity" means any person, state or local governmental agency, or public
20 utility that is subject to this title.

21 **Comment.** Section 69705 continues former Fish and Game Code Section 1601 without
22 substantive change.

23 **§ 69710. Violation of title**

24 69710. It is unlawful for any entity to violate this title.

25 **Comment.** Section 69710 continues former Fish and Game Code Section 1602(e) without
26 substantive change.

27 See also Section 6352 (enforcement).

28 **§ 69715. Extension of time**

29 69715. Any time period prescribed in this title may be extended by mutual
30 agreement.

31 **Comment.** Section 69715 continues former Fish and Game Code Section 1607 without
32 substantive change.

33 **§ 69720. Agreements governed by former law**

34 69720. (a) Any agreement or any memorandum of understanding executed by
35 the department pursuant to this title prior to January 1, 2004, shall be subject to,
36 and shall be governed by, the provisions of this title that were in existence prior to
37 that date.

(b) This section does not apply to subdivision (b) of Section 70155, requiring an entity to provide a copy or other satisfactory evidence of an agreement attained prior to January 1, 1977, upon the request of the department.

Comment. Section 69720 continues former Fish and Game Code Section 1616 without substantive change.

CHAPTER 2. PROHIBITION AND AGREEMENTS

Article 1. General Prohibition

§ 69750. General prohibition and exception

69750. An entity shall not substantially divert or obstruct the natural flow of, or substantially change or use any material from the bed, channel, or bank of, any river, stream, or lake, or deposit or dispose of debris, waste, or other material containing crumbled, flaked, or ground pavement where it may pass into any river, stream, or lake, unless all of the following occur:

(a) The department receives written notification regarding the activity in the manner prescribed by the department. The notification shall include, but is not limited to, all of the following:

(1) A detailed description of the project's location and a map.

(2) The name, if any, of the river, stream, or lake affected.

(3) A detailed project description, including, but not limited to, construction plans and drawings, if applicable.

(4) A copy of any document prepared pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code.

(5) A copy of any other applicable local, state, or federal permit or agreement already issued.

(6) Any other information required by the department.

(b) The department determines the notification is complete in accordance with Chapter 4.5 (commencing with Section 65920) of Division 1 of Title 7 of the Government Code, irrespective of whether the activity constitutes a development project for the purposes of that chapter.

(c) The entity pays the applicable fees, pursuant to Section 69780.

(d) One of the following occurs:

(1) (A) The department informs the entity, in writing, that the activity will not substantially adversely affect an existing fish or wildlife resource, and that the entity may commence the activity without an agreement, if the entity conducts the activity as described in the notification, including any measures in the notification that are intended to protect fish and wildlife resources.

(B) Each region of the department shall log the notifications of activities where no agreement is required. The log shall list the date the notification was received by the department, a brief description of the proposed activity, and the location of the activity. Each item shall remain on the log for one year. Upon written request

1 by any person, a regional office shall send the log to that person monthly for one
2 year. A request made pursuant to this clause may be renewed annually.

3 (2) The department determines that the activity may substantially adversely
4 affect an existing fish or wildlife resource and issues a final agreement to the
5 entity that includes reasonable measures necessary to protect the resource, and the
6 entity conducts the activity in accordance with the agreement.

7 (3) A panel of arbitrators issues a final agreement to the entity in accordance
8 with Article 4 (commencing with Section 70050), and the entity conducts the
9 activity in accordance with the agreement.

10 (4) The department does not issue a draft agreement to the entity within 60 days
11 from the date notification is complete, and the entity conducts the activity as
12 described in the notification, including any measures in the notification that are
13 intended to protect fish and wildlife resources.

14 **Comment.** Section 69750 continues former Fish and Game Code Section 1602(a) without
15 substantive change.

16 See also Sections 6350, 6352, 6552, 6554 (enforcement).

17 Article 2. Agreement Process

18 § 69775. Information provided to entity submitting notification

19 69775. The department shall provide any entity that submits a notification
20 pursuant to Section 69750 with all of the following information:

21 (a) The time period for review of the notification.

22 (b) An explanation of the entity's right to object to any measures proposed by
23 the department.

24 (c) The time period within which objections may be made in writing to the
25 department.

26 (d) The time period within which the department is required to respond, in
27 writing, to the entity's objections.

28 (e) An explanation of the right of the entity to arbitrate any measures in a draft
29 agreement.

30 (f) The procedures and statutory timelines for arbitration, including, but not
31 limited to, information about the payment requirements for arbitrator fees.

32 (g) The current schedule of fees to obtain an agreement.

33 **Comment.** Section 69775 continues former Fish and Game Code Section 1608 without
34 substantive change.

35 **Note.** Existing Section 1608 refers to the submission of "notification pursuant to Section
36 1602." Proposed Section 69775 narrows that reference to refer only to existing Section 1608(a)
37 (proposed Section 69750), the part of Section 1608 that authorizes the submission of notice. **The**
38 **Commission invites Comment on whether that revision would cause any problems.**

1 **§ 69780. Fees**

2 69780. (a) The department may establish a graduated schedule of fees to be
3 charged to any entity subject to this title.

4 (b) The fees charged shall be established in an amount necessary to pay the total
5 costs incurred by the department in administering and enforcing this title,
6 including, but not limited to, preparing and submitting agreements and conducting
7 inspections.

8 (c) (1) The fee schedule established pursuant to subdivision (a) shall not include
9 a fee that exceeds five thousand dollars (\$5,000) for any single project.

10 (2) The fee limitation described in paragraph (1) does not apply to any project
11 included in any agreement issued pursuant to Section 69875.

12 (d) The department shall annually adjust the fees pursuant to Section 3755.

13 (e) Fees received pursuant to this section shall be deposited in the Fish and
14 Game Preservation Fund.

15 **Comment.** Section 69780 continues former Fish and Game Code Section 1609 without
16 substantive change.

17 **§ 69785. Fee payment prior to processing notification**

18 69785. Notwithstanding Section 69750, the department is not required to
19 determine whether a notification is complete or otherwise process the notification
20 until the department has received the applicable fees.

21 **Comment.** Section 69785 continues former Fish and Game Code Section 1602(c) without
22 substantive change.

23 **§ 69790. Suspension of process**

24 69790. (a) If, after receiving a notification, but before the department executes a
25 final agreement, the department informs the entity, in writing, that the activity
26 described in the notification, or any activity or conduct by the entity directly
27 related thereto, violates any provision of this code or the regulations that
28 implement the code, the department may suspend processing the notification, and
29 paragraph (4) of subdivision (d) of Section 69750 and the timelines specified in
30 Sections 69795, 69805, and 69810 do not apply.

31 (b) This section ceases to apply if any of the following occurs:

32 (1) The department determines that the violation has been remedied.

33 (2) Legal action to prosecute the violation is not filed within the applicable
34 statute of limitations.

35 (3) Legal action to prosecute the violation has been terminated.

36 **Comment.** Section 69790 continues former Fish and Game Code Section 1613 without
37 substantive change.

1 **§ 69795. Draft agreement**

2 69795. (a) After the notification is complete, the department shall determine
3 whether the activity may substantially adversely affect an existing fish and
4 wildlife resource.

5 (b) If the department determines that the activity may have that effect, the
6 department shall provide a draft agreement to the entity within 60 days after the
7 notification is complete.

8 (c) The draft agreement shall describe the fish and wildlife resources that the
9 department has determined the activity may substantially adversely affect and
10 include measures to protect those resources.

11 (d) The department's description of the affected resources shall be specific and
12 detailed, and the department shall make available, upon request, the information
13 upon which its determination of substantial adverse effect is based.

14 **Comment.** Section 69795 continues the first four sentences of former Fish and Game Code
15 Section 1603(a) without substantive change.

16 **§ 69800. Prohibited conditions**

17 69800. The department shall not condition the issuance of an agreement on the
18 receipt of another local, state, or federal permit.

19 **Comment.** Section 69800 continues former Fish and Game Code Section 1606 without
20 substantive change.

21 **§ 69805. Response to draft agreement**

22 69805. (a) Within 30 days of the date of receipt of the draft agreement, the entity
23 shall notify the department whether the measures to protect fish and wildlife
24 resources in that draft agreement are acceptable.

25 (b) If the department's measures are not acceptable, the entity shall so notify the
26 department in writing and specify the measures that are not acceptable.

27 (c) Upon written request, the department shall meet with the entity within 14
28 days of the date the department receives the request for the purpose of resolving
29 any disagreement regarding those measures.

30 **Comment.** Section 69805 continues the fifth through seventh sentences of former Fish and
31 Game Code Section 1603(a) without substantive change.

32 **§ 69810. Failure to respond to draft agreement**

33 69810. If the entity fails to respond, in writing, within 90 days of receiving the
34 draft agreement, the department may withdraw that agreement, and require the
35 entity to resubmit a notification to the department before commencing the activity.

36 **Comment.** Section 69810 continues the eighth sentence of former Fish and Game Code
37 Section 1603(a) without substantive change.

38 **§ 69815. Work required by court order, administrative order, or notice**

39 69815. If the entity is required to perform work subject to this title pursuant to a
40 court or administrative order or notice, the entity shall include the measures

1 proposed by the department to protect fish and wildlife resources in the agreement.
2 Those measures are not subject to arbitration.

3 **Comment.** Section 69815 continues former Fish and Game Code Section 1614 without
4 substantive change.

5 Article 3. Duration and Extension

6 § 69850. Default maximum term

7 69850. (a) Except as otherwise provided in this article, the term of an agreement
8 shall not exceed five years.

9 (b) Notwithstanding subdivision (a), after the agreement expires, the entity shall
10 remain responsible for implementing any mitigation or other measures specified in
11 the agreement to protect fish and wildlife resources.

12 **Comment.** Section 69850 continues former Fish and Game Code Section 1605(a) without
13 substantive change.

14 See also Section 6350 (enforcement).

15 § 69855. Extension of agreement

16 69855. (a) Any entity may request one extension of a previously-approved
17 agreement, if the entity requests the extension prior to the expiration of its original
18 term.

19 (b) The department shall grant the extension unless it determines that the
20 agreement requires modification because the measures contained in the agreement
21 no longer protect the fish and wildlife resources that the activity may substantially
22 adversely affect. In the event the department makes that determination, the
23 department shall propose measures intended to protect those resources.

24 (c) If the entity disagrees with the department's determination that the
25 agreement requires modification to protect fish and wildlife resources or with the
26 measures proposed by the department, the disagreement shall be resolved pursuant
27 to the procedures described in Article 4 (commencing with Section 70050).

28 **Comment.** Section 69855 continues former Fish and Game Code Section 1605(b)-(c) without
29 substantive change.

30 § 69860. Maximum extension

31 69860. The department may not extend an agreement for more than five years.

32 **Comment.** Section 69860 continues former Fish and Game Code Section 1605(d) without
33 substantive change.

34 § 69865. Continuation pending resolution of extension request

35 69865. (a) An original agreement shall remain in effect until the department
36 grants the extension request, or new measures are imposed to protect fish and
37 wildlife resources by agreement or through the arbitration process.

38 (b) Notwithstanding subdivision (a), an original agreement may not remain in
39 effect for more than one year after its expiration date.

1 **Comment.** Section 69865 continues former Fish and Game Code Section 1605(e) without
2 substantive change.

3 **§ 69870. Failure to submit timely extension request**

4 69870. If the entity fails to submit a request to extend an agreement prior to its
5 expiration, the entity shall submit a new notification before commencing or
6 continuing the activity covered by the agreement.

7 **Comment.** Section 69870 continues former Fish and Game Code Section 1605(f) without
8 substantive change.

9 **§ 69875. Long-term agreements**

10 69875. (a) Notwithstanding subdivision (a) of Section 69850, the department
11 may issue an agreement, that otherwise meets the requirements of this title, for a
12 term longer than five years if the following conditions are satisfied:

13 (1) The information the entity provides to the department in its notification
14 meets the requirements of subdivision (a) of Section 69750.

15 (2) The entity agrees to provide a status report to the department every four
16 years. The status report shall be delivered to the department no later than 90 days
17 prior to the end of each four-year period, and shall include all of the following
18 information:

19 (A) A copy of the original agreement.

20 (B) The status of the activity covered by the agreement.

21 (C) An evaluation of the success or failure of the measures in the agreement to
22 protect the fish and wildlife resources that the activity may substantially adversely
23 affect.

24 (D) A discussion of any factors that could increase the predicted adverse impacts
25 on fish and wildlife resources, and a description of the resources that may be
26 adversely affected.

27 (b) The department shall review the four-year status report, and conduct an
28 onsite inspection to confirm that the entity is in compliance with the agreement
29 and that the measures in the agreement continue to protect the fish and wildlife
30 resources.

31 (c) If the department determines that the measures in the agreement no longer
32 protect the fish and wildlife resources that are being substantially adversely
33 affected by the activity, the department, in consultation with the entity, and within
34 45 days of receipt of the report, shall impose one or more new measures to protect
35 the fish and wildlife resources affected by the activity.

36 (d) If requested to do so by the entity, the department shall make available the
37 information upon which it determined the agreement no longer protects the
38 affected fish and wildlife resources.

39 (e) If the entity disagrees with one or more of the new measures, within seven
40 days of receiving the new measures, it shall notify the department, in writing, of
41 the disagreement.

(f) The entity and the department shall consult regarding the disagreement. The consultation shall be completed within seven days after the department receives the entity's notice of disagreement.

(g) If the department and entity fail to reach agreement, the entity may request, in writing, the appointment of a panel of arbitrators to resolve the disagreement. The panel of arbitrators shall be appointed within 14 days of the completed consultation. The panel of arbitrators shall issue a decision within 14 days of the date it is established. All other provisions of Article 4 (commencing with Section 70050) regarding the panel shall apply to any arbitration panel established in accordance with this section.

(h) If the entity fails to provide timely status reports as required by this section, the department may suspend or revoke the agreement.

(i) The agreement shall authorize department employees to conduct onsite inspections relevant to the agreement, upon reasonable notice. Nothing in this article limits the authority of department employees to inspect private or public sites.

(j) Except as provided in subdivisions (b) through (h), inclusive, paragraph (4) of subdivision (d) of Section 69750 and the time periods to process agreements specified in this title do not apply to agreements issued pursuant to this article.

Comment. Section 69875 continues former Fish and Game Code Section 1605(g) without substantive change.

§ 69880. Long-term agreement log

69880. (a) Each region of the department shall log the notifications of activities for which a long-term agreement is being considered pursuant to Section 69875.

(b) The log shall list the date the notification was received by the department, a brief description of the proposed activity, and the location of the activity.

(c) Each item shall remain on the log for one year.

(d) Upon written request by any person, a regional office shall send the log to that person monthly for one year. A request made pursuant to this section may be renewed annually.

Comment. Section 69880 continues former Fish and Game Code Section 1605(h) without substantive change.

 **Note.** Existing Section 1605(h) erroneously refers to “this paragraph.” That error is corrected in proposed Section 69880(d) (by referring to “this section”). **The Commission invites comment on whether that revision would cause any problems.**

§ 69885. Suspension or revocation of agreement

69885. (a) The department may suspend or revoke an agreement at any time if it determines that an entity is not in compliance with the terms of the agreement or fails to provide timely status reports as required by Section 69875.

(b) The department shall adopt regulations establishing the procedure for suspension or revocation of an agreement. The procedure shall require the

1 department to provide to the entity a written notice that explains the basis for a
2 suspension or revocation, and to provide the entity with an opportunity to correct
3 any deficiency before the department suspends or revokes the agreement.

4 **Comment.** Section 69885 continues former Fish and Game Code Section 1612 without
5 substantive change.

6 See also Section 6350 (enforcement).

7 Article 4. Arbitration Panel

8 § 70050. Appointment of panel

9 70050. (a) If mutual agreement is not reached at any meeting held pursuant to
10 Section 69805, the entity may request, in writing, the appointment of a panel of
11 arbitrators to resolve the disagreement.

12 (b) A panel of arbitrators shall be appointed within 14 days of receipt of the
13 written request.

14 **Comment.** Section 70050 continues the first and second sentences of former Fish and Game
15 Code Section 1603(b) without substantive change.

16 § 70055. Composition of panel

17 70055. (a) The panel of arbitrators shall be comprised of three persons, as
18 follows: one representative selected by the department; one representative selected
19 by the affected entity; and a third person mutually agreed upon by the department
20 and the entity, who shall serve as the panel chair.

21 (b) If the department and the entity cannot agree on the third person within that
22 14-day period, the third person shall be appointed in the manner provided by
23 Section 1281.6 of the Code of Civil Procedure.

24 (c) The third person shall have scientific expertise relevant to the fish and
25 wildlife resources that may be substantially adversely affected by the activity
26 proposed by the entity and to the measures proposed by the department to protect
27 those resources.

28 **Comment.** Section 70055 continues the third through fifth sentences of former Fish and Game
29 Code Section 1603(b) without substantive change.

30 § 70060. Authority of panel

31 70060. The authority of the panel of arbitrators is limited to resolving
32 disagreements regarding the measures specified in Sections 69795, 69805, 69855,
33 and 69875, and, in the case of an extension, whether or not the agreement needs to
34 be modified to protect fish and wildlife resources.

35 **Comment.** Section 70060 continues the sixth sentence of former Fish and Game Code Section
36 1603(b) without substantive change.

37 § 70065. Decision

38 70065. (a) Any decision by the panel of arbitrators shall be issued within 14
39 days from the date the panel was established.

- 1 (b) The decision shall be binding on the department and the affected entity.
2 (c) The decision shall be based on the best scientific information reasonably
3 available at the time of the arbitration
4 (d) Except for a decision to extend an agreement without modification, the
5 decision shall be made in the form of a final agreement. The final agreement
6 issued by the panel shall also include, without modification, all measures that were
7 not subject to arbitration.
8 **Comment.** Section 70065 restates the seventh and eighth sentences of former Fish and Game
9 Code Section 1603(b) without substantive change.

10 **§ 70070. Expenses**

- 11 70070. Each party shall pay the expenses of their selected representative and pay
12 one-half the expenses of the third person.
13 **Comment.** Section 70070 continues the ninth sentence of former Fish and Game Code Section
14 1603(b) without substantive change.

15 **§ 70075. Court review**

- 16 70075. Any party affected by a decision made by an arbitration panel pursuant
17 to this title may petition a court of competent jurisdiction for confirmation,
18 correction, or vacation of the decision in accordance with Chapter 4 (commencing
19 with Section 1285) of Title 9 of Part 3 of the Code of Civil Procedure.
20 **Comment.** Section 70075 continues former Fish and Game Code Section 1604 without
21 substantive change.

22 **Article 5. Exceptions and Special Rules for Specific Activities**

23 **§ 70150. Emergency exception**

- 24 70150. (a) Except as provided in subdivision (b), this title does not apply to any
25 of the following:
26 (1) Immediate emergency work necessary to protect life or property.
27 (2) Immediate emergency repairs to public service facilities necessary to
28 maintain service as a result of a disaster in an area in which a state of emergency
29 has been proclaimed by the Governor pursuant to Chapter 7 (commencing with
30 Section 8550) of Division 1 of Title 2 of the Government Code.
31 (3) Emergency projects undertaken, carried out, or approved by a state or local
32 governmental agency to maintain, repair, or restore an existing highway, as
33 defined in Section 360 of the Vehicle Code, within the existing right-of-way of the
34 highway, that has been damaged as a result of fire, flood, storm, earthquake, land
35 subsidence, gradual earth movement, or landslide, within one year of the damage.
36 Work needed in the vicinity above and below a highway may be conducted
37 outside of the existing right-of-way if it is needed to stop ongoing or recurring
38 mudslides, landslides, or erosion that pose an immediate threat to the highway, or
39 to restore those roadways damaged by mudslides, landslides, or erosion to their

1 predamage condition and functionality. This paragraph does not exempt from this
2 title any project undertaken, carried out, or approved by a state or local
3 governmental agency to expand or widen a highway damaged by fire, flood,
4 storm, earthquake, land subsidence, gradual earth movement, or landslide. The
5 exception provided in this paragraph does not apply to a highway designated as an
6 official state scenic highway pursuant to Section 262 of the Streets and Highways
7 Code.

8 (b) The entity performing the emergency work described in subdivision (a) shall
9 notify the department of the work, in writing, within 14 days of beginning the
10 work. Any work described in the emergency notification that does not meet the
11 criteria for the emergency work described in subdivision (a) is a violation of this
12 title if the entity did not first notify the department in accordance with Section
13 69750 or 70160.

14 **Comment.** Section 70150 continues former Fish and Game Code Section 1610 without
15 substantive change.

16 **§ 70155. Water supply, drainage, flood control, water treatment**

17 70155. (a) If an activity involves the routine maintenance and operation of water
18 supply, drainage, flood control, or waste treatment and disposal facilities, notice to
19 and agreement with the department shall not be required after the initial
20 notification and agreement, unless the department determines either of the
21 following:

22 (1) The work described in the agreement has substantially changed.

23 (2) Conditions affecting fish and wildlife resources have substantially changed,
24 and those resources are adversely affected by the activity conducted under the
25 agreement.

26 (b) This section applies only if notice to, and agreement with, the department
27 was attained prior to January 1, 1977, and the department has been provided a
28 copy of the agreement or other proof of the existence of the agreement that
29 satisfies the department, if requested.

30 **Comment.** Section 70155 continues former Fish and Game Code Section 1602(b) without
31 substantive change.

32 **§ 70160. Timber harvest plan as notification**

33 70160. (a) An entity that submits a timber harvesting plan in accordance with
34 Section 4581 of the Public Resources Code or directly to the department is
35 deemed to have given the notification required by Section 69750, as long as the
36 following information is included in the plan:

37 (1) The volume, type, and equipment to be used in removing or displacing any
38 one or combination of soil, sand, gravel, or boulders.

39 (2) The volume of water, intended use, and equipment to be used in any water
40 diversion or impoundment, if applicable.

41 (3) The equipment to be used in road or bridge construction.

1 (4) The type and density of vegetation to be affected and an estimate of the area
2 involved.

3 (5) A diagram or sketch of the location of the operation that clearly indicates the
4 stream or other water and access from a named public road. Locked gates shall be
5 indicated and the compass direction shall be shown.

6 (6) A description of the period of time in which operations will be carried out.

7 (b) Notwithstanding subdivision (a), the department is not required to determine
8 whether the notification is complete or otherwise process the notification until the
9 timber harvesting plan and the proper notification fee have both been received by
10 the department.

11 (c) Nothing in this section requires the department to issue an agreement fewer
12 than 60 days from the date the notification is complete.

13 (d) The date on which the term of an agreement issued pursuant to this section
14 begins shall be the date timber operations first commence, unless the agreement
15 specifies a later beginning date.

16 **Comment.** Section 70160 continues former Fish and Game Code Section 1611 without
17 substantive change.

18 **§ 70165. Licensed cannabis cultivation**

19 70165. (a) Notwithstanding Section 69750, an entity shall not be required to
20 obtain an agreement with the department pursuant to this title for activities
21 authorized by a license or renewed license for cannabis cultivation issued by the
22 Department of Food and Agriculture for the term of the license or renewed license
23 if all of the following occur:

24 (1) The entity submits all of the following to the department:

25 (A) The written notification described in subdivision (a) of Section 69750.

26 (B) A copy of the license or renewed license for cannabis cultivation issued by
27 the Department of Food and Agriculture that includes the requirements specified
28 in Section 26060.1 of the Business and Professions Code.

29 (C) The fee specified in subdivision (c) of Section 69750.

30 (2) The department determines in its sole discretion that compliance with the
31 requirements specified in Section 26060.1 of the Business and Professions Code
32 that are included in the license will adequately protect existing fish and wildlife
33 resources that may be substantially adversely affected by the cultivation without
34 the need for additional measures that the department would include in a draft
35 streambed alteration agreement in accordance with Section 69795.

36 (3) The department notifies the entity in writing that the exemption applies to
37 the cultivation authorized by the license or renewed license.

38 (b) The department shall notify the entity in writing whether the exemption in
39 subdivision (a) applies to the cultivation authorized by the license or renewed
40 license within 60 days from the date that the notification is complete and the fee
41 has been paid.

(c) If an entity receives an exemption pursuant to this section and fails to comply with any of the requirements described in Section 26060.1 of the Business and Professions Code that are included in the license, the failure shall constitute a violation of Section 69750, and the department shall notify the Department of Food and Agriculture of any enforcement action taken.

Comment. Section 70165 continues former Fish and Game Code Section 1602(d) without substantive change.

Notes. (1) Existing Section 1602(d) refers to a “draft streambed alteration agreement in accordance with Section 1602.” Proposed Section 70165 would narrow that cross-reference to the part of Section 1602 that appears to be relevant to the purpose of the reference (i.e., proposed Section 69795). **The Commission invites comment on whether that revision would cause any problems.**

(2) Existing Section 1602(d)(3) refers to “a violation under this section.” Proposed Section 70165(c) would narrow that cross-reference to the part of Section 1602 that appears to be relevant to the purpose of the reference (i.e., proposed Section 69750). **The Commission invites comment on whether that revision would cause any problems.**

§ 70170. Area agreement regarding cannabis cultivation

70170. (a) The department may adopt general agreements for the cultivation of cannabis.

(b) Any general agreement adopted by the department subsequent to adoption of regulations under this section shall be in lieu of an individual agreement described in paragraph (2) of subdivision (d) of Section 69750.

(c) Paragraph (4) of subdivision (d) of Section 69750 and all other time periods to process agreements specified in this title do not apply to the issuance of a general agreement adopted by the department pursuant to this section.

(d) Any general agreement issued by the department pursuant to this section is a final agreement and is not subject to Article 4 (commencing with Section 70050) or Sections 69795, 69805, 69810, and 70075.

(e) The department shall charge a fee for a general agreement adopted by the department under this section in accordance with Section 69780.

(f) If the department adopts or amends a general agreement under this section, it shall do so as an emergency regulation. An emergency regulation adopted pursuant to this section, and any amendments to it, shall be adopted by the department in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The adoption of these regulations is an emergency and shall be considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, and general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, an emergency regulation adopted by the department, or any amendments to it made by the department pursuant to this section, shall stay in effect until revised by the department.

(g) Regulations adopted pursuant to this section, and any amendment thereto, shall not be subject to Division 13 (commencing with Section 21000) of the Public Resources Code.

Comment. Section 70170 continues former Fish and Game Code Section 1617 without substantive change.

PART 5. MINING

TITLE 1. VACUUM OR SUCTION DREDGING

CHAPTER 1. GENERAL PROVISIONS

§ 71000. Definitions

71000. (a) For purposes of this section and Section 71200, “river, stream, or lake” means the body of water at the current water level at the time of the dredging.

(b) For purposes of Sections 6500, 71050, 71200, and 71270, “person” does not include a partnership, corporation, or other type of association.

(c) For purposes of this title, the use of vacuum or suction dredge equipment, also known as suction dredging, is the use of a mechanized or motorized system for removing or assisting in the removal of, or the processing of, material from the bed, bank, or channel of a river, stream, or lake in order to recover minerals.

Comment. Subdivision (a) of Section 71000 continues former Fish and Game Code Section 5653.5 without substantive change.

Subdivision (b) continues former Fish and Game Code Section 5653.8 without substantive change.

Subdivision (c) continues the first sentence of former Fish and Game Code Section 5653(g) without substantive change.

Note. Existing Section 5653(g) defines the terms “vacuum or suction dredge equipment” and “suction dredging” for the purposes of Sections 5653 and 5653.1. In proposed Section 71000(c), the application of the definition is broadened to apply to the entire title. This appears to be appropriate because (1) vacuum and suction dredging is the subject of the title, and (2) Sections 5653 and 5653.1 are the only sections in the title that use the defined terms. **The Commission invites comment on whether this revision would cause any problems.**

§ 71005. Exception for recreational mining

71005. This title does not apply to, prohibit, or otherwise restrict nonmotorized recreational mining activities, including panning for gold.

Comment. Section 71005 continues the second sentence of former Fish and Game Code Section 5653(g) without substantive change.

Note. Existing Section 5653(g) establishes an exception to the application of Sections 5653 and 5653.1. In proposed Section 71005, that rule is stated as an exception to the entire title that contains Sections 5653 and 5653.1. **The Commission believes that this revision would be nonsubstantive, but invites comment on whether it would cause any problems.**

1 **§ 71010. Regulations**

2 71010. The department shall adopt regulations to carry out Chapter 2
3 (commencing with Section 71050) and Chapter 3 (commencing with Section
4 71200) and subdivision (a) of Section 71000. The regulations shall be adopted in
5 accordance with the requirements of Division 13 (commencing with Section
6 21000) of the Public Resources Code and Chapter 3.5 (commencing with Section
7 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

8 **Comment.** Section 71010 continues former Fish and Game Code Section 5653.9 without
9 substantive change.

10 See also Section 6500 (enforcement).

11 **CHAPTER 2. PROHIBITIONS AND REQUIREMENTS**

12 **§ 71050. General prohibition**

13 71050. The use of vacuum or suction dredge equipment by a person in a river,
14 stream, or lake of this state is prohibited, except as authorized under a permit
15 issued to that person by the department in compliance with the regulations adopted
16 pursuant to Section 71010.

17 **Comment.** Section 71050 continues the first sentence of former Fish and Game Code Section
18 5653(a) without substantive change.

19 **§ 71055. Geographic limitations**

20 71055. Under the regulations adopted pursuant to Section 71010, the department
21 shall designate waters or areas wherein vacuum or suction dredge equipment may
22 be used pursuant to a permit, waters or areas closed to the use of that equipment,
23 the maximum size of the vacuum or suction dredge equipment that may be used,
24 and the time of year when the equipment may be used.

25 **Comment.** Section 71055 continues the first sentence of former Fish and Game Code Section
26 5653(c) without substantive change.

27 **§ 71060. Unanticipated water level change**

28 71060. In the event of an unanticipated water level change, when necessary to
29 protect fish and wildlife resources, the department may close areas that were
30 otherwise opened for dredging and for which permits were issued pursuant to
31 Section 71205.

32 **Comment.** Section 71060 continues former Fish and Game Code Section 5653.7 without
33 substantive change.

34 **Note.** Existing Section 5653.7 refers to a permit issued “pursuant to Section 5653.” Proposed
35 Section 71060 would narrow that cross-reference to the part of Section 5653 that appears to be
36 relevant to the purpose of the reference (i.e., proposed Section 71205). **The Commission invites**
37 **comment on whether that revision would cause any problems.**

1 **§ 71065. Unlawful possession of equipment**

2 71065. It is unlawful to possess a vacuum or suction dredge in areas, or in or
3 within 100 yards of waters, that are closed to the use of vacuum or suction
4 dredges.

5 **Comment.** Section 71065 continues former Fish and Game Code Section 5653(e) without
6 substantive change.

7 **§ 71075. Equipment inspection**

8 71075. Any person required to possess a permit pursuant to Section 71050 shall
9 present his or her dredging equipment for inspection upon request of a state or
10 county fish and game warden.

11 **Comment.** Section 71075 continues former Fish and Game Code Section 5653.3 without
12 substantive change.

13 🔍 **Note.** Existing Section 5653.7 refers to a “person required to possess a permit pursuant to
14 Section 5653.” Proposed Section 71075 would narrow that cross-reference to the part of Section
15 5653 that appears to be relevant to the purpose of the reference (i.e., proposed Section 71050).
16 **The Commission invites comment on whether that revision would cause any problems.**

17 CHAPTER 3. PERMITS

18 Article 1. Application and Issuance

19 **§ 71200. Permit application**

20 71200. (a) Before a person uses vacuum or suction dredge equipment in a river,
21 stream, or lake of this state, that person shall submit an application to the
22 department for a permit to use the vacuum or suction dredge equipment,
23 specifying the type and size of equipment to be used and other information as the
24 department may require pursuant to regulations adopted by the department to
25 implement this section.

26 (b) The department shall not issue a permit for the use of vacuum or suction
27 dredge equipment until the permit application is deemed complete. A complete
28 permit application shall include any other permit required by the department and
29 one of the following, as applicable:

30 (1) A copy of waste discharge requirements or a waiver of waste discharge
31 requirements issued by the State Water Resources Control Board or a regional
32 water quality control board in accordance with Division 7 (commencing with
33 Section 13000) of the Water Code.

34 (2) A copy of a certification issued by the State Water Resources Control Board
35 or a regional water quality control board and a permit issued by the United States
36 Army Corps of Engineers in accordance with Sections 401 and 404 of the Federal
37 Water Pollution Control Act (33 U.S.C. Secs. 1341 and 1344, respectively) to use
38 vacuum or suction dredge equipment.

(3) If the State Water Resources Control Board or the appropriate regional water quality control board determines that waste discharge requirements, a waiver of waste discharge requirements, or a certification in accordance with Section 1341 of Title 33 of the United States Code is not necessary for the applicant to use of vacuum or suction dredge equipment, a letter stating this determination signed by the Executive Director of the State Water Resources Control Board, the executive officer of the appropriate regional water quality control board, or their designee.

Comment. Subdivision (a) of Section 71200 continues the second sentence of former Fish and Game Code Section 5653(a) without substantive change.

Subdivision (b) continues former Fish and Game Code Section 5653(b) without substantive change.

§ 71205. Issuance of permit

71205. If the department determines, pursuant to the regulations adopted pursuant to Section 71010, that the use of vacuum or suction dredge equipment does not cause any significant effects to fish and wildlife, it shall issue a permit to the applicant.

Comment. Section 71205 continues the second sentence of former Fish and Game Code Section 5653(c) without substantive change.

§ 71255. Permit fees

71255. (a) Except as provided in subdivision (c), the department shall issue a permit upon the payment, in the case of a resident, of a base fee of twenty-five dollars (\$25), as adjusted under Section 3755, when an onsite investigation of the project size is not deemed necessary by the department, and a base fee of one hundred thirty dollars (\$130), as adjusted under Section 3755, when the department deems that an onsite investigation is necessary.

(b) Except as provided in subdivision (c), in the case of a nonresident, the base fee shall be one hundred dollars (\$100), as adjusted under Section 3755, when an onsite investigation is not deemed necessary, and a base fee of two hundred twenty dollars (\$220), as adjusted under Section 3755, when an onsite investigation is deemed necessary.

(c) The department may adjust the base fees for a permit described in this section to an amount sufficient to cover all reasonable costs of the department in regulating suction dredging activities.

Comment. Section 71255 continues former Fish and Game Code Section 5653(d) without substantive change.

§ 71260. Other limitations

71260. (a) A permit issued by the department under Section 71205 shall not authorize an activity in violation of other applicable requirements, conditions, or prohibitions governing the use of vacuum or suction dredge equipment, including those adopted by the State Water Resources Control Board or a regional water quality control board.

(b) The department, the State Water Resources Control Board, and the regional water quality control boards shall make reasonable efforts to share information among the agencies regarding potential violations of requirements, conditions, or prohibitions governing the use of vacuum or suction dredge equipment.

Comment. Section 71260 continues former Fish and Game Code Section 5653(f) without substantive change.

Note. Existing Section 5653(f) refers to a “permit issued by the department under this section.” Proposed Section 71260 would narrow that cross-reference to the part of Section 5653 that appears to be relevant to the purpose of the reference (i.e., proposed Section 71205). **The Commission invites comment on whether that revision would cause any problems.**

Article 2. Environmental Impact Report

§ 71280. Moratorium and regulation review

71280. (a) The issuance of permits to operate vacuum or suction dredge equipment is a project pursuant to the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) and permits may only be issued, and vacuum or suction dredge mining may only occur as authorized by any existing permit, if the department has caused to be prepared, and certified the completion of, an environmental impact report for the project pursuant to the court order and consent judgment entered in the case of Karuk Tribe of California et al. v. California Department of Fish and Game et al., Alameda County Superior Court Case No. RG 05211597.

(b) Notwithstanding Article 1 (commencing with Section 71200) and Chapter 2 (commencing with Section 71050), the use of any vacuum or suction dredge equipment in any river, stream, or lake of this state is prohibited until the director certifies to the Secretary of State that all of the following have occurred:

(1) The department has completed the environmental review of its existing suction dredge mining regulations, as ordered by the court in the case of Karuk Tribe of California et al. v. California Department of Fish and Game et al., Alameda County Superior Court Case No. RG 05211597.

(2) The department has transmitted for filing with the Secretary of State pursuant to Section 11343 of the Government Code, a certified copy of new regulations adopted, as necessary, pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(3) The new regulations described in paragraph (2) are operative.

(4) The new regulations described in paragraph (2) fully mitigate all identified significant environmental impacts.

(5) A fee structure is in place that will fully cover all costs to the department related to the administration of the program.

(c)(1) To facilitate its compliance with subdivision (b), the department shall consult with other agencies as it determines to be necessary, including, but not limited to, the State Water Resources Control Board, the State Department of

Public Health, and the Native American Heritage Commission, and, on or before April 1, 2013, shall prepare and submit to the Legislature a report with recommendations on statutory changes or authorizations that, in the determination of the department, are necessary to develop the suction dredge regulations required by paragraph (2) of subdivision (b), including, but not limited to, recommendations relating to the mitigation of all identified significant environmental impacts and a fee structure that will fully cover all program costs.

(2) The requirement for submitting a report imposed under this subdivision is inoperative on January 1, 2017, pursuant to Section 10231.5 of the Government Code.

(3) The report submitted to the Legislature pursuant to this subdivision shall be submitted in accordance with Section 9795 of the Government Code.

(d) The Legislature finds and declares that this section, as added during the 2009-10 Regular Session, applies solely to vacuum and suction dredging activities conducted for instream mining purposes. This section does not expand or provide new authority for the department to close or regulate suction dredging conducted for regular maintenance of energy or water supply management infrastructure, flood control, or navigational purposes governed by other state or federal law.

(e) This section does not prohibit or restrict nonmotorized recreational mining activities, including panning for gold.

Comment. Section 71280 continues former Fish and Game Code Section 5653.1 without substantive change.

Notes. (1) If the regulation review required by Section 5653.1(b) has been completed, that provision may be obsolete. **The Commission invites input on that issue.**

(2) Existing Section 5653.1(c) requires the preparation of a report by April 1, 2013. By its terms, that requirement became inoperative on January 1, 2017. **The Commission invites comment on whether that provision should be omitted as obsolete.**

TITLE 2. MINING MITIGATION PLANS

§ 71500. Submission of plan

71500. (a) A mine operator shall prepare a mitigation plan that shall be submitted to the department for approval.

(b) For ongoing mining operations, the mitigation plan shall, alone or in conjunction with regulations adopted by the commission, result in an overall reduction in take of avian or mammal species.

Comment. Subdivision (a) of Section 71500 continues the first sentence of former Fish and Game Code Sections 3005(b)(3) and 3800(b)(3) without substantive change.

Subdivision (b) continues the substance of the second sentence of former Fish and Game Code Sections 3005(b)(3) and 3800(b)(3) with one exception: the reference to regulations adopted by the commission was not present in former Section 3005(b)(3).

Note. Proposed Section 71500(b) combines and harmonizes the second sentence of existing Sections 3005(b)(3) and 3800(b)(3). In doing so, it includes language that is present in Section 3800 but is not present in Section 3005. That language is shown in italics below:

1 “For ongoing mining operations, the mitigation plan shall, *alone or in conjunction with*
2 *regulations adopted by the commission*, result in an overall reduction in take of avian or mammal
3 species.”

4 The Commission sees no policy reason that otherwise applicable commission regulations should
5 be taken into account in Section 3800 but disregarded in Section 3005. It seems unlikely that such
6 a distinction was intended. Thus, the proposed harmonization would likely be a clarification of
7 existing law and practice. **The Commission invites public comment on whether the proposed**
8 **revision would cause any problems.**

9 **§ 71505. Plan is site-specific**

10 71505. The mitigation plan shall be prepared on a site-specific basis and may
11 provide for offsite mitigation measures designed to reduce avian mortality.

12 **Comment.** Section 71505 continues the fourth sentence of former Fish and Game Code
13 Sections 3005(b)(3) and 3800(b)(3) without substantive change.

14 **§ 71510. Criteria for approval**

15 71510. (a) Mitigation plans relating to mining operations approved by the
16 department shall, among other criteria, require avoidance of take, where feasible,
17 and include reasonable and practicable methods of mitigating the unavoidable take
18 of birds and mammals.

19 (b) When approving mitigation plans, the department shall consider the use of
20 the best available technology on a site-specific basis.

21 (c) Mitigation plans relating to mining operations approved by the department
22 shall include provisions that address circumstances where mining operations
23 contribute to bird deaths, including ponding of process solutions on heap leach
24 pads and exposure of process solution channels, solution ponds, and tailing ponds.

25 **Comment.** Section 71510 continues former Fish and Game Code Sections 3005(b)(1)-(2) and
26 3800(b)(1)-(2) without substantive change.

27 **§ 71515. Public review and comment**

28 71515. The department shall provide an opportunity for public review and
29 comment on each mitigation plan during the department’s approval process.

30 **Comment.** Section 71515 continues the third sentence of former Fish and Game Code Sections
31 3005(b)(3) and 3800(b)(3) without substantive change.

32 **§ 71520. Monthly reports**

33 71520. The mine operator shall submit monthly monitoring reports on avian
34 mortality to the department to aid in evaluating the effectiveness of onsite
35 mitigation measures.

36 **Comment.** Section 71520 continues the fifth sentence of former Fish and Game Code Sections
37 3005(b)(3) and 3800(b)(3) without substantive change.

38 **§ 71525. Monitoring and evaluation**

39 71525. The department shall monitor and evaluate implementation of the
40 mitigation plan by the mine operator and require modification of the plan or other

1 remedial actions to be taken if the overall reduction in take of avian or mammal
2 species required pursuant to Section 71500 is not being achieved.

3 **Comment.** Section 71525 continues former Fish and Game Code Sections 3005(b)(4) and
4 3800(c) without substantive change.

5 **§ 71530. Reimbursement of department costs**

6 71530. The mining operator shall reimburse the department for its direct costs to
7 provide appropriate notice of the mitigation plan to affected local government
8 entities and other affected parties. The mine operator shall provide the department
9 a limited number of copies, as determined by the department, of the mitigation
10 plan for public review.

11 **Comment.** Section 71530 continues former Fish and Game Code Sections 3005(b)(5) and
12 3800(b)(4) without substantive change.

13 **TITLE 3. MINING IN SPECIFIC AREAS**

14 **CHAPTER 1. TRINITY AND KLAMATH RIVER FISH AND WILDLIFE**
15 **DISTRICT (DISTRICT 2675)**

16 **Article 1. General Provisions**

17 **§ 71700. No affect on other laws**

18 71700. Article 2 (commencing with Section 71750) does not affect any other
19 laws applying to the territory included in District 2675 that relate to birds,
20 mammals, and fish.

21 **Comment.** Section 71700 continues former Fish and Game Code Section 5801 without
22 substantive change.

23 **§ 71705. No limitation of authority of specified entities**

24 71705. No provision of this chapter is a limitation on the authority of the State
25 Water Resources Control Board or any California Regional Water Quality Control
26 Board to adopt and enforce additional discharge requirements or prohibitions.

27 **Comment.** Section 71705 continues former Fish and Game Code Section 5803 without
28 substantive change.

29 **§ 71710. No application to specified federal activities**

30 71710. Article 2 (commencing with Section 71750) does not apply to the
31 construction, repair, or maintenance of public works by the Federal or State
32 Government, or any political subdivision thereof.

33 **Comment.** Section 71710 continues former Fish and Game Code Section 5802 without
34 substantive change.

Article 2. Prohibitions

§ 71750. Mining operations generally

71750. It is unlawful to conduct any mining operations in Fish and Wildlife District 2675 between July 1st and November 30th except when the debris, substances, tailings or other effluent from those operations do not and cannot pass into the waters in that district.

Comment. Section 71750 continues former Fish and Game Code Section 5800(a) without substantive change.

§ 71755. Contaminants

71755. (a) It is unlawful between July 1st and November 30th to pollute, muddy, contaminate, or roil the waters of Fish and Wildlife District 2675.

(b) It is unlawful between those dates to deposit in or cause, suffer, or procure to be deposited in, permit to pass into, or place where it can pass into, those waters, any debris, substance or tailings from hydraulic, placer, milling, or other mining operation affecting the clarity of those waters.

(c) The clarity of those waters shall be deemed affected when those waters at a point a distance of one mile below the confluence of the Klamath River and the Salmon River or at a point a distance of one mile below the confluence of the South Fork of the Trinity River and the Trinity River, contain fifty (50) parts per million, by weight, of suspended matter, not including vegetable matter in suspension and suspended matter occurring in the stream or streams due to an act of God.

Comment. Section 71755 continues former Fish and Game Code Section 5800(b) without substantive change.

§ 71760. Hydraulic mining

71760. (a) It is unlawful, between July 1st and November 30th to carry on or operate any hydraulic mine of any kind on, along, or in any waters flowing into Fish and Wildlife District 2675.

(b) Notwithstanding Section 71750, this article does not prevent the operation of a hydraulic mine where the tailings, substance, or debris, or other effluent therefrom, does not or will not pass into the waters of Fish and Wildlife District 2675, between those dates

(c) Any person, firm, or corporation engaged in hydraulic mining shall have the right until the fifteenth day of July to use water for the purpose of cleaning up.

Comment. Section 71760 continues former Fish and Game Code Section 5800(c) without substantive change.

Note. The last sentence of existing Section 5800(c) (proposed Section 71760(c)) provides that specified entities may “use water for the purpose of cleaning up.” This is ambiguous as to the source of the water at issue and the nature of the clean-up. **The Commission invites public comment on whether and how the provision should be revised to make its meaning clearer.**

1 **§ 71765. Public nuisance**

2 71765. (a) Any structure or contrivance that is used to violate this article is a
3 public nuisance.

4 (b) Any person, firm, or corporation that maintains or permits a structure or
5 contrivance used in violating this article is guilty of maintaining a public nuisance

6 (c) It is the duty of the district attorney of the county where the violation occurs
7 or the acts creating the public nuisance occur, to bring an action to abate that
8 nuisance.

9 **Comment.** Section 71765 restates former Fish and Game Code Section 5800(d) without
10 substantive change.

11 **Note.** Proposed Section 71765 would restate existing Section 5800(d) to improve its clarity,
12 without changing its substantive effect. The existing provision reads as follows:

13 “Any structure or contrivance which causes or contributes, in whole or in part, to the condition,
14 the causing of which is in this section prohibited, is a public nuisance, and any person, firm, or
15 corporation maintaining or permitting it is guilty of maintaining a public nuisance, and it is the
16 duty of the district attorney of the county where the condition occurs or the acts creating the
17 public nuisance occur, to bring action to abate such nuisance.”

18 The most significant change made in the restatement is to recast references to “conditions” that
19 violate existing Section 5800, to instead refer simply to violations of that section. This seems
20 significantly clearer, because Section 5800 prohibits acts, not the “causing of conditions” (e.g.,
21 the section prohibits mining generally, depositing mining waste in waters, and hydraulic mining).

22 **The Commission invites comment on whether that restatement would cause any**
23 **problems.**

24 **PART 6. OTHER ACTIVITIES**

25 **TITLE 1. FORESTRY AND AGRICULTURE**

26 **CHAPTER 1. TIMBER HARVEST PLANS**

27 **§ 72000. Department review**

28 72000. (a) The department shall respond to requests from the Department of
29 Forestry and Fire Protection, acting as the lead agency for the review of timber
30 harvesting plans, within the time period required under Section 4582.6 of the
31 Public Resources Code, unless additional time is granted by the Department of
32 Forestry and Fire Protection.

33 (b) The department shall include specific comments or recommendations, or
34 both, on any significant environmental issues raised by the proposed timber
35 harvesting plan in its area of jurisdiction, including any proposed mitigation
36 measures.

37 (c) The department shall identify its statutory authority for any requests or
38 recommendations for mitigation that it may determine to be necessary.

(d) If the department has no comment to make on the proposed timber harvesting plan, it is not required to submit a response.

Comment. Section 72000 continues former Fish and Game Code Section 703(b) without substantive change.

CHAPTER 2. CANNABIS CULTIVATION

§ 72200. Findings and Declarations

72200. The Legislature finds and declares all of the following:

(a) The environmental impacts associated with cannabis cultivation have increased, and unlawful water diversions for cannabis irrigation have a detrimental effect on fish and wildlife and their habitat, which are held in trust by the state for the benefit of the people of the state.

(b) The remediation of existing cannabis cultivation sites is often complex and the permitting of these sites requires greater department staff time and personnel expenditures.

(c) The potential for cannabis cultivation sites to significantly impact the state's fish and wildlife resources requires immediate action on the part of the department's lake and streambed alteration permitting staff.

Comment. Section 72200 continues former Fish and Game Code Section 12029(a) without substantive change.

§ 72205. Watershed enforcement program

72205. In order to address unlawful water diversions and other violations of the Fish and Game Code associated with cannabis cultivation, the department shall establish the watershed enforcement program to facilitate the investigation, enforcement, and prosecution of these offenses.

Comment. Section 72205 continues former Fish and Game Code Section 12029(b) without substantive change.

§ 72210. Multiagency task force

72210. The department, in coordination with the State Water Resources Control Board and the Department of Food and Agriculture, shall establish a permanent multiagency task force to address the environmental impacts of cannabis cultivation. The multiagency task force, to the extent feasible and subject to available resources, shall expand its enforcement efforts on a statewide level to ensure the reduction of adverse impacts of cannabis cultivation on fish and wildlife and their habitats throughout the state.

Comment. Section 72210 continues former Fish and Game Code Section 12029(c) without substantive change.

§ 72215. Regulations

72215. (a) In order to facilitate the remediation and permitting of cannabis cultivation sites, the department may adopt regulations to enhance the fees on any

1 entity subject to Section 69750 for cannabis cultivation sites that require
2 remediation.

3 (b) The fee schedule established pursuant to this section shall not exceed the fee
4 limits in Section 69780.

5 **Comment.** Section 72215 continues former Fish and Game Code Section 12029(d) without
6 substantive change.

7 TITLE 2. ACTIVITIES THAT AFFECT 8 WATERING PLACES

9 § 72500. Prohibition of activities that affect watering places

10 72500. (a) For the preservation, protection and restoration of mountain sheep
11 and other birds and mammals in arid regions of the state, the commission, in
12 cooperation with the agency authorized to manage the land, may prohibit any
13 activity, including but not limited to camping, in the vicinity of waterholes,
14 springs, seeps, and other watering places which are on public lands.

15 (b) The department may enter into agreements with other state and federal
16 agencies controlling public lands for the purpose of posting those areas.

17 **Comment.** Section 72500 continues former Fish and Game Code Section 308.5 without
18 substantive change.

19 TITLE 3. AIRPORTS

20 CHAPTER 1. MANAGEMENT OF WILDLIFE AT PUBLIC USE AIRPORTS

21 § 72800. Statement of policy

22 72800. It is the policy of the state to actively encourage the safe and biologically
23 sound management of wildlife resources on California's public use airports as
24 regulated by the Federal Aviation Administration (FAA) and its agents. The
25 Legislature recognizes that public use airports serving in the United States are
26 operated according to regulations and policies promulgated by the FAA and
27 federal law that protect the health, safety, and welfare of the public in compliance
28 with applicable FAA regulations, standards, policies, and guidance, wildlife
29 hazard management plans, and associated permits.

30 **Comment.** Section 72800 continues former Fish and Game Code Section 3470 without
31 substantive change.

32 § 72805. Recognition of federal requirements

33 72805. (a) The Legislature recognizes that, in a public use airport's ongoing
34 efforts to protect the health, safety, and welfare of the traveling public in
35 compliance with Federal Aviation Administration (FAA) regulations, and
36 specifically Section 337 of Part 139 of Title 14 of the Code of Federal

1 Regulations, it is necessary to perform limited and authorized wildlife hazing,
2 harassment, and depredation.

3 (b) The Legislature further recognizes that FAA certificated public use airports
4 and their wildlife hazard management staff must harass, haze, or perform removal
5 of species to protect the health, safety, and welfare of the public when authorized
6 by a current, valid federal fish and wildlife depredation permit.

7 **Comment.** Section 72805 continues former Fish and Game Code Section 3471 without
8 substantive change.

9 **§ 72810. Federal actions not a violation of this code**

10 72810. The taking of birds by a public use airport certificated by the Federal
11 Aviation Administration to operate in California that has obtained, and is in
12 compliance with, a federal depredation permit that authorizes, under specified
13 conditions, the lawful taking of birds, does not violate any provision of this code
14 or regulations adopted pursuant to this code if the taking is in compliance with the
15 federal depredation permit for the purposes specified in Section 72815 and all of
16 the following conditions are met:

17 (a) The taking occurs on lands owned or leased by the airport.

18 (b) The taking does not occur on lands owned or leased by the airport that are
19 reserved for habitat mitigation or conservation purposes of the species being taken,
20 including lands in a habitat conservation plan, or a natural communities
21 conservation plan.

22 (c) There is no taking of a fully protected, candidate, threatened, or endangered
23 species.

24 **Comment.** Section 72810 continues former Fish and Game Code Section 3472 without
25 substantive change.

26 **§ 72815. Limitation of authorized take**

27 72815. Take is authorized pursuant to this chapter only to relieve or prevent
28 injurious situations affecting public safety and shall only be performed as part of
29 an integrated wildlife management program that emphasizes nonlethal
30 management techniques.

31 **Comment.** Section 72815 continues former Fish and Game Code Section 3472.1 without
32 substantive change.

33 **§ 72820. Monitoring of authority and compliance**

34 72820. A public use airport certificated by the Federal Aviation Administration
35 shall provide to the department any federal depredation permit and all federal
36 reports required pursuant to any federal depredation permit or wildlife hazard
37 management plan, or both, and shall also provide reasonable access to the
38 department for purposes of ensuring compliance with this chapter.

39 **Comment.** Section 72820 continues the first sentence of former Fish and Game Code Section
40 3472.2 without substantive change.

1 **§ 72825. Reimbursement of costs**

2 72825. The department shall seek reimbursement from the public use airport for
3 any reasonable costs associated with activities resulting from any violations of this
4 chapter.

5 **Comment.** Section 72825 continues the second sentence of former Fish and Game Code
6 Section 3472.2 without substantive change.

DISPOSITION OF EXISTING LAW

The table below shows the relationship between each provision of the existing Fish and Game Code and the corresponding provision of the proposed law (if any). In some instances, the substance of all or part of an existing provision was duplicated in more than one location. In the table, this is shown using multiple entries for the duplicated provision.

DERIVATION OF PROPOSED LAW

The table below shows the relationship between each provision of the proposed Fish and Wildlife Code and the corresponding provision of existing law. In some instances, a single source provision is replicated in two or more of the proposed provisions. In the table, this is shown with a separate entry for each of the replicated provisions.

<i>Proposed Provision</i>	<i>Existing Provision(s)</i>	<i>Proposed Provision</i>	<i>Existing Provision(s)</i>

February 2019

(corrected)

The purpose of this tentative recommendation is to solicit public comment on the Commission's tentative conclusions. A comment submitted to the Commission will be part of the public record. The Commission will consider the comment at a public meeting when the Commission determines what, if any, recommendation it will make to the Legislature. It is just as important to advise the Commission that you approve the tentative recommendation as it is to advise the Commission that you believe revisions should be made to it.

COMMENTS ON THIS TENTATIVE RECOMMENDATION SHOULD BE RECEIVED BY THE COMMISSION NOT LATER THAN **January 1, 2020.**

The Commission will often substantially revise a proposal in response to comment it receives. Thus, this tentative recommendation is not necessarily the recommendation the Commission will submit to the Legislature.

California Law Revision Commission
c/o UC Davis School of Law
Davis, CA 95616
<commission@clrc.ca.gov>

SUMMARY OF TENTATIVE RECOMMENDATION

The Commission has released a tentative recommendation that proposes to repeal the Fish and Game Code and continue its provisions, without significant substantive change, in a new Fish and Wildlife Code.

Enactment of that proposal would cause nearly all of the section numbers in the Fish and Game Code to change.

Those numbering changes would require conforming revisions to be made in hundreds of provisions outside of the Fish and Game Code that cross-refer to existing provisions of the Fish and Game Code.

This tentative recommendation proposes the necessary cross-reference revisions. It was prepared pursuant to Resolution Chapter 158 of the Statutes of 2018.

FISH AND WILDLIFE CODE: CONFORMING REVISIONS

1 In 2010, the Secretary of the Natural Resources Agency was directed to convene
2 a committee to develop and submit a “strategic vision” for the Fish and Game
3 Commission and the Department of Fish and Game (now the Department of Fish
4 and Wildlife.)¹ The resulting report recommended, among other things, that the Law
5 Revision Commission be tasked with cleaning up the Fish and Game Code.²

6 In 2012, the Legislature directed the Commission to conduct the recommended
7 work:

8 [The] Legislature approves for study by the California Law Revision
9 Commission the new topic listed below:

10 Whether the Fish and Game Code and related statutory law should be revised to
11 improve its organization, clarify its meaning, resolve inconsistencies, eliminate
12 unnecessary or obsolete provisions, standardize terminology, clarify program
13 authority and funding sources, and make other minor improvements, without
14 making any significant substantive change to the effect of the law[.]³

15 In order to achieve the greatest degree of improvement to the organization and
16 expression of the Fish and Game Code, the Commission decided to prepare a
17 recommendation that would repeal the existing code and replace it with a new Fish
18 and Wildlife Code. The new code would continue the substance of the former code
19 in a more user-friendly form, without making any significant substantive change to
20 the effect of existing law.

21 A tentative recommendation setting out the proposed Fish and Wildlife Code has
22 been released for public review and comment.⁴

23 If that proposal is enacted, nearly every section number in the Fish and Game
24 Code would change. Consequently, hundreds of provisions outside of the Fish and
25 Game Code would need to be revised to update cross-references to conform to the
26 new numbering in the Fish and Wildlife Code.

27 This tentative recommendation proposes the revisions necessary to update those
28 cross-references.

1. 2010 Cal. Stat. ch. 424.

2. See *California Fish & Wildlife Strategic Vision, Recommendations for Enhancing the State’s Fish and Wildlife Management Agencies*, A13 (April 2012).

3. 2012 Cal. Stat. res. ch. 108 (ACR 98 (Wagner)).

4. See Tentative Recommendation on *Fish and Wildlife Code* (December 2018), available at <<http://www.clrc.ca.gov/pub/Misc-Report/TR-R100-Full.pdf>>.

1 LIMITED PURPOSE

2 The purpose of this tentative recommendation is limited. It would update cross-
3 references to the Fish and Game Code, to conform to the new numbering of the
4 proposed Fish and Wildlife Code. Some minor stylistic revisions are also proposed,
5 consistent with standard legislative drafting conventions (e.g., gendered language is
6 corrected).

7 The Commission did not consider whether any other kinds of changes should be
8 made to the provisions affected by this tentative recommendation.

9 Readers of this tentative recommendation should not infer that the Commission
10 has evaluated and approved language that would not be changed by this tentative
11 recommendation.

12 NOTES

13 While the Commission invites comment on any aspect of the proposed legislation,
14 there are some issues on which it would particularly appreciate public review and
15 comment. Those issues are set out in “Notes” that follow the sections that they
16 discuss.

17 The Notes also identify code sections that were enacted by initiative. The
18 California Constitution limits the Legislature’s ability to “amend” such statutes.⁵
19 However, the term “amend” in this context does not include technical amendments
20 of the type proposed in this tentative recommendation.⁶ The Notes are provided to
21 make clear that the Commission is aware of the constitutional constraint and does
22 not believe it would be an obstacle to the proposed legislation.

23 REQUEST FOR PUBLIC COMMENT

24 The Commission seeks public comment on its tentative recommendation.
25 Comments supporting the proposed legislation are just as important as comments
26 suggesting changes or expressing other views.

5. See Cal. Const. art. 2, § 10 (“The Legislature may amend or repeal an initiative statute by another statute that becomes effective only when approved by the electors unless the initiative statute permits amendment or repeal without the electors’ approval.”).

6. See *People v. Superior Court (Pearson)*, 48 Cal. 4th 564, 571; 227 P.3d 858; 107 Cal. Rptr. 3d 265 (2010) (“In deciding whether [a] particular provision amends [an initiative statute], we simply need to ask whether it prohibits what the initiative authorizes, or authorizes what the initiative prohibits.”)

PROPOSED LEGISLATION

BUSINESS AND PROFESSIONS CODE

Bus. & Prof. Code § 4826.2 (amended).

SEC. _____. Section 4826.2 of the Business and Professions Code is amended to read:

4826.2. (a) Notwithstanding any other provision of law, a veterinarian, registered veterinary technician, or a veterinary assistant working under the supervision of a veterinarian, may provide veterinary care and treatment for any animal restricted pursuant to Section 2118 Chapter 2 (commencing with Section 26700) of Title 2 of Part 6 of Division 7 of the Fish and Game Wildlife Code. A veterinarian, registered veterinary technician, or a veterinary assistant working under the supervision of a veterinarian, may lawfully possess one or more of the animals only for the period of time that, in his or her judgment, veterinary care and treatment are necessary. No veterinarian, registered veterinary technician, or veterinary assistant working under the supervision of a veterinarian, has a duty to advise law enforcement if he or she becomes aware that one or more of the animals is possessed in the state.

(b) For the purposes of this section, “veterinary care and treatment” does not include boarding when no veterinary care or treatment is required.

Comment. Section 4826.2 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to add subdivision designations.

Bus. & Prof. Code § 8555 (amended).

SEC. _____. Section 8555 of the Business and Professions Code is amended to read: 8555. This chapter does not apply to:

(a) Public utilities operating under the regulations of the Public Utilities Commission, except to work performed upon property of the utilities not subject to the jurisdiction of the Public Utilities Commission or work done by the utility for hire.

(b) Persons engaged only in agricultural pest control work under permit or license by the Department of Pesticide Regulation or a county agricultural commissioner.

(c) Pest control performed by persons upon property that they own, lease or rent, except that the persons shall be subject to the limitations imposed by Article 3 of this chapter.

(d) Governmental agencies, state, federal, city, or county officials, and their employees while officially engaged.

(e) Authorized representatives of an educational institution or state or federal agency engaged in research or study of pest control, or engaged in investigation or preparation for expert opinion or testimony. A professional engaging in research, study, investigation, or preparation for expert opinion or testimony on his or her own behalf shall comply with the requirements of this chapter.

1 (f) Certified architects and registered civil engineers, acting solely within their
2 professional capacity, except that they shall be subject to the limitations imposed by
3 Article 3 of this chapter.

4 (g) Persons engaged in the live capture and removal or exclusion of vertebrate
5 pests, bees, or wasps from a structure without the use of pesticides, provided those
6 persons maintain insurance coverage as described in Section 8692. “Vertebrate
7 pests” include, but are not limited to, bats, raccoons, skunks, and squirrels, but do
8 not include mice, rats, or pigeons.

9 (h) This section does not exempt a person from the provisions of ~~Chapter 1.5~~
10 ~~(commencing with Section 2050) of Division 3 Part 1 (commencing with Section~~
11 ~~62000) of Division 17 of the Fish and Game Wildlife Code.~~

12 **Comment.** Section 8555 is amended to reflect the recodification of the former Fish and Game
13 Code. The section is also amended to add a subdivision designation.

14 **Bus. & Prof. Code § 12024.7 (amended).**

15 SEC. _____. Section 12024.7 of the Business and Professions Code is amended to
16 read:

17 12024.7. (a) Any person who sells meat directly to the consumer on the basis of
18 primal cuts or carcass weight shall supply the buyer with an accurate statement of
19 weight at time of sale of the carcass or primal cut purchased, and shall supply a
20 complete and accurate statement which shall contain the weight of the meat
21 delivered to the buyer and the number and type of cuts. When any fruits, vegetables,
22 or other food products are sold as part of a combination sale with meat sold directly
23 to the consumer on the basis of primal cuts or carcass weight, the seller shall supply
24 an itemized statement showing the net quantity of any fruits, vegetables, and other
25 food products delivered to the buyer.

26 (b) This section shall also apply to any person who custom cuts any meat animal
27 carcass or part of such carcass for the owner, except the carcass of any game
28 mammal taken as authorized by the Fish and Game Wildlife Code.

29 **Comment.** Section 12024.7 is amended to reflect the recodification of the former Fish and Game
30 Code. The section is also amended to add subdivision designations.

31 **Bus. & Prof. Code § 12713 (amended).**

32 SEC. _____. Section 12713 of the Business and Professions Code is amended to
33 read:

34 12713. (a) A weighmaster is responsible for ensuring that the weighmaster
35 certificates issued by him or her, or a deputy acting for him or her, are complete and
36 contain all the information required by Sections 12714, 12714.5, and 12715 that is
37 applicable to each transaction.

38 (b) It is unlawful to issue, or cause to be issued, a weighmaster certificate if the
39 certificate does not contain all the information required by Sections 12714, 12714.5,
40 and 12715 for the commodity weighed, measured, or counted. The issuance of a
41 receipt showing the weight, measure, or count of fish, mollusks, or crustaceans

pursuant to ~~Article 6 (commencing with Section 8010) of Chapter 1 of Part 3 of Division 6 Article 1 (commencing with Section 21000) of Chapter 3 of Title 10 of Part 6 of Division 6~~ of the Fish and Game Wildlife Code constitutes the issuance of a weighmaster certificate under this chapter when issued by a person who is a weighmaster pursuant to Section 12700.

Comment. Section 12713 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** The cross-reference in Section 12713(b) may be incorrect. The referenced article does not expressly mention a certificate issued by a weighmaster or a record of weight. The revision proposed above would instead refer to the provisions that govern landing receipts, which do require a record of the weight of the landed fish or invertebrates.

The Commission requests public comment on whether that substitution is appropriate.

Bus. & Prof. Code § 26036 (amended).

SEC. _____. Section 26036 of the Business and Professions Code is amended to read:

26036. Nothing in this division shall be interpreted to supersede or limit state agencies from exercising their existing enforcement authority, including, but not limited to, under the Fish and Game Wildlife Code, the Food and Agricultural Code, the Government Code, the Health and Safety Code, the Public Resources Code, the Water Code, or the application of those laws.

Comment. Section 26036 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 26036 was added to the Business and Professions Code in 2016 by an initiative statute, Proposition 64. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Bus. & Prof. Code § 26057 (amended).

SEC. _____. Section 26057 of the Business and Professions Code is amended to read:

26057. (a) The licensing authority shall deny an application if either the applicant, or the premises for which a state license is applied, do not qualify for licensure under this division.

(b) The licensing authority may deny the application for licensure or renewal of a state license if any of the following conditions apply:

(1) Failure or inability to comply with the provisions of this division, any rule or regulation adopted pursuant to this division, or any requirement imposed to protect natural resources, including, but not limited to, protections for instream flow, water quality, and fish and wildlife.

(2) Conduct that constitutes grounds for denial of licensure under Chapter 2 (commencing with Section 480) of Division 1.5, except as otherwise specified in this section and Section 26059.

1 (3) Failure to provide information required by the licensing authority.

2 (4) The applicant, owner, or licensee has been convicted of an offense that is
3 substantially related to the qualifications, functions, or duties of the business or
4 profession for which the application is made, except that if the licensing authority
5 determines that the applicant, owner, or licensee is otherwise suitable to be issued a
6 license, and granting the license would not compromise public safety, the licensing
7 authority shall conduct a thorough review of the nature of the crime, conviction,
8 circumstances, and evidence of rehabilitation of the applicant or owner, and shall
9 evaluate the suitability of the applicant, owner, or licensee to be issued a license
10 based on the evidence found through the review. In determining which offenses are
11 substantially related to the qualifications, functions, or duties of the business or
12 profession for which the application is made, the licensing authority shall include,
13 but not be limited to, the following:

14 (A) A violent felony conviction, as specified in subdivision (c) of Section 667.5
15 of the Penal Code.

16 (B) A serious felony conviction, as specified in subdivision (c) of Section 1192.7
17 of the Penal Code.

18 (C) A felony conviction involving fraud, deceit, or embezzlement.

19 (D) A felony conviction for hiring, employing, or using a minor in transporting,
20 carrying, selling, giving away, preparing for sale, or peddling, any controlled
21 substance to a minor; or selling, offering to sell, furnishing, offering to furnish,
22 administering, or giving any controlled substance to a minor.

23 (E) A felony conviction for drug trafficking with enhancements pursuant to
24 Section 11370.4 or 11379.8 of the Health and Safety Code.

25 (5) Except as provided in subparagraphs (D) and (E) of paragraph (4) and
26 notwithstanding Chapter 2 (commencing with Section 480) of Division 1.5, a prior
27 conviction, where the sentence, including any term of probation, incarceration, or
28 supervised release, is completed, for possession, possession for sale, sale,
29 manufacture, transportation, or cultivation of a controlled substance is not
30 considered substantially related, and shall not be the sole ground for denial of a
31 license. Conviction for any controlled substance felony subsequent to licensure shall
32 be grounds for revocation of a license or denial of the renewal of a license.

33 (6) The applicant, or any of its officers, directors, or owners, has been subject to
34 fines, penalties, or otherwise been sanctioned for cultivation or production of a
35 controlled substance on public or private lands pursuant to ~~Section 12025 or 12025.1~~
36 Article 2 (commencing with Section 6380) of Chapter 4 of, or Chapter 6
37 (commencing with Section 6550) of, Title 17 of Part 4 of Division 3 of the Fish and
38 Game Wildlife Code.

39 (7) The applicant, or any of its officers, directors, or owners, has been sanctioned
40 by a licensing authority or a city, county, or city and county for unauthorized
41 commercial cannabis activities, has had a license suspended or revoked under this

1 division in the three years immediately preceding the date the application is filed
2 with the licensing authority.

3 (8) Failure to obtain and maintain a valid seller's permit required pursuant to Part
4 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation
5 Code.

6 (9) Any other condition specified in law.

7 **Comment.** Paragraph (6) of subdivision (b) of Section 26057 is amended to reflect the
8 recodification of the former Fish and Game Code.

9  **Note.** Section 26057 was added to the Business and Professions Code in 2016 by an initiative
10 statute, Proposition 64. The Commission believes that the proposed technical revision of that
11 section would not be an impermissible amendment. See discussion of initiative statutes *supra* at
12 notes 5 and 6, and associated text.

13 **Bus. & Prof. Code § 26060.1 (amended).**

14 SEC. _____. Section 26060.1 of the Business and Professions Code is amended to
15 read:

16 26060.1. (a) An application for a license for cultivation issued by the Department
17 of Food and Agriculture shall identify the source of water supply as follows:

18 (1)(A) If water will be supplied by a retail water supplier, as defined in Section
19 13575 of the Water Code, the application shall identify the retail water supplier.

20 (B) Paragraphs (2) and (3) do not apply to any water subject to subparagraph (A)
21 unless the retail water supplier has 10 or fewer customers, the applicant receives 10
22 percent or more of the water supplied by the retail water supplier, 25 percent or
23 more of the water delivered by the retail water supplier is used for cannabis
24 cultivation, or the applicant and the retail water supplier are affiliates, as defined in
25 Section 2814.20 of Title 23 of the California Code of Regulations.

26 (2) If the water supply includes a diversion within the meaning of Section 5100
27 of the Water Code, the application shall identify the point of diversion and the
28 maximum amount to be diverted as follows:

29 (A) For an application submitted before January 1, 2019, the application shall
30 include a copy of one of the following:

31 (i) A small irrigation use registration certificate, permit, or license issued pursuant
32 to Part 2 (commencing with Section 1200) of Division 2 of the Water Code that
33 covers the diversion.

34 (ii) A statement of water diversion and use filed with the State Water Resources
35 Control Board on or before October 31, 2017, that covers the diversion and specifies
36 the amount of water used for cannabis cultivation.

37 (iii) A pending application for a permit to appropriate water, filed with the State
38 Water Resources Control Board on or before October 31, 2017.

39 (iv) Documentation submitted to the State Water Resources Control Board on or
40 before January 1, 2019, demonstrating that the diversion is subject to subdivision
41 (a), (c), (d), or (e) of Section 5101 of the Water Code.

(v) Documentation submitted to the State Water Resources Control Board on or before October 31, 2017, demonstrating that the diversion is authorized under a riparian right and that no diversion occurred after January 1, 2010, and before January 1, 2017. The documentation shall be submitted on or accompany a form provided by the State Water Resources Control Board and shall include all of the information outlined in subdivisions (a) to (d), inclusive, and (e) of Section 5103 of the Water Code. The documentation shall also include a general description of the area in which the water will be used in accordance with subdivision (g) of Section 5103 of the Water Code and the year in which the diversion is planned to commence.

(B) For an application submitted after December 31, 2018, the application shall include a copy of one of the following:

(i) A small irrigation use registration certificate, permit, or license issued pursuant to Part 2 (commencing with Section 1200) of Division 2 of the Water Code that covers the diversion.

(ii) A statement of water diversion and use filed with the State Water Resources Control Board that covers the diversion and specifies the amount of water used for cannabis cultivation.

(iii) Documentation submitted to the State Water Resources Control Board demonstrating that the diversion is subject to subdivision (a), (c), (d), or (e) of Section 5101 of the Water Code.

(iv) Documentation submitted to the State Water Resources Control Board demonstrating that the diversion is authorized under a riparian right and that no diversion occurred after January 1, 2010, and in the calendar year in which the application is submitted. The documentation shall be submitted on or accompany a form provided by the State Water Resources Control Board and shall include all of the information outlined in subdivisions (a) to (d), inclusive, and (e) of Section 5103 of the Water Code. The documentation shall also include a general description of the area in which the water will be used in accordance with subdivision (g) of Section 5103 of the Water Code and the year in which the diversion is planned to commence.

(3) If water will be supplied from a groundwater extraction not subject to paragraph (2), the application shall identify the location of the extraction and the maximum amount to be diverted for cannabis cultivation in any year.

(b) The Department of Food and Agriculture shall include in any license for cultivation all of the following:

(1) Conditions requested by the Department of Fish and Wildlife and the State Water Resources Control Board to: (A) ensure that individual and cumulative effects of water diversion and discharge associated with cultivation do not affect the instream flows needed for fish spawning, migration, and rearing, and the flows needed to maintain natural flow variability; (B) ensure that cultivation does not negatively impact springs, riparian habitat, wetlands, or aquatic habitat; and (C) otherwise protect fish, wildlife, fish and wildlife habitat, and water quality. The

conditions shall include, but not be limited to, the principles, guidelines, and requirements established pursuant to Section 13149 of the Water Code.

(2) Any relevant mitigation requirements the Department of Food and Agriculture identifies as part of its approval of the final environmental documentation for the cannabis cultivation licensing program as requirements that should be included in a license for cultivation. Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code does not apply to the identification of these mitigation measures. This paragraph does not reduce any requirements established pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code.

(3) A condition that the license shall not be effective until the licensee has demonstrated compliance with Section 1602 Title 3 (commencing with Sections 69700) of Part 4 of Division 17 of the Fish and Game Wildlife Code or receives written verification from the Department of Fish and Wildlife that a streambed alteration agreement is not required.

(c) The Department of Food and Agriculture shall consult with the State Water Resources Control Board and the Department of Fish and Wildlife in the implementation of this section.

(d) Notwithstanding paragraph (1) of subdivision (b), the Department of Food and Agriculture is not responsible for verifying compliance with the conditions requested or imposed by the Department of Fish and Wildlife or the State Water Resources Control Board. The Department of Fish and Wildlife or the State Water Resources Control Board, upon finding and making the final determination of a violation of a condition included pursuant to paragraph (1) of subdivision (b), shall notify the Department of Food and Agriculture, which may take appropriate action with respect to the licensee in accordance with Chapter 3 (commencing with Section 26030).

Comment. Paragraph (3) of subdivision (b) of Section 26060.1 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** In the tentative recommendation, Fish and Game Code Section 1602 would be continued in proposed Sections 69710, 69750, 69785, 70155, and 70165. The proposed cross-reference revision above would refer to the title that contains all of those sections, rather than referring to the five sections individually. That seems unproblematic, because the entire title relates to the substance of Section 1602.

The Commission requests public comment on whether that simplified reference would cause any problems.

CIVIL CODE

Civ. Code § 3482.5 (amended).

SEC. _____. Section 3482.5 of the Civil Code is amended to read:

3482.5. (a)(1) No agricultural activity, operation, or facility, or appurtenances thereof, conducted or maintained for commercial purposes, and in a manner

1 consistent with proper and accepted customs and standards, as established and
2 followed by similar agricultural operations in the same locality, shall be or become
3 a nuisance, private or public, due to any changed condition in or about the locality,
4 after it has been in operation for more than three years if it was not a nuisance at the
5 time it began.

6 (2) No activity of a district agricultural association that is operated in compliance
7 with Division 3 (commencing with Section 3001) of the Food and Agricultural
8 Code, shall be or become a private or public nuisance due to any changed condition
9 in or about the locality, after it has been in operation for more than three years if it
10 was not a nuisance at the time it began. This paragraph shall not apply to any
11 activities of the 52nd District Agricultural Association that are conducted on the
12 grounds of the California Exposition and State Fair, nor to any public nuisance
13 action brought by a city, county, or city and county alleging that the activities,
14 operations, or conditions of a district agricultural association have substantially
15 changed after more than three years from the time that the activities, operations, or
16 conditions began.

17 (b) Paragraph (1) of subdivision (a) shall not apply if the agricultural activity,
18 operation, or facility, or appurtenances thereof obstruct the free passage or use, in
19 the customary manner, of any navigable lake, river, bay, stream, canal, or basin, or
20 any public park, square, street, or highway.

21 (c) Paragraph (1) of subdivision (a) shall not invalidate any provision contained
22 in the Health and Safety Code, Fish and Game Wildlife Code, Food and Agricultural
23 Code, or Division 7 (commencing with Section 13000) of the Water Code, if the
24 agricultural activity, operation, or facility, or appurtenances thereof constitute a
25 nuisance, public or private, as specifically defined or described in any of those
26 provisions.

27 (d) This section shall prevail over any contrary provision of any ordinance or
28 regulation of any city, county, city and county, or other political subdivision of the
29 state. However, nothing in this section shall preclude a city, county, city and county,
30 or other political subdivision of this state, acting within its constitutional or statutory
31 authority and not in conflict with other provisions of state law, from adopting an
32 ordinance that allows notification to a prospective homeowner that the dwelling is
33 in close proximity to an agricultural activity, operation, facility, or appurtenances
34 thereof and is subject to the provisions of this section consistent with Section
35 1102.6a.

36 (e) For purposes of this section, the term “agricultural activity, operation, or
37 facility, or appurtenances thereof” shall include, but not be limited to, the cultivation
38 and tillage of the soil, dairying, the production, cultivation, growing, and harvesting
39 of any agricultural commodity including timber, viticulture, apiculture, or
40 horticulture, the raising of livestock, fur bearing animals, fish, or poultry, and any
41 practices performed by a farmer or on a farm as incident to or in conjunction with

1 those farming operations, including preparation for market, delivery to storage or to
2 market, or delivery to carriers for transportation to market.

3 **Comment.** Subdivision (c) of Section 3482.5 is amended to reflect the recodification of the
4 former Fish and Game Code.

5 **Civ. Code § 3508 (amended).**

6 SEC. _____. Section 3508 of the Civil Code is amended to read:

7 3508. (a) This title shall not apply to any of the following:

8 (1) The exhibition of any motion picture, such as a newsreel or documentary,
9 involving acts of killing or cruelty which were not intentionally committed for the
10 purpose of producing the motion picture.

11 (2) Any motion picture made, in whole or in part, prior to January 1, 1979.

12 (3) Any motion picture all or part of which has been edited or remade so that any
13 previous conduct which constituted a nuisance under this title no longer appears.

14 (4) The taking of any animal as permitted by any provision of the Fish and Game
15 Wildlife Code or pursuant thereto in accordance with regulations adopted by the
16 Fish and Game Commission unless the time, place, or manner of such taking
17 violates any provision of law except this title. This title shall apply to any other
18 animal whether or not the time, place, or manner of the taking is prohibited by any
19 laws other than this title, however, this title shall not apply to the taking of any
20 animal authorized by law in any other jurisdiction unless the time, place or manner
21 of such taking is prohibited by law or regulation.

22 (5) A motion picture which includes scenes of killing or cruelty to animals if the
23 acts constituting the killing or cruelty were authorized by the laws governing such
24 acts in the jurisdiction where the scenes were filmed.

25 (6) Any motion picture which bears within its contents a statement from the
26 producer of the motion picture that all scenes depicting animals were filmed without
27 the intentional killing of, or cruelty to an animal or that any killing or cruelty to an
28 animal was authorized by the laws of the jurisdiction where the scenes were filmed
29 or that the film is otherwise exempt under this title.

30 (7) Any motion picture if the exhibitor ~~thereof~~ of that motion picture has a written
31 signed statement, or a copy thereof, from the producer of the motion picture that all
32 scenes depicting animals were filmed without the intentional killing of, or cruelty
33 to an animal or that any killing or cruelty to an animal was authorized by the laws
34 of the jurisdiction where the scenes were filmed or that the film is otherwise exempt
35 under this title.

36 (b) This title shall not apply in any case in which it would conflict with federal
37 supremacy in the field of television broadcasting.

38 **Comment.** Section 3508 is amended to reflect the recodification of the former Fish and Game
39 Code. The section is also amended to make a technical correction.

1 CODE OF CIVIL PROCEDURE

2 **Code Civ. Proc. § 338 (amended).**

3 SEC. ____ . Section 338 of the Code of Civil Procedure is amended to read:

4 338. Within three years:

5 (a) An action upon a liability created by statute, other than a penalty or forfeiture.

6 (b) An action for trespass upon or injury to real property.

7 (c)(1) An action for taking, detaining, or injuring goods or chattels, including
8 actions for the specific recovery of personal property.

9 (2) The cause of action in the case of theft, as described in Section 484 of the
10 Penal Code, of an article of historical, interpretive, scientific, or artistic significance
11 is not deemed to have accrued until the discovery of the whereabouts of the article
12 by the aggrieved party, his or her agent, or the law enforcement agency that
13 originally investigated the theft.

14 (3)(A) Notwithstanding paragraphs (1) and (2), an action for the specific recovery
15 of a work of fine art brought against a museum, gallery, auctioneer, or dealer, in the
16 case of an unlawful taking or theft, as described in Section 484 of the Penal Code,
17 of a work of fine art, including a taking or theft by means of fraud or duress, shall
18 be commenced within six years of the actual discovery by the claimant or his or her
19 agent, of both of the following:

20 (i) The identity and the whereabouts of the work of fine art. In the case where
21 there is a possibility of misidentification of the object of fine art in question, the
22 identity can be satisfied by the identification of facts sufficient to determine that the
23 work of fine art is likely to be the work of fine art that was unlawfully taken or
24 stolen.

25 (ii) Information or facts that are sufficient to indicate that the claimant has a claim
26 for a possessory interest in the work of fine art that was unlawfully taken or stolen.

27 (B) This paragraph shall apply to all pending and future actions commenced on
28 or before December 31, 2017, including an action dismissed based on the expiration
29 of statutes of limitation in effect prior to the date of enactment of this statute if the
30 judgment in that action is not yet final or if the time for filing an appeal from a
31 decision on that action has not expired, provided that the action concerns a work of
32 fine art that was taken within 100 years prior to the date of enactment of this statute.

33 (C) For purposes of this paragraph:

34 (i) “Actual discovery,” notwithstanding Section 19 of the Civil Code, does not
35 include constructive knowledge imputed by law.

36 (ii) “Auctioneer” means an individual who is engaged in, or who by advertising
37 or otherwise holds himself or herself out as being available to engage in, the calling
38 for, the recognition of, and the acceptance of, offers for the purchase of goods at an
39 auction as defined in subdivision (b) of Section 1812.601 of the Civil Code.

40 (iii) “Dealer” means a person who holds a valid seller’s permit and who is actively
41 and principally engaged in, or conducting the business of, selling works of fine art.

1 (iv) “Duress” means a threat of force, violence, danger, or retribution against an
2 owner of the work of fine art in question, or his or her family member, sufficient to
3 coerce a reasonable person of ordinary susceptibilities to perform an act that
4 otherwise would not have been performed or to acquiesce to an act to which he or
5 she would otherwise not have acquiesced.

6 (v) “Fine art” has the same meaning as defined in paragraph (1) of subdivision (d)
7 of Section 982 of the Civil Code.

8 (vi) “Museum or gallery” shall include any public or private organization or
9 foundation operating as a museum or gallery.

10 (4) Section 361 shall not apply to an action brought pursuant to paragraph (3).

11 (5) A party in an action to which paragraph (3) applies may raise all equitable and
12 legal affirmative defenses and doctrines, including, without limitation, laches and
13 unclean hands.

14 (d) An action for relief on the ground of fraud or mistake. The cause of action in
15 that case is not deemed to have accrued until the discovery, by the aggrieved party,
16 of the facts constituting the fraud or mistake.

17 (e) An action upon a bond of a public official except any cause of action based on
18 fraud or embezzlement is not deemed to have accrued until the discovery, by the
19 aggrieved party or his or her agent, of the facts constituting the cause of action upon
20 the bond.

21 (f)(1) An action against a notary public on his or her bond or in his or her official
22 capacity except that a cause of action based on malfeasance or misfeasance is not
23 deemed to have accrued until discovery, by the aggrieved party or his or her agent,
24 of the facts constituting the cause of action.

25 (2) Notwithstanding paragraph (1), an action based on malfeasance or
26 misfeasance shall be commenced within one year from discovery, by the aggrieved
27 party or his or her agent, of the facts constituting the cause of action or within three
28 years from the performance of the notarial act giving rise to the action, whichever
29 is later.

30 (3) Notwithstanding paragraph (1), an action against a notary public on his or her
31 bond or in his or her official capacity shall be commenced within six years.

32 (g) An action for slander of title to real property.

33 (h) An action commenced under Section 17536 of the Business and Professions
34 Code. The cause of action in that case shall not be deemed to have accrued until the
35 discovery by the aggrieved party, the Attorney General, the district attorney, the
36 county counsel, the city prosecutor, or the city attorney of the facts constituting
37 grounds for commencing the action.

38 (i) An action commenced under the Porter-Cologne Water Quality Control Act
39 (Division 7 (commencing with Section 13000) of the Water Code). The cause of
40 action in that case shall not be deemed to have accrued until the discovery by the
41 State Water Resources Control Board or a regional water quality control board of
42 the facts constituting grounds for commencing actions under their jurisdiction.

(j) An action to recover for physical damage to private property under Section 19 of Article I of the California Constitution.

(k) An action commenced under Division 26 (commencing with Section 39000) of the Health and Safety Code. These causes of action shall not be deemed to have accrued until the discovery by the State Air Resources Board or by a district, as defined in Section 39025 of the Health and Safety Code, of the facts constituting grounds for commencing the action under its jurisdiction.

(l) An action commenced under ~~Section 1602, 1615, or 5650.1~~ Article 2 (commencing with Section 6320) of Chapter 3 of Title 17 of Part 4 of Division 3, Section 6352, Sections 6320 through 6328, inclusive, Sections 6352 through 6356, inclusive, or Title 3 (commencing with Sections 69700) of Part 4 of Division 17 of the Fish and Game Wildlife Code. These causes of action shall not be deemed to have accrued until discovery by the agency bringing the action of the facts constituting the grounds for commencing the action.

(m) An action challenging the validity of the levy upon a parcel of a special tax levied by a local agency on a per parcel basis.

(n) An action commencing under Section 51.7 of the Civil Code.

(o) An action commenced under Section 4601.1 of the Public Resources Code, if the underlying violation is of Section 4571, 4581, or 4621 of the Public Resources Code, or of Section 1103.1 of Title 14 of the California Code of Regulations, and the underlying violation is related to the conversion of timberland to nonforestry-related agricultural uses. These causes of action shall not be deemed to have accrued until discovery by the Department of Forestry and Fire Protection.

Comment. Subdivision (l) of Section 338 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** In the tentative recommendation, Fish and Game Code Section 1602 would be continued in proposed Sections 69710, 69750, 69785, 70155, and 70165. The proposed cross-reference revision above would refer to the title that contains all of those sections, rather than referring to the five sections individually. That seems unproblematic, because the entire title relates to the substance of Section 1602.

The Commission requests public comment on whether that simplified reference would cause any problems.

Code Civ. Proc. § 706.070 (amended).

SEC. _____. Section 706.070 of the Code of Civil Procedure is amended to read:
706.070. As used in this article:

(a) “State” means the State of California and includes any officer, department, board, or agency thereof.

(b) “State tax liability” means an amount for which the state has a state tax lien as defined in Section 7162 of the Government Code excluding a state tax lien created pursuant to the Fish and Game Wildlife Code.

(c) For purposes of an earnings withholding order for taxes issued by the Franchise Tax Board, “state tax liability” also includes any liability under Part 10

(commencing with Section 17001), Part 10.2 (commencing with Section 18401), or Part 11 (commencing with Section 23001) of Division 2 of the Revenue and Taxation Code that is due and payable within the meaning of subdivision (b) of Section 19221 of the Revenue and Taxation Code, and unpaid. The amendments to this section by the act adding this subdivision shall apply to any amount that is unpaid on or after the effective date of that act, or any amount that first becomes due and payable, and unpaid, after the effective date of that act.

Comment. Section 706.070 is amended to reflect the recodification of the former Fish and Game Code.

Code Civ. Proc. § 1021.8 (amended).

SEC. _____. Section 1021.8 of the Code of Civil Procedure is amended to read:

1021.8. (a) Whenever the Attorney General prevails in a civil action to enforce Section 17537.3, 22445, 22446.5, 22958, 22962, or 22963 of the Business and Professions Code, Section 52, 52.1, 55.1, or 3494 of the Civil Code, the Corporate Securities Law of 1968 (Division 1 (commencing with Section 25000) of Title 4 of the Corporations Code or the California Commodity Law of 1990 (Division 4.5 (commencing with Section 29500) of Title 4 of the Corporations Code), Section 1615, 2014, or 5650.1 Sections 4470, 6320 through 6328, inclusive, or 6352 through 6356, inclusive, of the Fish and Game Wildlife Code, Section 4458, 12598, 12606, 12607, 12989.3, 16147, 66640, 66641, or 66641.7 of the Government Code, Section 13009, 13009.1, 19958.5, 25299, 39674, 41513, 42402, 42402.1, 42402.2, 42402.3, 42402.4, 43016, 43017, 43154, 104557, or 118950 of the Health and Safety Code, Section 308.1 or 308.3 of the Penal Code, Section 2774.1, 4601.1, 4603, 4605, 30820, 30821.6, 30822, 42847, or 48023 of the Public Resources Code, Section 30101.7 of the Revenue and Taxation Code, or Section 275, 1052, 1845, 13261, 13262, 13264, 13265, 13268, 13304, 13331, 13350, or 13385 of the Water Code, the court shall award to the Attorney General all costs of investigating and prosecuting the action, including expert fees, reasonable attorney's fees, and costs. Awards under this section shall be paid to the Public Rights Law Enforcement Special Fund established by Section 12530 of the Government Code.

(b) This section applies to any action pending on the effective date of this section and to any action filed thereafter.

(c) The amendments made to this section by Chapter 227 of the Statutes of 2004 shall apply to any action pending on the effective date of these amendments and to any action filed thereafter.

Comment. Section 1021.8 is amended to reflect the recodification of the former Fish and Game Code.

Code Civ. Proc. § 1240.055 (amended).

SEC. _____. Section 1240.055 of the Code of Civil Procedure is amended to read:

1240.055. (a) As used in this section, the following terms have the following meanings:

1 (1) “Conservation easement” means a conservation easement as defined in
2 Section 815.1 of the Civil Code and recorded as required by Section 815.5 of the
3 Civil Code.

4 (2) “Holder of a conservation easement” means the entity or organization that
5 holds the conservation easement on the property that is proposed for acquisition and
6 that is authorized to acquire and hold conservation easements pursuant to Section
7 815.3 of the Civil Code.

8 (3) “Property appropriated to public use,” as used in Article 6 (commencing with
9 Section 1240.510) and Article 7 (commencing with Section 1240.610), includes a
10 conservation easement if any of the following applies:

11 (A) The conservation easement is held by a public entity.

12 (B) A public entity provided funds, not including the value of a charitable
13 contribution for federal or state income tax purposes but including the California
14 Natural Heritage Preservation Tax Credit, for the acquisition of that easement.

15 (C) A public entity imposed conditions on approval or permitting of a project that
16 were satisfied, in whole or in part, by the conservation easement.

17 (b) A person authorized to acquire property for public use by eminent domain
18 shall exercise the power of eminent domain to acquire property that is subject to a
19 conservation easement only as provided in this section.

20 (c) Not later than 105 days prior to the hearing held pursuant to Section 1245.235,
21 or at the time of the offer made to the owner or owners of record pursuant to Section
22 7267.2 of the Government Code, whichever occurs earlier, the person seeking to
23 acquire property subject to a conservation easement shall give notice to the holder
24 of the conservation easement as provided in this subdivision. If the person is not
25 required to hold a hearing pursuant to Section 1245.235, then the notice shall be
26 given 105 days prior to the time of the offer made to the owner or owners of record
27 pursuant to Section 7267.2 of the Government Code.

28 (1) The notice required by subdivision (c) shall be sent by first-class mail and
29 shall state all of the following:

30 (A) A general description, in text or by diagram, of the property subject to a
31 conservation easement that the person proposes to acquire by eminent domain.

32 (B) A description of the public use or improvement that the person is considering
33 for the property subject to a conservation easement.

34 (C) That written comments on the acquisition may be submitted in accordance
35 with paragraph (3) no later than 45 days from the date the person seeking to acquire
36 the property mailed the notice to the holder of the conservation easement.

37 (D) That the holder of the conservation easement, within 15 days of receipt of the
38 notice required by subdivision (c), is required, under certain circumstances, to do
39 all of the following:

40 (i) Send a copy of the notice by first-class mail to each public entity that provided
41 funds for the purchase of the easement or that imposed conditions on approval or

1 permitting of a project that were satisfied, in whole or in part, by the creation of the
2 conservation easement.

3 (ii) Inform the public entity that written comments on the acquisition may be
4 submitted in accordance with paragraph (3).

5 (iii) Notify the person seeking to acquire the property of the name and address of
6 any public entity that was sent a copy of the notice pursuant to this paragraph.

7 (2)(A) The holder of the conservation easement, within 15 days of receipt of the
8 notice required by subdivision (c), shall do all of the following:

9 (i) Send a copy of the notice by first-class mail to each public entity that provided
10 funds for the purchase of the easement or that imposed conditions on approval or
11 permitting of a project that were satisfied, in whole or in part, by the creation of the
12 conservation easement.

13 (ii) Inform the public entity that written comments on the acquisition may be
14 submitted in accordance with paragraph (3).

15 (iii) Notify the person seeking to acquire the property of the name and address of
16 any public entity that was sent a copy of the notice pursuant to this paragraph.

17 (B) Subparagraph (A) shall apply only if one of the following applies:

18 (i) The holder of the easement is the original grantee of the conservation easement
19 and there is a public entity as described in subparagraph (A).

20 (ii) The holder of the easement has actual knowledge of a public entity as
21 described in subparagraph (A).

22 (iii) Recorded documents evidence the identity of a public entity as described in
23 subparagraph (A).

24 (3) The holder of the conservation easement or the public entity receiving notice,
25 or both, may provide to the person seeking to acquire the property written comments
26 on the acquisition, including identifying any potential conflict between the public
27 use proposed for the property and the purposes and terms of the conservation
28 easement. Written comments on the acquisition may be submitted no later than 45
29 days from the date the person seeking to acquire the property mailed the notice to
30 the holder of the conservation easement.

31 (d) The person seeking to acquire the property subject to a conservation easement,
32 within 30 days after receipt of written comments from the holder of the conservation
33 easement or from a public entity described in paragraph (2) of subdivision (c), shall
34 respond in writing to the comments. The response to the comments shall be mailed
35 by first-class mail to each easement holder or public entity that filed comments.

36 (e) The notice of the hearing on the resolution of necessity, pursuant to Section
37 1245.235, shall be sent by first-class mail to the holder of any conservation easement
38 and to any public entity whose name and address are provided as described in
39 paragraph (2) of subdivision (c) and shall state that they have the right to appear and
40 be heard on the matters referred to in Sections 1240.030, 1240.510, and 1240.610.
41 The notice shall state that, pursuant to paragraph (3) of subdivision (b) of Section
42 1245.235, failure to file a written request to appear and be heard within 15 days after

1 the notice was mailed will result in waiver of the right to appear and be heard. The
2 resolution of necessity to acquire property subject to a conservation easement shall
3 refer specifically either to Section 1240.510 or 1240.610 as authority for the
4 acquisition of the property.

5 (f) In any eminent domain proceeding to acquire property subject to a
6 conservation easement, the holder of the conservation easement:

7 (1) Shall be named as a defendant, as set forth in Section 1250.220.

8 (2) May appear in the proceedings, as set forth in Section 1250.230.

9 (3) Shall have all the same rights and obligations as any other defendant in the
10 eminent domain proceeding.

11 (g)(1) The holder of the conservation easement is an owner of property entitled to
12 compensation determined pursuant to Section 1260.220 and Chapter 9
13 (commencing with Section 1263.010) and in accordance with all of the following:

14 (A) The total compensation for the acquisition of all interests in property
15 encumbered by a conservation easement shall not be less than, and shall not exceed,
16 the fair market value of the fee simple interest of the property as if it were not
17 encumbered by the conservation easement.

18 (B) If the acquisition does not damage the conservation easement, the total
19 compensation shall be assessed by determining the value of all interests in the
20 property as encumbered by the conservation easement.

21 (C) If the acquisition damages the conservation easement in whole or in part,
22 compensation shall be determined consistent with Section 1260.220 and the value
23 of the fee simple interest of the property shall be assessed as if it were not
24 encumbered by the conservation easement.

25 (2) This subdivision shall not apply if the requirements of Section 10261 of the
26 Public Resources Code apply.

27 (h) This section shall not apply if the requirements of Section ~~1348.3~~ 54835 of the
28 Fish and Game Wildlife Code apply.

29 **Comment.** Subdivision (h) of Section 1240.055 is amended to reflect the recodification of the
30 former Fish and Game Code.

31 **Code Civ. Proc. § 1240.680 (amended).**

32 SEC. _____. Section 1240.680 of the Code of Civil Procedure is amended to read:

33 1240.680. (a) Subject to Sections 1240.690 and 1240.700, notwithstanding any
34 other provision of law, property is presumed to have been appropriated for the best
35 and most necessary public use if the property is appropriated to public use as any of
36 the following:

37 (1) A state, regional, county, or city park, open space, or recreation area.

38 (2) A wildlife or waterfowl management area established by the Department of
39 Fish and Game Wildlife pursuant to Section ~~1525~~ 60600 of the Fish and Game
40 Wildlife Code.

1 (3) A historic site included in the National Register of Historic Places or state-
2 registered landmarks.

3 (4) An ecological reserve as provided for in ~~Article 4 (commencing with Section~~
4 ~~1580) of Chapter 5 of Division 2 Part 6 (commencing with Section 60750) of~~
5 ~~Division 16 of the Fish and Game Wildlife Code.~~

6 (b) The presumption established by this section is a presumption affecting the
7 burden of proof.

8 **Comment.** Section 1240.680 is amended to reflect the recodification of the former Fish and
9 Game Code. The section is also amended to update a reference to the former Department of Fish
10 and Game. See Fish & Wildlife Code § 1500.

11 **Code Civ. Proc. § 1245.210 (amended).**

12 SEC. _____. Section 1245.210 of the Code of Civil Procedure is amended to read:
13 1245.210. As used in this article, “governing body” means:

14 (a) In the case of a taking by a local public entity, the legislative body of the local
15 public entity.

16 (b) In the case of a taking by the Sacramento and San Joaquin Drainage District,
17 the Central Valley Flood Protection Board.

18 (c) In the case of a taking by the State Public Works Board pursuant to the
19 Property Acquisition Law (Part 11 (commencing with Section 15850) of Division 3
20 of Title 2 of the Government Code), the State Public Works Board.

21 (d) In the case of a taking by the Department of Fish and Wildlife pursuant to
22 Section 1348 54815 of the Fish and Game Wildlife Code, the Wildlife Conservation
23 Board.

24 (e) In the case of a taking by the Department of Transportation (other than a taking
25 pursuant to Section 21633 of the Public Utilities Code or Section 30100 of the
26 Streets and Highways Code), the California Transportation Commission.

27 (f) In the case of a taking by the Department of Transportation pursuant to Section
28 21633 of the Public Utilities Code, the California Transportation Commission.

29 (g) In the case of a taking by the Department of Transportation pursuant to Section
30 30100 of the Streets and Highways Code, the California Transportation
31 Commission.

32 (h) In the case of a taking by the Department of Water Resources, the California
33 Water Commission.

34 (i) In the case of a taking by the University of California, the Regents of the
35 University of California.

36 (j) In the case of a taking by the State Lands Commission, the State Lands
37 Commission.

38 (k) In the case of a taking by Hastings College of Law, the board of directors of
39 that college.

40 (l) In the case of a taking by the High-Speed Rail Authority, the State Public
41 Works Board.

SEC. _____. Section 1822.58 of the Code of Civil Procedure is amended to read:
1822.58. A warrant may be issued under the requirements of this title to authorize personnel of the Department of Fish and Game Wildlife to conduct inspections of locations where fish, ~~amphibia~~ amphibians, or aquatic plants are held or stored under ~~Division 12 (commencing with Section 15000)~~ Part 1 (commencing with Section 23300) of Division 7 of the Fish and Game Wildlife Code.

EDUCATION CODE

SEC. _____. Section 52410 of the Education Code is amended to read:

52410. Upon the approval of appropriate school district personnel, or the approval of the county superintendent of schools as to students under his jurisdiction, and with the written approval of the parent or guardian of the student, a student in grade 11 or 12, who will be at least 17 years of age at the commencement of his junior year, may be employed as an environmental intern by a federal, state, or local agency in California concerned with the regulation of natural resources or with the protection of the environment during the summer vacation period. These agencies shall include, but not be limited to, the Resources Agency, the Agriculture and Services Agency, the Business and Transportation Agency, the Department of Fish and Game Wildlife, the Department of Conservation, the Department of Parks and Recreation, the Department of Water Resources, the State Water Resources Control Board, the State Air Resources Board, the State Lands Division, California regional water quality control boards, air pollution control districts, mosquito abatement districts, soil conservation districts, local planning agencies, and county and city park and recreation departments.

FAMILY CODE

SEC. _____. Section 17520 of the Family Code is amended to read:
17520. (a) As used in this section:
(1) “Applicant” means a person applying for issuance or renewal of a license.

1 (2) “Board” means an entity specified in Section 101 of the Business and
2 Professions Code, the entities referred to in Sections 1000 and 3600 of the Business
3 and Professions Code, the State Bar of California, the Department of Real Estate,
4 the Department of Motor Vehicles, the Secretary of State, the Department of Fish
5 and Wildlife, and any other state commission, department, committee, examiner, or
6 agency that issues a license, certificate, credential, permit, registration, or any other
7 authorization to engage in a business, occupation, or profession, or to the extent
8 required by federal law or regulations, for recreational purposes. This term includes
9 all boards, commissions, departments, committees, examiners, entities, and
10 agencies that issue a license, certificate, credential, permit, registration, or any other
11 authorization to engage in a business, occupation, or profession. The failure to
12 specifically name a particular board, commission, department, committee,
13 examiner, entity, or agency that issues a license, certificate, credential, permit,
14 registration, or any other authorization to engage in a business, occupation, or
15 profession does not exclude that board, commission, department, committee,
16 examiner, entity, or agency from this term.

17 (3) “Certified list” means a list provided by the local child support agency to the
18 Department of Child Support Services in which the local child support agency
19 verifies, under penalty of perjury, that the names contained therein are support
20 obligors found to be out of compliance with a judgment or order for support in a
21 case being enforced under Title IV-D of the federal Social Security Act.

22 (4) “Compliance with a judgment or order for support” means that, as set forth in
23 a judgment or order for child or family support, the obligor is no more than 30
24 calendar days in arrears in making payments in full for current support, in making
25 periodic payments in full, whether court ordered or by agreement with the local
26 child support agency, on a support arrearage, or in making periodic payments in full,
27 whether court ordered or by agreement with the local child support agency, on a
28 judgment for reimbursement for public assistance, or has obtained a judicial finding
29 that equitable estoppel as provided in statute or case law precludes enforcement of
30 the order. The local child support agency is authorized to use this section to enforce
31 orders for spousal support only when the local child support agency is also enforcing
32 a related child support obligation owed to the obligee parent by the same obligor,
33 pursuant to Sections 17400 and 17604.

34 (5) “License” includes membership in the State Bar of California, and a
35 certificate, credential, permit, registration, or any other authorization issued by a
36 board that allows a person to engage in a business, occupation, or profession, or to
37 operate a commercial motor vehicle, including appointment and commission by the
38 Secretary of State as a notary public. “License” also includes any driver’s license
39 issued by the Department of Motor Vehicles, any commercial fishing license issued
40 by the Department of Fish and Wildlife, and to the extent required by federal law or
41 regulations, any license used for recreational purposes. This term includes all
42 licenses, certificates, credentials, permits, registrations, or any other authorization

1 issued by a board that allows a person to engage in a business, occupation, or
2 profession. The failure to specifically name a particular type of license, certificate,
3 credential, permit, registration, or other authorization issued by a board that allows
4 a person to engage in a business, occupation, or profession, does not exclude that
5 license, certificate, credential, permit, registration, or other authorization from this
6 term.

7 (6) “Licensee” means a person holding a license, certificate, credential, permit,
8 registration, or other authorization issued by a board, to engage in a business,
9 occupation, or profession, or a commercial driver’s license as defined in Section
10 15210 of the Vehicle Code, including an appointment and commission by the
11 Secretary of State as a notary public. “Licensee” also means a person holding a
12 driver’s license issued by the Department of Motor Vehicles, a person holding a
13 commercial fishing license issued by the Department of Fish and ~~Game~~ Wildlife,
14 and to the extent required by federal law or regulations, a person holding a license
15 used for recreational purposes. This term includes all persons holding a license,
16 certificate, credential, permit, registration, or any other authorization to engage in a
17 business, occupation, or profession, and the failure to specifically name a particular
18 type of license, certificate, credential, permit, registration, or other authorization
19 issued by a board does not exclude that person from this term. For licenses issued
20 to an entity that is not an individual person, “licensee” includes an individual who
21 is either listed on the license or who qualifies for the license.

22 (b) The local child support agency shall maintain a list of those persons included
23 in a case being enforced under Title IV-D of the federal Social Security Act against
24 whom a support order or judgment has been rendered by, or registered in, a court of
25 this state, and who are not in compliance with that order or judgment. The local
26 child support agency shall submit a certified list with the names, social security
27 numbers, individual taxpayer identification numbers, or other uniform identification
28 numbers, and last known addresses of these persons and the name, address, and
29 telephone number of the local child support agency who certified the list to the
30 department. The local child support agency shall verify, under penalty of perjury,
31 that the persons listed are subject to an order or judgment for the payment of support
32 and that these persons are not in compliance with the order or judgment. The local
33 child support agency shall submit to the department an updated certified list on a
34 monthly basis.

35 (c) The department shall consolidate the certified lists received from the local
36 child support agencies and, within 30 calendar days of receipt, shall provide a copy
37 of the consolidated list to each board that is responsible for the regulation of
38 licenses, as specified in this section.

39 (d) On or before November 1, 1992, or as soon thereafter as economically feasible,
40 as determined by the department, all boards subject to this section shall implement
41 procedures to accept and process the list provided by the department, in accordance
42 with this section. Notwithstanding any other law, all boards shall collect social

1 security numbers or individual taxpayer identification numbers from all applicants
2 for the purposes of matching the names of the certified list provided by the
3 department to applicants and licensees and of responding to requests for this
4 information made by child support agencies.

5 (e)(1) Promptly after receiving the certified consolidated list from the department,
6 and prior to the issuance or renewal of a license, each board shall determine whether
7 the applicant is on the most recent certified consolidated list provided by the
8 department. The board shall have the authority to withhold issuance or renewal of
9 the license of an applicant on the list.

10 (2) If an applicant is on the list, the board shall immediately serve notice as
11 specified in subdivision (f) on the applicant of the board's intent to withhold
12 issuance or renewal of the license. The notice shall be made personally or by mail
13 to the applicant's last known mailing address on file with the board. Service by mail
14 shall be complete in accordance with Section 1013 of the Code of Civil Procedure.

15 (A) The board shall issue a temporary license valid for a period of 150 days to
16 any applicant whose name is on the certified list if the applicant is otherwise eligible
17 for a license.

18 (B) Except as provided in subparagraph (D), the 150-day time period for a
19 temporary license shall not be extended. Except as provided in subparagraph (D),
20 only one temporary license shall be issued during a regular license term and it shall
21 coincide with the first 150 days of that license term. As this paragraph applies to
22 commercial driver's licenses, "license term" shall be deemed to be 12 months from
23 the date the application fee is received by the Department of Motor Vehicles. A
24 license for the full or remainder of the license term shall be issued or renewed only
25 upon compliance with this section.

26 (C) In the event that a license or application for a license or the renewal of a
27 license is denied pursuant to this section, any funds paid by the applicant or licensee
28 shall not be refunded by the board.

29 (D) This paragraph shall apply only in the case of a driver's license, other than a
30 commercial driver's license. Upon the request of the local child support agency or
31 by order of the court upon a showing of good cause, the board shall extend a 150-
32 day temporary license for a period not to exceed 150 extra days.

33 (3)(A) The department may, when it is economically feasible for the department
34 and the boards to do so as determined by the department, in cases where the
35 department is aware that certain child support obligors listed on the certified lists
36 have been out of compliance with a judgment or order for support for more than
37 four months, provide a supplemental list of these obligors to each board with which
38 the department has an interagency agreement to implement this paragraph. Upon
39 request by the department, the licenses of these obligors shall be subject to
40 suspension, provided that the licenses would not otherwise be eligible for renewal
41 within six months from the date of the request by the department. The board shall
42 have the authority to suspend the license of any licensee on this supplemental list.

1 (B) If a licensee is on a supplemental list, the board shall immediately serve notice
2 as specified in subdivision (f) on the licensee that his or her license will be
3 automatically suspended 150 days after notice is served, unless compliance with this
4 section is achieved. The notice shall be made personally or by mail to the licensee's
5 last known mailing address on file with the board. Service by mail shall be complete
6 in accordance with Section 1013 of the Code of Civil Procedure.

7 (C) The 150-day notice period shall not be extended.

8 (D) In the event that any license is suspended pursuant to this section, any funds
9 paid by the licensee shall not be refunded by the board.

10 (E) This paragraph shall not apply to licenses subject to annual renewal or annual
11 fee.

12 (f) Notices shall be developed by each board in accordance with guidelines
13 provided by the department and subject to approval by the department. The notice
14 shall include the address and telephone number of the local child support agency
15 that submitted the name on the certified list, and shall emphasize the necessity of
16 obtaining a release from that local child support agency as a condition for the
17 issuance, renewal, or continued valid status of a license or licenses.

18 (1) In the case of applicants not subject to paragraph (3) of subdivision (e), the
19 notice shall inform the applicant that the board shall issue a temporary license, as
20 provided in subparagraph (A) of paragraph (2) of subdivision (e), for 150 calendar
21 days if the applicant is otherwise eligible and that upon expiration of that time period
22 the license will be denied unless the board has received a release from the local child
23 support agency that submitted the name on the certified list.

24 (2) In the case of licensees named on a supplemental list, the notice shall inform
25 the licensee that his or her license will continue in its existing status for no more
26 than 150 calendar days from the date of mailing or service of the notice and
27 thereafter will be suspended indefinitely unless, during the 150-day notice period,
28 the board has received a release from the local child support agency that submitted
29 the name on the certified list. Additionally, the notice shall inform the licensee that
30 any license suspended under this section will remain so until the expiration of the
31 remaining license term, unless the board receives a release along with applications
32 and fees, if applicable, to reinstate the license during the license term.

33 (3) The notice shall also inform the applicant or licensee that if an application is
34 denied or a license is suspended pursuant to this section, any funds paid by the
35 applicant or licensee shall not be refunded by the board. The Department of Child
36 Support Services shall also develop a form that the applicant shall use to request a
37 review by the local child support agency. A copy of this form shall be included with
38 every notice sent pursuant to this subdivision.

39 (g)(1) Each local child support agency shall maintain review procedures
40 consistent with this section to allow an applicant to have the underlying arrearage
41 and any relevant defenses investigated, to provide an applicant information on the
42 process of obtaining a modification of a support order, or to provide an applicant

1 assistance in the establishment of a payment schedule on arrearages if the
2 circumstances so warrant.

3 (2) It is the intent of the Legislature that a court or local child support agency,
4 when determining an appropriate payment schedule for arrearages, base its decision
5 on the facts of the particular case and the priority of payment of child support over
6 other debts. The payment schedule shall also recognize that certain expenses may
7 be essential to enable an obligor to be employed. Therefore, in reaching its decision,
8 the court or the local child support agency shall consider both of these goals in
9 setting a payment schedule for arrearages.

10 (h) If the applicant wishes to challenge the submission of his or her name on the
11 certified list, the applicant shall make a timely written request for review to the local
12 child support agency who certified the applicant's name. A request for review
13 pursuant to this section shall be resolved in the same manner and timeframe
14 provided for resolution of a complaint pursuant to Section 17800. The local child
15 support agency shall immediately send a release to the appropriate board and the
16 applicant, if any of the following conditions are met:

17 (1) The applicant is found to be in compliance or negotiates an agreement with
18 the local child support agency for a payment schedule on arrearages or
19 reimbursement.

20 (2) The applicant has submitted a request for review, but the local child support
21 agency will be unable to complete the review and send notice of its findings to the
22 applicant within the time specified in Section 17800.

23 (3) The applicant has filed and served a request for judicial review pursuant to this
24 section, but a resolution of that review will not be made within 150 days of the date
25 of service of notice pursuant to subdivision (f). This paragraph applies only if the
26 delay in completing the judicial review process is not the result of the applicant's
27 failure to act in a reasonable, timely, and diligent manner upon receiving the local
28 child support agency's notice of findings.

29 (4) The applicant has obtained a judicial finding of compliance as defined in this
30 section.

31 (i) An applicant is required to act with diligence in responding to notices from the
32 board and the local child support agency with the recognition that the temporary
33 license will lapse or the license suspension will go into effect after 150 days and
34 that the local child support agency and, where appropriate, the court must have time
35 to act within that period. An applicant's delay in acting, without good cause, which
36 directly results in the inability of the local child support agency to complete a review
37 of the applicant's request or the court to hear the request for judicial review within
38 the 150-day period shall not constitute the diligence required under this section
39 which would justify the issuance of a release.

40 (j) Except as otherwise provided in this section, the local child support agency
41 shall not issue a release if the applicant is not in compliance with the judgment or
42 order for support. The local child support agency shall notify the applicant in writing

1 that the applicant may, by filing an order to show cause or notice of motion, request
2 any or all of the following:

3 (1) Judicial review of the local child support agency's decision not to issue a
4 release.

5 (2) A judicial determination of compliance.

6 (3) A modification of the support judgment or order.

7 The notice shall also contain the name and address of the court in which the
8 applicant shall file the order to show cause or notice of motion and inform the
9 applicant that his or her name shall remain on the certified list if the applicant does
10 not timely request judicial review. The applicant shall comply with all statutes and
11 rules of court regarding orders to show cause and notices of motion.

12 This section shall not be deemed to limit an applicant from filing an order to show
13 cause or notice of motion to modify a support judgment or order or to fix a payment
14 schedule on arrearages accruing under a support judgment or order or to obtain a
15 court finding of compliance with a judgment or order for support.

16 (k) The request for judicial review of the local child support agency's decision
17 shall state the grounds for which review is requested and judicial review shall be
18 limited to those stated grounds. The court shall hold an evidentiary hearing within
19 20 calendar days of the filing of the request for review. Judicial review of the local
20 child support agency's decision shall be limited to a determination of each of the
21 following issues:

22 (1) Whether there is a support judgment, order, or payment schedule on arrearages
23 or reimbursement.

24 (2) Whether the petitioner is the obligor covered by the support judgment or order.

25 (3) Whether the support obligor is or is not in compliance with the judgment or
26 order of support.

27 (4)(A) The extent to which the needs of the obligor, taking into account the
28 obligor's payment history and the current circumstances of both the obligor and the
29 obligee, warrant a conditional release as described in this subdivision.

30 (B) The request for judicial review shall be served by the applicant upon the local
31 child support agency that submitted the applicant's name on the certified list within
32 seven calendar days of the filing of the petition. The court has the authority to uphold
33 the action, unconditionally release the license, or conditionally release the license.

34 (C) If the judicial review results in a finding by the court that the obligor is in
35 compliance with the judgment or order for support, the local child support agency
36 shall immediately send a release in accordance with subdivision (I) to the
37 appropriate board and the applicant. If the judicial review results in a finding by the
38 court that the needs of the obligor warrant a conditional release, the court shall make
39 findings of fact stating the basis for the release and the payment necessary to satisfy
40 the unrestricted issuance or renewal of the license without prejudice to a later
41 judicial determination of the amount of support arrearages, including interest, and

1 shall specify payment terms, compliance with which are necessary to allow the
2 release to remain in effect.

3 (l) The department shall prescribe release forms for use by local child support
4 agencies. When the obligor is in compliance, the local child support agency shall
5 mail to the applicant and the appropriate board a release stating that the applicant is
6 in compliance. The receipt of a release shall serve to notify the applicant and the
7 board that, for the purposes of this section, the applicant is in compliance with the
8 judgment or order for support. Any board that has received a release from the local
9 child support agency pursuant to this subdivision shall process the release within
10 five business days of its receipt.

11 If the local child support agency determines subsequent to the issuance of a release
12 that the applicant is once again not in compliance with a judgment or order for
13 support, or with the terms of repayment as described in this subdivision, the local
14 child support agency may notify the board, the obligor, and the department in a
15 format prescribed by the department that the obligor is not in compliance.

16 The department may, when it is economically feasible for the department and the
17 boards to develop an automated process for complying with this subdivision, notify
18 the boards in a manner prescribed by the department, that the obligor is once again
19 not in compliance. Upon receipt of this notice, the board shall immediately notify
20 the obligor on a form prescribed by the department that the obligor's license will be
21 suspended on a specific date, and this date shall be no longer than 30 days from the
22 date the form is mailed. The obligor shall be further notified that the license will
23 remain suspended until a new release is issued in accordance with subdivision (h).
24 Nothing in this section shall be deemed to limit the obligor from seeking judicial
25 review of suspension pursuant to the procedures described in subdivision (k).

26 (m) The department may enter into interagency agreements with the state agencies
27 that have responsibility for the administration of boards necessary to implement this
28 section, to the extent that it is cost effective to implement this section. These
29 agreements shall provide for the receipt by the other state agencies and boards of
30 federal funds to cover that portion of costs allowable in federal law and regulation
31 and incurred by the state agencies and boards in implementing this section.
32 Notwithstanding any other provision of law, revenue generated by a board or state
33 agency shall be used to fund the nonfederal share of costs incurred pursuant to this
34 section. These agreements shall provide that boards shall reimburse the department
35 for the nonfederal share of costs incurred by the department in implementing this
36 section. The boards shall reimburse the department for the nonfederal share of costs
37 incurred pursuant to this section from moneys collected from applicants and
38 licensees.

39 (n) Notwithstanding any other law, in order for the boards subject to this section
40 to be reimbursed for the costs incurred in administering its provisions, the boards
41 may, with the approval of the appropriate department director, levy on all licensees
42 and applicants a surcharge on any fee or fees collected pursuant to law, or,

1 alternatively, with the approval of the appropriate department director, levy on the
2 applicants or licensees named on a certified list or supplemental list, a special fee.

3 (o) The process described in subdivision (h) shall constitute the sole
4 administrative remedy for contesting the issuance of a temporary license or the
5 denial or suspension of a license under this section. The procedures specified in the
6 administrative adjudication provisions of the Administrative Procedure Act
7 (Chapter 4.5 (commencing with Section 11400) and Chapter 5 (commencing with
8 Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code) shall not
9 apply to the denial, suspension, or failure to issue or renew a license or the issuance
10 of a temporary license pursuant to this section.

11 (p) In furtherance of the public policy of increasing child support enforcement and
12 collections, on or before November 1, 1995, the State Department of Social Services
13 shall make a report to the Legislature and the Governor based on data collected by
14 the boards and the district attorneys in a format prescribed by the State Department
15 of Social Services. The report shall contain all of the following:

16 (1) The number of delinquent obligors certified by district attorneys under this
17 section.

18 (2) The number of support obligors who also were applicants or licensees subject
19 to this section.

20 (3) The number of new licenses and renewals that were delayed, temporary
21 licenses issued, and licenses suspended subject to this section and the number of
22 new licenses and renewals granted and licenses reinstated following board receipt
23 of releases as provided by subdivision (h) by May 1, 1995.

24 (4) The costs incurred in the implementation and enforcement of this section.

25 (q) Any board receiving an inquiry as to the licensed status of an applicant or
26 licensee who has had a license denied or suspended under this section, or has been
27 granted a temporary license under this section, shall respond only that the license
28 was denied or suspended or the temporary license was issued pursuant to this
29 section. Information collected pursuant to this section by any state agency, board,
30 or department shall be subject to the Information Practices Act of 1977 (Chapter 1
31 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil
32 Code).

33 (r) Any rules and regulations issued pursuant to this section by any state agency,
34 board, or department may be adopted as emergency regulations in accordance with
35 the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5
36 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the
37 Government Code). The adoption of these regulations shall be deemed an
38 emergency and necessary for the immediate preservation of the public peace, health,
39 and safety, or general welfare. The regulations shall become effective immediately
40 upon filing with the Secretary of State.

41 (s) The department and boards, as appropriate, shall adopt regulations necessary
42 to implement this section.

(t) The Judicial Council shall develop the forms necessary to implement this section, except as provided in subdivisions (f) and (I).

(u) The release or other use of information received by a board pursuant to this section, except as authorized by this section, is punishable as a misdemeanor.

(v) The State Board of Equalization shall enter into interagency agreements with the department and the Franchise Tax Board that will require the department and the Franchise Tax Board to maximize the use of information collected by the State Board of Equalization, for child support enforcement purposes, to the extent it is cost effective and permitted by the Revenue and Taxation Code.

(w)(1) The suspension or revocation of any driver's license, including a commercial driver's license, under this section shall not subject the licensee to vehicle impoundment pursuant to Section 14602.6 of the Vehicle Code.

(2) Notwithstanding any other law, the suspension or revocation of any driver's license, including a commercial driver's license, under this section shall not subject the licensee to increased costs for vehicle liability insurance.

(x) If any provision of this section or the application thereof to any person or circumstance is held invalid, that invalidity shall not affect other provisions or applications of this section which can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

(y) All rights to administrative and judicial review afforded by this section to an applicant shall also be afforded to a licensee.

Comment. Section 17520 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

FOOD AND AGRICULTURE CODE

Food & Agric. Code § 23.5 (amended).

SEC. _____. Section 23.5 of the Food and Agriculture Code is amended to read:

23.5. The commercial production of aquatic plants and animals propagated and raised by a registered aquaculturist pursuant to Section ~~15101~~ 23605 of the Fish and Game Wildlife Code in the state is a growing industry and provides a healthful and nutritious food product, and, as a commercial operation, utilizes management, land, water, and feed as do other agricultural enterprises. Therefore, the commercial production of that aquatic life shall be considered a branch of the agricultural industry of the state for the purpose of any law that provides for the benefit or protection of the agricultural industry of the state except those laws relating to plant quarantine or pest control.

Comment. Section 23.5 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** In the tentative recommendation, existing Section 15101 would be continued in proposed Fish and Wildlife Code Sections 23600, 23605, 23610, and 23700. In the cross-reference revision

proposed above, only proposed Section 23605 is referenced. It is the main provision requiring registration of an aquaculture facility.

The Commission requests public comment on whether that simplification would cause any problems.

Food & Agric. Code § 5262 (amended).

SEC. ____ . Section 5262 of the Food and Agriculture Code is amended to read:

5262. (a) Based on available funding, the department shall develop and maintain a written plan on the most appropriate options for detection, exclusion, eradication, control, or management of the higher priority invasive pests on the list prepared pursuant to Section 5261. In determining which invasive pests are the higher priority and in developing the most appropriate options for detection, exclusion, eradication, control, or management, the department shall consult with the United States Department of Agriculture, the University of California, other state agencies and departments, and others in the scientific and research community. In implementing this chapter, the department may undertake or contract for scientific research with the University of California or other institutions of higher learning. The plan shall include both of the following:

(1) A discussion of the state not acting to detect, exclude, eradicate, control, or manage the invasive pest.

(2) The identification and description of the most appropriate options for detection, exclusion, eradication, control, or management of the invasive pest.

(b) If the department determines that aerial application of pesticides would be among the more appropriate responses, the plan shall contain a discussion of all of the following:

(1) The pesticides that would likely be the most appropriate.

(2) The concentrations of those pesticides.

(3) How often pesticide use would be necessary.

(4) A list of each active ingredient and inert material, to the extent that the disclosure of the inert material is permitted by state and federal law.

(5) A summary of up-to-date scientific information on the impacts of the pesticide and its inert materials on all of the following:

(A) Healthy children and adults.

(B) Children and adults with compromised health.

(C) Domestic animals.

(D) Fish and wildlife.

(E) Public health and the environment, including drinking water.

(c) The State Department of Public Health, the Department of Fish and ~~Game~~ Wildlife, the Office of Environmental Health Hazard Assessment, the Department of Boating and Waterways, the Department of Forestry and Fire Protection, the State Water Resources Control Board, and the Department of Pesticide Regulation shall participate in the preparation of the plan in their areas of expertise. The Office of

1 Environmental Health Hazard Assessment shall include an analysis of the risks of
2 using the pesticide and its inert material.

3 (d) In developing the plan, the department shall hold public hearings that shall
4 include a presentation by the department and the opportunity for public comment
5 and establish a process for submittal of public comment. Following the public
6 hearing, the department shall reassess the appropriateness of the response and may
7 revise the response and may hold additional public hearings.

8 (e) The plan shall include a characterization of the number of and the nature of
9 the public comments received pursuant to subdivision (d).

10 (f) The department shall make the plan available to the public, including making
11 it available on the department's Internet Web site.

12 **Comment.** Section 5262 is amended to update a reference to the former Department of Fish and
13 Game. See Fish & Wildlife Code § 1500.

14 **Food & Agric. Code § 6025.4 (amended).**

15 SEC. _____. Section 6025.4 of the Food and Agriculture Code is amended to read:

16 6025.4. (a) Notwithstanding Section 597u of the Penal Code, carbon monoxide
17 may be used for the control of burrowing rodent pests, provided the following
18 conditions are met:

19 (1) The carbon monoxide delivery device shall be permanently affixed with a
20 warning label in plain view of the operator that includes, at a minimum, the
21 following information:

22 DANGER: Carbon monoxide is a poisonous gas that is odorless and colorless.
23 Exposure to carbon monoxide can kill within minutes. Never use in structures
24 inhabited by humans or livestock. The device must be used in accordance with all
25 existing laws and regulations, including Chapter 1.5 (commencing with Section
26 2050) of Division 3 of Part 1 (commencing with Section 62000) of Division 17,
27 known as the California Endangered Species Act, and Sections 4002 and 4003 of,
28 Section 32150, of the Fish and Game Wildlife Code.

29 (2) The use of carbon monoxide is subject to the requirements of Chapter 1.5
30 (commencing with Section 2050) of Division 3 of Part 1 (commencing with Section
31 62000) of Division 17, known as the California Endangered Species Act, and
32 Sections 4002 and 4003 of, Section 32150, of the Fish and Game Wildlife Code,
33 and the requirements of Division 6 (commencing with Section 11401) and Division
34 7 (commencing with Section 12500).

35 (b) This section shall remain in effect only until January 1, 2023, and as of that
36 date is repealed.

37 **Comment.** Section 6025 is amended to reflect the recodification of the former Fish and Game
38 Code.

39 **Food & Agric. Code § 6049 (amended).**

40 SEC. _____. Section 6049 of the Food and Agriculture Code is amended to read:

6049. The department, with the cooperation of the University of California, the United States Department of Agriculture, or other agencies, may develop and implement biological control methods to eradicate or control the aquatic weed pest hydrilla (*Hydrilla verticillata*) in any area of the state, and may conduct studies for those purposes. When the development or implementation involves the use of fish, each individual program for development or implementation shall first be approved by the Department of Fish and Game Wildlife.

Comment. Section 6049 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Food & Agric. Code § 7270.5 (amended).

SEC. _____. Section 7270.5 of the Food and Agriculture Code is amended to read: 7270.5. For the purposes of this article:

(a) “Integrated weed management plan” means an ecosystem-based control strategy that focuses on long-term prevention of weeds through a combination of techniques, such as biological controls, judicious use of herbicides, modified land management, and cultural practices, and where control practices are selected and applied in a manner that minimizes the risks to human health, nontargeted organisms, and the environment. An integrated weed management plan shall also, when appropriate, comply with any applicable provisions of Chapter 6 (commencing with Section 1600) of Division 2 Title 3 (commencing with Section 69700) of Part 4 of Division 17 of the Fish and Game Wildlife Code, Division 6 (commencing with Section 11401) and Division 7 (commencing with Section 12500) of the Food and Agricultural Code, and the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(b) “Noxious and invasive weeds” means weeds that the department has determined to be either noxious or invasive weed species.

(c) “Person” shall have the same meaning as in Section 38, but shall additionally include the United States of America, and all political subdivisions, districts, municipalities, and public agencies of the State of California.

(d) “Riverway” means the water, bed, shoreline, and riparian vegetation, of any creek, including an “urban creek” as defined in Section 7048 of the Water Code, stream, river, lake, reservoir, or other body of freshwater, including a “stream environment zone” as defined in Section 66957 of the Government Code, as well as enclosed bays and estuaries, as defined by Section 13391.5 of the Water Code.

Comment. Section 7270.5 is amended to reflect the recodification of the former Fish and Game Code.

Food & Agric. Code § 7700 (amended).

SEC. _____. Section 7700 of the Food and Agriculture Code is amended to read:

7700. (a)(1) There is in state government the Invasive Species Council of California. The purpose of the council is to help coordinate a comprehensive effort

1 to prevent the introduction of invasive species in the state and to advise state
2 agencies, including, but not limited to, the department and the Natural Resources
3 Agency, within their respective authorities how to facilitate coordinated,
4 complementary, and cost-effective control or eradication of invasive species that
5 have entered or are already established in the state. The council may address
6 nonnative organisms that cause economic or environmental harm. Invasive species
7 within the scope of the council's advisory duties do not include humans, domestic
8 livestock, domestic or domesticated species exempted pursuant to Section 2118
9 Chapter 2 (commencing with Section 26700) of Title 2 of Part 6 of Division 7 of
10 the Fish and Game Wildlife Code, or nonharmful exotic organisms.

11 (2) This part shall not prohibit the department from serving as the state's
12 governing authority in invasive pest and plant management, as specified in this
13 division.

14 (b) The Invasive Species Council of California shall consist of the following six
15 members:

16 (1) The secretary or his or her designated representative.

17 (2) The Secretary of the Natural Resources Agency or his or her designated
18 representative.

19 (3) The Secretary for Environmental Protection or his or her designated
20 representative.

21 (4) The Secretary of Transportation or his or her designated representative.

22 (5) The Secretary of California Health and Human Services or his or her
23 designated representative.

24 (6) The Director of Emergency Services or his or her designated representative.

25 (c) The Secretary of the Natural Resources Agency or his or her designated
26 representative and the secretary or his or her designee shall serve as cochair of the
27 council.

28 (d) The Invasive Species Council of California shall meet annually and as needed
29 as determined by the cochair.

30 (e) The secretary may designate a staff liaison to further the purposes of this part.

31 (f) (1) The Invasive Species Council of California may establish advisory
32 committees and ad hoc working groups, as necessary, to advise on a broad array of
33 issues related to preventing the introduction of invasive species and providing for
34 their control or eradication, as well as minimizing the economic, ecological, and
35 human health impacts that invasive species cause.

36 (2) The advisory committees and working groups may consist of representatives
37 from state agencies, federal agencies, county agricultural commissioners, academia,
38 nonprofit organizations, tribal nations, industry representatives, and members of the
39 public.

40 **Comment.** Paragraph (1) of subdivision (a) of Section 7700 is amended to reflect the
41 recodification of the former Fish and Game Code.

1 **Food & Agric. Code § 11281 (amended).**

2 SEC. _____. Section 11281 of the Food and Agriculture Code is amended to read:
3 11281. If any coyotes are found to exist on land which is owned by the state, other
4 than lands subject to the control of the Department of Parks and Recreation and
5 other than ecological reserves established pursuant to Article 4 (commencing with
6 Section 1580) of Chapter 5 of Division 2 Part 6 (commencing with Section 60750)
7 of Division 16 of the Fish and Game Wildlife Code and the coyotes are found to be
8 causing damage on public or private land, the director may control, may employ
9 persons pursuant to Article 1 (commencing with Section 11221) to control, or may
10 contract with the commissioner to control, the coyotes which are determined to be
11 the cause of the damage.

12 **Comment.** Section 11281 is amended to reflect the recodification of the former Fish and Game
13 Code.

14 **Food & Agric. Code § 11283 (amended).**

15 SEC. _____. Section 11283 of the Food and Agriculture Code is amended to read:
16 11283. The director shall submit an annual memorandum of understanding to the
17 Director of Fish and Game Wildlife for review and approval prior to implementing
18 any coyote control program pursuant to this article.

19 **Comment.** Section 11283 is amended to update a reference to the Director of the former
20 Department of Fish and Game. See Fish & Wildlife Code § 1500.

21 **Food & Agric. Code § 11302 (amended).**

22 SEC. _____. Section 11302 of the Food and Agriculture Code is amended to read:
23 11302. The director, upon receiving information causing him or her to believe that
24 coyotes are finding refuge on state park lands or on ecological reserves and are
25 causing damage to nearby private property, may request the Department of Parks
26 and Recreation, in the case of state park lands, or the Department of Fish and Game
27 Wildlife, in the case of ecological reserves, to cooperate in the acquisition and
28 evaluation of evidence to that effect. Upon a request by the director, the department
29 or departments shall cooperate in the evaluation or acquisition.

30 **Comment.** Section 11302 is amended to update a reference to the former Department of Fish
31 and Game. See Fish & Wildlife Code § 1500.

32 **Food & Agric. Code § 11303 (amended).**

33 SEC. _____. Section 11303 of the Food and Agriculture Code is amended to read:
34 11303. Upon a determination pursuant to Section 11302 that coyotes are finding
35 refuge on state park lands or on an ecological reserve and are causing damage to
36 nearby private property, the director and the Department of Parks and Recreation,
37 with the review and approval of the Director of Fish and Game Wildlife as to state
38 park lands, or the Department of Fish and Game Wildlife as to ecological preserves,
39 may enter into an interdepartmental agreement to control coyotes finding refuge on
40 state park lands or on ecological reserves and causing damage to nearby private

property. Methods utilized to take the coyotes shall be specific to those coyotes which are causing the damage. The Department of Parks and Recreation or the Department of Fish and Game Wildlife shall specify the methods of take, location of take, time of take, necessary protections for public safety, protections convenient for state park lands or ecological reserve users and uses, and may specify whether the department is to employ persons to control coyotes pursuant to Article 1 (commencing with Section 11221) or whether control is to be done by the Department of Parks and Recreation or the Department of Fish and Game Wildlife.

Comment. Section 11303 is amended to update references to the former Department of Fish and Game, and the Director of that department. See Fish & Wildlife Code § 1500.

Food & Agric. Code § 11304 (amended).

SEC. _____. Section 11304 of the Food and Agriculture Code is amended to read:
11304. The Department of Parks and Recreation or the Department of Fish and Game Wildlife may submit claims to the department for reimbursement of direct costs incurred pursuant to the implementation of this article which shall be paid if found by the director to be reasonably necessary to implement this article.

Comment. Section 11304 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Food & Agric. Code § 11531 (amended).

SEC. _____. Section 11531 of the Food and Agriculture Code is amended to read:
11531. Except as provided in Chapter 6 (commencing with Section 12001), this division does not apply to any person while engaged in any of the following:

(a) Any activity that is defined as structural pest control and required to be licensed under Chapter 14 (commencing with Section 8500) of Division 3 of the Business and Professions Code.

(b) Preservative treatment of fabrics or structural materials.

(c) Household or industrial sanitation services.

(d) Seed treatment which is incidental to such person's regular business.

(e) Live capture and removal or exclusion of vertebrate pests, bees, or wasps without the use of pesticides. Vertebrate pests include, but are not limited to, bats, raccoons, skunks, and squirrels, but do not include mice, rats, or pigeons. This section does not exempt a person from the provisions of Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1 (commencing with Section 62000) of Division 17 of the Fish and Game Wildlife Code.

Comment. Section 11531 is amended to reflect the recodification of the former Fish and Game Code.

Food & Agric. Code § 14103 (amended).

SEC. _____. Section 14103 of the Food and Agriculture Code is amended to read:
14103. In establishing criteria and regulations relating to environmental injury and protection, and in conducting the reviews required in Chapters 2 and 3, the

1 director shall consult with representatives of the Water Resources Control Board,
2 the Departments of Public Health, Fish and Game Wildlife, and Conservation, and
3 four outside experts of his selection from the fields of agricultural, biological,
4 ecological, and medical sciences.

5 **Comment.** Section 14103 is amended to update a reference to the former Department of Fish
6 and Game. See Fish & Wildlife Code § 1500.

7 **Food & Agric. Code § 19314 (amended).**

8 SEC. _____. Section 19314 of the Food and Agriculture Code is amended to read:
9 19314. The department may suspend or revoke a registration certificate, at any
10 time, if it finds any of the following has occurred:

11 (a) The registrant has sold or offered for sale to an unlicensed person, any inedible
12 kitchen grease.

13 (b) The registrant has stolen, misappropriated, contaminated, or damaged inedible
14 kitchen grease or containers of inedible kitchen grease.

15 (c) The registrant has violated this article or any regulations adopted to implement
16 this article.

17 (d) The registrant has taken possession of inedible kitchen grease from an
18 unregistered transporter or has knowingly taken possession of inedible kitchen
19 grease that has been stolen.

20 (e) The registrant has been found to have engaged in, or aided and abetted another
21 person or entity in the commission of, any violation of a statute, regulation, or order
22 relating to the transportation or disposal of inedible kitchen grease, including a
23 violation of the federal Water Pollution Control Act (33 U.S.C. Sec. 1251 et seq.),
24 the Porter-Cologne Water Quality Control Act (Division 7 (commencing with
25 Section 13000) of the Water Code), Section 5650 Article 1 (commencing with
26 Section 66500) of Chapter 1 of Title 1 of Part 3 of Division 17 of the Fish and Game
27 Wildlife Code, commercial vehicle weight limits, or commercial vehicle hours of
28 service.

29 (f) For purposes of this section, “registrant” includes any business entity, trustee,
30 officer, director, partner, person, or other entity holding more than 5 percent equity,
31 ownership, or debt liability in the registered entity engaged in the transportation of
32 inedible kitchen grease.

33 (g)(1) The registrant may appeal the suspension or revocation decision of the
34 department.

35 (2) The department shall establish procedures for the appeals process, to include
36 a noticed hearing.

37 (3) The department may reverse a suspension or revocation upon a finding of good
38 cause to do so.

39 (h) The department shall adopt regulations that specify the maximum time period
40 during which a suspension or revocation of a registration certificate may be
41 imposed, based on the severity or the number of violations that are the basis of the

department's action. The time period for the suspension or revocation of the registration certificate shall not exceed three years from the date the suspension or revocation of the registration certificate is imposed.

Comment. Subdivision (e) of Section 19314 is amended to reflect the recodification of the former Fish and Game Code.

Food & Agric. Code § 76511 (amended).

SEC. _____. Section 76511 of the Food and Agriculture Code is amended to read:

76511. "Commercial salmon vessel operator" is a commercial fisherman who operates a commercial salmon vessel for which a valid commercial salmon vessel permit has been issued pursuant to Article 4.5 (commencing with Section 8230) of Chapter 2 of Part 3 of Division 6 Chapter 5 (commencing with Section 41650) of Title 2 of Part 17 of Division 10 of the Fish and Game Wildlife Code.

Comment. Section 76511 is amended to reflect the recodification of the former Fish and Game Code.

Food & Agric. Code § 76530 (amended).

SEC. _____. Section 76530 of the Food and Agriculture Code is amended to read:

76530. "Fisherman" means an individual licensed to commercially harvest fish pursuant to Sections 7850 to 7852, inclusive, Section 14500 of the Fish and Game Wildlife Code.

Comment. Section 76530 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** In the tentative recommendation, existing Fish and Game Code Sections 7850 to 7852, inclusive, would be continued as proposed Sections 14500, 14550, 14600, and 14615. The amendment proposed above would only cross-refer to the provision that prescribes activity requiring a license.

The Commission requests public comment on whether that simplification would be appropriate.

Food & Agric. Code § 76535 (amended).

SEC. _____. Section 76535 of the Food and Agriculture Code is amended to read:

76535. "Handler" means any of the following:

- (a) A processor.
- (b) A receiver.
- (c) A wholesaler.
- (d) An exporter.
- (e) An individual licensed or working for a partnership, corporation, or any other business unit or organization licensed pursuant to subdivision (a) of Section 8032 20205 of the Fish and Game Wildlife Code and engaged in the California commercial salmon fishery.

Comment. Section 76535 is amended to reflect the recodification of the former Fish and Game Code.

1 **Food & Agric. Code § 76550 (amended).**

2 SEC. _____. Section 76550 of the Food and Agriculture Code is amended to read:
3 76550. “Processor” means any individual licensed or working for a partnership,
4 corporation, or any other business unit or organization licensed pursuant to Section
5 8034 20400 of the Fish and Game Wildlife Code and engaged in the California
6 commercial salmon fishery.

7 **Comment.** Section 76550 is amended to reflect the recodification of the former Fish and Game
8 Code.

9 **Food & Agric. Code § 76560 (amended).**

10 SEC. _____. Section 76560 of the Food and Agriculture Code is amended to read:
11 76560. “Receiver” means any individual licensed or working for a partnership,
12 corporation, or any other business unit or organization licensed pursuant to Section
13 8033 20450 of the Fish and Game Wildlife Code and engaged in the California
14 commercial salmon fishery.

15 **Comment.** Section 76560 is amended to reflect the recodification of the former Fish and Game
16 Code.

17 **Food & Agric. Code § 76580 (amended).**

18 SEC. _____. Section 76580 of the Food and Agriculture Code is amended to read:
19 76580. “Wholesaler” means any individual licensed or working for a partnership,
20 corporation, or any other business unit or organization licensed pursuant to Section
21 8035 20550 of the Fish and Game Wildlife Code and engaged in the California
22 commercial salmon fishery.

23 **Comment.** Section 76580 is amended to reflect the recodification of the former Fish and Game
24 Code.

25 **Food & Agric. Code § 76900 (amended).**

26 SEC. _____. Section 76900 of the Food and Agriculture Code is amended to read:
27 76900. Programs and administration of the activities that are conducted pursuant
28 to this chapter shall be funded as follows:

29 (a)(1) Every fisherman who sells salmon to any person who is required to be
30 licensed as a fish receiver pursuant to Section 8033 20450 of the Fish and Game
31 Wildlife Code shall pay the fee specified in Sections 76902 and 76905 for each
32 pound, or fraction thereof, of salmon taken and sold by the fisherman to the fish
33 receiver. The fee shall be collected from the fisherman and remitted to the secretary
34 by any person licensed to receive fish to whom the salmon are sold.

35 (2) Every fisherman licensed pursuant to Section 8033.5 20500 of the Fish and
36 Game Wildlife Code who sells salmon to the ultimate consumer shall pay the fee
37 specified in paragraph (1) and, if handlers have become subject to this chapter
38 pursuant to Article 9.5 (commencing with Section 76961), shall also pay the fee
39 specified in paragraph (1) of subdivision (b) for each pound, or fraction thereof, of

1 salmon taken and sold by the fisherman to the ultimate consumer. The fees shall be
2 remitted to the secretary by the fisherman.

3 (b)(1) Every handler subject to this chapter pursuant to Article 9.5 (commencing
4 with Section 76961) shall pay the fee specified in Sections 76902 and 76905 for
5 each pound, or fraction thereof, of salmon received from a fisherman. The fee shall
6 be remitted to the secretary by the handler.

7 (2) Every handler subject to this chapter pursuant to Article 9.5 (commencing with
8 Section 76961) shall pay the fee specified in paragraph (1) and shall also pay the fee
9 specified in paragraph (1) of subdivision (a) for each pound, or fraction thereof, of
10 salmon that the handler has caught while conducting the activities of a commercial
11 fisherman for his or her own processing or sale. The fees shall be remitted to the
12 secretary by the handler.

13 **Comment.** Section 76900 is amended to reflect the recodification of the former Fish and Game
14 Code.

15 **Food & Agric. Code § 76901 (amended).**

16 SEC. _____. Section 76901 of the Food and Agriculture Code is amended to read:
17 76901. Consistent with Section 8041 20950 of the Fish and Game Wildlife Code,
18 the following persons shall remit the fees required by subdivision (a) of Section
19 76900 to the secretary:

20 (a) Any person who is required to be licensed as a fish receiver by Section 8033
21 20450 of the Fish and Game Wildlife Code, and receives salmon in this state from
22 persons conducting the activities of a commercial fisherman.

23 (b) Any commercial fisherman licensed pursuant to Section 8033.5 20500 of the
24 Fish and Game Wildlife Code who sells salmon to the ultimate consumer.

25 **Comment.** Section 76901 is amended to reflect the recodification of the former Fish and Game
26 Code.

27 **Food & Agric. Code § 76904 (amended).**

28 SEC. _____. Section 76904 of the Food and Agriculture Code is amended to read:
29 76904. (a) Sections ~~8058 to 8070, inclusive, Subdivisions (b) through (g) of~~
30 Section 21365, Section 21370, and Section 21375 of the Fish and Game Wildlife
31 Code apply to claims for overpayment of fees to the secretary.

32 (b) For purposes of this section, “department,” as used in those sections, means
33 the Department of Food and Agriculture, and “landing fee” means the fees imposed
34 pursuant to this article.

35 **Comment.** Section 76904 is amended to reflect the recodification of the former Fish and Game
36 Code. The section is also amended to add subdivision designations.

37 **Food & Agric. Code § 76950 (amended).**

38 SEC. _____. Section 76950 of the Food and Agriculture Code is amended to read:

1 76950. (a) On or before August 15, 1989, the secretary shall establish a list of
2 commercial salmon vessel operators eligible to vote on implementation of this
3 chapter.

4 (b) In establishing the list, the secretary may require that handlers and commercial
5 salmon vessel operators submit the names and mailing addresses of all commercial
6 salmon vessel operators who harvested salmon during the previous season, as
7 evidenced by receipts prepared under Section 8043 21000 of the Fish and Game
8 Wildlife Code, together with the volume of salmon landed.

9 (c) The secretary may also request the assistance of the Director of Fish and
10 Wildlife for the names of all commercial salmon vessel operators who landed
11 salmon the previous season and the volume of landings for each vessel.

12 (d) The request for the information shall be in writing and shall be subject to the
13 confidentiality provisions of Section 8022 22205 of the Fish and Game Wildlife
14 Code.

15 (e) The list shall be filed within 30 days following receipt of the written notice.

16 **Comment.** Section 76950 is amended to reflect the recodification of the former Fish and Game
17 Code. The section is also amended to add subdivision designations.

18 ☐ **Note.** In the tentative recommendation, existing Fish and Game Code Section 8043 would be
19 continued in proposed Sections 21000, 21005, 21020, 20125, and 21155. In the revision proposed
20 above, only the provision that establishes the duty of a commercial fisherman to file landing
21 receipts would be referenced. That would seem to be unproblematic, because the other provisions
22 of Section 8043 would apply by their terms.

23 **The Commission requests public comment on whether the proposed simplification would**
24 **be appropriate.**

25 **Food & Agric. Code § 76951 (amended).**

26 SEC. _____. Section 76951 of the Food and Agriculture Code is amended to read:

27 76951. (a) Any commercial salmon vessel operator whose name does not appear
28 upon the secretary's list of commercial salmon vessel operators affected may have
29 his or her name established on the list by filing with the secretary a signed statement,
30 identifying himself or herself as a commercial salmon vessel operator and furnishing
31 evidence of having made landings the previous year through the submission of
32 receipts prepared under Section 8043 Article 1 (commencing with Section 21000)
33 of Chapter 3 of Title 10 of Part 6 of Division 6 of the Fish and Game Wildlife Code.

34 (b) Failure to be on the list does not exempt a commercial salmon vessel operator
35 from paying assessments under this chapter.

36 **Comment.** Section 76951 is amended to reflect the recodification of the former Fish and Game
37 Code. The section is also amended to add subdivision designations.

38 ☐ **Note.** In the tentative recommendation, the provisions of existing Fish and Game Code Section
39 8043, which is cross-referenced in the section above, have been continued in several different
40 sections of the proposed Fish and Wildlife Code.

41 **The Commission requests public comment on the proposed conforming revision of those**
42 **provisions in the section above.**

1 **Food & Agric. Code § 76953.5 (amended).**

2 SEC. _____. Section 76953.5 of the Food and Agriculture Code is amended to read:

3 76953.5. (a) Before the referendum vote is conducted by the secretary, the
4 proponents of the council shall deposit with the secretary the amount that the
5 secretary determines is necessary to defray the expenses of preparing the necessary
6 lists and information and conducting the referendum vote.

7 (b) Any funds not used in carrying out this article shall be returned to the
8 proponents of the council who deposited the funds with the secretary.

9 (c) Upon establishment of the council, the council may reimburse the proponents
10 of the council for any funds deposited with the secretary that were used in carrying
11 out this article, and for any legal expenses and costs incurred in establishing the
12 council.

13 (d) After approval by the Commercial Salmon Trollers Advisory Committee
14 created pursuant to Section 7862 41380 of the Fish and Game Wildlife Code, the
15 Department of Fish and Wildlife may expend funds collected pursuant to Section
16 7861 41360 of the Fish and Game Wildlife Code, for payment to the secretary to
17 pay necessary costs incurred in conducting the implementation referendum vote. If
18 the commercial salmon vessel operators who voted in the implementation
19 referendum voted in favor of implementing this article, as provided in Section
20 76952, the council shall reimburse the Commercial Salmon Stamp Account in the
21 Fish and Game Preservation Fund all amounts received from that fund.

22 **Comment.** Section 76953.5 is amended to reflect the recodification of the former Fish and Game
23 Code.

24 **Food & Agric. Code § 76961 (amended).**

25 SEC. _____. Section 76961 of the Food and Agriculture Code is amended to read:

26 76961. Nothing in this division shall be interpreted to supersede or limit state
27 agencies from exercising their existing enforcement authority, including, but not
28 limited to, under the Fish and Game Wildlife Code, the Food and Agricultural Code,
29 the Government Code, the Health and Safety Code, the Public Resources Code, the
30 Water Code, or the application of those laws.

31 **Comment.** Section 76961 is amended to reflect the recodification of the former Fish and Game
32 Code.

33 **Food & Agric. Code § 76971 (amended).**

34 SEC. _____. Section 76971 of the Food and Agriculture Code is amended to read:

35 76971. (a) Between January 1, 2019, and February 28, 2019, and in the same
36 period each five years thereafter, the secretary shall, by the public hearing
37 procedure, and if appropriate, the procedure specified in this article, determine
38 whether the council program provided for in this chapter shall continue in effect.

39 (b) If the secretary finds from evidence received at the hearing that a substantial
40 question exists as to whether the council program is contrary to or does not
41 effectuate the declared purposes or provisions of this chapter or receives in writing

a referendum petition with the signatures of 25 percent or more of the number of commercial salmon vessel operators who made landings in the previous year, as evidenced by receipts prepared under Section 8043 Article 1 (commencing with Section 21000) of Chapter 3 of Title 10 of Part 6 of Division 6 of the Fish and Game Wildlife Code, and, if applicable, 25 percent or more of the handlers who are subject to this chapter, the council program shall be submitted to referendum as provided in this article.

Comment. Section 76971 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** In the tentative recommendation, the provisions of existing Fish and Game Code Section 8043, which is cross-referenced in the section above, have been continued in several different sections of the proposed Fish and Wildlife Code.

The Commission requests public comment on the proposed conforming revision of those provisions in the section above.

Food & Agric. Code § 76981 (amended).

SEC. _____. Section 76981 of the Food and Agriculture Code is amended to read:

76981. (a) If the commercial salmon vessel operators and the handlers vote to terminate the council pursuant to Article 10 (commencing with Section 76971), the council shall remain in existence for the purpose of furnishing the secretary with a complete record of its outstanding financial obligations, accrued and to accrue.

(b) The secretary shall pay from the money deposited and disbursed any outstanding obligations and any obligations incurred by the secretary and the department under the terms and provisions of this section. Any money that remains shall be retained by the secretary to defray the expenses of formulation, issuance, administration, or enforcement of any subsequent program for salmon promotion.

(c) If no such program is undertaken within a period of three years from the date of termination of the council, that money shall be withdrawn from the approved depository and paid into the special account for enhancement and restoration programs established pursuant to Section ~~7861~~ 41360 of the Fish and Game Wildlife Code.

Comment. Section 76981 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to add subdivision designations.

Food & Agric. Code § 78406 (amended).

SEC. _____. Section 78406 of the Food and Agriculture Code is amended to read:

78406. “Fisherman” means any person licensed to commercially harvest fish or shellfish pursuant to ~~Sections 7850 to 7852, inclusive, Chapter 1 (commencing with Section 14500)~~ of Title 2 of Part 6 of Division 6 of the Fish and Game Wildlife Code who lands any species of fish or shellfish for commercial purposes included in, and not excepted from, a fishery, as defined in Section 78407, or who is the registered owner or lessee of a vessel that is used to land any species of fish or shellfish included in, and not excepted from, a fishery, as defined in Section 78407,

1 if the registered owner or lessee has a financial interest in the fish or shellfish and
2 pays or has assessments paid on his or her behalf.

3 **Comment.** Section 78406 is amended to reflect the recodification of the former Fish and Game
4 Code.

5  **Note.** In the tentative recommendation, the provisions of the existing Fish and Game Code
6 sections that are cross-referenced in the section above have been continued in several different
7 sections of the proposed Fish and Wildlife Code.

8 **The Commission requests public comment on the proposed conforming revision of those**
9 **provisions in the section above.**

10 **Food & Agric. Code § 78408 (amended).**

11 SEC. _____. Section 78408 of the Food and Agriculture Code is amended to read:
12 78408. “Handler” means any of the following:

- 13 (a) A processor engaged in the California fishery.
- 14 (b) A receiver engaged in the California fishery.
- 15 (c) A wholesaler engaged in the California fishery.
- 16 (d) An exporter engaged in the California fishery.
- 17 (e) A person is licensed or who works for any person who is licensed pursuant to
18 subdivision (a) of Section 8032 20205 of the Fish and Game Wildlife Code and
19 engaged in the California commercial fisheries.

20 **Comment.** Section 78408 is amended to reflect the recodification of the former Fish and Game
21 Code.

22 **Food & Agric. Code § 78411 (amended).**

23 SEC. _____. Section 78411 of the Food and Agriculture Code is amended to read:
24 78411. “Processor” means any person who is licensed or who works for any
25 person who is licensed pursuant to Section 8034 20400 of the Fish and Game
26 Wildlife Code and engaged in the California commercial fisheries.

27 **Comment.** Section 78411 is amended to reflect the recodification of the former Fish and Game
28 Code.

29 **Food & Agric. Code § 78412 (amended).**

30 SEC. _____. Section 78412 of the Food and Agriculture Code is amended to read:
31 78412. “Receiver” means any person who is licensed or who works for a person
32 who is licensed pursuant to Section 8033 20450 of the Fish and Game Wildlife Code
33 and engaged in the California commercial fisheries.

34 **Comment.** Section 78412 is amended to reflect the recodification of the former Fish and Game
35 Code.

36 **Food & Agric. Code § 78413 (amended).**

37 SEC. _____. Section 78413 of the Food and Agriculture Code is amended to read:

1 78413. “Wholesaler” means any person who is licensed or who works for a person
2 who is licensed pursuant to Section 8035 20550 of the Fish and Game Wildlife Code
3 and engaged in the California commercial fisheries.

4 **Comment.** Section 78413 is amended to reflect the recodification of the former Fish and Game
5 Code.

6 **Food & Agric. Code § 78486 (amended).**

7 SEC. _____. Section 78486 of the Food and Agriculture Code is amended to read:
8 78486. One nonvoting member of the council may be appointed by the secretary
9 to represent each of the following entities:

10 (a) The department.

11 (b) The Department of Fish and Game Wildlife.

12 (c) The California Sea Grant Program.

13 (d) The State Department of Health Services.

14 **Comment.** Section 78486 is amended to update a reference to the former Department of Fish
15 and Game. See Fish & Wildlife Code § 1500.

16 **Food & Agric. Code § 78550 (amended).**

17 SEC. _____. Section 78550 of the Food and Agriculture Code is amended to read:
18 78550. (a) In order to carry out the programs and administer the activities that are
19 conducted pursuant to this chapter, except as specified in Section 78557, a fee shall
20 be established by the director and, thereafter, shall be recommended to the director
21 by the council, based on an amount which is four-tenths of 1 percent of the ex-vessel
22 price per pound paid for each pound of fish or shellfish specified in subdivision (a)
23 of Section 78407 sold to a receiver, or sold by a fisherman directly to the public
24 pursuant to Section 8033.5 20500 of the Fish and Game Wildlife Code.

25 (b) The fee shall be paid by the receiver or the fisherman, or both, and remitted to
26 the director as specified in Section 78552.

27 (c) The amount of the fee for each species shall be established annually by the
28 council for recommendation to the director, calculated to the nearest 1/10,000 of
29 one cent (\$0.0001) based on the formulation in this section.

30 (d) Individual fees shall be established for species identified in subdivision (a) of
31 Section 78407.

32 (e) The council, with assistance from the Department of Fish and Game Wildlife,
33 may determine the fee structure for individual species and may average or
34 consolidate fees for similar species to simplify landing fee reporting and accounting
35 requirements.

36 (f) The amount of the fee shall be based on the landed weight of the fish or
37 shellfish, as reported on the fish landing receipt made under Section 8043 Article 1
38 (commencing with Section 21000) of Chapter 3 of Title 10 of Part 6 of Division 6
39 of the Fish and Game Wildlife Code.

(g) A fisherman selling to the public pursuant to Section ~~8033.5~~ 20500 of the Fish and Game Wildlife Code shall remit the fee directly to the director as specified in Section 78552.

(h) To facilitate collection of fees from receivers or fishermen who handle a small volume of fish and shellfish specified in subdivision (a) of Section 78407, receivers or fishermen whose estimated monthly fee payments do not exceed ten dollars (\$10) may file reports and submit fees on a quarterly basis. Payments are delinquent if not submitted within 60 days following the end of the quarter in which they are due.

Comment. Section 78550 is amended to reflect the recodification of the former Fish and Game Code, and to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision designations.

 **Note.** In the tentative recommendation, the provisions of existing Fish and Game Code Section 8043, which is cross-referenced in proposed subdivision (f) of the section above, have been continued in several different sections of the proposed Fish and Wildlife Code.

The Commission requests public comment on the proposed conforming revision of those provisions in the section above.

Food & Agric. Code § 78552.5 (amended).

SEC. _____. Section 78552.5 of the Food and Agriculture Code is amended to read:

78552.5. (a) Notwithstanding any other provision of this article, in any calendar year in which a fisherman who is selling to the public lands, or a receiver receives, less than 10,000 pounds in the aggregate of fish or shellfish in all fisheries combined or for which the annual fees that would otherwise be due by that fisherman or receiver to the council for those fish or shellfish totals less than twenty-five dollars (\$25), the fisherman selling to the public or the receiver shall not pay any fees pursuant to this chapter.

(b) In any calendar year in which a fisherman who is selling to the public lands, or a receiver receives, 10,000 pounds or more in the aggregate of fish or shellfish in all fisheries combined, or for which the annual fees that are due by that fisherman or receiver to the council for those fish or shellfish totals twenty-five dollars (\$25) or more, the fisherman selling to the public or the receiver shall remit the fees on or before February 28 of the year following the landing or receipt. Any fees that are not received on or before February 28 of the year following the landing or receipt of fish or shellfish for which the fees are due is delinquent and subject to collection pursuant to Section 78554.

(c) If, in any calendar year, a fisherman lands less than 10,000 pounds in the aggregate of fish or shellfish in all fisheries combined, and has paid fees to the council, the fisherman may apply for a refund of the amount paid, not to exceed a total of twenty-five dollars (\$25). An application for refund shall be submitted on a form supplied by the council and shall include documentation in the form of landing receipts submitted to the Department of Fish and Game Wildlife pursuant to Section ~~8046~~ 21150 of the Fish and Game Wildlife Code for all species landed and proof of fees paid. Applications for refunds shall be received at the council office on or

1 before March 31 of the year following the landing or receipt of fish or shellfish for
2 which the fees were paid.

3 **Comment.** Section 78552.5 is amended to reflect the recodification of the former Fish and Game
4 Code. The section is also amended to update a reference to the former Department of Fish and
5 Game. See Fish & Wildlife Code § 1500.

6 **Food & Agric. Code § 78554 (amended).**

7 SEC. _____. Section 78554 of the Food and Agriculture Code is amended to read:

8 78554. (a) The collection of funds from anyone who does not pay or remit fees
9 due and payable shall be conducted as follows:

10 (1) Pursuant to Section ~~8053~~ 21350 of the Fish and Game Wildlife Code.

11 (2) When the secretary makes a determination that fees due pursuant to this
12 chapter are deficient, the secretary may determine the amount of the deficiency,
13 including any applicable penalty. Section 59234.5 shall apply to deficiency
14 determinations made pursuant to this section.

15 (3) This subdivision is supplemental to any other provisions for collection and
16 imposition of fees and penalties provided by this chapter. In lieu of proceeding
17 pursuant to this section, the secretary may file a complaint for collection of unpaid
18 fees as provided by law.

19 (b) A person who violates any provision of this chapter is guilty of a misdemeanor,
20 and, upon conviction, shall be punished by a fine of not less than one hundred dollars
21 (\$100) or more than one thousand dollars (\$1,000), by imprisonment in the county
22 jail for not less than 10 days or more than six months, or by both that fine and
23 imprisonment. Each violation during any day is a separate offense.

24 (c) A person who violates any provision of this chapter is liable civilly in an
25 amount of not more than two thousand five hundred dollars (\$2,500) for each
26 violation. Each violation during any day is a separate offense.

27 **Comment.** Section 78554 is amended to reflect the recodification of the former Fish and Game
28 Code.

29 **Food & Agric. Code § 78556 (amended).**

30 SEC. _____. Section 78556 of the Food and Agriculture Code is amended to read:

31 78556. Sections ~~8058 to 8070~~ 21365 to 21375, inclusive, of the Fish and Game
32 Wildlife Code apply to claims for overpayment of fees to the secretary. For purposes
33 of this section, “department,” as used in those sections, means the Department of
34 Food and Agriculture, and “landing fee” means the fees imposed pursuant to this
35 article.

36 **Comment.** Section 78556 is amended to reflect the recodification of the former Fish and Game
37 Code.

38 **Food & Agric. Code § 78564 (amended).**

39 SEC. _____. Section 78564 of the Food and Agriculture Code is amended to read:

1 78564. (a) The council may develop guidelines for the establishment and
2 operation of a “credit-back” program for receivers and fishermen, which authorizes
3 the reimbursement of a percentage of individual contributions to the council, not to
4 exceed 50 percent, for specified individual expenditures benefiting the fishing
5 industry. Individual expenditures eligible for reimbursement may include, but are
6 not necessarily limited to, promotion, research and development, and advertising.
7 The council shall appoint a review committee from its membership and from the
8 fishing industry to review and approve applications for the credit. Any guidelines
9 that require the assistance of, or impact the operation of, the Department of Fish and
10 Game Wildlife are subject to Section 78552.

11 (b) Upon submittal of a statement of completion of a credit-back program, and its
12 acceptance by the review committee, the review committee may direct the council
13 to reimburse a percentage of individual contributions, not to exceed 50 percent, at
14 the end of the fiscal year for which the credit-back application and expenditure were
15 made.

16 **Comment.** Section 78564 is amended to update a reference to the former Department of Fish
17 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
18 designations.

19 **Food & Agric. Code § 78575 (amended).**

20 SEC. _____. Section 78575 of the Food and Agriculture Code is amended to read:

21 78575. On or before February 1, 1991, the director shall establish a list of
22 receivers and fishermen eligible to vote on the implementation of this chapter. In
23 establishing the list, the director may request, in writing, the assistance of the
24 Director of Fish and Game Wildlife and associations representing fishermen or
25 receivers in gathering the names of all fishermen and receivers who sold or received
26 specified seafood species landed the previous season. The list shall be filed within
27 30 days following receipt of the written notice from the director. All information on
28 the volume of landings shall be kept confidential.

29 **Comment.** Section 78575 is amended to update a reference to the Director of the former
30 Department of Fish and Game. See Fish & Wildlife Code § 1500.

31 **Food & Agric. Code § 78576 (amended).**

32 SEC. _____. Section 78576 of the Food and Agriculture Code is amended to read:

33 78576. (a) Any fisherman or receiver whose name does not appear on the
34 director’s list of receivers may have his or her name included on the list by filing
35 with the director a signed statement, identifying himself or herself as a fisherman or
36 receiver and furnishing evidence of having sold or received landings the previous
37 year through the submission of receipts prepared under Section 8043 Article 1
38 (commencing with Section 21000) of Chapter 3 of Title 10 of Part 6 of Division 6
39 of the Fish and Game Wildlife Code.

40 (b) The failure to include a fisherman’s or a receiver’s name on the list does not
41 exempt a fisherman or a receiver from paying assessments under this chapter.

1 **Comment.** Section 78576 is amended to reflect the recodification of the former Fish and Game
2 Code. The section is also amended to add subdivision designations.

3 **Food & Agric. Code § 78584 (amended).**

4 SEC. _____. Section 78584 of the Food and Agriculture Code is amended to read:
5 78584. Nothing in this division shall be interpreted to supersede or limit state
6 agencies from exercising their existing enforcement authority, including, but not
7 limited to, under the Fish and Game Wildlife Code, the Food and Agricultural Code,
8 the Government Code, the Health and Safety Code, the Public Resources Code, the
9 Water Code, or the application of those laws.

10 **Comment.** Section 78584 is amended to reflect the recodification of the former Fish and Game
11 Code.

12 **Food & Agric. Code § 78588 (amended).**

13 SEC. _____. Section 78588 of the Food and Agriculture Code is amended to read:
14 78588. (a) On the termination of the council pursuant to this article, the council
15 shall remain in existence until the end of the marketing season then current for the
16 purpose of furnishing the secretary with a complete record of its outstanding
17 financial obligations.

18 (b) The secretary shall pay from the money collected pursuant to Article 7
19 (commencing with Section 78550) any outstanding obligations and any obligations
20 incurred by the secretary and the department under this section. Any money that
21 remains shall be retained by the secretary to defray the expenses of formulation,
22 issuance, administration, or enforcement of any subsequent program for seafood
23 promotion.

24 (c) If no seafood promotion program is undertaken within a period of three years
25 from the date of termination of the council, that money shall be withdrawn from the
26 approved depository and paid into the special account for enhancement and
27 restoration programs established pursuant to Section 7861 41360 of the Fish and
28 Game Wildlife Code.

29 (d) The secretary may also specifically designate any money that remains for
30 expenditure for research on commercial fishery resources or fisheries, the
31 improvement of commercial fishery resources or fisheries, or both.

32 **Comment.** Section 78588 is amended to reflect the recodification of the former Fish and Game
33 Code. The section is also amended to add subdivision designations.

34 **Food & Agric. Code § 79023 (amended).**

35 SEC. _____. Section 79023 of the Food and Agriculture Code is amended to read:
36 79023. “Diver” means an individual licensed to commercially harvest fish
37 pursuant to Section 7850 14500 of the Fish and Game Wildlife Code, and who in
38 addition holds a valid sea urchin diving permit.

39 **Comment.** Section 79023 is amended to reflect the recodification of the former Fish and Game
40 Code.

1 **Food & Agric. Code § 79024 (amended).**

2 SEC. _____. Section 79024 of the Food and Agriculture Code is amended to read:
3 79024. “Handler” means any individual or person working for any individual or
4 business entity licensed as one of the following who can document that they are
5 substantially engaged in the California commercial sea urchin fishery:

6 (a) A receiver licensed pursuant to Section 8033 20450 of the Fish and Game
7 Wildlife Code.

8 (b) A processor licensed pursuant to Section 8034 20400 of the Fish and Game
9 Wildlife Code.

10 (c) A wholesaler licensed pursuant to Section 8035 20550 of the Fish and Game
11 Wildlife Code.

12 (d) A business entity or organization licensed pursuant to subdivision (a) of
13 Section 8032 20205 of the Fish and Game Wildlife Code.

14 **Comment.** Section 79024 is amended to reflect the recodification of the former Fish and Game
15 Code.

16 **Food & Agric. Code § 79040 (amended).**

17 SEC. _____. Section 79040 of the Food and Agriculture Code is amended to read:
18 79040. There is in the state government the California Sea Urchin Commission.
19 The commission shall be composed of 11 voting members, including five sea urchin
20 handlers, five sea urchin divers, and one public member, and may include any
21 number of nonvoting members, at the discretion of the commission.

22 (a) Handlers shall elect five commission members from among those persons
23 qualified pursuant to this act and licensed pursuant to the Fish and Game Wildlife
24 Code to engage in the sea urchin fishery or a person specifically representing one or
25 more handlers.

26 (b)(1) Divers statewide shall elect five persons from among those persons
27 qualified pursuant to this act and licensed pursuant to the Fish and Game Wildlife
28 Code to engage in the sea urchin fishery.

29 (2) One diver member shall be elected from each of the following areas:

30 (A) San Diego County.

31 (B) Orange or Los Angeles County.

32 (C) Ventura County.

33 (D) Santa Barbara County.

34 (E) Sonoma or Mendocino County.

35 (3) Persons nominated for election to the commission as a diver member shall be
36 nominated by a petition signed by not less than five divers eligible to vote pursuant
37 to this chapter.

38 (c) The public member shall be appointed to the commission by the secretary from
39 nominees recommended by the commission.

40 (d) The secretary and other appropriate individuals, as determined by the
41 commission, shall be nonvoting members of the commission.

1 (e) If the secretary finds, pursuant to Section 79103, that either the divers or
2 handlers, but not both, have voted in favor of the referendum, the number of
3 commission voting members shall be six, composed of either five divers or five
4 handlers, depending on which portion of the industry voted in favor of the
5 referendum, elected pursuant to this section and one public member.

6 (f) If the composition of the commission is determined by subdivision (e) it shall
7 also include at least one nonvoting member appointed by the commission
8 representing either divers or handlers, whichever did not vote in favor of the
9 referendum.

10 **Comment.** Section 79040 is amended to reflect the recodification of the former Fish and Game
11 Code.

12 **Food & Agric. Code § 79100 (amended).**

13 SEC. _____. Section 79100 of the Food and Agriculture Code is amended to read:

14 79100. (a) Within 60 days of the effective date of this chapter, the secretary shall
15 establish a list of divers and handlers eligible to vote on implementation of this
16 chapter. In establishing the list, the secretary may require that divers and handlers
17 submit the names and mailing addresses of all divers and handlers. The secretary
18 also may request assistance of the Director of Fish and Game Wildlife for the names
19 of all licensed divers and handlers engaged in the sea urchin fishery during the
20 previous season and the volume of landings of each diver. The request for
21 information shall be in writing and the information provided shall be confidential
22 and not made public. Notwithstanding Section 8022 22205 of the Fish and Wildlife
23 Code or any other provision of law, the Director of Fish and Game Wildlife shall
24 comply with the request within 30 days of receipt.

25 (b) Any diver and handler whose name does not appear on the appropriate list
26 may have his or her name placed on the list by filing with the secretary a signed
27 statement, identifying himself or herself as a diver or handler, and submitting other
28 supporting documentation. Failure to be on the list does not exempt the person from
29 paying assessments, and does not invalidate any industry votes conducted pursuant
30 to this article.

31 (c) Proponents and opponents of establishing the commission pursuant to this
32 chapter may contact divers and handlers on the lists through the secretary, in a form
33 and manner prescribed by the secretary, if all expenses associated with those
34 contacts are paid in advance.

35 **Comment.** Section 79100 is amended to reflect the recodification of the former Fish and Game
36 Code. The section is also amended to update a reference to the Director of the former Department
37 of Fish and Game. See Fish & Wildlife Code § 1500.

38 **Food & Agric. Code § 79121 (amended).**

39 SEC. _____. Section 79121 of the Food and Agriculture Code is amended to read:

40 79121. (a) Every person or entity who handles sea urchin in any quantity shall
41 keep a complete and accurate record of all transactions involving the purchase or

1 sale of sea urchin. The records shall be in a simple form and contain such
2 information as the commission shall prescribe. The records shall be preserved by
3 the handler for a period of three years, and shall be offered and submitted for
4 inspection at any reasonable time upon written demand of the commission or its
5 duly authorized agent.

6 (b) The assessment imposed by this article shall be paid consistent with the
7 applicable procedures required for the payment of landing fees pursuant to Article
8 7.5 (commencing with Section 8040) of Chapter 1 of Part 3 of Division 6 Title 10
9 commencing with Section 20900) of Part 6 of Division 6 of the Fish and Game
10 Wildlife Code. The fees imposed shall be paid quarterly pursuant to Section 8053
11 21350 of the Fish and Game Wildlife Code. If fees are not paid as required, the
12 commission shall collect amounts owed under the procedures prescribed for sales
13 and use taxes provided in Chapter 5 (commencing with Section 6451) of Part 1 of
14 Division 2 of the Revenue and Taxation Code, insofar as they may be applicable,
15 and for those purposes, “board” means the commission and “the date on which the
16 tax became due and payable” means 30 days after the close of the quarter for which
17 it is due.

18 (c) Sections ~~8058 to 8070~~ 21365 to 21375, inclusive, of the Fish and Game
19 Wildlife Code, shall apply to claims for overpayment of assessments to the
20 commission. For the purposes of this subdivision, “department” as used in those
21 sections, means the commission, and “landing fee” means the assessment imposed
22 under this article.

23 **Comment.** Section 79121 is amended to reflect the recodification of the former Fish and Game
24 Code.

25 **Food & Agric. Code § 79132 (amended).**

26 SEC. _____. Section 79132 of the Food and Agriculture Code is amended to read:
27 79132. The commission may consult and enter into agreements with the Director
28 of Fish and Game Wildlife, if necessary and appropriate, to assist in the
29 administration and enforcement of this chapter, including, but not limited to,
30 collecting assessments authorized by this chapter and providing routine information
31 regarding the persons that may be subject to this chapter. If an agreement is
32 established, the commission shall reimburse the Department of Fish and Game
33 Wildlife for reasonable administrative costs associated with the agreement.

34 **Comment.** Section 79132 is amended to update a reference to the former Department of Fish
35 and Game, and a reference to the Director of that department. See Fish & Wildlife Code § 1500.

36 **Food & Agric. Code § 79157 (amended).**

37 SEC. _____. Section 79157 of the Food and Agriculture Code is amended to read:
38 79157. “Fisherman” or “fishermen” means a person licensed to commercially
39 harvest fish pursuant to Section ~~7850~~ 14500 of the Fish and Game Wildlife Code,
40 who in addition holds a valid spiny lobster fishing permit, and has documented
41 landings of spiny lobster in the previous marketing season.

1 **Comment.** Section 79157 is amended to reflect the recodification of the former Fish and Game
2 Code.

3 **Food & Agric. Code § 79157.5 (amended).**

4 SEC. _____. Section 79157.5 of the Food and Agriculture Code is amended to read:
5 79157.5. “Handler” means a person engaged with the following licensees:

- 6 (a) Licensed pursuant to Section 8033 20450 of the Fish and Game Wildlife Code.
7 (b) Licensed pursuant to Section 8034 20400 of the Fish and Game Wildlife Code.
8 (c) Licensed pursuant to Section 8035 20550 of the Fish and Game Wildlife Code.
9 (d) Licensed pursuant to subdivision (a) of Section 8032 20205 of the Fish and
10 Game Wildlife Code.

11 **Comment.** Section 79157.5 is amended to reflect the recodification of the former Fish and Game
12 Code.

13 **Food & Agric. Code § 79180 (amended).**

14 SEC. _____. Section 79180 of the Food and Agriculture Code is amended to read:
15 79180. (a) Within 60 days of the effective date of this chapter, the secretary shall
16 establish a list of fishermen eligible to vote on the implementation of this chapter.
17 In establishing the list, the secretary may require that fishermen submit the names
18 and mailing addresses of all fishermen. The secretary also may request the
19 assistance of the Director of Fish and Wildlife for the names of all licensed
20 fishermen engaged in the spiny lobster fishery during the previous season and the
21 volume of landings of each fisherman. The request for information shall be in
22 writing and the information provided shall be confidential and not made public.
23 Notwithstanding Section 8022 22205 of the Fish and Game Wildlife Code or any
24 other law, the Director of Fish and Wildlife shall comply with the request within 30
25 days of receipt.

26 (b) A fisherman whose name does not appear on the appropriate list may have his
27 or her name placed on the list by filing with the secretary a signed statement
28 identifying himself or herself as a fisherman and submitting other supporting
29 documentation. Failure to be on the list does not exempt the person from paying
30 assessments and does not invalidate any industry votes conducted pursuant to this
31 article.

32 (c) Proponents and opponents of establishing the commission pursuant to this
33 chapter may contact fishermen on the lists through the secretary in a form and
34 manner prescribed by the secretary, if all expenses associated with those contacts
35 are paid in advance.

36 **Comment.** Section 79180 is amended to reflect the recodification of the former Fish and Game
37 Code.

38 **Food & Agric. Code § 80075 (amended).**

39 SEC. _____. Section 80075 of the Food and Agriculture Code is amended to read:

1 **Gov't Code § 998.1 (amended).**

2 SEC. ____ . Section 998.1 of the Government Code is amended to read:

3 998.1. (a) The sum of two million eight hundred sixty-seven thousand six hundred
4 sixty-seven dollars (\$2,867,667) is hereby transferred from the Lake Davis Northern
5 Pike Eradication Project Relief Account to the City of Portola to provide economic
6 and infrastructure assistance and in satisfaction of the City of Portola's claims
7 against the State of California or its agencies, officers, and employees for all alleged
8 damage or injury it claims to have suffered as a result of the Lake Davis Northern
9 Pike Eradication Project. This sum of money is being paid in accordance with the
10 terms of a settlement agreement and release to be entered into between the City of
11 Portola and the State of California, and shall be reduced by any amounts already
12 expended by the State of California or the Department of Fish and Game Wildlife
13 pursuant to any agreement with the City of Portola concerning the provision of
14 alternate water supplies. With respect to the Lake Davis Northern Pike Eradication
15 Project, and except as otherwise provided in that agreement, all obligations imposed
16 upon the State of California by any such memoranda and by Section 116751 of the
17 Health and Safety Code shall terminate upon enactment of this part.

18 (b) The sum of two million fifty-eight thousand three hundred thirty-three dollars
19 (\$2,058,333) is hereby transferred from the Lake Davis Northern Pike Eradication
20 Project Relief Account to the County of Plumas to provide economic and
21 infrastructure assistance and in satisfaction of the County of Plumas' and Plumas
22 County Flood Control and Water Conservation District's claims against the State of
23 California and its agencies, officers, and employees for all alleged damage or injury
24 they claim to have suffered as a result of the Lake Davis Northern Pike Eradication
25 Project. This sum of money is being paid in accordance with the terms of a
26 settlement agreement and release between the County of Plumas and Plumas County
27 Flood Control and Water Conservation District and the State of California, and shall
28 be reduced by any amounts already expended by the State of California or the
29 Department of Fish and Game Wildlife pursuant to any agreement with the County
30 of Plumas concerning the provision of alternate water supplies. With regard to the
31 Lake Davis Northern Pike Eradication Project, and except as provided in that
32 agreement, all obligations imposed upon the State of California by such Memoranda
33 and by Section 16751 of the Health and Safety Code, shall terminate upon
34 enactment of this part.

35 (c) The sum of two hundred fifty thousand dollars (\$250,000) shall be transferred
36 from the Lake Davis Northern Pike Eradication Project Relief Account to the
37 County of Plumas to be used as matching funds for the purpose of obtaining a loan
38 or grant from the State Department of Health Services pursuant to Chapter 4.5
39 (commencing with Section 116760) of Part 12 of Division 104 of the Health and
40 Safety Code to make improvements to the Lake Davis Water Treatment Plant. The
41 funds shall be deposited in an interest bearing account and held until the county
42 enters into an agreement with the State Department of Health Services for a loan or

1 grant. If the improvements requested by the County of Plumas are not eligible for a
2 loan or grant, the sum of two hundred fifty thousand dollars (\$250,000), plus any
3 interest earned, shall be returned to the General Fund.

4 (d) The sum of four million dollars (\$4,000,000) shall be available from the Lake
5 Davis Northern Pike Eradication Project Relief Account to pay all other claims
6 including, but not limited to, claims for personal injury, property damage, or
7 business loss, arising out of the Lake Davis Northern Pike Eradication Project. Any
8 unused funds, plus any interest earned, shall revert to the General Fund.

9 **Comment.** Section 998.1 is amended to update references to the former Department of Fish and
10 Game. See Fish & Wildlife Code § 1500.

11 **Gov't Code § 1322 (amended).**

12 SEC. _____. Section 1322 of the Government Code is amended to read:

13 1322. In addition to any other statutory provisions requiring confirmation by the
14 Senate of officers appointed by the Governor, the appointments by the Governor of
15 the following officers and the appointments by him or her to the listed boards and
16 commissions are subject to confirmation by the Senate:

- 17 (1) California Horse Racing Board.
- 18 (2) Court Reporters Board of California.
- 19 (3) Chief, Division of Occupational Safety and Health.
- 20 (4) Chief, Division of Labor Standards Enforcement.
- 21 (5) Commissioner of Corporations.
- 22 (6) Contractors State License Board.
- 23 (7) Director of Fish and Game Wildlife.
- 24 (8) Director of Health Care Services.
- 25 (9) Chief Deputy, State Department of Health Care Services.
- 26 (10) Real Estate Commissioner.
- 27 (11) State Athletic Commissioner.
- 28 (12) State Board of Barbering and Cosmetology Examiners.
- 29 (13) State Librarian.
- 30 (14) Director of Social Services.
- 31 (15) Chief Deputy, State Department of Social Services.
- 32 (16) Director of State Hospitals.
- 33 (17) Chief Deputy, State Department of State Hospitals.
- 34 (18) Director of Developmental Services.
- 35 (19) Chief Deputy, State Department of Developmental Services.
- 36 (20) Director of Alcohol and Drug Abuse.
- 37 (21) Director of Rehabilitation.
- 38 (22) Chief Deputy, Department of Rehabilitation.
- 39 (23) Director of the Office of Statewide Health Planning and Development.
- 40 (24) Deputy, Health and Welfare Agency.
- 41 (25) Director, Department of Managed Health Care.

1 (26) Patient Advocate, California Health and Human Services Agency.

2 (27) State Public Health Officer, State Department of Public Health.

3 (28) Chief Deputy, State Department of Public Health.

4 **Comment.** Section 1322 is amended to update a reference to the Director of the former
5 Department of Fish and Game. See Fish & Wildlife Code § 1500.

6 **Gov't Code § 6276.10 (amended).**

7 SEC. _____. Section 6276.10 of the Government Code is amended to read:

8 6276.10. Cancer registries, confidentiality of information, Section 103885, Health
9 and Safety Code.

10 Candidate for local nonpartisan elective office, confidentiality of ballot statement,
11 Section 13311, Elections Code.

12 Child abuse information, exchange by multidisciplinary personnel teams, Section
13 830, Welfare and Institutions Code.

14 Child abuse report and those making report, confidentiality of, Sections 11167
15 and 11167.5, Penal Code.

6 confidentiality of, Section 72621, Education Code.

7 Student, community college, records, limitations on release, Section 76243,
8 Education Code.

9 Student, community college, record contents, records of administrative hearing to
10 change contents, confidentiality of, Section 76232, Education Code.

11 Student, sexual assault on private higher education institution campus,
12 confidentiality of information, Section 94385, Education Code.

13 Student, sexual assault on public college or university, confidentiality of
14 information, Section 67385, Education Code.

15 Sturgeon egg processors, records, ~~Section 10004~~ subdivision (b) of Section
16 43270, Fish and Game Wildlife Code.

17 **Comment.** Section 6276.42 is amended to reflect the recodification of the former Fish and Game
18 Code.

19 **Gov't Code § 7000 (amended).**

20 SEC. _____. Section 7000 of the Government Code is amended to read:

21 7000. It is the intent of the Legislature in enacting this chapter to provide a means
22 whereby the Departments of Water Resources, Parks and Recreation, Fish and
23 Game Wildlife, and General Services, of the State of California, may acquire by
24 purchase, gift, grant, bequest, devise, lease, condemnation or otherwise, the fee or
25 any lesser interest or right in real property in order to protect, preserve, maintain,
26 improve, restore, limit the future use of, or otherwise conserve for public use and
27 enjoyment any of the lands and areas, identified below, alongside the Westside
28 Freeway, Interstate Route 5, and the California Aqueduct, which have significant
29 scenic values:

30 (a) Between the California Aqueduct and the Westside Freeway from Highway
31 41 north to Milham Avenue.

32 (b) Between the California Aqueduct and the Westside Freeway from Ness
33 Avenue north to Pioneer Road.

34 (c) Between the California Aqueduct, the Westside Freeway and the Delta-
35 Mendota Canal from Cottonwood Road north to the freeway-aqueduct crossing at
36 Orestimba Creek, and between the aqueduct and freeway north of that point to the
37 Alameda County line.

38 The Department of Transportation may acquire scenic easements along said
39 Westside Freeway, provided that funds for such easements are obtained pursuant to
40 the provisions of Section 319 of Title 23 of the United States Code relating to the
41 purchase of interests in lands adjacent to highway rights-of-way, provided further

1 that the federal government reimburses the state for the costs of such scenic
2 easements, and also provided that the use of money for this purpose will not reduce
3 the amount of funds which would otherwise be available to the state for highway
4 purposes.

5 **Comment.** Section 7000 is amended to update a reference to the former Department of Fish and
6 Game. See Fish & Wildlife Code § 1500.

7 **Gov't Code § 8597 (amended).**

8 SEC. _____. Section 8597 of the Government Code is amended to read:

9 8597. Whenever a state of emergency is proclaimed to exist within any region or
10 area, or whenever a state of war emergency exists, the following classes of state
11 employees who are within the region or area proclaimed or who may be assigned to
12 duty therein shall be peace officers and shall have the full powers and duties of those
13 officers for all purposes as provided by Section 830.1 of the Penal Code, and shall
14 perform those duties and exercise any powers which are appropriate or which may
15 be directed by their superior officers:

16 (a) All peace officers of the Department of the California Highway Patrol.

17 (b) All deputies of the Department of Fish and Game Wildlife who have been
18 appointed to enforce the provisions of the Fish and Game Wildlife Code pursuant
19 to Section 851 of that code.

20 (c) The Director of Forestry and Fire Protection and the classes of the Department
21 of Forestry and Fire Protection who are designated by the Director of Forestry and
22 Fire Protection as having the powers of peace officers pursuant to Section 4156 of
23 the Public Resources Code.

24 (d) Peace officers who are state employees within the provisions of Section 830.5
25 of the Penal Code.

26 **Comment.** Section 8597 is amended to reflect the recodification of the former Fish and Game
27 Code. The section is also amended to update a reference to the former Department of Fish and
28 Game. See Fish & Wildlife Code § 1500.

29 **Gov't Code § 8670.4 (amended).**

30 SEC. _____. Section 8670.4 of the Government Code is amended to read:

31 8670.4. There shall be an administrator for oil spill response. The administrator
32 shall be a chief deputy director of the Department of Fish and Game Wildlife. The
33 administrator shall be appointed by the Governor and shall serve at the pleasure of
34 the Governor. The appointment by the Governor shall be subject to the advice and
35 consent of the Senate. The compensation of the administrator shall be fixed by the
36 Governor pursuant to law.

37 **Comment.** Section 8670.4 is amended to update a reference to the former Department of Fish
38 and Game. See Fish & Wildlife Code § 1500.

39 **Gov't Code § 8670.59 (amended).**

40 SEC. _____. Section 8670.59 of the Government Code is amended to read:

1 8670.59. (a) Any civil action brought pursuant to this chapter, or pursuant to
2 Division 7.8 (commencing with Section 8750) of the Public Resources Code, shall
3 be brought in the county in which the spill, discharge, or violation occurred, the
4 county in which the principal place of business of the defendant is located, or the
5 county in which the defendant is doing business in this state.

6 (b)(1) Notwithstanding any other provision of law, all criminal actions for the
7 prosecution of misdemeanor violations of this chapter or Division 7.8 (commencing
8 with Section 8750) of the Public Resources Code shall be commenced within one
9 year from the date of the discovery of the facts or circumstances that constitute the
10 violation.

11 (2) Notwithstanding any other provision of law, all criminal actions for the
12 prosecution of felony violations of this chapter or Division 7.8 (commencing with
13 Section 8750) of the Public Resources Code shall be commenced within three years
14 from the date of the discovery of the facts or circumstances that constitute the
15 violation.

16 (c) Notwithstanding any other provision of law, except as provided in subdivision
17 (d), any action to recover civil damages or penalties shall be commenced within
18 three years from the date of discovery of the facts or circumstances that constitute a
19 violation of this chapter or Division 7.8 (commencing with Section 8750) of the
20 Public Resources Code.

21 (d) Any action to recover civil damages or penalties pursuant to paragraph (3),
22 (4), (5), (6), or (7) of subdivision (h) of Section 8670.56.5 because of effects on
23 natural resources shall be commenced within five years from the date of the
24 discovery of the facts or circumstances that are the basis for the cause of action.

25 (e) Any action to compel the removal of oil or the restoration and rehabilitation
26 of wildlife and wildlife habitat shall be commenced within five years from the date
27 of discovery of the facts or circumstances that constitute a violation of this chapter
28 or Division 7.8 (commencing with Section 8750) of the Public Resources Code.

29 (f) For purposes of subdivisions (b), (c), (d), and (e), “date of discovery” means
30 the actual date that facts sufficient to establish that a violation of this chapter or
31 Division 7.8 (commencing with Section 8750) of the Public Resources Code has
32 occurred are discovered by a peace officer appointed pursuant to Section 851 ~~4110~~
33 of the Fish and ~~Game~~ Wildlife Code.

34 (g) The administrator may adopt regulations prescribing procedures for the
35 implementation of this section.

36 **Comment.** Section 8670.59 is amended to reflect the recodification of the former Fish and Game
37 Code.

38 **Gov’t Code § 8670.61 (amended).**

39 SEC. _____. Section 8670.61 of the Government Code is amended to read:

40 8670.61. The civil and criminal penalties provided in this chapter and Division
41 7.8 (commencing with Section 8750) of the Public Resources Code shall be separate

1 from, and in addition to, and do not supersede or limit, any and all other remedies,
2 civil or criminal, except as provided in subdivision (j) of Section 5650.1 Section
3 6324 of the Fish and Game Wildlife Code.

4 **Comment.** Section 8670.61 is amended to reflect the recodification of the former Fish and Game
5 Code.

6 **Gov't Code § 11011.2 (amended).**

7 SEC. _____. Section 11011.2 of the Government Code is amended to read:

8 11011.2. (a)(1) Notwithstanding any other law, including, but not limited to,
9 Sections 11011 and 14670, except as provided in this section, the Department of
10 General Services may lease real property under the jurisdiction of a state agency,
11 department, or district agricultural association, if the Director of General Services
12 determines that the real property is of no immediate need to the state but may have
13 some potential future use to the program needs of the agency, department, or district
14 agricultural association.

15 (2) The Director of General Services may not lease any of the following real
16 property pursuant to this section:

17 (A) Tax-deeded land or lands under the jurisdiction of the State Lands
18 Commission.

19 (B) Land that has escheated to the state or that has been distributed to the state by
20 court decree in estates of deceased persons.

21 (C) Lands under the jurisdiction of the State Coastal Conservancy or another state
22 conservancy.

23 (D) Lands under the jurisdiction of the Department of Transportation or the
24 California State University system, or land owned by the Regents of the University
25 of California.

26 (E) Lands under the jurisdiction of the Department of Parks and Recreation.

27 (F) Lands under the jurisdiction of the Department of Fish and Game Wildlife.

28 (3) A lease entered into pursuant to this section shall be set at the amount of the
29 lease's fair market value, as determined by the Director of General Services. The
30 Director of General Services may determine the length of term or a use of the lease,
31 and specify any other terms and conditions which are determined to be in the best
32 interest of the state.

33 (b) The Department of General Services may enter into a long-term lease of real
34 property pursuant to this section that has outstanding lease revenue bonds and for
35 which the real property cannot be disencumbered from the bonds, only if the issuer
36 and trustee for the bonds approves the lease transaction, and this approval takes into
37 consideration, among other things, that the proposed lease transaction does not
38 breach a covenant or obligation of the issuer or trustee.

39 (c)(1) All issuer- and trustee-related costs for reviewing a proposed lease
40 transaction pursuant to this section, and all other costs of the lease transaction

1 related to the defeasance or other retirement of any bonds, including the cost of
2 nationally recognized bond counsel, shall be paid from the proceeds of that lease.

3 (2) The Department of General Services shall be reimbursed for any reasonable
4 costs or expenses incurred in conducting a transaction pursuant to this section.

5 (3) Notwithstanding subdivision (g) of Section 11011, the Department of General
6 Services shall deposit into the General Fund the net proceeds of a lease entered into
7 pursuant to this section, after deducting the amount of the reimbursement of costs
8 incurred pursuant to this section or the reimbursement of adjustments to the General
9 Fund loan made pursuant to Section 8 of Chapter 20 of the 2009–10 Fourth
10 Extraordinary Session from the lease.

11 (d) The Department of General Services shall transmit a report to each house of
12 the Legislature on or before June 30, 2011, and on or before June 30 each year
13 thereafter, listing every new lease that exceeds a period of five years entered into
14 under the authority of this section and the following information regarding each
15 listed lease:

16 (1) Lease payments.

17 (2) Length of the lease.

18 (3) Identification of the leasing parties.

19 (4) Identification of the leased property.

20 (5) Any other information the Director of General Services determines should be
21 included in the report to adequately describe the material provisions of the lease.

22 **Comment.** Subparagraph (F) of paragraph (2) of subdivision (a) of Section 11011.2 is amended
23 to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

24 **Gov't Code § 11125.6 (amended).**

25 SEC. _____. Section 11125.6 of the Government Code is amended to read:

26 11125.6. (a) An emergency meeting may be called at any time by the president of
27 the Fish and Game Commission or by a majority of the members of the commission
28 to consider an appeal of a closure of or restriction in a fishery adopted pursuant to
29 Section ~~7710~~ 22800 of the Fish and Game Wildlife Code. In the case of an
30 emergency situation involving matters upon which prompt action is necessary due
31 to the disruption or threatened disruption of an established fishery, the commission
32 may hold an emergency meeting without complying with the 10-day notice
33 requirement of Section 11125 or the 48-hour notice requirement of Section 11125.4
34 if the delay necessitated by providing the 10-day notice of a public meeting required
35 by Section 11125 or the 48-hour notice required by Section 11125.4 would
36 significantly adversely impact the economic benefits of a fishery to the participants
37 in the fishery and to the people of the state or significantly adversely impact the
38 sustainability of a fishery managed by the state.

39 (b) At the commencement of an emergency meeting called pursuant to this
40 section, the commission shall make a finding in open session that the delay
41 necessitated by providing notice 10 days prior to a meeting as required by Section

1 11125 or 48 hours prior to a meeting as required by Section 11125.4 would
2 significantly adversely impact the economic benefits of a fishery to the participants
3 in the fishery and to the people of the state or significantly adversely impact the
4 sustainability of a fishery managed by the state. The finding shall set forth the
5 specific facts that constitute the impact to the economic benefits of the fishery or
6 the sustainability of the fishery. The finding shall be adopted by a vote of at least
7 four members of the commission, or, if less than four of the members are present, a
8 unanimous vote of those members present. Failure to adopt the finding shall
9 terminate the meeting.

10 (c) Newspapers of general circulation and radio or television stations that have
11 requested notice of meetings pursuant to Section 11125 shall be notified by the
12 presiding officer of the commission, or a designee thereof, one hour prior to the
13 emergency meeting by telephone.

14 (d) The minutes of an emergency meeting called pursuant to this section, a list of
15 persons who the president of the commission, or a designee thereof, notified or
16 attempted to notify, a copy of the rollcall vote, and any action taken at the meeting
17 shall be posted for a minimum of 10 days in a public place as soon after the meeting
18 as possible.

19 **Comment.** Subdivision (a) of Section 11125.6 is amended to reflect the recodification of the
20 former Fish and Game Code.

21 **Gov't Code § 11343.4 (amended).**

22 SEC. _____. Section 11343.4 of the Government Code is amended to read:

23 11343.4. (a) Except as otherwise provided in subdivision (b), a regulation or an
24 order of repeal required to be filed with the Secretary of State shall become effective
25 on a quarterly basis as follows:

26 (1) January 1 if the regulation or order of repeal is filed on September 1 to
27 November 30, inclusive.

28 (2) April 1 if the regulation or order of repeal is filed on December 1 to February
29 29, inclusive.

30 (3) July 1 if the regulation or order of repeal is filed on March 1 to May 31,
31 inclusive.

32 (4) October 1 if the regulation or order of repeal is filed on June 1 to August 31,
33 inclusive.

34 (b) The effective dates in subdivision (a) shall not apply in all of the following:

35 (1) The effective date is specifically provided by the statute pursuant to which the
36 regulation or order of repeal was adopted, in which event it becomes effective on
37 the day prescribed by the statute.

38 (2) A later date is prescribed by the state agency in a written instrument filed with,
39 or as part of, the regulation or order of repeal.

40 (3) The agency makes a written request to the office demonstrating good cause
41 for an earlier effective date, in which case the office may prescribe an earlier date.

1 (4)(A) A regulation adopted by the Fish and Game Commission that is governed
2 by Article 2 (commencing with Section 250) of Chapter 2 of Division 1 Article 2
3 (commencing with Section 1100) of Chapter 1 of Title 2 of Part 1 of Division 2 of
4 the Fish and Game Wildlife Code.

5 (B) A regulation adopted by the Fish and Game Commission that requires a
6 different effective date in order to conform to a federal regulation.

7 **Comment.** Section 11343.4 is amended to reflect the recodification of the former Fish and Game
8 Code.

9 **Gov't Code § 12805.1 (amended).**

10 SEC. _____. Section 12805.1 of the Government Code is amended to read:

11 12805.1. The Secretary of the Resources Agency shall facilitate coordination
12 between the Department of Fish and Game Wildlife and the California Coastal
13 Commission in a manner consistent with, and in furtherance of, the goals and
14 policies of Division 20 (commencing with Section 30000) of the Public Resources
15 Code (the California Coastal Act of 1976) and of Chapter 10 (commencing with
16 Section 2800) of Division 3 Title 2 (commencing with Section 64500) of Part 2 of
17 Division 17 of the Fish and Game Wildlife Code (the Natural Community
18 Conservation Planning Act).

19 **Comment.** Section 12805.1 is amended to reflect the recodification of the former Fish and Game
20 Code. The section is also amended to update a reference to the former Department of Fish and
21 Game. See Fish & Wildlife Code § 1500.

22 **Gov't Code § 12805.3 (amended).**

23 SEC. _____. Section 12805.3 of the Government Code is amended to read:

24 12805.3. (a) The Secretary of the Natural Resources Agency shall convene a
25 committee to develop and submit to the Governor and the Legislature, before July
26 1, 2012, a strategic vision for the Department of Fish and Game Wildlife and the
27 Fish and Game Commission.

28 (b) The committee members shall include all of the following:

29 (1) The Secretary of the Natural Resources Agency.

30 (2) The Director of Fish and Game Wildlife.

31 (3) The president of the Fish and Game Commission.

32 (4) The chair of the State Energy Resources Conservation and Development
33 Commission.

34 (5) A representative of the University of California.

35 (6) Representatives of the United States Fish and Wildlife Service and the
36 National Marine Fisheries Service, if they choose to participate.

37 (c) The strategic vision shall address all of the following matters:

38 (1) Improving and enhancing capacity of the department and the commission to
39 fulfill their public trust responsibilities to protect and manage the state's fish and
40 wildlife for their ecological values and for the use and benefit of the people of the
41 state.

1 (2) Comprehensive biodiversity management, including conservation planning
2 and monitoring.

3 (3) Sustainable ecosystem functions, including terrestrial, freshwater, and marine
4 habitat.

5 (4) Opportunities for sustainable recreational and commercial harvest of fish and
6 wildlife.

7 (5) Permitting, regulatory, and enforcement functions.

8 (6) Science capacity and academic relationships, including strategies to protect
9 and enhance the independence and integrity of the science that forms the basis for
10 department and commission policies and decisions.

11 (7) Education, communication, and relations with the public, landowners,
12 nonprofit entities, and land management agencies.

13 (8) Reforms necessary to take on the challenges of the 21st century, including, but
14 not necessarily limited to:

15 (A) Climate change and adaptation.

16 (B) Meeting California's future renewable energy needs while protecting sensitive
17 habitat.

18 (C) The restoration of the state's native fish species.

19 (D) Implementing and updating the state's Wildlife Action Plan.

20 (9) The development and deployment of technology to meet the department's
21 mission, including data modeling, collection, and online reporting.

22 (10) Budget and fiscal development, accounting, and management.

23 (11) Coordination among state agencies.

24 (12) Recommendations for institutional or governance changes, including
25 clarification of the roles of the commission and the department.

26 (13) Strategies for identifying stable funding options to fulfill the mission of the
27 department while reducing dependency on the General Fund.

28 (14) Other recommendations deemed desirable by the committee.

29 (d) The committee shall seek input from elected officials, governmental agencies,
30 and interested parties, and shall review existing reports and studies on the
31 functioning of the department and other state models for fish and wildlife
32 governance.

33 (e) For the purposes of carrying out this section, the committee may also seek
34 input from other policy and resource leaders.

35 (f)(1) The committee, its members, and state agencies represented on the
36 committee may contract for consultants to assist in the preparation of the strategic
37 vision.

38 (2) Contracts entered into pursuant to paragraph (1) shall terminate no later than
39 December 31, 2011.

40 (3) Contracts entered into pursuant to paragraph (1) shall be exempt from Part 2
41 (commencing with Section 10100) of Division 2 of the Public Contract Code.

(g) The Governor or the committee shall appoint a “blue ribbon” citizen commission or task force, a stakeholder advisory group, and any other group that the Governor or the committee deems necessary or desirable to assist in carrying out this section. A stakeholder advisory group appointed pursuant to this section shall be broadly constructed to represent a diverse range of interests affected by state policies that govern fish and wildlife, including, but not necessarily limited to, persons representing fishing and hunting interests, nonprofit conservation organizations, nonconsumptive recreational users, landowners, scientific and educational interests, and other interests or entities dedicated to habitat conservation and protection of public trust resources. The committee convened pursuant to subdivision (a), in developing the strategic vision, shall take into account the recommendations of any group appointed pursuant to this subdivision.

(h)(1) The requirement for submitting the strategic vision imposed under subdivision (a) is inoperative on January 1, 2015, pursuant to Section 10231.5 of the Government Code, or on the date that the strategic vision is submitted, whichever date is later.

(2) The strategic vision shall be submitted in compliance with Section 9795 of the Government Code.

Comment. Section 12805.3 is amended to update a reference to the former Department of Fish and Game, and a reference to the Director of that department. See Fish & Wildlife Code § 1500.

Gov’t Code § 14012 (amended).

SEC. _____. Section 14012 of the Government Code is amended to read:

14012. (a) The director may sell or lease excess right-of-way parcels to municipalities or other local agencies for public purposes, and may accept as all or part of the consideration for such sale or lease any substantial benefits the state will derive from the municipality or other local agency’s undertaking maintenance or landscaping costs that would otherwise be the obligation of the state.

(b) For the purposes of Section 9 of Article 19 of the California Constitution, the department shall notify, on a quarterly basis, the State Coastal Conservancy, the Department of Parks and Recreation, the Wildlife Conservation Board, and the Department of Fish and Game Wildlife of excess property.

Comment. Section 14012 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Gov’t Code § 14659 (amended).

SEC. _____. Section 14659 of the Government Code is amended to read:

14659. The Department of General Services and its director succeed to and are vested with all the duties, powers, purposes, responsibilities, and jurisdiction vested in the California Victim Compensation and Government Claims Board, or its executive officer, under the following statutes as they existed on January 1, 2016:

(a) Section 77 of the Code of Civil Procedure.

(b) Section 846.1 of the Civil Code.

- (c) Sections 12117, 24618, and 89750.5 of the Education Code.
- (d) Sections 1122 and 15512 24600 and 25110 of the Fish and Game Wildlife Code.
- (e) Sections 3955, 14978.2, and 52295 of the Food and Agricultural Code.
- (f) Sections 800, 850.6, 900.2, 905.2, 905.3, 906, 911.2, 912.5, 915, 920, 925, 927.13, 935.6, 935.7, 940.2, 965, 965.1, 965.5, 997.1, 998, 998.2, 1151, 3515.7, 8652, 8902, 11007.6, 11014, 11030.1, 11030.2, 11031, 11275, 13332.09, 14600, 15202, 16302.1, 16304.6, 16383, 16431, 17051.5, 17201, 19815.4, 20163, 21223, 21265, 26749, 68503, 68506, 68543, 68543.5, 68543.8, and 68565 of this code.
- (g) Sections 13052, 25370, 121265, and 121270 of the Health and Safety Code.
- (h) Sections 11580.1 and 11872 of the Insurance Code.
- (i) Sections 4724, 4725, and 4726 of the Labor Code.
- (j) Sections 422.92, 987.9, 1557, 2786, 11163, and 11172 of the Penal Code.
- (k) Sections 10301, 10306, 10308, 10311, 10326.2, and 12102.2 of the Public Contract Code.
- (l) Sections 4116, 4602.6, 5093.68, and 30171.2 of the Public Resources Code.
- (m) Sections 4461, 14171.5, 14171.6, and 15634 of the Welfare and Institutions Code.
- Comment.** Section 14659 is amended to reflect the recodification of the former Fish and Game Code.

Gov't Code § 15855 (amended).

- SEC. _____. Section 15855 of the Government Code is amended to read:
15855. (a) Notwithstanding any other law, except as provided in subdivision (b), the State Public Works Board is the only state agency that may exercise the power of eminent domain to acquire property needed by any state agency for any state purpose or function.
- (b) Subdivision (a) does not affect or limit the right of the Department of Transportation, High-Speed Rail Authority, Department of Water Resources, State Lands Commission, Central Valley Flood Protection Board, Hastings College of the Law, or the Regents of the University of California to exercise the power of eminent domain. Subdivision (a) does not affect or limit the exercise of the power of eminent domain by the Department of Fish and Wildlife pursuant to Section 1348 54815 of the Fish and Game Wildlife Code.
- (c) (1) Any eminent domain proceeding commenced by the State Public Works Board for an acquisition for high-speed train system purposes prior to, and pending after, January 1, 2019, shall be deemed to have been commenced by the High-Speed Rail Authority, and the High-Speed Rail Authority shall be automatically substituted for the State Public Works Board as a party in any such action. All subsequent proceedings shall be in the name of the High-Speed Rail Authority. However, any misnomer not affecting the parties' substantial rights shall be

1 disregarded. The court may order substitution at any time, but the absence of such
2 an order does not affect the substitution.

3 (2) The State Public Works Board shall file with the court and serve on all parties
4 to an action described in paragraph (1) a notice that the High-Speed Rail Authority
5 is automatically substituted in place of the State Public Works Board and is the
6 agency exercising the power of eminent domain on behalf of the state in the action.

7 **Comment.** Section 15855 is amended to reflect the recodification of the former Fish and Game
8 Code.

9 **Gov't Code § 20399 (amended).**

10 SEC. _____. Section 20399 of the Government Code is amended to read:

11 20399. "State safety member," includes persons employed in the Department of
12 Fish and Game Wildlife in connection with its warden service, whose principal
13 duties consist of active law enforcement service, including immediate supervision
14 by persons employed to perform the duties performed under the titles of Chief and
15 Assistant Chief of Warden Service, and Captain of Patrol Boats, except those whose
16 principal duties are those of a telephone operator, clerk, stenographer, machinist,
17 mechanic, assistant fish and game warden, or otherwise clearly do not fall within
18 the scope of active law enforcement service, even though the person is subject to
19 occasional call, or is occasionally called upon, to perform duties within the scope of
20 active law enforcement.

21 **Comment.** Section 20399 is amended to update a reference to the former Department of Fish
22 and Game. See Fish & Wildlife Code § 1500.

23 **Gov't Code § 22013.1 (amended).**

24 SEC. _____. Section 22013.1 of the Government Code is amended to read:

25 22013.1. "Policeman" as used in this part also includes persons employed in the
26 Department of Fish and Game Wildlife in connection with its warden service, whose
27 principal duties consist of active law enforcement service, including immediate
28 supervision by persons employed to perform the duties now performed under the
29 titles of chief and assistant chief of warden service, and captain of patrol boats for
30 the purposes of Section 218(d)(5)(A) of the Social Security Act.

31 **Comment.** Section 22013.1 is amended to update a reference to the former Department of Fish
32 and Game. See Fish & Wildlife Code § 1500.

33 **Gov't Code § 50060 (amended).**

34 SEC. _____. Section 50060 of the Government Code is amended to read:

35 50060. As used in this article:

36 (a) "District" means a habitat maintenance assessment district formed pursuant to
37 this article.

38 (b) "Improvement" means one or any combination of the following:

39 (1) The acquisition, construction, or rehabilitation of any facilities needed to
40 create, restore, enhance, or maintain natural habitat.

1 (2) The installation or construction of any facilities which are appurtenant to any
2 facilities in paragraph (1) or which are necessary or convenient for the maintenance
3 or servicing thereof, including, but not limited to, grading, clearing, removal of
4 debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving,
5 or water, irrigation, drainage, or electrical facilities.

6 (3) The installation of habitat improvements, including, but not limited to, any of
7 the following:

8 (A) Land preparation, such as grading, leveling, cutting and filling, sod,
9 landscaping, irrigation systems, sidewalks, and drainage.

10 (B) The maintenance or servicing, or both, of any of the foregoing.

11 (4) The acquisition of land for habitat maintenance purposes.

12 (5) The acquisition of any existing improvement otherwise authorized pursuant to
13 this article.

14 (c) “Incidental expenses” include all of the following:

15 (1) The costs of preparation of the report, including plans, specifications,
16 estimates, diagrams, and assessment.

17 (2) The costs of printing, advertising, and the giving of published, posted, and
18 mailed notices.

19 (3) Compensation payable to the county for collection of assessments.

20 (4) Compensation of any engineer, scientist, or attorney employed to render
21 services in proceedings pursuant to this article. The compensation shall not exceed
22 the estimated amount required to provide the service.

23 (5) Any other expenses incidental to the construction, installation, or maintenance
24 and servicing of the improvements.

25 (6) Any expenses incidental to the issuance of bonds or notes pursuant to Section
26 50068.

27 (7) The costs of biological monitoring and evaluation of collected data related to
28 the establishment or operation of natural habitat.

29 (8) The direct costs incurred by the Department of Fish and Game Wildlife in
30 approving long-term natural habitat maintenance plans pursuant to Section 2901
31 58080 of the Fish and Game Wildlife Code.

32 (d) “Legislative body” means the city council, board of supervisors, or any other
33 governing body of a local agency.

34 (e) “Local agency” means any city, county, or city and county, whether general
35 law or chartered.

36 (f) “Maintain” or “maintenance” means the furnishing of services and materials
37 for the ordinary and usual maintenance, operation, and servicing of any
38 improvement, including, but not limited to, all of the following:

39 (1) Repair, removal, or replacement of all or any part of any improvement.

40 (2) Providing for the life, growth, health, and beauty of habitat, including
41 cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or
42 injury.

(3) The removal of trimmings, rubbish, debris, and other solid waste.

(4) The operation and management of natural habitat, including biological monitoring and evaluation of collected data.

(5) The conduct of biological activities necessary to sustain the species being protected.

Comment. Paragraph (8) of subdivision (c) of Section 50060 is amended to reflect the recodification of the former Fish and Game Code. That paragraph is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Gov't Code § 50060.5 (amended).

SEC. _____. Section 50060.5 of the Government Code is amended to read:

50060.5. (a) A local agency may, by ordinance or by resolution adopted after notice and hearing, establish a district to provide for the improvement or maintenance of natural habitat. The local agency may perform those functions or contract with the state, another local agency, or a special district to perform those functions. If a local agency establishes a district, it may provide for the levy of assessments for not more than 30 years to pay the cost and incidental expenses of implementing a long-term natural habitat maintenance plan approved by the Department of Fish and Game Wildlife pursuant to Section ~~2901~~ 58080 of the Fish and Game Wildlife Code. Any assessments levied pursuant to this section shall be levied only in accordance with a plan for the conservation of natural habitat approved by the Department of Fish and Game Wildlife. No plan shall be approved by the Department of Fish and Game Wildlife unless it contains provisions for the recovery of all costs incurred by the department in its review of the plan for the conservation of natural habitat.

(b) The legislative body of the local agency establishing a district shall serve as the legislative body of the district.

(c) Notwithstanding any other provision of this article, assessments levied pursuant to this article shall not be reduced or terminated if doing so would interfere with the implementation of an approved plan for the conservation of natural habitat.

(d) This article applies only to the implementation of a long-term natural habitat maintenance plan by a district, and does not alter, limit, or otherwise affect any other district that has been, or may be, established pursuant to law, including, but not limited to, any other district relating to wildlife habitat.

(e) The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, Division 3 (commencing with Section 56000) of Title 5, does not apply to a district formed pursuant to this article.

Comment. Section 50060.5 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update references to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Gov't Code § 51201 (amended).

SEC. _____. Section 51201 of the Government Code is amended to read:

1 51201. As used in this chapter, unless otherwise apparent from the context, the
2 following terms have the following meanings:

3 (a) “Agricultural commodity” means any and all plant and animal products
4 produced in this state for commercial purposes, including, but not limited to, plant
5 products used for producing biofuels.

6 (b) “Agricultural use” means use of land, including but not limited to greenhouses,
7 for the purpose of producing an agricultural commodity for commercial purposes.

8 (c) “Prime agricultural land” means any of the following:

9 (1) All land that qualifies for rating as class I or class II in the Natural Resource
10 Conservation Service land use capability classifications.

11 (2) Land which qualifies for rating 80 through 100 in the Storie Index Rating.

12 (3) Land which supports livestock used for the production of food and fiber and
13 which has an annual carrying capacity equivalent to at least one animal unit per acre
14 as defined by the United States Department of Agriculture.

15 (4) Land planted with fruit- or nut-bearing trees, vines, bushes, or crops which
16 have a nonbearing period of less than five years and which will normally return
17 during the commercial bearing period on an annual basis from the production of
18 unprocessed agricultural plant production not less than two hundred dollars (\$200)
19 per acre.

20 (5) Land which has returned from the production of unprocessed agricultural plant
21 products an annual gross value of not less than two hundred dollars (\$200) per acre
22 for three of the previous five years.

23 (d) “Agricultural preserve” means an area devoted to either agricultural use, as
24 defined in subdivision (b), recreational use as defined in subdivision (n), or open-
25 space use as defined in subdivision (o), or any combination of those uses and which
26 is established in accordance with the provisions of this chapter.

27 (e) “Compatible use” is any use determined by the county or city administering
28 the preserve pursuant to Section 51231, 51238, or 51238.1 or by this act to be
29 compatible with the agricultural, recreational, or open-space use of land within the
30 preserve and subject to contract. “Compatible use” includes agricultural use,
31 recreational use or open-space use unless the board or council finds after notice and
32 hearing that the use is not compatible with the agricultural, recreational or open-
33 space use to which the land is restricted by contract pursuant to this chapter.

34 (f) “Board” means the board of supervisors of a county which establishes or
35 proposes to establish an agricultural preserve or which enters or proposes to enter
36 into a contract on land within an agricultural preserve pursuant to this chapter.

37 (g) “Council” means the city council of a city which establishes or proposes to
38 establish an agricultural preserve or which enters or proposes to enter into a contract
39 on land within an agricultural preserve pursuant to this chapter.

40 (h) Except where it is otherwise apparent from the context, “county” or “city”
41 means the county or city having jurisdiction over the land.

1 (i) A “scenic highway corridor” is an area adjacent to, and within view of, the
2 right-of-way of:

3 (1) An existing or proposed state scenic highway in the state scenic highway
4 system established by the Legislature pursuant to Article 2.5 (commencing with
5 Section 260) of Chapter 2 of Division 1 of the Streets and Highways Code and which
6 has been officially designated by the Department of Transportation as an official
7 state scenic highway; or

8 (2) A county scenic highway established pursuant to Article 2.5 (commencing
9 with Section 260) of Chapter 2 of Division 1 of the Streets and Highways Code, if
10 each of the following conditions have been met:

11 (A) The scenic highway is included in an adopted general plan of the county or
12 city; and

13 (B) The scenic highway corridor is included in an adopted specific plan of the
14 county or city; and

15 (C) Specific proposals for implementing the plan, including regulation of land
16 use, have been approved by the Advisory Committee on a Master Plan for Scenic
17 Highways, and the county or city highway has been officially designated by the
18 Department of Transportation as an official county scenic highway.

19 (j) A “wildlife habitat area” is a land or water area designated by a board or
20 council, after consulting with and considering the recommendation of the
21 Department of Fish and Game Wildlife, as an area of importance for the protection
22 or enhancement of the wildlife resources of the state.

23 (k) A “saltpond” is an area which, for at least three consecutive years immediately
24 prior to being placed within an agricultural preserve pursuant to this chapter, has
25 been used for the solar evaporation of seawater in the course of salt production for
26 commercial purposes.

27 (l) A “managed wetland area” is an area, which may be an area diked off from the
28 ocean or any bay, river or stream to which water is occasionally admitted, and
29 which, for at least three consecutive years immediately prior to being placed within
30 an agricultural preserve pursuant to this chapter, was used and maintained as a
31 waterfowl hunting preserve or game refuge or for agricultural purposes.

32 (m) A “submerged area” is any land determined by the board or council to be
33 submerged or subject to tidal action and found by the board or council to be of great
34 value to the state as open space.

35 (n) “Recreational use” is the use of land in its agricultural or natural state by the
36 public, with or without charge, for any of the following: walking, hiking, picnicking,
37 camping, swimming, boating, fishing, hunting, or other outdoor games or sports for
38 which facilities are provided for public participation. Any fee charged for the
39 recreational use of land as defined in this subdivision shall be in a reasonable amount
40 and shall not have the effect of unduly limiting its use by the public. Any ancillary
41 structures necessary for a recreational use shall comply with the provisions of
42 Section 51238.1.

(o) “Open-space use” is the use or maintenance of land in a manner that preserves its natural characteristics, beauty, or openness for the benefit and enjoyment of the public, to provide habitat for wildlife, or for the solar evaporation of seawater in the course of salt production for commercial purposes, if the land is within:

(1) A scenic highway corridor, as defined in subdivision (i).

(2) A wildlife habitat area, as defined in subdivision (j).

(3) A saltpond, as defined in subdivision (k).

(4) A managed wetland area, as defined in subdivision (l).

(5) A submerged area, as defined in subdivision (m).

(6) An area enrolled in the United States Department of Agriculture Conservation Reserve Program or Conservation Reserve Enhancement Program.

(p) “Development” means, as used in Section 51223, the construction of buildings or the use of the restricted property if the buildings or use are unrelated to the agricultural use, the open-space use, or uses compatible with either agricultural or open-space uses of the property, or substantially impair the agricultural, open-space, or a combination of the agricultural and open-space uses of the property. Agricultural use, open-space use, uses compatible with either agricultural or open-space uses, or the acquisition of land or an interest in land are not development.

Comment. Section 51201 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Gov’t Code § 65303.4 (amended).

SEC. _____. Section 65303.4 of the Government Code is amended to read:

65303.4. The Department of Water Resources or the Central Valley Flood Protection Board, as appropriate, and the Department of Fish and Game Wildlife may develop site design and planning policies to assist local agencies which request help in implementing the general plan guidelines for meeting flood control objectives and other land management needs.

Comment. Section 65303.4 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Gov’t Code § 65913.4 (amended).

SEC. _____. Section 65913.4 of the Government Code is amended to read:

65913.4. (a) A development proponent may submit an application for a development that is subject to the streamlined, ministerial approval process provided by subdivision (b) and is not subject to a conditional use permit if the development satisfies all of the following objective planning standards:

(1) The development is a multifamily housing development that contains two or more residential units.

(2) The development is located on a site that satisfies all of the following:

(A) A site that is a legal parcel or parcels located in a city if, and only if, the city boundaries include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau, or, for unincorporated areas, a legal

1 parcel or parcels wholly within the boundaries of an urbanized area or urban cluster,
2 as designated by the United States Census Bureau.

3 (B) A site in which at least 75 percent of the perimeter of the site adjoins parcels
4 that are developed with urban uses. For the purposes of this section, parcels that are
5 only separated by a street or highway shall be considered to be adjoined.

6 (C) A site that is zoned for residential use or residential mixed-use development,
7 or has a general plan designation that allows residential use or a mix of residential
8 and nonresidential uses, with at least two-thirds of the square footage of the
9 development designated for residential use.

10 (3) (A) The development proponent has committed to record, prior to the issuance
11 of the first building permit, a land use restriction or covenant providing that any
12 lower income housing units required pursuant to subparagraph (B) of paragraph (4)
13 shall remain available at affordable housing costs or rent to persons and families of
14 lower income for no less than the following periods of time:

15 (i) Fifty-five years for units that are rented.

16 (ii) Forty-five years for units that are owned.

17 (B) The city or county shall require the recording of covenants or restrictions
18 implementing this paragraph for each parcel or unit of real property included in the
19 development.

20 (4) The development satisfies both of the following:

21 (A) Is located in a locality that the department has determined is subject to this
22 subparagraph on the basis that the number of units that have been issued building
23 permits is less than the locality's share of the regional housing needs, by income
24 category, for that reporting period. A locality shall remain eligible under this
25 subparagraph until the department's determination for the next reporting period.

26 (B) The development is subject to a requirement mandating a minimum
27 percentage of below market rate housing based on one of the following:

28 (i) The locality did not submit its latest production report to the department by the
29 time period required by Section 65400, or that production report reflects that there
30 were fewer units of above moderate-income housing issued building permits than
31 were required for the regional housing needs assessment cycle for that reporting
32 period. In addition, if the project contains more than 10 units of housing, the project
33 seeking approval dedicates a minimum of 10 percent of the total number of units to
34 housing affordable to households making below 80 percent of the area median
35 income. If the locality has adopted a local ordinance that requires that greater than
36 10 percent of the units be dedicated to housing affordable to households making
37 below 80 percent of the area median income, that local ordinance applies.

38 (ii) The locality's latest production report reflects that there were fewer units of
39 housing issued building permits affordable to either very low income or low-income
40 households by income category than were required for the regional housing needs
41 assessment cycle for that reporting period, and the project seeking approval
42 dedicates 50 percent of the total number of units to housing affordable to households

1 making below 80 percent of the area median income, unless the locality has adopted
2 a local ordinance that requires that greater than 50 percent of the units be dedicated
3 to housing affordable to households making below 80 percent of the area median
4 income, in which case that local ordinance applies.

5 (iii) The locality did not submit its latest production report to the department by
6 the time period required by Section 65400, or if the production report reflects that
7 there were fewer units of housing affordable to both income levels described in
8 clauses (i) and (ii) that were issued building permits than were required for the
9 regional housing needs assessment cycle for that reporting period, the project
10 seeking approval may choose between utilizing clause (i) or (ii).

11 (5) The development, excluding any additional density or any other concessions,
12 incentives, or waivers of development standards granted pursuant to the Density
13 Bonus Law in Section 65915, is consistent with objective zoning standards,
14 objective subdivision standards, and objective design review standards in effect at
15 the time that the development is submitted to the local government pursuant to this
16 section. For purposes of this paragraph, “objective zoning standards,” “objective
17 subdivision standards,” and “objective design review standards” mean standards
18 that involve no personal or subjective judgment by a public official and are
19 uniformly verifiable by reference to an external and uniform benchmark or criterion
20 available and knowable by both the development applicant or proponent and the
21 public official before submittal. These standards may be embodied in alternative
22 objective land use specifications adopted by a city or county, and may include, but
23 are not limited to, housing overlay zones, specific plans, inclusionary zoning
24 ordinances, and density bonus ordinances, subject to the following:

25 (A) A development shall be deemed consistent with the objective zoning
26 standards related to housing density, as applicable, if the density proposed is
27 compliant with the maximum density allowed within that land use designation,
28 notwithstanding any specified maximum unit allocation that may result in fewer
29 units of housing being permitted.

30 (B) In the event that objective zoning, general plan, subdivision, or design review
31 standards are mutually inconsistent, a development shall be deemed consistent with
32 the objective zoning and subdivision standards pursuant to this subdivision if the
33 development is consistent with the standards set forth in the general plan.

34 (C) The amendments to this subdivision made by the act adding this subparagraph
35 do not constitute a change in, but are declaratory of, existing law.

36 (6) The development is not located on a site that is any of the following:

37 (A) A coastal zone, as defined in Division 20 (commencing with Section 30000)
38 of the Public Resources Code.

39 (B) Either prime farmland or farmland of statewide importance, as defined
40 pursuant to United States Department of Agriculture land inventory and monitoring
41 criteria, as modified for California, and designated on the maps prepared by the
42 Farmland Mapping and Monitoring Program of the Department of Conservation, or

1 land zoned or designated for agricultural protection or preservation by a local ballot
2 measure that was approved by the voters of that jurisdiction.

3 (C) Wetlands, as defined in the United States Fish and Wildlife Service Manual,
4 Part 660 FW 2 (June 21, 1993).

5 (D) Within a very high fire hazard severity zone, as determined by the Department
6 of Forestry and Fire Protection pursuant to Section 51178, or within a high or very
7 high fire hazard severity zone as indicated on maps adopted by the Department of
8 Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code.
9 This subparagraph does not apply to sites excluded from the specified hazard zones
10 by a local agency, pursuant to subdivision (b) of Section 51179, or sites that have
11 adopted fire hazard mitigation measures pursuant to existing building standards or
12 state fire mitigation measures applicable to the development.

13 (E) A hazardous waste site that is listed pursuant to Section 65962.5 or a
14 hazardous waste site designated by the Department of Toxic Substances Control
15 pursuant to Section 25356 of the Health and Safety Code, unless the Department of
16 Toxic Substances Control has cleared the site for residential use or residential mixed
17 uses.

18 (F) Within a delineated earthquake fault zone as determined by the State
19 Geologist in any official maps published by the State Geologist, unless the
20 development complies with applicable seismic protection building code standards
21 adopted by the California Building Standards Commission under the California
22 Building Standards Law (Part 2.5 (commencing with Section 18901) of Division 13
23 of the Health and Safety Code), and by any local building department under Chapter
24 12.2 (commencing with Section 8875) of Division 1 of Title 2.

25 (G) Within a special flood hazard area subject to inundation by the 1 percent
26 annual chance flood (100-year flood) as determined by the Federal Emergency
27 Management Agency in any official maps published by the Federal Emergency
28 Management Agency. If a development proponent is able to satisfy all applicable
29 federal qualifying criteria in order to provide that the site satisfies this subparagraph
30 and is otherwise eligible for streamlined approval under this section, a local
31 government shall not deny the application on the basis that the development
32 proponent did not comply with any additional permit requirement, standard, or
33 action adopted by that local government that is applicable to that site. A
34 development may be located on a site described in this subparagraph if either of the
35 following are met:

36 (i) The site has been subject to a Letter of Map Revision prepared by the Federal
37 Emergency Management Agency and issued to the local jurisdiction.

38 (ii) The site meets Federal Emergency Management Agency requirements
39 necessary to meet minimum flood plain management criteria of the National Flood
40 Insurance Program pursuant to Part 59 (commencing with Section 59.1) and Part 60
41 (commencing with Section 60.1) of Subchapter B of Chapter I of Title 44 of the
42 Code of Federal Regulations.

1 (H) Within a regulatory floodway as determined by the Federal Emergency
2 Management Agency in any official maps published by the Federal Emergency
3 Management Agency, unless the development has received a no-rise certification in
4 accordance with Section 60.3(d)(3) of Title 44 of the Code of Federal Regulations.
5 If a development proponent is able to satisfy all applicable federal qualifying criteria
6 in order to provide that the site satisfies this subparagraph and is otherwise eligible
7 for streamlined approval under this section, a local government shall not deny the
8 application on the basis that the development proponent did not comply with any
9 additional permit requirement, standard, or action adopted by that local government
10 that is applicable to that site.

11 (I) Lands identified for conservation in an adopted natural community
12 conservation plan pursuant to the Natural Community Conservation Planning Act
13 (~~Chapter 10 (commencing with Section 2800) of Division 3~~ Title 2 (commencing
14 with Section 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code),
15 habitat conservation plan pursuant to the federal Endangered Species Act of 1973
16 (16 U.S.C. Sec. 1531 et seq.), or other adopted natural resource protection plan.

17 (J) Habitat for protected species identified as candidate, sensitive, or species of
18 special status by state or federal agencies, fully protected species, or species
19 protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et
20 seq.), the California Endangered Species Act (~~Chapter 1.5 (commencing with~~
21 ~~Section 2050) of Division 3~~ Part 1 (commencing with Section 62000) of Division
22 17 of the Fish and Game Wildlife Code), or the Native Plant Protection Act (~~Chapter~~
23 ~~10 (commencing with Section 1900) of Division 2~~ Title 1 (commencing with
24 Section 53800) of Part 3 of Division 14 of the Fish and Game Wildlife Code).

25 (K) Lands under conservation easement.

26 (7) The development is not located on a site where any of the following apply:

27 (A) The development would require the demolition of the following types of
28 housing:

29 (i) Housing that is subject to a recorded covenant, ordinance, or law that restricts
30 rents to levels affordable to persons and families of moderate, low, or very low
31 income.

32 (ii) Housing that is subject to any form of rent or price control through a public
33 entity's valid exercise of its police power.

34 (iii) Housing that has been occupied by tenants within the past 10 years.

35 (B) The site was previously used for housing that was occupied by tenants that
36 was demolished within 10 years before the development proponent submits an
37 application under this section.

38 (C) The development would require the demolition of a historic structure that was
39 placed on a national, state, or local historic register.

40 (D) The property contains housing units that are occupied by tenants, and units at
41 the property are, or were, subsequently offered for sale to the general public by the
42 subdivider or subsequent owner of the property.

1 (8) The development proponent has done both of the following, as applicable:

2 (A) Certified to the locality that either of the following is true, as applicable:

3 (i) The entirety of the development is a public work for purposes of Chapter 1
4 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code.

5 (ii) If the development is not in its entirety a public work, that all construction
6 workers employed in the execution of the development will be paid at least the
7 general prevailing rate of per diem wages for the type of work and geographic area,
8 as determined by the Director of Industrial Relations pursuant to Sections 1773 and
9 1773.9 of the Labor Code, except that apprentices registered in programs approved
10 by the Chief of the Division of Apprenticeship Standards may be paid at least the
11 applicable apprentice prevailing rate. If the development is subject to this
12 subparagraph, then for those portions of the development that are not a public work
13 all of the following shall apply:

14 (I) The development proponent shall ensure that the prevailing wage requirement
15 is included in all contracts for the performance of the work.

16 (II) All contractors and subcontractors shall pay to all construction workers
17 employed in the execution of the work at least the general prevailing rate of per
18 diem wages, except that apprentices registered in programs approved by the Chief
19 of the Division of Apprenticeship Standards may be paid at least the applicable
20 apprentice prevailing rate.

21 (III) Except as provided in subclause (V), all contractors and subcontractors shall
22 maintain and verify payroll records pursuant to Section 1776 of the Labor Code and
23 make those records available for inspection and copying as provided therein.

24 (IV) Except as provided in subclause (V), the obligation of the contractors and
25 subcontractors to pay prevailing wages may be enforced by the Labor
26 Commissioner through the issuance of a civil wage and penalty assessment pursuant
27 to Section 1741 of the Labor Code, which may be reviewed pursuant to Section
28 1742 of the Labor Code, within 18 months after the completion of the development,
29 by an underpaid worker through an administrative complaint or civil action, or by a
30 joint labor-management committee ~~though~~ through a civil action under Section
31 1771.2 of the Labor Code. If a civil wage and penalty assessment is issued, the
32 contractor, subcontractor, and surety on a bond or bonds issued to secure the
33 payment of wages covered by the assessment shall be liable for liquidated damages
34 pursuant to Section 1742.1 of the Labor Code.

35 (V) Subclauses (III) and (IV) shall not apply if all contractors and subcontractors
36 performing work on the development are subject to a project labor agreement that
37 requires the payment of prevailing wages to all construction workers employed in
38 the execution of the development and provides for enforcement of that obligation
39 through an arbitration procedure. For purposes of this clause, “project labor
40 agreement” has the same meaning as set forth in paragraph (1) of subdivision (b) of
41 Section 2500 of the Public Contract Code.

1 (VI) Notwithstanding subdivision (c) of Section 1773.1 of the Labor Code, the
2 requirement that employer payments not reduce the obligation to pay the hourly
3 straight time or overtime wages found to be prevailing shall not apply if otherwise
4 provided in a bona fide collective bargaining agreement covering the worker. The
5 requirement to pay at least the general prevailing rate of per diem wages does not
6 preclude use of an alternative workweek schedule adopted pursuant to Section 511
7 or 514 of the Labor Code.

8 (B) (i) For developments for which any of the following conditions apply,
9 certified that a skilled and trained workforce shall be used to complete the
10 development if the application is approved:

11 (I) On and after January 1, 2018, until December 31, 2021, the development
12 consists of 75 or more units with a residential component that is not 100 percent
13 subsidized affordable housing and will be located within a jurisdiction located in a
14 coastal or bay county with a population of 225,000 or more.

15 (II) On and after January 1, 2022, until December 31, 2025, the development
16 consists of 50 or more units with a residential component that is not 100 percent
17 subsidized affordable housing and will be located within a jurisdiction located in a
18 coastal or bay county with a population of 225,000 or more.

19 (III) On and after January 1, 2018, until December 31, 2019, the development
20 consists of 75 or more units with a residential component that is not 100 percent
21 subsidized affordable housing and will be located within a jurisdiction with a
22 population of fewer than 550,000 and that is not located in a coastal or bay county.

23 (IV) On and after January 1, 2020, until December 31, 2021, the development
24 consists of more than 50 units with a residential component that is not 100 percent
25 subsidized affordable housing and will be located within a jurisdiction with a
26 population of fewer than 550,000 and that is not located in a coastal or bay county.

27 (V) On and after January 1, 2022, until December 31, 2025, the development
28 consists of more than 25 units with a residential component that is not 100 percent
29 subsidized affordable housing and will be located within a jurisdiction with a
30 population of fewer than 550,000 and that is not located in a coastal or bay county.

31 (ii) For purposes of this section, “skilled and trained workforce” has the same
32 meaning as provided in Chapter 2.9 (commencing with Section 2600) of Part 1 of
33 Division 2 of the Public Contract Code.

34 (iii) If the development proponent has certified that a skilled and trained
35 workforce will be used to complete the development and the application is
36 approved, the following shall apply:

37 (I) The applicant shall require in all contracts for the performance of work that
38 every contractor and subcontractor at every tier will individually use a skilled and
39 trained workforce to complete the development.

40 (II) Every contractor and subcontractor shall use a skilled and trained workforce
41 to complete the development.

(III) Except as provided in subclause (IV), the applicant shall provide to the locality, on a monthly basis while the development or contract is being performed, a report demonstrating compliance with Chapter 2.9 (commencing with Section 2600) of Part 1 of Division 2 of the Public Contract Code. A monthly report provided to the locality pursuant to this subclause shall be a public record under the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1) and shall be open to public inspection. An applicant that fails to provide a monthly report demonstrating compliance with Chapter 2.9 (commencing with Section 2600) of Part 1 of Division 2 of the Public Contract Code shall be subject to a civil penalty of ten thousand dollars (\$10,000) per month for each month for which the report has not been provided. Any contractor or subcontractor that fails to use a skilled and trained workforce shall be subject to a civil penalty of two hundred dollars (\$200) per day for each worker employed in contravention of the skilled and trained workforce requirement. Penalties may be assessed by the Labor Commissioner within 18 months of completion of the development using the same procedures for issuance of civil wage and penalty assessments pursuant to Section 1741 of the Labor Code, and may be reviewed pursuant to the same procedures in Section 1742 of the Labor Code. Penalties shall be paid to the State Public Works Enforcement Fund.

(IV) Subclause (III) shall not apply if all contractors and subcontractors performing work on the development are subject to a project labor agreement that requires compliance with the skilled and trained workforce requirement and provides for enforcement of that obligation through an arbitration procedure. For purposes of this subparagraph, “project labor agreement” has the same meaning as set forth in paragraph (1) of subdivision (b) of Section 2500 of the Public Contract Code.

(C) Notwithstanding subparagraphs (A) and (B), a development that is subject to approval pursuant to this section is exempt from any requirement to pay prevailing wages or use a skilled and trained workforce if it meets both of the following:

(i) The project includes 10 or fewer units.

(ii) The project is not a public work for purposes of Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code.

(9) The development did not or does not involve a subdivision of a parcel that is, or, notwithstanding this section, would otherwise be, subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)) or any other applicable law authorizing the subdivision of land, unless the development is consistent with all objective subdivision standards in the local subdivision ordinance, and either of the following apply:

(A) The development has received or will receive financing or funding by means of a low-income housing tax credit and is subject to the requirement that prevailing wages be paid pursuant to subparagraph (A) of paragraph (8).

1 (B) The development is subject to the requirement that prevailing wages be paid,
2 and a skilled and trained workforce used, pursuant to paragraph (8).

3 (10) The development shall not be upon an existing parcel of land or site that is
4 governed under the Mobilehome Residency Law (Chapter 2.5 (commencing with
5 Section 798) of Title 2 of Part 2 of Division 2 of the Civil Code), the Recreational
6 Vehicle Park Occupancy Law (Chapter 2.6 (commencing with Section 799.20) of
7 Title 2 of Part 2 of Division 2 of the Civil Code), the Mobilehome Parks Act (Part
8 2.1 (commencing with Section 18200) of Division 13 of the Health and Safety
9 Code), or the Special Occupancy Parks Act (Part 2.3 (commencing with Section
10 18860) of Division 13 of the Health and Safety Code).

11 (b) (1) If a local government determines that a development submitted pursuant
12 to this section is in conflict with any of the objective planning standards specified
13 in subdivision (a), it shall provide the development proponent written
14 documentation of which standard or standards the development conflicts with, and
15 an explanation for the reason or reasons the development conflicts with that standard
16 or standards, as follows:

17 (A) Within 60 days of submittal of the development to the local government
18 pursuant to this section if the development contains 150 or fewer housing units.

19 (B) Within 90 days of submittal of the development to the local government
20 pursuant to this section if the development contains more than 150 housing units.

21 (2) If the local government fails to provide the required documentation pursuant
22 to paragraph (1), the development shall be deemed to satisfy the objective planning
23 standards specified in subdivision (a).

24 (c) (1) Any design review or public oversight of the development may be
25 conducted by the local government's planning commission or any equivalent board
26 or commission responsible for review and approval of development projects, or the
27 city council or board of supervisors, as appropriate. That design review or public
28 oversight shall be objective and be strictly focused on assessing compliance with
29 criteria required for streamlined projects, as well as any reasonable objective design
30 standards published and adopted by ordinance or resolution by a local jurisdiction
31 before submission of a development application, and shall be broadly applicable to
32 development within the jurisdiction. That design review or public oversight shall be
33 completed as follows and shall not in any way inhibit, chill, or preclude the
34 ministerial approval provided by this section or its effect, as applicable:

35 (A) Within 90 days of submittal of the development to the local government
36 pursuant to this section if the development contains 150 or fewer housing units.

37 (B) Within 180 days of submittal of the development to the local government
38 pursuant to this section if the development contains more than 150 housing units.

39 (2) If the development is consistent with the requirements of subparagraph (A) or
40 (B) of paragraph (9) of subdivision (a) and is consistent with all objective
41 subdivision standards in the local subdivision ordinance, an application for a
42 subdivision pursuant to the Subdivision Map Act (Division 2 (commencing with

1 Section 66410)) shall be exempt from the requirements of the California
2 Environmental Quality Act (Division 13 (commencing with Section 21000) of the
3 Public Resources Code) and shall be subject to the public oversight timelines set
4 forth in paragraph (1).

5 (d) (1) Notwithstanding any other law, a local government, whether or not it has
6 adopted an ordinance governing automobile parking requirements in multifamily
7 developments, shall not impose automobile parking standards for a streamlined
8 development that was approved pursuant to this section in any of the following
9 instances:

10 (A) The development is located within one-half mile of public transit.

11 (B) The development is located within an architecturally and historically
12 significant historic district.

13 (C) When on-street parking permits are required but not offered to the occupants
14 of the development.

15 (D) When there is a car share vehicle located within one block of the development.

16 (2) If the development does not fall within any of the categories described in
17 paragraph (1), the local government shall not impose automobile parking
18 requirements for streamlined developments approved pursuant to this section that
19 exceed one parking space per unit.

20 (e) (1) If a local government approves a development pursuant to this section,
21 then, notwithstanding any other law, that approval shall not expire if the project
22 includes public investment in housing affordability, beyond tax credits, where 50
23 percent of the units are affordable to households making below 80 percent of the
24 area median income.

25 (2) If a local government approves a development pursuant to this section and the
26 project does not include 50 percent of the units affordable to households making
27 below 80 percent of the area median income, that approval shall automatically
28 expire after three years except that a project may receive a one-time, one-year
29 extension if the project proponent can provide documentation that there has been
30 significant progress toward getting the development construction ready, such as
31 filing a building permit application.

32 (3) If a local government approves a development pursuant to this section, that
33 approval shall remain valid for three years from the date of the final action
34 establishing that approval and shall remain valid thereafter for a project so long as
35 vertical construction of the development has begun and is in progress. Additionally,
36 the development proponent may request, and the local government shall have
37 discretion to grant, an additional one-year extension to the original three-year
38 period. The local government's action and discretion in determining whether to
39 grant the foregoing extension shall be limited to considerations and process set forth
40 in this section.

41 (f) A local government shall not adopt any requirement, including, but not limited
42 to, increased fees or inclusionary housing requirements, that applies to a project

1 solely or partially on the basis that the project is eligible to receive ministerial or
2 streamlined approval pursuant to this section.

3 (g) This section shall not affect a development proponent's ability to use any
4 alternative streamlined by right permit processing adopted by a local government,
5 including the provisions of subdivision (i) of Section 65583.2.

6 (h) The California Environmental Quality Act (Division 13 (commencing with
7 Section 21000) of the Public Resources Code) does not apply to actions taken by a
8 state agency or local government to lease, convey, or encumber land owned by the
9 local government or to facilitate the lease, conveyance, or encumbrance of land
10 owned by the local government, or to provide financial assistance to a development
11 that receives streamlined approval pursuant to this section that is to be used for
12 housing for persons and families of very low, low, or moderate income, as defined
13 in Section 50093 of the Health and Safety Code.

14 (i) For purposes of this section, the following terms have the following meanings:

15 (1) "Affordable housing cost" has the same meaning as set forth in Section
16 50052.5 of the Health and Safety Code.

17 (2) "Affordable rent" has the same meaning as set forth in Section 50053 of the
18 Health and Safety Code.

19 (3) "Department" means the Department of Housing and Community
20 Development.

21 (4) "Development proponent" means the developer who submits an application
22 for streamlined approval pursuant to this section.

23 (5) "Completed entitlements" means a housing development which has received
24 all the required land use approvals or entitlements necessary for the issuance of a
25 building permit.

26 (6) "Locality" or "local government" means a city, including a charter city, a
27 county, including a charter county, or a city and county, including a charter city and
28 county.

29 (7) "Production report" means the information reported pursuant to subparagraph
30 (H) of paragraph (2) of subdivision (a) of Section 65400.

31 (8) "State agency" includes every state office, officer, department, division,
32 bureau, board, and commission, but does not include the California State University
33 or the University of California.

34 (9) "Subsidized" means units that are price or rent restricted such that the units
35 are permanently affordable to households meeting the definitions of very low and
36 lower income, as defined in Sections 50079.5 and 50105 of the Health and Safety
37 Code.

38 (10) "Reporting period" means either of the following:

39 (A) The first half of the regional housing needs assessment cycle.

40 (B) The last half of the regional housing needs assessment cycle.

1 (11) “Urban uses” means any current or former residential, commercial, public
2 institutional, transit or transportation passenger facility, or retail use, or any
3 combination of those uses.

4 (j) The department may review, adopt, amend, and repeal guidelines to implement
5 uniform standards or criteria that supplement or clarify the terms, references, or
6 standards set forth in this section. Any guidelines or terms adopted pursuant to this
7 subdivision shall not be subject to Chapter 3.5 (commencing with Section 11340)
8 of Part 1 of Division 3 of Title 2 of the Government Code.

9 (k) The determination of whether an application for a development is subject to
10 the streamlined ministerial approval process provided by subdivision (b) is not a
11 “project” as defined in Section 21065 of the Public Resources Code.

12 (l) It is the policy of the state that this section be interpreted and implemented in
13 a manner to afford the fullest possible weight to the interest of, and the approval and
14 provision of, increased housing supply.

15 (m) This section shall remain in effect only until January 1, 2026, and as of that
16 date is repealed.

17 **Comment.** Subparagraphs (I) and (J) of paragraph (6) of subdivision (a) of Section 65913.4 are
18 amended to reflect the recodification of the former Fish and Game Code. The section is also
19 amended to correct a typographical error.

20 **Gov’t Code § 65966 (amended).**

21 SEC. _____. Section 65966 of the Government Code is amended to read:

22 65966. (a) Any conservation easement created as a component of satisfying a local
23 or state mitigation requirement shall be perpetual in duration, whether created
24 pursuant to Chapter 6.6 (commencing with Section 51070) of Part 1 of Division 1
25 of Title 5 of this code or Chapter 4 (commencing with Section 815) of Title 2 of
26 Part 2 of the Civil Code.

27 (b) Any local or state agency that requires property to be protected pursuant to
28 subdivision (a) or (b) of Section 65967 may identify how the funding needs of the
29 long-term stewardship of the property will be met. Nothing in this chapter shall be
30 construed as otherwise precluding other methods of funding for the long-term
31 stewardship of the property. If an endowment is conveyed or secured at the time the
32 property is protected, all of the following shall apply:

33 (1) The endowment shall be held, managed, invested, and disbursed solely for,
34 and permanently restricted to, the long-term stewardship of the specific property for
35 which the funds were set aside.

36 (2) The endowment shall be calculated to include a principal amount that, when
37 managed and invested, is reasonably anticipated to cover the annual stewardship
38 costs of the property in perpetuity.

39 (3) The endowment shall be held, managed, invested, disbursed, and governed as
40 described in subdivision (a) of Section 65965 consistent with the Uniform Prudent
41 Management of Institutional Funds Act (Part 7 (commencing with Section 18501)
42 of Division 9 of the Probate Code).

1 (c) If a nonprofit corporation holds the endowment, the nonprofit shall utilize
2 generally accepted accounting practices that are promulgated by the Financial
3 Accounting Standards Board or any successor entity.

4 (d) If a local agency holds the endowment, the local agency shall do all of the
5 following:

6 (1) Hold, manage, and invest the endowment consistent with subdivision (b) to
7 the extent allowed by law.

8 (2) Disburse funds on a timely basis to meet the stewardship expenses of the entity
9 holding the property.

10 (3) Utilize accounting standards consistent with standards promulgated by the
11 Governmental Accounting Standards Board or any successor entity.

12 (e)(1) Unless the mitigation agreement provides that another person or entity shall
13 prepare the annual fiscal report described below, a governmental entity, community
14 foundation, special district, a congressionally chartered foundation, or a nonprofit
15 organization that holds funds pursuant to this chapter, including an endowment or
16 moneys for initial stewardship costs, shall provide the local or state agency that
17 required the endowment with an annual fiscal report that contains at least the
18 following elements with respect to each individual endowment dedicated and held
19 by that entity:

20 (A) The balance of each individual endowment at the beginning of the reporting
21 period.

22 (B) The amount of any contribution to the endowment during the reporting period
23 including, but not limited to, gifts, grants, and contributions received.

24 (C) The net amounts of investment earnings, gains, and losses during the reporting
25 period, including both realized and unrealized amounts.

26 (D) The amounts distributed during the reporting period that accomplish the
27 purpose for which the endowment was established.

28 (E) The administrative expenses charged to the endowment from internal or third-
29 party sources during the reporting period.

30 (F) The balance of the endowment or other fund at the end of the reporting period.

31 (G) The specific asset allocation percentages including, but not limited to, cash,
32 fixed income, equities, and alternative investments.

33 (H) The most recent financial statements for the organization audited by an
34 independent auditor who is, at a minimum, a certified public accountant.

35 (2) If an entity is required to submit an identical annual fiscal report pursuant to
36 paragraph (1) to the Department of Fish and Game Wildlife and any other state or
37 local agency, then that report shall be provided only to the Department of Fish and
38 Game Wildlife. In that instance, the Department of Fish and Game Wildlife shall
39 provide a copy of that annual fiscal report on its Internet Web site for a minimum
40 of five years.

41 (f) If a state agency authorizes a governmental entity, special district, or nonprofit
42 organization to hold property pursuant to subdivision (a) or (b) of Section 65967 in

1 connection with a development project, the agency may require the project
2 proponent to pay a one-time fee that does not exceed the reasonable costs of the
3 agency in reviewing qualifications of potential holders of the property and
4 approving those holders. This one-time fee shall be collected only if the agency can
5 demonstrate its actual review of qualifications and approval of holders.

6 (g) If a local agency authorizes a governmental entity, special district, or nonprofit
7 organization to hold property or an endowment pursuant to this chapter, the agency
8 may require the project proponent to pay a one-time fee that does not exceed the
9 reasonable costs of the agency in reviewing qualifications of the parties identified
10 in the mitigation agreement, approving those parties, and any regular oversight over
11 those parties to ensure that the parties are complying with all applicable laws. This
12 one-time fee shall be collected only if the agency can demonstrate its actual review
13 of qualifications, approval of parties, or regular oversight of compliance and
14 performance.

15 (h) A local agency may require a project proponent to provide a one-time payment
16 that will provide for the initial stewardship costs for up to three years while the
17 endowment begins to accumulate investment earnings. The funds for the initial
18 stewardship costs are distinct from the funds that may be conveyed for long-term
19 stewardship, construction, or other costs. If there are funds remaining at the
20 completion of the initial stewardship period, the funds shall be conveyed to the
21 project proponent.

22 (i) The local agency may contract with or designate a qualified third party to do
23 any of the following:

24 (1) Review the qualifications of a governmental entity, special district, or
25 nonprofit organization to effectively manage and steward natural land or resources
26 pursuant to subdivision (c) of Section 65967.

27 (2) Review the qualifications of a governmental entity, community foundation, or
28 nonprofit organization to hold and manage the endowment that is set aside for long-
29 term stewardship of the property.

30 (3) Review reports or other performance indicators to evaluate the stewardship of
31 lands, natural resources, or funds, and compliance with the mitigation agreement.

32 (j) If a property conserved pursuant to subdivision (a) or (b) of Section 65967 is
33 condemned, the net proceeds from the condemnation of the real property interest set
34 aside for mitigation purposes shall be used for the purchase of property that replaces
35 the natural resource characteristics the original mitigation was intended to protect,
36 or as near as reasonably feasible. Any endowment held for the condemned property
37 shall be held for the long-term stewardship of the replacement property.

38 (k) Unless prohibited by law, no provision in this chapter is intended to prohibit
39 for-profit entities from holding, acquiring, or providing property for mitigation
40 purposes.

41 (l) Nothing in this section shall prohibit a state agency from exercising any powers
42 described in subdivision (d), (g), or (h).

1 (m) A governmental entity, special district, or nonprofit organization may contract
2 with a community foundation or congressionally chartered foundation at any time
3 to hold, manage, and invest the endowment for a mitigation property and disburse
4 payments from the endowment to the holder of the mitigation property consistent
5 with the fund agreement.

6 (n) Except as expressly authorized in paragraph (1) of subdivision (e), the
7 mitigation agreement shall not include any provision to waive or exempt the parties
8 from any requirement, in whole or part, of this chapter.

9 (o) Subdivisions (b) to (e), inclusive, shall not apply to funds, including funds
10 from mitigation fees, held for the long-term management and stewardship of
11 property pursuant to either an interim or approved habitat conservation plan
12 pursuant to Chapter 35 (commencing with Section 1531) of Title 16 of the United
13 States Code or an interim or approved natural community conservation plan
14 pursuant to Chapter 10 (~~commencing with Section 2800~~) of Division 3 Title 2
15 (commencing with Section 64500) of Part 2 of Division 17 of the Fish and Game
16 Wildlife Code, if, in the interim or approved plan documents, the permitting agency
17 determines the endowment to be established with those funds will be adequate and
18 provides a schedule for funding the endowment.

19 **Comment.** Subdivision (o) of Section 65966 is amended to reflect the recodification of the
20 former Fish and Game Code. The section is also amended to update references to the former
21 Department of Fish and Game. See Fish & Wildlife Code § 1500.

22 **Gov't Code § 65968 (amended).**

23 SEC. ____ . Section 65968 of the Government Code is amended to read:

24 65968. (a) Notwithstanding ~~Section 13014~~ Title 2 (commencing with Section
25 58050) of Part 3 of Division 15 of the Fish and Game Wildlife Code, if an
26 endowment is conveyed pursuant to Section 65966 for property conveyed pursuant
27 to Section 65967, the endowment may be held by the same governmental entity,
28 special district, or nonprofit organization that holds the property pursuant to this
29 section.

30 (b)(1) Except as permitted pursuant to paragraph (2), the endowment shall be held
31 by one of the following:

32 (A) The agency or agencies that required the mitigation.

33 (B) The governmental entity, special district, or nonprofit organization that either
34 holds the property, or holds an interest in the property, for conservation purposes.

35 (C) The governmental entity or special district that retains the property after
36 conveying an interest in the property for conservation purposes if that governmental
37 entity or special district is protecting, restoring, or enhancing the property that was
38 retained.

39 (2) The exceptions to paragraph (1) are the following:

40 (A) An endowment that is held by an entity other than the state or holder of the
41 mitigation property as of January 1, 2012.

(B) An endowment that is held by another entity, which is qualified pursuant to this chapter, pursuant to the terms of a natural community conservation plan (~~Chapter 10 (commencing with Section 2800) of Division 3 Title 2 (commencing with Section 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code~~) or a safe harbor agreement (~~Article 3.7 (commencing with Section 2089.2) of Chapter 1.5 of Division 3 Title 5 (commencing with Section 63900) of Part 1 of Division 17 of the Fish and Game Wildlife Code~~). In order for this paragraph to apply, prior to setting aside any endowments, the implementation agreement that is a part of an approved natural community conservation plan, the planning agreement for any natural community conservation plan that has not yet been approved, or the safe harbor agreement shall specifically address the arrangements for the endowment including, but not limited to, qualifications of the endowment holder, capitalization rate, return objectives, and the spending rule and disbursement policies.

(C) If existing law prohibits the holder of the mitigation property to hold the endowment, including for-profit entities.

(D) If the project proponent and the holder of the mitigation property or conservation easement agree that a community foundation or a congressionally chartered foundation shall hold the endowment.

(E) If the mitigation property is held or managed by a federal agency.

(F) If any of the same mitigation property is required to be conveyed pursuant to both a federal and state governmental approval, and under the federal governmental approval the federal agency does not approve one of the entities described in paragraph (1) of subdivision (b) as chosen to hold the endowment by the agreement of the project proponent and the holder of the mitigation property or conservation easement.

(c) A community foundation or congressionally chartered foundation that holds an endowment pursuant to subparagraphs (A) to (F), inclusive, of paragraph (2) of subdivision (b), shall meet all the qualifications and requirements of this chapter for holding, managing, investing, and disbursing the endowment funds.

(d) Any entity that holds an endowment under this chapter shall hold, manage, invest, and disburse the funds in furtherance of the long-term stewardship of the property in accordance with subdivision (a) of Section 65965.

(e) The holder of an endowment shall certify to the project proponent or the holder of the mitigation property or a conservation easement and the local or state agency that required the endowment that it meets all of the following requirements:

(1) The holder has the capacity to effectively manage the mitigation funds.

(2) The holder has the capacity to achieve reasonable rates of return on the investment of those funds similar to those of other prudent investors for endowment funds and shall manage and invest the endowment in good faith and with the care an ordinarily prudent person in a like position would exercise under similar circumstances, consistent with the Uniform Prudent Management of Institutional

1 Funds Act (Part 7 (commencing with Section 18501) of Division 9 of the Probate
2 Code).

3 (3) The holder utilizes generally accepted accounting practices as promulgated by
4 either of the following:

5 (A) The Financial Accounting Standards Board or any successor entity for
6 nonprofit organizations.

7 (B) The Governmental Accounting Standards Board or any successor entity for
8 public agencies, to the extent those practices do not conflict with any requirement
9 for special districts in Article 2 (commencing with Section 53630) of Chapter 4 of
10 Part 1 of Division 2 of Title 5.

11 (4) The holder will be able to ensure that funds are accounted for, and tied to, a
12 specific property.

13 (5) If the holder is a nonprofit organization, a community foundation, or a
14 congressionally chartered foundation, it has an investment policy that is consistent
15 with the Uniform Prudent Management of Institutional Funds Act (Part 7
16 (commencing with Section 18501) of Division 9 of the Probate Code).

17 (f) If a governmental entity, community foundation, special district, nonprofit
18 organization, or a congressionally chartered foundation meets the requirements of
19 this chapter, it is qualified to be a holder of the endowment for the purpose of
20 obtaining any permit, clearance, or mitigation approval from a state or local agency.

21 (g) Except for a mitigation agreement prepared by a state agency, the mitigation
22 agreement that authorizes the funds to be conveyed to a governmental entity,
23 community foundation, special district, a congressionally chartered foundation, or
24 nonprofit organization pursuant to subdivision (a) shall include a provision that
25 requires the endowment be held by a governmental entity, special district, or a
26 nonprofit organization to revert to the local agency, or to a successor organization
27 identified by the agency and subject to subdivision (e), if any of the following
28 occurs:

29 (1) The governmental entity, community foundation, special district, a
30 congressionally chartered foundation, or nonprofit organization ceases to exist.

31 (2) The governmental entity, community foundation, special district, a
32 congressionally chartered foundation, or nonprofit organization is dissolved.

33 (3) The governmental entity, community foundation, special district, a
34 congressionally chartered foundation, or nonprofit organization becomes bankrupt
35 or insolvent.

36 (4) The local agency reasonably determines that the endowment held by the
37 governmental entity, community foundation, special district, or nonprofit
38 organization, or its successor entity, is not being held, managed, invested, or
39 disbursed for conservation purposes and consistent with the mitigation agreement
40 and legal requirements. Any reverted funds shall continue to be held, managed, and
41 disbursed only for long-term stewardship and benefit of the specific property for
42 which they were set aside. If the funds revert from the governmental entity,

1 community foundation, special district, or nonprofit organization, the special district
2 or nonprofit organization may choose to relinquish the property. If the property is
3 relinquished, the local agency shall accept title to the property or identify an
4 approved governmental entity, community foundation, special district, or nonprofit
5 organization to accept title to the property.

6 (h) Nothing in this section shall prohibit a state or local agency from determining
7 that a governmental entity, community foundation, special district, a
8 congressionally chartered foundation, or nonprofit organization meets the
9 requirements of this section and is qualified to hold the endowment, or including a
10 provision in the mitigation agreement as described in subdivision (g).

11 (i) A state or local agency may allow the endowment to be held temporarily in an
12 escrow account until December 31, 2012, after which time the funds shall be
13 transferred to the entity that will permanently hold the endowment.

14 (j) Subject to subdivision (g), any endowment that is conveyed to and held by a
15 governmental entity, special district, or nonprofit organization pursuant to this
16 section shall continue to be held by the entity if this section is repealed.

17 (k) A state or local agency shall not require, as a condition of obtaining any permit,
18 clearance, agreement, or mitigation approval from the state or local agency, that a
19 preferred or exclusively named entity by the state or local agency be named as the
20 entity to hold, manage, invest, and disburse the funds in furtherance of the long-
21 term stewardship of the property for which the funds were set aside.

22 (l) This section shall remain in effect only until January 1, 2022, and as of that
23 date is repealed, unless a later enacted statute, that is enacted before January 1, 2022,
24 deletes or extends that date.

25 **Comment.** Section 65968(a) and (b)(2)(B) are amended to reflect the recodification of the
26 former Fish and Game Code.

27 **Gov't Code § 66412.8 (amended).**

28 SEC. _____. Section 66412.8 of the Government Code is amended to read:

29 66412.8. (a) A project located in Los Angeles County that is approved by a public
30 agency before the effective date of the act adding this section is not in violation of
31 any requirement of this division by reason of the failure to construct a roadway
32 across the property transferred to the state pursuant to subdivision (c) of Section
33 21080.29 of the Public Resources Code and to construct a bridge over the adjacent
34 Ballona Channel in Los Angeles County, otherwise required as a condition of
35 approval of a vesting tentative map or a tentative map, if all of the following
36 conditions apply:

37 (1) The improvements specified in subdivision (a) are not constructed, due in
38 whole or in part, to the project owner's or developer's relinquishment of easement
39 rights to construct the improvements.

40 (2) The easement rights specified in paragraph (1) are relinquished in connection
41 with the acquisition by the State of California, acting by and through the Wildlife

1 Conservation Board of the Department of Fish and Game Wildlife, of a wetlands
2 project that is a minimum of 400 acres in size and located in the coastal zone.

3 (b) Where the easement rights have been relinquished, any municipal ordinance
4 or regulation adopted by a charter city or a general law city shall be inapplicable to
5 the extent that the ordinance or regulation requires construction of the transportation
6 improvements specified in subdivision (a), or would otherwise require reprocessing
7 or resubmittal of a permit or approval, including, but not limited to, a final recorded
8 map, a vesting tentative map, or a tentative map, as a result of the transportation
9 improvements specified in subdivision (a) not being constructed.

10 **Comment.** Section 66412.8 is amended to update a reference to the former Department of Fish
11 and Game. See Fish & Wildlife Code § 1500.

12 **Gov't Code § 66478.4 (amended).**

13 SEC. _____. Section 66478.4 of the Government Code is amended to read:

14 66478.4. (a) No local agency shall approve either a tentative or a final map of any
15 proposed subdivision to be fronted upon a public waterway, river, or stream which
16 does not provide, or have available, reasonable public access by fee or easement
17 from a public highway to that portion of the bank of the river or stream bordering
18 or lying within the proposed subdivision.

19 (b) Reasonable public access shall be determined by the local agency in which the
20 proposed subdivision is to be located. In making the determination of what shall be
21 reasonable access, the local agency shall consider all of the following:

22 (1) That access may be by highway, foot trail, bike trail, horse trail, or any other
23 means of travel.

24 (2) The size of the subdivision.

25 (3) The type of riverbank and the various appropriate recreational, educational,
26 and scientific uses, including, but not limited to, swimming, diving, boating, fishing,
27 water skiing, scientific collection, and teaching.

28 (4) The likelihood of trespass on private property and reasonable means of
29 avoiding these trespasses.

30 (c) A public waterway, river, or stream for the purposes of Sections 66477.2,
31 66478.4, 66478.5 and 66478.6 means those waterways, rivers and streams defined
32 in Sections 100 through 106 of the Harbors and Navigation Code, any stream
33 declared to be a public highway for fishing pursuant to Sections 25660 through
34 25662 of the Government Code, the rivers listed in Section ~~1505~~ 60900 of the Fish
35 and Game Wildlife Code as spawning areas, all waterways, rivers and streams
36 downstream from any state or federal salmon or steelhead fish hatcheries.

37 **Comment.** Section 66478.4 is amended to reflect the recodification of the former Fish and Game
38 Code.

39 **Gov't Code § 66632.4 (amended).**

40 SEC. _____. Section 66632.4 of the Government Code is amended to read:

66632.4. Within any portion or portions of the shoreline band that are located outside the boundaries of water-oriented priority land uses, as fixed and established pursuant to Section 66611, the commission may deny an application for a permit for a proposed project only on the grounds that the project fails to provide maximum feasible public access, consistent with the proposed project, to the bay and its shoreline. When considering whether a project provides maximum feasible public access in areas of sensitive habitat, including tidal marshlands and mudflats, the commission shall, after consultation with the Department of Fish and Game Wildlife, and using the best available scientific evidence, determine whether the access is compatible with wildlife protection in the bay.

Comment. Section 66632.4 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Gov't Code § 66680 (amended).

SEC. _____. Section 66680 of the Government Code is amended to read:

66680. The commission shall review and approve, or disapprove, the plan on the basis of whether the plan provides all of the following:

(a) Permanent protection and enhancement of marshes, tidelands, tidally influenced wetlands, and upland habitat sufficient to assure the long-term usefulness of White Slough as a wildlife habitat, a flood basin consistent with wetland enhancement goals, and a wetland resource for the city and the region, including the establishment, operation, and maintenance of adequate tidal action and water quality to preclude algal blooms, to provide a fishery, and to provide waterfowl feeding, resting, and breeding areas.

(b) Location and siting for a project that consists of a State Highway Route 37 widened to not more than four lanes, with the minimum medians and shoulders necessary to assure highway safety, interchanges between State Highway Route 37 and State Highway Route 29 and Sacramento Street, the covering of the flooded sewerline south of State Highway Route 37 and the relocation of the flooded line north of State Highway Route 37 within the area required for the widening of State Highway Route 37, and that provides for all of the following:

(1) A tidal control structure or structures or open channels, sufficient to assure adequate waterflow for suitable water quality, wetland enhancement of South White Slough, and flood protection, between the wetlands north and south of the State Highway Route 37 corridor.

(2) Adequate height and design to protect developed areas of the city from flooding.

(3) No access from the widened State Highway Route 37 to tidal wetlands north of the highway.

(4) The minimum wetland fill necessary, but in no event more than 13 acres.

(5) Mitigation measures, specifically including the following:

1 (A) Prior to the placing of fill or commencement of other highway construction
2 work, acquisition of upland areas in the vicinity of White Slough which do not
3 presently provide unique or especially significant wildlife habitat and which are four
4 times the size of the area to be filled.

5 (B) The conversion of these lands to wetlands during highway construction.

6 (C) The hiring of an independent biologist to assess current conditions on the
7 wetlands to be filled and to monitor the conditions of the newly created wetlands
8 over time.

9 (D) The permanent protection of the created wetlands.

10 (E) Assurances that the created wetlands will be functioning in a manner which
11 fully replaces the filled wetlands within five years. If, after three years it does not
12 appear that the created wetlands will be fully functioning within the five-year
13 period, then the wetlands shall be further improved in a manner which ensures full
14 replacement of the filled wetlands or which provides additional new wetlands. After
15 the five years, the department shall no longer be required to maintain the created
16 wetlands, but may transfer the created wetlands either to the Department of Fish and
17 Game Wildlife or to another appropriate resource agency for the wetlands'
18 permanent management for wildlife habitat purposes.

19 (c) Levees within and adjacent to South White Slough necessary for flood control,
20 wetland habitat enhancement, and public access purposes. The department shall not
21 be responsible for the construction and maintenance of the levees within and
22 adjacent to South White Slough, except for the White Slough Project. Fill for flood
23 control and public access purposes shall be the minimum necessary and shall be
24 mitigated by the acquisition, excavation, and conversion to wetlands of uplands in
25 the vicinity of the project and which do not presently provide unique or especially
26 significant wildlife habitat, to provide an area of wetland habitat at least twice the
27 area to be filled.

28 (d) Acquisition of interests in real property sufficient to preserve and maintain
29 permanently the wetland, tidal, water-covered, and public access areas of White
30 Slough.

31 (e) Recognition that the project constructed in accordance with the plan is required
32 to meet the requirements of the federal Clean Water Act and the Rivers and Harbors
33 Act, if applicable.

34 **Comment.** Subparagraph (E) of paragraph (5) of subdivision (b) of Section 66680 is amended
35 to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

36 **Gov't Code § 66681 (amended).**

37 SEC. _____. Section 66681 of the Government Code is amended to read:

38 66681. The plan shall be implemented as follows:

39 (a) The city and the county shall adopt the relevant provisions of the plan into
40 their general and specific plans, shall adopt land use ordinances that implement the
41 policies of the plan, and shall review and issue or deny any necessary local permits

1 for projects within White Slough based on the requirements of the plan and
2 implementing ordinances.

3 (b) In addition to obtaining any other permit required by law from the city or
4 county or any state, regional, or local agency, any person placing fill, extracting
5 materials, or making any substantial change in use of any area within White Slough
6 shall obtain a permit from the commission. The commission shall issue a permit for
7 these activities only if it finds the project consistent with the plan, this chapter, and,
8 where not inconsistent with the plan and this chapter, this title, the San Francisco
9 Bay Plan, and other relevant state and local law.

10 (c) The Department of Fish and Game Wildlife, the Wildlife Conservation Board,
11 the State Lands Commission, the State Coastal Conservancy, and the Department
12 of Transportaton Transportation shall exercise their powers and allocate available
13 resources to acquire, enhance, or manage wetlands and public access areas within
14 White Slough in a manner consistent with the plan, subject to statewide goals and
15 priorities of the agencies.

16 **Comment.** Section 66681 is amended to update a reference to the former Department of Fish
17 and Game. See Fish & Wildlife Code § 1500. The section is also amended to make a technical
18 correction.

19 **Gov't Code § 66703.7 (amended).**

20 SEC. _____. Section 66703.7 of the Government Code is amended to read:

21 66703.7. (a) Not later than six months after the date of the board's first meeting
22 described in subdivision (a) of Section 66703.6, the board shall convene a Bay
23 Restoration Advisory Committee to assist and advise the board in carrying out the
24 functions of the board. The advisory committee shall meet on a regular basis.

25 (b) The membership of the advisory committee shall be determined by the
26 authority based upon criteria that provide a broad representation of community and
27 agency interests within the authority's jurisdiction over the restoration of wetland
28 areas in the San Francisco Bay and along its shoreline. The membership of the
29 advisory committee may include, but is not limited to, representatives from the
30 following:

31 (1) The Department of Fish and Game Wildlife.

32 (2) The State Coastal Conservancy.

33 (3) The San Francisco Bay National Wildlife Refuge Complex operated by the
34 United States Fish and Wildlife Service.

35 (4) Open space and park districts that own or operate shoreline parcels in the San
36 Francisco Bay Area.

37 (5) The San Francisco Bay Regional Water Quality Control Board.

38 (6) The San Francisco Bay Conservation and Development Commission.

39 (7) The San Francisco Bay Joint Venture Management Board.

40 (8) The San Francisco Bay Trail Project.

41 (9) The San Francisco Estuary Project.

1 (10) Nongovernmental organizations working to restore, protect, and enhance San
2 Francisco Bay wetlands and wildlife habitat.

3 (11) Members of the public from bayside cities and counties in the San Francisco
4 Bay Area.

5 **Comment.** Section 66703.7 is amended to update a reference to the former Department of Fish
6 and Game. See Fish & Wildlife Code § 1500.

7 **Gov't Code § 67679 (amended).**

8 SEC. _____. Section 67679 of the Government Code is amended to read:

9 67679. (a)(1) The board shall identify those basewide public capital facilities
10 described in the Fort Ord Reuse Plan, including, but not limited to, roads, freeway
11 ramps, air transportation facilities, and freight hauling and handling facilities;
12 sewage and water conveyance and treatment facilities; school, library, and other
13 educational facilities; and recreational facilities, that serve residents or will serve
14 future residents of the base territory and could most efficiently or conveniently be
15 planned, negotiated, financed, constructed, or repaired, remodeled, or replaced by
16 the board to further the integrated future use of the base. The board shall undertake
17 to plan for and arrange the provision of those facilities, including arranging for their
18 financing and construction or repair, remodeling, or replacement. The board may
19 plan, design, construct, repair, remodel, or replace and finance these public capital
20 facilities, or delegate any of those powers to one or more member agencies.
21 Notwithstanding any other provision of law, no permit or permission of any kind
22 from any city or county shall be required for any project undertaken by the board
23 pursuant to this section.

24 (2) The board shall identify significant local public capital facilities, as
25 distinguished from the basewide public capital facilities identified in the paragraph
26 (1) which are described in the Fort Ord Reuse Plan. Local public capital facilities
27 shall be the responsibility of the city or county with land use jurisdiction or the
28 redevelopment agency if the facilities are located within an established project area
29 and the board of the redevelopment agency determines that it will assume
30 responsibility.

31 (3) The board may construct or otherwise act to improve a local public capital
32 facility only with the consent of the city or county with land use authority over the
33 area where the facility is or will be located. A city or county or a local
34 redevelopment agency may construct or otherwise act to improve a basewide public
35 capital facility only with the consent of the board.

36 (b) If all or any portion of the Fritzsche Army Air Field is transferred to the City
37 of Marina, the board shall not consider those portions of the air field that continue
38 to be used as an airport to be basewide capital facilities, except with the consent of
39 the legislative body of the city. If all or any portion of the two Army golf courses
40 within the territory of Seaside are transferred to the City of Seaside, the board shall
41 not consider those portions of the golf courses that continue in use as golf courses

1 to be basewide capital facilities, except with the consent of the legislative body of
2 the city.

3 (c) The board may seek state and federal grants and loans or other assistance to
4 help fund public facilities.

5 (d) The board may, in any year, levy assessments, reassessments, or special taxes
6 and issue bonds to finance these basewide public facilities in accordance with, and
7 pursuant to, any of the following:

8 (1) The Improvement Act of 1911 (Division 7 (commencing with Section 5000)
9 of the Streets and Highways Code).

10 (2) The Improvement Bond Act of 1915 (Division 10 (commencing with Section
11 8500) of the Streets and Highways Code).

12 (3) The Municipal Improvement Act of 1913 (Division 12 (commencing with
13 Section 10000) of the Streets and Highways Code).

14 (4) The Benefit Assessment Act of 1982 (Chapter 6.4 (commencing with Section
15 54703)).

16 (5) The Landscape and Lighting Act of 1972 (Part 2 (commencing with Section
17 22500) of Division 15 of the Streets and Highways Code).

18 (6) The Integrated Financing District Act (Chapter 1.5 (commencing with Section
19 53175) of Division 2 of Title 5).

20 (7) The Mello-Roos Community Facilities Act of 1982 (Chapter 2.5 (commencing
21 with Section 53311) of Part 1 of Division 2 of Title 5).

22 (8) The Infrastructure Financing District Act (Chapter 2.8 (commencing with
23 Section 53395) of Division 2 of Title 5).

24 (9) The Marks-Roos Local Bond Pooling Act of 1985 (Article 4 (commencing
25 with Section 6584) of Chapter 5 of Division 7 of Title 1).

26 (10) The Revenue Bond Act of 1941 (Chapter 6 (commencing with Section
27 54300) of Division 2 of Title 5).

28 (11) Fire suppression assessments levied pursuant to Article 3.6 (commencing
29 with Section 50078) of Chapter 1 of Part 1 of Division 1 of Title 5.

30 (12) The Habitat Maintenance Funding Act (~~Chapter 11 (commencing with~~
31 ~~Section 2900) of Division 3 Title 3 (commencing with Section 58075) of Part 3 of~~
32 Division 15 of the Fish and Game Wildlife Code).

33 Notwithstanding any other provision of law, the board may create any of these
34 financing districts within the area of Fort Ord to finance basewide public facilities
35 without the consent of any city or county. In addition, until January 1, 2000, the
36 board may, but is not obligated to create, within the area of Fort Ord, any of these
37 financing districts which authorize financing for public services and may levy
38 authorized assessments or special taxes in order to pass through funding for these
39 services to the local agencies. Notwithstanding any other provision of law, no city
40 or county with jurisdiction over any area of the base, whether now or in the future,
41 shall create any land-based financing district or levy any assessment or tax secured
42 by a lien on real property within the area of the base without the consent of the

1 board, except that the city or county may create these financing districts for the
2 purposes and subject to any financing limitations that may be specified in the capital
3 improvement program prepared pursuant to Section 67675.

4 (e) The board may levy development fees on development projects within the area
5 of the base. Any development fees shall comply with the requirements of Chapter 5
6 (commencing with Section 66000) of Division 1 of Title 5. No local agency shall
7 issue any building permit for any development within the area of Fort Ord until the
8 board has certified that all development fees that it has levied with respect to the
9 development project have been paid or otherwise satisfied.

10 **Comment.** Paragraph (12) of subdivision (d) of Section 67679 is amended to reflect the
11 recodification of the former Fish and Game Code.

12 **Gov't Code § 68090.8 (amended).**

13 SEC. _____. Section 68090.8 of the Government Code is amended to read:

14 68090.8. (a)(1) The Legislature finds that the management of civil and criminal
15 cases, including traffic cases, and the accounting for funds in the trial courts requires
16 these courts to implement appropriate levels of administrative automation.

17 (2) The purpose of this section is to make a fund available for the development of
18 automated administrative systems, including automated accounting, automated data
19 collection through case management systems, and automated case-processing
20 systems for the trial courts, together with funds to train operating personnel, and for
21 the maintenance and enhancement of the systems. As used in this paragraph,
22 “automated administrative systems” does not include electronic reporting systems
23 for use in a courtroom.

24 (3) Automated data collection shall provide the foundation for planning, research,
25 and evaluation programs that are generated from within and outside of the judicial
26 branch. This system shall be a resource to the courts, the Judicial Council and its
27 committees, the Administrative Office of the Courts, the Legislature, the Governor,
28 and the public. During the developmental stage and prior to the implementation of
29 the system, the Legislature shall make recommendations to the Judicial Council as
30 to the breadth and level of detail of the data to be collected.

31 (b) Prior to making any other required distribution, the county treasurer shall
32 transmit 2 percent of all fines, penalties, and forfeitures collected in criminal cases,
33 including, but not limited to, moneys collected pursuant to Chapter 12 (commencing
34 with Section 76000) of Title 8 of this code, Section ~~13003~~ 3610 of the Fish and
35 Game Wildlife Code, Section 11502 of the Health and Safety Code, and Chapter 1
36 (commencing with Section 1427) of Title 11 of Part 2 of the Penal Code, into the
37 State Trial Court Improvement and Modernization Fund established pursuant to
38 Section 77209, to be used exclusively to pay the costs of automated systems for the
39 trial courts, as described in paragraph (2) of subdivision (a). These systems shall
40 meet Judicial Council performance standards, including production of reports as
41 needed by the state, the counties, and local governmental entities.

1 **Comment.** Section 68090.8 is amended to reflect the recodification of the former Fish and Game
2 Code.

3 **Gov't Code § 70372 (amended).**

4 SEC. _____. Section 70372 of the Government Code is amended to read:

5 70372. (a)(1) Except as otherwise provided in this article, there shall be levied a
6 state court construction penalty, in the amount of five dollars (\$5) for every ten
7 dollars (\$10), or part of ten dollars (\$10), upon every fine, penalty, or forfeiture
8 imposed and collected by the courts for all criminal offenses, including, but not
9 limited to, all offenses involving a violation of a section of the Fish and Game
10 Wildlife Code, the Health and Safety Code, or the Vehicle Code or any local
11 ordinance adopted pursuant to the Vehicle Code. This penalty is in addition to any
12 other state or local penalty, including, but not limited to, the penalty provided by
13 Section 1464 of the Penal Code and Section 76000.

14 (2) This construction penalty does not apply to the following:

15 (A) Any restitution fine.

16 (B) Any penalty authorized by Section 1464 of the Penal Code or Chapter 12
17 (commencing with Section 76000) of Title 8.

18 (C) Any parking offense subject to Article 3 (commencing with Section 40200)
19 of Chapter 1 of Division 17 of the Vehicle Code.

20 (D) The state surcharge authorized by Section 1465.7 of the Penal Code.

21 (3) Any bail schedule adopted pursuant to Section 1269b of the Penal Code or
22 adopted by the Judicial Council pursuant to Section 40310 of the Vehicle Code may
23 include the necessary amount to pay the penalty established by this section, the
24 penalties authorized by Section 1464 of the Penal Code and Chapter 12
25 (commencing with Section 76000) of Title 8, and the surcharge authorized by
26 Section 1465.7 of the Penal Code for all matters where a personal appearance is not
27 mandatory and the bail is posted primarily to guarantee payment of the fine. After a
28 determination by the court of the amount due, the clerk of the court shall collect the
29 penalty and transmit it immediately to the county treasury and the county treasurer
30 shall transmit these sums as provided in subdivision (f).

31 (b) In addition to the penalty provided by subdivision (a), for every parking
32 offense where a parking penalty, fine, or forfeiture is imposed, an added state court
33 construction penalty of four dollars and fifty cents (\$4.50) shall be included in the
34 total penalty, fine, or forfeiture. These moneys shall be taken from fines and
35 forfeitures deposited with the county treasurer prior to any division pursuant to
36 Section 1462.3 or 1463.009 of the Penal Code. In those cities, districts, or other
37 issuing agencies which elect to accept parking penalties, and otherwise process
38 parking violations pursuant to Article 3 (commencing with Section 40200) of
39 Chapter 1 of Division 17 of the Vehicle Code, that city, district, or issuing agency
40 shall observe the increased bail amounts as established by the court reflecting the
41 added penalty provided for by this subdivision. Each agency that elects to process
42 parking violations shall pay to the county treasurer four dollars and fifty cents

1 (\$4.50) for the parking penalty imposed by this subdivision for each violation that
2 is not filed in court. Those payments to the county treasurer shall be made monthly,
3 and the county treasurer shall transmit these sums as provided in paragraph (2) of
4 subdivision (f). In the event these payments were deposited in a local courthouse
5 construction fund and expended pursuant to the provisions of Chapter 592 of the
6 Statutes of 2003, no county or processing agency shall be liable for the failure to
7 transmit the payments to the Controller during the 2008 calendar year.

8 (c) If multiple offenses are involved, the state court construction penalty under
9 subdivision (a) shall be based upon the total fine or bail for each case. If a fine is
10 suspended, in whole or in part, the state court construction penalty under subdivision
11 (a) shall be reduced in proportion to the suspension.

12 (d) If any deposited bail is made for an offense to which this section applies, and
13 for which a court appearance is not mandatory, the person making the deposit shall
14 also deposit a sufficient amount to include the state court construction penalty
15 prescribed by subdivision (a) for forfeited bail. If bail is returned, the state court
16 construction penalty paid thereon pursuant to subdivision (a) shall also be returned.

17 (e) In any case where a person convicted of any offense, to which this section
18 applies, is in prison until the fine is satisfied, the judge may waive all or any part of
19 the state court construction penalty, the payment of which would work a hardship
20 on the person convicted or his or her immediate family.

21 (f)(1) Within 45 days after the end of the month that moneys are deposited in the
22 county treasury pursuant to subdivision (a), the county treasurer shall transmit the
23 moneys to the Controller, to be deposited as follows:

24 (A) The total to be deposited pursuant to subdivision (a) shall be multiplied by a
25 fraction as follows:

26 (i) The numerator is the amount imposed as of January 1, 1998, as an additional
27 penalty on every ten dollars (\$10), or part of ten dollars (\$10), upon every fine,
28 penalty, or forfeiture, if any, for deposit into the local courthouse construction fund
29 in that county established pursuant to Sections 76000 and 76100. The numerator
30 shall be expressed in whole dollars and fractions of a dollar.

31 (ii) The denominator is five dollars (\$5).

32 (B) The resulting amount shall be deposited in the Immediate and Critical Needs
33 Account of the State Court Facilities Construction Fund, established in Section
34 70371.5.

35 (C) The remaining amount of the deposit shall be deposited in the State Court
36 Facilities Construction Fund.

37 (2) Within 45 days after the end of the month that moneys are deposited in the
38 county treasury pursuant to subdivision (b), the county treasurer shall transmit the
39 moneys to the Controller to be deposited as follows: one-third of the total amount
40 shall be deposited in the State Court Facilities Construction Fund and two-thirds of
41 the total amount shall be deposited in the Immediate and Critical Needs Account of
42 the State Court Facilities Construction Fund, established in Section 70371.5.

1 **Comment.** Paragraph (1) of subdivision (a) of Section 70372 is amended to reflect the
2 recodification of the former Fish and Game Code.

3 HARBORS AND NAVIGATION CODE

4 **Harb. & Nav. Code § 64 (amended).**

5 SEC. _____. Section 64 of the Harbors and Navigation Code is amended to read:

6 64. (a) The Legislature hereby finds and declares that the growth of water hyacinth
7 (Eichhornia crassipes), Brazilian elodea (Egeria densa), and South American
8 spongeplant (Limnobium laevigatum) in the Sacramento-San Joaquin Delta, its
9 tributaries, and the Suisun Marsh has occurred at an unprecedented level and that
10 the resulting accumulations of water hyacinth (Eichhornia crassipes), Brazilian
11 elodea (Egeria densa), and South American spongeplant (Limnobium laevigatum)
12 obstruct navigation, impair other recreational uses of waterways, have the potential
13 for damaging manmade facilities, and may threaten the health and stability of
14 fisheries and other ecosystems within the delta and marsh. Accordingly, it is
15 necessary that the state, in cooperation with agencies of the United States, undertake
16 an aggressive program for the effective control of water hyacinth (Eichhornia
17 crassipes), Brazilian elodea (Egeria densa), and South American spongeplant
18 (Limnobium laevigatum) in the delta, its tributaries, and the marsh.

19 (b) The department is designated as the lead agency of the state for the purpose of
20 cooperating with agencies of the United States and other public agencies in
21 controlling water hyacinth (Eichhornia crassipes), Brazilian elodea (Egeria densa),
22 and South American spongeplant (Limnobium laevigatum) in the delta, its
23 tributaries, and the marsh.

24 (c) The department, other state agencies, cities, counties, and districts are hereby
25 authorized to cooperate with one another and with agencies of the United States in
26 controlling water hyacinth (Eichhornia crassipes), Brazilian elodea (Egeria densa),
27 and South American spongeplant (Limnobium laevigatum) in the delta, its
28 tributaries, and the marsh and may furnish money, services, equipment, and other
29 property to that end.

30 (d) Up to five thousand dollars (\$5,000) per year of the funds available for
31 expenditure by the Department of Fish and Game Wildlife to implement this section
32 shall be paid from the Harbors and Watercraft Revolving Fund.

33 (e) Whenever any control program is proposed to take place in Rock Slough, the
34 department and the Contra Costa Water District shall develop a memorandum of
35 understanding establishing the parameters of the control program. This subdivision
36 does not apply to any control program proposed for Sand Mound Slough.

37 **Comment.** Section 64 is amended to update a reference to the former Department of Fish and
38 Game. See Fish & Wildlife Code § 1500.

1 **Harb. & Nav. Code § 86 (amended).**

2 SEC. _____. Section 86 of the Harbors and Navigation Code is amended to read:

3 86. (a) The local public agency shall annually certify to the department that for a
4 small craft harbor or boating facility project that is, or has been, funded pursuant to
5 Section 70, 70.2, 70.8, 71.4, 72.5, or 76.3, or a harbor constructed with funds from
6 the State Lands Commission from tidelands oil revenues, adequate restroom and
7 sanitary facilities, parking, refuse disposal, vessel pumpout facilities as required
8 pursuant to Section 776, walkways, oil recycling facilities, receptacles for the
9 purpose of separating, reusing, or recycling all solid waste materials, and other
10 necessary shoreside facilities sufficient for the use and operation of all vessels using
11 the harbor or facility are provided or provide written findings showing why the
12 facility cannot certify to these conditions.

13 (b) A city, county, or district, which has received or is receiving moneys under
14 this division for the construction or improvement of small craft harbors that provides
15 facilities for the operation of commercial fishing vessels registered pursuant to
16 Article 4 (commencing with Section 7880) of Chapter 1 of Part 3 of Division 6 of
17 Article 1 (commencing with Section 14750) of Chapter 2 of Title 2 of Part 6 of
18 Division 6 of the Fish and Game Wildlife Code, shall not prohibit the commercial
19 operation and use of those facilities by commercial passenger fishing vessels of the
20 same or similar displacement, which are licensed pursuant to ~~Section 7920~~ 21905
21 of the Fish and Game Wildlife Code, or the use by private recreational vessels unless
22 otherwise expressly provided by law, unless the city, county, or district provides,
23 elsewhere in the same harbor, alternative, equivalent facilities available at
24 comparable cost for the commercial operation and use of commercial passenger
25 fishing vessels and private recreational vessels or unless the city, county, or district
26 adopts written findings showing why the existing facility cannot accommodate the
27 operation of commercial fishing vessels, including commercial passenger fishing
28 vessels, or private recreational vessels and why the facility cannot be modified to
29 do so or why alternative, equivalent facilities cannot be provided in the same harbor
30 to accommodate those operations. This subdivision does not require a facility to
31 accept an application for the operation of an additional commercial passenger
32 fishing boat at that facility if the harbor provides alternative, equivalent, adequate,
33 safe facilities at comparable cost for the operation and use of commercial passenger
34 fishing boats or if accommodations for the operation of the additional commercial
35 passenger fishing boat are not reasonably available at the facility under the contract
36 or agreement.

37 For the purposes of this subdivision, an alternative, equivalent facility in the same
38 harbor shall provide, at comparable cost, adequate restroom and sanitary facilities,
39 parking, refuse disposal, vessel pumpout facilities, walkways, oil recycling
40 facilities, receptacles for the purpose of separating, reusing, or recycling all solid
41 waste materials, power and water service, and other shoreside facilities and
42 equivalent docks, water channels, navigation aids, and weather protection,

1 including, but not limited to, breakwaters, which are equivalent to the facility funded
2 pursuant to Section 70, 70.2, 70.8, 71.4, 72.5, or 76.3.

3 (c)(1) A loan, grant, contract or agreement, or plan funded pursuant to Section 70,
4 70.2, 70.8, 71.4, 72.5, or 76.3 for a small craft harbor or boating facility project shall
5 provide for construction, development, or improvement of facilities to meet the
6 provisions of subdivisions (a) and (b), and provide vehicular access roads to the
7 harbor or facility, as recommended by the Department of Transportation pursuant
8 to Division 13 (commencing with Section 21000) of the Public Resources Code,
9 unless the reasons for not meeting those provisions and recommendations are set
10 forth in the contract or agreement with the department, or an addendum thereto.

11 (2) The small craft harbor or boating facility shall be designed, constructed,
12 developed, improved, and operated to meet, at a minimum, applicable certification
13 standards described in the Tier 1 standards of the California Green Building
14 Standards Code (Part 11 of Title 24 of the California Code of Regulations).

15 (d) During the term of any existing or new loan contract made pursuant to Section
16 71.4 or 76.3, or any existing or new contract or agreement pursuant to Section 70,
17 70.2, or 70.8, the department shall supervise and monitor compliance with this
18 section and the operation and maintenance of the harbor or facility to assure that the
19 planning, construction, development, or improvement fully complies with this
20 section and the contract or agreement terms and conditions.

21 (e) For the purposes of this chapter and Article 3 (commencing with Section 70)
22 of Chapter 2, a harbor or facility that is the subject of a contract or agreement as
23 described in subdivision (d), is under the jurisdiction of the department.

24 **Comment.** Subdivision (b) of Section 86 is amended to reflect the recodification of the former
25 Fish and Game Code.

26  **Note.** In the tentative recommendation, the provisions of the existing Fish and Game Code
27 sections that are cross-referenced in subdivision (b) of the section above have been continued in
28 several different sections of the proposed Fish and Wildlife Code.

29 **The Commission requests public comment on the proposed conforming revision of those**
30 **provisions in the section above.**

31 **Harb. & Nav. Code § 153 (amended).**

32 SEC. _____. Section 153 of the Harbors and Navigation Code is amended to read:

33 153. Any recovery or settlement of money damages, including, but not limited to,
34 civil penalties, arising out of any civil action filed and maintained by the Attorney
35 General in the enforcement of this chapter shall be deposited in the Fish and Wildlife
36 Pollution Cleanup and Abatement Account in the Fish and Game Preservation Fund
37 established pursuant to Section 12017 paragraph (3) of subdivision (b) of Section
38 67505 of the Fish and Game Wildlife Code.

39 **Comment.** Section 153 is amended to reflect the recodification of the former Fish and Game
40 Code. The section is also amended to update the name of the former Fish and Wildlife Pollution
41 Cleanup and Abatement Account in the Fish and Game Preservation Fund.

1 **Harb. & Nav. Code § 676 (amended).**

2 SEC. ____ . Section 676 of the Harbors and Navigation Code is amended to read:

3 676. (a) All moneys deposited in the Harbors and Watercraft Revolving Fund
4 pursuant to Section 675 shall be available, upon appropriation by the Legislature,
5 for the following purposes:

6 (1) For reasonable costs incurred by the department associated with determining
7 the prevention fee and adoption of regulations pursuant to Section 675, and with
8 administering the grants pursuant to subdivision (b).

9 (2)(A) For reasonable costs, not to exceed 15 percent of the remaining revenues
10 deposited into the fund, of the Department of Fish and Game Wildlife for
11 implementation of subparagraph (A) or (C) of paragraph (2) of, or paragraph (1) of,
12 subdivision (a) of Section 2301 or Section 2302 Section 49950, subdivision (a), (b),
13 or (d) of Section 49960, or Chapter 2 (commencing with Section 50100) of Title 2
14 of Part 11 of Division 11 of the Fish and Game Wildlife Code in those areas of the
15 state where a dreissenid mussel infestation prevention plan has not been
16 implemented.

17 (B) The amount specified in subparagraph (A) is in addition to moneys available
18 pursuant to subdivision (d) of Section 85.2.

19 (3) An amount not less than 85 percent of the remaining revenues deposited into
20 the fund shall be made available for grants to entities subject to subdivision (a) of
21 Section 2302 50105 of the Fish and Game Wildlife Code for the reasonable
22 regulatory costs incident to the implementation of a dreissenid mussel infestation
23 prevention plan implemented either before or after January 1, 2013, that is
24 consistent with the requirements of Section 2302 Chapter 2 (commencing with
25 Section 50100) of Title 2 of Part 11 of Division 11 of the Fish and Game Wildlife
26 Code.

27 (b) For the purposes of awarding grants pursuant to paragraph (3) of subdivision
28 (a), the department shall do all of the following:

29 (1) Give priority to dreissenid mussel infestation prevention plans that are
30 consistent with Section 2302 Chapter 2 (commencing with Section 50100) of Title
31 2 of Part 11 of Division 11 of the Fish and Game Wildlife Code and that also include
32 visual and manual inspection standards and other infestation prevention procedures
33 consistent with either the Department of Fish and Game's Wildlife's Invasive
34 Mussel Guidebook for Recreational Water Managers and Users, dated September
35 2010, or the Natural Resource Agency's Aquatic Invasive Species Management
36 Plan, dated January 2008, or subsequently adopted guidebooks and management
37 plans.

38 (2) Take into consideration the benefits of regional-scale dreissenid mussel
39 infestation prevention plans.

40 (3) Take into consideration the unique economic, ecological, and recreational
41 impacts to rural and urban reservoirs from dreissenid mussel infestation.

(c) For purposes of this article, reasonable regulatory costs include costs associated with the investigation and inspection of a conveyance for the presence of dreissenid mussels prior to contact with a reservoir, as defined in Section 6004.5 of the Water Code. None of the revenues collected pursuant to subdivision (a) of Section 675 shall be used for any purpose other than those explicitly authorized by this section.

(d) For the purposes of this section, conveyances include boats and other watercraft, and associated vehicles, containers, and trailers that may carry or contain adult or larval dreissenid mussels.

(e) As a condition of receiving grant funding pursuant to this section, an entity shall report to the department data, as deemed appropriate by the department, regarding dreissenid mussel prevention and inspection programs implemented with the funding.

Comment. Section 676 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update references to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

 **Note.** In the tentative recommendation, the provisions of the existing Fish and Game Code sections that are cross-referenced in the section above have been continued in several different sections of the proposed Fish and Wildlife Code.

The Commission requests public comment on the proposed conforming revision of those provisions in the section above.

HEALTH AND SAFETY CODE

Health & Safety Code § 11358 (amended).

SEC. _____. Section 11358 of the Health and Safety Code is amended to read:

11358. Each person who plants, cultivates, harvests, dries, or processes cannabis plants, or any part thereof, except as otherwise provided by law, shall be punished as follows:

(a) Each person under the age of 18 who plants, cultivates, harvests, dries, or processes any cannabis plants shall be punished in the same manner provided in paragraph (1) of subdivision (b) of Section 11357.

(b) Each person at least 18 years of age but less than 21 years of age who plants, cultivates, harvests, dries, or processes not more than six living cannabis plants shall be guilty of an infraction and a fine of not more than one hundred dollars (\$100).

(c) Each person 18 years of age or over who plants, cultivates, harvests, dries, or processes more than six living cannabis plants shall be punished by imprisonment in a county jail for a period of not more than six months or by a fine of not more than five hundred dollars (\$500), or by both that fine and imprisonment.

(d) Notwithstanding subdivision (c), a person 18 years of age or over who plants, cultivates, harvests, dries, or processes more than six living cannabis plants, or any part thereof, except as otherwise provided by law, may be punished by

1 imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code if any
2 of the following conditions exist:

3 (1) The person has one or more prior convictions for an offense specified in clause
4 (iv) of subparagraph (C) of paragraph (2) of subdivision (e) of Section 667 of the
5 Penal Code or for an offense requiring registration pursuant to subdivision (c) of
6 Section 290 of the Penal Code.

7 (2) The person has two or more prior convictions under subdivision (c).

8 (3) The offense resulted in any of the following:

9 (A) Violation of Section 1052 of the Water Code relating to illegal diversion of
10 water.

11 (B) Violation of Section 13260, 13264, 13272, or 13387 of the Water Code
12 relating to discharge of water.

13 (C) Violation of ~~Section 5650 or 5652~~ Section 66500 or 66525 of the Fish and
14 Game Wildlife Code relating to waters of the state.

15 (D) Violation of ~~Section 1602~~ Title 3 (commencing with Sections 69700) of Part
16 4 of Division 17 of the Fish and Game Wildlife Code relating to rivers, streams, and
17 lakes.

18 (E) Violation of Section 374.8 of the Penal Code relating to hazardous substances
19 or Section 25189.5, 25189.6, or 25189.7 of the Health and Safety Code relating to
20 hazardous waste.

21 (F) Violation of Section 2080 ~~62600~~ of the Fish and Game Wildlife Code relating
22 to endangered and threatened species or Section 3513 ~~29855~~ of the Fish and Game
23 Wildlife Code relating to the Migratory Bird Treaty Act, or Section 2000 ~~8000~~
24 of the Fish and Game Wildlife Code relating to the unlawful taking of fish and wildlife.

25 (G) Intentionally or with gross negligence causing substantial environmental
26 harm to public lands or other public resources.

27 **Comment.** Paragraph (3) of subdivision (d) of Section 11358 is amended to reflect the
28 recodification of the former Fish and Game Code.

29 **Notes.** (1) In the tentative recommendation, Fish and Game Code Section 1602 would be
30 continued in proposed Sections 69710, 69750, 69785, 70155, and 70165. The proposed cross-
31 reference revision above would refer to the title that contains all of those sections, rather than
32 referring to the five sections individually. That seems unproblematic, because the entire title relates
33 to the substance of Section 1602.

34 **The Commission requests public comment on whether that simplified reference would**
35 **cause any problems.**

36 (2) Health and Safety Code Section 11358 was amended in 2016 by an initiative statute,
37 Proposition 64. The Commission believes that the proposed technical revision of that section would
38 not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6,
39 and associated text.

40 **Health & Safety Code § 25150 (amended).**

41 SEC. _____. Section 25150 of the Health and Safety Code is amended to read:

1 25150. (a) The department shall adopt, and revise when appropriate, standards
2 and regulations for the management of hazardous wastes to protect against hazards
3 to the public health, to domestic livestock, to wildlife, or to the environment.

4 (b) The department and the local officers and agencies authorized to enforce this
5 chapter pursuant to subdivision (a) of Section 25180 shall apply the standards and
6 regulations adopted pursuant to subdivision (a) to the management of hazardous
7 waste.

8 (c) Except as provided in subdivision (d), the department may limit the application
9 of the standards and regulations adopted or revised pursuant to subdivision (a) at
10 facilities operating pursuant to a hazardous waste facilities permit or other grant of
11 authorization issued by the department in any manner that the department
12 determines to be appropriate, including, but not limited to, requiring these facilities
13 to apply for, and receive, a permit modification prior to the application of the
14 standards and regulations.

15 (d) The department shall not adopt or revise standards and regulations which
16 result in the imposition of any requirement for the management of a RCRA waste
17 that is less stringent than a corresponding requirement adopted by the
18 Environmental Protection Agency pursuant to the federal act.

19 (e) The department shall adopt, and revise when appropriate, regulations for the
20 recycling of hazardous waste to protect against hazards to the public health,
21 domestic livestock, wildlife, or to the environment, and to encourage the best use of
22 natural resources.

23 (f) Before the adoption of regulations, the department shall notify all agencies of
24 interested local governments, including, but not limited to, certified unified program
25 agencies, local governing bodies, local planning agencies, local health authorities,
26 local building inspection departments, the Department of Pesticide Regulation, the
27 Department of the California Highway Patrol, the Department of Fish and Game
28 Wildlife, the Department of Industrial Relations, the Division of Industrial Safety,
29 the State Air Resources Board, the State Water Resources Control Board, the State
30 Fire Marshal, regional water quality control boards, the State Building Standards
31 Commission, the Office of Environmental Health Hazard Assessment, and the
32 California Integrated Waste Management Board.

33 **Comment.** Section 25150 is amended to update a reference to the former Department of Fish
34 and Game. See Fish & Wildlife Code § 1500.

35 **Health & Safety Code § 25197.2 (amended).**

36 SEC. _____. Section 25197.2 of the Health and Safety Code is amended to read:
37 25197.2. (a) The department shall establish a statewide Hazardous Waste Strike
38 Force which shall consist of a representative from each of the following agencies:

- 39 (1) The Department of Transportation.
40 (2) The Department of Industrial Relations.
41 (3) The Department of Food and Agriculture.

- 1 (4) The State Water Resources Control Board.
- 2 (5) The State Air Resources Board.
- 3 (6) The Department of the California Highway Patrol.
- 4 (7) The Office of the State Fire Marshal in the Department of Forestry and Fire
- 5 Protection.
- 6 (8) The California Integrated Waste Management Board.
- 7 (9) The Department of Fish and Game Wildlife.
- 8 (10) The Office of Emergency Services.
- 9 (11) The Department of Toxic Substances Control.
- 10 (12) The Attorney General.
- 11 (13) The Department of Pesticide Regulation.
- 12 (b) The director, or the director's designee, shall direct and coordinate the
- 13 activities of the Hazardous Waste Strike Force.
- 14 (c) The Hazardous Waste Strike Force shall do all of the following:
- 15 (1) Recommend standardized programs among the agencies represented on the
- 16 Hazardous Waste Strike Force for the purposes of uniformly enforcing state
- 17 hazardous waste statutes and regulations and reporting violators of these statutes
- 18 and regulations.
- 19 (2) Recommend programs to publicize and improve the statewide telephone
- 20 number established pursuant to paragraph (5) of subdivision (b) of Section 25197.1.
- 21 (3) Recommend local and regional programs to report information concerning
- 22 violations of this chapter and any other hazardous waste statutes and regulations.
- 23 **Comment.** Section 25197.2 is amended to update a reference to the former Department of Fish
- 24 and Game. See Fish & Wildlife Code § 1500.

25 **Health & Safety Code § 25209.2 (amended).**

- 26 SEC. _____. Section 25209.2 of the Health and Safety Code is amended to read:
- 27 25209.2. The state board, in consultation, as necessary, with other appropriate
- 28 state agencies, shall adopt or amend emergency regulations that establish minimum
- 29 requirements for the design, construction, operation, and closure of a solar
- 30 evaporator. The regulations shall include, but are not limited to, requirements to
- 31 ensure all of the following:
- 32 (a) The operation of a solar evaporator does not result in a discharge of on-farm
- 33 agricultural drainage water outside the boundaries of the area of land that makes up
- 34 the solar evaporator.
- 35 (b)(1) The solar evaporator is designed, constructed, and operated so that, under
- 36 reasonably ~~foreseeable~~ foreseeable operating conditions, the discharge of agricultural
- 37 water to the solar evaporator does not result in standing water or drift of salt spray,
- 38 mist, or particles outside the boundaries of the solar evaporator to the extent that
- 39 drift constitutes a nuisance condition.

(2) Notwithstanding paragraph (1), a solar evaporator may be designed, constructed, and operated to accommodate standing water, if it includes a water catchment basin.

(3) The board may specify those conditions under which a solar evaporator is required to include a water catchment basin to prevent standing water that would otherwise occur within the solar evaporator.

(c) Avian wildlife is adequately protected. In adopting regulations pursuant to this subdivision, the state board shall do the following:

(1) Consider and, to the extent feasible, incorporate best management practices recommended or adopted by the United States Fish and Wildlife Service.

(2) Establish guidelines for the authorized inspection of a solar evaporator by the regional board pursuant to Section 25209.15. The guidelines shall include technical advice developed in consultation with the Department of Fish and ~~Game~~ Wildlife and the United States Fish and Wildlife Service that may be used by regional board personnel to identify observed conditions relating to the operation of a solar evaporator that indicate an unreasonable threat to avian wildlife.

(d) Constituents in agricultural drainage water discharged to the solar evaporator will not migrate from the solar evaporator into the vadose zone or the waters of the state in concentrations that pollute or threaten to pollute the waters of the state.

(e) Adequate groundwater monitoring and recordkeeping is performed to ensure compliance with this article.

(f) Salt isolated in a solar evaporator shall be managed in accordance with all applicable laws and shall eventually be harvested and sold for commercial purposes, used for beneficial purposes, or stored or disposed in a facility authorized to accept that waste pursuant to this chapter or Division 30 (commencing with Section 40000) of the Public Resources Code.

Comment. Section 25209.2 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500. The section is also amended to make a technical correction.

Health & Safety Code § 25261 (amended).

SEC. _____. Section 25261 of the Health and Safety Code is amended to read:

25261. (a) There is within the California Environmental Protection Agency a Site Designation Committee. The membership of the committee consists of the following six persons:

(1) Secretary for Environmental Protection.

(2) Director of Toxic Substances Control.

(3) Chairperson of the State Water Resources Control Board.

(4) Director of Fish and ~~Game~~ Wildlife.

(5) Director of the Office of Environmental Health Hazard Assessment.

(6) Chairperson of the State Air Resources Board.

(b) The committee shall carry out the functions described in Sections 25262, 25263, and 25265 and shall meet as necessary to ensure that those functions are

1 carried out in a timely manner. The decisions of the committee shall be subject to
2 the concurrence of four members. The committee shall choose a chairperson from
3 among its members. A committee member may designate an employee of the
4 member's agency to participate in committee meetings in the member's place.

5 **Comment.** Section 25261 is amended to update a reference to the Director of the former
6 Department of Fish and Game. See Fish & Wildlife Code § 1500.

7 **Health & Safety Code § 25262 (amended).**

8 SEC. _____. Section 25262 of the Health and Safety Code is amended to read:

9 25262. (a) A responsible party for a hazardous materials release site may request
10 the committee at any time to designate an administering agency to oversee a site
11 investigation and remedial action at the site. The committee shall designate an
12 administering agency as responsible for the site within 45 days of the date the
13 request is received. A request to designate an administering agency may be denied
14 only if the committee makes one of the following findings:

15 (1) No single agency in state or local government has the expertise needed to
16 adequately oversee a site investigation and remedial action at the site.

17 (2) Designating an administering agency will have the effect of reversing a
18 regulatory or enforcement action initiated by an agency that has jurisdiction over
19 the site, a facility on the site, or an activity at the site.

20 (3) Designating an administering agency will prevent a regulatory or enforcement
21 action required by federal law or regulations.

22 (4) The administering agency and the responsible party are local agencies formed,
23 in whole or in part, by the same political subdivision.

24 (b) A responsible party who requests the designation of an administering agency
25 for a hazardous materials release site shall provide the committee with a brief
26 description of the site, an analysis of the known or suspected nature of the release
27 or threatened release that is the subject of required site investigation or remedial
28 action, a description of the type of facility from which the release occurred or the
29 type of activity that caused the release, a specification of the regulatory or
30 enforcement actions that have been taken, or are pending, with respect to the release,
31 and a statement of which agency the responsible party believes should be designated
32 as administering agency for the site.

33 (c)(1) The committee shall take all of the following factors into account in
34 determining which agency to designate as administering agency for a site:

35 (A) The type of release that is the subject of site investigation and remedial action.

36 (B) The nature of the threat that the release poses to human health and safety or
37 to the environment.

38 (C) The source of the release, the type of facility or activity from which the release
39 occurred, the regulatory programs that govern the facility or activity involved, and
40 the agency or agencies that administer those regulatory programs.

41 (D) The regulatory history of the site, the types of regulatory actions or
42 enforcement actions that have been taken with respect to the site or the facility or

1 activity from which the release occurred, and the experience and involvement that
2 various agencies have had with the site.

3 (E) The capabilities and expertise of the agencies that are candidates for
4 designation as the administering agency for the site and the degree to which those
5 capabilities and that expertise are applicable to the type of release at the site, the
6 nature of the threat that the release poses to health and safety or the environment
7 and the probable remedial measures that will be required.

8 (2) After weighing the factors described in paragraph (1) as they apply to the site,
9 the committee shall use the criteria specified in subparagraphs (A), (B), (C), and (D)
10 as guidelines for designating the administering agency. If more than one of the
11 criteria apply to the site, the committee shall use its best judgment, taking into
12 account the known facts concerning the hazardous materials release at the site and
13 its regulatory history, in determining which agency may best serve as the
14 administering agency. The criteria are as follows:

15 (A) The administering agency shall be the Department of Toxic Substances
16 Control if one of the following applies:

17 (i) The department has issued an order, or otherwise initiated action, with respect
18 to the release at the site pursuant to Section 25355, 25355.5, or 25358.3.

19 (ii) The department has issued an order for corrective action at the site pursuant
20 to Section 25187.

21 (iii) The source of the release is a facility or hazardous waste management unit or
22 an activity that is, or was, regulated by the department pursuant to Chapter 6.5
23 (commencing with Section 25100).

24 (iv) The department is conducting, or has conducted, oversight of the site
25 investigation and remedial action at the site at the request of the responsible party.

26 (B) The administering agency shall be the California regional water quality
27 control board for the region in which the site is located, if one of the following
28 applies:

29 (i) The California regional water quality control board has issued a cease and
30 desist order pursuant to Section 13301, or a cleanup and abatement order pursuant
31 to Section 13304 of the Water Code in connection with the release at the site.

32 (ii) The source of the release is a facility or an activity that is subject to waste
33 discharge requirements issued by the California regional water quality control board
34 pursuant to Section 13263 of the Water Code or that is regulated by the California
35 regional water quality control board pursuant to Article 5.6 (commencing with
36 Section 25159.10) of, or Article 9.5 (commencing with Section 25208) of, Chapter
37 6.5, or pursuant to Chapter 6.67 (commencing with Section 25270).

38 (iii) The California regional water quality control board has jurisdiction over the
39 site pursuant to Chapter 5.6 (commencing with Section 13390) of Division 7 of the
40 Water Code.

41 (C) The administering agency shall be the Department of Fish and Game Wildlife
42 if the release has polluted or contaminated the waters of the state and the department

1 has taken action against the responsible party pursuant to Section ~~2014 or 12015~~ of,
2 or Article 1 (commencing with Section 5650) of Chapter 2 of Part 1 of Division 6
3 ~~4470 or 6500~~, Article 2 (commencing with Section 6320) of Chapter 3 of Title 17
4 of Part 4 of Division 3 of, Title 1 (commencing with Section 66500) of Part 3 of, or
5 Title 1 (commencing with Section 71000) of Part 5 of, Division 17 of, the Fish and
6 Game Wildlife Code, subsection (f) of Section 107 of the Comprehensive
7 Environmental Response, Compensation, and Liability Act, as amended, (42 U.S.C.
8 Sec. 9607 (f)), or Section 311 of the Federal Water Pollution Act, as amended (33
9 U.S.C. Sec. 1321).

10 (D) The administering agency shall be a local agency if any one of the following
11 circumstances is applicable:

12 (i) The source of the release at the site is an underground storage tank, as defined
13 in subdivision (y) of Section 25281, the local agency is the agency described in
14 subdivision (i) of Section 25281, and there is no evidence of any extensive
15 groundwater contamination at the site.

16 (ii) The local agency has accepted responsibility for overseeing the site
17 investigation or remedial action at the site and a state agency is not involved.

18 (iii) The local agency has agreed to oversee the site investigation or remedial
19 action at the site and is certified, or has been approved, by a state agency to conduct
20 that oversight.

21 (d) A responsible party for a hazardous materials release site may request the
22 designation of an administering agency for the site pursuant to this section only
23 once. The action of the committee on the request is a final action and is not subject
24 to further administrative or judicial review.

25 **Comment.** Subparagraph (C) of paragraph (2) of subdivision (c) of Section 25262 is amended
26 to reflect the recodification of the former Fish and Game Code. That subparagraph is also amended
27 to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

28 **Health & Safety Code § 25395.66 (amended).**

29 SEC. _____. Section 25395.66 of the Health and Safety Code is amended to read:

30 25395.66. “Applicable law” means all of the provisions of the following state
31 statutory and common laws that impose liability on an owner or occupant of
32 property for pollution conditions caused by a release or threatened release of
33 hazardous material on, under, or adjacent to the property:

34 (a) Title 1 (commencing with Section 3479) of, Title 2 (commencing with Section
35 3490) of, and Title 3 (commencing with Section 3501) of, Part 3 of Division 4 of
36 the Civil Code.

37 (b) Chapter 2 (commencing with Section 731) of Title 10 of Part 2 of the Code of
38 Civil Procedure, but not including Section 736 of the Code of Civil Procedure.

39 ~~(c) Section 5650 Article 1 (commencing with Section 66500 of Chapter 1 of Title~~
40 1 of Part 3 of Division 17 of the Fish and Game Wildlife Code.

(d) Chapter 6.7 (commencing with Section 25280), Chapter 6.75 (commencing with Section 25299.10), and Chapter 6.8 (commencing with Section 25300), of this division.

(e) Chapter 1 (commencing with Section 13000) to Chapter 5 (commencing with Section 13300), inclusive, of Division 7 of the Water Code.

(f) State common law regarding contribution, nuisance, trespass, and equitable indemnity.

Comment. Section 25395.66 is amended to reflect the recodification of the former Fish and Game Code.

Health & Safety Code § 41861 (amended).

SEC. _____. Section 41861 of the Health and Safety Code is amended to read:

41861. No burning shall be conducted for the improvement of land for wildlife or game habitat until the person desiring to conduct such burning obtains from the Department of Fish and Game Wildlife a written statement certifying that the burning is desirable and proper for the improvement of land for wildlife or game habitat and such statement is filed with the air pollution control officer having jurisdiction in the area in which the burning is to take place. As to burning conducted by the Department of Fish and Game Wildlife, the department shall, on its own behalf, issue and file such statements.

Comment. Section 41861 is amended to update references to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Health & Safety Code § 110795 (amended).

SEC. _____. Section 110795 of the Health and Safety Code is amended to read:

110795. (a) The department may adopt regulations that name and describe the characteristics of salmon and any other fish or other seafood it considers appropriate. The department shall consult with the Department of Fish and Game Wildlife, the Joint Committee on Fisheries and Aquaculture, consumers, commercial fishermen, aquaculturists, and seafood processors, wholesalers, restaurateurs, and other retailers before adopting these regulations. The department shall not adopt any regulation that conflicts with the common name of any fish designated by the Department of Fish and Game pursuant to former Section 8023 of the Fish and Game Code.

(b) In addition to the consultations required by subdivision (a), the department shall consult and seek the recommendations of the groups named in that subdivision concerning the possible need for, or desirability of, any further legislation or regulations affecting seafood labeling.

(c) No regulation adopted pursuant to this section shall deviate from a pertinent United States standard where the fish or seafood product specified is packed or processed as a standardized product under a United States standard.

(d) Nothing in this section or in regulations adopted pursuant to this section shall be construed to require the use of more than the common family name of any fish or seafood by any restaurant in menus or advertisements.

Comment. Section 110795 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

 **Note.** Fish and Game Code Section 8023, which is cross-referenced in the section above, was repealed in 1986. See 1986 Cal. Stat. ch. 1049, § 18. The former section concerned landing receipts. Its last paragraph read: “The names used in the receipt for designating the species of the fish dealt with shall be those in common usage, and may be designated by the department.” That rule seems to provide the department with authority to designate the common names of different species of fish.

Existing Section 8045 provides a similar, but different rule: “The names used in the landing receipt and transportation receipt made under Sections 8043 and 8047 for designating the species of fish dealt with shall be those in common usage unless otherwise designated by the department.” The “unless otherwise designated” language suggests that the department has authority to designate names *other than* common names.

The revision of Health and Safety Code Section 11079 proposed above takes a conservative approach, strictly construing the existing language as a reference to former Section 8023. However, that may not be the best way to preserve the spirit of the provision. It might be better to substitute a reference to Section 8045.

The Commission requests public comment on how best to revise the reference to Section 8023.

Health & Safety Code § 111067 (amended).

SEC. _____. Section 111067 of the Health and Safety Code is amended to read:

111067. (a) Any city, county, or city and county may adopt an ordinance that provides for the regulation of the disposition of bullfrogs and turtles imported for sale in live animal markets for use as food. The ordinances may provide for all of the following:

- (1) The designation of a local agency to carry out this article.
- (2) Require a permit, issued by an agency designated by the city, county, or city and county to issue permits, for the sale of bullfrogs and turtles imported for sale in live animal markets for use as food.
- (3) Establish a fee for the permit in an amount determined sufficient to offset the administrative cost of issuing the permit and enforcing the provisions of the ordinance.
- (4) Require that animals sold pursuant to the permit be dispatched at the time of sale.
- (5) Require that signs be posted at the permittee’s place of business, stating that animals must be properly dispatched and that release into the wild in a live state is unlawful.
- (6) Authorize the local agency, after notice and opportunity for a hearing, to suspend or revoke a permit issued pursuant to paragraph (1) for violation of any provision of the ordinance adopted pursuant to this article.

(b) The State Department of Health Services and the Department of Fish and Game Wildlife may consult with a city, county, or city and county for purposes related to this article.

Comment. Section 111067 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Health & Safety Code § 112160 (amended).

SEC. _____. Section 112160 of the Health and Safety Code is amended to read:

112160. (a) The director may declare any area within the jurisdiction of this state to be a closed area if it is determined that shellfish taken from the growing area may be unsafe or unfit for human consumption.

(b) The director shall close to the taking of shellfish for a period deemed advisable any waters to which shellfish from a closed area may have been transferred.

(c) The director shall establish by order the areas that he or she declares unsafe or unfit for shellfish harvesting and shall modify or revoke the order in accordance with the results of chemical, toxicologic, and bacteriological surveys conducted by the department. The director shall file the order in the office of the department, and shall furnish copies of the orders describing closed areas to the Department of Fish and Game Wildlife, the State Water Resources Control Board, and to any interested person without charge.

(d) Prior to the director's declaration that shellfish-growing waters may be unsafe and shellfish grown in these waters may not be taken for human consumption, the department shall do all of the following:

(1) Give at least 20 days' notice of its intended action. The notice shall include a statement of either the terms or substance of the intended action or a description of the subject and issues involved, and the time when, the place where, and the manner in which, interested persons may present their views thereon.

(2) Afford all interested persons reasonable opportunity to submit data, views, or arguments orally or in writing. The department shall consider fully all written and oral submissions respecting the proposed action.

(e) If the department finds that the shellfish harvested from an area is unsafe or unfit for human consumption and states in writing its reasons for that finding, it may proceed without prior notice or hearing to take emergency action. The action may be effective for a period of not longer than 30 days, during which time the department shall initiate the procedures contained in subdivision (d).

Comment. Section 112160 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Health & Safety Code § 112175 (amended).

SEC. _____. Section 112175 of the Health and Safety Code is amended to read:

112175. It is unlawful for any person to engage in commercial shellfish cultivation or the harvesting for human consumption of shellfish from naturally occurring populations, except as provided for in Sections 5670, 7850, 8500, and 15101 14500.

1 14615, 23600, 23605, 23610, 23700, 45010, and 45505 of the Fish and Game
2 Wildlife Code and in regulations adopted by the department pursuant to this chapter,
3 with regard to growing areas, relaying and depuration procedures, and aquaculture
4 facilities.

5 **Comment.** Section 112175 is amended to reflect the recodification of the former Fish and Game
6 Code.

7 **Health & Safety Code § 112185 (amended).**

8 SEC. _____. Section 112185 of the Health and Safety Code is amended to read:

9 112185. (a) It is unlawful for any person to take, sell, offer, or hold for sale any
10 shellfish from an area declared by the director to be unsuitable for harvesting for
11 human consumption, without complying with all regulations adopted by the
12 department to ensure that the shellfish have been purified.

13 (b) The intent of this section is not to prohibit the transplanting of shellfish from
14 restricted or prohibited growing areas, if permission for the transplanting is first
15 obtained from the Department of Fish and Game Wildlife pursuant to Section 237
16 of Title 14 of the California Code of Regulations.

17 **Comment.** Section 112185 is amended to update a reference to the former Department of Fish
18 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
19 designations.

20 **Health & Safety Code § 114031 (amended).**

21 SEC. _____. Section 114031 of the Health and Safety Code is amended to read:

22 114031. (a) Game animals shall be received from an approved source.

23 (b) A game animal shall not be received for sale or service if it is a species of
24 wildlife that is listed in 50 C.F.R. 17 Endangered and Threatened Wildlife and
25 Plants or is listed as an endangered or threatened animal by the Department of Fish
26 and Game Wildlife.

27 (c) The enforcement agency may approve the use of legally obtained donated fish
28 and game by nonprofit organizations authorized to serve meals to indigent persons.

29 (1) “Fish,” as used in this subdivision, shall be defined as that term is used in
30 Section 45 335 of the Fish and Game Wildlife Code.

31 (2) “Game,” as used in this subdivision, means any game bird, as defined in
32 Section 3500 410 or 490 of the Fish and Game Wildlife Code, or game mammal, as
33 defined in Section 3950 375 of the Fish and Game Wildlife Code.

34 **Comment.** Section 114031 is amended to reflect the recodification of the former Fish and Game
35 Code. The section is also amended to update a reference to the former Department of Fish and
36 Game. See Fish & Wildlife Code § 1500.

37 **Health & Safety Code § 114775 (amended).**

38 SEC. _____. Section 114775 of the Health and Safety Code is amended to read:

1 114775. The department, utilizing available funds and in cooperation with the
2 Department of Fish and Game Wildlife and the Joint Committee on Fisheries and
3 Aquaculture, shall do all of the following:

4 (a) Cooperate with any federal agency that conducts monitoring of marine life or
5 ocean waters, or both, at the sites of radioactive waste dumping off the California
6 coast to determine the effects of the dumping.

7 (b) Purchase and test samples of seafood taken in the vicinity of the Farallon
8 Islands radioactive waste dump site to determine whether the seafood contains
9 radioactivity beyond natural and artificial background levels.

10 (c) Make annual reports to the Legislature on the implementation of this section,
11 including any recommendations for legislation it deems necessary to protect the
12 health of Californians.

13 (d) Take emergency action pursuant to the general authority contained in the
14 Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section
15 109875)) to prohibit the commercial sale of seafood for human consumption if, in
16 the judgment of the director, samples analyzed pursuant to subdivision (b), are
17 found to contain radioactivity that poses a threat to human health.

18 **Comment.** Section 114775 is amended to update a reference to the former Department of Fish
19 and Game. See Fish & Wildlife Code § 1500.

20 **Health & Safety Code § 114780 (amended).**

21 SEC. _____. Section 114780 of the Health and Safety Code is amended to read:

22 114780. (a) The Legislature finds and declares that the dumping of radioactive
23 waste, including the scuttling of radioactive nuclear submarines, into the Pacific
24 Ocean, could adversely affect the California coastal zone.

25 (b) The California Coastal Commission, in cooperation when appropriate with the
26 department, the Department of Justice, the Department of Fish and Game Wildlife,
27 and the Joint Committee on Fisheries and Aquaculture, shall use any means
28 available to the commission, pursuant to law, to prevent any dumping of radioactive
29 waste in the Pacific Ocean by any public or private entity, unless the commission
30 finds that the dumping would be consistent with the goals and policies of Division
31 20 (commencing with Section 30000) of the Public Resources Code.

32 **Comment.** Section 114780 is amended to update a reference to the former Department of Fish
33 and Game. See Fish & Wildlife Code § 1500.

34 **Health & Safety Code § 121870 (amended).**

35 SEC. _____. Section 121870 of the Health and Safety Code is amended to read:

36 121870. This chapter, or any regulations adopted pursuant thereto, shall not
37 authorize the importation, transportation, or possession of any live wild animals
38 enumerated in ~~Chapter 2 (commencing with Section 2116) of Division 3~~ Section
39 5280 or 5282, or Title 1 (commencing with Section 26500) or Title 2 (commencing
40 with Section 26600) of Part 6 of Division 7, of the Fish and Game Wildlife Code or
41 the regulations of the Fish and Game Commission adopted pursuant thereto, except

as provided in ~~Chapter 2 (commencing with Section 2116) of Division 3 Title 1 (commencing with Section 26500) or Title 2 (commencing with Section 26600) of Part 6 of Division 7~~ of the Fish and Game Wildlife Code.

Comment. Section 121870 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** The revisions proposed above would continue all of the referenced provisions, with one exception. The enforcement rules in existing Fish and Game Code Sections 2118.4, 2128, and 2125 are not included in the revised cross-reference. Those provisions do not seem germane to the references.

The Commission requests public comment on whether that approach would cause any problems.

Health & Safety Code § 131052 (amended).

SEC. _____. Section 131052 of the Health and Safety Code is amended to read:

131052. In implementing the transfer of jurisdiction pursuant to this article, the State Department of Public Health succeeds to and is vested with all the statutory duties, powers, purposes, responsibilities, and jurisdiction of the former State Department of Health Services as they relate to public health as provided for or referred to in all of the following provisions of law:

(1) Sections 550, 555, 650, 680, 1241, 1658, 2221.1, 2248.5, 2249, 2259, 2259.5, 2541.3, 2585, 2728, 3527, 4017, 4027, 4037, 4191, 19059.5, 19120, 22950, 22973.2, and 22974.8 of the Business and Professions Code.

(2) Sections 56.17, 1812.508, and 1812.543 of the Civil Code.

(3) Sections 8286, 8803, 17613, 32064, 32065, 32066, 32241, 49030, 49405, 49414, 49423.5, 49452.6, 49460, 49464, 49565, 49565.8, 49531.1, 56836.165, and 76403 of the Education Code.

(4) Sections 405, 6021, 6026, 18963, 30852, 41302, and 78486 of the Food and Agricultural Code.

(5) Sections 307, 355, 422, 7572, 7574, 8706, 8817, and 8909 of the Family Code.

(6) Sections 1786, 4011, 5523, 5671, 5674, 5700, 5701, 5701.5, 7115, and 15700 11500, 13805, 24800, 31700, 45450, 45455, 45460, 45500, 45515, and 65970 of the Fish and Game Wildlife Code.

(7) Sections 855, 51010, and 551017.1 of the Government Code. For purposes of subdivision (s) of Section 6254 of the Government Code, the term “State Department of Health Services” is hereby deemed to refer to the State Department of Public Health.

(8)(A) Sections 475, 1180.6, 1418.1, 1422.1, 1428.2, 1457, 1505, 1507.1, 1507.5, 1570.7, 1599.2, 1599.60, 1599.75, 1599.87, 2002, 2804, 11362.7, 11776, 11839.21, 11839.23, 11839.24, 11839.25, 11839.26, 11839.27, 11839.28, 11839.29, 11839.30, 11839.31, 11839.32, 11839.33, 11839.34, 17920.10, 17961, 18897.2, 24185, 24186, 24187, 24275, 26101, 26122, 26134, 26155, 26200, and 26203.

(B) Chapters 1, 2, 2.05, 2.3, 2.35, 2.4, 3.3, 3.9, 3.93, 3.95, 4, 4.1, 4.5, 5, 6, 6.5, 8, 8.3, 8.5, 8.6, 9, and 11 of Division 2.

1 (C) Articles 2 and 4 of Chapter 2, Chapter 3, and Chapter 4 of Part 1, Part 2 and
2 Part 3 of Division 101.

3 (D) Division 102, including Sections 102230 and 102231.

4 (E) Division 103, including Sections 104145, 104181, 104182, 104182.5, 104187,
5 104191, 104192, 104193, 104316, 104317, 104318, 104319, 104320, 104321,
6 104324.2, 104324.25, 104350, 105191, 105251, 105255, 105280, 105340, and
7 105430.

8 (F) Division 104, including Sections 106615, 106675, 106770, 108115, 108855,
9 109282, 109910, 109915, 112155, 112500, 112650, 113355, 114460, 114475,
10 114650, 114710, 114850, 114855, 114985, 115061, 115261, 115340, 115736,
11 115880, 115885, 115915, 116064, 116183, 116270, 116365.5, 116366, 116375,
12 116610, 116751, 116760.20, 116825, 117100, 117924, and 119300.

13 (G) Division 105, including Sections 120262, 120381, 120395, 120440, 120480,
14 120956, 120966, 121155, 121285, 121340, 121349.1, 121480, 122410, and 122420.

15 (H) Part 1, Part 2 excluding Articles 5, 5.5, 6, and 6.5 of Chapter 3, Part 3 and
16 Part 5 excluding Articles 1 and 2 of Chapter 2, Part 7, and Part 8 of Division 106.

17 (9) Sections 799.03, 10123.35, 10123.5, 10123.55, 10123.10, 10123.184, and
18 11520 of the Insurance Code.

19 (10) Sections 50.8, 142.3, 144.5, 144.7, 147.2, 4600.6, 6307.1, 6359, 6712, 9009,
20 and 9022 of the Labor Code.

21 (11) Sections 4018.1, 5008.1, 7501, 7502, 7510, 7511, 7515, 7518, 7530, 7550,
22 7553, 7575, 7576, 11010, 11174.34, and 13990 of the Penal Code.

23 (12) Section 4806 of the Probate Code.

24 (13) Sections 15027, 25912, 28004, 30950, 41781.1, 42830, 43210, 43308,
25 44103, and 71081 of the Public Resources Code.

26 (14) Section 10405 of the Public Contract Code.

27 (15) Sections 883, 1507, and 7718 of the Public Utilities Code.

28 (16) Sections 18833, 18838, 18845.2, 18846.2, 18847.2, 18863, 30461.6,
29 43010.1, and 43011.1 of the Revenue and Taxation Code.

30 (17) Section 11020 of the Unemployment Insurance Code.

31 (18) Sections 22511.55, 23158, 27366, and 33000 of the Vehicle Code.

32 (19) Sections 5326.9, 5328, 5328.15, 14132, 16902, and 16909, and Division 24
33 of the Welfare and Institutions Code. Payment for services provided under the
34 Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program
35 pursuant to subdivision (aa) of Section 14132 and Division 24 shall be made through
36 the State Department of Health Care Services. The State Department of Public
37 Health and the State Department of Health Care Services may enter into an
38 interagency agreement for the administration of those payments. This paragraph, to
39 the extent that it applies to the Family PACT Waiver Program, shall become
40 inoperative on June 30, 2012.

41 (20) Sections 13176, 13177.5, 13178, 13193, 13390, 13392, 13392.5, 13393.5,
42 13395.5, 13396.7, 13521, 13522, 13523, 13528, 13529, 13529.2, 13550, 13552.4,

1 13552.8, 13553, 13553.1, 13554, 13554.2, 13816, 13819, 13820, 13823, 13824,
2 13825, 13827, 13830, 13834, 13835, 13836, 13837, 13858, 13861, 13862, 13864,
3 13868, 13868.1, 13868.3, 13868.5, 13882, 13885, 13886, 13887, 13891, 13892,
4 13895.1, 13895.6, 13895.9, 13896, 13896.3, 13896.4, 13896.5, 13897, 13897.4,
5 13897.5, 13897.6, 13898, 14011, 14012, 14015, 14016, 14017, 14019, 14022,
6 14025, 14026, 14027, and 14029 of the Water Code.

7 **Comment.** Section 131052(6) is amended to reflect the recodification of the former Fish and
8 Game Code.

9 LABOR CODE

10 **Labor Code § 226 (amended).**

11 SEC. _____. Section 226 of the Labor Code is amended to read:

12 226. (a) An employer, semimonthly or at the time of each payment of wages, shall
13 furnish to his or her employee, either as a detachable part of the check, draft, or
14 voucher paying the employee's wages, or separately if wages are paid by personal
15 check or cash, an accurate itemized statement in writing showing (1) gross wages
16 earned, (2) total hours worked by the employee, except as provided in subdivision
17 (j), (3) the number of piece-rate units earned and any applicable piece rate if the
18 employee is paid on a piece-rate basis, (4) all deductions, provided that all
19 deductions made on written orders of the employee may be aggregated and shown
20 as one item, (5) net wages earned, (6) the inclusive dates of the period for which the
21 employee is paid, (7) the name of the employee and only the last four digits of his
22 or her social security number or an employee identification number other than a
23 social security number, (8) the name and address of the legal entity that is the
24 employer and, if the employer is a farm labor contractor, as defined in subdivision
25 (b) of Section 1682, the name and address of the legal entity that secured the services
26 of the employer, and (9) all applicable hourly rates in effect during the pay period
27 and the corresponding number of hours worked at each hourly rate by the employee
28 and, beginning July 1, 2013, if the employer is a temporary services employer as
29 defined in Section 201.3, the rate of pay and the total hours worked for each
30 temporary services assignment. The deductions made from payment of wages shall
31 be recorded in ink or other indelible form, properly dated, showing the month, day,
32 and year, and a copy of the statement and the record of the deductions shall be kept
33 on file by the employer for at least three years at the place of employment or at a
34 central location within the State of California. For purposes of this subdivision,
35 "copy" includes a duplicate of the itemized statement provided to an employee or a
36 computer-generated record that accurately shows all of the information required by
37 this subdivision.

38 (b) An employer that is required by this code or any regulation adopted pursuant
39 to this code to keep the information required by subdivision (a) shall afford current
40 and former employees the right to inspect or receive a copy of records pertaining to

1 their employment, upon reasonable request to the employer. The employer may take
2 reasonable steps to ensure the identity of a current or former employee. If the
3 employer provides copies of the records, the actual cost of reproduction may be
4 charged to the current or former employee.

5 (c) An employer who receives a written or oral request to inspect or receive a copy
6 of records pursuant to subdivision (b) pertaining to a current or former employee
7 shall comply with the request as soon as practicable, but no later than 21 calendar
8 days from the date of the request. A violation of this subdivision is an infraction.
9 Impossibility of performance, not caused by or a result of a violation of law, shall
10 be an affirmative defense for an employer in any action alleging a violation of this
11 subdivision. An employer may designate the person to whom a request under this
12 subdivision will be made.

13 (d) This section does not apply to any employer of a person employed by the
14 owner or occupant of a residential dwelling whose duties are incidental to the
15 ownership, maintenance, or use of the dwelling, including the care and supervision
16 of children, or whose duties are personal and not in the course of the trade, business,
17 profession, or occupation of the owner or occupant.

18 (e) (1) An employee suffering injury as a result of a knowing and intentional
19 failure by an employer to comply with subdivision (a) is entitled to recover the
20 greater of all actual damages or fifty dollars (\$50) for the initial pay period in which
21 a violation occurs and one hundred dollars (\$100) per employee for each violation
22 in a subsequent pay period, not to exceed an aggregate penalty of four thousand
23 dollars (\$4,000), and is entitled to an award of costs and reasonable attorney's fees.

24 (2) (A) An employee is deemed to suffer injury for purposes of this subdivision if
25 the employer fails to provide a wage statement.

26 (B) An employee is deemed to suffer injury for purposes of this subdivision if the
27 employer fails to provide accurate and complete information as required by any one
28 or more of items (1) to (9), inclusive, of subdivision (a) and the employee cannot
29 promptly and easily determine from the wage statement alone one or more of the
30 following:

31 (i) The amount of the gross wages or net wages paid to the employee during the
32 pay period or any of the other information required to be provided on the itemized
33 wage statement pursuant to items (2) to (4), inclusive, (6), and (9) of subdivision
34 (a).

35 (ii) Which deductions the employer made from gross wages to determine the net
36 wages paid to the employee during the pay period. Nothing in this subdivision alters
37 the ability of the employer to aggregate deductions consistent with the requirements
38 of item (4) of subdivision (a).

39 (iii) The name and address of the employer and, if the employer is a farm labor
40 contractor, as defined in subdivision (b) of Section 1682, the name and address of
41 the legal entity that secured the services of the employer during the pay period.

1 (iv) The name of the employee and only the last four digits of his or her social
2 security number or an employee identification number other than a social security
3 number.

4 (C) For purposes of this paragraph, “promptly and easily determine” means a
5 reasonable person would be able to readily ascertain the information without
6 reference to other documents or information.

7 (3) For purposes of this subdivision, a “knowing and intentional failure” does not
8 include an isolated and unintentional payroll error due to a clerical or inadvertent
9 mistake. In reviewing for compliance with this section, the factfinder may consider
10 as a relevant factor whether the employer, prior to an alleged violation, has adopted
11 and is in compliance with a set of policies, procedures, and practices that fully
12 comply with this section.

13 (f) A failure by an employer to permit a current or former employee to inspect or
14 receive a copy of records within the time set forth in subdivision (c) entitles the
15 current or former employee or the Labor Commissioner to recover a seven-hundred-
16 fifty-dollar (\$750) penalty from the employer.

17 (g) The listing by an employer of the name and address of the legal entity that
18 secured the services of the employer in the itemized statement required by
19 subdivision (a) shall not create any liability on the part of that legal entity.

20 (h) An employee may also bring an action for injunctive relief to ensure
21 compliance with this section, and is entitled to an award of costs and reasonable
22 attorney’s fees.

23 (i) This section does not apply to the state, to any city, county, city and county,
24 district, or to any other governmental entity, except that if the state or a city, county,
25 city and county, district, or other governmental entity furnishes its employees with
26 a check, draft, or voucher paying the employee’s wages, the state or a city, county,
27 city and county, district, or other governmental entity shall use no more than the last
28 four digits of the employee’s social security number or shall use an employee
29 identification number other than the social security number on the itemized
30 statement provided with the check, draft, or voucher.

31 (j) An itemized wage statement furnished by an employer pursuant to subdivision
32 (a) shall not be required to show total hours worked by the employee if any of the
33 following apply:

34 (1) The employee’s compensation is solely based on salary and the employee is
35 exempt from payment of overtime under subdivision (a) of Section 515 or any
36 applicable order of the Industrial Welfare Commission.

37 (2) The employee is exempt from the payment of minimum wage and overtime
38 under any of the following:

39 (A) The exemption for persons employed in an executive, administrative, or
40 professional capacity provided in any applicable order of the Industrial Welfare
41 Commission.

1 (B) The exemption for outside salespersons provided in any applicable order of
2 the Industrial Welfare Commission.

3 (C) The overtime exemption for computer software professionals paid on a
4 salaried basis provided in Section 515.5.

5 (D) The exemption for individuals who are the parent, spouse, child, or legally
6 adopted child of the employer provided in any applicable order of the Industrial
7 Welfare Commission.

8 (E) The exemption for participants, director, and staff of a live-in alternative to
9 incarceration rehabilitation program with special focus on substance abusers
10 provided in Section 8002 of the Penal Code.

11 (F) The exemption for any crew member employed on a commercial passenger
12 fishing boat licensed pursuant to ~~Article 5 (commencing with Section 7920) of~~
13 ~~Chapter 1 of Part 3 of Division 6~~ Section 21905 of the Fish and Game Wildlife Code
14 provided in any applicable order of the Industrial Welfare Commission.

15 (G) The exemption for any individual participating in a national service program
16 provided in any applicable order of the Industrial Welfare Commission.

17 **Comment.** Subparagraph (F) of paragraph (2) of subdivision (j) of Section 226 is amended to
18 reflect the recodification of the former Fish and Game Code.

19 **Labor Code § 3212 (amended).**

20 SEC. _____. Section 3212 of the Labor Code is amended to read:

21 3212. In the case of members of a sheriff's office or the California Highway
22 Patrol, district attorney's staff of inspectors and investigators or of police or fire
23 departments of cities, counties, cities and counties, districts or other public or
24 municipal corporations or political subdivisions, whether those members are
25 volunteer, partly paid, or fully paid, and in the case of active firefighting members
26 of the Department of Forestry and Fire Protection whose duties require firefighting
27 or of any county forestry or firefighting department or unit, whether voluntary, fully
28 paid, or partly paid, and in the case of members of the warden service of the Wildlife
29 Protection Branch of the Department of Fish and Game Wildlife whose principal
30 duties consist of active law enforcement service, excepting those whose principal
31 duties are clerical or otherwise do not clearly fall within the scope of active law
32 enforcement service such as stenographers, telephone operators, and other
33 ~~officeworkers~~ office workers, the term "injury" as used in this act includes hernia
34 when any part of the hernia develops or manifests itself during a period while the
35 member is in the service in the office, staff, division, department, or unit, and in the
36 case of members of fire departments, except those whose principal duties are
37 clerical, such as stenographers, telephone operators, and other ~~officeworkers~~ office
38 workers, and in the case of county forestry or firefighting departments, except those
39 whose principal duties are clerical, such as stenographers, telephone operators, and
40 other office workers, and in the case of active firefighting members of the
41 Department of Forestry and Fire Protection whose duties require firefighting, and

1 in the case of members of the warden service of the Wildlife Protection Branch of
2 the Department of Fish and Game Wildlife whose principal duties consist of active
3 law enforcement service, excepting those whose principal duties are clerical or
4 otherwise do not clearly fall within the scope of active law enforcement service such
5 as stenographers, telephone operators, and other ~~officeworkers~~ office workers, the
6 term “injury” includes pneumonia and heart trouble that develops or manifests itself
7 during a period while the member is in the service of the office, staff, department,
8 or unit. In the case of regular salaried county or city and county peace officers, the
9 term “injury” also includes any hernia that manifests itself or develops during a
10 period while the officer is in the service. The compensation that is awarded for the
11 hernia, heart trouble, or pneumonia shall include full hospital, surgical, medical
12 treatment, disability indemnity, and death benefits, as provided by the workers’
13 compensation laws of this state.

14 The hernia, heart trouble, or pneumonia so developing or manifesting itself in
15 those cases shall be presumed to arise out of and in the course of the employment.
16 This presumption is disputable and may be controverted by other evidence, but
17 unless so controverted, the appeals board is bound to find in accordance with it. The
18 presumption shall be extended to a member following termination of service for a
19 period of three calendar months for each full year of the requisite service, but not to
20 exceed 60 months in any circumstance, commencing with the last date actually
21 worked in the specified capacity.

22 The hernia, heart trouble, or pneumonia so developing or manifesting itself in
23 those cases shall in no case be attributed to any disease existing prior to that
24 development or manifestation.

25 **Comment.** Section 3212 is amended to update references to the former Department of Fish and
26 Game. See Fish & Wildlife Code § 1500. The section is also amended to make technical
27 corrections.

28 **Labor Code § 3363 (amended).**

29 SEC. _____. Section 3363 of the Labor Code is amended to read:

30 3363. Each member registered with the Department of Fish and Game Wildlife as
31 an active member of the reserve fish and game warden program of the department
32 is an employee of the department for the purposes of this division, and is entitled to
33 receive compensation from the department in accordance with the provisions
34 thereof.

35 **Comment.** Section 3363 is amended to update a cross-reference to the former Department of
36 Fish and Game. See Fish & Wildlife Code § 1500.

37 **Labor Code § 6302 (amended).**

38 SEC. _____. Section 6302 of the Labor Code is amended to read:

39 6302. As used in this division:

40 (a) “Director” means the Director of Industrial Relations.

41 (b) “Department” means the Department of Industrial Relations.

(c) “Insurer” includes the State Compensation Insurance Fund and any private company, corporation, mutual association, and reciprocal or interinsurance exchange, authorized under the laws of this state to insure employers against liability for compensation under this part and under Division 4 (commencing with Section 3201), and any employer to whom a certificate of consent to self-insure has been issued.

(d) “Division” means the Division of Occupational Safety and Health.

(e) “Standards board” means the Occupational Safety and Health Standards Board, within the department.

(f) “Appeals board” means the Occupational Safety and Health Appeals Board, within the department.

(g) “Aquaculture” means a form of agriculture as defined in Section 17 225 of the Fish and ~~Game~~ Wildlife Code.

(h) “Serious injury or illness” means any injury or illness occurring in a place of employment or in connection with any employment which requires inpatient hospitalization for a period in excess of 24 hours for other than medical observation or in which an employee suffers a loss of any member of the body or suffers any serious degree of permanent disfigurement, but does not include any injury or illness or death caused by the commission of a Penal Code violation, except the violation of Section 385 of the Penal Code, or an accident on a public street or highway.

(i) “Serious exposure” means any exposure of an employee to a hazardous substance when the exposure occurs as a result of an incident, accident, emergency, or exposure over time and is in a degree or amount sufficient to create a substantial probability that death or serious physical harm in the future could result from the exposure.

Comment. Section 6302 is amended to reflect the recodification of the former Fish and Game Code.

MILITARY AND VETERANS CODE

Mil. & Vet. Code § 88 (amended).

SEC. _____. Section 88 of the Military and Veterans Code is amended to read:

88. (a) Notwithstanding other provisions of law, including, but not limited to, Section 1 of Chapter 648 of the Statutes of 1992, as amended, the Department of Veterans Affairs shall enter into an agreement with the Department of Fish and ~~Game~~ Wildlife that grants to the Department of Fish and ~~Game~~ Wildlife for a period of 99 years, exclusive authority over management and control of approximately 340 acres of land being portions of Sections 19, 28, 29, and 30 of Township 7 North, Range 4 West, Mount Diablo Base and Meridian, in the vicinity of the Rector Reservoir, Napa County, to be utilized by the Department of Fish and ~~Game~~ Wildlife exclusively for open space or conservation purposes. The agreement may

1 be terminated only upon the mutual agreement of the Department of Veterans
2 Affairs and the Department of Fish and Game Wildlife.

3 (b) If the agreement described in subdivision (a) is not entered into by December
4 31, 1997, exclusive authority over the management and control of the property
5 described in subdivision (a) is hereby granted to the Department of Fish and Game
6 Wildlife, effective January 1, 1998.

7 (c) Upon the effective date of the agreement entered into pursuant to subdivision
8 (a) or upon the operation of subdivision (b), the provisions of Section 1 of Chapter
9 648 of the Statutes of 1992, as amended, authorizing the property described in
10 subdivision (a) as surplus property are repealed.

11 **Comment.** Section 88 is amended to update references to the former Department of Fish and
12 Game. See Fish & Wildlife Code § 1500.

13 PENAL CODE

14 Penal Code § 409.5 (amended).

15 SEC. ____ . Section 409.5 of the Penal Code is amended to read:

16 409.5. (a) Whenever a menace to the public health or safety is created by a
17 calamity including a flood, storm, fire, earthquake, explosion, accident, or other
18 disaster, officers of the Department of the California Highway Patrol, police
19 departments, marshal's office or sheriff's office, any officer or employee of the
20 Department of Forestry and Fire Protection designated a peace officer by
21 subdivision (g) of Section 830.2, any officer or employee of the Department of Parks
22 and Recreation designated a peace officer by subdivision (f) of Section 830.2, any
23 officer or employee of the Department of Fish and Game Wildlife designated a
24 peace officer under subdivision (e) of Section 830.2, and any publicly employed
25 full-time lifeguard or publicly employed full-time marine safety officer while acting
26 in a supervisory position in the performance of his or her official duties, may close
27 the area where the menace exists for the duration thereof by means of ropes,
28 markers, or guards to any and all persons not authorized by the lifeguard or officer
29 to enter or remain within the enclosed area. If the calamity creates an immediate
30 menace to the public health, the local health officer may close the area where the
31 menace exists pursuant to the conditions set forth in this section.

32 (b) Officers of the Department of the California Highway Patrol, police
33 departments, marshal's office or sheriff's office, officers of the Department of Fish
34 and Game Wildlife designated as peace officers by subdivision (e) of Section 830.2,
35 or officers of the Department of Forestry and Fire Protection designated as peace
36 officers by subdivision (g) of Section 830.2 may close the immediate area
37 surrounding any emergency field command post or any other command post
38 activated for the purpose of abating any calamity enumerated in this section or any
39 riot or other civil disturbance to any and all unauthorized persons pursuant to the

1 conditions set forth in this section whether or not the field command post or other
2 command post is located near to the actual calamity or riot or other civil disturbance.

3 (c) Any unauthorized person who willfully and knowingly enters an area closed
4 pursuant to subdivision (a) or (b) and who willfully remains within the area after
5 receiving notice to evacuate or leave shall be guilty of a misdemeanor.

6 (d) Nothing in this section shall prevent a duly authorized representative of any
7 news service, newspaper, or radio or television station or network from entering the
8 areas closed pursuant to this section.

9 **Comment.** Section 409.5 is amended to update references to the former Department of Fish and
10 Game. See Fish & Wildlife Code § 1500.

11 **Penal Code § 597 (amended).**

12 SEC. _____. Section 597 of the Penal Code is amended to read:

13 597. (a) Except as provided in subdivision (c) of this section or Section 599c,
14 every person who maliciously and intentionally maims, mutilates, tortures, or
15 wounds a living animal, or maliciously and intentionally kills an animal, is guilty of
16 a crime punishable pursuant to subdivision (d).

17 (b) Except as otherwise provided in subdivision (a) or (c), every person who
18 overdrives, overloads, drives when overloaded, overworks, tortures, torments,
19 deprives of necessary sustenance, drink, or shelter, cruelly beats, mutilates, or
20 cruelly kills any animal, or causes or procures any animal to be so overdriven,
21 overloaded, driven when overloaded, overworked, tortured, tormented, deprived of
22 necessary sustenance, drink, shelter, or to be cruelly beaten, mutilated, or cruelly
23 killed; and whoever, having the charge or custody of any animal, either as owner or
24 otherwise, subjects any animal to needless suffering, or inflicts unnecessary cruelty
25 upon the animal, or in any manner abuses any animal, or fails to provide the animal
26 with proper food, drink, or shelter or protection from the weather, or who drives,
27 rides, or otherwise uses the animal when unfit for labor, is, for each offense, guilty
28 of a crime punishable pursuant to subdivision (d).

29 (c) Every person who maliciously and intentionally maims, mutilates, or tortures
30 any mammal, bird, reptile, amphibian, or fish, as described in subdivision (e), is
31 guilty of a crime punishable pursuant to subdivision (d).

32 (d) A violation of subdivision (a), (b), or (c) is punishable as a felony by
33 imprisonment pursuant to subdivision (h) of Section 1170, or by a fine of not more
34 than twenty thousand dollars (\$20,000), or by both that fine and imprisonment, or
35 alternatively, as a misdemeanor by imprisonment in a county jail for not more than
36 one year, or by a fine of not more than twenty thousand dollars (\$20,000), or by
37 both that fine and imprisonment.

38 (e) Subdivision (c) applies to any mammal, bird, reptile, amphibian, or fish ~~which~~
39 that is a creature described as follows:

1 (1) Endangered species or threatened species as described in Chapter 1.5
2 (~~commencing with Section 2050~~) of Division 3 Part 1 (~~commencing with Section~~
3 62000) of Division 17 of the Fish and Game Wildlife Code.

4 (2) Fully protected birds described in Section 3511 345 of the Fish and Game
5 Wildlife Code.

6 (3) Fully protected mammals described in Chapter 8 (~~commencing with Section~~
7 4700) of Part 3 of Division 4 Section 355 of the Fish and Game Wildlife Code.

8 (4) Fully protected reptiles and amphibians described in Chapter 2 (~~commencing~~
9 ~~with Section 5050~~) of Division 5 Sections 340 and 360 of the Fish and Game
10 Wildlife Code.

11 (5) Fully protected fish as described in Section 5515 350 of the Fish and Game
12 Wildlife Code.

13 This subdivision does not supersede or affect any provisions of law relating to
14 taking of the described species, including, but not limited to, ~~Section 12008~~ Sections
15 5320, 5400, 5600, 5950, and 6202 of the Fish and Game Wildlife Code.

16 (f) For the purposes of subdivision (c), each act of malicious and intentional
17 maiming, mutilating, or torturing a separate specimen of a creature described in
18 subdivision (e) is a separate offense. If any person is charged with a violation of
19 subdivision (c), the proceedings shall be subject to Section 12157 4570 of the Fish
20 and Game Wildlife Code.

21 (g)(1) Upon the conviction of a person charged with a violation of this section by
22 causing or permitting an act of cruelty, as defined in Section 599b, all animals
23 lawfully seized and impounded with respect to the violation by a peace officer,
24 officer of a humane society, or officer of a pound or animal regulation department
25 of a public agency shall be adjudged by the court to be forfeited and shall thereupon
26 be awarded to the impounding officer for proper disposition. A person convicted of
27 a violation of this section by causing or permitting an act of cruelty, as defined in
28 Section 599b, shall be liable to the impounding officer for all costs of impoundment
29 from the time of seizure to the time of proper disposition.

30 (2) Mandatory seizure or impoundment shall not apply to animals in properly
31 conducted scientific experiments or investigations performed under the authority of
32 the faculty of a regularly incorporated medical college or university of this state.

33 (h) Notwithstanding any other provision of law, if a defendant is granted probation
34 for a conviction under this section, the court shall order the defendant to pay for,
35 and successfully complete, counseling, as determined by the court, designed to
36 evaluate and treat behavior or conduct disorders. If the court finds that the defendant
37 is financially unable to pay for that counseling, the court may develop a sliding fee
38 schedule based upon the defendant's ability to pay. An indigent defendant may
39 negotiate a deferred payment schedule, but shall pay a nominal fee if the defendant
40 has the ability to pay the nominal fee. County mental health departments or Medi-
41 Cal shall be responsible for the costs of counseling required by this section only for
42 those persons who meet the medical necessity criteria for mental health managed

1 care pursuant to Section 1830.205 of Title 9 of the California Code of Regulations
2 or the targeted population criteria specified in Section 5600.3 of the Welfare and
3 Institutions Code. The counseling specified in this subdivision shall be in addition
4 to any other terms and conditions of probation, including any term of imprisonment
5 and any fine. This provision specifies a mandatory additional term of probation and
6 is not to be utilized as an alternative in lieu of imprisonment pursuant to subdivision
7 (h) of Section 1170 or county jail when that sentence is otherwise appropriate. If the
8 court does not order custody as a condition of probation for a conviction under this
9 section, the court shall specify on the court record the reason or reasons for not
10 ordering custody. This subdivision shall not apply to cases involving police dogs or
11 horses as described in Section 600.

12 **Comment.** Subdivisions (e) and (f) of Section 597 are amended to reflect the recodification of
13 the former Fish and Game Code.

14 **Penal Code § 597.5 (amended).**

15 SEC. _____. Section 597.5 of the Penal Code is amended to read:

16 597.5. (a) Any person who does any of the following is guilty of a felony and is
17 punishable by imprisonment pursuant to subdivision (h) of Section 1170 for 16
18 months, or two or three years, or by a fine not to exceed fifty thousand dollars
19 (\$50,000), or by both that fine and imprisonment:

20 (1) Owns, possesses, keeps, or trains any dog, with the intent that the dog shall be
21 engaged in an exhibition of fighting with another dog.

22 (2) For amusement or gain, causes any dog to fight with another dog, or causes
23 any dogs to injure each other.

24 (3) Permits any act in violation of paragraph (1) or (2) to be done on any premises
25 under his or her charge or control, or aids or abets that act.

26 (b) Any person who is knowingly present, as a spectator, at any place, building,
27 or tenement where preparations are being made for an exhibition of the fighting of
28 dogs, with the intent to be present at those preparations, or is knowingly present at
29 that exhibition or at any other fighting or injuring as described in paragraph (2) of
30 subdivision (a), with the intent to be present at that exhibition, fighting, or injuring,
31 is guilty of an offense punishable by imprisonment in a county jail not to exceed
32 one year, or by a fine not to exceed five thousand dollars (\$5,000), or by both that
33 imprisonment and fine.

34 (c) Nothing in this section shall prohibit any of the following:

35 (1) The use of dogs in the management of livestock, as defined by Section 14205
36 of the Food and Agricultural Code, by the owner of the livestock or his or her
37 employees or agents or other persons in lawful custody thereof.

38 (2) The use of dogs in hunting as permitted by the Fish and Game Wildlife Code,
39 including, but not limited to, Sections 4002 and 4756 Section 32150, and by the
40 rules and regulations of the Fish and Game Commission.

1 **Comment.** Section 597.5 is amended to reflect the recodification of the former Fish and Game
2 Code. A cross-reference to former Fish and Game Code Section 4756 is not continued. That section
3 was repealed in 2012. See 2012 Cal. Stat. ch. 595.

4 **Penal Code § 597s (amended).**

5 SEC. _____. Section 597s of the Penal Code is amended to read:

6 597s. (a) Every person who willfully abandons any animal is guilty of a
7 misdemeanor.

8 (b) This section shall not apply to the release or rehabilitation and release of native
9 California wildlife pursuant to statute or regulations of the California Department
10 of Fish and Game Wildlife.

11 **Comment.** Section 597s is amended to update a reference to the former Department of Fish and
12 Game. See Fish & Wildlife Code § 1500.

13 **Penal Code § 626.9 (amended).**

14 SEC. _____. Section 626.9 of the Penal Code is amended to read:

15 626.9. (a) This section shall be known, and may be cited, as the Gun-Free School
16 Zone Act of 1995.

17 (b) Any person who possesses a firearm in a place that the person knows, or
18 reasonably should know, is a school zone, as defined in paragraph (4) of subdivision
19 (e), shall be punished as specified in subdivision (f).

20 (c) Subdivision (b) does not apply to the possession of a firearm under any of the
21 following circumstances:

22 (1) Within a place of residence or place of business or on private property, if the
23 place of residence, place of business, or private property is not part of the school
24 grounds and the possession of the firearm is otherwise lawful.

25 (2) When the firearm is an unloaded pistol, revolver, or other firearm capable of
26 being concealed on the person and is in a locked container or within the locked trunk
27 of a motor vehicle.

28 This section does not prohibit or limit the otherwise lawful transportation of any
29 other firearm, other than a pistol, revolver, or other firearm capable of being
30 concealed on the person, in accordance with state law.

31 (3) When the person possessing the firearm reasonably believes that he or she is
32 in grave danger because of circumstances forming the basis of a current restraining
33 order issued by a court against another person or persons who has or have been
34 found to pose a threat to his or her life or safety. This subdivision does not apply
35 when the circumstances involve a mutual restraining order issued pursuant to
36 Division 10 (commencing with Section 6200) of the Family Code absent a factual
37 finding of a specific threat to the person's life or safety. Upon a trial for violating
38 subdivision (b), the trier of a fact shall determine whether the defendant was acting
39 out of a reasonable belief that he or she was in grave danger.

40 (4) When the person is exempt from the prohibition against carrying a concealed
41 firearm pursuant to Section 25615, 25625, 25630, or 25645.

1 (5) When the person holds a valid license to carry the firearm pursuant to Chapter
2 4 (commencing with Section 26150) of Division 5 of Title 4 of Part 6, who is
3 carrying that firearm in an area that is not in, or on the grounds of, a public or private
4 school providing instruction in kindergarten or grades 1 to 12, inclusive, but within
5 a distance of 1,000 feet from the grounds of the public or private school.

6 (d) Except as provided in subdivision (b), it shall be unlawful for any person, with
7 reckless disregard for the safety of another, to discharge, or attempt to discharge, a
8 firearm in a school zone, as defined in paragraph (4) of subdivision (e).

9 The prohibition contained in this subdivision does not apply to the discharge of a
10 firearm to the extent that the conditions of paragraph (1) of subdivision (c) are
11 satisfied.

12 (e) As used in this section, the following definitions shall apply:

13 (1) "Concealed firearm" has the same meaning as that term is given in Sections
14 25400 and 25610.

15 (2) "Firearm" has the same meaning as that term is given in subdivisions (a) to
16 (d), inclusive, of Section 16520.

17 (3) "Locked container" has the same meaning as that term is given in Section
18 16850.

19 (4) "School zone" means an area in, or on the grounds of, a public or private
20 school providing instruction in kindergarten or grades 1 to 12, inclusive, or within
21 a distance of 1,000 feet from the grounds of the public or private school.

22 (f)(1) A person who violates subdivision (b) by possessing a firearm in, or on the
23 grounds of, a public or private school providing instruction in kindergarten or grades
24 1 to 12, inclusive, shall be punished by imprisonment pursuant to subdivision (h) of
25 Section 1170 for two, three, or five years.

26 (2) A person who violates subdivision (b) by possessing a firearm within a
27 distance of 1,000 feet from the grounds of a public or private school providing
28 instruction in kindergarten or grades 1 to 12, inclusive, shall be punished as follows:

29 (A) By imprisonment pursuant to subdivision (h) of Section 1170 for two, three,
30 or five years, if any of the following circumstances apply:

31 (i) If the person previously has been convicted of any felony, or of any crime made
32 punishable by any provision listed in Section 16580.

33 (ii) If the person is within a class of persons prohibited from possessing or
34 acquiring a firearm pursuant to Chapter 2 (commencing with Section 29800) or
35 Chapter 3 (commencing with Section 29900) of Division 9 of Title 4 of Part 6 of
36 this code or Section 8100 or 8103 of the Welfare and Institutions Code.

37 (iii) If the firearm is any pistol, revolver, or other firearm capable of being
38 concealed upon the person and the offense is punished as a felony pursuant to
39 Section 25400.

40 (B) By imprisonment in a county jail for not more than one year or by
41 imprisonment pursuant to subdivision (h) of Section 1170 for two, three, or five
42 years, in all cases other than those specified in subparagraph (A).

1 (3) A person who violates subdivision (d) shall be punished by imprisonment
2 pursuant to subdivision (h) of Section 1170 for three, five, or seven years.

3 (g)(1) A person convicted under this section for a misdemeanor violation of
4 subdivision (b) who has been convicted previously of a misdemeanor offense
5 enumerated in Section 23515 shall be punished by imprisonment in a county jail for
6 not less than three months, or if probation is granted or if the execution or imposition
7 of sentence is suspended, it shall be a condition thereof that he or she be imprisoned
8 in a county jail for not less than three months.

9 (2) A person convicted under this section of a felony violation of subdivision (b)
10 or (d) who has been convicted previously of a misdemeanor offense enumerated in
11 Section 23515, if probation is granted or if the execution of sentence is suspended,
12 it shall be a condition thereof that he or she be imprisoned in a county jail for not
13 less than three months.

14 (3) A person convicted under this section for a felony violation of subdivision (b)
15 or (d) who has been convicted previously of any felony, or of any crime made
16 punishable by any provision listed in Section 16580, if probation is granted or if the
17 execution or imposition of sentence is suspended, it shall be a condition thereof that
18 he or she be imprisoned in a county jail for not less than three months.

19 (4) The court shall apply the three-month minimum sentence specified in this
20 subdivision, except in unusual cases where the interests of justice would best be
21 served by granting probation or suspending the execution or imposition of sentence
22 without the minimum imprisonment required in this subdivision or by granting
23 probation or suspending the execution or imposition of sentence with conditions
24 other than those set forth in this subdivision, in which case the court shall specify
25 on the record and shall enter on the minutes the circumstances indicating that the
26 interests of justice would best be served by this disposition.

27 (h) Notwithstanding Section 25605, any person who brings or possesses a loaded
28 firearm upon the grounds of a campus of, or buildings owned or operated for student
29 housing, teaching, research, or administration by, a public or private university or
30 college, that are contiguous or are clearly marked university property, unless it is
31 with the written permission of the university or college president, his or her
32 designee, or equivalent university or college authority, shall be punished by
33 imprisonment pursuant to subdivision (h) of Section 1170 for two, three, or four
34 years. Notwithstanding subdivision (k), a university or college shall post a
35 prominent notice at primary entrances on noncontiguous property stating that
36 firearms are prohibited on that property pursuant to this subdivision.

37 (i) Notwithstanding Section 25605, any person who brings or possesses a firearm
38 upon the grounds of a campus of, or buildings owned or operated for student
39 housing, teaching, research, or administration by, a public or private university or
40 college, that are contiguous or are clearly marked university property, unless it is
41 with the written permission of the university or college president, his or her
42 designee, or equivalent university or college authority, shall be punished by

1 imprisonment pursuant to subdivision (h) of Section 1170 for one, two, or three
2 years. Notwithstanding subdivision (k), a university or college shall post a
3 prominent notice at primary entrances on noncontiguous property stating that
4 firearms are prohibited on that property pursuant to this subdivision.

5 (j) For purposes of this section, a firearm shall be deemed to be loaded when there
6 is an unexpended cartridge or shell, consisting of a case that holds a charge of
7 powder and a bullet or shot, in, or attached in any manner to, the firearm, including,
8 but not limited to, in the firing chamber, magazine, or clip thereof attached to the
9 firearm. A muzzle-loader firearm shall be deemed to be loaded when it is capped or
10 primed and has a powder charge and ball or shot in the barrel or cylinder.

11 (k) This section does not require that notice be posted regarding the proscribed
12 conduct.

13 (l) This section does not apply to a duly appointed peace officer as defined in
14 Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2, a full-time paid
15 peace officer of another state or the federal government who is carrying out official
16 duties while in California, any person summoned by any of these officers to assist
17 in making arrests or preserving the peace while he or she is actually engaged in
18 assisting the officer, a member of the military forces of this state or of the United
19 States who is engaged in the performance of his or her duties, or an armored vehicle
20 guard, engaged in the performance of his or her duties, as defined in subdivision (d)
21 of Section 7582.1 of the Business and Professions Code.

22 (m) This section does not apply to a security guard authorized to carry a loaded
23 firearm pursuant to Article 4 (commencing with Section 26000) of Chapter 3 of
24 Division 5 of Title 4 of Part 6.

25 (n) This section does not apply to an existing shooting range at a public or private
26 school or university or college campus.

27 (o) This section does not apply to an honorably retired peace officer authorized to
28 carry a concealed or loaded firearm pursuant to any of the following:

29 (1) Article 2 (commencing with Section 25450) of Chapter 2 of Division 5 of Title
30 4 of Part 6.

31 (2) Section 25650.

32 (3) Sections 25900 to 25910, inclusive.

33 (4) Section 26020.

34 (5) Paragraph (2) of subdivision (c) of Section 26300.

35 (p) This section does not apply to a peace officer appointed pursuant to Section
36 830.6 who is authorized to carry a firearm by the appointing agency.

37 (q)(1) This section does not apply to the activities of a program involving shooting
38 sports or activities, including, but not limited to, trap shooting, skeet shooting,
39 sporting clays, and pistol shooting, that are sanctioned by a school, school district,
40 college, university, or other governing body of the institution, that occur on the
41 grounds of a public or private school or university or college campus.

(2) This section does not apply to the activities of a state-certified hunter education program pursuant to Section 3051-10405 of the Fish and Game Wildlife Code if all firearms are unloaded and participants do not possess live ammunition in a school building.

Comment. Paragraph (2) of subdivision (q) of Section 626.9 is amended to reflect the recodification of the former Fish and Game Code.

Penal Code § 638.52 (amended).

SEC. _____. Section 638.52 of the Penal Code is amended to read:

638.52. (a) A peace officer may make an application to a magistrate for an order or an extension of an order authorizing or approving the installation and use of a pen register or a trap and trace device. The application shall be in writing under oath or equivalent affirmation, and shall include the identity of the peace officer making the application and the identity of the law enforcement agency conducting the investigation. The applicant shall certify that the information likely to be obtained is relevant to an ongoing criminal investigation and shall include a statement of the offense to which the information likely to be obtained by the pen register or trap and trace device relates.

(b) The magistrate shall enter an ex parte order authorizing the installation and use of a pen register or a trap and trace device if he or she finds that the information likely to be obtained by the installation and use of a pen register or a trap and trace device is relevant to an ongoing investigation and that there is probable cause to believe that the pen register or trap and trace device will lead to any of the following:

(1) Recovery of stolen or embezzled property.

(2) Property or things used as the means of committing a felony.

(3) Property or things in the possession of a person with the intent to use them as a means of committing a public offense, or in the possession of another to whom he or she may have delivered them for the purpose of concealing them or preventing them from being discovered.

(4) Evidence that tends to show a felony has been committed, or tends to show that a particular person has committed or is committing a felony.

(5) Evidence that tends to show that sexual exploitation of a child, in violation of Section 311.3, or possession of matter depicting sexual conduct of a person under 18 years of age, in violation of Section 311.11, has occurred or is occurring.

(6) The location of a person who is unlawfully restrained or reasonably believed to be a witness in a criminal investigation or for whose arrest there is probable cause.

(7) Evidence that tends to show a violation of Section 3700.5 of the Labor Code, or tends to show that a particular person has violated Section 3700.5 of the Labor Code.

(8) Evidence that does any of the following:

1 (A) Tends to show that a felony, a misdemeanor violation of the Fish and Game
2 Wildlife Code, or a misdemeanor violation of the Public Resources Code, has been
3 committed or is being committed.

4 (B) Tends to show that a particular person has committed or is committing a
5 felony, a misdemeanor violation of the Fish and Game Wildlife Code, or a
6 misdemeanor violation of the Public Resources Code.

7 (C) Will assist in locating an individual who has committed or is committing a
8 felony, a misdemeanor violation of the Fish and Game Wildlife Code, or a
9 misdemeanor violation of the Public Resources Code.

10 (c) Information acquired solely pursuant to the authority for a pen register or a
11 trap and trace device shall not include any information that may disclose the
12 physical location of the subscriber, except to the extent that the location may be
13 determined from the telephone number. Upon the request of the person seeking the
14 pen register or trap and trace device, the magistrate may seal portions of the
15 application pursuant to *People v. Hobbs* (1994) 7 Cal.4th 948, and Sections 1040,
16 1041, and 1042 of the Evidence Code.

17 (d) An order issued pursuant to subdivision (b) shall specify all of the following:

18 (1) The identity, if known, of the person to whom is leased or in whose name is
19 listed the telephone line to which the pen register or trap and trace device is to be
20 attached.

21 (2) The identity, if known, of the person who is the subject of the criminal
22 investigation.

23 (3) The number and, if known, physical location of the telephone line to which
24 the pen register or trap and trace device is to be attached and, in the case of a trap
25 and trace device, the geographic limits of the trap and trace order.

26 (4) A statement of the offense to which the information likely to be obtained by
27 the pen register or trap and trace device relates.

28 (5) The order shall direct, if the applicant has requested, the furnishing of
29 information, facilities, and technical assistance necessary to accomplish the
30 installation of the pen register or trap and trace device.

31 (e) An order issued under this section shall authorize the installation and use of a
32 pen register or a trap and trace device for a period not to exceed 60 days.

33 (f) Extensions of the original order may be granted upon a new application for an
34 order under subdivisions (a) and (b) if the officer shows that there is a continued
35 probable cause that the information or items sought under this subdivision are likely
36 to be obtained under the extension. The period of an extension shall not exceed 60
37 days.

38 (g) An order or extension order authorizing or approving the installation and use
39 of a pen register or a trap and trace device shall direct that the order be sealed until
40 the order, including any extensions, expires, and that the person owning or leasing
41 the line to which the pen register or trap and trace device is attached not disclose the

1 existence of the pen register or trap and trace device or the existence of the
2 investigation to the listed subscriber or to any other person.

3 (h) Upon the presentation of an order, entered under ~~subdivisions~~ subdivision (b)
4 or (f), by a peace officer authorized to install and use a pen register, a provider of
5 wire or electronic communication service, landlord, custodian, or other person shall
6 immediately provide the peace officer all information, facilities, and technical
7 assistance necessary to accomplish the installation of the pen register unobtrusively
8 and with a minimum of interference with the services provided to the party with
9 respect to whom the installation and use is to take place, if the assistance is directed
10 by the order.

11 (i) Upon the request of a peace officer authorized to receive the results of a trap
12 and trace device, a provider of a wire or electronic communication service, landlord,
13 custodian, or other person shall immediately install the device on the appropriate
14 line and provide the peace officer all information, facilities, and technical assistance,
15 including installation and operation of the device unobtrusively and with a minimum
16 of interference with the services provided to the party with respect to whom the
17 installation and use is to take place, if the installation and assistance is directed by
18 the order.

19 (j) A provider of a wire or electronic communication service, landlord, custodian,
20 or other person who provides facilities or technical assistance pursuant to this
21 section shall be reasonably compensated by the requesting peace officer's law
22 enforcement agency for the reasonable expenses incurred in providing the facilities
23 and assistance.

24 (k) Unless otherwise ordered by the magistrate, the results of the pen register or
25 trap and trace device shall be provided to the peace officer at reasonable intervals
26 during regular business hours for the duration of the order.

27 (l) The magistrate, before issuing the order pursuant to subdivision (b), may
28 examine on oath the person seeking the pen register or the trap and trace device, and
29 any witnesses the person may produce, and shall take his or her affidavit or their
30 affidavits in writing, and cause the affidavit or affidavits to be subscribed by the
31 parties making them.

32 **Comment.** Paragraph (8) of subdivision (b) of Section 638.52 is amended to reflect the
33 recodification of the former Fish and Game Code. Subdivision (h) is also amended to make a
34 technical correction.

35 **Penal Code § 830.2 (amended).**

36 SEC. _____. Section 830.2 of the Penal Code is amended to read:

37 830.2. The following persons are peace officers whose authority extends to any
38 place in the state:

39 (a) Any member of the Department of the California Highway Patrol including
40 those members designated under subdivision (a) of Section 2250.1 of the Vehicle
41 Code, provided that the primary duty of the peace officer is the enforcement of any
42 law relating to the use or operation of vehicles upon the highways, or laws pertaining

1 to the provision of police services for the protection of state officers, state properties,
2 and the occupants of state properties, or both, as set forth in the Vehicle Code and
3 Government Code.

4 (b) A member of the University of California Police Department appointed
5 pursuant to Section 92600 of the Education Code, provided that the primary duty of
6 the peace officer shall be the enforcement of the law within the area specified in
7 Section 92600 of the Education Code.

8 (c) A member of the California State University Police Departments appointed
9 pursuant to Section 89560 of the Education Code, provided that the primary duty of
10 the peace officer shall be the enforcement of the law within the area specified in
11 Section 89560 of the Education Code.

12 (d)(1) Any member of the Office of Correctional Safety of the Department of
13 Corrections and Rehabilitation, provided that the primary duties of the peace officer
14 shall be the investigation or apprehension of inmates, wards, parolees, parole
15 violators, or escapees from state institutions, the transportation of those persons, the
16 investigation of any violation of criminal law discovered while performing the usual
17 and authorized duties of employment, and the coordination of those activities with
18 other criminal justice agencies.

19 (2) Any member of the Office of Internal Affairs of the Department of Corrections
20 and Rehabilitation, provided that the primary duties shall be criminal investigations
21 of Department of Corrections and Rehabilitation personnel and the coordination of
22 those activities with other criminal justice agencies. For purposes of this
23 subdivision, the member of the Office of Internal Affairs shall possess certification
24 from the Commission on Peace Officer Standards and Training for investigators, or
25 have completed training pursuant to Section 6126.1 of the Penal Code.

26 (e) Employees of the Department of Fish and Game Wildlife designated by the
27 director, provided that the primary duty of those peace officers shall be the
28 enforcement of the law as set forth in Section 856 4100 of the Fish and Game
29 Wildlife Code.

30 (f) Employees of the Department of Parks and Recreation designated by the
31 director pursuant to Section 5008 of the Public Resources Code, provided that the
32 primary duty of the peace officer shall be the enforcement of the law as set forth in
33 Section 5008 of the Public Resources Code.

34 (g) The Director of Forestry and Fire Protection and employees or classes of
35 employees of the Department of Forestry and Fire Protection designated by the
36 director pursuant to Section 4156 of the Public Resources Code, provided that the
37 primary duty of the peace officer shall be the enforcement of the law as that duty is
38 set forth in Section 4156 of the Public Resources Code.

39 (h) Persons employed by the Department of Alcoholic Beverage Control for the
40 enforcement of Division 9 (commencing with Section 23000) of the Business and
41 Professions Code and designated by the Director of Alcoholic Beverage Control,
42 provided that the primary duty of any of these peace officers shall be the

1 enforcement of the laws relating to alcoholic beverages, as that duty is set forth in
2 Section 25755 of the Business and Professions Code.

3 (i) Marshals and police appointed by the Board of Directors of the California
4 Exposition and State Fair pursuant to Section 3332 of the Food and Agricultural
5 Code, provided that the primary duty of the peace officers shall be the enforcement
6 of the law as prescribed in that section.

7 **Comment.** Subdivision (e) of Section 830.2 is amended to reflect the recodification of the former
8 Fish and Game Code. That subdivision is also amended to update a reference to the former
9 Department of Fish and Game. See Fish & Wildlife Code § 1500.

10 **Penal Code § 830.6 (amended).**

11 SEC. _____. Section 830.6 of the Penal Code is amended to read:

12 830.6. (a)(1) Whenever any qualified person is deputized or appointed by the
13 proper authority as a reserve or auxiliary sheriff or city police officer, a reserve
14 deputy sheriff, a reserve deputy marshal, a reserve police officer of a regional park
15 district or of a transit district, a reserve park ranger, a reserve harbor or port police
16 officer of a county, city, or district as specified in Section 663.5 of the Harbors and
17 Navigation Code, a reserve deputy of the Department of Fish and ~~Game~~ Wildlife, a
18 reserve special agent of the Department of Justice, a reserve officer of a community
19 service district which is authorized under subdivision (h) of Section 61600 of the
20 Government Code to maintain a police department or other police protection, a
21 reserve officer of a school district police department under Section 35021.5 of the
22 Education Code, a reserve officer of a community college police department under
23 Section 72330, a reserve officer of a police protection district formed under Part 1
24 (commencing with Section 20000) of Division 14 of the Health and Safety Code, or
25 a reserve housing authority patrol officer employed by a housing authority defined
26 in subdivision (d) of Section 830.31, and is assigned specific police functions by
27 that authority, the person is a peace officer, if the person qualifies as set forth in
28 Section 832.6. The authority of a person designated as a peace officer pursuant to
29 this paragraph extends only for the duration of the person's specific assignment. A
30 reserve park ranger or a transit, harbor, or port district reserve officer may carry
31 firearms only if authorized by, and under those terms and conditions as are specified
32 by, his or her employing agency.

33 (2) Whenever any qualified person is deputized or appointed by the proper
34 authority as a reserve or auxiliary sheriff or city police officer, a reserve deputy
35 sheriff, a reserve deputy marshal, a reserve park ranger, a reserve police officer of a
36 regional park district, transit district, community college district, or school district,
37 a reserve harbor or port police officer of a county, city, or district as specified in
38 Section 663.5 of the Harbors and Navigation Code, a reserve officer of a community
39 service district that is authorized under subdivision (h) of Section 61600 of the
40 Government Code to maintain a police department or other police protection, or a
41 reserve officer of a police protection district formed under Part 1 (commencing with
42 Section 20000) of Division 14 of the Health and Safety Code, and is so designated

1 by local ordinance or, if the local agency is not authorized to act by ordinance, by
2 resolution, either individually or by class, and is assigned to the prevention and
3 detection of crime and the general enforcement of the laws of this state by that
4 authority, the person is a peace officer, if the person qualifies as set forth in
5 paragraph (1) of subdivision (a) of Section 832.6. The authority of a person
6 designated as a peace officer pursuant to this paragraph includes the full powers and
7 duties of a peace officer as provided by Section 830.1. A transit, harbor, or port
8 district reserve police officer, or a city or county reserve peace officer who is not
9 provided with the powers and duties authorized by Section 830.1, has the powers
10 and duties authorized in Section 830.33, or in the case of a reserve park ranger, the
11 powers and duties that are authorized in Section 830.31, or in the case of a reserve
12 housing authority patrol officer, the powers and duties that are authorized in
13 subdivision (d) of Section 830.31, and a school district reserve police officer or a
14 community college district reserve police officer has the powers and duties
15 authorized in Section 830.32.

16 (b) Whenever any person designated by a Native American tribe recognized by
17 the United States Secretary of the Interior is deputized or appointed by the county
18 sheriff as a reserve or auxiliary sheriff or a reserve deputy sheriff, and is assigned
19 to the prevention and detection of crime and the general enforcement of the laws of
20 this state by the county sheriff, the person is a peace officer, if the person qualifies
21 as set forth in paragraph (1) of subdivision (a) of Section 832.6. The authority of a
22 peace officer pursuant to this subdivision includes the full powers and duties of a
23 peace officer as provided by Section 830.1.

24 (c) Whenever any person is summoned to the aid of any uniformed peace officer,
25 the summoned person is vested with the powers of a peace officer that are expressly
26 delegated to him or her by the summoning officer or that are otherwise reasonably
27 necessary to properly assist the officer.

28 **Comment.** Section 830.6 is amended to update a reference to the former Department of Fish and
29 Game. See Fish & Wildlife Code § 1500.

30 **Penal Code § 969e (amended).**

31 SEC. _____. Section 969e of the Penal Code is amended to read:

32 969e. In charging the fact of a previous conviction for a violation of Section 5652
33 66525 of the Fish and Game Wildlife Code, or of Section 13001 or 13002 of the
34 Health and Safety Code or of Section 374b or 374d of the Penal Code or of Section
35 23111, 23112, or 23113 of the Vehicle Code, it is sufficient to state, “That the
36 defendant, before the commission of the offense charged herein, was in (giving the
37 title of the court in which the conviction was had) convicted of a violation of
38 (specifying the section violated).”

39 **Comment.** Section 969e is amended to reflect the recodification of the former Fish and Game
40 Code.

1 **Penal Code § 1463 (amended).**

2 SEC. ____ . Section 1463 of the Penal Code is amended to read:

3 1463. All fines and forfeitures imposed and collected for crimes shall be
4 distributed in accordance with Section 1463.001.

5 The following definitions shall apply to terms used in this chapter:

6 (a) “Arrest” means any law enforcement action, including issuance of a notice to
7 appear or notice of violation, which results in a criminal charge.

8 (b) “City” includes any city, city and county, district, including any enterprise
9 special district, community service district, or community service area engaged in
10 police protection activities as reported to the Controller for inclusion in the 1989–
11 90 edition of the Financial Transactions Report Concerning Special Districts under
12 the heading of Police Protection and Public Safety, authority, or other local agency
13 (other than a county) which employs persons authorized to make arrests or to issue
14 notices to appear or notices of violation which may be filed in court.

15 (c) “City arrest” means an arrest by an employee of a city, or by a California
16 Highway Patrol officer within the limits of a city.

17 (d) “County” means the county in which the arrest took place.

18 (e) “County arrest” means an arrest by a California Highway Patrol officer outside
19 the limits of a city, or any arrest by a county officer or by any other state officer.

20 (f) “Court” means the superior court or a juvenile forum established under Section
21 257 of the Welfare and Institutions Code, in which the case arising from the arrest
22 is filed.

23 (g) “Division of moneys” means an allocation of base fine proceeds between
24 agencies as required by statute, including, but not limited to, Sections 1463.003,
25 1463.9, 1463.23, and 1463.26 of this code, ~~Sections 13001, 13002, and 13003~~
26 Article 1 (commencing with Section 3600) of Chapter 3 of Title 1 of Part 6 of
27 Division 2 and Section 3810 of the Fish and Game Wildlife Code, and Section
28 11502 of the Health and Safety Code.

29 (h) “Offense” means any infraction, misdemeanor, or felony, and any act by a
30 juvenile leading to an order to pay a financial sanction by reason of the act being
31 defined as an infraction, misdemeanor, or felony, whether defined in this or any
32 other code, except any parking offense as defined in subdivision (i).

33 (i) “Parking offense” means any offense charged pursuant to Article 3
34 (commencing with Section 40200) of Chapter 1 of Division 17 of the Vehicle Code,
35 including registration and equipment offenses included on a notice of parking
36 violation.

37 (j) “Penalty allocation” means the deposit of a specified part of moneys to offset
38 designated processing costs, as provided by Section 1463.16 of this code and by
39 Section 68090.8 of the Government Code.

40 (k) “Total parking penalty” means the total sum to be collected for a parking
41 offense, whether as fine, forfeiture of bail, or payment of penalty to the Department
42 of Motor Vehicles (DMV). It may include the following components:

1 (1) The base parking penalty as established pursuant to Section 40203.5 of the
2 Vehicle Code.

3 (2) The DMV fees added upon the placement of a hold pursuant to Section 40220
4 of the Vehicle Code.

5 (3) The surcharges required by Section 76000 of the Government Code.

6 (4) The notice penalty added to the base parking penalty when a notice of
7 delinquent parking violations is given.

8 (I) “Total fine or forfeiture” means the total sum to be collected upon a conviction,
9 or the total amount of bail forfeited or deposited as cash bail subject to forfeiture. It
10 may include, but is not limited to, the following components as specified for the
11 particular offense:

12 (1) The “base fine” upon which the state penalty and additional county penalty is
13 calculated.

14 (2) The “county penalty” required by Section 76000 of the Government Code.

15 (3) The “DNA penalty” required by Sections 76104.6 and 76104.7 of the
16 Government Code.

17 (4) The “emergency medical services penalty” authorized by Section 76000.5 of
18 the Government Code.

19 (5) The “service charge” permitted by Section 853.7 of the Penal Code and
20 Section 40508.5 of the Vehicle Code.

21 (6) The “special penalty” dedicated for blood alcohol analysis, alcohol program
22 services, traumatic brain injury research, and similar purposes.

23 (7) The “state penalty” required by Section 1464.

24 **Comment.** Subdivision (g) of Section 1463 is amended to reflect the recodification of the former
25 Fish and Game Code.

26 **Penal Code § 1464.8 (amended).**

27 SEC. _____. Section 1464.8 of the Penal Code is amended to read:

28 1464.8. Notwithstanding any other provision of law, when an allocation and
29 distribution of any fine, forfeiture, penalty, fee, or assessment collected in any
30 criminal case is made, including, but not limited to, moneys collected pursuant to
31 this chapter, Section 13003 3610 of the Fish and Game Wildlife Code, Chapter 12
32 (commencing with Section 76000) of Title 8 of the Government Code, and Sections
33 11372.5 and 11502 of the Health and Safety Code, the allocation and distribution of
34 any payment may be based upon the law in effect during the accounting period when
35 the payment is made.

36 **Comment.** Section 1464.8 is amended to reflect the recodification of the former Fish and Game
37 Code.

38 **Penal Code § 1524 (amended).**

39 SEC. _____. Section 1524 of the Penal Code is amended to read:

40 1524. (a) A search warrant may be issued upon any of the following grounds:

41 (1) When the property was stolen or embezzled.

- 1 (2) When the property or things were used as the means of committing a felony.
- 2 (3) When the property or things are in the possession of any person with the intent
- 3 to use them as a means of committing a public offense, or in the possession of
- 4 another to whom he or she may have delivered them for the purpose of concealing
- 5 them or preventing them from being discovered.
- 6 (4) When the property or things to be seized consist of an item or constitute
- 7 evidence that tends to show a felony has been committed, or tends to show that a
- 8 particular person has committed a felony.
- 9 (5) When the property or things to be seized consist of evidence that tends to show
- 10 that sexual exploitation of a child, in violation of Section 311.3, or possession of
- 11 matter depicting sexual conduct of a person under 18 years of age, in violation of
- 12 Section 311.11, has occurred or is occurring.
- 13 (6) When there is a warrant to arrest a person.
- 14 (7) When a provider of electronic communication service or remote computing
- 15 service has records or evidence, as specified in Section 1524.3, showing that
- 16 property was stolen or embezzled constituting a misdemeanor, or that property or
- 17 things are in the possession of any person with the intent to use them as a means of
- 18 committing a misdemeanor public offense, or in the possession of another to whom
- 19 he or she may have delivered them for the purpose of concealing them or preventing
- 20 their discovery.
- 21 (8) When the property or things to be seized include an item or evidence that tends
- 22 to show a violation of Section 3700.5 of the Labor Code, or tends to show that a
- 23 particular person has violated Section 3700.5 of the Labor Code.
- 24 (9) When the property or things to be seized include a firearm or other deadly
- 25 weapon at the scene of, or at the premises occupied or under the control of the person
- 26 arrested in connection with, a domestic violence incident involving a threat to
- 27 human life or a physical assault as provided in Section 18250. This section does not
- 28 affect warrantless seizures otherwise authorized by Section 18250.
- 29 (10) When the property or things to be seized include a firearm or other deadly
- 30 weapon that is owned by, or in the possession of, or in the custody or control of, a
- 31 person described in subdivision (a) of Section 8102 of the Welfare and Institutions
- 32 Code.
- 33 (11) When the property or things to be seized include a firearm that is owned by,
- 34 or in the possession of, or in the custody or control of, a person who is subject to the
- 35 prohibitions regarding firearms pursuant to Section 6389 of the Family Code, if a
- 36 prohibited firearm is possessed, owned, in the custody of, or controlled by a person
- 37 against whom a protective order has been issued pursuant to Section 6218 of the
- 38 Family Code, the person has been lawfully served with that order, and the person
- 39 has failed to relinquish the firearm as required by law.
- 40 (12) When the information to be received from the use of a tracking device
- 41 constitutes evidence that tends to show that either a felony, a misdemeanor violation
- 42 of the Fish and Game Wildlife Code, or a misdemeanor violation of the Public

1 Resources Code has been committed or is being committed, tends to show that a
2 particular person has committed a felony, a misdemeanor violation of the Fish and
3 Game Wildlife Code, or a misdemeanor violation of the Public Resources Code, or
4 is committing a felony, a misdemeanor violation of the Fish and Game Wildlife
5 Code, or a misdemeanor violation of the Public Resources Code, or will assist in
6 locating an individual who has committed or is committing a felony, a misdemeanor
7 violation of the Fish and Game Wildlife Code, or a misdemeanor violation of the
8 Public Resources Code. A tracking device search warrant issued pursuant to this
9 paragraph shall be executed in a manner meeting the requirements specified in
10 subdivision (b) of Section 1534.

11 (13) When a sample of the blood of a person constitutes evidence that tends to
12 show a violation of Section 23140, 23152, or 23153 of the Vehicle Code and the
13 person from whom the sample is being sought has refused an officer's request to
14 submit to, or has failed to complete, a blood test as required by Section 23612 of the
15 Vehicle Code, and the sample will be drawn from the person in a reasonable,
16 medically approved manner. This paragraph is not intended to abrogate a court's
17 mandate to determine the propriety of the issuance of a search warrant on a case-
18 by-case basis.

19 (14) Beginning January 1, 2016, the property or things to be seized are firearms
20 or ammunition or both that are owned by, in the possession of, or in the custody or
21 control of a person who is the subject of a gun violence restraining order that has
22 been issued pursuant to Division 3.2 (commencing with Section 18100) of Title 2
23 of Part 6, if a prohibited firearm or ammunition or both is possessed, owned, in the
24 custody of, or controlled by a person against whom a gun violence restraining order
25 has been issued, the person has been lawfully served with that order, and the person
26 has failed to relinquish the firearm as required by law.

27 (15) Beginning January 1, 2018, the property or things to be seized include a
28 firearm that is owned by, or in the possession of, or in the custody or control of, a
29 person who is subject to the prohibitions regarding firearms pursuant to Section
30 29800 or 29805, and the court has made a finding pursuant to subdivision (c) of
31 Section 29810 that the person has failed to relinquish the firearm as required by law.

32 (16) When the property or things to be seized are controlled substances or a
33 device, contrivance, instrument, or paraphernalia used for unlawfully using or
34 administering a controlled substance pursuant to the authority described in Section
35 11472 of the Health and Safety Code.

36 (17)(A) When all of the following apply:

37 (i) A sample of the blood of a person constitutes evidence that tends to show a
38 violation of subdivision (b), (c), (d), (e), or (f) of Section 655 of the Harbors and
39 Navigation Code.

40 (ii) The person from whom the sample is being sought has refused an officer's
41 request to submit to, or has failed to complete, a blood test as required by Section
42 655.1 of the Harbors and Navigation Code.

1 (iii) The sample will be drawn from the person in a reasonable, medically
2 approved manner.

3 (B) This paragraph is not intended to abrogate a court's mandate to determine the
4 propriety of the issuance of a search warrant on a case-by-case basis.

5 (18) When the property or things to be seized consists of evidence that tends to
6 show that a violation of paragraph (1), (2), or (3) of subdivision (j) of Section 647
7 has occurred or is occurring.

8 (b) The property, things, person, or persons described in subdivision (a) may be
9 taken on the warrant from any place, or from any person in whose possession the
10 property or things may be.

11 (c) Notwithstanding subdivision (a) or (b), a search warrant shall not be issued for
12 any documentary evidence in the possession or under the control of any person who
13 is a lawyer as defined in Section 950 of the Evidence Code, a physician as defined
14 in Section 990 of the Evidence Code, a psychotherapist as defined in Section 1010
15 of the Evidence Code, or a member of the clergy as defined in Section 1030 of the
16 Evidence Code, and who is not reasonably suspected of engaging or having engaged
17 in criminal activity related to the documentary evidence for which a warrant is
18 requested unless the following procedure has been complied with:

19 (1) At the time of the issuance of the warrant, the court shall appoint a special
20 master in accordance with subdivision (d) to accompany the person who will serve
21 the warrant. Upon service of the warrant, the special master shall inform the party
22 served of the specific items being sought and that the party shall have the
23 opportunity to provide the items requested. If the party, in the judgment of the
24 special master, fails to provide the items requested, the special master shall conduct
25 a search for the items in the areas indicated in the search warrant.

26 (2)(A) If the party who has been served states that an item or items should not be
27 disclosed, they shall be sealed by the special master and taken to court for a hearing.

28 (B) At the hearing, the party searched shall be entitled to raise any issues that may
29 be raised pursuant to Section 1538.5 as well as a claim that the item or items are
30 privileged, as provided by law. The hearing shall be held in the superior court. The
31 court shall provide sufficient time for the parties to obtain counsel and make motions
32 or present evidence. The hearing shall be held within three days of the service of the
33 warrant unless the court makes a finding that the expedited hearing is impracticable.
34 In that case, the matter shall be heard at the earliest possible time.

35 (C) If an item or items are taken to court for a hearing, any limitations of time
36 prescribed in Chapter 2 (commencing with Section 799) of Title 3 of Part 2 shall be
37 tolled from the time of the seizure until the final conclusion of the hearing, including
38 any associated writ or appellate proceedings.

39 (3) The warrant shall, whenever practicable, be served during normal business
40 hours. In addition, the warrant shall be served upon a party who appears to have
41 possession or control of the items sought. If, after reasonable efforts, the party
42 serving the warrant is unable to locate the person, the special master shall seal and

1 return to the court, for determination by the court, any item that appears to be
2 privileged as provided by law.

3 (d)(1) As used in this section, a “special master” is an attorney who is a member
4 in good standing of the California State Bar and who has been selected from a list
5 of qualified attorneys that is maintained by the State Bar particularly for the
6 purposes of conducting the searches described in this section. These attorneys shall
7 serve without compensation. A special master shall be considered a public
8 employee, and the governmental entity that caused the search warrant to be issued
9 shall be considered the employer of the special master and the applicable public
10 entity, for purposes of Division 3.6 (commencing with Section 810) of Title 1 of the
11 Government Code, relating to claims and actions against public entities and public
12 employees. In selecting the special master, the court shall make every reasonable
13 effort to ensure that the person selected has no relationship with any of the parties
14 involved in the pending matter. Information obtained by the special master shall be
15 confidential and may not be divulged except in direct response to inquiry by the
16 court.

17 (2) In any case in which the magistrate determines that, after reasonable efforts
18 have been made to obtain a special master, a special master is not available and
19 would not be available within a reasonable period of time, the magistrate may direct
20 the party seeking the order to conduct the search in the manner described in this
21 section in lieu of the special master.

22 (e) Any search conducted pursuant to this section by a special master may be
23 conducted in a manner that permits the party serving the warrant or his or her
24 designee to accompany the special master as he or she conducts his or her search.
25 However, that party or his or her designee may not participate in the search nor shall
26 he or she examine any of the items being searched by the special master except upon
27 agreement of the party upon whom the warrant has been served.

28 (f) As used in this section, “documentary evidence” includes, but is not limited to,
29 writings, documents, blueprints, drawings, photographs, computer printouts,
30 microfilms, X-rays, files, diagrams, ledgers, books, tapes, audio and video
31 recordings, films, and papers of any type or description.

32 (g) No warrant shall issue for any item or items described in Section 1070 of the
33 Evidence Code.

34 (h) Notwithstanding any other law, no claim of attorney work product as described
35 in Chapter 4 (commencing with Section 2018.010) of Title 4 of Part 4 of the Code
36 of Civil Procedure shall be sustained where there is probable cause to believe that
37 the lawyer is engaging or has engaged in criminal activity related to the
38 documentary evidence for which a warrant is requested unless it is established at the
39 hearing with respect to the documentary evidence seized under the warrant that the
40 services of the lawyer were not sought or obtained to enable or aid anyone to commit
41 or plan to commit a crime or a fraud.

(i) Nothing in this section is intended to limit an attorney's ability to request an in-camera hearing pursuant to the holding of the Supreme Court of California in *People v. Superior Court (Laff)* (2001) 25 Cal.4th 703.

(j) In addition to any other circumstance permitting a magistrate to issue a warrant for a person or property in another county, when the property or things to be seized consist of any item or constitute evidence that tends to show a violation of Section 530.5, the magistrate may issue a warrant to search a person or property located in another county if the person whose identifying information was taken or used resides in the same county as the issuing court.

(k) This section shall not be construed to create a cause of action against any foreign or California corporation, its officers, employees, agents, or other specified persons for providing location information.

Comment. Paragraph (12) of subdivision (a) of Section 1524 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 1524 was amended in 2016 by an initiative statute, Proposition 63. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Penal Code § 20015 (amended).

SEC. _____. Section 20015 of the Penal Code is amended to read:

20015. Nothing in this division shall prohibit the sale to, purchase by, possession of, or use of any blowgun or blowgun ammunition by zookeepers, animal control officers, Department of Fish and Game Wildlife personnel, humane officers whose names are maintained in the county record of humane officers pursuant to Section 14502 of the Corporations Code, or veterinarians in the course and scope of their business in order to administer medicine to animals.

Comment. Section 20015 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Penal Code § 25700 (amended).

SEC. _____. Section 25700 of the Penal Code is amended to read:

25700. (a) The unlawful carrying of any handgun in violation of Section 25400 is a nuisance and is subject to Sections 18000 and 18005.

(b) This section does not apply to any of the following:

(1) Any firearm in the possession of the Department of Fish and Game Wildlife.

(2) Any firearm that was used in the violation of any provision of the Fish and Game Wildlife Code or any regulation adopted pursuant thereto.

(3) Any firearm that is forfeited pursuant to Section 5008.6 of the Public Resources Code.

Comment. Section 25700 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

1 **Penal Code § 26100 (amended).**

2 SEC. _____. Section 26100 of the Penal Code is amended to read:

3 26100. (a) It is a misdemeanor for a driver of any motor vehicle or the owner of
4 any motor vehicle, whether or not the owner of the vehicle is occupying the vehicle,
5 knowingly to permit any other person to carry into or bring into the vehicle a firearm
6 in violation of Section 25850 of this code or Section 2006 9715 of the Fish and
7 Game Wildlife Code.

8 (b) Any driver or owner of any vehicle, whether or not the owner of the vehicle is
9 occupying the vehicle, who knowingly permits any other person to discharge any
10 firearm from the vehicle is punishable by imprisonment in the county jail for not
11 more than one year or in state prison for 16 months or two or three years.

12 (c) Any person who willfully and maliciously discharges a firearm from a motor
13 vehicle at another person other than an occupant of a motor vehicle is guilty of a
14 felony punishable by imprisonment in state prison for three, five, or seven years.

15 (d) Except as provided in Section 3002 9550 of the Fish and Game Wildlife Code,
16 any person who willfully and maliciously discharges a firearm from a motor vehicle
17 is guilty of a public offense punishable by imprisonment in the county jail for not
18 more than one year or in the state prison.

19 **Comment.** Section 26100 is amended to reflect the recodification of the former Fish and Game
20 Code.

21 **Penal Code § 29300 (amended).**

22 SEC. _____. Section 29300 of the Penal Code is amended to read:

23 29300. (a) Except as provided in subdivision (c), a firearm of any nature owned
24 or possessed in violation of Chapter 1 (commencing with Section 29610), Chapter
25 2 (commencing with Section 29800), or Chapter 3 (commencing with Section
26 29900) of Division 9 of this title, or Chapter 3 (commencing with Section 8100) of
27 Division 5 of the Welfare and Institutions Code, or used in the commission of any
28 misdemeanor as provided in this code, any felony, or an attempt to commit any
29 misdemeanor as provided in this code or any felony, is, upon a conviction of the
30 defendant or upon a juvenile court finding that an offense which would be a
31 misdemeanor or felony if committed by an adult was committed or attempted by the
32 juvenile with the use of a firearm, a nuisance, and is subject to Sections 18000 and
33 18005.

34 (b) A finding that the defendant was guilty of the offense but was insane at the
35 time the offense was committed is a conviction for the purposes of this section.

36 (c) A firearm is not a nuisance pursuant to this section if the firearm owner
37 disposes of the firearm pursuant to Section 29810.

38 (d) This section does not apply to any of the following:

39 (1) Any firearm in the possession of the Department of Fish and Game Wildlife.

40 (2) Any firearm that was used in the violation of any provision of the Fish and
41 Game Wildlife Code or any regulation adopted pursuant thereto.

1 (3) Any firearm that is forfeited pursuant to Section 5008.6 of the Public
2 Resources Code.

3 **Comment.** Subdivision (d) of Section 29300 is amended to reflect the recodification of the
4 former Fish and Game Code. The section is also amended to update a reference to the former
5 Department of Fish and Game. See Fish & Wildlife Code § 1500.

6 **Penal Code § 30945 (amended).**

7 SEC. _____. Section 30945 of the Penal Code is amended to read:

8 30945. Unless a permit allowing additional uses is first obtained under Section
9 31000, a person who has registered an assault weapon or registered a .50 BMG rifle
10 under this article may possess it only under any of the following conditions:

11 (a) At that person's residence, place of business, or other property owned by that
12 person, or on property owned by another with the owner's express permission.

13 (b) While on the premises of a target range of a public or private club or
14 organization organized for the purpose of practicing shooting at targets.

15 (c) While on a target range that holds a regulatory or business license for the
16 purpose of practicing shooting at that target range.

17 (d) While on the premises of a shooting club that is licensed pursuant to the Fish
18 and Game Wildlife Code.

19 (e) While attending any exhibition, display, or educational project that is about
20 firearms and that is sponsored by, conducted under the auspices of, or approved by
21 a law enforcement agency or a nationally or state recognized entity that fosters
22 proficiency in, or promotes education about, firearms.

23 (f) While on publicly owned land, if the possession and use of a firearm described
24 in Section 30510, 30515, 30520, or 30530, is specifically permitted by the managing
25 agency of the land.

26 (g) While transporting the assault weapon or .50 BMG rifle between any of the
27 places mentioned in this section, or to any licensed gun dealer, for servicing or repair
28 pursuant to Section 31050, if the assault weapon is transported as required by
29 Sections 16850 and 25610.

30 **Comment.** Section 30945 is amended to reflect the recodification of the former Fish and Game
31 Code.

32 **Penal Code § 34000 (amended).**

33 SEC. _____. Section 34000 of the Penal Code is amended to read:

34 34000. (a) Notwithstanding any provision of law or of any local ordinance to the
35 contrary, when any firearm is in the possession of any officer of the state, or of a
36 county, city, or city and county, or of any campus of the University of California or
37 the California State University, and the firearm is an exhibit filed in any criminal
38 action or proceeding which is no longer needed or is unclaimed or abandoned
39 property, which has been in the possession of the officer for at least 180 days, the
40 firearm shall be sold, or destroyed, as provided for in Sections 18000 and 18005.

(b) This section does not apply to any firearm in the possession of the Department of Fish and Game Wildlife, or which was used in the violation of any provision in the Fish and Game Wildlife Code, or any regulation under that code.

Comment. Section 34000 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

PUBLIC CONTRACT CODE

Pub. Cont. Code § 10109 (amended).

SEC. _____. Section 10109 of the Public Contract Code is amended to read:

10109. Any notice inviting bids on a project which specifies locations of possible materials, such as a borrow pit or gravel bed, for use in the proposed project which would be subject to Section 1602 Title 3 (commencing with Sections 69700) of Part 4 of Division 17 of the Fish and Game Wildlife Code shall include any conditions or modifications established pursuant to Section 1603 69795, 69805, or Article 4 (commencing with Section 70050) of Chapter 2 of Title 3 of Part 4 of Division 17 of the Fish and Wildlife Code.

Comment. Section 10109 is amended to reflect the recodification of the former Fish and Game Code.

 **Notes.** (1) In the tentative recommendation, Fish and Game Code Section 1602 would be continued in proposed Sections 69710, 69750, 69785, 70155, and 70165. The proposed cross-reference revision above would refer to the title that contains all of those sections, rather than referring to the five sections individually. That seems unproblematic, because the entire title relates to the substance of Section 1602.

The Commission requests public comment on whether that simplified reference would cause any problems.

(2) In the tentative recommendation, Fish and Game Code Section 1603 would be continued in proposed Sections 69795, 69805, 69810, and 70050 through 70070. The proposed cross-reference revision above would only refer to the provisions of Section 1603 that appear to be germane to the purpose of the reference.

The Commission requests public comment on whether that simplified reference would cause any problems.

Pub. Cont. Code § 20126 (amended).

SEC. _____. Section 20126 of the Public Contract Code is amended to read:

20126. Any notice inviting bids on a project which specifies locations of possible materials, such as a borrow pit or gravel bed, for use in the proposed project which would be subject to Section 1602 Title 3 (commencing with Sections 69700) of Part 4 of Division 17 of the Fish and Game Wildlife Code shall include any conditions or modifications established pursuant to Section 1603 69795, 69805, or Article 4 (commencing with Section 70050) of Chapter 2 of Title 3 of Part 4 of Division 17 of the Fish and Game Wildlife Code.

Comment. Section 20126 is amended to reflect the recodification of the former Fish and Game Code.

Notes. (1) In the tentative recommendation, Fish and Game Code Section 1602 would be continued in proposed Sections 69710, 69750, 69785, 70155, and 70165. The proposed cross-reference revision above would refer to the title that contains all of those sections, rather than referring to the five sections individually. That seems unproblematic, because the entire title relates to the substance of Section 1602.

The Commission requests public comment on whether that simplified reference would cause any problems.

(2) In the tentative recommendation, Fish and Game Code Section 1603 would be continued in proposed Sections 69795, 69805, 69810, and 70050 through 70070. The proposed cross-reference revision above would only refer to the provisions of Section 1603 that appear to be germane to the purpose of the reference.

The Commission requests public comment on whether that simplified reference would cause any problems.

Pub. Cont. Code § 20165 (amended).

SEC. _____. Section 20165 of the Public Contract Code is amended to read:

20165. Any notice inviting bids, which specifies locations of possible materials, such as a borrow pit or gravel bed, for use in the proposed construction project which would be subject to Section 1602 Title 3 (commencing with Sections 69700) of Part 4 of Division 17 of the Fish and Game Wildlife Code, shall include any conditions or modifications established pursuant to Section 1603 Section 69795, 69805, or Article 4 (commencing with Section 70050) of Chapter 2 of Title 3 of Part 4 of Division 17 of the Fish and Game Wildlife Code.

Comment. Section 20165 is amended to reflect the recodification of the former Fish and Game Code.

Notes. (1) In the tentative recommendation, Fish and Game Code Section 1602 would be continued in proposed Sections 69710, 69750, 69785, 70155, and 70165. The proposed cross-reference revision above would refer to the title that contains all of those sections, rather than referring to the five sections individually. That seems unproblematic, because the entire title relates to the substance of Section 1602.

The Commission requests public comment on whether that simplified reference would cause any problems.

(2) In the tentative recommendation, Fish and Game Code Section 1603 would be continued in proposed Sections 69795, 69805, 69810, and 70050 through 70070. The proposed cross-reference revision above would only refer to the provisions of Section 1603 that appear to be germane to the purpose of the reference.

The Commission requests public comment on whether that simplified reference would cause any problems.

PUBLIC RESOURCES CODE

Pub. Res. Code § 829 (amended).

SEC. _____. Section 829 of the Public Resources Code is amended to read:

1 829. As used in this chapter, “director” means the Director of the Department of
2 Fish and Game Wildlife.

3 **Comment.** Section 829 is amended to update a reference to the former Department of Fish and
4 Game. See Fish & Wildlife Code § 1500.

5 **Pub. Res. Code § 830 (amended).**

6 SEC. _____. Section 830 of the Public Resources Code is amended to read:

7 830. As used in this chapter, “department” means the Department of Fish and
8 Game Wildlife.

9 **Comment.** Section 830 is amended to update a reference to the former Department of Fish and
10 Game. See Fish & Wildlife Code § 1500.

11 **Pub. Res. Code § 3233 (amended).**

12 SEC. _____. Section 3233 of the Public Resources Code is amended to read:

13 3233. (a) The division may develop field rules which establish volumetric
14 thresholds for emergency reporting by the operator of oil discharges to land
15 associated with onshore drilling, exploration, or production operations, where the
16 oil discharges, because of the circumstances established pursuant to paragraph (1)
17 of subdivision (c), cannot pass into or threaten the waters of the state. The division
18 may not adopt field rules under this section, unless the State Water Resources
19 Control Board and the Department of Fish and Game Wildlife first concur with the
20 volumetric reporting thresholds contained in the proposed field rules. Subchapter 1
21 (commencing with Section 1710) of Chapter 4 of Division 2 of Title 14 of the
22 California Code of Regulations shall apply to the adoption and implementation of
23 field rules authorized by this section.

24 (b) The authority granted to the division pursuant to subdivision (a) shall apply
25 solely to oil fields located in the San Joaquin Valley, as designated by the division.
26 The division shall adopt the field rules not later than January 1, 1998.

27 (c) For purposes of implementing this section, the division, the State Water
28 Resources Control Board, and the Department of Fish and Game Wildlife shall enter
29 into an agreement that defines the process for establishing both of the following:

30 (1) The circumstances, such as engineered containment, under which oil
31 discharges cannot pass into or threaten the waters of this state.

32 (2) The volumetric reporting thresholds that are applicable under the
33 circumstances established pursuant to paragraph (1).

34 (d) In no case shall a reporting threshold established in the field rules, where the
35 oil discharge cannot pass into or threaten the waters of this state, be less than one
36 barrel (42 gallons), unless otherwise established by federal law or regulation. Until
37 field rules are adopted, emergency reporting of oil discharges shall continue as
38 required by existing statute and regulations.

39 (e) An operator who discharges oil in amounts less than the volumetric thresholds
40 adopted by the division pursuant to this section is exempt from all applicable state
41 and local reporting requirements. Discharges of oil in amounts equal to, or greater

1 than, the volumetric thresholds adopted by the division pursuant to this section shall
2 be immediately reported to the Office of Emergency Services which shall inform
3 the division and other local or state agencies as required by Section 8589.7 of the
4 Government Code. Reporting to the Office of Emergency Services shall be deemed
5 to be in compliance with all applicable state and local reporting requirements.

6 (f) Oil discharges below the reporting thresholds established in the field rules shall
7 be exempt from the emergency notification or reporting requirements, and any
8 penalties provided for nonreporting, established under paragraph (1) of subdivision
9 (a) of Section 13260 of the Water Code, subdivisions (a), (c), and (e) of Section
10 13272 of the Water Code, Section 25507 of the Health and Safety Code, Sections
11 8670.25.5 and 51018 of the Government Code, and subdivision (h) of Section 1722
12 of Title 14 of the California Code of Regulations. Oil discharge reporting
13 requirements under Section 51018 of the Government Code shall be applicable if a
14 spill involves a fire or explosion.

15 (g) This section shall not affect existing reporting or notification requirements
16 under federal law.

17 (h) Nothing in this section shall be construed to relieve any party of any
18 responsibility established by statute, regulation, or order, to clean up or remediate
19 any oil discharge, whether reportable or exempt pursuant to this section.

20 (i) Reporting provided pursuant to this section is not intended to prohibit any
21 department or agency from seeking and obtaining any supplemental postreporting
22 information to which the department or agency might otherwise be entitled.

23 (j) For purposes of this section, “oil” means naturally occurring crude oil.

24 **Comment.** Section 3233 is amended to update references to the former Department of Fish and
25 Game. See Fish & Wildlife Code § 1500.

26 **Pub. Res. Code § 3717 (amended).**

27 SEC. _____. Section 3717 of the Public Resources Code is amended to read:

28 3717. Upon request, the supervisor shall notify the Department of Fish and Game
29 Wildlife and the California regional water quality control board in the area affected
30 of the location and abandonment of geothermal wells.

31 **Comment.** Section 3717 is amended to update a reference to the former Department of Fish and
32 Game. See Fish & Wildlife Code § 1500.

33 **Pub. Res. Code § 3718 (amended).**

34 SEC. _____. Section 3718 of the Public Resources Code is amended to read:

35 3718. Nothing in this chapter shall be construed as superseding any of the
36 provisions of Division 7 (commencing with Section 13000) of the Water Code or
37 Division 6 (commencing with Section 5650) Article 1 (commencing with Section
38 66500) of Chapter 1 of Title 1 of Part 3 of Division 17 of the Fish and Game Wildlife
39 Code.

40 **Comment.** Section 3718 is amended to reflect the recodification of the former Fish and Game
41 Code.

Note. Public Resources Code Section 3718 cross-refers to “Division 6 (commencing with Section 5650) of the Fish and Game Code.” This citation is erroneous, and was at the time it was enacted in 1965. Section 5650 is not the section that commences Division 6.

The erroneous cross-reference could be construed in three ways:

(1) It could be construed broadly as applying to the entirety of Division 6. That division contains the great majority of the Fish and Game Code provisions that govern fish and fishing, including sport fishing, commercial fishing, fish businesses, and special laws that govern specific types of fish and aquatic invertebrates. Many of the provisions govern ocean fish, rather than fresh water fish.

(2) It could be construed narrowly as applying to the chapter that commences with Section 5650. That chapter (which is also included in Division 6) governs water pollution generally and specific pollution issues relating to shellfish and mining in the Trinity and Klamath River area.

(3) It could be construed very narrowly, as applying only to the first article of the chapter that commences with Section 5650. That would include the general provisions on water pollution, but exclude the provisions on shellfish contamination and mining in the Trinity and Klamath River area.

The purpose of Section 3718 is to make clear that the chapter in which it is located does not supersede the specified provisions of the Water Code or Fish and Game Code. The chapter at issue regulates the drilling of geothermal wells for energy production. See Pub. Res. Code §§ 3700-3776.

That chapter includes provisions that expressly address the effect of geothermal wells on water quality. See Pub. Res. Code §§ 3714, 3716, 3717.

The provisions of the Water Code that are referenced in Section 3718 also govern the regulation of water quality and water pollution.

Given that context, it seems most likely that Section 3718 was intended to refer to the water pollution provisions in the Fish and Game Code, rather than the much broader law that addresses fishing (including clearly irrelevant provisions; e.g., provisions that regulate the use of traps and nets in ocean fishing). For that reason, the proposed law would take the third approach, revising Section 3718 to refer only to the water pollution provisions. Provisions that govern shellfish contamination and mining in the Trinity and Klamath River area would not be included in the reference.

The Commission requests public comment on whether that approach would properly continue existing law.

Pub. Res. Code § 3783 (amended).

SEC. _____. Section 3783 of the Public Resources Code is amended to read:

3783. Whenever the supervisor receives notification from the Department of Fish and Game Wildlife pursuant to subdivision (a) of Section 1016 67405 of the Fish and Game Wildlife Code that an oil sump is hazardous to wildlife, ~~he~~ the supervisor shall forthwith given written notice of such that hazardous condition to the owner, lessee, operator, or person responsible for the existence of the condition, and set forth the hazardous conditions as specified by the Department of Fish and Game Wildlife. The owner, lessee, operator, or person responsible shall, within 30 days from the date of such that notification, or such a longer period as may be mutually agreed upon by the supervisor, the Department of Fish and Game Wildlife, and the owner, lessee, operator, or person responsible, clean up or abate the condition to the satisfaction of the supervisor and the Department of Fish and Game Wildlife. If the owner, lessee, operator, or person responsible does not clean up or abate the condition to the satisfaction of the supervisor and the Department of Fish and Game

1 Wildlife within the required period of time, the supervisor shall forthwith order the
2 closure of the oil and gas production operation maintaining the oil sump.

3 **Comment.** Section 3783 is amended to reflect the recodification of the former Fish and Game
4 Code, and to update references to the former Department of Fish and Game. See Fish & Wildlife
5 Code § 1500. The section is also amended to make technical corrections.

6 **Pub. Res. Code § 3784 (amended).**

7 SEC. _____. Section 3784 of the Public Resources Code is amended to read:

8 3784. Whenever the supervisor receives notification from the Department of Fish
9 and Game Wildlife pursuant to ~~subdivision (b) of Section 1016 67410~~ of the Fish
10 and Game Wildlife Code that an oil sump constitutes an immediate and grave danger
11 to wildlife, ~~he~~ the supervisor shall forthwith give written notice of ~~such that~~
12 immediately dangerous condition to the owner, lessee, operator, or person
13 responsible for the existence of the condition, and set forth the immediately
14 dangerous condition as specified by the Department of Fish and Game Wildlife. The
15 owner, lessee, operator, or person responsible shall, within 10 days from the date of
16 such notification, or ~~such a~~ longer period as may be ~~mutally~~ mutually agreed upon
17 pursuant to Section 3784.5 by the supervisor, the Department of Fish and Game
18 Wildlife, and the owner, lessee, operator, or person responsible, clean up or abate
19 the condition to the satisfaction of the supervisor and the Department of Fish and
20 Game Wildlife. If the owner, lessee, operator, or person responsible does not clean
21 up or abate the condition to the satisfaction of the supervisor and the Department of
22 Fish and Game Wildlife within the required period of time, the supervisor shall
23 forthwith order the closure of the oil and gas production operation maintaining the
24 oil sump.

25 **Comment.** Section 3784 is amended to reflect the recodification of the former Fish and Game
26 Code, and to update references to the former Department of Fish and Game. See Fish & Wildlife
27 Code § 1500. The section is also amended to make technical corrections.

28 **Pub. Res. Code § 3784.5 (amended).**

29 SEC. _____. Section 3784.5 of the Public Resources Code is amended to read:

30 3784.5. Extension of the 10-day period specified in Section 3784 may be granted
31 only in cases where the supervisor and the Department of Fish and Game Wildlife
32 have determined that screening or elimination of the oil sump cannot be reasonably
33 accomplished within 10 days.

34 **Comment.** Section 3784.5 is amended to update a reference to the former Department of Fish
35 and Game. See Fish & Wildlife Code § 1500.

36 **Pub. Res. Code § 3785 (amended).**

37 SEC. _____. Section 3785 of the Public Resources Code is amended to read:

38 3785. The supervisor and the Department of Fish and Game Wildlife shall develop
39 a joint program to coordinate their respective responsibilities under this chapter and
40 Section 1016 Title 3 (commencing with Section 67400) of Part 3 of Division 17 of

1 the Fish and Game Wildlife Code to protect the wildlife resources of the state from
2 the hazards of exposed oil sumps.

3 **Comment.** Section 3785 is amended to reflect the recodification of the former Fish and Game
4 Code. The section is also amended to update a reference to the former Department of Fish and
5 Game. See Fish & Wildlife Code § 1500.

6 **Pub. Res. Code § 4417.5 (amended).**

7 SEC. _____. Section 4417.5 of the Public Resources Code is amended to read:

8 4417.5. (a) For the purpose of obtaining information leading to the arrest and
9 conviction of persons who willfully and maliciously set fire to, or who attempt to
10 willfully and maliciously set fire to, any property which is included within a state
11 responsibility area, as defined in Section 4102, including a hazardous fire area
12 designated by the board pursuant to Section 4252 or by the director pursuant to
13 Section 4253, the department shall, during the fire season, make a toll-free 800
14 telephone number available for, and establish, a program to protect the anonymity
15 of persons providing that information and to facilitate the identification of persons
16 who are eligible for the payment of rewards authorized pursuant to Section 1547 of
17 the Penal Code and Section 4417.

18 (b) The department may cooperate, and enter into interagency agreements, with
19 other state agencies in carrying out this section, including, but not limited to, the
20 Cal-TIP program of the Department of Fish and Game Wildlife.

21 **Comment.** Section 4417.5 is amended to update a reference to the former Department of Fish
22 and Game. See Fish & Wildlife Code § 1500.

23 **Pub. Res. Code § 4466 (amended).**

24 SEC. _____. Section 4466 of the Public Resources Code is amended to read:

25 4466. (a) The department shall prepare two model plans for the initial
26 development and implementation of a program for wildland resources management
27 through prescribed burning and other methods, one of which is appropriate for an
28 area of wildlands in northern California, and one, in southern California. All state
29 agencies, including the Departments of Fish and Game Wildlife and Conservation
30 and the State Water Resources Control Board, shall cooperate with the department
31 in the creation of the plans, to the end that administrative and environmental
32 considerations are carefully and effectively considered and included in the program.

33 (b) Upon completion of each plan, the director shall submit the plan to the board
34 for its review and approval as to its conformity with the requirements set forth in
35 Section 4467.

36 (c) The department shall apply for funding from nonstate sources for the purpose
37 of carrying out its planning responsibilities pursuant to this article. The department
38 may not commence such planning until such funding is available in an amount
39 sufficient to meet the costs of one model plan.

40 (d) Neither plan may be implemented or used after January 1, 1983.

1 **Comment.** Section 4466 is amended to update a reference to the former Department of Fish and
2 Game. See Fish & Wildlife Code § 1500.

3 **Pub. Res. Code § 4551.5 (amended).**

4 SEC. _____. Section 4551.5 of the Public Resources Code is amended to read:

5 4551.5. Rules and regulations shall apply to the conduct of timber operations and
6 shall include, but shall not be limited to, measures for fire prevention and control,
7 for soil erosion control, for site preparation that involves disturbance of soil or
8 burning of vegetation following timber harvesting activities, for water quality and
9 watershed control, for flood control, for stocking, for protection against timber
10 operations that unnecessarily destroy young timber growth or timber productivity
11 of the soil, for prevention and control of damage by forest insects, pests, and disease,
12 for the protection of natural and scenic qualities in special treatment areas identified
13 pursuant to subdivision (b) of Section 30417, and for the preparation of timber
14 harvesting plans. In developing these rules, the board shall solicit and consider
15 recommendations from the department, recommendations from the Department of
16 Fish and Game Wildlife relating to the protection of fish and wildlife,
17 recommendations from the State Water Resources Control Board and the California
18 regional water quality control boards relating to water quality, recommendations
19 from the State Air Resources Board and local air pollution control districts relating
20 to air pollution control, and recommendations of the California Coastal Commission
21 relating to the protection of natural and scenic coastal zone resources in special
22 treatment areas.

23 **Comment.** Section 4551.5 is amended to update a reference to the former Department of Fish
24 and Game. See Fish & Wildlife Code § 1500.

25 **Pub. Res. Code § 4582.6 (amended).**

26 SEC. _____. Section 4582.6 of the Public Resources Code is amended to read:

27 4582.6. (a) Upon receipt of the timber harvesting plan, the department shall place
28 it, or a true copy thereof, in a file available for public inspection in the county in
29 which timber operations are proposed under the plan, and, for the purpose of
30 interdisciplinary review, shall transmit a copy to the Department of Fish and Game
31 Wildlife, the appropriate California regional water quality control board, the county
32 planning agency, and, if the area is within its jurisdiction, the Tahoe Regional
33 Planning Agency, as the case may be. The department shall invite, consider, and
34 respond in writing to comments received from public agencies to which the plan has
35 been transmitted and shall consult with those agencies at their request.

36 (b) Within the public comment period, any responsible agency, as defined in
37 Section 21069, shall provide the department with specific comments or
38 recommendations, or both, on any significant environmental issues and proposed
39 mitigation measures raised by the timber harvesting plan. The responsible agency
40 shall also identify its statutory authority for any requests for mitigation measures
41 that it may determine to be necessary. If the responsible agency fails to respond by

1 the end of the public comment period, the department may assume that the
2 responsible agency has no comments or recommendations concerning the timber
3 harvesting plan, but the failure of the responsible agency to make comments or
4 recommendations shall not be used as the basis for a determination or presumption
5 that the timber harvesting plan will have no significant effect on the environment.
6 The department shall consider all comments and recommendations received from
7 responsible agencies and from the public during the public comment period. If a
8 responsible agency fails to respond within the public comment period, it may
9 request additional time to respond. The director may grant an extension of the time
10 to respond of up to 14 calendar days if he or she determines, after consultation with
11 the person submitting the timber harvesting plan, that an extension is necessary.

12 (c) To ensure that all public comments and concerns are considered by the
13 department, each responsible agency shall maintain a list of written information it
14 disseminates on the timber harvesting plan under review prior to the close of the
15 public comment period.

16 (d) On and after July 1, 1983, the board of supervisors or planning commission of
17 any county for which rules have been adopted pursuant to Section 4516.5 may
18 request a public hearing on any timber harvesting plan submitted for lands within
19 the county, and the department shall hold a hearing for the purpose of public
20 comment, if requested, prior to taking any action on the timber harvesting plan
21 pursuant to Section 4582.7. The hearing shall be held in the county in which the
22 proposed harvest is located at a time and place convenient to the public. The hearing
23 shall be held in county offices if made available by the county for that purpose. The
24 chairperson of the hearing shall be a representative of the department, shall receive
25 both oral and written testimony from members of the public, local government
26 officials, persons submitting the plans, and others, and shall provide for the hearing
27 to be electronically recorded. The department shall prepare and make available
28 written responses to significant issues raised at the hearing. The requirements of this
29 subdivision shall not be construed as extending the time within which any action is
30 required to be taken pursuant to Section 4582.7.

31 **Comment.** Section 4582.6 is amended to update a reference to the former Department of Fish
32 and Game. See Fish & Wildlife Code § 1500.

33 **Pub. Res. Code § 4582.9 (amended).**

34 SEC. _____. Section 4582.9 of the Public Resources Code is amended to read:

35 4582.9. (a) Notwithstanding any other provision of this chapter, the Director of
36 Fish and Game Wildlife or the State Water Resources Control Board may, not later
37 than 10 days after approval of a plan by the director, appeal the approval to the
38 board. At the time of filing of an appeal with the board, the person shall notify the
39 director and the plan submitter of the appeal, and no further timber operations shall
40 occur under the plan until the final determination of the appeal by the board.

(b) The Director of Fish and Game ~~Wildlife~~ or the State Water Resources Control Board may appeal the approval of a plan by the director only if the Department of Fish and Game ~~Wildlife~~ or the State Water Resources Control Board or a California regional water quality control board has (1) participated in an onsite inspection of the plan with the department and (2) participated in a multidisciplinary review of the plan. The board may establish procedures for filing an appeal and may, in order to demonstrate that a substantial issue is raised with respect to the environment or public safety, specify findings which are required to be made in filing an appeal.

(c) The board shall grant a hearing if it determines that the appeal under this section raises substantial issues with respect to the environment or to public safety. The board, by regulation, may delegate this determination to its chairperson.

(d) The board shall hold a public hearing within 30 days after the filing of an appeal, or a longer period mutually agreed upon by the board, the appellant, and the plan submitter. Witnesses may appear either at the request of a party having standing or at a request of a majority of the board or board committee holding the hearing. Within 10 days after the conclusion of the hearing, the board shall approve or deny the plan. The basis for the board's decision shall be all applicable provisions of California law, including, but not limited to, the California Timberland Productivity Act of 1982 (Chapter 6.7 (commencing with Section 51100) of Division 1 of Title 5 of the Government Code) and subdivision (d) of Section 4512. In denying a plan, the board may make findings that set forth conditions under which it believes the plan would have been approved. The board may delegate conduct of the hearing and the decision to a committee of three members to be appointed for that hearing by the chairperson of the board. The committee shall consist of one general public member, one industry member, and the chairperson or the chairperson's designee. The chairperson of the board or the chairperson's designee shall conduct the hearing. The decision of the committee shall have the full force of a decision of the full board. At any time prior to a decision on an appeal conducted by a committee, any member of the committee may file a declaration of importance with the executive officer of the board and that appeal shall be immediately transferred to the full board for decision.

Comment. Section 4582.9 is amended to update references to the former Department of Fish and Game, and to the Director of that department. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 4590 (amended).

SEC. _____. Section 4590 of the Public Resources Code is amended to read:

4590. (a)(1) A timber harvesting plan approved on or after July 1, 2012, is effective for a period of not more than five years, unless extended pursuant to paragraph (2).

(2) A timber harvesting plan, on which timber operations have commenced but not been completed, may be extended by amendment for a two-year period in order to complete the timber operations, if both of the following occur:

(A) Good cause is shown.

(B) All timber operations are in conformance with the plan, this chapter, and all applicable rules and regulations, upon the filing of the notice of extension as required by this section.

(b) The extension shall apply to any area covered by the plan for which a report has not been submitted under Section 4585. The notice of extension shall be provided to the department not sooner than 140 days, but at least 10 days, prior to the expiration date of the plan. The notice shall include the circumstances that prevented a timely completion of the timber operations under the plan and, consistent with Section 4583, an agreement to comply with this chapter and the rules and regulations of the board as these exist on the date the extension notice is filed.

(c) Stocking work may continue for more than the effective period of the plan under subdivision (a), but shall be completed within five years after the conclusion of other work.

(d) A timber harvesting plan that is approved on or after January 1, 2010, to August 31, 2012, inclusive, may be extended by amendment for a two-year period in order to complete the timber operations, up to a maximum of two 2-year extensions, if the plan complies with subparagraphs (A) and (B) of paragraph (2) of subdivision (a) and the notice of extension, pursuant to subdivision (b), includes written certification by a registered professional forester that neither of the conditions in subdivision (e) has occurred.

(e) The department shall not approve an extension pursuant to subdivision (a) or (d) if either of the following has occurred:

(1) ~~Listed species, as defined in Article 1 (commencing with Section 2050) of Chapter 1.5 of Division 3~~ A species listed as endangered or threatened pursuant to Section 62200 of the Fish and Game Wildlife Code or the federal Endangered Species Act (16 U.S.C. Sec. 1531 et seq.), have been discovered in the logging area of the plan since approval of the timber harvesting plan.

(2) Significant physical changes to the harvest area or adjacent areas have occurred since the timber harvesting plan's cumulative impacts were originally assessed.

(f) An extension of a timber harvesting plan on which either of the conditions in subdivision (e) has occurred may be obtained only pursuant to Section 1039 of Title 14 of the California Code of Regulations.

Comment. Paragraph (1) of subdivision (e) of Section 4590 is amended to reflect the recodification of the former Fish and Game Code.

Note. Public Resources Code Section 4590(e)(1) refers to a “[l]isted species, as defined in Article 1 (commencing with Section 2050) of Chapter 1.5 of Division 3 of the Fish and Game Code.” The referenced article, which begins the California Endangered Species Act, does not contain a definition of the term “listed species.” However, it seems clear from context and common usage that the term means a species that is on the list of endangered or threatened species maintained by the Fish and Game Commission. The reference has been revised accordingly.

The Commission requests public comment on whether that revision would cause any problems.

Pub. Res. Code § 4593.6 (amended).

SEC. _____. Section 4593.6 of the Public Resources Code is amended to read:

4593.6. Upon receipt of the nonindustrial timber management plan, the department shall place it, or a true copy thereof, in a file available for public inspection in the county in which timber operations are proposed under the plan, and, for the purpose of interdisciplinary review, shall transmit a copy to the Department of Fish and Game Wildlife, the appropriate California regional water quality control board, the county planning agency, and all other agencies having jurisdiction by law over natural resources affected by the plan. The department shall invite, consider, and respond in writing to comments received from public agencies to which the plan has been transmitted and shall consult with those agencies at their request.

Comment. Section 4593.6 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 4597 (amended).

SEC. _____. Section 4597 of the Public Resources Code is amended to read:

4597. (a) The Legislature finds and declares all of the following:

(1) The nonindustrial timber management plan established pursuant to Article 7.5 (commencing with Section 4593) has been successful in meeting the intent of this chapter by encouraging prudent and responsible forest management and discouraging accelerated timberland conversion by private nonindustrial forest landowners.

(2) There have been more than 850 nonindustrial timber management plans approved by the department covering a combined area of more than 360,000 acres.

(3) Building upon the model provided by the nonindustrial timber management plan, it is the policy of the state to encourage long-term planning, increased productivity of timberland, and the conservation of open space on a greater number of nonindustrial working forest ownerships and acreages.

(4) It is the policy of the state to encourage prudent and responsible forest resource management of nonindustrial timberlands by approving working forest management plans in advance and authorizing working forest timber harvest notices to be filed ministerially.

(5) To ensure long-term benefits such as added carbon sequestration, local and regional employment and economic activity, sustainable production of timber and other forest products, aesthetics, and the maintenance of ecosystem processes and services, the working forest management plan shall comply with rigorous timber inventory standards that are subject to periodic review and verification.

(b) This article shall be implemented in a manner that complies with the applicable provisions of this chapter and other laws, including, but not limited to,

1 the Timberland Productivity Act of 1982 (Chapter 6.7 (commencing with Section
2 51100) of Division 1 of Title 5 of the Government Code), the California
3 Environmental Quality Act (Division 13 (commencing with Section 21000) of the
4 Public Resources Code), the Porter Cologne Water Quality Control Act (Division 7
5 (commencing with Section 13000) of the Water Code), and the California
6 Endangered Species Act (~~Chapter 1.5 (commencing with Section 2050) Part 1~~
7 (commencing with Section 62000) of Division 17 of the Fish and Game Wildlife
8 Code). Working forest landowners, as defined in Section 4597.1, shall comply with
9 all applicable regulatory requirements of the State Water Resources Control Board
10 and the appropriate regional water quality control board.

11 **Comment.** Subdivision (b) of Section 4597 is amended to reflect the recodification of the former
12 Fish and Game Code.

13 **Pub. Res. Code § 4597.18 (amended).**

14 SEC. _____. Section 4597.18 of the Public Resources Code is amended to read:

15 4597.18. A participating landowner, in conjunction with the preparation of an
16 application for a working forest management plan filed with the department, may
17 also seek approval of a safe harbor agreement from the Department of Fish and
18 Wildlife, pursuant to ~~Article 3.7 (commencing with Section 2089.2) of Chapter 1.5~~
19 of Division 3 Title 5 (commencing with Section 63900) of Part 1 of Division 17 of
20 the Fish and Game Wildlife Code. All review costs associated with the safe harbor
21 agreement approval process incurred by the Department of Fish and Wildlife
22 pursuant to this section shall be paid from the fund created in Section 4629.3.

23 **Comment.** Section 4597.18 is amended to reflect the recodification of the former Fish and Game
24 Code.

25 **Pub. Res. Code § 4604 (amended).**

26 SEC. _____. Section 4604 of the Public Resources Code is amended to read:

27 4604. (a) The department shall provide an initial inspection of the area in which
28 timber operations are to be conducted within 10 days from the date of filing of the
29 timber harvesting plan or nonindustrial timber management plan, or a longer period
30 as may be mutually agreed upon by the department and the person submitting the
31 plan, except that the inspection need not be made pursuant to the filing of a timber
32 harvesting plan if the department determines that the inspection would not add
33 substantive information that is necessary to enforce this chapter. The department
34 shall provide for inspections, as needed, as follows:

35 (1) During the period of commencement of timber operations.

36 (2) When timber operations are well under way.

37 (3) Following completion of timber operations.

38 (4) At any other times as determined to be necessary to enforce this chapter.

39 (b)(1) The Department of Fish and Game Wildlife, the California regional water
40 quality control boards, or the State Water Resources Control Board, if accompanied
41 by Department of Forestry and Fire Protection personnel and after 24-hour advance

1 notification is given to the landowner, may enter and inspect land during normal
2 business hours at any time after commencement of timber harvest plan activities on
3 the land and before the director issues a report of satisfactory completion of stocking
4 pursuant to Section 4588 or at any time before the end of the first winter period
5 following the filing of a work completion report pursuant to Section 4585,
6 whichever is later. Any member of the inspection party may utilize whatever
7 measurement and evaluation devices, including, but not limited to, photographic
8 equipment and temperature measurement devices, that are determined to be
9 necessary, when participating in an inspection of an area pursuant to subdivision (a)
10 or after commencement of timber harvesting plan activities pursuant to this
11 subdivision.

12 (2) Photographs taken during inspections shall be clearly labeled as to time, date,
13 and location and shall be the property of the department and part of the inspection
14 record. The inspection record shall be subject to all provisions of the California
15 Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of
16 Title 1 of the Government Code).

17 (3) This subdivision is not a limitation upon the authority of any agency to inspect
18 pursuant to any other provision of law.

19 (c) This section shall become operative on January 1, 1991, or on the effective
20 date of the rules and regulations adopted by the State Board of Forestry and Fire
21 Protection pursuant to Senate Bill 1566, whichever date occurs first.

22 **Comment.** Section 4604 is amended to update a reference to the former Department of Fish and
23 Game. See Fish & Wildlife Code § 1500.

24 **Pub. Res. Code § 4629.2 (amended).**

25 SEC. _____. Section 4629.2 of the Public Resources Code is amended to read:

26 4629.2. In enacting this article, it is the intent of the Legislature to accomplish all
27 of the following:

28 (a) Promote and encourage sustainable forest practices consistent with provisions
29 of this chapter in a manner consistent with other laws, including, but not limited to,
30 the Timberland Productivity Act of 1982 (Article 1 (commencing with Section
31 51100) of Chapter 6.7 of Part 1 of Division 1 of Title 5 of the Government Code),
32 the California Environmental Quality Act (Division 13 (commencing with Section
33 21000)), the Porter-Cologne Water Quality Act (Chapter 1 (commencing with
34 Section 13000) of Division 7 of the Water Code), and the California Endangered
35 Species Act (Article 3 (commencing with Section 2080) of Chapter 1.5 of Division
36 3 Part 1 (commencing with Section 62000) of Division 17 of the Fish and Game
37 Wildlife Code).

38 (b) Ensure continued sustainable funding for the state's forest practice program to
39 protect the state's forest resources, and replace the current piecemeal funding
40 structure with a single funding source.

(c) Support in-state production of timber within the state's environmental standards, and promote and encourage retention of forests and forested landscapes.

(d) Create a funding source for the restoration of the state's forested lands and promote restoration of fisheries and wildlife habitat and improvement in water quality.

(e) Promote restoration and management of forested landscapes consistent with the California Global Warming Solutions Act of 2006 (Division 25.5 (commencing with Section 38500) of the Health and Safety Code).

(f) Promote transparency in regulatory costs and programs through the creation of performance measures and accountability for the state's forest practice regulatory program and simplify the collection and use of critical data to ensure consistency with other pertinent laws and regulations.

(g) Identify and implement efficiencies in the regulation of timber harvesting between state agencies.

(h) Modify current regulatory programs to incorporate, and provide incentives for best practices, and develop standards or strategies, where appropriate, to protect natural resources, including the development of plans that address road management and riparian function on an ownershipwide, watershedwide, or districtwide scale.

Comment. Section 4629.2 is amended to reflect the recodification of the former Fish and Game Code.

Note. In the section above, the "California Endangered Species Act" is cross-referenced, but identified as Article 3 (commencing with Section 2080) of Chapter 1.5 of Division 3 of the Fish and Game Code. If the intention of the Legislature was to refer to the entire California Endangered Species Act – as suggested by the reference to the act by name – the narrower reference to Article 3 of that Act was erroneous.

The cross-reference in Section 4629.2 has been revised to refer to the entirety of the California Endangered Species Act.

The Commission requests public comment on whether that approach would cause any problems.

Pub. Res. Code § 4629.6 (amended).

SEC. _____. Section 4629.6 of the Public Resources Code is amended to read:

4629.6. Moneys deposited in the fund shall, upon appropriation by the Legislature, only be expended for the following purposes:

(a) To reimburse the State Board of Equalization for its administrative costs associated with the administration, collection, audit, and issuance of refunds related to the lumber products and engineered wood assessment established pursuant to Section 4629.5.

(b) To pay refunds issued pursuant to Part 30 (commencing with Section 55001) of Division 2 of the Revenue and Taxation Code.

(c) To support the activities and costs of the department, the Department of Conservation, the Department of Fish and Wildlife, the State Water Resources Control Board, and regional water quality control boards associated with the review of projects or permits necessary to conduct timber operations. On or after July 1,

2013, except for fees applicable for fire prevention or protection within state responsibility area classified lands or timber yield assessments, no currently authorized or required fees shall be charged by the agencies listed in this subdivision for activities or costs associated with the review of a project, inspection and oversight of projects, and permits necessary to conduct timber operations of those departments and boards.

(d) For transfer to the department's Forest Improvement Program for forest resources improvement grants and projects administered by the department pursuant to Chapter 1 (commencing with Section 4790) and Chapter 2 (commencing with Section 4799.06) of Part 2.5.

(e) To fund existing restoration grant programs, with priority given to the Fisheries Restoration Grant Program administered by the Department of Fish and Wildlife and grant programs administered by state conservancies.

(f)(1) As a loan to the Department of Fish and Wildlife for activities to address environmental damage occurring on forest lands resulting from marijuana cultivation. Not more than five hundred thousand dollars (\$500,000) may be loaned from the fund in a fiscal year pursuant to this paragraph. This paragraph shall become inoperative on July 1, 2017.

(2) Any funds deposited into the fund pursuant to ~~subdivision (d) or (f) of Section 12025 or subdivision (b), (c), (e), or (f) of Section 12025.1~~ Section 6384, 6386, 6392, 6394, 6558 or 6560 of the Fish and Game Wildlife Code shall be credited toward loan repayment.

(3) Moneys from the General Fund shall not be used to repay a loan authorized pursuant to this subdivision.

(g) To the department for fuel treatment grants and projects pursuant to authorities under the Wildland Fire Protection and Resources Management Act of 1978 (Article 1 (commencing with Section 4461) of Chapter 7).

(h) To the department to provide grants to local agencies responsible for fire protection, qualified nonprofits, recognized tribes, local and state governments, and resources conservation districts, undertaken on a state responsibility area (SRA) or on wildlands not in an SRA that pose a threat to the SRA, to reduce the costs of wildland fire suppression, reduce greenhouse gas emissions, promote adaptation of forested landscapes to changing climate, improve forest health, and protect homes and communities.

(i) To the Natural Resources Agency to provide a reasonable per diem for attendance at a meeting of the advisory body for the state's forest practice program by a member of the body who is not an employee of a government agency.

Comment. Paragraph (2) of subdivision (f) of Section 4629.6 is amended to reflect the recodification of the former Fish and Game Code.

Note. In the tentative recommendation, the provisions of the existing Fish and Game Code sections that are cross-referenced in the section above have been continued in several different

sections of the proposed Fish and Wildlife Code.

The Commission requests public comment on the proposed conforming revision of those provisions in the section above.

Pub. Res. Code § 4662 (amended).

SEC. _____. Section 4662 of the Public Resources Code is amended to read:

4662. The department is responsible for the establishment and development of the Sequel Demonstration State Forest and for ongoing maintenance and operations. The director shall appoint an advisory committee to assist the department in planning future management of the forest. The advisory committee shall include representatives of the Santa Cruz County Board of Supervisors, the Department of Parks and Recreation, the State Board of Forestry and Fire Protection, the Forest of Nisene Marks Advisory Committee, and the Department of Fish and Game Wildlife.

Comment. Section 4662 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 4799.10 (amended).

SEC. _____. Section 4799.10 of the Public Resources Code is amended to read:

4799.10. (a)(1) The department shall implement a program in urban forestry to encourage better tree management and planting in urban areas to increase integrated, multiple benefit projects by assisting urban areas with innovative solutions to problems, including reductions in the emissions of greenhouse gases, mitigation of public health impacts of poor air and water quality, mitigation of urban heat island effect, improved capture of stormwater and dry weather runoff, addressing water shortages, lack of green space, lack of urban parks that are accessible to pedestrians, vandalism, and insufficient tree maintenance, and to otherwise accomplish the purposes of this chapter.

(2) The department shall encourage demonstration projects that maximize the benefits of urban forests in conjunction with state and local agency programs to improve carbon sequestration, water conservation, energy conservation, stormwater capture and reuse, urban forest maintenance, urban parks and river parkways, school construction and improvements, school greening or sun-safe schoolyards, air quality, water quality, flood management, urban revitalization, solid waste prevention, and other projects.

(3) The department shall establish local or regional targets for urban tree canopy, with emphasis on disadvantaged communities that tend to be most vulnerable to urban heat island effect. These targets shall include urban forest diversity, tree species' adaptability to anticipated climate change impacts, and other relevant factors.

(4) The department shall assume the primary responsibility in carrying out the intent of this chapter in cooperation with statewide and regional urban forestry organizations or associations and arboricultural organizations or associations, other private and public entities or persons, and appropriate local, state, and federal

1 agencies, including, but not limited to, the Department of Water Resources, the
2 California Environmental Protection Agency, the Department of Fish and Game
3 Wildlife, the Department of Food and Agriculture, regional water quality control
4 boards, regional and local air districts, the University of California Cooperative
5 Extension, the Department of Parks and Recreation, the Department of
6 Transportation, resource conservation districts, and the United States Forest
7 Service.

8 (b)(1) The department shall be the agent of the state and shall have full power to
9 cooperate with those agencies of the federal government that have powers and duties
10 concerning urban forestry and shall perform all things necessary to secure the
11 benefits of federal urban forestry programs.

12 (2) To facilitate implementation of this chapter, the director may enter into
13 agreements and contracts with a public or private organization including a local
14 agency that has urban forestry-related jurisdictional responsibilities and an
15 established and operating urban forestry program. The director shall consult with
16 those agencies when carrying out this chapter in their respective areas.

17 (c) The director shall take all feasible steps to prevent or retard the introduction,
18 establishment, and spread of known or potentially damaging or devastating pests
19 and diseases. Any agreement shall ensure that the department will not need
20 additional funds to participate in the program.

21 (d) The department and the Department of Food and Agriculture shall cooperate
22 in setting quarantine boundary lines and in enforcing the provisions relating to
23 quarantine and pest abatement contained in Division 4 (commencing with Section
24 5001) of the Food and Agricultural Code when a quarantine is established to prevent
25 the spread of introduced pests and diseases affecting the state's urban forests.

26 (e) Whenever it is feasible to do so, the department may utilize inmates and wards
27 assigned to conservation camps or the California Conservation Corps or certified
28 Community Conservation Corps in implementing this chapter.

29 (f) The department may utilize available recipients of CalWORKs or the General
30 Assistance Program, who are participating in state or county work experience
31 programs for carrying out the purposes of this chapter. The participation of
32 registrants for the welfare-to-work program under the CalWORKs program, under
33 Article 3.2 (commencing with Section 11320) of Chapter 2 of Part 3 of Division 9
34 of the Welfare and Institutions Code, shall be consistent with their participant
35 contract requirements. A person being utilized by the department pursuant to this
36 subdivision shall not be placed in the same crew as persons utilized pursuant to
37 subdivision (e).

38 (g) The department shall develop or update regulations as necessary to implement
39 the requirements of this section.

40 **Comment.** Section 4799.10 is amended to update a reference to the former Department of Fish
41 and Game. See Fish & Wildlife Code § 1500.

1 **Pub. Res. Code § 4800 (amended).**

2 SEC. _____. Section 4800 of the Public Resources Code is amended to read:
3 4800. It is the intent of the Legislature, in enacting this chapter, to do all of the
4 following:

5 (a) To provide coordination on wildlife and timberland issues within the
6 Resources Agency.

7 (b) To improve and coordinate the state data bases for use in analyzing the
8 cumulative impacts of timber harvesting pursuant to the California Environmental
9 Quality Act (Division 13 (commencing with Section 21000)).

10 (c) To improve the technical basis upon which the Department of Fish and Game
11 Wildlife predicates recommendations for mitigating site-specific and cumulative
12 effects on wildlife from timber harvesting activities.

13 (d) To provide recommendations to the board concerning creation of a list of
14 species of special concern for which additional forest practices rules may be needed.

15 (e) To provide recommendations to the Fish and Game Commission concerning
16 additions to its list of species that are threatened or endangered.

17 (f) To provide authority to the state to work cooperatively with the United States
18 Forest Service, including the ability to provide and receive funding for wildlife
19 studies.

20 **Comment.** Section 4800 is amended to update a reference to the former Department of Fish and
21 Game. See Fish & Wildlife Code § 1500.

22 **Pub. Res. Code § 5003.1 (amended).**

23 SEC. _____. Section 5003.1 of the Public Resources Code is amended to read:

24 5003.1. (a) The Legislature finds and declares that it is in the public interest to
25 permit hunting, fishing, swimming, trails, camping, campsites, and rental vacation
26 cabins in certain state recreation areas, or portions thereof, when it is found by the
27 State Park and Recreation Commission that multiple use of state recreation areas
28 would not threaten the safety and welfare of other state recreation area users.
29 Hunting shall not be permitted in any unit now in the state park system and officially
30 opened to the public on or before June 1, 1961, or in any unit hereafter acquired and
31 designated by the commission as a state park, state marine reserve, state marine
32 park, state reserve, state marine conservation area, or state marine cultural
33 preservation area, and may only be permitted in new recreational areas and state
34 marine recreational management areas that are developed for that use.

35 (b) Whenever hunting or fishing is permitted in a state recreation area or state
36 marine recreational management area, and whenever fishing is permitted in a state
37 park, state marine park, state marine cultural preservation area, or state marine
38 conservation area, the Department of Fish and Game Wildlife shall enforce hunting
39 and fishing laws and regulations as it does elsewhere in the state.

40 **Comment.** Section 5003.1 is amended to update a reference to the former Department of Fish
41 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
42 designations.

1 **Pub. Res. Code § 5003.35 (amended).**

2 SEC. _____. Section 5003.35 of the Public Resources Code is amended to read:

3 5003.35. Notwithstanding Section 5003.1, waterfowl hunting shall be allowed at
4 the Lake Earl and Lake Talawa project in accordance with the existing interagency
5 agreement with the Department of Fish and Game Wildlife and with regulations of
6 the Fish and Game Commission governing waterfowl hunting at the project. The
7 agreement shall be extended until such time as the project is classified as a unit of
8 the state park system.

9 **Comment.** Section 5003.35 is amended to update a reference to the former Department of Fish
10 and Game. See Fish & Wildlife Code § 1500.

11 **Pub. Res. Code § 5006.41 (amended).**

12 SEC. _____. Section 5006.41 of the Public Resources Code is amended to read:

13 5006.41. (a) The department may enter into agreements with the Department of
14 Water Resources and the Department of Fish and Game Wildlife to plan, develop,
15 and administer real and personal property located in the vicinity of Oroville. The
16 department shall carry out a program in that unit of development, maintenance,
17 administration, and conservation of trails and areas for the recreational use of off-
18 highway vehicles. Areas for the recreational use of off-highway vehicles shall be
19 administered pursuant to Chapter 1.25 (commencing with Section 5090.01).

20 (b) Any fees, rentals, or other returns collected by the department in its
21 administration of the unit shall be paid into the State Treasury to the credit of the
22 Off-Highway Vehicle Fund.

23 **Comment.** Section 5006.41 is amended to update a reference to the former Department of Fish
24 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
25 designations.

26 **Pub. Res. Code § 5006.6 (amended).**

27 SEC. _____. Section 5006.6 of the Public Resources Code is amended to read:

28 5006.6. (a) The department, with the approval of the Administrator of the
29 Resources Agency and the Department of Finance, is authorized to cooperate and
30 participate with the federal government pursuant to Public Law 89-161 in the
31 development of recreation facilities, or with the approval of the Department of Fish
32 and Game Wildlife, fish and wildlife enhancement facilities, or both, at Auburn
33 Dam and Reservoir, Folsom Dam and Reservoir, Nimbus Dam and Lake Natomas,
34 and County Line Dam and Reservoir, and stream areas in the immediate vicinity of
35 these facilities.

36 (b) The department, with the approval of the Administrator of the Resources
37 Agency and the Department of Finance, is authorized to administer unit land and
38 water areas for recreation or fish and wildlife enhancement, or both, and to contract
39 with the federal government for the operation, maintenance, and replacement of unit
40 facilities, to assume all costs of such operation, maintenance, and replacement, and
41 to accept transfer of unit lands or facilities by lease or exchange upon such terms

1 and conditions as will best promote the development and operation of such lands or
2 facilities in the public interest for recreation or fish and wildlife enhancement
3 purposes, or both. Any such contract entered into by the department which affects
4 the operation, maintenance or replacement of fish and wildlife enhancement features
5 is subject to approval by the Department of Fish and Game Wildlife.

6 (c) The State of California, acting by and through the department, with the
7 approval of the Administrator of the Resources Agency and the Department of
8 Finance, is authorized to enter into a contract or contracts with the federal
9 government to pay or repay one-half of the separable capital costs involved in the
10 development of the recreation or fish and wildlife enhancement features, or both, at
11 the Auburn Dam and Reservoir, Folsom Dam and Reservoir, Nimbus Dam and Lake
12 Natomas, and County Line Dam and Reservoir, and stream areas in the immediate
13 vicinity of these facilities, pursuant to the provisions of Public Law 89-161. The
14 agreement for the payment or repayment of the separable capital costs shall be
15 limited to those recreation or fish and wildlife enhancement facilities, or both,
16 specified in the contract. Such payments or repayments may be made by any or all
17 of the following methods: by legislative appropriation; by provision of lands,
18 interests therein, or facilities for the unit; or by a contract or contracts for repayment,
19 with interest, within 50 years of first use of unit recreation or fish and wildlife
20 enhancement facilities specified in the contract or contracts. The source of
21 repayment may be limited to entrance and user fees or charges collected at the unit
22 by the department if such fees or charges dedicated to repayment are established on
23 a basis calculated to achieve repayment and are made subject to review and
24 renegotiation at intervals of not more than five years. If the source of repayment is
25 so limited, revenues derived from such fees or charges shall be deposited in a special
26 account in the Special Deposit Fund in the State Treasury and used for the purpose
27 of such repayment. If not so limited, the source of repayment shall be such
28 appropriations of funds as may from time to time be made for such purpose by the
29 Legislature.

30 (d) The department shall cooperate with any local public body authorized to
31 contract with the federal government pursuant to Public Law 89-161, including, but
32 not limited to, the Counties of El Dorado, Placer, and Sacramento, in planning of
33 any proposed participation with the federal government. The state may contract with
34 any or all of such counties or other local public bodies for the operation,
35 maintenance, and replacement of unit facilities, or any portion thereof, if requested
36 by any or all such counties or other local public bodies.

37 **Comment.** Section 5006.6 is amended to update references to the former Department of Fish
38 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
39 designations.

40 **Pub. Res. Code § 5019.80 (amended).**

41 SEC. _____. Section 5019.80 of the Public Resources Code is amended to read:

1 5019.80. (a) The Marine Managed Areas Improvement Act (Chapter 7
2 (commencing with Section 36600) of Division 27) establishes a uniform
3 classification system for state marine managed areas and is incorporated herein by
4 reference. Any proposals for marine managed areas made after January 1, 2002,
5 shall follow the guidelines set forth in that act. Pursuant to Section 36750, existing
6 marine or estuarine areas within units of the state park system that have not been
7 reclassified in accordance with the Marine Life Protection Act (~~Chapter 10.5~~
8 ~~(commencing with Section 2850)~~ of Division 3 Part 2 (commencing with Section
9 60400) of Division 16 of the Fish and Game Wildlife Code) on January 1, 2002,
10 shall be reclassified by the State Interagency Coordinating Committee into one of
11 the following classifications:

12 (1) State marine reserve.

13 (2) State marine park.

14 (3) State marine conservation area.

15 (4) State marine cultural preservation area.

16 (5) State marine recreational management area.

17 (b) The process for establishing, deleting, or modifying state marine reserves,
18 state marine parks, state marine conservation areas, state marine cultural
19 preservation areas, and state marine recreational management areas shall be
20 established pursuant to that act. The restrictions and allowable uses applicable to
21 those areas are as set forth in that act.

22 **Comment.** Section 5019.80 is amended to reflect the recodification of the former Fish and Game
23 Code.

24 **Pub. Res. Code § 5075.8 (amended).**

25 SEC. _____. Section 5075.8 of the Public Resources Code is amended to read:

26 5075.8. (a) The department may convene a planning task force in order to
27 facilitate the development of a comprehensive plan for the San Joaquin River
28 Parkway.

29 The task force shall include, but not be limited to, a representative of the following
30 entities:

31 (1) State Lands Commission.

32 (2) Department of Parks and Recreation.

33 (3) Department of Fish and Game Wildlife.

34 (4) State Reclamation Board.

35 (5) County of Fresno.

36 (6) County of Madera.

37 (7) City of Fresno.

38 (8) Fresno County and City Chamber of Commerce.

39 (9) Fresno Sand and Gravel Producers.

40 (10) San Joaquin River Property Owners Association.

41 (11) Upper San Joaquin River Association.

(12) San Joaquin River Parkway and Conservation Trust.

(13) San Joaquin River Committee.

(b) The plan shall be submitted to the Legislature not later than June 1, 1991.

Comment. Section 5075.8 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 5080.39 (amended).

SEC. _____. Section 5080.39 of the Public Resources Code is amended to read:

5080.39. The department and other appropriate state and local agencies, and federal agencies to the extent permitted by federal law, with jurisdiction over inland waters are encouraged to cooperate with private groups and associations in order to do fish habitat and restoration work to implement the Adopt a Lake Program pursuant to Section ~~2003.5~~ 57775 of the Fish and ~~Game~~ Wildlife Code.

Comment. Section 5080.39 is amended to reflect the recodification of the former Fish and Game Code.

Pub. Res. Code § 5093.542 (amended).

SEC. _____. Section 5093.542 of the Public Resources Code is amended to read:

5093.542. The Legislature finds and declares that the McCloud River possesses extraordinary resources in that it supports one of the finest wild trout fisheries in the state. Portions of the river have been appropriately designated by the Fish and Game Commission, pursuant to ~~Chapter 7.2 (commencing with Section 1725) of Division 2 Chapter 1 (commencing with Section 11700) of Title 2 of Part 4 of Division 6~~ of the Fish and ~~Game~~ Wildlife Code, as wild trout waters, with restrictions on the taking, or method of taking, of fish. The Legislature has determined, based upon a review of comprehensive technical data evaluating resources and potential beneficial uses, that potential beneficial uses must be balanced, in order to achieve protection of the unique fishery resources of the McCloud River, as follows:

(a) The continued management of river resources in their existing natural condition represents the best way to protect the unique fishery of the McCloud River. The Legislature further finds and declares that maintaining the McCloud River in its free-flowing condition to protect its fishery is the highest and most beneficial use of the waters of the McCloud River within the segments designated in subdivision (b), and is a reasonable use of water within the meaning of Section 2 of Article X of the California Constitution.

(b) No dam, reservoir, diversion, or other water impoundment facility shall be constructed on the McCloud River from Algoma to the confluence with Huckleberry Creek, and 0.25 mile downstream from the McCloud Dam to the McCloud River Bridge; nor shall any such facility be constructed on Squaw Valley Creek from the confluence with Cabin Creek to the confluence with the McCloud River.

(c) Except for participation by the Department of Water Resources in studies involving the technical and economic feasibility of enlargement of Shasta Dam, no department or agency of the state shall assist or cooperate with, whether by loan,

1 grant, license, or otherwise, any agency of the federal, state, or local government in
2 the planning or construction of any dam, reservoir, diversion, or other water
3 impoundment facility that could have an adverse effect on the free-flowing
4 condition of the McCloud River, or on its wild trout fishery.

5 (d) All state agencies exercising powers under any other provision of law with
6 respect to the protection and restoration of fishery resources shall continue to
7 exercise those powers in a manner to protect and enhance the fishery of those
8 segments designated in subdivision (b). In carrying out this subdivision, any
9 exercise of powers shall be consistent with Section 5093.58.

10 (e) Nothing in this section shall prejudice, alter, affect in any way, or interfere
11 with the construction, maintenance, repair, or operation by the Pacific Gas and
12 Electric Company of the existing McCloud-Pit development (FERC 2106) under its
13 license, or prevent Pacific Gas and Electric from constructing a hydroelectric
14 generating facility by retrofitting the existing McCloud Dam if the operation of the
15 facility does not alter the existing flow regime below the dam.

16 **Comment.** Section 5093.542 is amended to reflect the recodification of the former Fish and
17 Game Code.

18 **Pub. Res. Code § 5094.1 (amended).**

19 SEC. _____. Section 5094.1 of the Public Resources Code is amended to read:

20 5094.1. (a) The Secretary of the Resources Agency, with the approval of the
21 Director of Finance and upon specific authorization by the Legislature, may indicate
22 in writing the state's intent to agree to administer any federal multiple-purpose water
23 project land and water areas for recreation or fish and wildlife enhancement, or both
24 of these purposes, as provided in Public Law 89-72. The secretary, as to each
25 proposed state participation, shall submit any proposed indication of intent, together
26 with supporting material, to the Legislature.

27 (b) The secretary, before requesting legislative authorization, shall determine that
28 the proposed state participation in the project is in compliance with all
29 comprehensive water, recreation, and fish and wildlife plans of the state.

30 (c) Notwithstanding the provisions of this section, the Department of Fish and
31 Game Wildlife may review and coordinate the development of fish and wildlife
32 enhancement features at federal water projects with fish and wildlife plans of the
33 state, irrespective of whether the state agrees to administer the project.

34 **Comment.** Section 5094.1 is amended to update a reference to the former Department of Fish
35 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
36 designations.

37 **Pub. Res. Code § 5094.2 (amended).**

38 SEC. _____. Section 5094.2 of the Public Resources Code is amended to read:

39 5094.2. With respect to each project as to which a letter of intent has been given,
40 the Resources Agency through the Department of Parks and Recreation and the
41 Department of Fish and Game Wildlife, in cooperation with affected local public

1 agencies, shall conduct an investigation and study of the project with respect to the
2 areas of interest of each and prepare plans of the proposed state participation therein.
3 The plans shall be submitted, upon request, to each affected local public agency for
4 its review and comments thereon. The comments shall be transmitted to the agency
5 by the affected local public agency within such period as determined by the
6 administrator, which period shall be not less than 30 days nor more than 60 days
7 from the date of submission to the local public agency.

8 **Comment.** Section 5094.2 is amended to update a reference to the former Department of Fish
9 and Game. See Fish & Wildlife Code § 1500.

10 **Pub. Res. Code § 5094.3 (amended).**

11 SEC. _____. Section 5094.3 of the Public Resources Code is amended to read:

12 5094.3. Upon specific authorization of state participation by the Legislature:

13 (a) The Department of Parks and Recreation and the Department of Fish and
14 Game Wildlife may cooperate and participate with the federal government pursuant
15 to Public Law 89-72 in the development of recreation and fish and wildlife
16 enhancement at federal water projects. Where both the recreation and fish and
17 wildlife enhancement functions are involved in a project the department having the
18 principal interest as designated by the Administrator of the Resources Agency shall
19 be the contracting agency with the federal government. In such case the contract
20 shall be subject to approval of the other department.

21 (b) The departments may (1) administer unit land and water areas for recreation
22 or fish and wildlife enhancement, or both, (2) contract with the federal government
23 for the operation, maintenance, and replacement of unit facilities, (3) assume all
24 costs of such operation, maintenance, and replacement, and (4) accept transfer of
25 unit lands or facilities by lease or exchange upon such terms and conditions as will
26 best promote the development and operation of such lands or facilities in the public
27 interest for recreation or fish and wildlife enhancement purposes, or both.

28 (c) The departments may enter into a contract or contracts with the federal
29 government to pay or repay one-half of the separable capital costs involved in the
30 development of the recreation or fish and wildlife enhancement features, or both, at
31 the project pursuant to the provisions of Public Law 89-72, consistent with the
32 reports provided for in Section 5094.2. The agreement for the payment or repayment
33 of the separable capital costs shall be limited to those recreation or fish and wildlife
34 enhancement facilities, or both, specified in the contract. Such payments or
35 repayments may be made by any or all of the following methods: by legislative
36 appropriation; by provision of lands, interests therein, or facilities for the project; or
37 by a contract or contracts for repayment, with interest, within 50 years of first use
38 of project recreation or fish and wildlife enhancement facilities specified in the
39 contract or contracts. The source of repayment may be limited to entrance and user
40 fees or charges collected at the project by the contracting department if such fees or
41 charges dedicated to repayment are established on a basis calculated to achieve

1 repayment and are made subject to review and renegotiation at intervals of not more
2 than five years. If the source of repayment is so limited, revenues derived from such
3 fees or charges shall be deposited in a special account in the Special Deposit Fund
4 in the State Treasury and used for the purpose of such repayment. If not so limited,
5 the source of repayment shall be such appropriations of funds as may from time to
6 time be made for such purpose by the Legislature.

7 **Comment.** Section 5094.3 is amended to update a reference to the former Department of Fish
8 and Game. See Fish & Wildlife Code § 1500.

9 **Pub. Res. Code § 5096.129 (amended).**

10 SEC. _____. Section 5096.129 of the Public Resources Code is amended to read:

11 5096.129. (a) Any project involving state funds only, pursuant to subdivisions (b),
12 (c), and (e) of Section 5096.124, shall originate by resolution of the Legislature or
13 of the State Park and Recreation Commission directing a study of the proposed
14 project or by action of the Secretary of the Resources Agency, either on his own
15 initiative, or, with respect to projects to be funded pursuant to subdivision (e) of
16 Section 5096.124, at the request of the Director of Water Resources, directing a
17 study of the proposed project.

18 (b) The costs of these project studies shall be borne by the State, Urban, and
19 Coastal Park Fund.

20 (c) Allocations for the purposes of subdivision (d) of Section 5096.124 that are
21 authorized by the Legislature and approved by the Governor shall be made from the
22 State, Urban, and Coastal Park Fund and shall be expended in accordance with the
23 provisions of the Wildlife Conservation Law of 1947 (Chapter 4 (commencing with
24 Section 1300), Division 2, Title 1 (commencing with Section 54700) of Part 2 of
25 Division 15 of the Fish and Game Wildlife Code).

26 **Comment.** Section 5096.129 is amended to reflect the recodification of the former Fish and
27 Game Code. The section is also amended to add subdivision designations.

28 **Pub. Res. Code § 5096.310 (amended).**

29 SEC. _____. Section 5096.310 of the Public Resources Code is amended to read:

30 5096.310. The proceeds of bonds issued and sold pursuant to this chapter shall be
31 deposited in the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal
32 Protection (Villaraigosa-Keeley Act) Bond Fund, which is hereby created. Unless
33 otherwise specified and except as provided in subdivision (m), the money in the
34 fund shall be available for appropriation by the Legislature, in the manner set forth
35 in this chapter, only for parks and resources improvement, in accordance with the
36 following schedule:

37 (a) The sum of five hundred two million seven hundred fifty thousand dollars
38 (\$502,750,000) to the department for the following purposes:

39 (1) To rehabilitate, restore, and improve units of the state park system that will
40 ensure that state park system lands and facilities will remain open and accessible for
41 public use.

1 (2) To develop, improve, rehabilitate, restore, enhance, and protect facilities and
2 trails at existing units of the state park system that will provide for optimal
3 recreational and educational use, activities, improved access and safety, and the
4 acquisition from a willing seller of inholdings and adjacent lands. Adjacent lands
5 are lands contiguous to, or in the immediate vicinity of, existing state park system
6 lands and that directly benefit an existing state park system unit.

7 (3) For stewardship of the public investment in the preservation of the critical
8 natural heritage and scenic features, and cultural heritage stewardship projects that
9 will preserve vanishing remnants of California's landscape, and protect and promote
10 a greater understanding of California's past, and the planning necessary to
11 implement those efforts.

12 (4) For facilities and improvements to enhance volunteer participation in the state
13 park system.

14 (5) To develop, improve, and expand interpretive facilities at units of the state
15 park system, including educational exhibits and visitor orientation centers.

16 (6) To rehabilitate and repair aging facilities at winter recreation facilities
17 pursuant to the Sno-Park program, as provided for in Chapter 1.27 (commencing
18 with Section 5091.01), that provide for improved public safety.

19 (7) For projects that improve air quality related to the state park system, including,
20 but not limited to, the purchase of low-emission or advanced technology vehicles
21 and equipment and clean fuel distribution facilities that will avoid or reduce air
22 emissions at state park facilities.

23 (b) The sum of eighteen million dollars (\$18,000,000) to the department to
24 undertake stewardship projects, including cultural resources stewardship and
25 natural resources stewardship projects, that will restore and protect the natural
26 treasures of the state park system, preserve vanishing remnants of California's
27 landscape, and protect and promote a greater understanding of California's past.

28 (c) The sum of four million dollars (\$4,000,000) to the department for facilities
29 and improvements to enhance volunteer participation in the state park system.

30 (d) The sum of twenty million dollars (\$20,000,000) to the department for grants
31 to local agencies administering units of the state park system under an operating
32 agreement with the department, for the development, improvement, rehabilitation,
33 restoration, enhancement, protection, and interpretation of lands and facilities of,
34 and improved access to, those locally operated units.

35 (e) The sum of ten million dollars (\$10,000,000) to the department for purposes
36 consistent with Section 5079.10, for competitive grants, in accordance with Section
37 5096.335.

38 (f) The sum of three hundred eighty-eight million dollars (\$388,000,000) to the
39 department for grants, in accordance with Sections 5096.332, 5096.333, and
40 5096.336, on the basis of population, for the acquisition, development,
41 improvement, rehabilitation, restoration, enhancement, and interpretation of local
42 park and recreational lands and facilities, including renovation of recreational

1 facilities conveyed to local agencies resulting from the downsizing or
2 decommissioning of federal military installations.

3 (g) The sum of two hundred million dollars (\$200,000,000) to the department for
4 grants to cities, counties, and districts for the acquisition, development,
5 rehabilitation, and restoration of park and recreation areas and facilities pursuant to
6 the Roberti-Z'berg-Harris Urban Open-Space and Recreational Program Act
7 (Chapter 3.2 (commencing with Section 5620)).

8 (h) The sum of ten million dollars (\$10,000,000) to the department for grants, in
9 accordance with Section 5096.337, for the improvement or acquisition and
10 restoration of riparian habitat, riverine aquatic habitat, and other lands in close
11 proximity to rivers and streams for river and stream trail projects undertaken in
12 accordance with Section 78682.2 of the Water Code, and for purposes of Section
13 7048 of the Water Code.

14 (i) The sum of ten million dollars (\$10,000,000) to the department for grants, in
15 accordance with Section 5096.337, for the development, improvement,
16 rehabilitation, restoration, enhancement, and interpretation of nonmotorized trails
17 for the purpose of increasing public access to, and enjoyment of, public areas for
18 increased recreational opportunities. Not less than one million five hundred
19 thousand dollars (\$1,500,000) of this amount shall be allocated toward the
20 completion of a project that links existing bicycle and pedestrian trail systems to
21 major urban public transportation systems, to promote increased recreational
22 opportunities and nonmotorized commuter usage in the City of Whittier. Of this
23 amount, no less than two hundred seventy-five thousand dollars (\$275,000) shall be
24 allocated to the East Bay Regional Park District toward the completion of the Iron
25 Horse Trail. Of this amount, not less than one million dollars (\$1,000,000) shall be
26 allocated to a regional park district for the completion of a bike trail in the City of
27 Concord.

28 (j) The sum of one hundred million dollars (\$100,000,000) to the department for
29 grants to public agencies and nonprofit organizations for park, youth center, and
30 environmental enhancement projects that benefit youth in areas that lack safe
31 neighborhood parks, open space, and natural areas, and that have significant
32 poverty.

33 (k) The sum of two million five hundred thousand dollars (\$2,500,000) to the
34 California Conservation Corps to complete capital outlay and resource conservation
35 projects and administrative costs allocable to the bond funded projects.

36 (l) The sum of eighty-six million five hundred thousand dollars (\$86,500,000) to
37 the department for the following purposes:

38 (1) The sum of seventy-one million five hundred thousand dollars (\$71,500,000)
39 for grants, in accordance with Sections 5096.339 and 5096.340, for urban
40 recreational and cultural centers, including, but not limited to, zoos, museums,
41 aquariums, and facilities for wildlife, environmental, or natural science aquatic
42 education or projects that combine curation of archaeological, paleontological, and

1 historic resources with education and basic and applied research, and that emphasize
2 specimens of California's extinct prehistoric plants and animals.

3 (2) The sum of fifteen million dollars (\$15,000,000) for grants for regional youth
4 soccer and baseball facilities operated by nonprofit organizations. Priority shall be
5 given to those grant projects that utilize existing school facilities or recreation
6 facilities and serve disadvantaged youth.

7 (m) Notwithstanding Section 13340 of the Government Code, the sum of two
8 hundred sixty-five million five hundred thousand dollars (\$265,500,000) is, except
9 as provided in Section 5096.350, hereby continuously appropriated to the Wildlife
10 Conservation Board, without regard to fiscal years, in accordance with Section
11 5096.350.

12 (n) The sum of fifty million dollars (\$50,000,000) to the California Tahoe
13 Conservancy, in accordance with Section 5096.351.

14 (o) The sum of two hundred twenty million four hundred thousand dollars
15 (\$220,400,000) to the State Coastal Conservancy, in accordance with Section
16 5096.352.

17 (p) The sum of thirty-five million dollars (\$35,000,000) to the Santa Monica
18 Mountains Conservancy, in accordance with Section 5096.353.

19 (q) The sum of five million dollars (\$5,000,000) to the Coachella Valley
20 Mountains Conservancy, in accordance with Section 5096.354.

21 (r) The sum of fifteen million dollars (\$15,000,000) to the San Joaquin River
22 Conservancy, in accordance with Section 5096.355.

23 (s) The sum of twelve million five hundred thousand dollars (\$12,500,000) to the
24 California Conservation Corps for grants for the certified local community
25 conservation corps program to complete capital outlay and resource conservation
26 projects.

27 (t) The sum of twenty-five million dollars (\$25,000,000) to the Department of
28 Conservation in accordance with Section 5096.356.

29 (u) The sum of ten million dollars (\$10,000,000) to the Department of Forestry
30 and Fire Protection for urban forestry programs in accordance with Section 4799.12.
31 The grants made pursuant to this subdivision shall be for costs associated with the
32 purchase and planting of trees, and up to three years of care which ensures the long-
33 term viability of those trees.

34 (v) Notwithstanding Section 711 3465 of the Fish and Game Wildlife Code, the
35 sum of twelve million dollars (\$12,000,000) to the Department of Fish and Game
36 Wildlife for the following purposes:

37 (1) The sum of five million dollars (\$5,000,000) for expenditure in accordance
38 with subdivision (a) of Section 5096.357.

39 (2) The sum of five million dollars (\$5,000,000) for expenditure in accordance
40 with subdivision (b) of Section 5096.357.

41 (3) The sum of two million dollars (\$2,000,000) to remove nonnative vegetation
42 harmful to ecological reserves in San Diego County.

1 (w) The sum of thirty million dollars (\$30,000,000) shall be available for purposes
2 of Chapter 4.5 (commencing with Section 31160) of Division 21. Two hundred fifty
3 thousand dollars (\$250,000) shall be allocated to Mount Diablo State Park.

4 (x) The sum of seven million dollars (\$7,000,000) to the California Integrated
5 Waste Management Board for grants to local agencies to assist them in meeting state
6 and federal accessibility standards relating to public playgrounds if the local agency
7 guarantees that 50 percent of the grant funds will be used for the improvement or
8 replacement of playground equipment or facilities through the use of recycled
9 materials and that matching funds in an amount equal to not less than 50 percent of
10 the total amount of those grant funds will be provided through either public or
11 private funds or in-kind contributions. The board may reduce this matching fund
12 requirement to not less than 25 percent if it determines that the 50-percent
13 requirement would impose an extreme financial hardship on the local agency
14 applying for the grant. The board may expend the funds allocated pursuant to this
15 subdivision, upon appropriation by the Legislature, for the purposes specified
16 herein.

17 (y) The sum of fifteen million dollars (\$15,000,000) to a city for rehabilitation,
18 restoration, or enhancement to a city park that is over 1,000 acres that serves an
19 urban area of over 750,000 population in northern California and that provides
20 recreational, cultural, and scientific resources.

21 (z)(1) The sum of six million two hundred fifty thousand dollars (\$6,250,000) to
22 the secretary to administer grants to the Sierra Nevada-Cascade Program, in
23 accordance with Section 5096.347.

24 (2) The sum of thirty-three million five hundred thousand dollars (\$33,500,000)
25 to the secretary to administer a river parkway and restoration program to assist local
26 agencies and other districts to plan, create, and conserve river parkways. The
27 secretary shall make funds available in accordance with Sections 7048 and 78682.2
28 of the Water Code, and any other applicable authority, for the following purposes:

29 (A) Twenty-five million dollars (\$25,000,000) for the acquisition or restoration
30 of public lands within the Los Angeles River Watershed, the San Gabriel River
31 Watershed, and the San Gabriel Mountains and to provide open space,
32 nonmotorized trails, bike paths, and other low-impact recreational uses and wildlife
33 and habitat restoration and protection. Ten million dollars (\$10,000,000) shall be
34 allocated for the Los Angeles River Watershed, and fifteen million dollars
35 (\$15,000,000) shall be allocated for the San Gabriel River Watershed and the San
36 Gabriel Mountains and lower Los Angeles River.

37 (B) Two million five hundred thousand dollars (\$2,500,000) for river parkway
38 projects along the Kern River between the mouth of the Kern Canyon and I-5.

39 (C) One million dollars (\$1,000,000) for land acquisition in the Santa Clarita
40 Watershed.

41 (D) Three million dollars (\$3,000,000) for watershed, riparian, and wetlands
42 restoration along the Sacramento River in Yolo, Glenn, and Colusa Counties.

1 (E) Two million dollars (\$2,000,000) for the construction of a visitor center at a
2 state recreation area encompassing a body of water along the American River.

3 (3) The sum of two million dollars (\$2,000,000) to the secretary for resource
4 conservation and urban water recycling that addresses multicounty regional
5 recreational needs, provides habitat restoration, and enjoys joint sponsorship by
6 multiple local agencies and nonprofit organizations in the County of Sonoma.

7 (4) The sum of one million one hundred thousand dollars (\$1,100,000) to the
8 secretary, one hundred thousand dollars (\$100,000) of which shall be made
9 available to fund a community center in San Benito County, one hundred thousand
10 dollars (\$100,000) of which shall be made available to fund a veterans park in San
11 Benito County, five hundred thousand dollars (\$500,000) of which shall be made
12 available to fund a community center in the City of Galt, and four hundred thousand
13 dollars (\$400,000) of which shall be made available to fund a community center in
14 the City of Gilroy.

15 (5) The sum of two million dollars (\$2,000,000) to the secretary for Camp Arroyo
16 in Alameda County.

17 (6) The sum of one million dollars (\$1,000,000) to the secretary to construct a
18 rehabilitation center for injured endangered and indigenous wild animals at the
19 Wildhaven Center in the San Bernardino Mountains.

20 **Comment.** Subdivision (v) of Section 5096.310 is amended to reflect the recodification of the
21 former Fish and Game Code. That subdivision is also amended to update a reference to the former
22 Department of Fish and Game. See Fish & Wildlife Code § 1500.

23 **Pub. Res. Code § 5096.323 (amended).**

24 SEC. _____. Section 5096.323 of the Public Resources Code is amended to read:
25 5096.323. Fifty million dollars (\$50,000,000) of the funds allocated pursuant to
26 subdivision (a) of Section 5096.310 shall be expended for the acquisition of land
27 from willing sellers that are a high priority for both the state parks system and for
28 habitat purposes, with priority given to projects that protect habitat for rare,
29 threatened, or endangered species pursuant to a natural community conservation
30 plan adopted pursuant to Chapter 10 (commencing with Section 2800) of Division
31 10 Title 2 (commencing with Section 64500) of Part 2 of Division 17 of the Fish
32 and Game Wildlife Code, if the acquisition of the land is conducted in conjunction
33 with a natural community conservation plan approved by the Department of Fish
34 and Game Wildlife prior to January 1, 1999, or if the acquisition is approved by
35 statute. Notwithstanding paragraph (2) of subdivision (a) of Section 5096.310, those
36 land acquisitions may be for either new or existing units of the state park system.

37 **Comment.** Section 5096.323 is amended to reflect the recodification of the former Fish and
38 Game Code. The section is also amended to update a reference to the former Department of Fish
39 and Game. See Fish & Wildlife Code § 1500.

40 **Pub. Res. Code § 5096.350 (amended).**

41 SEC. _____. Section 5096.350 of the Public Resources Code is amended to read:

1 5096.350. (a) Funds appropriated pursuant to subdivision (m) of Section 5096.310
2 shall be available for expenditure by the Wildlife Conservation Board for the
3 acquisition, development, rehabilitation, restoration, and protection of real property
4 benefiting fish and wildlife, for the acquisition, restoration, or protection of habitat
5 that promotes recovery of threatened, endangered, or fully protected species,
6 maintains the genetic integrity of wildlife populations, and serves as corridors
7 linking otherwise separate habitat to prevent habitat fragmentation, and for grants
8 and related state administrative costs pursuant to the Wildlife Conservation Law of
9 1947 (~~Chapter 4 (commencing with Section 1300) of Division 2 Title 1~~
10 ~~(commencing with Section 54700) of Part 2 of Division 15~~ of the Fish and Game
11 Wildlife Code), for the following purposes:

12 (1) Ten million dollars (\$10,000,000) for the acquisition or restoration of wetland
13 habitat, as follows:

14 (A) Five million dollars (\$5,000,000) for the acquisition, preservation, restoration,
15 and establishment, or any combination thereof, of habitat for waterfowl or other
16 wetlands-associated wildlife, as provided for in the Central Valley Habitat Joint
17 Venture Component of the North American Waterfowl Management Plan and the
18 Inland Wetlands Conservation Program, notwithstanding Section 711 3465 of the
19 Fish and Game Wildlife Code. Preference shall be given to projects involving the
20 acquisition of perpetual conservation easements; habitat development projects on
21 lands which will be managed primarily as waterfowl habitat in perpetuity; waterfowl
22 habitat development projects on agricultural lands; the reduction of fishery impacts
23 resulting from supply diversions that have a direct benefit to wetlands and waterfowl
24 habitat; or programs to establish permanent buffer areas, including, but not limited
25 to, agricultural lands that are necessary to preserve the acreage and habitat values of
26 existing wetlands.

27 (B) Five million dollars (\$5,000,000) for the acquisition, development,
28 restoration, and protection of wetlands and adjacent lands, or any combination
29 thereof, located outside the Sacramento-San Joaquin Valley.

30 (2) Ten million dollars (\$10,000,000) for the development, acquisition from a
31 willing seller, or restoration of riparian habitat and watershed conservation
32 programs.

33 (3) Forty-five million dollars (\$45,000,000), upon appropriation by the
34 Legislature, for the restoration, or acquisition from a willing seller, of habitat for
35 threatened and endangered species or for the purpose of promoting the recovery of
36 those species. Five million dollars (\$5,000,000) of that amount shall be for the
37 acquisition of property along the central coast containing coastal terrace prairie,
38 federally listed spineflower, state listed San Francisco popcorn flower, and
39 candidates for federal listing including ohlone tiger beetle and opler's longhorned
40 moth. No funds may be expended pursuant to this paragraph for the acquisition of
41 real property or other actions taken pursuant to ~~Chapter 10 (commencing with~~

1 ~~Section 2800)~~ Title 2 (commencing with Section 64500) of Part 2 of Division 17 of
2 the Fish and Game Wildlife Code.

3 (4) Thirteen million dollars (\$13,000,000) for the acquisition from a willing seller,
4 or restoration of forest lands, including, but not limited to, ancient redwoods and
5 oak woodlands. Not more than five million dollars (\$5,000,000) of this amount shall
6 be expended on the federal Legacy Forest Program (16 U.S.C. Sec. 2103) to meet
7 federal matching requirements and not less than five million dollars (\$5,000,000) of
8 this amount shall be allocated for the preservation of oak woodlands. Not more than
9 five million dollars (\$5,000,000) of this amount shall be expended on the federal
10 Legacy Forest Program (16 U.S.C. Sec. 2103) to meet federal matching
11 requirements and not less than five million dollars (\$5,000,000) of this amount shall
12 be allocated for the preservation of oak woodlands.

13 (5) Eighty-two million five hundred thousand dollars (\$82,500,000), upon
14 appropriation by the Legislature, to match funds contributed by federal or local
15 agencies or nonprofit organizations for the acquisition, restoration, or protection of
16 habitat or habitat corridors that promote the recovery of threatened, endangered, or
17 fully protected species. Projects funded pursuant to this paragraph may include
18 restoration projects authorized pursuant to Public Law 105-372, the Salton Sea
19 Reclamation Act of 1998. The board shall require matching contributions of funds,
20 real property, or other resources from other public agencies, private parties, or
21 nonprofit organizations, at a level designed to obtain the maximum conservation
22 benefits to wildlife and wildlife habitat. No funds may be expended pursuant to this
23 paragraph for the acquisition of real property or other actions taken pursuant to
24 ~~Chapter 10 (commencing with Section 2800)~~ Title 2 (commencing with Section
25 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code.

26 (6) One hundred million dollars (\$100,000,000), upon appropriation by the
27 Legislature, for the purpose of funding the acquisition of real property subject to a
28 natural community conservation plan adopted pursuant to ~~Chapter 10 (commencing~~
29 ~~with Section 2800)~~ Title 2 (commencing with Section 64500) of Part 2 of Division
30 17 of the Fish and Game Wildlife Code, if the acquisition of the real property is
31 conducted in conjunction with a natural community conservation plan approved by
32 the Department of Fish and Game Wildlife prior to January 1, 1999, or if the
33 acquisition is approved by statute.

34 (7) Five million dollars (\$5,000,000) for environmental restoration projects for
35 the following purposes approved pursuant to the Salton Sea Restoration Project
36 authorized by Public Law 105-372, the Salton Sea Reclamation Act of 1998, and
37 identified in the Final Environmental Impact Statement of the Salton Sea
38 Restoration Project:

39 (A) Reduce and stabilize the overall salinity of the Salton Sea.

40 (B) Stabilize the surface elevation of the Salton Sea.

41 (C) Reclaim, in the long term, healthy fish and wildlife resources and their
42 habitats.

1 (D) Enhance the potential for recreational uses of the Salton Sea.

2 (b) Not more than 5 percent of the funds authorized for expenditure by this section
3 may be used for public access and wildlife-oriented public use projects.

4 **Comment.** Section 5096.350 is amended to reflect the recodification of the former Fish and
5 Game Code. The section is also amended to update a reference to the former Department of Fish
6 and Game. See Fish & Wildlife Code § 1500.

7 **Pub. Res. Code § 5096.352 (amended).**

8 SEC. _____. Section 5096.352 of the Public Resources Code is amended to read:

9 5096.352. Funds allocated pursuant to subdivision (o) of Section 5096.310 shall
10 be available for expenditure by the State Coastal Conservancy pursuant to Division
11 21 (commencing with Section 31000) for the acquisition from a willing seller,
12 preservation, restoration, and enhancement of real property or an interest in real
13 property in coastal areas and watersheds within its jurisdiction and the development
14 of public use facilities in those areas in accordance with the following schedule:

15 (a) Twenty-five million dollars (\$25,000,000) for projects funded pursuant to the
16 San Francisco Bay Area Conservancy Program established pursuant to Chapter 4.5
17 (commencing with Section 31160) of Division 21.

18 (b)(1) Twenty-five million dollars (\$25,000,000) shall be made available to the
19 Santa Monica Bay Restoration Project to fund grants to public entities and nonprofit
20 organizations to implement storm water and urban runoff pollution prevention
21 programs, habitat restoration, and other priority actions specified in the Santa
22 Monica Restoration Plan. The Santa Monica Bay Watershed Council shall
23 determine project eligibility and establish grant priority.

24 (2) The Santa Monica Bay Watershed Council or the State Coastal Conservancy
25 may require the grant recipient to provide a portion of matching funds for any
26 funding received. The council or the state conservancy may use the funds as
27 matching funds for federal or other grant funding.

28 (c) Sixty-four million two hundred thousand dollars (\$64,200,000) of the funds
29 available may be expended by the State Coastal Conservancy directly or as grants
30 to government entities and nonprofit organizations for the purposes of Division 21
31 (commencing with Section 31000), and for the following and related purposes,
32 including, but not limited to, the acquisition, enhancement, restoration, protection,
33 and development of coastal resources, beaches, waterfronts, and public accessways
34 in accordance with the following schedule:

35 (1) An amount not to exceed three million dollars (\$3,000,000) may be expended
36 on regional approaches to reduce beach erosion. Up to thirteen million dollars
37 (\$13,000,000) shall be made available for the restoration and protection of the
38 Upper Newport Bay Ecological Reserve.

39 (2) At least fifteen million dollars (\$15,000,000) shall be expended in coastal
40 areas north of the Gualala River.

41 (3) At least twenty-five million dollars (\$25,000,000) shall be expended within
42 Santa Cruz, Monterey, San Luis Obispo, or Santa Barbara Counties. One million

dollars (\$1,000,000) shall be allocated to the City of Monterey to fund public access and open space along the waterfront for the Window on the Bay.

(4) At least five million dollars (\$5,000,000) shall be expended on completion of the Coastal Trail.

(5) Two million dollars (\$2,000,000) shall be dedicated to projects for the Guadalupe River Trail and the San Francisco Bay Ridge Trail.

(d) Twenty-two million dollars (\$22,000,000) may be expended by the State Coastal Conservancy directly or as grants to government entities and nonprofit organizations consistent with Division 21 (commencing with Section 31000), and for administrative costs in connection therewith, for the acquisition, development, rehabilitation, restoration, enhancement, and protection of real property, or other actions that benefit fish and wildlife. At least ten million dollars (\$10,000,000) of those funds shall be expended in coastal areas north of the Gualala River. Eight hundred thousand dollars (\$800,000) shall be spent to restore the arroyo chub, partially armored stickleback, and southern steelhead fisheries to their native creeks of San Mateo Creek, and its tributary Devil Canyon Creek, and San Onofre Creek located in San Diego County.

(e) Twenty-five million dollars (\$25,000,000) shall be available, upon appropriation by the Legislature, to the State Coastal Conservancy and the Department of Fish and Game Wildlife for direct expenditure and for grants to public agencies and nonprofit organizations to protect, restore, acquire, and enhance habitat for salmon. These funds may be used to match federal funding available for those purposes.

(f) Twenty-five million dollars (\$25,000,000) of the funds shall be allocated to acquire, protect, and restore wetlands projects that are a minimum of 400 acres in size in any county with a population greater than 5,000,000.

(g) Twelve million five hundred thousand dollars (\$12,500,000) shall be allocated to acquire land needed to connect important coastal watershed and scenic areas in the Laguna Coast Wilderness Park.

Comment. Section 5096.352 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 5096.357 (amended).

SEC. _____. Section 5096.357 of the Public Resources Code is amended to read:

5096.357. (a) Funds allocated pursuant to paragraph (1) of subdivision (v) of Section 5096.310 shall be available to the Department of Fish and Game Wildlife for the development, enhancement, restoration, and preservation of land pursuant to Sections 1580 and 10503 of, and subdivision (b) of Section 1525 of, Section 58505, subdivision (a) of Section 58715, subdivision (b) of Section 60600, and Sections 60750, 60760, 60765, and 60790 of the Fish and Game Wildlife Code. The provision of these funds shall be in accordance with an expenditure plan developed

1 by the Department of Fish and Game Wildlife and approved by the Department of
2 Finance.

3 (b) Funds allocated pursuant to paragraph (2) of subdivision (v) of Section
4 5096.310 shall be made available to the Department of Fish and Game Wildlife for
5 the exclusive purpose of acquiring habitat preservation and enhancement
6 agreements on private wetlands pursuant to the California Waterfowl Habitat
7 Program—Phase II and administrative costs incurred in connection therewith.
8 Expenditure of those funds shall be consistent with the purposes identified in
9 Section 3702 30540, 30550, or 30555 of the Fish and Game Wildlife Code.

10 **Comment.** Section 5096.357 is amended to reflect the recodification of the former Fish and
11 Game Code. The section is also amended to update references to the former Department of Fish
12 and Game. See Fish & Wildlife Code § 1500.

13  **Note.** In the tentative recommendation, the provisions of the existing Fish and Game Code
14 sections that are cross-referenced in the section above have been continued in several different
15 sections of the proposed Fish and Wildlife Code.

16 **The Commission requests public comment on the proposed conforming revision of those**
17 **provisions in the section above.**

18 **Pub. Res. Code § 5096.372 (amended).**

19 SEC. _____. Section 5096.372 of the Public Resources Code is amended to read:

20 5096.372. (a) The Legislature hereby finds and declares that, inasmuch as the
21 proceeds from the sale of bonds authorized by this chapter are not “proceeds of
22 taxes” as that term is used in Article XIII B of the California Constitution, the
23 disbursement of these proceeds is not subject to the limitations imposed by that
24 article.

25 (b) Funds provided pursuant to this chapter, and any appropriation or transfer of
26 those funds, shall not be deemed to be a transfer of funds for the purposes of Chapter
27 9 (commencing with Section 2780) of Division 3 Title 5 (commencing with Section
28 55800) of Part 2 of Division 15 of the Fish and Game Wildlife Code.

29 **Comment.** Section 5096.372 is amended to reflect the recodification of the former Fish and
30 Game Code.

31 **Pub. Res. Code § 5096.512 (amended).**

32 SEC. _____. Section 5096.512 of the Public Resources Code is amended to read:

33 5096.512. (a) In addition to the review by the Department of General Services
34 pursuant to Section 1348.2 54830 of the Fish and Game Wildlife Code, the appraisal
35 prepared for a major acquisition of land shall be reviewed by a qualified independent
36 appraiser retained by the acquisition agency for this purpose, and who meets the
37 following conditions:

38 (1) The review appraiser did not conduct the appraisal pursuant to Section
39 5096.510 and has no financial interest in the major acquisition.

40 (2) The review appraiser is licensed pursuant to Part 3 (commencing with Section
41 11300) of Division 4 of the Business and Professions Code.

1 (b) The review appraiser shall review the appraisal and prepare an appraisal
2 review report, in a narrative format, that does all of the following:

3 (1) Summarizes the appraisal.

4 (2) States the basis on which the value of the land was established.

5 (3) Describes the standards used to prepare the appraisal.

6 (4) Determines whether or not the appraisal meets the standards established under
7 the Uniform Standards of Professional Appraisal Practice.

8 (c) The appraisal review report need not include any proprietary information
9 provided by or on behalf of the seller or that is otherwise exempt from public
10 disclosure pursuant to the California Public Records Act (Chapter 3.5 (commencing
11 with Section 6250) of Division 7 of Title 1 of the Government Code).

12 (d)(1) If a major acquisition of conservation lands will be approved by more than
13 one acquisition agency and each acquisition agency complies with paragraph (2),
14 not more than one independent appraisal is required pursuant to Section 5096.510,
15 and not more than one appraisal review report is required pursuant to this section.

16 (2) Paragraph (1) is applicable if each acquisition agency does all of the following:

17 (A) Utilizes the independent appraisal and appraisal review report, as required by
18 this chapter.

19 (B) Makes an independent determination of whether to approve the major
20 acquisition of conservation lands.

21 (C) Complies with all of the public disclosure and independent review
22 requirements of this chapter.

23 (e) An acquisition agency shall not utilize property acreage as a categorical
24 threshold to impose an independent review of an appraisal pursuant to this section.
25 However, this prohibition does not prohibit an agency from otherwise considering
26 possible impacts from the acquisition of a large acreage property.

27 **Comment.** Section 5096.512 is amended to reflect the recodification of the former Fish and
28 Game Code.

29 **Pub. Res. Code § 5096.516 (amended).**

30 SEC. _____. Section 5096.516 of the Public Resources Code is amended to read:

31 5096.516. (a) Except as provided in subdivision (c), conservation lands may not
32 be sold to another owner, or have possession and control transferred to another
33 agency, unless all of the following occur:

34 (1) The selling or transferring agency prepares and makes available to the public
35 a detailed report that identifies why the conservation lands no longer serve a needed
36 conservation purpose.

37 (2) The selling or transferring agency holds a duly noticed public hearing to accept
38 public comment on the proposed sale or transfer of conservation lands.

39 (3) After compliance with paragraphs (1) and (2), the selling or transferring
40 agency finds, based on substantial evidence, that the property no longer serves a
41 needed conservation purpose.

(4) The sale or transfer of the land is authorized or approved as part of the annual Budget Act or pursuant to specific legislation authorizing the sale or transfer.

(b) Proceeds from the sale or transfer of conservation lands shall be used solely for one or more of the following purposes:

(1) The acquisition of conservation lands to achieve the same or equivalent objectives as the original acquisition of the property that was sold or transferred.

(2) To further the purposes of Division 21 (commencing with Section 31000).

(3) The acquisition of wildlife habitat to further the purposes of the Wildlife Conservation Law of 1947 (~~Chapter 4 (commencing with Section 1300) of Division 2 Title 1 (commencing with Section 54700) of Part 2 of Division 15 of the Fish and Game Wildlife Code~~).

(4) The acquisition of wildlife habitat to further the purposes ~~Article 2 (commencing with Section 1410) of Chapter 4.3 of Division 2 Chapter 2 (commencing with Section 57550) of Title 11 of Part 2 of Division 15 of the Fish and Game Wildlife Code~~.

(c) This section does not apply to any of the following:

(1) The sale or transfer of conservation lands solely for the purpose of boundary adjustments or consolidation of property ownership.

(2) The sale or transfer of lands subject to a conservation easement to keep lands in agricultural production.

(3) The sale or transfer to other public agencies or nonprofit organizations to improve conservation management, public access, historic preservation, or to protect or enhance the biological value of conservation lands.

(4) The sale or transfer of conservation lands by the State Coastal Conservancy when the sale or transfer of interests in land is provided for, consistent with Division 21 (commencing with Section 31000), at the time of acquisition of real property.

(5) The exchange of conservation lands for land of greater biological value as wildlife habitat.

(6) The sale or transfer of conservation lands that have a fair market value of less than one million dollars (\$1,000,000).

(d) The requirements imposed by this section are in addition to any other requirements imposed by law or regulation.

Comment. Subdivision (b) of Section 5096.516 is amended to reflect the recodification of the former Fish and Game Code.

Pub. Res. Code § 5096.650 (amended).

SEC. _____. Section 5096.650 of the Public Resources Code is amended to read:

5096.650. The one billion two hundred seventy-five million dollars (\$1,275,000,000) allocated pursuant to subdivision (c) of Section 5096.610 shall be available for the acquisition and development of land, air, and water resources in accordance with the following schedule:

(a) Notwithstanding Section 13340 of the Government Code, the sum of three hundred million dollars (\$300,000,000) is continuously appropriated to the Wildlife Conservation Board for the acquisition, development, rehabilitation, restoration, and protection of habitat that promotes the recovery of threatened and endangered species, that provides corridors linking separate habitat areas to prevent habitat fragmentation, and that protects significant natural landscapes and ecosystems such as old growth redwoods and oak woodlands and other significant habitat areas; and for grants and related state administrative costs pursuant to the Wildlife Conservation Law of 1947 (~~Chapter 4 (commencing with Section 1300) of Division 2 Title 1 (commencing with Section 54700) of Part 2 of Division 15~~ of the Fish and Game Wildlife Code). Funds scheduled in this subdivision may be used to prepare management plans for properties acquired in fee by the Wildlife Conservation Board.

(b) The sum of four hundred forty-five million dollars (\$445,000,000) to the conservancies in accordance with the particular provisions of the statute creating each conservancy for the acquisition, development, rehabilitation, restoration, and protection of land and water resources; for grants and state administrative costs; and in accordance with the following schedule:

(1)	To the State Coastal Conservancy	\$200,000,000
(2)	To the California Tahoe Conservancy	\$ 40,000,000
(3)	To the Santa Monica Mountains Conservancy	\$ 40,000,000
(4)	To the Coachella Valley Mountains Conservancy	\$ 20,000,000
(5)	To the San Joaquin River Conservancy	\$ 25,000,000
(6)	To the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy	\$ 40,000,000
(7)	To the Baldwin Hills Conservancy	\$ 40,000,000
(8)	To the San Francisco Bay Area Conservancy Program	\$ 40,000,000

(c) The sum of three hundred seventy-five million dollars (\$375,000,000) shall be available for grants to public agencies and nonprofit organizations for acquisition, development, restoration, and associated planning, permitting, and administrative

1 costs for the protection and restoration of water resources in accordance with the
2 following schedule:

3 (1) The sum of seventy-five million dollars (\$75,000,000) to the secretary for the
4 acquisition and development of river parkways and for protecting urban streams.
5 The secretary shall make funds available in accordance with Sections 7048 and
6 78682.2 of the Water Code, and pursuant to any other applicable statutory
7 authorization. Not less than five million dollars (\$5,000,000) shall be available for
8 grants for the urban streams program, pursuant to Section 7048 of the Water Code.

9 (2) The sum of three hundred million dollars (\$300,000,000) shall be available for
10 the purposes of clean beaches, watershed protection, and water quality projects to
11 protect beaches, coastal waters, rivers, lakes, and streams from contaminants,
12 pollution, and other environmental threats.

13 (d)(1) The sum of fifty million dollars (\$50,000,000) to the State Air Resources
14 Board for grants to air districts pursuant to Chapter 9 (commencing with Section
15 44275) of Part 5 of Division 26 of the Health and Safety Code for projects that
16 reduce air pollution that affects air quality in state and local park and recreation
17 areas. Eligible projects shall meet the requirements of Section 16727 of the
18 Government Code and shall be consistent with Section 43023.5 of the Health and
19 Safety Code, if Assembly Bill 1390 of the 2001–02 Regular Session of the
20 Legislature is enacted on or before January 1, 2003. Each air district shall be eligible
21 for grants of not less than two hundred thousand dollars (\$200,000). Not more than
22 5 percent of the funds allocated to an air district may be used to cover the costs
23 associated with implementing the grant program.

24 (2) Allocations of funds pursuant to this subdivision to the Lower-Emission
25 School Bus Program shall be prioritized to retrofit or replace the most polluting
26 schoolbuses in small air districts first and then to medium air districts as defined by
27 the State Air Resources Board. Each allocation for this purpose shall provide enough
28 funding for at least one project to be implemented pursuant to the Lower-Emission
29 School Bus Program adopted by the State Air Resources Board. If a local air district
30 has unspent funds within six months of the expenditure deadline, the air district shall
31 work with the State Air Resources Board to transfer funds to an alternative air
32 district with existing demand.

33 (e) The sum of twenty million dollars (\$20,000,000) to the California
34 Conservation Corps for the acquisition, development, restoration, and rehabilitation
35 of land and water resources, and for grants and state administrative costs in
36 accordance with the following schedule:

37 (1) The sum of five million dollars (\$5,000,000) shall be available for resource
38 conservation activities.

39 (2) The sum of fifteen million dollars (\$15,000,000) shall be available for grants
40 to local conservation corps for acquisition and development of facilities to support
41 local conservation corps programs.

1 (f) The sum of seventy-five million dollars (\$75,000,000) shall be available for
2 grants for the preservation of agricultural lands and grazing lands, including oak
3 woodlands and grasslands.

4 (g) The sum of ten million dollars (\$10,000,000) to the Department of Forestry
5 and Fire Protection for grants for urban forestry programs pursuant to the California
6 Urban Forestry Act of 1978 (Chapter 2 (commencing with Section 4799.06) of Part
7 2.5 of Division 1).

8 **Comment.** Subdivision (a) of Section 5096.650 is amended to reflect the recodification of the
9 former Fish and Game Code.

10 **Pub. Res. Code § 5096.679 (amended).**

11 SEC. _____. Section 5096.679 of the Public Resources Code is amended to read:

12 5096.679. (a) The Legislature hereby finds and declares that, inasmuch as the
13 proceeds from the sale of bonds authorized by this chapter are not “proceeds of
14 taxes” as that term is used in Article XIII B of the California Constitution, the
15 disbursement of these proceeds is not subject to the limitations imposed by that
16 article.

17 (b) Funds provided pursuant to this chapter, and any appropriation or transfer of
18 those funds, shall not be deemed to be a transfer of funds for the purposes of ~~Chapter~~
19 ~~9 (commencing with Section 2780) of Division 3 Title 5 (commencing with Section~~
20 ~~55800) of Part 2 of Division 15~~ of the Fish and Game Wildlife Code.

21 **Comment.** Section 5096.679 is amended to reflect the recodification of the former Fish and
22 Game Code.

23 **Pub. Res. Code § 5096.821 (amended).**

24 SEC. _____. Section 5096.821 of the Public Resources Code is amended to read:

25 5096.821. Three billion dollars (\$3,000,000,000) shall be available, upon
26 appropriation to the department, for the following purposes:

27 (a) The evaluation, repair, rehabilitation, reconstruction, or replacement of levees,
28 weirs, bypasses, and facilities of the State Plan of Flood Control by all of the
29 following actions:

30 (1) Repairing erosion sites and removing sediment from channels or bypasses.

31 (2) Evaluating and repairing levees and any other facilities of the State Plan of
32 Flood Control.

33 (3) Implementing mitigation measures for a project undertaken pursuant to this
34 subdivision. The department may fund participation in a natural community
35 conservation plan pursuant to ~~Chapter 10 (commencing with Section 2800) of~~
36 ~~Division 3 Title 2 (commencing with Section 64500) of Part 2 of Division 17~~ of the
37 Fish and Game Wildlife Code to facilitate projects authorized by this subdivision.

38 (b) Improving or adding facilities to the State Plan of Flood Control to increase
39 levels of flood prevention for urban areas, including all related costs for mitigation
40 and infrastructure relocation. Funds made available by this subdivision may be
41 expended for state financial participation in federal and state authorized flood

1 control projects, feasibility studies and design of federal flood damage reduction
2 and related projects, and reservoir reoperation and groundwater flood storage
3 projects. Not more than two hundred million dollars (\$200,000,000) may be
4 expended on a single project, excluding authorized flood control improvements to
5 Folsom Dam.

6 (c)(1) To reduce the risk of levee failure in the delta.

7 (2) The funds made available for the purpose specified in paragraph (1) shall be
8 expended for both of the following purposes:

9 (A) Local assistance under the delta levee maintenance subventions program
10 under Part 9 (commencing with Section 12980) of Division 6 of the Water Code, as
11 that part may be amended.

12 (B) Special flood protection projects under Chapter 2 (commencing with Section
13 12310) of Part 4.8 of Division 6 of the Water Code, as that chapter may be amended.

14 **Comment.** Section 5096.821 is amended to reflect the recodification of the former Fish and
15 Game Code.

16 **Pub. Res. Code § 5099.12 (amended).**

17 SEC. _____. Section 5099.12 of the Public Resources Code is amended to read:

18 5099.12. (a) Of the annual apportionment of funds received by the director
19 pursuant to this chapter, 60 percent shall be allocated for local governmental agency
20 projects and 40 percent for state agency projects. The state agency share shall be
21 disbursed to the following state agencies in the following percentages: 60 percent
22 to the Department of Parks and Recreation; 35 percent to the Wildlife Conservation
23 Board or the Department of Fish and Game Wildlife; and 5 percent to the
24 Department of Water Resources. The State Coastal Conservancy established
25 pursuant to Section 31100 is eligible to compete for grants of funds for projects of
26 an outdoor recreational nature from the 6-percent contingency fund established by
27 this section.

28 (b) If either the state or local governmental agencies are unable to utilize their
29 allocation of funds, the director shall allocate the uncommitted funds to those state
30 or local governmental agencies that are in position to take advantage of the funds
31 during the year in which they are allocated. The 60-percent allocation for local
32 governmental agency projects and the 40-percent allocation to state agency projects
33 shall not be computed until the costs of maintaining and keeping up to date the plan
34 required pursuant to Section 5099.2 and an additional 6 percent for deposit to a
35 contingency fund have been deducted.

36 **Comment.** Section 5099.12 is amended to update a reference to the former Department of Fish
37 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
38 designations.

39 **Pub. Res. Code § 5675 (amended).**

40 SEC. _____. Section 5675 of the Public Resources Code is amended to read:

1 5675. The program established by this chapter shall be administered jointly by the
2 Department of Parks and Recreation and the Department of Fish and Game Wildlife
3 and shall be funded by moneys appropriated from the Resources Account in the
4 Energy and Resources Fund to the Department of Parks and Recreation for local
5 assistance grants for urban fishing projects pursuant to category (b) of Item 379-
6 101-190 of the Budget Act of 1981 and pursuant to provisions of any budget acts
7 enacted subsequent thereto that appropriate funds for the program.

8 **Comment.** Section 5675 is amended to update a reference to the former Department of Fish and
9 Game. See Fish & Wildlife Code § 1500.

10 **Pub. Res. Code § 5676 (amended).**

11 SEC. _____. Section 5676 of the Public Resources Code is amended to read:

12 5676. The Department of Parks and Recreation shall have principal responsibility
13 for the review and approval of proposals for rehabilitating urban lakes in accordance
14 with the eligibility requirements, evaluative criteria, and procedures specified in this
15 chapter and for the administration of grants made pursuant to this chapter. The
16 Department of Fish and Game Wildlife shall be responsible for determining the
17 rehabilitative potential of lakes proposed for funding and shall serve primarily in a
18 technical and advisory capacity. The final decision to provide funding for each
19 project shall be based on the cooperative deliberation and mutual determination of
20 both departments.

21 **Comment.** Section 5676 is amended to update a reference to the former Department of Fish and
22 Game. See Fish & Wildlife Code § 1500.

23 **Pub. Res. Code § 5684 (amended).**

24 SEC. _____. Section 5684 of the Public Resources Code is amended to read:

25 5684. This chapter is not intended, nor shall it be construed, to authorize either
26 the Department of Parks and Recreation or the Department of Fish and Game
27 Wildlife to establish any additional personnel positions or create any new
28 administrative section in connection with the program established by this chapter.

29 **Comment.** Section 5684 is amended to update a reference to the former Department of Fish and
30 Game. See Fish & Wildlife Code § 1500.

31 **Pub. Res. Code § 5812 (amended).**

32 SEC. _____. Section 5812 of the Public Resources Code is amended to read:

33 5812. As used in this chapter, unless the context clearly requires a different
34 meaning, the following terms mean:

35 (a) "Agency" means the Resources Agency.

36 (b) "Departments" means the Department of Parks and Recreation, the
37 Department of Fish and Game Wildlife, and the California Coastal Conservancy.

38 **Comment.** Section 5812 is amended to update a reference to the former Department of Fish and
39 Game. See Fish & Wildlife Code § 1500.

1 **Pub. Res. Code § 5814 (amended).**

2 SEC. _____. Section 5814 of the Public Resources Code is amended to read:

3 5814. (a) The agency shall update all of the state's existing wetlands inventory
4 resources in order to prepare a study to accomplish the following goals:

5 (1) To identify the restoration and enhancement opportunities in the state for
6 wetlands in public ownership.

7 (2) To identify means of protecting and enhancing existing wetlands in public
8 ownership and to identify additional recreational benefits and opportunities that are
9 compatible with the primary goal of maximizing the habitat value of wetlands.

10 (3) To identify opportunities for voluntary public-private partnerships for
11 wetlands restoration, enhancement, and management on private lands.

12 (4) To identify those wetlands of particular significance in the state that are not
13 currently in public ownership for which there is believed to be a willing seller.

14 (5) To identify additional recreational benefits that can be provided on existing,
15 restored, or newly created wetlands in public ownership or for which there is a
16 cooperative agreement for public use by a private landowner and a local, state, or
17 federal agency.

18 (6) To provide a basis for the inclusion of wetlands data and information in the
19 California Continuing Resources Investment Strategy Project (CCRISP), which was
20 funded in the Budget Act of 2000.

21 (7) To identify, utilizing existing resources, wetlands on lands owned by federal
22 agencies in California and those wetlands that are protected by existing wetlands
23 management and conservation mandates imposed by federal law.

24 (8) To identify, in conjunction with the Office of Planning and Research, those
25 instances where lead agencies have adopted mitigation measures pursuant to
26 Division 13 (commencing with Section 21000), or natural community conservation
27 plans prepared pursuant to ~~Chapter 10 (commencing with Section 2800)~~ Title 2
28 (commencing with Section 64500) of Part 2 of Division 17 of the Fish and Game
29 Wildlife Code, that utilize or reference wetland resources located on lands owned
30 by the United States Department of Defense.

31 (b) The agency shall consult and cooperate with counties, cities, other appropriate
32 state and federal agencies with an interest in wetlands resources, and willing
33 landowners in conducting the study. The study shall be submitted to the Legislature
34 not later than January 1, 2003, and shall set forth, for consideration by the
35 Legislature, a plan for the acquisition, protection, preservation, restoration, and
36 enhancement of wetlands, including funding requirements and the priority status of
37 specific proposed wetlands projects.

38 **Comment.** Section 5814 is amended to reflect the recodification of the former Fish and Game
39 Code, and to make a technical correction.

40 **Pub. Res. Code § 5817 (amended).**

41 SEC. _____. Section 5817 of the Public Resources Code is amended to read:

1 5817. Any of the departments may enter into operating agreements with cities,
2 counties, and districts for the management and control of wetlands, or interests in
3 wetlands, acquired pursuant to this chapter. However, any agreement shall ensure
4 the protection and preservation of the wetlands and ensure the right of use and
5 enjoyment of the wetlands by the people of the state. Further, any agreement entered
6 into by the Department of Fish and Game Wildlife pursuant to this section shall
7 provide that public use of lands and waters subject to the agreement shall be in
8 accordance with regulations adopted by the Fish and Game Commission.

9 **Comment.** Section 5817 is amended to update a reference to the former Department of Fish and
10 Game. See Fish & Wildlife Code § 1500.

11 **Pub. Res. Code § 5818.1 (amended).**

12 SEC. _____. Section 5818.1 of the Public Resources Code is amended to read:

13 5818.1. The Coastal Wetlands Fund is hereby established in the State Treasury
14 and shall be an interest-bearing fund administered by the Department of Fish and
15 Game Wildlife.

16 **Comment.** Section 5818.1 is amended to update a reference to the former Department of Fish
17 and Game. See Fish & Wildlife Code § 1500.

18 **Pub. Res. Code § 5818.2 (amended).**

19 SEC. _____. Section 5818.2 of the Public Resources Code is amended to read:

20 5818.2. (a)(1) The funds in the Coastal Wetlands Fund may be expended by the
21 Department of Fish and Game Wildlife and the State Coastal Conservancy, upon
22 appropriation by the Legislature, for the maintenance of coastal wetlands property
23 owned by the state, a conservancy of the state, a local government agency, or a
24 nonprofit organization.

25 (2) The funds in the Coastal Wetlands Fund may be expended by the state
26 pursuant to this section in the form of grants.

27 (3) An applicant may apply to the State Coastal Conservancy for a grant pursuant
28 to the grant application procedures in Division 21 (commencing with Section
29 31000) to perform maintenance of coastal wetlands property owned by the state, a
30 conservancy of the state, a local government agency, or a nonprofit organization.

31 (b) The Department of Fish and Game Wildlife and the State Coastal Conservancy
32 may accept contributions to the Coastal Wetlands Fund. The sources of
33 contributions that may be accepted include, but are not limited to, private
34 individuals and organizations, nonprofit organizations, and federal, state, and local
35 agencies including special districts. The contributions accepted may include moneys
36 identified pursuant to the California Environmental Quality Act (Division 13
37 (commencing with Section 21000)) or the National Environmental Policy Act of
38 1969 (42 U.S.C. Sec. 4321 et seq.) as acceptable mitigation for development
39 projects. The Department of Fish and Game Wildlife and the State Coastal
40 Conservancy shall deposit a contribution accepted pursuant to this subdivision in
41 the Coastal Wetlands Fund, subject to the requirements of Section 5818.1.

1 **Comment.** Section 5818.2 is amended to update references to the former Department of Fish
2 and Game. See Fish & Wildlife Code § 1500.

3 **Pub. Res. Code § 5845.2 (amended).**

4 SEC. _____. Section 5845.2 of the Public Resources Code is amended to read:

5 5845.2. For purposes of this chapter, the following definitions apply:

6 (a) “Adjacent to” means downstream of the Nimbus Dam and next to or in the
7 immediate vicinity of the American River Parkway.

8 (b) “Advisory committee” means the advisory committee established pursuant to
9 Section 5845.4.

10 (c) “American River Parkway” means those portions of the area described in the
11 American River Parkway Plan between the Nimbus Dam and the confluence of the
12 American River with the Sacramento River.

13 (d) “American River Parkway Plan” has the same meaning as in subdivision (a)
14 of Section 5841.

15 (e) “Board” means the Wildlife Conservation Board established pursuant to
16 Section 1320 54750 of the Fish and Game Wildlife Code.

17 (f) “Fund” means the Lower American River Conservancy Fund established
18 pursuant to Section 5845.9.

19 (g) “Nonprofit organization” means a private, nonprofit organization, with
20 nonprofit status acknowledged by the United States Internal Revenue Service, that
21 qualifies under Section 501(c)(3) of the Internal Revenue Code, as amended, and
22 that has among its principal charitable purposes the preservation, restoration, or
23 interpretation of land for scientific, historic, educational, recreational, scenic, or
24 open-space purposes, the protection of the natural environment or biological
25 resources, or both, or the preservation or enhancement of wildlife, or both.

26 (h) “Parkway Manager” means the Sacramento County Board of Supervisors or
27 its designee.

28 (i) “Program” means the Lower American River Conservancy Program
29 established pursuant to Section 5845.3.

30 **Comment.** Section 5845.2 is amended to reflect the recodification of the former Fish and Game
31 Code.

32 **Pub. Res. Code § 5907 (amended).**

33 SEC. _____. Section 5907 of the Public Resources Code is amended to read:

34 5907. All money deposited in the fund shall be available for expenditure, in
35 accordance with Section 5921, for the purposes set forth below, in amounts not to
36 exceed the following:

37 (a) One hundred sixty-six million dollars (\$166,000,000) to the Department of
38 Parks and Recreation for grants to counties, cities, cities and counties, districts, and
39 nonprofit organizations for acquisition, development, rehabilitation, or restoration
40 of real property for parks, beaches, wildlife habitat, natural lands, recreation, or
41 preservation of historical resources, including an amount not to exceed two million

1 four hundred ninety thousand dollars (\$2,490,000) for state administrative costs, in
2 accordance with the following schedule:

3 (1) One hundred twenty million dollars (\$120,000,000) for grants to counties,
4 cities, and districts on a per capita basis for the acquisition, development,
5 rehabilitation, or restoration of real property for parks, beaches, wildlife habitat,
6 natural lands, and recreation, except that each county is entitled to not less than one
7 hundred thousand dollars (\$100,000).

8 (2) Twenty million dollars (\$20,000,000) for expenditure by the Department of
9 Parks and Recreation for the purpose of the Roberti-Z'berg-Harris Urban Open
10 Space and Recreation Program Act (Chapter 3.2 (commencing with Section 5620)
11 of Division 5 of the Public Resources Code).

12 (3) Ten million dollars (\$10,000,000) for competitive grants for park, beach, and
13 recreational purposes to public agencies which provide significant park and
14 recreational opportunities to the general public and are not eligible for grants
15 pursuant to paragraph (1).

16 (4) Eleven million dollars (\$11,000,000) for competitive grants to public agencies
17 and nonprofit organizations for acquisition, development, rehabilitation, or
18 restoration of historical or archeological resources and for historical and
19 archeological resources preservation projects and costs of planning and
20 interpretation. Not less than one million dollars (\$1,000,000) shall be used for
21 archeological resources preservation purposes.

22 (5) Five million dollars (\$5,000,000) for competitive grants to public agencies and
23 nonprofit organizations for acquisition and development of land and rights-of-way
24 for bicycle, horse, hiking, and handicapped access trails.

25 (b) Three hundred thirty-eight million seven hundred thousand dollars
26 (\$338,700,000) to the Department of Parks and Recreation for acquisition of
27 parklands, wildlife habitat, coastal, and natural lands in California, and for grants to
28 local agencies and nonprofit organizations, including an amount not to exceed five
29 million eighty thousand five hundred dollars (\$5,080,500) for state administrative
30 costs, in accordance with the following schedule:

31 (1) Ninety-eight million six hundred thousand dollars (\$98,600,000) to the
32 Department of Parks and Recreation for acquisition of real property in accordance
33 with the following schedule:

34 (A) Twelve million dollars (\$12,000,000) for acquisition of land for the California
35 Redwood State Parks, including, but not limited to, Big Basin Redwoods, Butano,
36 Calaveras Big Trees, Forest of Nisene Marks, Hendy Woods, Humboldt Lagoons,
37 Humboldt Redwoods, Jedediah Smith Redwoods, Portola, Prairie Creek Redwoods,
38 Richardson Grove, and Sinkyone Wilderness State Parks; Benbow Lake State
39 Recreation Area, Fort Ross State Historical Park, and Paul M. Dimmick State
40 Wayside Campground; provided that each dollar up to at least ten million dollars
41 (\$10,000,000) from the funds to be spent pursuant to this subparagraph shall be

1 matched with an equal amount in money or property from private gifts, city or
2 county appropriations, or alternative sources other than the State of California.

3 (B) Five million dollars (\$5,000,000) for acquisition of land within and adjacent
4 to Anza-Borrego Desert State Park.

5 (C) Nineteen million dollars (\$19,000,000) for acquisition of land in the Palm
6 Canyon and Andreas Canyon region near Palm Springs for a park for the
7 preservation of Indian heritage and of native palms.

8 (D) Seven million dollars (\$7,000,000) for acquisition of lands in accordance with
9 the general plan for the Chino Hills State Park, including the lands north of Highway
10 142.

11 (E) Ten million dollars (\$10,000,000) for acquisition of land for additions to the
12 Santa Susana Mountain Project to preserve historic and scenic sites, for hiking and
13 equestrian trails, or for wildlife habitat and migration routes; provided that all
14 acquisitions shall be located within the Rim of the Valley Corridor as defined in
15 Section 33105.5 within the Simi Hills or Santa Susana Mountains in Los Angeles
16 and Ventura Counties.

17 (F) Two million dollars (\$2,000,000) for acquisitions within and adjacent to Big
18 Basin Redwoods State Park and Castle Rock State Park in the Santa Cruz
19 Mountains.

20 (G) Three million dollars (\$3,000,000) for acquisition of lands in Santa Clara
21 County within and adjacent to Henry Coe State Park and for lands in Stanislaus
22 County within the park.

23 (H) One million dollars (\$1,000,000) for acquisition of natural lands for expansion
24 of Pescadero Marsh Natural Preserve at Pescadero State Beach.

25 (I) Twenty-five million dollars (\$25,000,000) for acquisition of land for an East
26 Bay Shoreline State Park in the Counties of Alameda or Contra Costa, or both,
27 generally in accordance with the East Bay Shoreline feasibility study.

28 (J) Four million dollars (\$4,000,000) for acquisition of natural lands within and
29 adjacent to Mt. Diablo State Park.

30 (K) Four million dollars (\$4,000,000) for implementation of the Frank's Tract
31 State Recreation Area General Plan with first priority given to the western portion,
32 providing secondary wave protection benefits to adjacent islands.

33 (L) One million six hundred thousand dollars (\$1,600,000) for acquisition of
34 wetlands in and adjacent to the Delta Meadows Project.

35 (M) Two million dollars (\$2,000,000) for acquisition of natural lands within and
36 adjacent to Robert Louis Stevenson State Park.

37 (N) One million dollars (\$1,000,000) for expansion of Anderson Marsh State
38 Historic Park.

39 (O) Two million dollars (\$2,000,000) for expansion of the South Yuba Project
40 along the South Fork of the Yuba River to protect scenic vistas and riparian habitat
41 and to provide for recreational trails.

1 (2) Fifty-four million seven hundred thousand dollars (\$54,700,000) for
2 acquisition, development, rehabilitation, or restoration of real property in the state
3 park system in accordance with the following schedule:

4 (A) Four million seven hundred thousand dollars (\$4,700,000) for acquisitions of
5 real property inside the boundaries of existing projects or units or as additions to
6 existing projects or units.

7 (B) Fourteen million dollars (\$14,000,000) for development, rehabilitation, or
8 restoration of coastal resources, other than coastal resources in or on San Francisco
9 Bay, in accordance with the following schedule:

10 (i) Eight million dollars (\$8,000,000) within San Diego County through Santa
11 Barbara County.

12 (ii) Four million dollars (\$4,000,000) within San Luis Obispo County through the
13 City and County of San Francisco.

14 (iii) Two million dollars (\$2,000,000) within Marin County through Del Norte
15 County.

16 (C) Three million dollars (\$3,000,000) for development, rehabilitation, or
17 restoration of resources in or on San Francisco Bay.

18 (D) Eight million dollars (\$8,000,000) for development, rehabilitation, or
19 restoration of inland resources.

20 (E) Two million dollars (\$2,000,000) for development, rehabilitation, or
21 restoration at lakes, reservoirs, and waterways, including the State Water Facilities,
22 as defined in paragraphs (1) to (4), inclusive, of subdivision (d) of Section 12934 of
23 the Water Code.

24 (F) One million dollars (\$1,000,000) for the repair of storm damage and
25 construction to prevent future storm damage.

26 (G) Three million dollars (\$3,000,000) for planning, development, rehabilitation,
27 restoration, or interpretive facilities in support of volunteer community action
28 projects for the state park system.

29 (H) Ten million dollars (\$10,000,000) for the increased stewardship of the public
30 investment in the protection of the most critical natural and scenic features of the
31 existing state park system.

32 (I) Five million dollars (\$5,000,000) for rehabilitation and restoration of historical
33 resources of the state park system.

34 (J) Three million dollars (\$3,000,000) for development and rehabilitation of trails
35 within the state park system or connecting units of the state park system.

36 (K) One million dollars (\$1,000,000) for acquisition and development of
37 trailheads for the Sno-Park program pursuant to Chapter 1.27 (commencing with
38 Section 5091.01) of Division 5, including access to the Tahoe Rim Trail.

39 (3) One hundred eighty-five million four hundred thousand dollars
40 (\$185,400,000) to the Department of Parks and Recreation for grants to local
41 agencies in accordance with the following schedule:

1 (A) Thirty million dollars (\$30,000,000) for a grant to San Diego County in
2 accordance with the following schedule:

3 (i) Ten million dollars (\$10,000,000) for acquisition of natural lands in the San
4 Dieguito River Valley.

5 (ii) Ten million dollars (\$10,000,000) for acquisition of natural lands in the
6 Tijuana River Valley.

7 (iii) Ten million dollars (\$10,000,000) for acquisition of San Diego County
8 resource conservation areas and urban canyons in accordance with the resource
9 element of the County General Plan.

10 (B) Ten million dollars (\$10,000,000) for a grant to the City of Laguna Beach for
11 acquisition of, and for grants by the city to nonprofit organizations for acquisition
12 of, natural lands within and contiguous to the Laguna Greenbelt as described in the
13 Orange County General Plan.

14 (C) Four million dollars (\$4,000,000) for a grant to the City of Irvine for
15 acquisition of natural lands in the open space spine designated in the City of Irvine
16 General Plan.

17 (D) Eleven million dollars (\$11,000,000) for a grant to the City of Riverside in
18 accordance with the following schedule:

19 (i) One million dollars (\$1,000,000) for acquisition of natural lands in Sycamore
20 Canyon Wilderness Park in accordance with the City of Riverside Specific Plan.

21 (ii) Ten million dollars (\$10,000,000) for acquisition of land in and near the
22 California Citrus State Historic Park located in the Arlington Heights area of
23 Riverside.

24 (E) Two million four hundred thousand dollars (\$2,400,000) for a grant to the
25 County of Riverside in accordance with the following schedule:

26 (i) Four hundred thousand dollars (\$400,000) for acquisition of land to expand
27 Hurkey Creek Park.

28 (ii) One million dollars (\$1,000,000) for acquisition of land for trails in the Santa
29 Ana River Corridor.

30 (iii) One million dollars (\$1,000,000) for acquisition of land for trails suitable for
31 equestrian and hiking uses in Riverside County, including the Temescal Canyon
32 Trail.

33 (F) Twenty million dollars (\$20,000,000) for a grant to the County of San
34 Bernardino for acquisition of land primarily through the use of conservation
35 easements within the Chino Agricultural Preserve.

36 (G) Twenty-five million dollars (\$25,000,000) for a grant to Los Angeles County
37 in accordance with the following schedule:

38 (i) Ten million dollars (\$10,000,000) for acquisition or development of
39 noncommercial visitor use and access facilities, and/or renovation of existing
40 facilities at county, state, or city beaches operated by Los Angeles County.

1 (ii) Ten million dollars (\$10,000,000) for acquisition of land for the Baldwin Hills
2 State Recreation Area in accordance with the general plan for Baldwin Hills State
3 Recreation Area.

4 (iii) Five million dollars (\$5,000,000) for acquisition of natural lands to establish
5 the Brea Heights Regional County Park.

6 (H) Seven million dollars (\$7,000,000) for a grant to the County of Santa Barbara
7 for acquisition of natural lands, wildlife habitat, wetlands, and agricultural land
8 preservation, in incorporated and unincorporated areas, in accordance with the
9 following schedule, except that expenditures for nonagricultural lands shall be
10 limited to acquisition of lands in the Coastal Zone and shall be of sufficient size to
11 be a major natural or low intensity community recreational resource:

12 (i) Four million eight hundred thousand dollars (\$4,800,000) for nonagricultural
13 lands located south of the ridge line of the Santa Ynez Mountain Range.

14 (ii) One million two hundred thousand dollars (\$1,200,000) for nonagricultural
15 lands north of the ridge line of the Santa Ynez Mountain Range.

16 (iii) One million dollars (\$1,000,000) for the preservation of agricultural land in
17 Santa Barbara County as identified for agricultural use in the Santa Barbara County
18 Comprehensive Plan. These funds shall be used primarily for the acquisition of
19 conservation easements.

20 (I) Four million dollars (\$4,000,000) for a grant to the County of Monterey for
21 acquisition of conservation easements in Monterey County on agricultural lands in
22 the Salinas and Pajaro Valleys.

23 (J) Two million dollars (\$2,000,000) for a grant to the Monterey Peninsula
24 Regional Park District to expand the Garland Ranch Regional Park and for
25 acquisition of natural lands and wildlife and riparian habitat in the Bixby Creek
26 watershed.

27 (K) One million dollars (\$1,000,000) for a grant to the County of Santa Cruz for
28 acquisition of conservation easements in Santa Cruz County on commercially viable
29 agricultural lands in the Pajaro Valley and the coastal terrace north of the City of
30 Santa Cruz, consistent with Section 2.3.1 of the Santa Cruz County General Plan.

31 (L) Fifteen million dollars (\$15,000,000) for acquisition of those greenbelt lands
32 known as the Pogonip property located in the City of Santa Cruz and the County of
33 Santa Cruz, as defined in the 1979 City of Santa Cruz Greenbelt Ordinance. This
34 acquisition shall be accomplished through grants to the following entities listed in
35 order of priority: (1) the City of Santa Cruz and (2) a park and open-space district
36 or a park and recreation district formed by the local electorate.

37 (M) Ten million dollars (\$10,000,000) for a grant to the Midpeninsula Regional
38 Open Space District for acquisition in accordance with the following schedule:

39 (i) One million dollars (\$1,000,000) for acquisition of land between property
40 managed by the district and Castle Rock State Park and Portola State Park.

1 (ii) Nine million dollars (\$9,000,000) for expansion of Rancho San Antonio,
2 Sierra Azul, El Sereno, El Corte de Madera Creek, and Windy Hill Open Space
3 Preserves and for acquisition of Teague Hill Open Space Preserve.

4 (N) Thirteen million dollars (\$13,000,000) for a grant to the East Bay Regional
5 Park District in accordance with the following schedule:

6 (i) Ten million dollars (\$10,000,000) for expenditure in accordance with the East
7 Bay Regional Park District Master Plan, for expansion of Morgan Territory
8 Regional Park and Briones Regional Park, acquisitions of natural lands along the
9 Carquinez Straits and on Pleasanton Ridge, and shoreline access and trail
10 acquisitions adjacent to the San Francisco Bay.

11 (ii) One million five hundred thousand dollars (\$1,500,000) for acquisition of
12 lands in the southern portion of Walpert Ridge in Hayward in central Alameda
13 County.

14 (iii) One million five hundred thousand dollars (\$1,500,000) for expansion of the
15 Carquinez Shoreline Park in Port Costa.

16 (O) Five million dollars (\$5,000,000) for a grant to the Marin County Open Space
17 District for acquisition of natural lands on Loma Alta Mountain, Big Rock Ridge,
18 and other wetlands, wildlife habitat, and natural lands in accordance with the
19 Environmental Quality and Open Space Elements of the Marin Countywide Plan.

20 (P) Fifteen million dollars (\$15,000,000) for a grant to the County of Marin for
21 preservation of, and for grants by the county to nonprofit organizations for
22 preservation of agricultural lands in the Marin County coastal zone and inland rural
23 corridor, in accordance with the Marin County Agricultural Land Preservation
24 Program. Funds provided in this subparagraph shall be used primarily to acquire
25 agricultural conservation easements.

26 (Q) One million six hundred thousand dollars (\$1,600,000) for a grant to the City
27 of Mill Valley for acquisition of natural lands on the Northridge and spurs of Mount
28 Tamalpais, in accordance with the Open Space Elements in the Marin Countywide
29 Plan or the Mill Valley General Plan, or both.

30 (R) One million dollars (\$1,000,000) for a grant to the City of Vacaville for
31 acquisition of natural lands along the ridgelines of the Vaca Mountains, Blue Ridge
32 Mountains, and English Hills, including Old Rocky, for a ridgeline park in
33 accordance with the Vacaville City General Plan.

34 (S) Two million dollars (\$2,000,000) for a grant to the City of Davis for
35 acquisition of, or for grants from the city to nonprofit organizations for acquisition
36 of, wildlife and riparian habitat, wetlands, and potential wetlands within the 1987
37 Davis General Plan Study Area.

38 (T) Six million dollars (\$6,000,000) for a grant to the County of Sacramento, to
39 be shared by the county with the City of Sacramento on a per capita basis, for
40 acquisition of parklands, wetlands, wildlife habitat, and related greenbelt areas in
41 the county along Morrison Creek, Dry Creek, Snodgrass Slough, Cosumnes River,

1 Laguna Creek, Sacramento River, and American River, consistent with the County
2 Park System Master Plan.

3 (U) Four hundred thousand dollars (\$400,000) for a grant to Lake County for
4 acquisition of a county park that provides wildlife habitat, riparian areas, and
5 recreational benefits near Middletown.

6 (c) Eighty-one million three hundred thousand dollars (\$81,300,000) to the
7 Wildlife Conservation Board for programs involving the acquisition of land
8 pursuant to the Wildlife Conservation Law of 1947, subject to Section 2625 55550
9 of the Fish and Game Wildlife Code and consistent with the purposes of this
10 division, and for grants to local agencies, including an amount not to exceed one
11 million two hundred nineteen thousand five hundred dollars (\$1,219,500) for state
12 administrative costs, in accordance with the following schedule:

13 (1) Thirty-eight million dollars (\$38,000,000) for projects involving the
14 acquisition, preservation, protection, restoration, enhancement, or development of
15 wetlands for wildfowl and other wildlife habitat, in accordance with the following
16 schedule:

17 (A) Thirteen million dollars (\$13,000,000) for acquisition or restoration of
18 wetlands within or adjacent to (1) the areas subject to the jurisdiction of the San
19 Francisco Bay Conservation and Development Commission or (2) the boundaries
20 of historic San Francisco Bay wetlands as designated in the 1985 United States Fish
21 and Wildlife Service National Wetland Inventory Maps for the San Francisco Bay
22 Area or in subsequent updates with not less than eight million dollars (\$8,000,000)
23 for acquisition or restoration of wetlands south of the San Mateo Bridge.

24 (B) Twenty-five million dollars (\$25,000,000) for wetlands outside the coastal
25 zone as defined in Section 30103 and other than within the area defined in
26 subparagraph (A).

27 (2) Two million dollars (\$2,000,000) for acquisition of monarch butterfly habitat.

28 (3) Ten million dollars (\$10,000,000) for acquisition of riparian habitat that drains
29 into the Pacific Ocean within the Counties of San Diego, Orange, Los Angeles, and
30 Ventura.

31 (4) Four million dollars (\$4,000,000) for acquisition of land containing Tecate
32 Cypress forest and associated rare species in Coal Canyon in Orange County.

33 (5) Five million dollars (\$5,000,000) for acquisition of wildlife habitat and natural
34 lands along the San Joaquin River between Friant Dam and Highway 99 in the
35 Counties of Fresno and Madera.

36 (6) Three hundred thousand dollars (\$300,000) for acquisition of valley oak
37 riparian forest and wetlands along the Mokelumne River near Galt in San Joaquin
38 County.

39 (7) Two million dollars (\$2,000,000) for acquisition of wetlands, riparian habitat,
40 vernal pools, and immediately adjacent natural uplands in the vicinity of the
41 Stanislaus, Tuolumne, Merced, and San Joaquin Rivers and their tributaries in

1 Stanislaus, San Joaquin, and Merced Counties for open-space, habitat protection, or
2 riparian restoration.

3 (8) Four million dollars (\$4,000,000) for acquisition of riparian habitat along the
4 Sacramento River from Shasta Dam to Collinsville.

5 (9) One million dollars (\$1,000,000) for acquisition of riparian habitat along the
6 Feather River from Oroville to the mouth of the river.

7 (10) Four million dollars (\$4,000,000) for acquisition of inland, San Pablo Bay,
8 and coastal wetlands in Sonoma County, including the Laguna de Santa Rosa.

9 (11) Two million dollars (\$2,000,000) for acquisition within the Napa Marsh and
10 associated wetlands.

11 (12) One million dollars (\$1,000,000) for acquisition of wildlife habitat in
12 northern Napa County as identified by the Department of Fish and Game Wildlife.

13 (13) Four million dollars (\$4,000,000) for acquisition of sensitive riparian areas,
14 meadows, critical wildlife habitat, and recreation lands in the Hope Valley area just
15 south of Lake Tahoe in Alpine County. Portions of these lands which could provide
16 compatible recreational opportunities may be managed by the Department of Parks
17 and Recreation under an interagency agreement with the Department of Fish and
18 Game Wildlife.

19 (14) Four million dollars (\$4,000,000) for acquisition of old growth redwoods,
20 mixed forest, and wildlife habitat near the town of Whitethorn in the Mattole River
21 watershed in Humboldt and Mendocino Counties.

22 (d) Fifty-eight million dollars (\$58,000,000) to the State Coastal Conservancy
23 pursuant to Division 21 (commencing with Section 31000), consistent with the
24 purposes of this division, for acquisition, enhancement, or restoration of natural
25 lands and development of public accessways in coastal areas and the San Francisco
26 Bay region; and for preservation of agriculture in coastal areas, and for grants to
27 local agencies and nonprofit organizations, and for related state administrative costs,
28 in accordance with the following schedule:

29 (1) Thirty-four million dollars (\$34,000,000) to the State Coastal Conservancy for
30 acquisition, enhancement, or restoration of natural lands, and development of public
31 accessways in coastal areas and the San Francisco Bay region; and for preservation
32 of agriculture in coastal areas, pursuant to Division 21 (commencing with Section
33 31000). These funds include the five million eight hundred fifty thousand dollars
34 (\$5,850,000) advanced by the Coastal Conservancy to the Santa Monica Mountains
35 Conservancy for the Circle X acquisition in the Santa Monica Mountains. Up to one
36 million five hundred thousand dollars (\$1,500,000) of the total funds available
37 pursuant to this paragraph shall be spent on expansion of the Bolsa Chica Linear
38 Park in Orange County or for disbursement to the City of Huntington Beach or other
39 appropriate agencies for this purpose, or for restoration, enhancement, or expansion
40 of the Bolsa Chica wetlands that is not otherwise required for mitigation, or both.
41 Up to four million dollars (\$4,000,000) of the total funds available pursuant to this

1 paragraph shall be spent for the purposes of paragraph (2) if the funds allocated in
2 paragraph (2) prove to be insufficient to achieve the purposes of that paragraph.

3 (2) Ten million dollars (\$10,000,000) for acquisition of natural lands to preserve
4 coastal resources in the coastal dunes and wetlands from Mussel Point to Grover
5 City west of Highway 1 in San Luis Obispo and Santa Barbara Counties. Up to
6 seven hundred fifty thousand dollars (\$750,000) may be spent for dunes restoration
7 and public access consistent with coastal resources preservation.

8 (3) One million five hundred thousand dollars (\$1,500,000) for acquisition of
9 coastal natural lands and wetlands in Monterey County between Monterey Wharf
10 #2 and the Salinas River.

11 (4) Eight million dollars (\$8,000,000) for acquisition of, and for grants to public
12 agencies or nonprofit organizations for acquisition of, coastal lands within San
13 Mateo County that meet three or more of the following criteria, with preference
14 given to lands meeting the largest number of criteria: (1) ocean frontage, (2) state
15 or county scenic corridor, (3) designated in the County General Plan as agriculture,
16 (4) sensitive habitat areas or wetlands, (5) close proximity to urban areas, or (6)
17 adjacent to other permanently dedicated public or private natural lands. These funds
18 shall not be used for urban waterfronts or for lot consolidation projects as defined
19 in Chapters 5 (commencing with Section 31200) and 7 (commencing with Section
20 31300) of Division 21.

21 (5) Four million dollars (\$4,000,000) for acquisitions in Sonoma County of
22 coastal natural lands and coastal wetlands south of Stewart Point, and for acquisition
23 of San Pablo Bay wetlands and natural lands.

24 (6) Five hundred thousand dollars (\$500,000) for acquisition of, and for grants to
25 nonprofit organizations for acquisition of, land containing old growth Douglas fir
26 on Mill Creek, a tributary of the Mattole River in Humboldt County, and for public
27 access to the lands acquired.

28 (e) Eighty-two million dollars (\$82,000,000) to the following agencies, and for
29 grants to local agencies and nonprofit organizations, including state administrative
30 costs, for the following purposes:

31 (1) Seventeen million dollars (\$17,000,000) to the Department of Fish and Game
32 Wildlife, including an amount not to exceed two hundred fifty-five thousand dollars
33 (\$255,000) for state administrative costs, in accordance with the following schedule:

34 (A) Ten million dollars (\$10,000,000) for restoration and enhancement of salmon
35 streams in accordance with the recommendations of the Commercial Salmon Stamp
36 Advisory Committee and the Advisory Committee on Salmon and Steelhead Trout.

37 (B) Six million dollars (\$6,000,000) for restoration and enhancement of wild trout
38 and native steelhead habitat; for capital outlay to design, develop, and construct an
39 experimental wild trout and native steelhead propagation facility; for acquisition of
40 land important for the perpetuation of wild trout and native steelhead; and to provide
41 public access to wild trout and native steelhead waters.

(C) One million dollars (\$1,000,000) for marine patrol boats and other equipment for enforcement of fish and game regulations to protect fish, marine birds, and marine mammals from Point Conception to Fort Bragg.

(2) Five million dollars (\$5,000,000) to the Department of Forestry for urban forestry programs, and for related state administrative costs not to exceed two hundred fifty thousand dollars (\$250,000), in accordance with Section 4799.12.

(3) Five million dollars (\$5,000,000) to the Department of Water Resources for grants to counties, cities, cities and counties, districts, and nonprofit organizations for the acquisition or restoration of natural lands which contain urban streams, creeks, and riparian areas, and for related state administrative costs not to exceed two hundred fifty thousand dollars (\$250,000), in accordance with Section 7048 of the Water Code.

(4) Thirty million dollars (\$30,000,000) to the Santa Monica Mountains Conservancy for land acquisition and for grants to nonprofit organizations for land acquisition in the Santa Monica Mountains, and for related state administrative costs, pursuant to Division 23 (commencing with Section 33000) and consistent with the purposes of this division. Five million dollars (\$5,000,000) of this amount shall be for grants to nonprofit organizations pursuant to Section 33204.2.

(5) Twenty-five million dollars (\$25,000,000) to the County of Monterey to be transferred directly to the 1988 Bond Act Account of the Big Sur Preservation Fund of Monterey County to support implementation of “critical viewshed” policies of the county’s Big Sur Coast Land Use Plan which was certified by the California Coastal Commission on April 9, 1986, as a component of the Big Sur Local Coastal Program.

The intent of this paragraph is to ensure that the exceptional vistas seen from Scenic Highway One along the Big Sur Coast in Monterey County will be preserved in a manner that ensures the continuation of existing state and local jurisdiction over the Big Sur area.

Comment. Subdivision (c) of Section 5907 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update references to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Note. Section 5907 was added to the Public Resources Code in 1988 by an initiative statute, Proposition 70. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 5927 (amended).

SEC. _____. Section 5927 of the Public Resources Code is amended to read:

5927. The qualification for or allocation of a grant or grants to a local agency under one subdivision, paragraph, or subparagraph of Section 5907 shall not preclude eligibility for an additional allocation of grant funds to the same local agency pursuant to another subdivision, paragraph, or subparagraph of Section 5907 or pursuant to Section 2720 55725 of the Fish and Game Wildlife Code.

Comment. Section 5927 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 5927 was added to the Public Resources Code in 1988 by an initiative statute, Proposition 70. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 5930 (amended).

SEC. _____. Section 5930 of the Public Resources Code is amended to read:

5930. Bonds in the total amount of seven hundred sixty-eight million six hundred seventy thousand dollars (\$768,670,000), or so much thereof as is necessary, may be issued and sold to be used for carrying out the purposes expressed in this division and in ~~Chapter 7.5 (commencing with Section 2700) of Division 3 Title 4 (commencing with Section 55700) of Part 2 of Division 15 of the Fish and Game Wildlife Code~~ and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. A sum, not to exceed seven hundred twenty-six million dollars (\$726,000,000) of the bond proceeds, shall be deposited in the California Wildlife, Coastal, and Park Land Conservation Fund of 1988 for the purposes of this division, and a sum, not to exceed fifty million dollars (\$50,000,000) of bond proceeds, shall be deposited in the Wildlife and Natural Areas Conservation Fund for the purposes of the Wildlife and Natural Areas Conservation Program (~~Chapter 7.5 (commencing with Section 2700) of Division 3 Title 4 (commencing with Section 55700) of Part 2 of Division 15 of the Fish and Game Wildlife Code~~). The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest as they become due and payable.

Comment. Section 5930 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 5930 was added to the Public Resources Code in 1988 by an initiative statute, Proposition 70. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 5932 (amended).

SEC. _____. Section 5932 of the Public Resources Code is amended to read:

5932. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this division, the California Wildlife, Coastal, and Park Land Conservation Program of 1988 Finance Committee is hereby created. For purposes of this division, the California Wildlife, Coastal, and Park Land Conservation Program of 1988 Finance Committee is “the committee” as that term is used in the State General Obligation Bond Law. The committee shall consist of the Controller, the Director of Finance,

and the Treasurer, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of this division and Chapter 7.5 (commencing with Section 2700) of Division 3 Title 4 (commencing with Section 55700) of Part 2 of Division 15 of the Fish and Game Wildlife Code and the State General Obligation Bond Law, the Wildlife Conservation Board, the Department of Parks and Recreation, the Department of Water Resources, the Department of Forestry, the Department of Fish and Game Wildlife, the Santa Monica Mountains Conservancy, or the State Coastal Conservancy, depending on which agency has jurisdiction, is hereby designated as “the board.”

Comment. Section 5932 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

 **Note.** Section 5932 was added to the Public Resources Code in 1988 by an initiative statute, Proposition 70. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 5933 (amended).

SEC. _____. Section 5933 of the Public Resources Code is amended to read:

5933. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this division in order to carry out the actions specified in Section 5907 of this code and Section 2720 55725 of the Fish and Game Wildlife Code, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

Comment. Section 5933 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 5933 was added to the Public Resources Code in 1988 by an initiative statute, Proposition 70. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 5936 (amended).

SEC. _____. Section 5936 of the Public Resources Code is amended to read:

5936. For the purposes of carrying out this division and Chapter 7.5 (commencing with Section 2700) of Division 3 Title 4 (commencing with Section 55700) of Part 2 of Division 15 of the Fish and Game Wildlife Code, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out those provisions. Any amounts withdrawn shall be

deposited in the California Wildlife, Coastal, and Park Land Conservation Fund of 1988 or the Wildlife and Natural Areas Conservation Fund, as appropriate. Any money made available under this section shall be returned to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds which would otherwise be deposited in that fund.

Comment. Section 5936 is amended to reflect the recodification of the former Fish and Game Code.

Note. Section 5936 was added to the Public Resources Code in 1988 by an initiative statute, Proposition 70. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 6217.1 (amended).

SEC. _____. Section 6217.1 of the Public Resources Code is amended to read:

6217.1. (a) This section and the process described in this section governs the expenditure of any funds received by the State of California from the federal government for the purposes of salmon and steelhead trout conservation and restoration, the expenditure of funds authorized for the Coastal Watershed Salmon Habitat Program pursuant to Article 7 (commencing with Section 79104.200) of Chapter 6 of Division 26 of the Water Code, and the expenditure of funds appropriated to the Department of Fish and Game Wildlife for salmon and steelhead trout conservation and restoration from the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Fund pursuant to Article 5 (commencing with Section 5096.650) of Chapter 1.696 of Division 5 of the Public Resources Code.

(b) For purposes of this section, “project” means an activity that improves fish habitat in coastal waters utilized by salmon and anadromous trout species.

(c)(1) The Department of Fish and Game Wildlife shall grant funds from the Salmon and Steelhead Trout Restoration Account in the Resources Trust Fund, as follows:

(A) At least 87.5 percent of the funds shall be allocated as project grants through the existing grant program operated by the fisheries management program of the Department of Fish and Game Wildlife.

(B) Not more than 12.5 percent of the funds may also be used for project contract administration activities and biological support staff.

(2)(A) A project shall require the consent of a willing landowner, and emphasize the development of coordinated watershed improvement activities.

(B) Projects that restore habitat for salmon and anadromous trout species that are eligible for protection as listed or candidate species under state or federal endangered species acts shall be given top funding priority.

(C) Projects shall be cost-effective and treat causes and not symptoms of fish habitat degradation. Projects may implement instream, riparian, water quality, water

1 quantity, and watershed prescriptions and shall be designed to restore the structure
2 and function of fish habitat.

3 (3) Any grant funds allocated to a project that exceed the actual cost of completing
4 the project shall be returned to the Salmon and Steelhead Trout Restoration
5 Account.

6 (d)(1) A citizen's advisory committee shall be appointed by the Director of Fish
7 and Game Wildlife to give advice on the grant program.

8 (2) The advisory committee shall consist of seven representatives recommended
9 by the California Advisory Committee on Salmon and Steelhead Trout, one
10 representative from the agriculture industry, one representative from the timber
11 industry, one representative of public water agency interests, one academic or
12 research scientist with expertise in anadromous fisheries restoration, and three
13 county supervisors from coastal counties in which anadromous trout exist. The
14 county supervisor members shall be recommended by the California State
15 Association of Counties.

16 (3) The advisory committee shall provide oversight of, and recommend priorities
17 for, grant funding under this section. In making funding decisions, the Department
18 of Fish and Game Wildlife shall consider the project selection priorities established
19 by the advisory committee.

20 (4) Members of any advisory committee established for these purposes shall be
21 reimbursed for travel and incidental expenses related to the performance of their
22 duties under this section. Reimbursement for the advisory committee created
23 pursuant to this section shall be made from the funds designated in subparagraph
24 (B) of paragraph (1) of subdivision (c). Reimbursement for other Department of
25 Fish and Game Wildlife salmon and steelhead trout advisory committees shall be
26 funded by appropriate sources.

27 (5) If a member of the advisory committee, or a member of his or her immediate
28 family, is employed by a grant applicant, the employer of a grant applicant, or a
29 consultant or independent contractor employed by a grant applicant, the advisory
30 committee member shall make that disclosure to the other members of the
31 committee, and shall not participate in reviewing or making recommendations on
32 the grant application of that applicant.

33 (e) Except as provided in subdivision (f), the money in the Salmon and Steelhead
34 Trout Restoration Account shall be allocated as follows:

35 (1) Not less than 65 percent of the money shall be used for salmon habitat
36 protection and restoration projects. Of that amount, at least 75 percent shall be used
37 for watershed (upslope) and riparian area protection and restoration activities. These
38 activities may include, but are not limited to, grants to acquire and install fish
39 screens to protect juvenile and adult salmon and steelhead trout from entrapment in
40 water diversions, and grants to remove substandard culverts, stream crossings, and
41 bridges that constitute barriers to spawning of salmon and steelhead trout and
42 passage of fish. These funds may also be used for the acquisition, from willing

1 sellers, of conservation easements for riparian buffer strips along coastal rivers and
2 streams to protect salmon and steelhead trout habitat or for projects that protect and
3 improve water quality and quantity.

4 (2) Up to 35 percent of the money shall be allocated for any of the uses listed in
5 this paragraph.

6 (A) Watershed evaluation, assessment, and planning necessary to develop a site-
7 specific and clearly prioritized plan to implement watershed improvements.

8 (B) Multiyear grants for watershed planning and project monitoring and
9 evaluations.

10 (C) Watershed organization support and assistance.

11 (D) Project maintenance and monitoring after the project implementations are
12 complete.

13 (E) Public school watershed and fishery conservation education projects.

14 (F) Private sector technical training and education project grants, including
15 teaching private landowners about practical means of improving land and water
16 management practices that, if implemented, will contribute to the protection and
17 restoration of salmon stream habitat; scholarship funding for workshops and
18 conferences that teach restoration techniques; operation of nonprofit restoration
19 technical schools; and production of restoration training and education workshops
20 and conferences.

21 (G) Fish and wildlife habitat improvements, as defined by Section 4793, and
22 authorized under the California Forestry Incentive Program (CFIP).

23 (H) The salmon restoration project of the California Conservation Corps.

24 (I) The state's share of the federal Watershed Stewards Program.

25 (J) Monitoring projects that utilize protocols approved by the Department of Fish
26 and Game Wildlife and the National Marine Fisheries Service (NMFS) to provide
27 baseline or trend data, or both, for anadromous fish populations or the physical and
28 biological factors known to be limiting recovery.

29 (K) Artificial propagation programs designed to restore depleted stocks of
30 salmonids that comply with the directives of the joint Department of Fish and Game
31 Wildlife and NMFS Hatchery Operations Review Committee.

32 (f) The advisory committee, in any fiscal year, may make a recommendation to
33 the Department of Fish and Game Wildlife to allocate money from the Salmon and
34 Steelhead Trout Restoration Account for the purposes stated in subdivision (e), but
35 in different percentage requirements than the 65/35 split stated in paragraphs (1) and
36 (2) of that subdivision. Following that recommendation, the Director of Fish and
37 Game Wildlife may suspend the percentage requirements stated in paragraphs (1)
38 and (2) of subdivision (e) for that fiscal year only.

39 **Comment.** Section 6217.1 is amended to update references to the former Department of Fish
40 and Game, and the Director of that department. See Fish & Wildlife Code § 1500.

1 **Pub. Res. Code § 6217.3 (amended).**

2 SEC. _____. Section 6217.3 of the Public Resources Code is amended to read:

3 6217.3. (a) The Legislature finds and declares all of the following:

4 (1) The Safe Drinking Water, Water Quality and Supply, Flood Control, River
5 and Coastal Protection Bond Act of 2006, an initiative approved by the voters at the
6 November 7, 2006, statewide general election, makes available the sum of one
7 hundred eighty million dollars (\$180,000,000) in bond funds for bay-delta and
8 coastal fishery restoration projects.

9 (2) Of the funds made available, up to forty-five million dollars (\$45,000,000) is
10 available for coastal salmon and steelhead fishery restoration projects that support
11 the development and implementation of species recovery plans and strategies for
12 salmonid species listed as threatened or endangered under state or federal law.

13 (b) From the forty-five million dollars (\$45,000,000) available for coastal salmon
14 and steelhead fishery restoration projects pursuant to subdivision (a) of Section
15 75050, five million two hundred ninety-three thousand dollars (\$5,293,000) is
16 appropriated to the Department of Fish and Game Wildlife for the purposes of
17 coastal salmon and steelhead fishery restoration projects, including the Coastal
18 Salmonid Monitoring Plan. The Department of Fish and Game Wildlife shall not
19 allocate more than two million five hundred twenty thousand dollars (\$2,520,000)
20 of these funds for the Coastal Salmonid Monitoring Plan.

21 (c)(1) Except for the funds annually appropriated for the Coastal Salmonid
22 Monitoring Plan, and as provided in paragraph (3), the process governing the
23 expenditure of funds described in Section 6217.1 shall be applied to the expenditure
24 of funds available for coastal salmon and steelhead fishery restoration projects
25 pursuant to subdivision (a) of Section 75050 that are allocated by the Department
26 of Fish and Game Wildlife pursuant to subdivision (b).

27 (2) The funds annually allocated to the Coastal Salmonid Monitoring Plan are
28 exempt from the requirements of Section 6217.1.

29 (3) If there is a conflict between a provision of this section and a provision of
30 Division 43 (commencing with Section 75001), the provision of Division 43 shall
31 govern.

32 **Comment.** Section 6217.3 is amended to update references to the former Department of Fish
33 and Game. See Fish & Wildlife Code § 1500.

34 **Pub. Res. Code § 6378 (amended).**

35 SEC. _____. Section 6378 of the Public Resources Code is amended to read:

36 6378. The commission shall determine the ownership of all salmon and steelhead
37 spawning areas as designated by Section 1505 60900 of the Fish and Game Wildlife
38 Code. All areas found to be state property shall be permanently protected by the
39 state, and no sale, lease or disposal of material shall be made as to such areas, except
40 that rights-of-way and easements may be granted to, and leases entered into with,
41 public utilities for the installation, operation, and maintenance of public utility

1 facilities unless the Director of Fish and Game Wildlife shall determine that such
2 facilities would prove deleterious to fishlife.

3 **Comment.** Section 6378 is amended to reflect the recodification of the former Fish and Game
4 Code. The section is also amended to update a reference to the Director of the former Department
5 of Fish and Game. See Fish & Wildlife Code § 1500.

6 **Pub. Res. Code § 6873.5 (amended).**

7 SEC. _____. Section 6873.5 of the Public Resources Code is amended to read:

8 6873.5. (a) In carrying out the requirements of subdivision (b) of Section 6873
9 and the California Environmental Quality Act, the commission shall, prior to the
10 adoption of a form of lease for leasing offshore tide and submerged lands between
11 the mean high tide line and the three-mile jurisdictional limit, consult with the
12 Department of Fish and Game Wildlife, the National Marine Fisheries Service, and
13 representatives of the oil industry, representatives of fishermen operating within the
14 area being considered for leasing. The commission shall hold at least one hearing
15 on the draft environmental document prepared for the proposed lease in a
16 jurisdiction of a local government within the coastal zone, as defined by Section
17 30103, near the area being considered for leasing. The commission shall give at least
18 30 days' written notice regarding the public hearing to each city or county within or
19 adjacent to the proposed lease area and shall publish the notice in the manner
20 prescribed in Section 6834. The authority to hold hearings provided in this section
21 may be delegated by the commission to its officers or employees.

22 (b) The commission shall consider the potential impacts of the proposed lease on
23 the fisheries and marine habitat within the area being considered for leasing. The
24 commission shall include in its consideration:

25 (1) The environmental document prepared for the proposed lease.

26 (2) Recommendations of the Department of Fish and Game Wildlife, the National
27 Marine Fisheries Service, the oil industry, and fishermen.

28 (3) The cooperative efforts of the oil industry and fishermen to develop plans to
29 mitigate potential impacts.

30 (c) Fishery areas that should be considered for protection include established
31 fishing grounds or critical spawning or nursery grounds as indicated by records of
32 the Department of Fish and Game Wildlife.

33 (d) The commission may impose terms, conditions, or operational requirements it
34 deems necessary to protect fisheries, including, but not limited to, the exclusion of
35 specified areas from development activities.

36 (e) This section shall not be construed as a limitation on slant or directional
37 drilling under the excluded area from any location outside an excluded fishery area.

38 **Comment.** Section 6873.5 is amended to update references to the former Department of Fish
39 and Game. See Fish & Wildlife Code § 1500.

40 **Pub. Res. Code § 6890 (amended).**

41 SEC. _____. Section 6890 of the Public Resources Code is amended to read:

1 6890. (a) Prospecting permits and leases for the extraction and removal of
2 minerals, other than oil and gas or other hydrocarbon substances, from lands,
3 including tide and submerged lands belonging to the state, may be issued as
4 provided in this article and in this chapter insofar as not in conflict with this article.
5 The commission shall not issue any permit or lease under this section until it has
6 been submitted to the Attorney General and has been approved by the Attorney
7 General as to compliance with the applicable law and rules and regulations of the
8 commission. No lease or permit shall be issued which results in any net adverse
9 impact to wetlands or riparian habitat.

10 (b) Where lands, other than tide and submerged lands, belonging to the state have
11 been dedicated to a public use, the commission may issue permits and leases for the
12 exploration, extraction, and removal of minerals, other than oil and gas or other
13 hydrocarbon substances and geothermal resources, in accordance with this article.
14 Where the lands have been acquired for the use of a specific state agency, the state
15 agency, prior to issuance, shall approve the work to be performed under the
16 authority of the permit or lease and the state agency shall specify terms and
17 conditions required to ensure that the work shall be performed in a manner which is
18 not inconsistent with the purposes for which the land is owned or operated.

19 (c) If the property is a wildlife management area acquired pursuant to Section
20 ~~1525~~ 60600 of the Fish and Game Wildlife Code, the commission shall not issue
21 any permit or lease under this section unless the Department of Fish and Game
22 Wildlife determines, and reports in writing to the commission, that the proposed
23 activity will not cause a net loss of wildlife habitat value or acreage in that area
24 because privately owned land of greater total wildlife habitat value and acreage,
25 which has habitat values similar in type to the area to be permitted or leased, will be
26 acquired and dedicated to the state to replace the land of that wildlife management
27 area. The replacement land shall be located within 10 miles of the wildlife
28 management area where the lease or permit is to be issued.

29 (d) The commission shall not issue a permit or lease under this section for any
30 land under the jurisdiction of the Department of Parks and Recreation, for any
31 refuge or other protected area, as described in ~~Division 7 (commencing with Section~~
32 ~~10500) Title 3 (commencing with Section 7230) of Part 1 of Division 4, Section~~
33 ~~13950, 34060, or 34065, or Title 3 (commencing with Section 58700) of Part 1 of~~
34 ~~Division 16, of the Fish and Game Wildlife Code, or for any ecological reserve, as~~
35 ~~described in Article 4 (commencing with Section 1580) of Chapter 5 of Division 2~~
36 ~~Part 6 (commencing with Section 60750) of Division 16 of the Fish and Game~~
37 ~~Wildlife Code.~~

38 (e) Notwithstanding Section 6217, as of June 30 of each year, a sum equal to 50
39 percent of the revenue received by the state for the fiscal year ending on June 30
40 pursuant to permits and leases for the development of minerals, other than oil, gas,
41 or other hydrocarbon substances and geothermal resources, on lands which have
42 been dedicated to a public use and are administered by a state agency other than the

1 commission shall be available for appropriation by the Legislature for the support
2 of, and apportionment and transfer by the Controller to, that state agency.

3 (f) If the state agency receives a majority of its funding from a special fund
4 established for the general support of the agency, the revenue made available by
5 subdivision (e) shall be deposited in that fund and shall be available, when
6 appropriated, for the general purposes of the agency.

7 (g) Any person issued a permit or lease under subdivision (a) shall comply with
8 all existing federal, state, and local government laws.

9 **Comment.** Subdivision (c) of Section 6890 is amended to reflect the recodification of the former
10 Fish and Game Code. The section is also amended to update a reference to the former Department
11 of Fish and Game. See Fish & Wildlife Code § 1500.

12 **Pub. Res. Code § 8554 (amended).**

13 SEC. _____. Section 8554 of the Public Resources Code is amended to read:
14 8554. The Department of Fish and Game Wildlife is hereby designated the
15 “official state agency engaged in the conservation or propagation of wild life”
16 referred to in Section 9 of the act of Congress cited in Section 8551 of this code.

17 **Comment.** Section 8554 is amended to update a reference to the former Department of Fish and
18 Game. See Fish & Wildlife Code § 1500.

19 **Pub. Res. Code § 8560 (amended).**

20 SEC. _____. Section 8560 of the Public Resources Code is amended to read:

21 8560. (a) For purposes of this chapter, the following terms apply:

22 (1) “Conservation plan” means a habitat conservation plan developed pursuant to
23 Section 10 of the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1539)
24 and its implementing regulations, as the federal act and regulations exist as of
25 January 1, 2016, and an approved natural communities conservation plan developed
26 pursuant to the Natural Community Conservation Planning Act (~~Chapter 10~~
27 ~~(commencing with Section 2800) of Division 3 Title 2 (commencing with Section~~
28 ~~64500) of Part 2 of Division 17~~ of the Fish and Game Wildlife Code).

29 (2) “Conveyance” includes any method, including sale, donation, or exchange, by
30 which all or a portion of the right, title, and interest of the United States in and to
31 federal lands located in California is transferred to another entity.

32 (3) “Federal public land” means any land owned by the United States, including
33 the surface estate, the subsurface estate, or any improvements on those estates.

34 (4) “Infrastructure” means any development or construction that is not on or
35 appurtenant to the federal public land at the time of transfer.

36 (b)(1) Except as provided in Chapter 6 (commencing with Section 6441) of Part
37 1, it is the policy of the State of California to discourage conveyances that transfer
38 ownership of federal public lands in California from the federal government.

39 (2)(A) Except as provided in this chapter, conveyances of federal public lands in
40 California are void ab initio unless the commission was provided with the right of

1 first refusal to the conveyance or the right to arrange for the transfer of the federal
2 public land to another entity.

3 (B) The commission may seek declaratory and injunctive relief from a court of
4 competent jurisdiction to contest conveyances made to any entity unless the
5 requirements of this paragraph are met.

6 (C) The commission shall formally consider its right of first refusal or arrange for
7 the transfer of federal public lands to a third party at a public hearing.

8 (D)(i) Prior to the conveyance of federal public lands in California, if the
9 commission was provided with the right of first refusal or the right to arrange for
10 the transfer of the federal public lands to another entity, the commission shall issue
11 a certificate affirming compliance with this section.

12 (ii) The commission shall waive its right of first refusal or the right to arrange for
13 the transfer of the federal public lands to another entity, and issue a certification of
14 compliance affirming compliance with this section for a conveyance that is deemed
15 by the commission to be routine. A conveyance deemed by the commission to be
16 routine includes, but is not limited to, the exchange of lands of equal value between
17 the federal government and a private entity. The commission may adopt regulations
18 to establish a process and criteria for determining the types of conveyances it
19 considers to be routine. The executive officer of the commission shall have the
20 authority to issue certifications of compliance for conveyances made in compliance
21 with this subparagraph.

22 (E) The commission, the Wildlife Conservation Board, and the Department of
23 Fish and Wildlife shall enter into a memorandum of understanding that establishes
24 a state policy that all three agencies shall undertake all feasible efforts to protect
25 against any future unauthorized conveyance or any change in federal public land
26 designation, including, but not limited to, any change in use, classification, or legal
27 status of any lands designated as federal monuments pursuant to the federal
28 Antiquities Act of 1906 (Public Law 59-209).

29 (c) The state shall not be responsible for any costs associated with conveyed
30 federal public land that the commission did not accept, purchase, or arrange for the
31 transfer of, pursuant to this section. Costs include, but are not limited to,
32 management costs and infrastructure development costs.

33 (d) The commission may establish, through regulations or another appropriate
34 method, a process for engaging with federal land managers and potential purchasers
35 of federal public lands early in the conveyance process.

36 (e) The commission shall ensure, for any conveyed federal public land the
37 commission accepts, purchases, or arranges for the transfer of, that future
38 management of the conveyed federal public land is determined in a public process
39 that gives consideration of past recognized and legal uses of those lands. At a
40 minimum, the public process required by this subdivision shall include a noticed
41 and open meeting as required by the Bagley-Keene Open Meeting Act (Article 9

1 (commencing with Section 11120) of Division 3 of Title 2 of the Government
2 Code).

3 (f) The executive officer of the commission shall waive the commission's right of
4 first refusal or the right to arrange for the transfer of the federal public lands to
5 another entity, and issue a certification of compliance affirming compliance with
6 this section for any of the following:

7 (1) The conveyance of federal public lands pursuant to a conservation plan.

8 (2) The renewal of a lease in existence as of January 1, 2017.

9 (3) The conveyance of federal public lands to a federally recognized Native
10 American tribe or lands taken into or out of trust for a Native American tribe or
11 individual Native American.

12 (4) The conveyance of any federal public lands not managed by the federal
13 National Forest Service, the federal Bureau of Reclamation, the federal Bureau of
14 Land Management, the United States Fish and Wildlife Service, or the federal
15 National Park Service unless the land conveyed satisfies any of the following:

16 (A) Is part of a national monument or national marine sanctuary.

17 (B) Contains national conservation lands.

18 (C) Is land placed in the National Register of Historic Places.

19 (D) Is designated for preservation or conservation uses.

20 (5) The conveyance of federal public lands to the State of California.

21 (g) The provisions of this section are severable. If any provision of this section or
22 its application is held invalid, that invalidity shall not affect other provisions or
23 applications that can be given effect without the invalid provision or application.

24 **Comment.** Paragraph (1) of subdivision (a) of Section 8560 is amended to reflect the
25 recodification of the former Fish and Game Code.

26 **Pub. Res. Code § 8723 (amended).**

27 SEC. _____. Section 8723 of the Public Resources Code is amended to read:

28 8723. (a) Within 240 days of the execution of a memorandum of agreement
29 pursuant to Section 8722, the commission shall prepare and submit to the United
30 States Secretary of the Interior a proposal for land exchanges that consolidate school
31 land parcels in the California desert into contiguous holdings that are suitable for
32 large-scale renewable energy-related projects. In developing the proposal, the
33 commission shall give priority to land exchanges that will facilitate the development
34 of large-scale renewable energy projects.

35 (b) The commission's proposal shall be based on an acre-for-acre exchange with
36 the United States. If the United States is not authorized to enter into such an
37 agreement, the commission may propose an exchange based on equivalent appraised
38 values.

39 (c) Notwithstanding subdivision (b), the commission may withhold a school land
40 parcel from an exchange proposal or request additional consideration from the
41 United States Secretary of the Interior if the commission reasonably believes, based

1 on existing and reliable information, that an acre-for-acre exchange would not
2 provide the state with compensation that is equal to or greater than the fair market
3 value of the school land parcel. For the purposes of this subdivision, the commission
4 shall consider the potential renewable energy value of a parcel the commission
5 would receive in the exchange.

6 (d) In preparing the land exchange proposal, the commission shall consult with
7 the Department of Fish and Game Wildlife to identify areas in the California desert
8 that would be consistent with the proposed or adopted provisions of the Desert
9 Renewable Energy Conservation Plan and are either of the following:

10 (1) Suitable for renewable energy projects because the identified areas do not
11 support habitat or habitat corridor values for species listed as threatened,
12 endangered, or candidate species pursuant to the California Endangered Species Act
13 (~~Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1 (commencing~~
14 ~~with Section 62000) of Division 17~~ of the Fish and Game Wildlife Code) or the
15 federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.), that, in the
16 judgment of the Department of Fish and Game Wildlife, are sufficient to warrant
17 consideration of their designation as a mitigation or conservation area for these
18 species.

19 (2) Suitable as potential mitigation areas to mitigate the impacts that renewable
20 energy-related projects may have on the environment.

21 (e) The commission's costs and expenses attributable to the land exchange process
22 may be payable from the fund. Notwithstanding Section 6217.5, a portion of the
23 revenues generated from renewable energy leases pursuant to this chapter shall be
24 made available to the commission, upon appropriation by the Legislature, to cover
25 the commission's costs attributable to the land exchange process.

26 (f) The commission may consider counter land exchange proposals from the
27 United States Secretary of the Interior and make additional proposals to the extent
28 that the additional proposals achieve the goals set forth in this chapter.

29 (g) Final approval of a land exchange proposed pursuant to this chapter shall be
30 made by the commission at a properly noticed commission meeting.

31 Comment. Paragraph (1) of subdivision (d) of Section 8723 is amended to reflect the
32 recodification of the former Fish and Game Code. The section is also amended to update references
33 to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

34 **Pub. Res. Code § 9960 (amended).**

35 SEC. _____. Section 9960 of the Public Resources Code is amended to read:

36 9960. The following definitions shall govern the interpretation of this chapter:

37 (a) "Suisun Marsh" means the Suisun Marsh as defined in Section 29101.

38 (b) "Primary management area" means the primary management area as defined
39 in Section 29102.

40 (c) "Suisun Marsh Protection Plan" means the plan identified and defined in
41 Section 29113.

42 (d) "District" means the Suisun Resource Conservation District.

1 (e) "Board" means the board of directors of the district.

2 (f) "Individual ownership" means a separate privately owned parcel of land within
3 the primary management area. Contiguous parcels of land owned by the same legal
4 entity comprise a single individual ownership.

5 (g) "Department" means the Department of Fish and Game Wildlife.

6 **Comment.** Section 9960 is amended to update a reference to the former Department of Fish and
7 Game. See Fish & Wildlife Code § 1500.

8 **Pub. Res. Code § 10002 (amended).**

9 SEC. _____. Section 10002 of the Public Resources Code is amended to read:

10 10002. (a) The Director of Fish and Game Wildlife shall prepare proposed
11 streamflow requirements, which shall be specified in terms of cubic feet of water
12 per second, for each stream or watercourse identified pursuant to Section 10001. In
13 developing the requirements for each stream, the director shall consult with the
14 Director of Water Resources, the Director of Parks and Recreation and with all
15 affected local governments. The Director of Fish and Game Wildlife may also
16 consult with any private individuals, groups, or organizations as the director deems
17 advisable. Upon completion of the proposed streamflow requirements for any
18 individual stream or watercourse, the Director of Fish and Game Wildlife shall
19 transmit these proposed requirements to the State Water Resources Control Board.
20 The State Water Resources Control Board shall consider these requirements within
21 a stream as set forth in Section 1257.5 of the Water Code. The Director of Fish and
22 Game Wildlife shall complete the preparation of proposed requirements for the
23 initial streams not later than July 1, 1989.

24 (b) The Department of Fish and Game Wildlife may contract for temporary
25 services for purposes of preparing the proposed streamflow requirements.

26 **Comment.** Section 10002 is amended to update references to the former Department of Fish and
27 Game, and to the Director of that department. See Fish & Wildlife Code § 1500. The section is also
28 amended to add subdivision designations.

29 **Pub. Res. Code § 10004 (amended).**

30 SEC. _____. Section 10004 of the Public Resources Code is amended to read:

31 10004. The Department of Fish and Game Wildlife shall initiate studies to develop
32 proposed streamflow requirements for those streams or watercourses in each fiscal
33 year for which funds are appropriated and shall complete studies on each stream or
34 watercourse within three years. It is the intent of the Legislature that the department
35 develop a program that will initiate studies on at least 10 streams or watercourses in
36 each fiscal year.

37 **Comment.** Section 10004 is amended to update a reference to the former Department of Fish
38 and Game. See Fish & Wildlife Code § 1500.

39 **Pub. Res. Code § 10005 (amended).**

40 SEC. _____. Section 10005 of the Public Resources Code is amended to read:

1 10005. (a) The Department of Fish and Game Wildlife shall impose and collect a
2 filing fee of eight hundred fifty dollars (\$850) to defray the costs of identifying
3 streams and providing studies pursuant to Division 10 (commencing with Section
4 10000) of the Public Resources Code.

5 (b) The filing fee shall be proportional to the cost incurred by the Department of
6 Fish and Game Wildlife and shall be annually reviewed and adjustments
7 recommended to the Legislature in an amount necessary to pay the costs of the
8 Department of Fish and Game Wildlife as specified in subdivision (a).

9 (c) Any user of water, including a person or entity holding riparian or
10 appropriative rights, shall pay the filing fee to the Department of Fish and Game
11 Wildlife upon application to the State Water Resources Control Board for any
12 permit, transfer, extension, or change of point of diversion, place of use, or purpose
13 of use, if there is a diversion of water from any waterway where fish reside. No
14 permit, or other entitlement identified in this section is effective until the filing fee
15 is paid. The State Water Resources Control Board shall, every six months, forward
16 all fees collected to the department and provide the location for each entitlement for
17 which a filing fee has been collected.

18 (d) The fee imposed by this section shall not be imposed on the following
19 applications filed with the State Water Resources Control Board:

20 (1) Small domestic use registrations and livestock stockpond certificates
21 submitted pursuant to Article 2.7 (commencing with Section 1228) of Chapter 2 of
22 Division 2 of the Water Code.

23 (2) The first application for an extension of time for an individual permit if no
24 change in point of diversion, place of use, or purpose of use is included in the
25 application.

26 (3) Water applications which, in the opinion of the Department of Fish and Game
27 Wildlife, are filed for administrative and technical clarification purposes only.

28 (4) Water applications or petitions, the primary purpose of which is to benefit fish
29 and wildlife resources. The determination of the benefit to fish and wildlife shall be
30 made, in writing, by the Department of Fish and Game Wildlife in order to be
31 exempt from the fee.

32 (e) If an applicant or petitioner files multiple applications or petitions for the same
33 appropriation, transfer, extension, or change, and the State Water Resources Control
34 Board reviews and considers the applications or petitions together, only one filing
35 fee is required for those applications or petitions.

36 **Comment.** Section 10005 is amended to update references to the former Department of Fish and
37 Game. See Fish & Wildlife Code § 1500.

38 **Pub. Res. Code § 10332 (amended).**

39 SEC. _____. Section 10332 of the Public Resources Code is amended to read:

40 10332. As used in this division, the following terms have the following meanings:

1 (a) “Board” means the Wildlife Conservation Board created pursuant to Article 2
2 (commencing with Section 1320) of Chapter 4 of Division 20 Article 1
3 (commencing with Section 54750) of Chapter 2 of Title 1 of Part 2 of Division 15
4 of the Fish and Game Wildlife Code.

5 (b) “Conservation easement” means a conservation easement, as defined by
6 Section 815.1 of the Civil Code, that is perpetual.

7 (c) “Local public agency” means any city, county, city and county, resource
8 conservation district, district formed pursuant to Article 3 (commencing with
9 Section 5500) of Chapter 3 of Division 5, authority formed pursuant to Division 26
10 (commencing with Section 35100), or joint powers authority made up of two or
11 more local public agencies and one or more state agencies.

12 (d) “Nonprofit organization” means any nonprofit public benefit corporation
13 formed pursuant to the Nonprofit Corporation Law (Division 2 (commencing with
14 Section 5000) of Title 1 of the Corporations Code), qualified to do business in
15 California, and qualified under Section 501(c)(3) of Title 26 of the Internal Revenue
16 Code as a tax-exempt corporation that has as a principal purpose the conservation
17 of land and water resources.

18 (e) “Property” means any real property, and any perpetual interest therein,
19 including land, conservation easements, and land containing water rights.

20 (f) “Qualified property” means property that is rangeland, grazing land, or
21 grassland and is used or is suitable for grazing; is zoned for agricultural grazing, or
22 open-space use; and is used or suitable for habitat for aquatic or terrestrial wildlife
23 species or native plants.

24 (g) “State agency” means any public entity created by statute within the Resources
25 Agency.

26 **Comment.** Section 10332 is amended to reflect the recodification of the former Fish and Game
27 Code.

28 **Pub. Res. Code § 10334 (amended).**

29 SEC. _____. Section 10334 of the Public Resources Code is amended to read:
30 10334. Funds may be expended by the board for the acquisition of conservation
31 easements over qualified property pursuant to the authority granted to the board
32 under Section ~~1348~~ 54815 of the Fish and Game Wildlife Code. The board may also
33 make grants of funds to a state agency, local public agency, or nonprofit
34 organization for the acquisition of conservation easements over qualified property.

35 **Comment.** Section 10334 is amended to reflect the recodification of the former Fish and Game
36 Code.

37 **Pub. Res. Code § 10342 (amended).**

38 SEC. _____. Section 10342 of the Public Resources Code is amended to read:
39 10342. Any conservation easement, money, or other asset acquired pursuant to
40 this division shall not be deemed a transfer pursuant to Article 1 (commencing with

1 Section 2780) of Chapter 9 of Division 3 Title 5 (commencing with Section 55800)
2 of Part 2 of Division 15 of the Fish and Game Wildlife Code.

3 **Comment.** Section 10342 is amended to reflect the recodification of the former Fish and Game
4 Code.

5 **Note.** The section above refers to “a transfer pursuant to Article 1 (commencing with Section
6 2780) of Chapter 9 of Division 3” of the existing Fish and Game Code.

7 That reference appears to be erroneous, because there are no references to a “transfer” in the
8 referenced article.

9 However, there are a number of transfer-related provisions in the chapter that contains the
10 referenced article. That chapter was probably the intended object of the cross-reference. Section
11 10342 would be revised accordingly.

12 **The Commission requests public comment on whether that approach would cause any**
13 **problems.**

14 **Pub. Res. Code § 10344 (amended).**

15 SEC. _____. Section 10344 of the Public Resources Code is amended to read:
16 10344. The board may coordinate this program with the Oak Woodlands
17 Conservation Act established pursuant to Article 3.5 (commencing with Section
18 1360) of Chapter 4 of Division 2 Chapter 3 (commencing with Section 54900) of
19 Title 1 of Part 2 of Division 15 of the Fish and Game Wildlife Code, as administered
20 by the board.

21 **Comment.** Section 10344 is amended to reflect the recodification of the former Fish and Game
22 Code.

23 **Pub. Res. Code § 12252 (amended).**

24 SEC. _____. Section 12252 of the Public Resources Code is amended to read:
25 12252. The easement shall not be required as a condition of any lease, permit,
26 license, certificate, or other entitlement for use issued by one or more public
27 agencies, including, but not limited to, mitigating the significant effects on the
28 environment of a project pursuant to an approved environmental impact report or
29 mitigated negative declaration pursuant to the California Environmental Quality Act
30 (Division 13 (commencing with Section 21000)), the Z’berg-Nejedly Forest
31 Practice Act of 1973 (Chapter 8 (commencing with Section 4511) of Part 2 of
32 Division 4), the California Endangered Species Act (Chapter 1.5 (commencing with
33 Section 2050) of Division 3 Part 1 (commencing with Section 62000) of Division
34 17 of the Fish and Game Wildlife Code), or pursuant to an approved environmental
35 impact statement or a finding of no significant impact under the National
36 Environmental Policy Act of 1969 (42 U.S.C.A. Sec. 4321 et seq.) or the federal
37 Endangered Species Act of 1973 (16 U.S.C.A. Sec. 1531 et seq.).

38 **Comment.** Section 12252 is amended to reflect the recodification of the former Fish and Game
39 Code.

40 **Pub. Res. Code § 21080.23 (amended).**

41 SEC. _____. Section 21080.23 of the Public Resources Code is amended to read:

1 21080.23. (a) This division does not apply to any project which consists of the
2 inspection, maintenance, repair, restoration, reconditioning, relocation,
3 replacement, or removal of an existing pipeline, as defined in subdivision (a) of
4 Section 51010.5 of the Government Code, or any valve, flange, meter, or other piece
5 of equipment that is directly attached to the pipeline, if the project meets all of the
6 following conditions:

7 (1)(A) The project is less than eight miles in length.

8 (B) Notwithstanding subparagraph (A), actual construction and excavation
9 activities undertaken to achieve the maintenance, repair, restoration, reconditioning,
10 relocation, replacement, or removal of an existing pipeline are not undertaken over
11 a length of more than one-half mile at any one time.

12 (2) The project consists of a section of pipeline that is not less than eight miles
13 from any section of pipeline that has been subject to an exemption pursuant to this
14 section in the past 12 months.

15 (3) The project is not solely for the purpose of excavating soil that is contaminated
16 by hazardous materials, and, to the extent not otherwise expressly required by law,
17 the party undertaking the project immediately informs the lead agency of the
18 discovery of contaminated soil.

19 (4) To the extent not otherwise expressly required by law, the person undertaking
20 the project has, in advance of undertaking the project, prepared a plan that will result
21 in notification of the appropriate agencies so that they may take action, if determined
22 to be necessary, to provide for the emergency evacuation of members of the public
23 who may be located in close proximity to the project.

24 (5) Project activities are undertaken within an existing right-of-way and the right-
25 of-way is restored to its condition prior to the project.

26 (6) The project applicant agrees to comply with all conditions otherwise
27 authorized by law, imposed by the city or county planning department as part of any
28 local agency permit process, that are required to mitigate potential impacts of the
29 proposed project, and to otherwise comply with the Keene-Nejedly California
30 Wetlands Preservation Act (Chapter 7 (commencing with Section 5810) of Division
31 5), the California Endangered Species Act (~~Chapter 1.5 (commencing with Section~~
32 ~~2050) of Division 3 Part 1 (commencing with Section 62000) of Division 17 of the~~
33 Fish and Game Wildlife Code), and other applicable state laws, and with all
34 applicable federal laws.

35 (b) If a project meets all of the requirements of subdivision (a), the person
36 undertaking the project shall do all of the following:

37 (1) Notify, in writing, any affected public agency, including, but not limited to,
38 any public agency having permit, land use, environmental, public health protection,
39 or emergency response authority of the exemption of the project from this division
40 by subdivision (a).

41 (2) Provide notice to the public in the affected area in a manner consistent with
42 paragraph (3) of subdivision (b) of Section 21092.

1 (3) In the case of private rights-of-way over private property, receive from the
2 underlying property owner permission for access to the property.

3 (4) Comply with all conditions otherwise authorized by law, imposed by the city
4 or county planning department as part of any local agency permit process, that are
5 required to mitigate potential impacts of the proposed project, and otherwise comply
6 with the Keene-Nejedly California Wetlands Preservation Act (Chapter 7
7 (commencing with Section 5810) of Division 5), the California Endangered Species
8 Act (~~Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1~~
9 (commencing with Section 62000) of Division 17 of the Fish and Game Wildlife
10 Code), and other applicable state laws, and with all applicable federal laws.

11 (c) This section does not apply to either of the following:

12 (1) A project in which the diameter of the pipeline is increased.

13 (2) A project undertaken within the boundaries of an oil refinery.

14 **Comment.** Section 21080.23 is amended to reflect the recodification of the former Fish and
15 Game Code.

16 **Pub. Res. Code § 21080.25 (amended).**

17 SEC. _____. Section 21080.25 of the Public Resources Code is amended to read:

18 21080.25. (a) For purposes of this section, the following definitions shall apply:

19 (1) “Antenna support structures” means lattice towers, monopoles, and roof-
20 mounts.

21 (2) “Authority” means the Los Angeles Regional Interoperable Communication
22 System Joint Powers Authority.

23 (3) “Habitat of significant value” includes all of the following:

24 (A) Wildlife habitat of national, statewide, or regional importance.

25 (B) Habitat identified as candidate, fully protected, sensitive, or species of special
26 status by a state or federal agency.

27 (C) Habitat essential to the movement of resident or migratory wildlife.

28 (4) “LA-RICS” means the Los Angeles Regional Interoperable Communications
29 System, consisting of a long-term evolution broadband mobile data system, a land
30 mobile radio system, or both.

31 (5) “LMR” means a land mobile radio system.

32 (6) “LTE” means a long-term evolution broadband mobile data system.

33 (7) “Riparian area” means an area that is transitional between terrestrial and
34 aquatic ecosystems, that is distinguished by gradients in biophysical conditions,
35 ecological processes, and biota, and that meets the following criteria:

36 (A) Is an area through which surface and subsurface hydrology connect bodies of
37 water with their adjacent uplands.

38 (B) Is adjacent to perennial, intermittent, and ephemeral streams, lakes, or
39 estuarine or marine shorelines.

40 (C) Includes those portions of terrestrial ecosystems that significantly influence
41 exchanges of energy and matter with aquatic ecosystems.

1 (8) “Wetlands” has the same meaning as defined in the United States Fish and
2 Wildlife Service Manual, Part 660 FW 2 (June 21, 1993).

3 (9) “Wildlife habitat” means the ecological communities upon which wild
4 animals, birds, plants, fish, amphibians, and invertebrates depend for their
5 conservation and protection.

6 (b) Except as provided in subdivision (d), if all the criteria specified in subdivision
7 (c) are met at the individual project site, this division does not apply to the design,
8 site acquisition, construction, operation, or maintenance of the following elements
9 of the LA-RICS:

10 (1) Antennas, including microwave dishes and arrays.

11 (2) Antenna support structures.

12 (3) Equipment enclosures.

13 (4) Central system switch facilities.

14 (5) Associated foundations and equipment.

15 (c) As a condition of the exemption specified in subdivision (b), all of the
16 following criteria shall be met at the individual project site:

17 (1) The project site is publicly owned and already contains either of the following:

18 (A) An antenna support structure and either of the following components:

19 (i) Antennas.

20 (ii) Equipment enclosures.

21 (B) A police or sheriff station or other public facility that transmits or receives
22 public safety radio signals, except a fire station.

23 (2) Construction and implementation at the project site would not have a
24 substantial adverse impact on wetlands, riparian areas, or habitat of significant
25 value, and would not harm any species protected by the federal Endangered Species
26 Act of 1973 (16 U.S.C. Sec. 1531 et seq.), the Native Plant Protection Act (Chapter
27 10 (commencing with Section 1900) of Division 2 Title 1 (commencing with
28 Section 53800) of Part 3 of Division 14 of the Fish and Game Wildlife Code), or
29 the California Endangered Species Act (Chapter 1.5 (commencing with Section
30 2050) of Division 3 Part 1 (commencing with Section 62000) of Division 17 of the
31 Fish and Game Wildlife Code) or the habitat of those species.

32 (3) Construction and implementation of the project at the site would not have a
33 substantial adverse impact on historical resources pursuant to Section 21084.1.

34 (4) Operation of the project at the site would not exceed the maximum permissible
35 exposure standards established by the Federal Communications Commission, as set
36 forth in Sections 1.1307 and 1.1310 of Title 47 of the Code of Federal Regulations.

37 (5) Any new LTE antenna support structures or LMR antenna support structures
38 would comply with applicable state and federal height restrictions and any height
39 restrictions mandated by an applicable comprehensive land use plan adopted by an
40 airport land use commission. The new monopoles shall not exceed 70 feet in height
41 without appurtenances and attachments, and new lattice towers shall not exceed 180
42 feet in height without appurtenances and attachments.

1 (6) Each new central system switch is located within an existing enclosed
2 structure at a publicly owned project site or is housed at an existing private
3 communications facility.

4 (d) Subdivision (b) does not apply if the individual project site is located on either
5 of the following:

6 (1) A school site.

7 (2) A cultural or sacred site, as described in Section 5097.9 or 5097.993.

8 (e)(1) Before determining that a project is not subject to this division pursuant to
9 this section, the authority shall hold a noticed public meeting in each county
10 supervisorial district in which the project is located to hear and respond to public
11 comments. The notice shall be provided at least 72 hours in advance of the meeting
12 and published no fewer times than required by Section 6061 of the Government
13 Code by the authority in a newspaper of general circulation in each county
14 supervisorial district in which the project is located.

15 (2) If the authority determines that a project is not subject to this division pursuant
16 to this section, and it determines to approve or carry out that project, the notice of
17 exemption shall be filed with the Office of Planning and Research and the county
18 clerk in the county in which the project is located in the manner specified in
19 subdivisions (b) and (c) of Section 21152. The authority shall post the notice of
20 exemption on its Internet Web site.

21 (f) The authority shall post on its Internet Web site all of the following, as
22 applicable:

23 (1) Draft and final environmental documentation in compliance with this division
24 or the federal National Environmental Policy Act of 1969 (42 U.S.C. Sec. 4321 et
25 seq.).

26 (2) The date of filing of notices required pursuant to this division or the federal
27 National Environmental Policy Act of 1969.

28 (3) All notice and hearing information regarding review and approval of
29 environmental documentation by federal agencies.

30 (g) On or after January 1, 2017, the authority and its member agencies shall
31 approve use agreements for the LA-RICS in an open and noticed public meeting.

32 (h) This section shall remain in effect only until January 1, 2020, and as of that
33 date is repealed, unless a later enacted statute, that is enacted before January 1, 2020,
34 deletes or extends that date.

35 **Comment.** Paragraph (2) of subdivision (c) of Section 21080.25 is amended to reflect the
36 recodification of the former Fish and Game Code.

37 **Pub. Res. Code § 21080.29 (amended).**

38 SEC. _____. Section 21080.29 of the Public Resources Code is amended to read:

39 21080.29. (a) A project located in Los Angeles County that is approved by a
40 public agency before the effective date of the act adding this section is not in
41 violation of any requirement of this division by reason of the failure to construct a

1 roadway across the property transferred to the state pursuant to subdivision (c) and
2 to construct a bridge over the adjacent Ballona Channel in Los Angeles County,
3 otherwise required as a mitigation measure pursuant to this division, if all of the
4 following conditions apply:

5 (1) The improvements specified in this subdivision are not constructed, due in
6 whole or in part, to the project owner's or developer's relinquishment of easement
7 rights to construct those improvements.

8 (2) The easement rights in paragraph (1) are relinquished in connection with the
9 State of California, acting by and through the Wildlife Conservation Board of the
10 Department of Fish and Game Wildlife, acquiring a wetlands project that is a
11 minimum of 400 acres in size and located within the coastal zone.

12 (b) Where those easement rights have been relinquished, any municipal ordinance
13 or regulation adopted by a charter city or a general law city shall be inapplicable to
14 the extent that the ordinance or regulation requires construction of the transportation
15 improvements specified in subdivision (a), or would otherwise require reprocessing
16 or resubmittal of a permit or approval, including, but not limited to, a final recorded
17 map, a vesting tentative map, or a tentative map, as a result of the transportation
18 improvements specified in subdivision (a) not being constructed.

19 (c)(1) If the Wildlife Conservation Board of the Department of Fish and Game
20 Wildlife acquires property within the coastal zone that is a minimum of 400 acres
21 in size pursuant to a purchase and sale agreement with Playa Capital Company,
22 LLC, the Controller shall direct the trustee under the Amendment to Declaration of
23 Trust entered into on or about December 11, 1984, by First Nationwide Savings, as
24 trustee, Summa Corporation, as trustor, and the Controller, as beneficiary, known
25 as the HRH Inheritance Tax Security Trust, to convey title to the trust estate of the
26 trust, including real property commonly known as Playa Vista Area C, to the State
27 of California acting by and through the Wildlife Conservation Board of the
28 Department of Fish and Game Wildlife for conservation, restoration, or recreation
29 purposes only, with the right to transfer the property for those uses to any other
30 agency of the State of California.

31 (2) This subdivision shall constitute the enabling legislation required by the
32 Amendment to Declaration of Trust to empower the Controller to direct the trustee
33 to convey title to the trust estate under the HRH Inheritance Tax Security Trust to
34 the State of California or an agency thereof.

35 (3) The conveyance of the trust estate to the Wildlife Conservation Board
36 pursuant to this subdivision shall supersede any duty or obligation imposed upon
37 the Controller under the Probate Code or the Revenue and Taxation Code with
38 respect to the disposition or application of the net proceeds of the trust estate.

39 **Comment.** Section 21080.29 is amended to update references to the former Department of Fish
40 and Game. See Fish & Wildlife Code § 1500.

1 **Pub. Res. Code § 21080.35 (amended).**

2 SEC. _____. Section 21080.35 of the Public Resources Code is amended to read:

3 21080.35. (a) Except as provided in subdivision (d), this division does not apply
4 to the installation of a solar energy system on the roof of an existing building or at
5 an existing parking lot.

6 (b) For the purposes of this section, the following terms mean the following:

7 (1) “Existing parking lot” means an area designated and used for parking of
8 vehicles as of the time of the application for the solar energy system and for at least
9 the previous two years.

10 (2) “Solar energy system” includes all associated equipment. Associated
11 equipment consists of parts and materials that enable the generation and use of solar
12 electricity or solar-heated water, including any monitoring and control, safety,
13 conversion, and emergency responder equipment necessary to connect to the
14 customer’s electrical service or plumbing and any equipment, as well as any
15 equipment necessary to connect the energy generated to the electrical grid, whether
16 that connection is onsite or on an adjacent parcel of the building and separated only
17 by an improved right-of-way. “Associated equipment” does not include a
18 substation.

19 (c)(1) Associated equipment shall be located on the same parcel of the building,
20 except that associated equipment necessary to connect the energy generated to the
21 electrical grid may be located immediately adjacent to the parcel of the building or
22 immediately adjacent to the parcel of the building and separated only by an
23 improved right-of-way.

24 (2) Associated equipment shall not occupy more than 500 square feet of ground
25 surface and the site of the associated equipment shall not contain plants protected
26 by the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of
27 Division 2 Title 1 (commencing with Section 53800) of Part 3 of Division 14 of the
28 Fish and Game Wildlife Code).

29 (d) This section does not apply if the associated equipment would otherwise
30 require one of the following:

31 (1) An individual federal permit pursuant to Section 401 or 404 of the federal
32 Clean Water Act (33 U.S.C. Sec. 1341 or 1344) or waste discharge requirements
33 pursuant to the Porter-Cologne Water Quality Control Act (Division 7 (commencing
34 with Section 13000) of the Water Code).

35 (2) An individual take permit for species protected under the federal Endangered
36 Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.) or the California Endangered
37 Species Act (~~Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1~~
38 (commencing with Section 62000) of Division 17 of the Fish and Game Wildlife
39 Code).

40 (3) A streambed alteration permit pursuant to ~~Chapter 6 (commencing with~~
41 Section 1600) of Division 2 Title 3 (commencing with Section 69700) of Part 4 of
42 Division 17 of the Fish and Game Wildlife Code.

1 (e) This section does not apply if the installation of a solar energy system at an
2 existing parking lot involves either of the following:

3 (1) The removal of a tree required to be planted, maintained, or protected pursuant
4 to local, state, or federal requirements, unless the tree dies and there is no
5 requirement to replace the tree.

6 (2) The removal of a native tree over 25 years old.

7 (f) This section does not apply to any transmission or distribution facility or
8 connection.

9 **Comment.** Section 21080.35 is amended to reflect the recodification of the former Fish and
10 Game Code.

11 **Pub. Res. Code § 21080.37 (amended).**

12 SEC. _____. Section 21080.37 of the Public Resources Code is amended to read:

13 21080.37. (a) This division does not apply to a project or an activity to repair,
14 maintain, or make minor alterations to an existing roadway if all of the following
15 conditions are met:

16 (1) The project is carried out by a city or county with a population of less than
17 100,000 persons to improve public safety.

18 (2)(A) The project does not cross a waterway.

19 (B) For purposes of this paragraph, “waterway” means a bay, estuary, lake, pond,
20 river, slough, or a perennial, intermittent, or ephemeral stream, lake, or estuarine-
21 marine shoreline.

22 (3) The project involves negligible or no expansion of an existing use beyond that
23 existing at the time of the lead agency’s determination.

24 (4) The roadway is not a state roadway.

25 (5)(A) The site of the project does not contain wetlands or riparian areas and does
26 not have significant value as a wildlife habitat, and the project does not harm any
27 species protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec.
28 1531 et seq.), the Native Plant Protection Act (~~Chapter 10 (commencing with~~
29 ~~Section 1900) of Division 2 Title 1 (commencing with Section 53800) of Part 3 of~~
30 Division 14 of the Fish and Game Wildlife Code), or the California Endangered
31 Species Act (~~Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1~~
32 (commencing with Section 62000) of Division 17 of the Fish and Game Wildlife
33 Code), and the project does not cause the destruction or removal of any species
34 protected by a local ordinance.

35 (B) For the purposes of this paragraph:

36 (i) “Riparian areas” mean those areas transitional between terrestrial and aquatic
37 ecosystems and that are distinguished by gradients in biophysical conditions,
38 ecological processes, and biota. A riparian area is an area through which surface and
39 subsurface hydrology connect waterbodies with their adjacent uplands. A riparian
40 area includes those portions of terrestrial ecosystems that significantly influence
41 exchanges of energy and matter with aquatic ecosystems. A riparian area is adjacent

1 to perennial, intermittent, and ephemeral streams, lakes, and estuarine-marine
2 shorelines.

3 (ii) “Significant value as a wildlife habitat” includes wildlife habitat of national,
4 statewide, regional, or local importance; habitat for species protected by the federal
5 Endangered Species Act of 1973 (16 U.S.C. Sec. 1531, et seq.), the California
6 Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division
7 3 Part 1 (commencing with Section 62000) of Division 17 of the Fish and Game
8 Wildlife Code), or the Native Plant Protection Act (Chapter 10 (commencing with
9 Section 1900) of Division 2 Title 1 (commencing with Section 53800) of Part 3 of
10 Division 14 of the Fish and Game Wildlife Code); habitat identified as candidate,
11 fully protected, sensitive, or species of special status by local, state, or federal
12 agencies; or habitat essential to the movement of resident or migratory wildlife.

13 (iii) “Wetlands” has the same meaning as in the United States Fish and Wildlife
14 Service Manual, Part 660 FW 2 (June 21, 1993).

15 (iv) “Wildlife habitat” means the ecological communities upon which wild
16 animals, birds, plants, fish, amphibians, and invertebrates depend for their
17 conservation and protection.

18 (6) The project does not impact cultural resources.

19 (7) The roadway does not affect scenic resources, as provided pursuant to
20 subdivision (c) of Section 21084.

21 (b) Prior to determining that a project is exempt pursuant to this section, the lead
22 agency shall do both of the following:

23 (1) Include measures in the project to mitigate potential vehicular traffic and
24 safety impacts and bicycle and pedestrian safety impacts.

25 (2) Hold a noticed public hearing on the project to hear and respond to public
26 comments. The hearing on the project may be conducted with another noticed lead
27 agency public hearing. Publication of the notice shall be no fewer times than
28 required by Section 6061 of the Government Code, by the public agency in a
29 newspaper of general circulation in the area.

30 (c) For purposes of this section, “roadway” means a roadway as defined pursuant
31 to Section 530 of the Vehicle Code and the previously graded and maintained
32 shoulder that is within a roadway right-of-way of no more than five feet from the
33 edge of the roadway.

34 (d) Whenever a local agency determines that a project is not subject to this
35 division pursuant to this section, and it approves or determines to carry out that
36 project, the local agency shall file a notice with the Office of Planning and Research,
37 and with the county clerk in the county in which the project will be located in the
38 manner specified in subdivisions (b) and (c) of Section 21152.

39 (e) This section shall remain in effect only until January 1, 2020, and as of that
40 date is repealed, unless a later enacted statute, that is enacted before January 1, 2020,
41 deletes or extends that date.

1 **Comment.** Section 21080.37 is amended to reflect the recodification of the former Fish and
2 Game Code.

3 **Pub. Res. Code § 21083.4 (amended).**

4 SEC. _____. Section 21083.4 of the Public Resources Code is amended to read:

5 21083.4. (a) For purposes of this section, “oak” means a native tree species in the
6 genus *Quercus*, not designated as Group A or Group B commercial species pursuant
7 to regulations adopted by the State Board of Forestry and Fire Protection pursuant
8 to Section 4526, and that is 5 inches or more in diameter at breast height.

9 (b) As part of the determination made pursuant to Section 21080.1, a county shall
10 determine whether a project within its jurisdiction may result in a conversion of oak
11 woodlands that will have a significant effect on the environment. If a county
12 determines that there may be a significant effect to oak woodlands, the county shall
13 require one or more of the following oak woodlands mitigation alternatives to
14 mitigate the significant effect of the conversion of oak woodlands:

15 (1) Conserve oak woodlands, through the use of conservation easements.

16 (2)(A) Plant an appropriate number of trees, including maintaining plantings and
17 replacing dead or diseased trees.

18 (B) The requirement to maintain trees pursuant to this paragraph terminates seven
19 years after the trees are planted.

20 (C) Mitigation pursuant to this paragraph shall not fulfill more than one-half of
21 the mitigation requirement for the project.

22 (D) The requirements imposed pursuant to this paragraph also may be used to
23 restore former oak woodlands.

24 (3) Contribute funds to the Oak Woodlands Conservation Fund, as established
25 under ~~subdivision (a) of Section 1363~~ Section 54925 of the Fish and Game Wildlife
26 Code, for the purpose of purchasing oak woodlands conservation easements, as
27 specified under paragraph (1) of subdivision (d) of that section and the guidelines
28 and criteria of the Wildlife Conservation Board. A project applicant that contributes
29 funds under this paragraph shall not receive a grant from the Oak Woodlands
30 Conservation Fund as part of the mitigation for the project.

31 (4) Other mitigation measures developed by the county.

32 (c) Notwithstanding ~~subdivision (d) of Section 1363~~ subdivision (a) of Section
33 54940 of the Fish and Game Wildlife Code, a county may use a grant awarded
34 pursuant to the Oak Woodlands Conservation Act (~~Article 3.5 (commencing with~~
35 ~~Section 1360)~~ of Chapter 4 of Division 2 Chapter 3 (commencing with Section
36 54900) of Title 1 of Part 2 of Division 15 of the Fish and Game Wildlife Code) to
37 prepare an oak conservation element for a general plan, an oak protection ordinance,
38 or an oak woodlands management plan, or amendments thereto, that meets the
39 requirements of this section.

40 (d) The following are exempt from this section:

41 (1) Projects undertaken pursuant to an approved Natural Community
42 Conservation Plan or approved subarea plan within an approved Natural

1 Community Conservation Plan that includes oaks as a covered species or that
2 conserves oak habitat through natural community conservation preserve designation
3 and implementation and mitigation measures that are consistent with this section.

4 (2) Affordable housing projects for lower income households, as defined pursuant
5 to Section 50079.5 of the Health and Safety Code, that are located within an
6 urbanized area, or within a sphere of influence as defined pursuant to Section 56076
7 of the Government Code.

8 (3) Conversion of oak woodlands on agricultural land that includes land that is
9 used to produce or process plant and animal products for commercial purposes.

10 (4) Projects undertaken pursuant to Section 21080.5 of the Public Resources
11 Code.

12 (e)(1) A lead agency that adopts, and a project that incorporates, one or more of
13 the measures specified in this section to mitigate the significant effects to oaks and
14 oak woodlands shall be deemed to be in compliance with this division only as it
15 applies to effects on oaks and oak woodlands.

16 (2) The Legislature does not intend this section to modify requirements of this
17 division, other than with regard to effects on oaks and oak woodlands.

18 (f) This section does not preclude the application of Section 21081 to a project.

19 (g) This section, and the regulations adopted pursuant to this section, shall not be
20 construed as a limitation on the power of a public agency to comply with this
21 division or any other provision of law.

22 **Comment.** Section 21083.4 is amended to reflect the recodification of the former Fish and Game
23 Code.

24 **Pub. Res. Code § 21089 (amended).**

25 SEC. _____. Section 21089 of the Public Resources Code is amended to read:

26 21089. (a) A lead agency may charge and collect a reasonable fee from a person
27 proposing a project subject to this division in order to recover the estimated costs
28 incurred by the lead agency in preparing a negative declaration or an environmental
29 impact report for the project and for procedures necessary to comply with this
30 division on the project. Litigation expenses, costs, and fees incurred in actions
31 alleging noncompliance with this division under Section 21167 are not recoverable
32 under this section.

33 (b) The Department of Fish and Game Wildlife may charge and collect filing fees,
34 as provided in Section 711.4 Sections 66200 through 66245, inclusive, of the Fish
35 and Game Wildlife Code. Notwithstanding Section 21080.1, a finding required
36 under Section 21081, or a project approved under a certified regulatory program
37 authorized pursuant to Section 21080.5 is not operative, vested, or final until the
38 filing fees required pursuant to Section 711.4 Sections 66200 through 66245,
39 inclusive, of the Fish and Game Wildlife Code are paid.

40 (c)(1) A public agency may charge and collect a reasonable fee from members of
41 the public for a copy of an environmental document not to exceed the cost of

reproducing the environmental document. A public agency may provide the environmental document in an electronic format as provided pursuant to Section 6253.9 of the Government Code.

(2) For purposes of this subdivision, “environmental document” means an initial study, negative declaration, mitigated negative declaration, draft and final environmental impact report, a document prepared as a substitute for an environmental impact report, negative declaration, or mitigated negative declaration under a program certified pursuant to Section 21080.5, and a document prepared under the federal National Environmental Policy Act of 1969 (42 U.S.C. Sec. 4321 et seq.) and used by a state or local agency in the place of the initial study, negative declaration, mitigated negative declaration, or an environmental impact report.

Comment. Section 21089 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 21104.2 (amended).

SEC. _____. Section 21104.2 of the Public Resources Code is amended to read:
21104.2. The state lead agency shall consult with, and obtain written findings from, the Department of Fish and Game Wildlife in preparing an environmental impact report on a project, as to the impact of the project on the continued existence of any endangered species or threatened species pursuant to Article 4 (commencing with Section 2090) of Chapter 1.5 of Division 3 of the Fish and Game Code.

Comment. Section 21104.2 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

 **Note.** The section above cross-refers to Article 4 (commencing with Section 2090) of Chapter 1.5 of Division 3 of the existing Fish and Game Code, which was repealed by its own terms in 1999. See 1993 Cal. Stat. ch. 337, § 1. The former article provided for consultation by the Department of Fish and Game with specified state agencies relating to the extent a proposed state project would impact endangered or threatened species.

**With the repeal of Article 4, it is not clear how Section 21104.2 should be revised.
The Commission requests public comment on that issue.**

Pub. Res. Code § 21155.1 (amended).

SEC. _____. Section 21155.1 of the Public Resources Code is amended to read:
21155.1. If the legislative body finds, after conducting a public hearing, that a transit priority project meets all of the requirements of subdivisions (a) and (b) and one of the requirements of subdivision (c), the transit priority project is declared to be a sustainable communities project and shall be exempt from this division.

(a) The transit priority project complies with all of the following environmental criteria:

(1) The transit priority project and other projects approved prior to the approval of the transit priority project but not yet built can be adequately served by existing

1 utilities, and the transit priority project applicant has paid, or has committed to pay,
2 all applicable in-lieu or development fees.

3 (2)(A) The site of the transit priority project does not contain wetlands or riparian
4 areas and does not have significant value as a wildlife habitat, and the transit priority
5 project does not harm any species protected by the federal Endangered Species Act
6 of 1973 (16 U.S.C. Sec. 1531 et seq.), the Native Plant Protection Act (~~Chapter 10~~
7 ~~(commencing with Section 1900) of Division 2 Title 1 (commencing with Section~~
8 ~~53800) of Part 3 of Division 14~~ of the Fish and Game Wildlife Code), or the
9 California Endangered Species Act (~~Chapter 1.5 (commencing with Section 2050)~~
10 ~~of Division 3 Part 1 (commencing with Section 62000) of Division 17~~ of the Fish
11 and Game Wildlife Code), and the project does not cause the destruction or removal
12 of any species protected by a local ordinance in effect at the time the application for
13 the project was deemed complete.

14 (B) For the purposes of this paragraph, “wetlands” has the same meaning as in the
15 United States Fish and Wildlife Service Manual, Part 660 FW 2 (June 21, 1993).

16 (C) For the purposes of this paragraph:

17 (i) “Riparian areas” means those areas transitional between terrestrial and aquatic
18 ecosystems and that are distinguished by gradients in biophysical conditions,
19 ecological processes, and biota. A riparian area is an area through which surface and
20 subsurface hydrology connect waterbodies with their adjacent uplands. A riparian
21 area includes those portions of terrestrial ecosystems that significantly influence
22 exchanges of energy and matter with aquatic ecosystems. A riparian area is adjacent
23 to perennial, intermittent, and ephemeral streams, lakes, and estuarine-marine
24 shorelines.

25 (ii) “Wildlife habitat” means the ecological communities upon which wild
26 animals, birds, plants, fish, amphibians, and invertebrates depend for their
27 conservation and protection.

28 (iii) Habitat of “significant value” includes wildlife habitat of national, statewide,
29 regional, or local importance; habitat for species protected by the federal
30 Endangered Species Act of 1973 (16 U.S.C. Sec. 1531, et seq.), the California
31 Endangered Species Act (~~Chapter 1.5 (commencing with Section 2050) of Division~~
32 ~~3 Part 1 (commencing with Section 62000) of Division 17~~ of the Fish and Game
33 Wildlife Code), or the Native Plant Protection Act (~~Chapter 10 (commencing with~~
34 ~~Section 1900) of Division 2 Title 1 (commencing with Section 53800) of Part 3 of~~
35 ~~Division 14~~ of the Fish and Game Wildlife Code); habitat identified as candidate,
36 fully protected, sensitive, or species of special status by local, state, or federal
37 agencies; or habitat essential to the movement of resident or migratory wildlife.

38 (3) The site of the transit priority project is not included on any list of facilities
39 and sites compiled pursuant to Section 65962.5 of the Government Code.

40 (4) The site of the transit priority project is subject to a preliminary endangerment
41 assessment prepared by an environmental assessor to determine the existence of any
42 release of a hazardous substance on the site and to determine the potential for

1 exposure of future occupants to significant health hazards from any nearby property
2 or activity.

3 (A) If a release of a hazardous substance is found to exist on the site, the release
4 shall be removed or any significant effects of the release shall be mitigated to a level
5 of insignificance in compliance with state and federal requirements.

6 (B) If a potential for exposure to significant hazards from surrounding properties
7 or activities is found to exist, the effects of the potential exposure shall be mitigated
8 to a level of insignificance in compliance with state and federal requirements.

9 (5) The transit priority project does not have a significant effect on historical
10 resources pursuant to Section 21084.1.

11 (6) The transit priority project site is not subject to any of the following:

12 (A) A wildland fire hazard, as determined by the Department of Forestry and Fire
13 Protection, unless the applicable general plan or zoning ordinance contains
14 provisions to mitigate the risk of a wildland fire hazard.

15 (B) An unusually high risk of fire or explosion from materials stored or used on
16 nearby properties.

17 (C) Risk of a public health exposure at a level that would exceed the standards
18 established by any state or federal agency.

19 (D) Seismic risk as a result of being within a delineated earthquake fault zone, as
20 determined pursuant to Section 2622, or a seismic hazard zone, as determined
21 pursuant to Section 2696, unless the applicable general plan or zoning ordinance
22 contains provisions to mitigate the risk of an earthquake fault or seismic hazard
23 zone.

24 (E) Landslide hazard, flood plain, flood way, or restriction zone, unless the
25 applicable general plan or zoning ordinance contains provisions to mitigate the risk
26 of a landslide or flood.

27 (7) The transit priority project site is not located on developed open space.

28 (A) For the purposes of this paragraph, “developed open space” means land that
29 meets all of the following criteria:

30 (i) Is publicly owned, or financed in whole or in part by public funds.

31 (ii) Is generally open to, and available for use by, the public.

32 (iii) Is predominantly lacking in structural development other than structures
33 associated with open spaces, including, but not limited to, playgrounds, swimming
34 pools, ballfields, enclosed child play areas, and picnic facilities.

35 (B) For the purposes of this paragraph, “developed open space” includes land that
36 has been designated for acquisition by a public agency for developed open space,
37 but does not include lands acquired with public funds dedicated to the acquisition
38 of land for housing purposes.

39 (8) The buildings in the transit priority project are 15 percent more energy
40 efficient than required by Chapter 6 of Title 24 of the California Code of Regulations
41 and the buildings and landscaping are designed to achieve 25 percent less water
42 usage than the average household use in the region.

(b) The transit priority project meets all of the following land use criteria:

(1) The site of the transit priority project is not more than eight acres in total area.

(2) The transit priority project does not contain more than 200 residential units.

(3) The transit priority project does not result in any net loss in the number of affordable housing units within the project area.

(4) The transit priority project does not include any single level building that exceeds 75,000 square feet.

(5) Any applicable mitigation measures or performance standards or criteria set forth in the prior environmental impact reports, and adopted in findings, have been or will be incorporated into the transit priority project.

(6) The transit priority project is determined not to conflict with nearby operating industrial uses.

(7) The transit priority project is located within one-half mile of a rail transit station or a ferry terminal included in a regional transportation plan or within one-quarter mile of a high-quality transit corridor included in a regional transportation plan.

(c) The transit priority project meets at least one of the following three criteria:

(1) The transit priority project meets both of the following:

(A) At least 20 percent of the housing will be sold to families of moderate income, or not less than 10 percent of the housing will be rented to families of low income, or not less than 5 percent of the housing is rented to families of very low income.

(B) The transit priority project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for very low, low-, and moderate-income households at monthly housing costs with an affordable housing cost or affordable rent, as defined in Section 50052.5 or 50053 of the Health and Safety Code, respectively, for the period required by the applicable financing. Rental units shall be affordable for at least 55 years. Ownership units shall be subject to resale restrictions or equity sharing requirements for at least 30 years.

(2) The transit priority project developer has paid or will pay in-lieu fees pursuant to a local ordinance in an amount sufficient to result in the development of an equivalent number of units that would otherwise be required pursuant to paragraph (1).

(3) The transit priority project provides public open space equal to or greater than five acres per 1,000 residents of the project.

Comment. Subparagraphs (A) and (C) of paragraph (2) of subdivision (a) of Section 21155.1 are amended to reflect the recodification of the former Fish and Game Code.

Pub. Res. Code § 21157.7 (amended).

SEC. _____. Section 21157.7 of the Public Resources Code is amended to read:

21157.7. (a) For purposes of this section, a master environmental impact report is a document prepared in accordance with subdivision (c) for the projects described

1 in subdivision (b) that, upon certification, is followed by review of subsequent
2 projects as provided in Sections 21157.1 and 21157.5.

3 (b) A master environmental impact report may be prepared for a plan adopted by
4 the Department of Transportation for improvements to regional segments of
5 Highway 99 funded pursuant to subdivision (b) of Section 8879.23 of the
6 Government Code, to streamline, coordinate, and improve environmental review.

7 (c) The report shall include all of the following:

8 (1) A detailed statement as required by Section 21100.

9 (2) A description of the anticipated highway improvements along Highway 99
10 that would be within the scope of the master environmental impact report, that
11 contains sufficient information about all phases of the Highway 99 construction
12 activities, including, but not limited to, all of the following:

13 (A) The specific types of improvements that will be undertaken.

14 (B) The anticipated location and alternative locations for any of the Highway 99
15 improvements, including overpasses, bridges, railroad crossings, and interchanges.

16 (C) A capital outlay or capital improvement program, or other scheduling or
17 implementing device that governs the construction activities associated with the
18 Highway 99 improvements.

19 (d) The Department of Transportation may communicate, coordinate, and consult
20 with the Resources Agency, Wildlife Conservation Board, Department of Fish and
21 ~~Game~~ Wildlife, Department of Conservation, and other appropriate federal, state, or
22 local governments, including interested stakeholders, to consider and implement
23 mitigation requirements on a regional basis for the projects described in subdivision
24 (b). This may include both of the following:

25 (1) Identification of priority areas for mitigation, using information from these
26 agencies and departments as well as from other sources.

27 (2) Utilization of existing conservation programs of the agencies or departments
28 identified in this subdivision, if mitigation under those programs for improvements
29 under this section does not supplant mitigation for a project.

30 (e) The Department of Transportation may execute an agreement, memorandum
31 of understanding, or other similar instrument to memorialize its understanding of
32 any communication, coordination, or implementation activities with other state
33 agencies for the purposes of meeting mitigation requirements on a regional basis.

34 (f) Notwithstanding any other provision of law, nothing in this section is intended
35 to interfere with or prevent the existing authority of an agency or department to
36 carry out its programs, projects, or responsibilities to identify, review, approve,
37 deny, or implement any mitigation requirements, and nothing in this section shall
38 be construed as a limitation on mitigation requirements for the project, or a
39 limitation on compliance with requirements under this division or any other
40 provision of law.

41 (g) Notwithstanding Section 21157.6, the master environmental impact report
42 shall not be used for the purposes of this section, if the certification of the master

1 environmental impact report occurred more than seven years prior to the filing of
2 an application for the subsequent project.

3 **Comment.** Section 21157.7 is amended to update a reference to the former Department of Fish
4 and Game. See Fish & Wildlife Code § 1500.

5 **Pub. Res. Code § 21159.21 (amended).**

6 SEC. _____. Section 21159.21 of the Public Resources Code is amended to read:

7 21159.21. A housing project qualifies for an exemption from this division
8 pursuant to Section 21159.22, 21159.23, or 21159.24 if it meets the criteria in the
9 applicable section and all of the following criteria:

10 (a) The project is consistent with any applicable general plan, specific plan, and
11 local coastal program, including any mitigation measures required by a plan or
12 program, as that plan or program existed on the date that the application was deemed
13 complete and with any applicable zoning ordinance, as that zoning ordinance
14 existed on the date that the application was deemed complete, except that a project
15 shall not be deemed to be inconsistent with the zoning designation for the site if that
16 zoning designation is inconsistent with the general plan only because the project site
17 has not been rezoned to conform with a more recently adopted general plan.

18 (b) Community-level environmental review has been adopted or certified.

19 (c) The project and other projects approved prior to the approval of the project
20 can be adequately served by existing utilities, and the project applicant has paid, or
21 has committed to pay, all applicable in-lieu or development fees.

22 (d) The site of the project does not contain wetlands, does not have any value as
23 a wildlife habitat, and the project does not harm any species protected by the federal
24 Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.) or by the Native Plant
25 Protection Act (~~Chapter 10 (commencing with Section 1900) of Division 2 Title 1~~
26 (commencing with Section 53800) of Part 3 of Division 14 of the Fish and Game
27 Wildlife Code), the California Endangered Species Act (~~Chapter 1.5 (commencing~~
28 with Section 2050) of Division 3 Part 1 (commencing with Section 62000) of
29 Division 17 of the Fish and Game Wildlife Code), and the project does not cause
30 the destruction or removal of any species protected by a local ordinance in effect at
31 the time the application for the project was deemed complete. For the purposes of
32 this subdivision, “wetlands” has the same meaning as in Section 328.3 of Title 33
33 of the Code of Federal Regulations and “wildlife habitat” means the ecological
34 communities upon which wild animals, birds, plants, fish, amphibians, and
35 invertebrates depend for their conservation and protection.

36 (e) The site of the project is not included on any list of facilities and sites compiled
37 pursuant to Section 65962.5 of the Government Code.

38 (f) The site of the project is subject to a preliminary endangerment assessment
39 prepared by an environmental assessor to determine the existence of any release of
40 a hazardous substance on the site and to determine the potential for exposure of
41 future occupants to significant health hazards from any nearby property or activity.

1 (1) If a release of a hazardous substance is found to exist on the site, the release
2 shall be removed, or any significant effects of the release shall be mitigated to a
3 level of insignificance in compliance with state and federal requirements.

4 (2) If a potential for exposure to significant hazards from surrounding properties
5 or activities is found to exist, the effects of the potential exposure shall be mitigated
6 to a level of insignificance in compliance with state and federal requirements.

7 (g) The project does not have a significant effect on historical resources pursuant
8 to Section 21084.1.

9 (h) The project site is not subject to any of the following:

10 (1) A wildland fire hazard, as determined by the Department of Forestry and Fire
11 Protection, unless the applicable general plan or zoning ordinance contains
12 provisions to mitigate the risk of a wildland fire hazard.

13 (2) An unusually high risk of fire or explosion from materials stored or used on
14 nearby properties.

15 (3) Risk of a public health exposure at a level that would exceed the standards
16 established by any state or federal agency.

17 (4) Within a delineated earthquake fault zone, as determined pursuant to Section
18 2622, or a seismic hazard zone, as determined pursuant to Section 2696, unless the
19 applicable general plan or zoning ordinance contains provisions to mitigate the risk
20 of an earthquake fault or seismic hazard zone.

21 (5) Landslide hazard, flood plain, flood way, or restriction zone, unless the
22 applicable general plan or zoning ordinance contains provisions to mitigate the risk
23 of a landslide or flood.

24 (i)(1) The project site is not located on developed open space.

25 (2) For the purposes of this subdivision, “developed open space” means land that
26 meets all of the following criteria:

27 (A) Is publicly owned, or financed in whole or in part by public funds.

28 (B) Is generally open to, and available for use by, the public.

29 (C) Is predominantly lacking in structural development other than structures
30 associated with open spaces, including, but not limited to, playgrounds, swimming
31 pools, ballfields, enclosed child play areas, and picnic facilities.

32 (3) For the purposes of this subdivision, “developed open space” includes land
33 that has been designated for acquisition by a public agency for developed open
34 space, but does not include lands acquired by public funds dedicated to the
35 acquisition of land for housing purposes.

36 (j) The project site is not located within the boundaries of a state conservancy.

37 **Comment.** Subdivision (d) of Section 21159.21 is amended to reflect the recodification of the
38 former Fish and Game Code.

39 **Pub. Res. Code § 25619 (amended).**

40 SEC. _____. Section 25619 of the Public Resources Code is amended to read:

1 25619. (a) For purposes of this section, “qualified counties” means the Counties
2 of Fresno, Imperial, Inyo, Kern, Kings, Los Angeles, Madera, Merced, Riverside,
3 San Bernardino, San Diego, San Joaquin, San Luis Obispo, Stanislaus, and Tulare.

4 (b) The commission shall provide up to seven million dollars (\$7,000,000) in
5 grants to qualified counties for the development or revision of rules and policies,
6 including, but not limited to, general plan elements, zoning ordinances, and a natural
7 community conservation plan as a plan participant, that facilitate the development
8 of eligible renewable energy resources, and their associated electric transmission
9 facilities, and the processing of permits for eligible renewable energy resources. The
10 commission may allocate not more than 1 percent of appropriated funds to provide
11 training to county planning staff to facilitate the siting and permitting of eligible
12 renewable energy resources. A general plan element or zoning ordinance that is
13 adopted or revised pursuant to this section shall be completed within two years of
14 receipt of the grant and shall be consistent with the conservation strategies of any
15 natural community conservation plan if one has been approved, or is under
16 development, pursuant to the Natural Community Conservation Planning Act
17 (~~Chapter 10 (commencing with Section 2800) of Division 3~~ Title 2 (commencing
18 with Section 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code).
19 For counties within the Desert Renewable Energy Conservation Plan planning area,
20 the commission may award a grant to a county only if the county meets one of the
21 following conditions:

22 (1) The county is a “plan participant,” as defined by paragraph (1) of subdivision
23 (j) of Section ~~2805~~ 64515 of the Fish and Game Wildlife Code, in the Desert
24 Renewable Energy Conservation Plan.

25 (2) The county enters into a memorandum of understanding with the commission
26 in which the county agrees to participate in the development of a natural community
27 conservation plan for the purpose of ensuring that the natural community
28 conservation plan can achieve the goals set forth in the planning agreement entered
29 into pursuant to ~~Section 2810~~ Sections 64555 and 64560 of the Fish and Game
30 Wildlife Code, that is dated May 2010, for the preparation of a natural community
31 conservation plan, in a manner that is consistent with the applicable policies of the
32 county.

33 (c) In its initial round of grant funding, the commission shall establish a preference
34 for a grant to a qualified county in an amount that is adequate to develop a renewable
35 energy element in its general plan that will facilitate the development and siting of
36 eligible renewable energy resources that utilize multiple renewable energy
37 technologies. The commission shall also establish a preference for a grant for those
38 counties that have experience in geothermal energy development and have adopted
39 a geothermal element, as defined in Section 25133, to its general plan.

40 (d) The commission shall only implement this section upon receiving a specific
41 appropriation for the purposes of this section by the Legislature from the Renewable
42 Resources Trust Fund or other funds from the Energy Resources Program Account.

1 **Comment.** Subdivision (b) of Section 25619 is amended to reflect the recodification of the
2 former Fish and Game Code.

3 **Pub. Res. Code § 26403 (amended).**

4 SEC. _____. Section 26403 of the Public Resources Code is amended to read:
5 26403. Programs and projects eligible for funding from the Resources Account
6 shall be limited to any of the following:

7 (1) Appropriations to the State Coastal Conservancy for grants to public and
8 private agencies for the restoration of urban waterfronts, as described in “An Urban
9 Waterfronts Program for California” required by Chapter 1040 of the Statutes of
10 1981. Appropriations to the conservancy may include, but shall not be limited to,
11 particular projects identified in that report.

12 (2) Projects under the Roberti-Z’berg Urban Open-Space and Recreation Program
13 Act (Chapter 3.2 (commencing with Section 5620) of Division 5 of the Public
14 Resources Code).

15 (3) Appropriations to the State Coastal Conservancy for grants to public and
16 private agencies for acquisition, development, rehabilitation, restoration, operation,
17 and maintenance of real property and facilities which provide public access ways to
18 or along the coast or the shoreline of San Francisco Bay.

19 (4) Wetland protection, preservation, restoration, and ~~enhancement~~ enhancement
20 projects in accordance with the Keene-Nejedly California Wetlands Preservation
21 Act (Chapter 7 (commencing with Section 5810) of Division 5 of the Public
22 Resources Code), or, in accordance with provisions governing the State Coastal
23 Conservancy (Division 21 (commencing with Section 31000) of the Public
24 Resources Code).

25 (5) Restoration, enhancement, and preservation of wildlife habitat on federal lands
26 pursuant to the Sikes Act (16 U.S.C. Sec. 670a, et seq.).

27 (6) Acquisition and development of real property for wildlife management in
28 accordance with the purposes of the Wildlife Conservation Law of 1947 (~~Chapter 4~~
29 ~~(commencing with Section 1300) of Division 2~~ Title 1 (commencing with Section
30 54700) of Part 2 of Division 15 of the Fish and Game Wildlife Code).

31 (7) Reforestation, urban forestry, and forest improvement projects in accordance
32 with the provisions of Part 2.5 (commencing with Section 4790) of Division 4 of
33 the Public Resources Code.

34 (8) Water reclamation, watershed management, water conservation, instream use,
35 and drainage management programs approved by the Director of Water Resources
36 or the State Water Resources Control Board.

37 (9) Watershed restoration, erosion control, fire hazard reduction, land
38 conservation, and fish and wildlife habitat improvement projects.

39 (10) Acquisition, restoration, and preservation of habitat for rare and endangered
40 species.

41 (11) Programs for the prevention of soil loss and soil degradation.

42 (12) Programs for the preservation and protection of prime agricultural lands.

1 (13) Shoreline erosion control projects.

2 (14) Mitigation of environmental damage resulting from gas or oil production on
3 state lands.

4 (15) Programs to develop a computer-based mapping system to store, refine,
5 analyze, and display resource data.

6 (16) Programs for development and enhancement of renewable agricultural
7 resources.

8 (17) Programs to safeguard public and environmental health from hazardous
9 materials.

10 (18) Programs for geothermal resources assessment.

11 (19) Other programs which enhance and conserve renewable and nonrenewable
12 resources.

13 **Comment.** Section 26403(6) is amended to reflect the recodification of the former Fish and
14 Game Code. The section is also amended to make a technical correction.

15 **Pub. Res. Code § 28000 (amended).**

16 SEC. _____. Section 28000 of the Public Resources Code is amended to read:

17 28000. The Legislature hereby finds and declares all of the following:

18 (a) There has long been a public concern for protecting and preserving the natural
19 resources, wildlife habitat, recreational, and other environmental values, and public
20 health at Morro Bay and its watershed, beginning with Senate Resolution 176 in
21 1966.

22 (b) In 1966, the Senate declared that the preservation of Morro Bay's fish,
23 wildlife, recreational and aesthetic resources is of great importance to the people of
24 California, and directed the Resources Agency to conduct a study of Morro Bay and
25 its watershed and to prepare a plan for the preservation of the natural resources of
26 the bay and watershed.

27 (c) The need for a management plan for Morro Bay was demonstrated in a 1966
28 study by the Department of Fish and Game Wildlife, resulting from the Senate
29 resolution, which described Morro Bay's rich natural resources and proposed the
30 formation of a multiagency planning task force to prepare a comprehensive area
31 plan for approval by the Legislature.

32 (d) The need for developing a management plan for Morro Bay was recognized
33 in 1975 by the report of an intergovernmental task force, "A Coastal Watershed
34 Environmental Management System—Morro Bay, California," which recommended
35 various models of cooperative and comprehensive planning and management of
36 Morro Bay and its watershed.

37 (e) The Morro Bay Task Force, composed of representatives of 50 government
38 agencies and interest groups, was established in 1987 and adopted as a goal the long-
39 term preservation, conservation, and enhancement of Morro Bay. It selected
40 management planning as the best means to pursue that goal.

1 (f) The need to develop and carry out a management plan for Morro Bay and its
2 watershed has been clearly recognized by the Legislature in adopting Assembly
3 Concurrent Resolution 118 in 1990 (Resolution Chapter 58 of the Statutes of 1990).

4 (g) This need is also recognized by the approval by the Governor of the
5 nomination of Morro Bay for the National Estuary Program, as developed and
6 adopted by the State Water Resources Control Board. The development of a
7 management plan for Morro Bay will improve the likelihood that Morro Bay will
8 be accepted into the National Estuary Program.

9 (h) The Congress of the United States is expected to renew and revise the Clean
10 Water Act (33 U.S.C. Sec. 1250 et seq.), and to include funding for watershed
11 management planning. Designating Morro Bay and its watershed as a management
12 planning area will increase the likelihood that Congress will allocate federal funds
13 for Morro Bay management planning.

14 (i) There is now clear and compelling evidence that Morro Bay is suffering from
15 an unnaturally rapid, undesirable, and irreversible deterioration as a unique and
16 valuable natural resource, including (1) a 1988 study, funded by the State Coastal
17 Conservancy, which determined that Morro Bay has lost over 30 percent of its
18 estuary over the last 100 years, and that it continues to be threatened by unnaturally
19 rapid sedimentation and the loss of riparian flow caused by activities on state-owned
20 and local agency-owned properties and on privately owned agricultural lands within
21 the watershed, and (2) occasional, recent measurements by the State Department of
22 Health Services of coliform content that exceed safe levels.

23 (j) The need to prevent erosion in the Morro Bay watershed, which results in
24 further sedimentation and loss of bay habitat, has been clearly recognized by the
25 commitment of over three million dollars (\$3,000,000) to watershed enhancement
26 projects, mostly through the State Coastal Conservancy.

27 (k) The Morro Bay watershed was selected as the pilot watershed for developing
28 California's nonpoint source pollution regulations to comply with the federal
29 Coastal Zone Management Act of 1972 (16 U.S.C. Sec. 1451 et seq.).

30 (l) There are unknown factors influencing the health of Morro Bay which need
31 study, including (1) unsafe levels of nitrates in groundwater in residential areas
32 adjoining the bay, coupled with rapidly increasing coverage of intertidal mudflats
33 with algae, and (2) occasional quarantine of oyster production in Morro Bay because
34 of paralytic poisoning caused by planktonic invasion.

35 (m) Morro Bay is an essential link in the Pacific Flyway, providing the state's
36 largest waterfowl habitat south of San Francisco. Annually, Morro Bay has the
37 second or third largest Audubon count of bird species in the nation.

38 (n) Morro Bay offers many beneficial human uses, such as oyster farming,
39 harboring commercial and recreational fishing boats, recreational boating, and
40 aesthetic tourist attractions supporting a large business community. A healthy bay
41 is important for all of these activities and enterprises.

1 (o) Morro Bay remains relatively unspoiled. Action to maintain and enhance it
2 will be far less costly than restoring it after deterioration.

3 (p) Through the efforts of governmental agencies and volunteer organizations
4 communicating through the Morro Bay Task Force, strong, widespread,
5 multipartisan support for the development of a management plan has arisen.
6 Cooperative effort and the involvement of all concerned has already been
7 established as the method to follow in planning.

8 (q) It is necessary to develop a comprehensive management plan for Morro Bay
9 to conduct research, to coordinate the monitoring of sediment and water quality, to
10 promote coordinated education and public outreach programs, and to identify and
11 seek sources of funding for these activities.

12 **Comment.** Section 28000 is amended to update a reference to the former Department of Fish
13 and Game. See Fish & Wildlife Code § 1500.

14 **Pub. Res. Code § 28004 (amended).**

15 SEC. _____. Section 28004 of the Public Resources Code is amended to read:

16 28004. (a)(1) The agency shall convene the Morro Bay Management Plan Task
17 Force to develop the plan. The Central Coast Regional Water Quality Control Board
18 shall be utilized to carry out necessary administrative functions, including selecting
19 a temporary chairperson of the task force, until such time as the task force
20 establishes its own organization, leadership, and procedures. The task force shall
21 meet at least four times each calendar year. The task force shall submit the plan to
22 the San Luis Obispo County Board of Supervisors and to the Morro Bay City
23 Council for approval. Following that approval, the task force shall, on or before July
24 1, 1997, submit the plan to the Legislature.

25 (2) On and after July 1, 1997, the task force shall, on an ongoing basis, make
26 recommendations to the agency regarding the need for any revisions in the plan.

27 (3) The task force shall terminate as of June 30, 2007.

28 (b) The agency shall encourage all local, state, and federal agencies with
29 jurisdiction over parts of, or activities within, the bay and its watershed to participate
30 in the task force. The agency shall also encourage the participation of all interested
31 business and agricultural groups, commercial organizations, environmental groups,
32 and any other interested groups or individuals.

33 (1) Participating agencies may include, but are not limited to, the agency, the
34 National Guard, the Department of Parks and Recreation, the Department of Fish
35 and Game Wildlife, the Department of Corrections, the State Department of Health
36 Services, the California Coastal Commission, the State Water Resources Control
37 Board, the Central Coast Regional Water Quality Control Board, the Coastal San
38 Luis Resource Conservation District, the State Coastal Conservancy, the California
39 Conservation Corps, California Polytechnic State University San Luis Obispo, the
40 University of California Agricultural Extension, the County of San Luis Obispo,
41 and the City of Morro Bay.

1 (2) Other participants may include, but are not limited to, the Pacific Gas and
2 Electric Company, agricultural groups, commercial fishing, mariculture, and fish
3 processing groups, local chambers of commerce, and members of the tourist
4 industry.

5 (3) The costs incurred by each voluntary participant in the task force shall be
6 limited to the costs of its own participation at the meetings called by the chairperson
7 of the task force.

8 **Comment.** Section 28004 is amended to update a reference to the former Department of Fish
9 and Game. See Fish & Wildlife Code § 1500.

10 **Pub. Res. Code § 29004 (amended).**

11 SEC. _____. Section 29004 of the Public Resources Code is amended to read:
12 29004. The Legislature further finds and declares as follows:

13 (a) That the San Francisco Bay Conservation and Development Commission and
14 the Department of Fish and Game Wildlife, pursuant to the Nejedly-Bagley-Z'berg
15 Suisun Marsh Preservation Act of 1974 (former Chapter 9 (commencing with
16 Section 1850) of Division 2 of the Fish and Game Code, added by Chapter 1486 of
17 the Statutes of 1974), have made a detailed study of the Suisun Marsh; that there
18 has been extensive participation by other governmental agencies, private interests,
19 and the general public in the study; and that, based on the study, the commission
20 has prepared the Suisun Marsh Protection Plan for the orderly and long-range
21 conservation, use, and management of the natural, scenic, recreational, and
22 manmade resources of the marsh.

23 (b) That the Suisun Marsh Protection Plan contains a series of recommendations
24 which require implementation by the Legislature; and, accordingly, these
25 recommendations are implemented in the manner provided in this division.

26 **Comment.** Section 29004 is amended to clarify a cross-reference to Chapter 9 (commencing
27 with Section 1850) of Division 2 of the former Fish and Game Code. The section is also amended
28 to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

29 **Pub. Res. Code § 29107 (amended).**

30 SEC. _____. Section 29107 of the Public Resources Code is amended to read:
31 29107. "Department" means the Department of Fish and Game Wildlife.

32 **Comment.** Section 29107 is amended to update a reference to the former Department of Fish
33 and Game. See Fish & Wildlife Code § 1500.

34 **Pub. Res. Code § 29305 (amended).**

35 SEC. _____. Section 29305 of the Public Resources Code is amended to read:

36 29305. The Wildlife Conservation Board shall acquire title to, or a lesser right or
37 interest in, land or water that the board determines is appropriate for the purposes
38 of the protection plan. When authorized by the board, the department shall construct
39 facilities that are suitable for the purpose for which the acquisitions were made. The
40 acquisitions shall be made in accordance with the Wildlife Conservation Law of

1 1947 (~~Chapter 4 (commencing with Section 1300) of Division 2 Title 1~~
2 ~~(commencing with Section 54700) of Part 2 of Division 15 of the Fish and Game~~
3 ~~Wildlife Code~~) and the criteria specified in Section 29009 of this code.

4 **Comment.** Section 29305 is amended to reflect the recodification of the former Fish and Game
5 Code.

6 **Pub. Res. Code § 29413 (amended).**

7 SEC. _____. Section 29413 of the Public Resources Code is amended to read:

8 29413. (a) Not less than 15 days after submission of the local protection program,
9 or any component thereof, pursuant to Section 29412, the commission shall request
10 comments on the program from the Department of Fish and Game Wildlife, from
11 the State Department of Health, from all local governments, and from such other
12 governmental agencies and interested persons as the commission may determine
13 would be of assistance in reviewing the proposed program. The department or any
14 such agency or person shall provide its comments within 60 days of the
15 commission's request, and failure to provide comments within such time shall be
16 deemed to mean that the department or any such agency or person has no comments
17 to make.

18 (b) In addition to its responsibilities under subdivision (a), the department shall
19 specifically determine whether the component of the local protection program
20 prepared by the Suisun Resource Conservation District is, in the opinion of the
21 department, consistent with this division and the policies of the protection plan.

22 (c) The Director of Health shall specifically determine whether the component of
23 the local protection program prepared by the Solano County Mosquito Abatement
24 District is in conformity with the applicable provisions of the Health and Safety
25 Code.

26 **Comment.** Section 29413 is amended to update a reference to the former Department of Fish
27 and Game. See Fish & Wildlife Code § 1500.

28 **Pub. Res. Code § 30100.2 (amended).**

29 SEC. _____. Section 30100.2 of the Public Resources Code is amended to read:

30 30100.2. "Aquaculture" means a form of agriculture as defined in Section 17 225
31 of the Fish and Game Wildlife Code. Aquaculture products are agricultural
32 products, and aquaculture facilities and land uses shall be treated as agricultural
33 facilities and land uses in all planning and permit-issuing decisions governed by this
34 division.

35 **Comment.** Section 30100.2 is amended to reflect the recodification of the former Fish and Game
36 Code.

37 **Pub. Res. Code § 30170 (amended).**

38 SEC. _____. Section 30170 of the Public Resources Code is amended to read:

39 30170. In San Diego County:

1 (a) In the City of Oceanside, approximately 500 acres are excluded as specifically
2 shown on maps 30A and 31.

3 (b) In the City of Carlsbad, approximately 180 acres in the downtown area, except
4 for the Elm Street corridor, are excluded as specifically shown on map 31.

5 (c) In the City of Carlsbad, the area lying north of the Palomar Airport as generally
6 shown on maps 31 and 32 and as specifically described in this subdivision is
7 excluded.

8 Those portions of lots “F” and “G” of Rancho Agua Hedionda, part in the City of
9 Carlsbad and part in the unincorporated area of the County of San Diego, State of
10 California, according to the partition map thereof No. 823, filed in the office of the
11 county recorder of that county, November 16, 1896, described as follows:

12 Commencing at point 1 of said lot “F” as shown on said map; thence along the
13 boundary line of said lot “F” south $25^{\circ} 33' 56''$ east, 229.00 feet to point 23
14 of said lot “F” and south $54^{\circ} 40' 19''$ east, 1347.00 feet; thence leaving said
15 boundary line south $35^{\circ} 19' 44''$ west, 41.28 feet to the true point of
16 beginning, which point is the true point of beginning, of the land described in deed
17 to Japatul Corporation recorded December 8, 1975, at recorder’s file/page No.
18 345107 of official records to said county; thence along the boundary line of said
19 land south $35^{\circ} 19' 44''$ west, 2216.46 feet and north $53^{\circ} 02' 49''$ west,
20 1214.69 feet to the northeast corner of the land described in deed to Japatul
21 Corporation recorded December 8, 1975, at recorder’s file/page No. 345103 of said
22 official records; thence along the boundary lines of said land as follows: West, 1550
23 feet, more or less, to the boundary of said lot “F”; south $00^{\circ} 12' 00''$ west,
24 550 feet, more or less, to point 5 of said lot “F”; south $10^{\circ} 25' 10''$ east along
25 a straight line between said point 5 and point 14 of said lot “F,” to point 14 of said
26 lot “F”; thence along the boundary of said lot “F” south $52^{\circ} 15' 45''$ east
27 (record south $51^{\circ} 00' 00''$ east) 1860.74 feet more or less to the most westerly
28 corner of the land conveyed to James L. Hieatt, et ux, by deed recorded June 11,
29 1913, in Book 617, page 54 of deed, records of said county; thence along the
30 northwesterly and northeasterly boundary of Hieatt’s land as follows: North $25^{\circ} 00'$
31 $00''$ east, 594.00 feet and south $52^{\circ} 15' 45''$ east (record south 51°
32 $00' 00''$ east per deed) 1348.61 feet to a point of intersection with the
33 northerly line of Palomar County Airport, said point being on the boundary of the
34 land conveyed to Japatul Corporation by deed recorded December 8, 1975, at
35 recorder’s file/page No. 345107 of said official records; thence along said boundary
36 as follows: North $79^{\circ} 10' 00''$ east, 4052.22 feet north $10^{\circ} 50' 00''$
37 west, 500.00 feet; north $79^{\circ} 10' 00''$ east 262.00 feet, south $10^{\circ} 50'$
38 $00''$ east, 500.00 feet; north $79^{\circ} 10' 00''$ east, 1005 feet, more or less,
39 to the westerly line of the land conveyed to the County of San Diego by deed
40 recorded May 28, 1970, at recorder’s file/page No. 93075 of said official records;
41 thence continuing along the boundary of last said Japatul Corporation’s land north
42 $38^{\circ} 42' 44''$ west, 2510.58 feet to the beginning of a tangent 1845.00 foot

1 radius curve concave northeasterly; along the arc of said curve through a central
2 angle of 14° 25' 52″ a distance of 464.70 feet to a point of the southerly
3 boundary of the land allotted to Thalia Kelly Considine, et al., by partial final
4 judgment in partition, recorded January 18, 1963, at recorder's file/page No. 11643
5 of said official records; thence continuing along last said Japatul Corporation's land
6 south 67° 50' 28″ west, 1392.80 feet north 33° 08' 52″ west, 915.12
7 feet and north 00° 30' 53″ west, 1290.37 feet to the southerly line of said
8 land conveyed to the County of San Diego, being also the northerly line of last said
9 Japatul Corporation's land; thence along said common line north 74° 57' 25″
10 west, 427.67 feet to the beginning of a tangent 2045.00 foot radius curve concave
11 northerly; and westerly along the arc of said curve through a central angle of 16°
12 59' 24″; a distance of 606.41 feet to the true point of beginning.

13 And those properties known as assessors parcel Nos. 212-020-08, 212-020-22,
14 and 212-020-23.

15 Excepting therefrom, that portion, if any, conveyed to the County of San Diego,
16 by quitclaim deed recorded January 12, 1977, at recorder's file/page No. 012820 of
17 said official records.

18 No development may occur in the area described in this subdivision until a plan
19 for drainage of the parcel to be developed has been approved by the local
20 government having jurisdiction over the area after consultation with the commission
21 and the Department of Fish and Game Wildlife. The plan shall assure that no
22 detrimental increase occurs in runoff of water from the parcel to be developed and
23 shall require that the facilities necessary to implement the plan are installed as part
24 of the development.

25 (d) In the City of Carlsbad and adjacent unincorporated areas, approximately 600
26 acres consisting of the Palomar Airport and an adjoining industrial park are
27 excluded as specifically shown on maps 31 and 32.

28 (e) An area consisting of approximately 333 acres lying west and south of the
29 Palomar Airport and bounded on the south by Palomar Airport Road is excluded as
30 specifically shown on maps 31 and 32.

31 No development may occur in the area described in this subdivision until a plan
32 for drainage of the parcel to be developed has been approved by the local
33 government having jurisdiction over the area after consultation with the commission
34 and the Department of Fish and Game Wildlife. The plan shall assure that no
35 detrimental increase occurs in runoff of water from the parcel to be developed and
36 shall require that the facilities necessary to implement the plan are installed as part
37 of the development.

38 (f) On or before October 1, 1980, the commission shall, after public hearing and
39 in consultation with the City of Carlsbad, prepare, approve, and adopt a local coastal
40 program for the following parcels in the vicinity of Batiquitos Lagoon within the
41 City of Carlsbad: lands owned by Rancho La Costa, a registered limited partnership,
42 lands (consisting of approximately 80 acres) owned by Standard Pacific of San

1 Diego, Inc., that were conveyed by Rancho La Costa on October 8, 1977, and lands
2 owned by the Occidental Petroleum Company. Those parcels shall be determined
3 by ownership as of September 12, 1979. As used in this subdivision, “parcels”
4 means the parcels identified in this paragraph. The local coastal program required
5 by this subdivision shall include all of the following elements:

6 (1) Protection of agricultural lands and uses to the extent feasible.

7 (2) Minimization of adverse impacts from sedimentation.

8 (3) Protection of feasible public recreational opportunities.

9 (4) Provision for economically feasible development consistent with the three
10 elements specified in this subdivision.

11 The local coastal program required by this subdivision shall, after adoption by the
12 commission, be deemed certified and shall for all purposes of this division constitute
13 certified local coastal program segments for those parcels in the City of Carlsbad.
14 The segments of the city’s local coastal program for those parcels may be amended
15 pursuant to the provisions of this division relating to the amendment of local coastal
16 programs. In addition, until (i) the City of Carlsbad adopts or enacts the
17 implementing actions contained in the local coastal program, or (ii) other statutory
18 provisions provide alternately for the adoption, certification, and implementation of
19 a local coastal program for those parcels, the local coastal program required by this
20 subdivision may also be amended by the commission at the request of the owner of
21 any of those parcels. For administrative purposes, the commission may group these
22 requests in order to schedule them for consideration at a single commission hearing.
23 However, the commission shall schedule these requests for consideration at least
24 once during each four-month period, beginning January 1, 1982. After either of
25 these events occur, however, these property owners shall no longer be eligible to
26 request the commission to amend the local coastal program.

27 If the commission fails to adopt a local coastal program within the time limits
28 specified in this subdivision, those parcels shall be excluded from the coastal zone
29 and shall no longer be subject to this division. It is the intent of the Legislature in
30 enacting this subdivision that a procedure to expedite the preparation and adoption
31 of a local coastal program for those parcels be established so that the public and
32 affected property owners know as soon as possible what the permissible uses of
33 those lands are.

34 (g) In the vicinity of the intersection of Del Mar Heights Road and the San Diego
35 Freeway, approximately 250 acres are excluded as specifically shown on map 33.

36 (h) In the vicinity of the intersection of Carmel Valley Road and the San Diego
37 Freeway, approximately 45 acres are added as specifically shown on map 33.

38 In the City of San Diego, the Carmel Valley area consisting of approximately
39 1,400 acres as shown on map 33 that has been placed on file with the Secretary of
40 State on January 23, 1980, shall be excluded from the coastal zone after the City of
41 San Diego submits, and the commission certifies, a drainage plan and a
42 transportation plan for the area. The city shall implement and enforce the certified

1 drainage and transportation plans. Any amendments or changes to the underlying
2 land use plan for the area that affects drainage, or to either the certified drainage or
3 transportation plan, shall be reviewed and processed in the same manner as an
4 amendment of a certified local coastal program pursuant to Section 30514. Any land
5 use not in conformance with the certified drainage and transportation plans may be
6 appealed to the commission pursuant to the appeals procedure as provided by
7 Chapter 7 (commencing with Section 30600). The drainage plan and any
8 amendments thereto shall be prepared after consultation with the Department of Fish
9 and Game Wildlife and shall ensure that problems resulting from water runoff,
10 sedimentation, and siltation are adequately identified and resolved.

11 (i) Near the head of the south branch of Los Penasquitos Canyon, the boundary is
12 moved seaward to the five-mile limit as described in Section 30103 and as
13 specifically shown on map 33.

14 (j) In the City of San Diego, approximately 1,855 acres known as the Mount
15 Soledad and La Jolla Mesa areas are added as specifically shown on map 34.
16 However, on or before February 29, 1980, and pursuant to either subdivision (d) of
17 Section 30610 or Section 30610.5, the commission shall exclude from coastal
18 development permit requirements any single-family residence within the area
19 specified in this subdivision. No coastal development permit shall be required for
20 any improvement, maintenance activity, relocation, or reasonable expansion of any
21 commercial radio or television transmission facilities within the area specified in
22 this subdivision unless the proposed activity could result in a significant change in
23 the density or intensity of use in the area or could have a significant adverse impact
24 on highly scenic resources of public importance. However, no prior review by the
25 commission of this activity shall be required.

26 (k) In the City of San Diego, approximately 30 acres known as the Famosa Slough
27 is added as specifically shown on maps 34 and 35.

28 **Comment.** Section 30170 is amended to update references to the former Department of Fish and
29 Game. See Fish & Wildlife Code § 1500.

30 **Pub. Res. Code § 30233 (amended).**

31 SEC. _____. Section 30233 of the Public Resources Code is amended to read:

32 30233. (a) The diking, filling, or dredging of open coastal waters, wetlands,
33 estuaries, and lakes shall be permitted in accordance with other applicable
34 provisions of this division, where there is no feasible less environmentally damaging
35 alternative, and where feasible mitigation measures have been provided to minimize
36 adverse environmental effects, and shall be limited to the following:

37 (1) New or expanded port, energy, and coastal-dependent industrial facilities,
38 including commercial fishing facilities.

39 (2) Maintaining existing, or restoring previously dredged, depths in existing
40 navigational channels, turning basins, vessel berthing and mooring areas, and boat
41 launching ramps.

1 (3) In open coastal waters, other than wetlands, including streams, estuaries, and
2 lakes, new or expanded boating facilities and the placement of structural pilings for
3 public recreational piers that provide public access and recreational opportunities.

4 (4) Incidental public service purposes, including, but not limited to, burying
5 cables and pipes or inspection of piers and maintenance of existing intake and outfall
6 lines.

7 (5) Mineral extraction, including sand for restoring beaches, except in
8 environmentally sensitive areas.

9 (6) Restoration purposes.

10 (7) Nature study, aquaculture, or similar resource-dependent activities.

11 (b) Dredging and spoils disposal shall be planned and carried out to avoid
12 significant disruption to marine and wildlife habitats and water circulation. Dredge
13 spoils suitable for beach replenishment should be transported for these purposes to
14 appropriate beaches or into suitable longshore current systems.

15 (c) In addition to the other provisions of this section, diking, filling, or dredging
16 in existing estuaries and wetlands shall maintain or enhance the functional capacity
17 of the wetland or estuary. Any alteration of coastal wetlands identified by the
18 Department of Fish and Game Wildlife, including, but not limited to, the 19 coastal
19 wetlands identified in its report entitled, “Acquisition Priorities for the Coastal
20 Wetlands of California”, shall be limited to very minor incidental public facilities,
21 restorative measures, nature study, commercial fishing facilities in Bodega Bay, and
22 development in already developed parts of south San Diego Bay, if otherwise in
23 accordance with this division.

24 For the purposes of this section, “commercial fishing facilities in Bodega Bay”
25 means that not less than 80 percent of all boating facilities proposed to be developed
26 or improved, where the improvement would create additional berths in Bodega Bay,
27 shall be designed and used for commercial fishing activities.

28 (d) Erosion control and flood control facilities constructed on watercourses can
29 impede the movement of sediment and nutrients that would otherwise be carried by
30 storm runoff into coastal waters. To facilitate the continued delivery of these
31 sediments to the littoral zone, whenever feasible, the material removed from these
32 facilities may be placed at appropriate points on the shoreline in accordance with
33 other applicable provisions of this division, where feasible mitigation measures have
34 been provided to minimize adverse environmental effects. Aspects that shall be
35 considered before issuing a coastal development permit for these purposes are the
36 method of placement, time of year of placement, and sensitivity of the placement
37 area.

38 **Comment.** Section 30233 is amended to update a cross-reference to the former Department of
39 Fish and Game. See Fish & Wildlife Code § 1500.

40 **Pub. Res. Code § 30265.5 (amended).**

41 SEC. _____. Section 30265.5 of the Public Resources Code is amended to read:

1 30265.5. (a) The Governor, or the Governor's designee, shall coordinate activities
2 concerning the transport and refining of offshore oil. Coordination efforts shall
3 consider public health risks, the ability to achieve short- and long-term air emission
4 reduction goals, the potential for reducing California's vulnerability and
5 dependence on oil imports, economic development and jobs, and other factors
6 deemed important by the Governor, or the Governor's designee.

7 (b) The Governor, or the Governor's designee, shall work with state and local
8 agencies, and the public, to facilitate the transport and refining of offshore oil in a
9 manner which will promote the greatest public health and environmental and
10 economic benefits to the people of the state.

11 (c) The Governor, or the Governor's designee, shall consult with any individual
12 or organization having knowledge in this area, including, but not limited to,
13 representatives from the following:

14 (1) State Energy Resources Conservation and Development Commission.

15 (2) State Air Resources Board.

16 (3) California Coastal Commission.

17 (4) Department of Fish and ~~Game~~ Wildlife.

18 (5) State Lands Commission.

19 (6) Public Utilities Commission.

20 (7) Santa Barbara County.

21 (8) Santa Barbara County Air Pollution Control District.

22 (9) Southern California Association of Governments.

23 (10) South Coast Air Quality Management District.

24 (11) Oil industry.

25 (12) Public interest groups.

26 (13) United States Department of the Interior.

27 (14) United States Department of Energy.

28 (15) United States Environmental Protection Agency.

29 (16) National Oceanic and Atmospheric Administration.

30 (17) United States Coast Guard.

31 (d) This act is not intended, and shall not be construed, to decrease, duplicate, or
32 supersede the jurisdiction, authority, or responsibilities of any local government, or
33 any state agency or commission, to discharge its responsibilities concerning the
34 transportation and refining of oil.

35 **Comment.** Section 30265.5 is amended to update a reference to the former Department of Fish
36 and Game. See Fish & Wildlife Code § 1500.

37 **Pub. Res. Code § 30404 (amended).**

38 SEC. _____. Section 30404 of the Public Resources Code is amended to read:

39 30404. (a) The Natural Resources Agency shall periodically, in the case of the
40 State Energy Resources Conservation and Development Commission, the State
41 Board of Forestry and Fire Protection, the State Water Resources Control Board and

1 the California regional water quality control boards, the State Air Resources Board
2 and air pollution control districts and air quality management districts, the
3 Department of Fish and Game Wildlife, the Department of Parks and Recreation,
4 the California Geological Survey and the Division of Oil, Gas, and Geothermal
5 Resources in the Department of Conservation, and the State Lands Commission,
6 and may, with respect to any other state agency, submit recommendations designed
7 to encourage the state agency to carry out its functions in a manner consistent with
8 this division. The recommendations may include proposed changes in
9 administrative regulations, rules, and statutes.

10 (b) This section shall become operative on July 1, 2013.

11 **Comment.** Section 30404 is amended to update a reference to the former Department of Fish
12 and Game. See Fish & Wildlife Code § 1500.

13 **Pub. Res. Code § 30420 (amended).**

14 SEC. _____. Section 30420 of the Public Resources Code is amended to read:

15 30420. Prior to taking any action on (1) a local coastal program or any amendment
16 thereto, (2) any coastal development permit, or (3) any consistency determination
17 or certification, that relates to the disposal of hazardous substances at sea, the
18 commission shall consult with the following governmental entities:

19 (a) Department of Toxic Substances Control.

20 (b) State Lands Commission.

21 (c) State Air Resources Board and relevant air pollution control districts or air
22 quality management districts.

23 (d) Department of Fish and Game Wildlife.

24 (e) State Water Resources Control Board and relevant California regional water
25 quality control boards.

26 (f) Secretary for Environmental Protection.

27 (g) Governor's Office of Planning and Research.

28 (h) The local government located closest to the proposed activity, or within whose
29 jurisdiction the activity is proposed, or within whose jurisdiction there may be
30 effects of the proposed activity.

31 **Comment.** Section 30420 is amended to update a reference to the former Department of Fish
32 and Game. See Fish & Wildlife Code § 1500.

33 **Pub. Res. Code § 30609.5 (amended).**

34 SEC. _____. Section 30609.5 of the Public Resources Code is amended to read:

35 30609.5. (a) Except as provided in subdivisions (b) and (c), no state land that is
36 located between the first public road and the sea, with an existing or potential public
37 accessway to or from the sea, or that the commission has formally designated as part
38 of the California Coastal Trail, shall be transferred or sold by the state to any private
39 entity unless the state retains a permanent property interest in the land adequate to
40 provide public access to or along the sea. In any transfer or sale of real property by
41 a state agency to a private entity or person pursuant to this section, the instrument

1 of conveyance created by the state shall require that the private entity or person or
2 the entity or person's successors or assigns manage the property in such a way as to
3 ensure that existing or potential public access is not diminished. The instrument of
4 conveyance shall further require that any violation of this management requirement
5 shall result in the reversion of the real property to the state.

6 (b) This section shall not apply to the transfer of state land to a nonprofit
7 organization that exists for the purposes of preserving lands for public use and
8 enjoyment and meets the requirements of subdivision (b) of Section 831.5 of the
9 Government Code.

10 (c) Notwithstanding the provisions of subdivision (a), state lands between the first
11 public road and the sea, that are under the possession and control of the Department
12 of Parks and Recreation or the State Coastal Conservancy, may be transferred or
13 sold if the department or the conservancy makes one or more of the following
14 findings at a noticed public hearing relating to the transfer or sale of the property:

15 (1) The state has retained or will retain, as a condition of the transfer or sale,
16 permanent property interests on the land providing public access to or along the sea.

17 (2) Equivalent or greater public access to the same beach or shoreline area is
18 provided for than would be feasible if the land were to remain in state ownership.

19 (3) The land to be transferred or sold is an environmentally sensitive area with
20 natural resources that would be adversely impacted by public use, and the state will
21 retain permanent property interests in the land that may be necessary to protect, or
22 otherwise provide for the permanent protection of, those resources prior to or as a
23 condition of the transfer or sale.

24 (4) The land to be transferred or sold has neither existing nor potential public
25 accessway to the sea.

26 (d) Nothing in this section shall be construed to interfere with the management
27 responsibilities of state resource agencies, including, but not limited to, the
28 responsibilities to ensure public safety and implement the California Endangered
29 Species Act (~~Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1~~
30 (commencing with Section 62000) of Division 17 of the Fish and Game Wildlife
31 Code).

32 (e) As used in this section, "state land" means any real property in which the state
33 or any state agency has an ownership interest including, but not limited to, a fee,
34 title, easement, deed restriction, or other interest in land. It does not include land in
35 which a city, county, city and county, or district has an ownership interest.

36 (f) Nothing in this section is intended to restrict a private property owner's right
37 to sell or transfer private property.

38 **Comment.** Subdivision (d) of Section 30609.5 is amended to reflect the recodification of the
39 former Fish and Game Code.

40 **Pub. Res. Code § 30921 (amended).**

41 SEC. _____. Section 30921 of the Public Resources Code is amended to read:

1 30921. (a) Upon appropriation by the Legislature for that purpose, funds may be
2 expended by the board, in consultation with the State Coastal Conservancy, the
3 California Coastal Commission, and, as appropriate, the Department of Fish and
4 Game Wildlife, to award grants, not to exceed one million dollars (\$1,000,000) per
5 project, to local public agencies and nonprofit organizations for the purposes of this
6 chapter.

7 (b) The projects funded to carry out this chapter shall demonstrate the capability
8 of contributing to sustained, long-term water quality or environmental restoration
9 or protection benefits for a period of 20 years, address the causes of degradation
10 rather than the symptoms, and be consistent with water quality control plans and
11 resource protection plans prepared, implemented, or adopted by the board, the
12 applicable regional board, the Department of Fish and Game Wildlife, and the State
13 Coastal Conservancy.

14 (c) An applicant for funds to carry out this chapter shall be required to submit to
15 the board a monitoring and reporting plan that does all of the following:

16 (1) Identifies the sources of pollution to be prevented or reduced by the project.

17 (2) Describes the baseline water quality or environmental quality to be addressed.

18 (3) Describes the manner in which the project will be effective in preventing or
19 reducing pollution and in demonstrating the desired environmental results.

20 (4) Describes the monitoring program, including, but not limited to, the
21 methodology, frequency, and duration of monitoring.

22 (d) Upon completion of the project, a recipient of funds to carry out this chapter
23 shall submit a report to the board that summarizes the completed activities and
24 indicates whether the purposes of the project have been met. The report shall include
25 information collected by the recipient in accordance with the project monitoring and
26 reporting plan, including a determination of the effectiveness of the project in
27 preventing or reducing pollution, and the results of the monitoring program. The
28 board shall make the report available to the public, watershed groups, and federal,
29 state, and local agencies.

30 (e) The board may not award more than 25 percent of a grant to carry out this
31 chapter in advance of the expenditure of funds by a grantee.

32 (f) An applicant for funds to carry out this chapter shall inform the board of any
33 necessary public agency approvals, entitlements, and permits that may be necessary
34 to implement the project. The applicant shall certify to the board, at the appropriate
35 time, that those approvals, entitlements, and permits have been granted.

36 (g) Where recovery plans for coho salmon, steelhead trout, or other threatened or
37 endangered coastal and marine aquatic species exist, projects funded to carry out
38 this chapter shall be consistent with those plans and, to the extent feasible, shall seek
39 to implement actions specified in those plans.

40 (h) The board, in consultation with the California Coastal Commission, shall
41 appoint a marine managed areas water quality task force comprised of individuals
42 representing the breadth and diversity of coastal communities, interested nonprofit

1 groups, and marine resource users. All proposals for grant funding to carry out this
2 chapter shall be reviewed by the task force. The task force may recommend projects
3 to the board for funding consideration.

4 (i) The board shall provide opportunity for public review and comment in
5 awarding funds to carry out this chapter.

6 **Comment.** Section 30921 is amended to update references to the former Department of Fish and
7 Game. See Fish & Wildlife Code § 1500.

8 **Pub. Res. Code § 31220 (amended).**

9 SEC. _____. Section 31220 of the Public Resources Code is amended to read:

10 31220. (a) In order to improve and protect coastal and marine water quality and
11 habitats, the conservancy may undertake coastal watershed and coastal and marine
12 habitat water quality, sediment management, and living marine resources protection
13 and restoration projects or award grants for those projects, consistent with this
14 chapter. Except for projects described in paragraph (7), (8), (9), or (10) of
15 subdivision (b), the conservancy shall consult with the State Water Resources
16 Control Board in the development of the project or grant to ensure consistency with
17 Chapter 3 (commencing with Section 30915) of Division 20.4 of the Public
18 Resources Code.

19 (b) The conservancy may undertake a project or award a grant for a project under
20 this section only if the project does one or more of the following:

21 (1) Reduces contamination of waters within the coastal zone or marine waters.

22 (2) Protects or restores fish and wildlife habitat within coastal and marine waters
23 and coastal watersheds, including, but not limited to, permit coordination projects
24 for watershed restoration.

25 (3) Reduces threats to coastal and marine fish and wildlife.

26 (4) Reduces unnatural erosion and sedimentation of coastal watersheds or
27 contributes to the reestablishment of natural erosion and sediment cycles.

28 (5) Provides for monitoring and mapping of coastal currents, marine habitats, and
29 marine wildlife, in order to facilitate the protection and enhancement of resources
30 within the coastal zone. A project considered under this paragraph shall be
31 implemented in consultation with the Department of Fish and Game Wildlife.

32 (6) Acquires, protects, and restores coastal wetlands, riparian areas, floodplains,
33 and other sensitive watershed lands, including watershed lands draining to sensitive
34 coastal or marine areas.

35 (7) Reduces the impact of population and economic pressures on coastal and
36 marine resources.

37 (8) Provides for public access compatible with resource protection and restoration
38 objectives.

39 (9) Provides for the construction or expansion of nature centers or research
40 facilities that emphasize conservation education or research activities focusing on
41 the marine portion of the coastal zone or the land and ocean interface.

1 (10) Provides for projects and activities consistent with Division 26.5
2 (commencing with Section 35500).

3 (c) Projects funded pursuant to this section shall include a monitoring and
4 evaluation component and shall be consistent with the following, if available and
5 relevant to the project:

6 (1) Integrated Watershed Management Program established pursuant to Section
7 30947.

8 (2) Local watershed management plans.

9 (3) Water quality control plans adopted by the State Water Resources Control
10 Board and regional water quality control boards.

11 **Comment.** Section 31220 is amended to update a reference to the former Department of Fish
12 and Game. See Fish & Wildlife Code § 1500.

13 **Pub. Res. Code § 31251.2 (amended).**

14 SEC. _____. Section 31251.2 of the Public Resources Code is amended to read:

15 31251.2. (a) In order to enhance the natural or scenic character of coastal
16 resources within the coastal zone, the conservancy may undertake a project or award
17 a grant, consistent with subdivision (a) of Section 30200 and pursuant to this
18 chapter, to enhance a watershed resource that is partly outside of the coastal zone.
19 Any of these projects or grants which involve the management of fish shall be
20 approved by the Department of Fish and ~~Game~~ Wildlife.

21 Neither the conservancy nor any other state agency shall undertake a project
22 affecting an area partly inside and partly outside the coastal zone under this chapter,
23 except at the request of the local public agency or agencies having jurisdiction over
24 the entire project area.

25 (b) Any enhancement activity carried out pursuant to this section shall not be
26 subject to any commission review, as set forth in Section 31258, for that portion of
27 the activity located outside the coastal zone. However, the commission through its
28 executive director and the Department of Fish and ~~Game~~ Wildlife may review and
29 comment on the enhancement plan's consistency with the policies and objectives of
30 Division 20 (commencing with Section 30000).

31 (c) No funds set forth in subdivision (c) of Section 5096.151 of the Public
32 Resources Code, shall be expended on enhancement activities that are outside the
33 coastal zone.

34 (d) This section shall not apply to any portion of the Santa Monica Mountains
35 Zone as set forth in Division 23 (commencing with Section 33000).

36 **Comment.** Section 31251.2 is amended to update references to the former Department of Fish
37 and Game. See Fish & Wildlife Code § 1500.

38 **Pub. Res. Code § 32301 (amended).**

39 SEC. _____. Section 32301 of the Public Resources Code is amended to read:

40 32301. The Legislature finds and declares all of the following:

1 (a) The Sacramento-San Joaquin Delta is a unique natural resource of local, state,
2 and national significance.

3 (b) At 1,300 square miles, the Delta is the largest estuary on the west coast of
4 North and South America.

5 (c) Its rivers and labyrinths of sloughs and channels are home to 750 species of
6 plants and wildlife as well as 55 species of fish, provide habitat for 700 native plant
7 and animal species, and are part of the Pacific Flyway.

8 (d) The Delta contains more than 500,000 acres of agricultural land, with unique
9 soils, and farmers who are creative and utilize innovative agriculture, such as carbon
10 sequestration crops, subsidence reversal crops, wildlife-friendly crops, and crops
11 direct for marketing to the large urban populations nearby.

12 (e) The Delta and Suisun Marsh provide numerous opportunities for recreation,
13 such as boating, kayaking, fishing, hiking, birding, and hunting. Navigable
14 waterways in the Delta are available for public access and currently make up the
15 majority of recreational opportunities. There is a need for land-based recreational
16 access points including parks, picnic areas, and campgrounds.

17 (f) The Delta's history is rich with a distinct natural, agricultural, and cultural
18 heritage. It is home to the community of Locke, the only town in the United States
19 built primarily by early Chinese immigrants. Other legacy communities include
20 Bethel Island, Clarksburg, Courtland, Freeport, Hood, Isleton, Knightsen, Rio Vista,
21 Ryde, and Walnut Grove.

22 (g) The Delta is home to more than 500,000 people and 200,000 jobs, and
23 contributes over thirty-five billion dollars (\$35,000,000,000) to the state's economy.

24 (h) In addition, the Delta provides water to more than 25 million Californians and
25 three million acres of agricultural land. It supports a four hundred billion dollar
26 (\$400,000,000,000) economy and is traversed by energy, communications, and
27 transportation facilities vital to the economic health of California.

28 (i) A Sacramento-San Joaquin Delta Conservancy can support efforts that advance
29 both environmental protection and the economic well-being of Delta residents in a
30 complementary manner, including all of the following:

31 (1) Protect and enhance habitat and habitat restoration.

32 (2) Protect and preserve Delta agriculture and working landscapes.

33 (3) Provide increased opportunities for tourism and recreation.

34 (4) Promote Delta legacy communities and economic vitality in the Delta in
35 coordination with the Delta Protection Commission.

36 (5) Increase the resilience of the Delta to the effects of natural disasters such as
37 floods and earthquakes, in coordination with the Delta Protection Commission.

38 (6) Protect and improve water quality.

39 (7) Assist the Delta regional economy through the operation of the conservancy's
40 program.

41 (8) Identify priority projects and initiatives for which funding is needed.

1 (9) Protect, conserve, and restore the region's physical, agricultural, cultural,
2 historical, and living resources.

3 (10) Assist local entities in the implementation of their habitat conservation plans
4 (HCPs) and natural community conservation plans (NCCPs).

5 (11) Facilitate take protection and safe harbor agreements under the federal
6 Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.) and the California
7 Endangered Species Act (~~Chapter 1.5 (commencing with Section 2050) of Division~~
8 ~~3 Part 1 (commencing with Section 62000) of Division 17~~ of the Fish and Game
9 Wildlife Code) for adjacent landowners and local public agencies.

10 (12) Promote environmental education.

11 **Comment.** Paragraph (11) of subdivision (i) of Section 32301 is amended to reflect the
12 recodification of the former Fish and Game Code.

13 **Pub. Res. Code § 32322 (amended).**

14 SEC. _____. Section 32322 of the Public Resources Code is amended to read:

15 32322. (a) The conservancy shall act as a primary state agency to implement
16 ecosystem restoration in the Delta.

17 (b) The conservancy shall support efforts that advance environmental protection
18 and the economic well-being of Delta residents, including all of the following:

19 (1) Protect and enhance habitat and habitat restoration.

20 (2) Protect and preserve Delta agriculture and working landscapes.

21 (3) Provide increased opportunities for tourism and recreation in the Delta.

22 (4) Promote Delta legacy communities and economic vitality in the Delta, in
23 coordination with the Delta Protection Commission.

24 (5) Increase the resilience of the Delta to the effects of natural disasters such as
25 floods and earthquakes, in coordination with the Delta Protection Commission.

26 (6) Protect and improve water quality.

27 (7) Assist the Delta regional economy through the operation of the conservancy's
28 program.

29 (8) Identify priority projects and initiatives for which funding is needed.

30 (9) Protect, conserve, and restore the region's physical, agricultural, cultural,
31 historical, and living resources.

32 (10) Assist local entities in the implementation of their habitat conservation plans
33 (HCPs) and natural community conservation plans (NCCPs).

34 (11) Facilitate take protection and safe harbor agreements under the federal
35 Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.), the California
36 Endangered Species Act (~~Chapter 1.5 (commencing with Section 2050) of Division~~
37 ~~3 Part 1 (commencing with Section 62000) of Division 17~~ of the Fish and Game
38 Wildlife Code), and the Natural Community Conservation Planning Act (~~Chapter~~
39 ~~10 (commencing with Section 2800) of Division 3 Title 2 (commencing with~~
40 ~~Section 64500) of Part 2 of Division 17~~ of the Fish and Game Wildlife Code) for
41 adjacent landowners and local public agencies.

1 (12) Promote environmental education through grant funding.

2 (c) When implementing subdivision (b), the conservancy shall undertake efforts
3 to enhance public use and enjoyment of lands owned by the public.

4 **Comment.** Paragraph (11) of subdivision (b) of Section 32322 is amended to reflect the
5 recodification of the former Fish and Game Code.

6 **Pub. Res. Code § 32526 (amended).**

7 SEC. _____. Section 32526 of the Public Resources Code is amended to read:

8 32526. The conservancy shall facilitate and coordinate the activities of its
9 employees with personnel of the Department of Parks and Recreation, the
10 Department of Fish and Game Wildlife, and local law enforcement and rescue
11 agencies.

12 **Comment.** Section 32526 is amended to update a reference to the former Department of Fish
13 and Game. See Fish & Wildlife Code § 1500.

14 **Pub. Res. Code § 33700 (amended).**

15 SEC. _____. Section 33700 of the Public Resources Code is amended to read:

16 33700. (a) As used in this chapter, “mountainous lands” means all lands,
17 irrespective of their angle of slope or other natural or manmade terrain features,
18 within the territory of the conservancy that lie above the floor of the Coachella
19 Valley, if there is no alluvial fan, or that lie above any alluvial fan extending onto
20 the valley floor, as more specifically set forth in that certain map entitled “Coachella
21 Valley Mountainous Lands Map” and dated _____, 1999, and placed on file with
22 the Secretary of State, which map is hereby incorporated in this subdivision by this
23 reference. The map described in this subdivision may be combined with, and made
24 a part of, the map described in Section 33502.

25 (b) The governing board of the conservancy may adjust the boundary delineating
26 mountainous lands within the conservancy’s territory, but not by more than 100
27 yards from the boundary mapped as specified in subdivision (a), to avoid bisecting
28 any single lot or parcel in existence on January 1, 1991, or to conform the boundary
29 to more readily identifiable natural or manmade features in existence on January 1,
30 1991, if the adjustment will not jeopardize any of the resource values specified in
31 Section 33500. Any adjustment in the boundary shall be reflected in a revision to
32 the map specified in subdivision (a), which revision shall be promptly filed with the
33 Secretary of State.

34 (c) In the event of any inconsistency between the definition of “mountainous
35 lands,” as set forth in this section, and the map described in this section, the
36 definition shall control.

37 (d) As used in this chapter, “natural community conservation lands” means all
38 lands within the territory of the conservancy, the preservation of which is necessary
39 to implement a natural community conservation plan that has been approved by the
40 Department of Fish and Game Wildlife pursuant to ~~Chapter 10 (commencing with~~

1 ~~Section 2800) of Division 3 Title 2 (commencing with Section 64500) of Part 2 of~~
2 ~~Division 17 of the Fish and Game Wildlife Code.~~

3 **Comment.** Section 33700 is amended to reflect the recodification of the former Fish and Game
4 Code. The section is also amended to update a reference to the former Department of Fish and
5 Game. See Fish & Wildlife Code § 1500.

6 **Pub. Res. Code § 33913 (amended).**

7 SEC. _____. Section 33913 of the Public Resources Code is amended to read:

8 33913. Land may be acquired by the department if the land is located in a
9 designated corridor of statewide or regional priority as determined pursuant to
10 Section 65081.3 of the Government Code. Proposals by other entities for the
11 acquisition of land by the department shall be submitted to the regional
12 transportation planning agency in whose jurisdiction the land is located for review
13 and recommended action, and be approved by the department. No proposal shall be
14 approved by the department pursuant to this section unless the regional
15 transportation planning agency, after a public hearing, finds that the range of
16 potential transportation facilities to be located on the land can be constructed in a
17 manner which will avoid or mitigate significant environmental impacts or values
18 identified in subdivisions (a), (b), and (c). The regional transportation planning
19 agency is not required to comply with the California Environmental Quality Act in
20 any manner, other than complying with the provisions of subdivision (a), in order
21 to make this finding, if it has prepared an environmental review of the corridor of
22 statewide or regional priority in which the land is located pursuant to Section
23 65081.3 of the Government Code. The regional transportation planning agency shall
24 base its finding on a consideration of each of the following:

25 (a) The information contained in the environmental impact report prepared
26 pursuant to Section 65081.3 of the Government Code and a document describing
27 the proposed land acquisition which includes the content of an initial study
28 described in subdivision (d) of Section 15063 of Title 14 of the California Code of
29 Regulations (California Environmental Quality Act Guidelines). However, the
30 study need not include greater specificity about the type or nature of the proposed
31 transportation project than has been provided in action by the governing body of the
32 project applicant agency.

33 (b) Review by the Department of Fish and Game Wildlife. The Department of
34 Fish and Game Wildlife shall make the results of its review of the proposed land
35 acquisition known to the regional transportation planning agency no later than 30
36 days after the acquisition is submitted to them by the regional transportation
37 planning agency for review, or its comments shall not be considered in the finding.

38 (c) Other information submitted to the regional transportation planning agency in
39 the public hearing or in writing regarding the proposed acquisition by the
40 department.

41 **Comment.** Section 33913 is amended to update references to the former Department of Fish and
42 Game. See Fish & Wildlife Code § 1500.

1 **Pub. Res. Code § 34001 (amended).**

2 SEC. _____. Section 34001 of the Public Resources Code is amended to read:

3 34001. (a) The Department of Fish and Game Wildlife may make grants to
4 nonprofit organizations, political subdivisions of the state, and Indian tribes to
5 cooperate with the department in salmon and steelhead rehabilitation along the north
6 coast of California.

7 (b) The Director of Fish and Game Wildlife may establish criteria for the awarding
8 of these grants to applicants who demonstrate the greatest expertise in
9 accomplishing the salmon and steelhead rehabilitation projects.

10 **Comment.** Section 34001 is amended to update a reference to the former Department of Fish
11 and Game, and a reference to the Director of that department. See Fish & Wildlife Code § 1500.
12 The section is also amended to add subdivision designations.

13 **Pub. Res. Code § 34002 (amended).**

14 SEC. _____. Section 34002 of the Public Resources Code is amended to read:

15 34002. The Department of Fish and Game Wildlife may provide nonprofit
16 organizations and Indian tribes partial funding of grants provided under Section
17 34001 or Section 3 of Chapter 344 of the Statutes of 1981, if in the opinion of the
18 department, any such organization meets all of the following requirements:

19 (a) Has a previously demonstrated record of successfully completing one or more
20 salmon or steelhead rehabilitation projects funded under the Cooperative North
21 Coast Salmon and Steelhead Restoration Project.

22 (b) Utilizes acceptable accounting procedures.

23 (c) Demonstrates that the project can be accomplished more efficiently and
24 economically and with partial funding provided before the project's completion.

25 **Comment.** Section 34002 is amended to update a reference to the former Department of Fish
26 and Game. See Fish & Wildlife Code § 1500.

27 **Pub. Res. Code § 35650 (amended)**

28 SEC. _____. Section 35650 of the Public Resources Code is amended to read:

29 35650. (a) The California Ocean Protection Trust Fund is established in the State
30 Treasury.

31 (b) Moneys deposited in the fund may be expended, upon appropriation by the
32 Legislature, for both of the following:

33 (1) Projects and activities authorized by the council consistent with Chapter 3
34 (commencing with Section 35600).

35 (2) Upon authorization by the council, for grants or loans to public agencies,
36 nonprofit corporations, or private entities for, or direct expenditures on, projects or
37 activities that do one or more of the following:

38 (A) Eliminate or reduce threats to coastal and ocean ecosystems, habitats, and
39 species.

40 (B) Improve the management of fisheries through grants or loans for the
41 development and implementation of fishery management plans pursuant to Part 1.7

1 ~~(commencing with Section 7050)~~ of Division 6 Title 3 (commencing with Section
2 12100) of Part 4 of Division 6 of the Fish and Game Wildlife Code, a part of the
3 Marine Life Management Act of 1998, that promote long-term stewardship and
4 collaboration with fishery participants to develop strategies that increase
5 environmental and economic sustainability. Eligible projects and activities include,
6 but are not limited to, innovative community-based or cooperative management and
7 allocation strategies that create incentives for ecosystem improvement. Eligible
8 expenditures include, but are not limited to, costs related to activities identified in
9 subdivisions (a), (b), and (d) of Section ~~7075~~ 12400 of the Fish and Game Wildlife
10 Code, fishery research, monitoring, data collection and analysis to support adaptive
11 management, and other costs related to the development and implementation of a
12 fishery management plan developed pursuant to this subparagraph.

13 (C) Foster sustainable fisheries, including grants or loans for one or more of the
14 following:

15 (i) Projects that encourage the development and use of more selective fishing gear.

16 (ii) The design of community-based or cooperative management mechanisms that
17 promote long-term stewardship and collaboration with fishery participants to
18 develop strategies that increase environmental and economic sustainability.

19 (iii) Collaborative research and demonstration projects between fishery
20 participants, scientists, and other interested parties.

21 (iv) Promotion of value-added wild fisheries to offset economic losses attributable
22 to reduced fishing opportunities.

23 (v) The creation of revolving loan programs for the purpose of implementing
24 sustainable fishery projects.

25 (D) Improve coastal water quality.

26 (E) Allow for increased public access to, and enjoyment of, ocean and coastal
27 resources, consistent with sustainable, long-term protection and conservation of
28 those resources.

29 (F) Improve management, conservation, and protection of coastal waters and
30 ocean ecosystems.

31 (G) Provide monitoring and scientific data to improve state efforts to protect and
32 conserve ocean resources.

33 (H) Protect, conserve, and restore coastal waters and ocean ecosystems, including
34 any of the following:

35 (i) Acquisition, installation, and initiation of monitoring and enforcement
36 systems.

37 (ii) Acquisition from willing sellers of vessels, equipment, licenses, harvest rights,
38 permits, and other rights and property, to reduce threats to ocean ecosystems and
39 resources.

40 (I) Address coastal water contamination from biological pathogens, including
41 collaborative projects and activities to identify the sources of pathogens and develop
42 detection systems and treatment methods.

1 (J)(i) Provide funding for adaptive management, planning, coordination,
2 monitoring, research, and other necessary activities to minimize the adverse impacts
3 of climate change on California's ocean ecosystem, including, but not limited to,
4 the effects of sea level rise, changes in ocean productivity, and ocean acidification
5 on coastal and ocean habitat, wildlife, fisheries, chemistry, and other key attributes
6 of ocean ecosystems and to increase the state's understanding of the ocean's role in
7 carbon sequestration. Adaptive management strategies, planning, research,
8 monitoring, or other activities shall be designed to improve the management of
9 coastal and ocean resources or aid the state to adapt to climate change impacts.

10 (ii) Information or activities developed under clause (i), to the extent appropriate,
11 shall provide guidance to the State Air Resources Board for the adoption of early
12 action measures for the elimination or reduction of emissions from sources or
13 categories of sources pursuant to the California Global Warming Solutions Act of
14 2006 (Division 25.5 (commencing with Section 38500) of the Health and Safety
15 Code).

16 (c) Grants or loans may be made to a private entity pursuant to this section only
17 for projects or activities that further public purposes consistent with Sections 35510,
18 35515, 35617, and 35632.

19 (d) Consistent with the purposes specified in Section 35515, and in furtherance of
20 the findings in Sections ~~7059 and 7060~~ 12165 and 12200 of the Fish and Game
21 Wildlife Code, the council, in authorizing grants or loans for projects or
22 expenditures pursuant to this section, shall promote coordination of state programs
23 and activities that protect and conserve ocean resources to avoid redundancy and
24 conflicts to ensure that the state's programs and activities are complementary.

25 **Comment.** Section 35650 is amended to reflect the recodification of the former Fish and Game
26 Code.

27 **Pub. Res. Code § 36602 (amended).**

28 SEC. _____. Section 36602 of the Public Resources Code is amended to read:
29 36602. The following definitions govern the construction of this chapter:

30 (a) "Committee" is the State Interagency Coordinating Committee established
31 pursuant to Section 36800.

32 (b) "Designating entity" is the Fish and Game Commission, State Park and
33 Recreation Commission, or State Water Resources Control Board, each of which
34 has the authority to designate specified state marine managed areas.

35 (c) "Managing agency" is the Department of Fish and Game Wildlife or the
36 Department of Parks and Recreation, each of which has the authority to manage
37 specified state marine managed areas.

38 (d) "Marine managed area" (MMA) is a named, discrete geographic marine or
39 estuarine area along the California coast designated by law or administrative action,
40 and intended to protect, conserve, or otherwise manage a variety of resources and
41 their uses. The resources and uses may include, but are not limited to, living marine

resources and their habitats, scenic views, water quality, recreational values, and cultural or geological resources. General areas that are administratively established for recreational or commercial fishing restrictions, such as seasonal or geographic closures or size limits, are not included in this definition. MMAs include the following classifications:

(1) State marine reserve, as defined in subdivision (a) of Section 36700.

(2) State marine park, as defined in subdivision (b) of Section 36700.

(3) State marine conservation area, as defined in subdivision (c) of Section 36700.

(4) State marine cultural preservation area, as defined in subdivision (d) of Section 36700.

(5) State marine recreational management area, as defined in subdivision (e) of Section 36700.

(6) State water quality protection areas, as defined in subdivision (f) of Section 36700.

(e) “Marine protected area” (MPA), consistent with the Marine Life Protection Act (~~Chapter 10.5 (commencing with Section 2850) of Division 3 Part 2 (commencing with Section 60400) of Division 16~~ of the Fish and Game Wildlife Code) is a named, discrete geographic marine or estuarine area seaward of the mean high tide line or the mouth of a coastal river, including any area of intertidal or subtidal terrain, together with its overlying water and associated flora and fauna that has been designated by law or administrative action to protect or conserve marine life and habitat. MPAs are primarily intended to protect or conserve marine life and habitat, and are therefore a subset of marine managed areas (MMAs). MPAs include the following classifications:

(1) State marine reserve, as defined in subdivision (a) of Section 36700.

(2) State marine park, as defined in subdivision (b) of Section 36700.

(3) State marine conservation area, as defined in subdivision (c) of Section 36700.

Comment. Subdivision (e) of Section 36602 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 36725 (amended).

SEC. _____. Section 36725 of the Public Resources Code is amended to read:

36725. (a) The Fish and Game Commission may designate, delete, or modify state marine recreational management areas established by the commission for hunting purposes, state marine reserves, and state marine conservation areas. The Fish and Game Commission shall consult with, and secure concurrence from, the State Parks and Recreation Commission prior to modifying or deleting state marine reserves and state marine conservation areas designated by the State Parks and Recreation Commission. The Fish and Game Commission shall not delete or modify state marine recreational management areas designated by the State Parks and Recreation Commission.

(b) The State Parks and Recreation Commission may designate, delete, or modify state marine reserves, state marine parks, state marine conservation areas, state marine cultural preservation areas, and state marine recreational management areas. The State Parks and Recreation Commission may not designate, delete, or modify a state marine reserve, state marine park, or state marine conservation area without the concurrence of the Fish and Game Commission on any proposed restrictions upon, or change in, the use of living marine resources.

(c) If an unresolved conflict exists between the Fish and Game Commission and the State Parks and Recreation Commission regarding a state marine reserve, state marine park, or state marine conservation area, the Secretary of the Resources Agency may reconcile the conflict.

(d) The State Water Resources Control Board may designate, delete, or modify state water quality protection areas.

(e) The Fish and Game Commission, State Parks and Recreation Commission, and State Water Resources Control Board each may restrict or prohibit recreational uses and other human activities in the MMAs for the benefit of the resources therein, except in the case of restrictions on the use of living marine resources. Pursuant to this section, and consistent with Section 2860 60450 of the Fish and Game Wildlife Code, the Fish and Game Commission may regulate commercial and recreational fishing and any other taking of marine species in MMAs.

(f)(1) The Department of Fish and Game Wildlife may manage state marine reserves, state marine conservation areas, state marine recreational management areas established for hunting purposes and, if requested by the State Water Resources Control Board, state water quality protection areas.

(2) The Department of Parks and Recreation may manage state marine reserves, state marine parks, state marine conservation areas, state marine cultural preservation areas, and state marine recreational management areas. Department authority over units within the state park system shall extend to units of the state MMAs system that are managed by the department.

(3) The State Water Resources Control Board and the California regional water quality control boards may take appropriate actions to protect state water quality protection areas. The State Water Resources Control Board may request the Department of Fish and Game Wildlife or the Department of Parks and Recreation to take appropriate management action.

Comment. Subdivision (e) of Section 36725 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 36750 (amended).

SEC. _____. Section 36750 of the Public Resources Code is amended to read:

36750. Any MMA in existence on January 1, 2002, that has not been reclassified in accordance with the Marine Life Protection Act (~~Chapter 10.5 (commencing with Section 2850)~~ of Division 3 Part 2 (commencing with Section 60400) of Division

1 16 of the Fish and Game Wildlife Code), shall be reclassified under the
2 classification system described in Section 36700 by January 1, 2003, based upon
3 the management purpose and level of resource protection at each site on January 1,
4 2002. Upon the reclassification of existing sites, but no later than January 1, 2003,
5 the use of all other classifications shall cease for the marine and estuarine
6 environments of the state, though the classifications may continue to be used for the
7 terrestrial and freshwater environments where applicable. The reclassification
8 process shall be the responsibility of the State Interagency Coordinating Committee
9 established pursuant to Section 36800, and shall occur to the extent feasible in
10 conjunction and consistent with the MMA master planning process created pursuant
11 to the Marine Life Protection Act (~~Chapter 10.5 (commencing with Section 2850)~~
12 ~~of Division 3 Part 2 (commencing with Section 60400)~~ of Division 16 of the Fish
13 and Game Wildlife Code).

14 **Comment.** Section 36750 is amended to reflect the recodification of the former Fish and Game
15 Code.

16 **Pub. Res. Code § 36800 (amended).**

17 SEC. _____. Section 36800 of the Public Resources Code is amended to read:
18 36800. The Secretary of the Resources Agency shall establish and chair the State
19 Interagency Coordinating Committee, whose members are representatives from
20 those state agencies, departments, boards, commissions, and conservancies with
21 jurisdiction or management interests over marine managed areas, including, but not
22 limited to, the Department of Fish and Game Wildlife, Department of Parks and
23 Recreation, California Coastal Commission, State Water Resources Control Board,
24 and State Lands Commission. The Secretary of the Resources Agency shall
25 designate additional members of the committee. The committee shall review
26 proposals for new or amended MMAs to ensure that the minimum required
27 information is included in the proposal, to determine those state agencies that should
28 review the proposal, and to ensure consistency with other such designations in the
29 state. The committee shall also serve to ensure the proper and timely routing of site
30 proposals, review any proposed site-specific regulations for consistency with the
31 state system as a whole, and conduct periodic reviews of the statewide system to
32 evaluate whether it is meeting the mission and statement of objectives.

33 **Comment.** Section 36800 is amended to update a reference to the former Department of Fish
34 and Game. See Fish & Wildlife Code § 1500.

35 **Pub. Res. Code § 36900 (amended).**

36 SEC. _____. Section 36900 of the Public Resources Code is amended to read:
37 36900. Individuals or organizations may submit a proposal to designate an MMA
38 directly through the committee or an appropriate designating entity. Proposals
39 submitted to a designating entity shall be forwarded to the committee to initiate the
40 review process. Proposals for designating, deleting, or modifying MMAs may be
41 submitted to the committee or a designating entity at any time. The committee and

1 scientific review panel established pursuant to subdivision (b) shall annually
2 consider and promptly act upon proposals until an MPA master plan is adopted
3 pursuant to ~~subdivision (b) of Section 2859 subdivisions (b) and (c) of Section~~
4 60520 of the Fish and Game Wildlife Code, and thereafter, no less than once every
5 three years. Upon adoption of a statewide MPA plan, subsequent site proposals
6 determined by the committee to be consistent with that plan shall be eligible for a
7 simplified and cursory review of not more than 45 days.

8 (a) The committee shall review proposals to ensure that the minimum required
9 information is included in the proposal, to determine those state agencies that should
10 review the proposal, and to ensure consistency with other designations of that type
11 in the state. After initial review by the coordinating committee and appropriate
12 agencies, the proposal shall be forwarded to a scientific review panel established
13 pursuant to subdivision (b).

14 (b) The Secretary of the Resources Agency shall establish a scientific review
15 panel, with statewide representation and direction from the committee, to evaluate
16 proposals for technical and scientific validity, including consideration of such things
17 as site design criteria, location, and size. This panel, to the extent practical, shall be
18 the same as the master plan team used in the process set forth in the Marine Life
19 Protection Act (~~Chapter 10.5 (commencing with Section 2850) of Division 3 Part 2~~
20 (commencing with Section 60400) of Division 16 of the Fish and Game Wildlife
21 Code). Members shall maintain familiarity with the types and effectiveness of
22 MMAs used in other parts of the world for potential application to California.
23 Members shall be reimbursed reasonable costs to participate in the activities of the
24 panel. Where feasible, advice shall be sought from the appropriate federal agencies
25 and existing regional or statewide marine research panels and advisory groups. After
26 review by the scientific review panel, the committee shall forward the proposal and
27 any recommendations to the appropriate designating entity for a public review
28 process.

29 (c) Designating entities shall establish a process that provides for public review
30 and comment in writing and through workshops or hearings, consistent with the
31 legal mandates applicable to designating entities. All input provided by the
32 committee and scientific review panel shall be made available to the public during
33 this process. Outreach shall be made to the broadest ocean and coastal constituency
34 possible, and shall include commercial and sport fishing groups, conservation
35 organizations, waterfowl groups and other recreational interests, academia, the
36 general public, and all levels of government.

37 (d) This process does not replace the need to obtain the appropriate permits or
38 reviews of other government agencies with jurisdiction or permitting authority.

39 (e) Nothing in this section shall be construed as altering or impeding the process
40 identified under the Marine Life Protection Act (~~Chapter 10.5 (commencing with~~
41 Section 2850) of Division 3 Part 2 (commencing with Section 60400) of Division

1 16 of the Fish and Game Wildlife Code) or the actions of the master plan team
2 described in that act.

3 **Comment.** Section 36900 is amended to reflect the recodification of the former Fish and Game
4 Code.

5 **Pub. Res. Code § 37002 (amended).**

6 SEC. _____. Section 37002 of the Public Resources Code is amended to read:

7 37002. As used in this division, the following terms have the following meanings:

8 (a) “Approval” or “approval for acceptance” means the board’s approval of the
9 granting of a tax credit for a donation of property pursuant to the program.

10 (b) “Board” means the Wildlife Conservation Board created pursuant to Article 2
11 (commencing with Section 1320) of Chapter 4 of Division 2 Article 1 (commencing
12 with Section 54750) of Chapter 2 of Title 1 of Part 2 of Division 15 of the Fish and
13 Game Wildlife Code.

14 (c) “Conservation easement” means a conservation easement, as defined by
15 Section 815.1 of the Civil Code, that is contributed in perpetuity.

16 (d) “Department” means any entity created by statute within the Natural
17 Resources Agency and authorized to hold title to land, or the Natural Resources
18 Agency.

19 (e)(1) “Designated nonprofit organization” means a nonprofit organization
20 qualified under Section 501(c)(3) of Title 26 of the United States Code that has as a
21 principal purpose the conservation of land and water resources and that is designated
22 by a local government or a department to accept property pursuant to this division
23 in lieu of the local government or a department. In order to be eligible to receive a
24 donation of property pursuant to this division, a nonprofit organization shall have
25 experience in land conservation.

26 (2) If bond funds are used pursuant to Chapter 7 (commencing with Section
27 37030), the designated nonprofit organization shall also meet the eligibility
28 requirements specified in the relevant provision of the applicable bond act, for a
29 nonprofit organization.

30 (f) “Donee” means any of the following:

31 (1) A department to which a donor has applied to donate property.

32 (2) A local government that has submitted a joint application with a department
33 requesting approval of a donation of property to that local government.

34 (3) A local government that has submitted an application directly to the board.

35 (4) A designated nonprofit organization.

36 (g) “Donor” means a property owner that donates, or submits an application to
37 donate, property pursuant to the program.

38 (h)(1) “Local government” means any city, county, city and county, or any
39 district, as defined in Section 5902 or in Division 26 (commencing with Section
40 35100), or any joint powers authority made up of one or more of those entities or
41 those entities and departments.

(2) If bond funds are used pursuant to Chapter 7 (commencing with Section 37030), “local government” also includes any other local governmental entity eligible to receive bond funds pursuant to the relevant provision of the applicable bond act.

(i) “Program” means the Natural Heritage Preservation Tax Credit Program authorized by this division.

(j) “Property” means any real property, and any perpetual interest therein, including land, conservation easements, and land containing water rights, as well as water rights.

(k) “Secretary” means the Secretary of the Natural Resources Agency.

Comment. Subdivision (b) of Section 37002 is amended to reflect the recodification of the former Fish and Game Code.

Pub. Res. Code § 37014 (amended).

SEC. _____. Section 37014 of the Public Resources Code is amended to read:

37014. Assets received by a donee pursuant to this division shall not be deemed transfers pursuant to ~~Chapter 9 (commencing with Section 2780) of Division 3 Title 5 (commencing with Section 55800) of Part 2 of Division 15~~ of the Fish and Game Wildlife Code. Funds from the Habitat Conservation Fund, the Environmental Enhancement and Mitigation Program Fund created pursuant to Section 164.56 of the Streets and Highways Code, the State Parks and Recreation Fund, and the Wildlife Restoration Fund, may not be used to fund the tax credit authorized pursuant to this division.

Comment. Section 37014 is amended to reflect the recodification of the former Fish and Game Code.

Pub. Res. Code § 37015 (amended).

SEC. _____. Section 37015 of the Public Resources Code is amended to read:

37015. The board shall approve only contributions of properties that meet one or more of the following criteria:

(a) The property will help meet the goals of a habitat conservation plan, multispecies conservation plan, natural community conservation plan, or any other similar plan subsequently authorized by statute that is designed to benefit native species of plants, including, but not limited to, protecting forests, old growth trees, or oak woodlands, and animals and development. In proposing and approving the acceptance of contributed property pursuant to this subdivision, the recovery benefits for listed species, the habitat value of the property, the value of the property as a wildlife corridor, and similar habitat-related considerations shall be the criteria on which the acceptance is based.

(b) The property will provide corridors or reserves for native plants and wildlife that will help improve the recovery possibilities of listed species and increase the chances that the species will recover sufficiently to be eligible to be removed from the list, or will help avoid the listing of species pursuant to the California

1 Endangered Species Act (~~Chapter 1.5 (commencing with Section 2050)~~ of Division
2 ~~3 Part 1 (commencing with Section 62000)~~ of Division 17 of the Fish and Game
3 Wildlife Code) or the federal Endangered Species Act (16 U.S.C. Sec. 1531 et seq.),
4 or protect wetlands, waterfowl habitat, or river or stream corridors, or promote the
5 biological viability of important California species.

6 (c) The property interest is a perpetual conservation easement over agricultural
7 land, or is a permanent contribution of agricultural land, that is threatened by
8 development and is located in an unincorporated area certified by the secretary to
9 be zoned for agricultural use by the county. Property accepted pursuant to this
10 subdivision shall be accepted pursuant to the California Farmland Conservancy
11 Program Act established by Division 10.2 (commencing with Section 10200),
12 pursuant to the agricultural conservation program of the Coastal Conservancy, or
13 pursuant to the Bay Area Conservancy Program established pursuant to Chapter 4.5
14 (commencing with Section 31160) of Division 21.

15 (d)(1) The property interest is a water right, or land with an associated water right,
16 and the contribution of the property will help improve the chances of recovery of a
17 listed species, will reduce the likelihood that any species of fish or other aquatic
18 organism will be listed pursuant to the California Endangered Species Act (~~Chapter~~
19 ~~1.5 (commencing with Section 2050)~~ of Division 3 ~~Part 1 (commencing with~~
20 ~~Section 62000)~~ of Division 17 of the Fish and Game Wildlife Code) or the federal
21 Endangered Species Act (16 U.S.C. Sec. 1531 et seq.), will improve the protection
22 of listed species, or will improve the viability and health of fish species of economic
23 importance to the state. The donee receiving the water right, or land with an
24 associated water right, shall ensure that it shall retain title to the water right, and that
25 the water shall be used to fulfill the purposes for which the water right or land
26 associated with a water right is being accepted.

27 (2) Any contribution of a water right that includes a change in the point of
28 diversion, place of use, or purpose of use may be made only if the proposed change
29 will not injure any legal user of the water involved and is made in accordance with
30 either Chapter 10 (commencing with Section 1700), or Chapter 10.5 (commencing
31 with Section 1725), of Part 2 of Division 2 of the Water Code.

32 (e) The property will be used as a park or open space or will augment public access
33 to or enjoyment of existing regional or local park, beach, or open-space facilities, or
34 will preserve archaeological resources.

35 **Comment.** Section 37015 is amended to reflect the recodification of the former Fish and Game
36 Code.

37 **Pub. Res. Code § 71550 (amended).**

38 SEC. _____. Section 71550 of the Public Resources Code is amended to read:

39 71550. (a) The members of the board first appointed shall serve as incorporators
40 of the endowment and shall take whatever actions are necessary to establish the
41 endowment pursuant to the Nonprofit Public Benefit Corporation Law (Part 2

(commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code) once a majority of the board is appointed.

(b) It is the intent of the Legislature that the endowment not be incorporated until the endowment board has received its initial notice of application from the Department of Fish and Game Wildlife, pursuant to Section ~~6610~~ 67100 of the Fish and Game Wildlife Code.

Comment. Section 71550 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 71551 (amended).

SEC. _____. Section 71551 of the Public Resources Code is amended to read:

71551. The California Endowment for Marine Preservation shall receive funds generated pursuant to the California Marine Resources Legacy Act (Article ~~2~~ (commencing with Section 6420) of Chapter 5 of Part 1 of Division 6 Title 3 (commencing with Section 25600) of Part 3 of Division 7 of the Fish and Game Wildlife Code).

Comment. Section 71551 is amended to reflect the recodification of the former Fish and Game Code.

Pub. Res. Code § 71556 (amended).

SEC. _____. Section 71556 of the Public Resources Code is amended to read:

71556. The endowment shall coordinate its activities with the Department of Fish and Game Wildlife, the California Coastal Commission, the San Francisco Bay Conservation and Development Commission, the State Lands Commission, and appropriate federal agencies, including the National Marine Fisheries Service and the Minerals Management Service of the United States Department of the Interior. Nothing in this division limits the authority and responsibility of any of these agencies.

Comment. Section 71556 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Pub. Res. Code § 71560 (amended).

SEC. _____. Section 71560 of the Public Resources Code is amended to read:

71560. (a) The endowment may receive charitable contributions or any sources of income that may be lawfully received, including loans from the state.

(b) The endowment shall administer any funds it receives in accordance with this division.

(c)(1) Except as provided in paragraph (2), the endowment shall invest and manage any funds it receives so that the investments shall provide a source of income in perpetuity and the principal amount consisting of charitable contributions and donations, including cost savings donated pursuant to Section ~~6618~~ 67265 of the Fish and Game Wildlife Code, shall not be spent. Any returns on investments

1 made by the endowment are the only funds that shall be available for expenditure
2 by the endowment.

3 (2) Ten percent of any funds received by the endowment pursuant to Section 6618
4 67265 of the Fish and Game Wildlife Code in a calendar year shall be allocated by
5 the endowment board, pursuant to Section 71552, as grants for projects or programs
6 consistent with the purpose of this chapter within 24 months of receipt of the funds.
7 The majority of these funds shall be granted to state agencies engaged in coastal and
8 ocean protection.

9 (d) The endowment shall invest and manage any funds it receives in accordance
10 with the Nonprofit Public Benefit Corporation Law (Part 2 (commencing with
11 Section 5110) of Division 2 of Title 1 of the Corporations Code).

12 (e) The accounts of the endowment shall be audited annually in accordance with
13 generally accepted auditing standards by independent certified public accountants.

14 (f) The financial transactions of the endowment for any fiscal year may be audited
15 by the California State Auditor's Office.

16 (g) Each recipient of assistance by grant, contract, or loan pursuant to this division
17 shall keep records reasonably necessary to disclose fully the amount of the
18 assistance, the disposition of the assistance, the total cost of the project or
19 undertaking in connection with which the assistance is given or used, the amount
20 and nature of that portion of the cost of the project or undertaking supplied by other
21 sources, and other records that will facilitate an effective audit. Each recipient of a
22 fixed price contract awarded pursuant to competitive bidding procedures is exempt
23 from this subdivision.

24 (h) The endowment, or its authorized representative, and the California State
25 Auditor's Office shall have access to any records necessary for the purpose of
26 auditing and examining all funds received or expended by the recipients of
27 assistance.

28 **Comment.** Subdivision (c) of Section 71560 is amended to reflect the recodification of the
29 former Fish and Game Code.

30 **Pub. Res. Code § 72421 (amended).**

31 SEC. ____ . Section 72421 of the Public Resources Code is amended to read:

32 72421. (a) The owner or operator shall notify the California Emergency
33 Management Agency immediately, but not longer than 30 minutes, after discovery
34 of any of the following:

35 (1) A large passenger vessel release of graywater into the marine waters of the
36 state or a marine sanctuary.

37 (2) A large passenger vessel release of sewage into the marine waters of the state
38 or a marine sanctuary.

39 (3) A large passenger vessel or oceangoing ship release of hazardous waste, other
40 waste, sewage sludge, or oily bilgewater into the marine waters of the state or a
41 marine sanctuary.

1 (4) An oceangoing ship with sufficient holding tank capacity release of sewage or
2 graywater into the marine waters of the state or a marine sanctuary.

3 (b) The owner or operator shall include all of the following in the notification
4 required pursuant to subdivision (a):

5 (1) Date of the release.

6 (2) Time of the release.

7 (3) Location, by latitude and longitude, of the release.

8 (4) Volume of the release.

9 (5) Source of the release.

10 (6) Remedial action taken to prevent future releases.

11 (c) The California Emergency Management Agency shall transmit the notification
12 required by subdivision (a) to the board and the Department of Fish and Game
13 Wildlife immediately, but not longer than 30 minutes, after receiving the
14 notification.

15 **Comment.** Section 72421 is amended to update a reference to the former Department of Fish
16 and Game. See Fish & Wildlife Code § 1500.

17 **Pub. Res. Code § 72430 (amended).**

18 SEC. _____. Section 72430 of the Public Resources Code is amended to read:

19 72430. (a) A person who violates Section 72420 or 72420.2 is subject to a civil
20 penalty of not more than twenty-five thousand dollars (\$25,000) for each violation.

21 (b) The civil penalty imposed for each separate violation pursuant to this section
22 is separate from, and in addition to, any other civil penalty imposed for a separate
23 violation pursuant to this section or any other provision of law.

24 (c) In determining the amount of a civil penalty imposed pursuant to this section,
25 the court shall take into consideration all relevant circumstances, including, but not
26 limited to, the nature, circumstance, extent, and gravity of the violation. In making
27 this determination, the court shall consider the degree of toxicity and volume of the
28 release, the extent of harm caused by the violation, whether the effects of the
29 violation may be reversed or mitigated, and with respect to the defendant, the ability
30 to pay, the effect of a civil penalty on the ability to continue in business, all voluntary
31 cleanup efforts undertaken, the prior history of violations, the gravity of the
32 behavior, the economic benefit, if any, resulting from the violation, and all other
33 matters the court determines justice may require.

34 (d)(1) A civil action brought under this section may only be brought in accordance
35 with this subdivision. That civil action may be brought by the Attorney General
36 upon complaint or request by the Department of Fish and Game Wildlife or the
37 appropriate California regional water quality control board, or by a district attorney
38 or city attorney.

39 (2) Notwithstanding Section 13223 of the Water Code, a regional water quality
40 control board may delegate to its executive officer authority to request the Attorney
41 General for judicial enforcement under this section.

1 (3) If a district attorney or city attorney brings an action under this section, the
2 action shall be in the name of the people of the State of California.

3 (4) An action relating to the same violation may be joined or consolidated.

4 **Comment.** Section 72430 is amended to update a reference to the former Department of Fish
5 and Game. See Fish & Wildlife Code § 1500.

6 **Pub. Res. Code § 75050 (amended).**

7 SEC. _____. Section 75050 of the Public Resources Code is amended to read:

8 75050. The sum of nine hundred twenty eight million dollars (\$928,000,000) shall
9 be available for the protection and restoration of rivers, lakes and streams, their
10 watersheds and associated land, water, and other natural resources in accordance
11 with the following schedule:

12 (a) The sum of one hundred eighty million dollars (\$180,000,000) shall be
13 available to the Department of Fish and Game Wildlife, in consultation with the
14 department, for Bay-Delta and coastal fishery restoration projects. Of the funds
15 provided in this section, up to \$20,000,000 shall be available for the development
16 of a natural community conservation plan for the CALFED Bay-Delta Program and
17 up to \$45,000,000 shall be available for coastal salmon and steelhead fishery
18 restoration projects that support the development and implementation of species
19 recovery plans and strategies for salmonid species listed as threatened or endangered
20 under state or federal law.

21 (b) The sum of ninety million dollars (\$90,000,000) shall be available for projects
22 related to the Colorado River in accordance with the following schedule:

23 (1) Not more than \$36,000,000 shall be available to the department for water
24 conservation projects that implement the Allocation Agreement as defined in the
25 Quantification Settlement Agreement.

26 (2) Not more than \$7,000,000 shall be available to the Department of Fish and
27 Game Wildlife for projects to implement the Lower Colorado River Multi-Species
28 Habitat Conservation Plan.

29 (3) \$47,000,000 shall be available for deposit into the Salton Sea Restoration
30 Fund.

31 (c) The sum of fifty four million dollars (\$54,000,000) shall be available to the
32 department for development, rehabilitation, acquisition, and restoration costs
33 related to providing public access to recreation and fish and wildlife resources in
34 connection with state water project obligations pursuant to Water Code Section
35 11912.

36 (d) The sum of seventy two million dollars (\$72,000,000) shall be available to the
37 secretary for projects in accordance with the California River Parkways Act of 2004
38 Chapter 3.8 (commencing with Section 5750) of Division 5. Up to \$10,000,000 may
39 be transferred to the Department of Conservation for the Watershed Coordinator
40 Grant Program.

1 (e) The sum of eighteen million dollars (\$18,000,000) shall be available to the
2 department for the Urban Streams Restoration Program pursuant to Water Code
3 Section 7048.

4 (f) The sum of thirty six million dollars (\$36,000,000) shall be available for river
5 parkway projects to the San Joaquin River Conservancy.

6 (g) The sum of seventy two million dollars (\$72,000,000) shall be available for
7 projects within the watersheds of the Los Angeles and San Gabriel Rivers according
8 to the following schedule:

9 (1) \$36,000,000 to the San Gabriel and Lower Los Angeles Rivers and Mountains
10 Conservancy pursuant to Division 22.8 (commencing with Section 32600).

11 (2) \$36,000,000 to the Santa Monica Mountains Conservancy for implementation
12 of watershed protection activities throughout the watershed of the Upper Los
13 Angeles River pursuant to Section 79508 of the Water Code.

14 (h) The sum of thirty six million dollars (\$36,000,000) shall be available for the
15 Coachella Valley Mountains Conservancy.

16 (i) The sum of forty five million dollars (\$45,000,000) shall be available for
17 projects to expand and improve the Santa Ana River Parkway. Project funding shall
18 be appropriated to the State Coastal Conservancy for projects developed in
19 consultation with local government agencies participating in the development of the
20 Santa Ana River Parkway. Of the amount provided in this paragraph the sum of
21 thirty million dollars (\$30,000,000) shall be equally divided between projects in
22 Orange, San Bernardino and Riverside Counties.

23 (j) The sum of fifty four million dollars (\$54,000,000) shall be available for the
24 Sierra Nevada Conservancy.

25 (k) The sum of thirty six million dollars (\$36,000,000) shall be available for the
26 California Tahoe Conservancy.

27 (l) The sum of forty five million dollars (\$45,000,000) shall be available to the
28 California Conservation Corps for resource conservation and restoration projects
29 and for facilities acquisition, development, restoration, and rehabilitation and for
30 grants and state administrative costs, in accordance with the following schedule:

31 (1) The sum of twenty five million dollars (\$25,000,000) shall be available for
32 projects to improve public safety and improve and restore watersheds including
33 regional and community fuel load reduction projects on public lands, and stream
34 and river restoration projects. Not less than 50% of these funds shall be in the form
35 of grants to local conservation corps.

36 (2) The sum of twenty million dollars (\$20,000,000) shall be available for grants
37 to local conservation corps for acquisition and development of facilities to support
38 local conservation corps programs, and for local resource conservation activities.

39 (m) The sum of ninety million dollars (\$90,000,000) to the state board for
40 matching grants to local public agencies for the reduction and prevention of
41 stormwater contamination of rivers, lakes, and streams. The Legislature may enact
42 legislation to implement this subdivision.

(n) The sum of one hundred million dollars (\$100,000,000) shall be available to the secretary for the purpose of implementing a court settlement to restore flows and naturally-reproducing and self-sustaining populations of salmon to the San Joaquin River between Friant Dam and the Merced River. These funds shall be available for channel and structural improvements, and related research pursuant to the court settlement. The secretary is authorized to enter into a cost-sharing agreement with the United States Secretary of the Interior and other parties, as necessary, to implement this provision.

Comment. Section 75050 is amended to update references to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

 **Note.** Section 75050 was added to the Public Resources Code in 2006 by an initiative statute, Proposition 84. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 75055 (amended).

SEC. _____. Section 75055 of the Public Resources Code is amended to read:

75055. The sum of four hundred fifty million dollars (\$450,000,000) shall be available for the protection and conservation of forests and wildlife habitat according to the following schedule:

(a) Notwithstanding Section 13340 of the Government Code, the sum of one hundred eighty million dollars (\$180,000,000) is continuously appropriated to the board for forest conservation and protection projects. The goal of this grant program is to promote the ecological integrity and economic stability of California's diverse native forests for all their public benefits through forest conservation, preservation and restoration of productive managed forest lands, forest reserve areas, redwood forests and other forest types, including the conservation of water resources and natural habitats for native fish, wildlife and plants found on these lands.

(b)(1) Notwithstanding Section 13340 of the Government Code, the sum of one hundred thirty five million dollars (\$135,000,000) is hereby continuously appropriated to the board for the development, rehabilitation, restoration, acquisition and protection of habitat that accomplishes one or more of the following objectives:

- (A) Promotes the recovery of threatened and endangered species.
- (B) Provides corridors linking separate habitat areas to prevent fragmentation.
- (C) Protects significant natural landscapes and ecosystems such as old growth redwoods, mixed conifer forests and oak woodlands, riparian and wetland areas, and other significant habitat areas.

(D) Implements the recommendations of California Comprehensive Wildlife Strategy, as submitted October 2005 to the United States Fish and Wildlife Service.

(2) Funds authorized by this subdivision may be used for direct expenditures or for grants and for related state administrative costs, pursuant to the Wildlife Conservation Law of 1947, Chapter 4 (commencing with Section 1300) of Division

~~2 Title 1 (commencing with Section 54700) of Part 2 of Division 15 of the Fish and Game Wildlife Code, the Oak Woodland Conservation Act, Article 3.5 (commencing with Section 1360) of Chapter 4 of Division 2 Chapter 3 (commencing with Section 54900) of Title 1 of Part 2 of Division 15 of the Fish and Game Wildlife Code, and the California Rangeland, Grazing Land and Grassland Protection Act, commencing with Section 10330 of Division 10.4. Funds scheduled in this subdivision may be used to prepare management plans for properties acquired by the Wildlife Conservation Board and for the development of scientific data, habitat mapping and other research information necessary to determine the priorities for restoration and acquisition statewide.~~

(3) Up to twenty five million dollars (\$25,000,000) may be granted to the University of California for the Natural Reserve System for matching grants for land acquisition and for the construction and development of facilities that will be used for research and training to improve the management of natural lands and the preservation of California's wildlife resources.

(c) The sum of ninety million dollars (\$90,000,000) shall be available to the board for grants to implement or assist in the establishment of Natural Community Conservation Plans, ~~Chapter 10 (commencing with Section 2800) of Division 3 Title 2 (commencing with Section 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code.~~

(d) The sum of forty five million dollars (\$45,000,000) shall be available for the protection of ranches, farms, and oak woodlands according the following schedule:

(1) Grazing land protection pursuant to the California Rangeland, Grazing Land and Grassland Protection Act, commencing with Section 10330 of Division 10.4 . . . \$15,000,000.

(2) Oak Woodland Preservation pursuant to ~~Article 3.5 (commencing with Section 1360) of Chapter 4 of Division 2 Chapter 3 (commencing with Section 54900) of Title 1 of Part 2 of Division 15 of the Fish and Game Wildlife Code . . . \$15,000,000.~~

(3) Agricultural land preservation pursuant to the California Farmland Conservancy Program Act of 1995, Article 1 (commencing with Section 10200) of Division 10.2 . . . \$10,000,000.

(4) To the board for grants to assist farmers in integrating agricultural activities with ecosystem restoration and wildlife protection . . . \$5,000,000.

Comment. Section 75055 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 75055 was added to the Public Resources Code in 2006 by an initiative statute, Proposition 84. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Pub. Res. Code § 75077 (amended).

SEC. _____. Section 75077 of the Public Resources Code is amended to read:

1 75077. Funds provided pursuant to this division, and any appropriation or transfer
2 of those funds, shall not be deemed to be a transfer of funds for the purposes of
3 Chapter 9 (commencing with Section 2780) of Division 3 Title 5 (commencing with
4 Section 55800) of Part 2 of Division 15 of the Fish and Game Wildlife Code.

5 **Comment.** Section 75077 is amended to reflect the recodification of the former Fish and Game
6 Code.

7 **Pub. Res. Code § 75101 (amended).**

8 SEC. _____. Section 75101 of the Public Resources Code is amended to read:

9 75101. (a)(1) Costs subsequently recovered from a party responsible for the
10 contamination pursuant to Section 75025 shall be repaid to the state board and
11 deposited in the Groundwater Contamination Cleanup Project Fund, which is hereby
12 created in the State Treasury. Costs recovered shall be separately accounted for
13 within the Groundwater Contamination Cleanup Project Fund.

14 (2) Moneys in the Groundwater Contamination Cleanup Project Fund are
15 available, upon appropriation by the Legislature, to the state board for the purpose
16 of a grant to the grantee that received funds and subsequently recovered costs from
17 a responsible party and repaid those costs to the state in the following priority order:

18 (A) Projects and activities to clean up areas of groundwater contamination within
19 the grantee's jurisdiction where the initial grant awarded pursuant to Section 75025
20 is insufficient to pay for the full costs of the cleanup.

21 (B) Projects and activities to clean up additional areas of groundwater
22 contamination within the grantee's jurisdiction.

23 (3)(A) The total amount of the grant awarded pursuant to Section 75025 and the
24 amount awarded pursuant to this subdivision shall not exceed the grantee's total
25 costs to clean up contaminated groundwater or prevent the contamination of
26 groundwater.

27 (B) If costs recovered by the grantee and deposited in the Groundwater
28 Contamination Cleanup Project Fund exceed the amount that may be awarded as a
29 grant pursuant to the limit in subparagraph (A), the excess moneys shall be available
30 to the state board, upon appropriation by the Legislature, for expenditure on orphan
31 groundwater contamination cleanup projects. The state board shall consult with the
32 Department of Toxic Substances Control when considering expenditures on orphan
33 groundwater contamination cleanup projects.

34 (4) The grantee shall use an amount awarded pursuant to this subdivision for
35 groundwater contamination cleanup activities for groundwater that is a primary
36 source of drinking water, including, but not limited to, ongoing treatment and
37 remediation activities in accordance with the purposes of Section 75025.

38 (5) When seeking grant funds pursuant to paragraph (2), a grantee shall submit an
39 expenditure plan to the state board for projects consistent with this subdivision. The
40 state board shall review the submitted expenditure plan and consult with the
41 Department of Toxic Substances Control for sites where the Department of Toxic

1 Substances Control is the lead state agency. The state board shall notify the grantee
2 if the expenditure plan is approved, and if approved, the state board shall disburse
3 the funds.

4 (6) Grants awarded pursuant to this subdivision may be used for capital costs and
5 treatment and remediation activities.

6 (7) Commencing no later than July 1, 2015, and annually thereafter until the
7 grantee's funds are expended, a grantee of funds awarded pursuant to this
8 subdivision shall provide public notice, by posting a list on the grantee's Internet
9 Web site, of projects and activities that receive grant funds pursuant to this
10 subdivision and the amount of those funds.

11 (8) As used in this subdivision, "costs subsequently recovered from a party
12 responsible for the contamination" means the amount of any judgment or settlement
13 received by a grantee of funds received pursuant to Section 75025 from a
14 responsible party that is attributable to costs funded by the grant received pursuant
15 to Section 75025, less all reasonable and necessary costs of response incurred by
16 the grantee of funds received pursuant to Section 75025 to recover these funds.
17 Attorney's fees may be considered reasonable and necessary costs of response if the
18 attorney's efforts are for identifying potentially responsible parties, but not if
19 incurred in pursuit of litigation, consistent with the Comprehensive Environmental
20 Response, Compensation, and Liability Act of 1980, as amended (42 U.S.C. Sec.
21 9601 et seq.), and *Key Tronic Corp. v. U.S.* (511 U.S. 809 (1994)).

22 (9) The state board may use moneys in the Groundwater Contamination Cleanup
23 Project Fund, upon appropriation by the Legislature, for the costs of administering
24 this subdivision.

25 (b) The state board may directly recover moneys from a party responsible for
26 contamination addressed by a loan or grant pursuant to Section 75025 in accordance
27 with the procedures described in subdivision (c) of Section 13304 of the Water
28 Code. The state board, upon appropriation by the Legislature, may use moneys in
29 the Groundwater Contamination Cleanup Project Fund for this purpose. If moneys
30 from the Groundwater Contamination Cleanup Project Fund are used for legal costs
31 pursuant to this subdivision, moneys recovered by a judgment in favor of the state
32 board shall be deposited in that fund.

33 (c) For the purposes of implementing subdivision (a) of Section 75050, the
34 Department of Fish and Wildlife, when funding a natural community conservation
35 plan, shall fund only the development of a natural community conservation plan that
36 is consistent with the Natural Community Conservation Planning Act (~~Chapter 10~~
37 ~~(commencing with Section 2800) of Division 3 Title 2 (commencing with Section~~
38 ~~64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code).~~

39 (d) The San Francisco Bay Area Conservancy may use the funds made available
40 pursuant to subdivision (c) of Section 75060 to restore the salt ponds in the south
41 San Francisco Bay and to create trails and visitor facilities for public use in that
42 area.

1 **Comment.** Subdivision (c) of Section 75101 is amended to reflect the recodification of the
2 former Fish and Game Code.

3 **Pub. Res. Code § 80028 (amended).**

4 SEC. _____. Section 80028 of the Public Resources Code is amended to read:
5 80028. Funds provided pursuant to this division, and any appropriation or transfer
6 of those funds, shall not be deemed to be a transfer of funds for the purposes of
7 ~~Chapter 9 (commencing with Section 2780) of Division 3~~ Title 5 (commencing with
8 Section 55800) of Part 2 of Division 15 of the Fish and Game Wildlife Code.

9 **Comment.** Section 80028 is amended to reflect the recodification of the former Fish and Game
10 Code.

11 **Pub. Res. Code § 80111 (amended).**

12 SEC. _____. Section 80111 of the Public Resources Code is amended to read:
13 80111. The amount available to the Wildlife Conservation Board pursuant to
14 subdivision (c) of Section 80110 is allocated as follows:

15 (a) Five million dollars (\$5,000,000) shall be available for the development of
16 regional conservation investment strategies that are not otherwise funded pursuant
17 to Section 800 of the Streets and Highways Code or any other law.

18 (b) At least fifty-two million dollars (\$52,000,000) shall be available for the
19 acquisition, development, rehabilitation, restoration, protection, and expansion of
20 habitat that furthers the implementation of natural community conservation plans
21 adopted pursuant to the Natural Community Conservation Planning Act (~~Chapter~~
22 ~~10 (commencing with Section 2800) of Division 3~~ Title 2 (commencing with
23 Section 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code) to
24 help resolve resource conflicts by balancing communitywide conservation,
25 planning, and economic activities or other large-scale habitat conservation plans that
26 resolve resource conflicts with provisions for conservation, planning, and economic
27 activities. Funding pursuant to this paragraph shall not be used to offset mitigation
28 obligations otherwise required, but may be used as part of a funding partnership to
29 enhance, expand, or augment conservation efforts required by mitigation.

30 (c) Up to ten million dollars (\$10,000,000) may be granted to the University of
31 California Natural Reserve System for matching grants for acquisition of land,
32 construction and development of research facilities to improve the management of
33 natural lands, for preservation of California's wildlife resources, and to further
34 research related to climate change. The Wildlife Conservation Board shall establish
35 a matching grant requirement for grants awarded pursuant to this subdivision.

36 (d) The remainder of the amount available shall be available to the Wildlife
37 Conservation Board to provide funding for the following projects:

38 (1) Projects to protect and enhance national recreation areas serving heavily
39 urbanized areas or, in coordination with the State Lands Commission, to acquire an
40 interest in federal public lands that may be proposed for sale or disposal.

(2) Projects according to the Wildlife Conservation Board's governing statutes for its specified purposes.

Comment. Section 80111 is amended to reflect the recodification of the former Fish and Game Code.

Pub. Res. Code § 80132 (amended).

SEC. _____. Section 80132 of the Public Resources Code is amended to read:

80132. (a) Of the amount made available pursuant to Section 80130, eighteen million dollars (\$18,000,000) shall be available to the Wildlife Conservation Board for direct expenditures pursuant to the Wildlife Conservation Law of 1947 (~~Chapter 4 (commencing with Section 1300) of Division 2 Title 1 (commencing with Section 54700) of Part 2 of Division 15~~ of the Fish and Game Wildlife Code) and for grants for any of the following:

(1) Projects for the acquisition, development, rehabilitation, restoration, protection, and expansion of wildlife corridors and open space, including projects to improve connectivity and reduce barriers between habitat areas. In awarding grants pursuant to this paragraph, the Wildlife Conservation Board shall give priority to projects that protect wildlife corridors, including wildlife corridors threatened by urban development.

(2) Projects for the acquisition, development, rehabilitation, restoration, protection, and expansion of habitat that promote the recovery of threatened and endangered species.

(3) Projects to improve climate adaptation and resilience of natural systems.

(4) Projects to protect and improve existing open-space corridors and trail linkages related to utility, transportation, or water infrastructure that provide habitat connectivity and public access or trails.

(5) Projects for wildlife rehabilitation facilities after consultation with the Department of Fish and Wildlife.

(6) Projects to control invasive plants or insects that degrade wildlife corridors or habitat linkages, inhibit the recovery of threatened or endangered species, or reduce the climate resilience of a natural system.

(7) Projects to enhance wildlife habitat, recognizing the highly variable habitat needs required by fish and wildlife. Eligible projects include acquisition of water or water rights from willing sellers, acquisition of land that includes water rights or contractual rights to water, short- or long-term water transfers and leases, projects that provide water for fish and wildlife, projects that improve aquatic or riparian habitat conditions, or projects to benefit salmon and steelhead.

(8) Implementation of conservation actions and habitat enhancement actions that measurably advance the conservation objectives of regional conservation investment strategies approved pursuant to ~~Chapter 9 (commencing with Section 1850) of Division 2 Title 3 (commencing with Section 64700) of Part 2 of Division 17~~ the Fish and Game Wildlife Code.

1 (9) Provision of hunting and other wildlife-dependent recreational opportunities
2 to the public through voluntary agreement with private landowners, including
3 opportunities pursuant to Section ~~1572~~ 56225, 56230, or 56240 of the Fish and
4 Game Wildlife Code.

5 (b) In implementing this section, the Wildlife Conservation Board may provide
6 matching grants for incentives to landowners for conservation actions on private
7 lands or use of voluntary habitat credit exchange mechanisms. A matching grant
8 shall not exceed 50 percent of the total cost of the incentive program.

9 (c) Of the amount made available pursuant to Section 80130, thirty million dollars
10 (\$30,000,000) shall be available for the acquisition, development, rehabilitation,
11 restoration, protection, and expansion of wildlife corridors and open space to
12 improve connectivity and reduce barriers between habitat areas and to protect and
13 restore habitat associated with the Pacific Flyway. In awarding grants pursuant to
14 this subdivision, priority may be given to projects that protect wildlife corridors. Of
15 the amount described in this subdivision, ten million dollars (\$10,000,000) shall be
16 available for the California Waterfowl Habitat Program.

17 (d) Of the amount made available pursuant to Section 80130, not less than twenty-
18 five million dollars (\$25,000,000) shall be available to the Department of Fish and
19 Wildlife for projects to restore rivers and streams in support of fisheries and wildlife,
20 including, but not limited to, reconnection of rivers with their flood plains, riparian
21 and side-channel habitat restoration activities described in subdivision (b) of Section
22 79737 of the Water Code, and restoration and protection of upper watershed forests
23 and meadow systems that are important for fish and wildlife resources. Subdivision
24 (f) of Section 79738 of the Water Code applies to this subdivision. Of the amount
25 available pursuant to this subdivision, at least five million dollars (\$5,000,000) shall
26 be available for restoration projects in the Klamath-Trinity watershed for the benefit
27 of salmon and steelhead. Priority shall be given to projects supported by
28 multistakeholder public or private partnerships, or both, using a science-based
29 approach and measurable objectives to guide identification, design, and
30 implementation of regional actions to benefit salmon and steelhead.

31 (e)(1) Of the amount made available pursuant to Section 80130, not less than sixty
32 million dollars (\$60,000,000) shall be available to the Wildlife Conservation Board
33 for construction, repair, modification, or removal of transportation or water
34 resources infrastructure to improve wildlife or fish passage.

35 (2) Of the amount subject to paragraph (1), at least thirty million dollars
36 (\$30,000,000) shall be available to the Department of Fish and Wildlife for
37 restoration of Southern California Steelhead habitat consistent with the Department
38 of Fish and Wildlife's Steelhead Restoration and Management Plan and the National
39 Marine Fisheries Service's Southern California Steelhead Recovery Plan. Projects
40 that remove significant barriers to steelhead migration and include other habitat
41 restoration and associated infrastructure improvements shall be the highest priority.

(f) Of the amount made available pursuant to Section 80130, not less than sixty million dollars (\$60,000,000) shall be available to the Wildlife Conservation Board for the protection, restoration, and improvement of upper watershed lands in the Sierra Nevada and Cascade Mountains, including forest lands, meadows, wetlands, chaparral, and riparian habitat, in order to protect and improve water supply and water quality, improve forest health, reduce wildfire danger, mitigate the effects of wildfires on water quality and supply, increase flood protection, or to protect or restore riparian or aquatic resources.

(g) Of the amount made available pursuant to Section 80130, at least thirty million dollars (\$30,000,000) shall be available to the Department of Fish and Wildlife to improve conditions for fish and wildlife in streams, rivers, wildlife refuges, wetland habitat areas, and estuaries. Eligible projects include acquisition of water from willing sellers, acquisition of land that includes water rights or contractual rights to water, short- or long-term water transfers or leases, provision of water for fish and wildlife, or improvement of aquatic or riparian habitat conditions. In implementing this section, the Department of Fish and Wildlife may provide grants under the Fisheries Restoration Grant Program with priority given to coastal waters.

(h) The Wildlife Conservation Board shall update its strategic master plan that identifies priorities and specific criteria for selecting projects pursuant to subdivision (a).

(i) Activities funded pursuant to this section shall be consistent with the state's climate adaptation strategy, as provided in Section 71153, and the statewide objectives provided in Section 71154.

Comment. Subdivision (a) of Section 80132 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** In the tentative recommendation, the provisions of existing Fish and Game Code 1572, which is cross-referenced in the section above, have been continued in several different sections of the proposed Fish and Wildlife Code.

The Commission requests public comment on the proposed conforming revision of the cross-reference to Section 1572 in the section above.

PUBLIC UTILITIES CODE

Pub. Util. Code § 7718 (amended).

SEC. ____ . Section 7718 of the Public Utilities Code is amended to read:

7718. (a) The Railroad Accident Prevention and Immediate Deployment Force is hereby created in the California Environmental Protection Agency. The force shall be responsible for providing immediate onsite response capability in the event of large-scale releases of toxic materials resulting from surface transportation accidents and for implementing the state hazardous materials incident prevention and immediate deployment plan. This force shall act cooperatively and in concert

1 with existing local emergency response units. The force shall consist of
2 representatives of all of the following:

- 3 (1) Department of Fish and ~~Game~~ Wildlife.
- 4 (2) California Environmental Protection Agency.
- 5 (3) State Air Resources Board.
- 6 (4) California Integrated Waste Management Board.
- 7 (5) California regional water quality control boards.
- 8 (6) Department of Toxic Substances Control.
- 9 (7) Department of Pesticide Regulation.
- 10 (8) Office of Environmental Health Hazard Assessment.
- 11 (9) State Department of Public Health.
- 12 (10) Department of the California Highway Patrol.
- 13 (11) Department of Food and Agriculture.
- 14 (12) Department of Forestry and Fire Protection.
- 15 (13) Department of Parks and Recreation.
- 16 (14) Public Utilities Commission.
- 17 (15) Any other potentially affected state, local, or federal agency.
- 18 (16) Office of Emergency Services.

19 (b) The California Environmental Protection Agency shall develop a state railroad
20 accident prevention and immediate deployment plan in cooperation with the State
21 Fire Marshal, affected businesses, and all of the entities listed in paragraphs (1) to
22 (17), inclusive, of subdivision (a).

23 (c) The plan specified in subdivision (b) shall be a comprehensive set of policies
24 and directions that every potentially affected state agency and business shall follow
25 if there is a railroad accident to minimize the potential damage to the public health
26 and safety, property, and the environment that might result from accidents involving
27 railroad activities in the state.

28 **Comment.** Section 7718 is amended to update a reference to the former Department of Fish and
29 Game. See Fish & Wildlife Code § 1500.

30 REVENUE AND TAXATION CODE

31 **Rev. & Tax. Code § 421 (amended).**

32 SEC. _____. Section 421 of the Revenue and Taxation Code is amended to read:

33 421. For the purposes of this article:

34 (a) “Agricultural preserve” means an agricultural preserve created pursuant to the
35 California Land Conservation Act of 1965 (Williamson Act) (Chapter 7
36 commencing with Section 51200) of Part 1 of Division 1 of Title 5 of the
37 Government Code).

38 (b) “Contract” means a contract executed pursuant to the California Land
39 Conservation Act.

1 (c) “Agreement” means an agreement executed pursuant to the California Land
2 Conservation Act prior to the 61st day following the final adjournment of the 1969
3 Regular Session of the Legislature and that, taken as a whole, provides restrictions,
4 terms and conditions that are substantially similar or more restrictive than those
5 required by statute for a contract.

6 (d) “Scenic restriction” means any interest or right in real property acquired by a
7 city or county pursuant to Chapter 12 (commencing with Section 6950) of Division
8 7 of Title 1 of the Government Code, where the deed or other instrument granting
9 such right or interest imposes restrictions that, through limitation of their future use,
10 will effectively preserve for public use and enjoyment, the character of open spaces
11 and areas as defined in Section 6954 of the Government Code.

12 A scenic restriction shall be for an initial term of 10 years or more, and shall
13 provide for either of the following:

14 (1) A method whereby the term may be extended by mutual agreement of the
15 parties.

16 (2) That the initial term shall be subject to annual automatic one-year extensions
17 as provided for contracts in Sections 51244, 51244.5, and 51246 of the Government
18 Code, unless notice of nonrenewal is given as provided in Section 51245 of the
19 Government Code.

20 A scenic restriction may not be terminated prior to the expiration of the initial
21 term, and any extension thereof, except as provided for cancellation of contracts in
22 Sections 51281, 51282, 51283 and 51283.3 of the Government Code, and subject to
23 the provisions therein for payment of the cancellation fee.

24 (e) “Open-space easement” means an open-space easement granted to a county or
25 city pursuant to Chapter 6.5 (commencing with Section 51050) of Part 1 of Division
26 1 of Title 5 of the Government Code if the easement is acquired prior to January 1,
27 1975, or an open-space easement granted to a county, city, or nonprofit organization
28 pursuant to Chapter 6.6 (commencing with Section 51070) of Part 1 of Division 1
29 of Title 5 of the Government Code if the easement is acquired after January 1, 1975,
30 or an open-space easement granted to a regional park district, regional park and
31 open-space district, or regional open-space district under Article 3 (commencing
32 with Section 5500) of Chapter 3 of Division 5 of the Public Resources Code.

33 (f) “Wildlife habitat contract” means any contract or amended contract or
34 covenant involving, except as provided in Section 423.8, 150 acres or more of land
35 entered into by a landowner with any agency or political subdivision of the federal
36 or state government limiting the use of lands for a period of 10 or more years by the
37 landowner to habitat for native or migratory wildlife and native pasture. These lands
38 shall, by contract, be eligible to receive water for waterfowl or waterfowl
39 management purposes from the federal government.

40 (g) “Open-space land” means any of the following:

41 (1) Land within an agricultural preserve and subject to a contract or an agreement.

42 (2) Land subject to a scenic restriction.

1 (3) Land subject to an open-space easement.

2 (4) Land that has been restricted by a political subdivision or an entity of the state
3 or federal government, acting within the scope of its regulatory or other legal
4 authority, for the benefit of wildlife, endangered species, or their habitats.

5 (h) “Typical rotation period” means a period of years during which different crops
6 are grown as part of a plant cultural program. Typical rotation period does not mean
7 the rotation period of timber.

8 (i) “Wildlife” means waterfowl of every kind and any other undomesticated
9 mammal, fish, or bird, or any reptile, amphibian, insect, or plant.

10 (j) “Endangered species” means any species or subcategory thereof, as defined in
11 the California Endangered Species Act (~~Chapter 1.5 (commencing with Section~~
12 ~~2050) of Division 3 Part 1 (commencing with Section 62000) of Division 17~~ of the
13 Fish and Game Wildlife Code) or the federal Endangered Species Act (16 U.S.C.
14 Sec. 1531 et seq.), that has been classified and protected as an endangered,
15 threatened, rare, or candidate species by any entity of the state or federal
16 government.

17 **Comment.** Subdivision (j) of Section 421 is amended to reflect the recodification of the former
18 Fish and Game Code.

19 **Rev. & Tax. Code § 18741 (amended).**

20 SEC. _____. Section 18741 of the Revenue and Taxation Code is amended to read:

21 18741. (a) Any individual may designate on the tax return, under the space labeled
22 “Rare and Endangered Species Preservation Voluntary Tax Contribution Program,”
23 that a contribution in excess of the tax liability, if any, be made to the Endangered
24 and Rare Fish, Wildlife, and Plant Species Conservation and Enhancement Account
25 established in the Fish and Game Preservation Fund pursuant to Section ~~1770~~ 56100
26 of the Fish and Game Wildlife Code.

27 (b) The contribution shall be in full dollar amounts and may be made individually
28 by each signatory on a joint return.

29 (c) A designation under subdivision (a) shall be made for any taxable year on the
30 original return for that taxable year, and once made shall be irrevocable.

31 (d) The Franchise Tax Board shall revise the form of the return to include a space
32 labeled “Rare and Endangered Species Preservation Voluntary Tax Contribution
33 Program” to allow for the designation permitted under subdivision (a).

34 (e) A deduction shall be allowed under Article 6 (commencing with Section
35 17201) of Chapter 3 of Part 10 for any contribution made pursuant to subdivision
36 (a).

37 **Comment.** Section 18741 is amended to reflect the recodification of the former Fish and Game
38 Code.

39 **Rev. & Tax. Code § 18742 (amended).**

40 SEC. _____. Section 18742 of the Revenue and Taxation Code is amended to read:

18742. (a) The Franchise Tax Board shall notify the Controller of both the amount of moneys paid by taxpayers in excess of their tax liability and the amount of refund moneys that taxpayers have designated pursuant to Section 18741 to be transferred to the Endangered and Rare Fish, Wildlife, and Plant Species Conservation and Enhancement Account. The Controller shall transfer from the Personal Income Tax Fund to that account, an amount not in excess of the sum of the amounts reported to the Controller by the Franchise Tax Board that have been designated by individuals pursuant to Section 18741 for payment into that account.

(b) Notwithstanding Section 13340 of the Government Code, all moneys transferred to the account shall be continuously appropriated and allocated as follows:

(1) To the Franchise Tax Board and the Controller for the reimbursement of all actual and direct costs incurred by the Franchise Tax Board and the Controller in connection with the collection and administration of funds under this article.

(2) To the Department of Fish and Wildlife for the purposes specified in Section 1771 56105 of the Fish and Game Wildlife Code.

(c) The Department of Fish and Wildlife shall comply with the Internet Web site reporting requirements described in Section 18873.

Comment. Section 18742 is amended to reflect the recodification of the former Fish and Game Code.

Rev. & Tax. Code § 18749.2 (amended).

SEC. _____. Section 18749.2 of the Revenue and Taxation Code is amended to read:

18749.2. (a) Notwithstanding Section 13340 of the Government Code, all moneys transferred to the Native California Wildlife Rehabilitation Voluntary Tax Contribution Fund shall be continuously appropriated and allocated as follows:

(1) To the Franchise Tax Board and the Controller for reimbursement of all costs incurred by the Franchise Tax Board and the Controller in connection with their duties under this article.

(2) The revenues remaining, after allocation pursuant to paragraph (1), to the Department of Fish and Wildlife for the purposes specified in Article 5 (commencing with Section 1773) of Chapter 7.5 of Division 2 Chapter 5 (commencing with Section 56150) of Title 6 of Part 2 of Division 15 the Fish and Game Wildlife Code.

(b) The Department of Fish and Wildlife shall comply with the Internet Web site reporting requirements described in Section 18873.

Comment. Section 18749.2 is amended to reflect the recodification of the former Fish and Game Code.

Rev. & Tax. Code § 34019 (amended).

SEC. _____. Section 34019 of the Revenue and Taxation Code is amended to read:

34019. (a) Beginning with the 2017–18 fiscal year, the Department of Finance shall estimate revenues to be received pursuant to Sections 34011 and 34012 and

1 provide those estimates to the Controller no later than June 15 of each year. The
2 Controller shall use these estimates when disbursing funds pursuant to this section.
3 Before any funds are disbursed pursuant to subdivisions (b), (c), (d), and (e) of this
4 section, the Controller shall disburse from the Tax Fund to the appropriate account,
5 without regard to fiscal year, the following:

6 (1) Reasonable costs incurred by the board for administering and collecting the
7 taxes imposed by this part; provided, however, such costs shall not exceed 4 percent
8 of tax revenues received.

9 (2) Reasonable costs incurred by the bureau, the Department of Consumer Affairs,
10 the Department of Food and Agriculture, and the State Department of Public Health
11 for implementing, administering, and enforcing Division 10 (commencing with
12 Section 26000) of the Business and Professions Code to the extent those costs are
13 not reimbursed pursuant to Section 26180 of the Business and Professions Code.
14 This paragraph shall remain operative through the 2022–23 fiscal year.

15 (3) Reasonable costs incurred by the Department of Fish and Wildlife, the State
16 Water Resources Control Board, and the Department of Pesticide Regulation for
17 carrying out their respective duties under Division 10 (commencing with Section
18 26000) of the Business and Professions Code to the extent those costs are not
19 otherwise reimbursed.

20 (4) Reasonable costs incurred by the Controller for performing duties imposed by
21 the Control, Regulate and Tax Adult Use of Marijuana Act, including the audit
22 required by Section 34020.

23 (5) Reasonable costs incurred by the Department of Finance for conducting the
24 performance audit pursuant to Section 26191 of the Business and Professions Code.

25 (6) Reasonable costs incurred by the Legislative Analyst’s Office for performing
26 duties imposed by Section 34017.

27 (7) Sufficient funds to reimburse the Division of Labor Standards Enforcement
28 and the Division of Occupational Safety and Health within the Department of
29 Industrial Relations and the Employment Development Department for the costs of
30 applying and enforcing state labor laws to licensees under Division 10 (commencing
31 with Section 26000) of the Business and Professions Code.

32 (b) The Controller shall next disburse the sum of ten million dollars (\$10,000,000)
33 to a public university or universities in California annually beginning with the 2018–
34 19 fiscal year until the 2028–29 fiscal year to research and evaluate the
35 implementation and effect of the Control, Regulate and Tax Adult Use of Marijuana
36 Act, and shall, if appropriate, make recommendations to the Legislature and
37 Governor regarding possible amendments to the Control, Regulate and Tax Adult
38 Use of Marijuana Act. The recipients of these funds shall publish reports on their
39 findings at a minimum of every two years and shall make the reports available to
40 the public. The bureau shall select the universities to be funded. The research funded
41 pursuant to this subdivision shall include but not necessarily be limited to:

1 (1) Impacts on public health, including health costs associated with cannabis use,
2 as well as whether cannabis use is associated with an increase or decrease in use of
3 alcohol or other drugs.

4 (2) The impact of treatment for maladaptive cannabis use and the effectiveness of
5 different treatment programs.

6 (3) Public safety issues related to cannabis use, including studying the
7 effectiveness of the packaging and labeling requirements and advertising and
8 marketing restrictions contained in the act at preventing underage access to and use
9 of cannabis and cannabis products, and studying the health-related effects among
10 users of varying potency levels of cannabis and cannabis products.

11 (4) Cannabis use rates, maladaptive use rates for adults and youth, and diagnosis
12 rates of cannabis-related substance use disorders.

13 (5) Cannabis market prices, illicit market prices, tax structures and rates, including
14 an evaluation of how to best tax cannabis based on potency, and the structure and
15 function of licensed cannabis businesses.

16 (6) Whether additional protections are needed to prevent unlawful monopolies or
17 anti-competitive behavior from occurring in the adult-use cannabis industry and, if
18 so, recommendations as to the most effective measures for preventing such
19 behavior.

20 (7) The economic impacts in the private and public sectors, including, but not
21 necessarily limited to, job creation, workplace safety, revenues, taxes generated for
22 state and local budgets, and criminal justice impacts, including, but not necessarily
23 limited to, impacts on law enforcement and public resources, short and long term
24 consequences of involvement in the criminal justice system, and state and local
25 government agency administrative costs and revenue.

26 (8) Whether the regulatory agencies tasked with implementing and enforcing the
27 Control, Regulate and Tax Adult Use of Marijuana Act are doing so consistent with
28 the purposes of the act, and whether different agencies might do so more effectively.

29 (9) Environmental issues related to cannabis production and the criminal
30 prohibition of cannabis production.

31 (10) The geographic location, structure, and function of licensed cannabis
32 businesses, and demographic data, including race, ethnicity, and gender, of license
33 holders.

34 (11) The outcomes achieved by the changes in criminal penalties made under the
35 Control, Regulate and Tax Adult Use of Marijuana Act for cannabis-related
36 offenses, and the outcomes of the juvenile justice system, in particular, probation-
37 based treatments and the frequency of up-charging illegal possession of cannabis or
38 cannabis products to a more serious offense.

39 (c) The Controller shall next disburse the sum of three million dollars
40 (\$3,000,000) annually to the Department of the California Highway Patrol
41 beginning with the 2018–19 fiscal year until the 2022–23 fiscal year to establish and
42 adopt protocols to determine whether a driver is operating a vehicle while impaired,

1 including impairment by the use of cannabis or cannabis products, and to establish
2 and adopt protocols setting forth best practices to assist law enforcement agencies.
3 The department may hire personnel to establish the protocols specified in this
4 subdivision. In addition, the department may make grants to public and private
5 research institutions for the purpose of developing technology for determining when
6 a driver is operating a vehicle while impaired, including impairment by the use of
7 cannabis or cannabis products.

8 (d) The Controller shall next disburse the sum of ten million dollars (\$10,000,000)
9 beginning with the 2018–19 fiscal year and increasing ten million dollars
10 (\$10,000,000) each fiscal year thereafter until the 2022–23 fiscal year, at which time
11 the disbursement shall be fifty million dollars (\$50,000,000) each year thereafter, to
12 the Governor’s Office of Business and Economic Development, in consultation with
13 the Labor and Workforce Development Agency and the State Department of Social
14 Services, to administer a community reinvestments grants program to local health
15 departments and at least 50 percent to qualified community-based nonprofit
16 organizations to support job placement, mental health treatment, substance use
17 disorder treatment, system navigation services, legal services to address barriers to
18 reentry, and linkages to medical care for communities disproportionately affected
19 by past federal and state drug policies. The office shall solicit input from
20 community-based job skills, job placement, and legal service providers with
21 relevant expertise as to the administration of the grants program. In addition, the
22 office shall periodically evaluate the programs it is funding to determine the
23 effectiveness of the programs, shall not spend more than 4 percent for administrative
24 costs related to implementation, evaluation, and oversight of the programs, and shall
25 award grants annually, beginning no later than January 1, 2020.

26 (e) The Controller shall next disburse the sum of two million dollars (\$2,000,000)
27 annually to the University of California San Diego Center for Medicinal Cannabis
28 Research to further the objectives of the center, including the enhanced
29 understanding of the efficacy and adverse effects of cannabis as a pharmacological
30 agent.

31 (f) By July 15 of each fiscal year beginning in the 2018–19 fiscal year, the
32 Controller shall, after disbursing funds pursuant to subdivisions (a), (b), (c), (d), and
33 (e), disburse funds deposited in the Tax Fund during the prior fiscal year into sub-
34 trust accounts, which are hereby created, as follows:

35 (1) Sixty percent shall be deposited in the Youth Education, Prevention, Early
36 Intervention and Treatment Account, and disbursed by the Controller to the State
37 Department of Health Care Services for programs for youth that are designed to
38 educate about and to prevent substance use disorders and to prevent harm from
39 substance use. The State Department of Health Care Services shall enter into
40 interagency agreements with the State Department of Public Health and the State
41 Department of Education to implement and administer these programs. The
42 programs shall emphasize accurate education, effective prevention, early

1 intervention, school retention, and timely treatment services for youth, their families
2 and caregivers. The programs may include, but are not limited to, the following
3 components:

4 (A) Prevention and early intervention services including outreach, risk survey and
5 education to youth, families, caregivers, schools, primary care health providers,
6 behavioral health and substance use disorder service providers, community and
7 faith-based organizations, fostercare providers, juvenile and family courts, and
8 others to recognize and reduce risks related to substance use, and the early signs of
9 problematic use and of substance use disorders.

10 (B) Grants to schools to develop and support student assistance programs, or other
11 similar programs, designed to prevent and reduce substance use, and improve school
12 retention and performance, by supporting students who are at risk of dropping out
13 of school and promoting alternatives to suspension or expulsion that focus on school
14 retention, remediation, and professional care. Schools with higher than average
15 dropout rates should be prioritized for grants.

16 (C) Grants to programs for outreach, education, and treatment for homeless youth
17 and out-of-school youth with substance use disorders.

18 (D) Access and linkage to care provided by county behavioral health programs
19 for youth, and their families and caregivers, who have a substance use disorder or
20 who are at risk for developing a substance use disorder.

21 (E) Youth-focused substance use disorder treatment programs that are culturally
22 and gender competent, trauma-informed, evidence-based and provide a continuum
23 of care that includes screening and assessment (substance use disorder as well as
24 mental health), early intervention, active treatment, family involvement, case
25 management, overdose prevention, prevention of communicable diseases related to
26 substance use, relapse management for substance use and other cooccurring
27 behavioral health disorders, vocational services, literacy services, parenting classes,
28 family therapy and counseling services, medication-assisted treatments, psychiatric
29 medication and psychotherapy. When indicated, referrals must be made to other
30 providers.

31 (F) To the extent permitted by law and where indicated, interventions shall utilize
32 a two-generation approach to addressing substance use disorders with the capacity
33 to treat youth and adults together. This would include supporting the development
34 of family-based interventions that address substance use disorders and related
35 problems within the context of families, including parents, foster parents, caregivers
36 and all their children.

37 (G) Programs to assist individuals, as well as families and friends of drug using
38 young people, to reduce the stigma associated with substance use including being
39 diagnosed with a substance use disorder or seeking substance use disorder services.
40 This includes peer-run outreach and education to reduce stigma, anti-stigma
41 campaigns, and community recovery networks.

1 (H) Workforce training and wage structures that increase the hiring pool of
2 behavioral health staff with substance use disorder prevention and treatment
3 expertise. Provide ongoing education and coaching that increases substance use
4 treatment providers' core competencies and trains providers on promising and
5 evidenced-based practices.

6 (I) Construction of community-based youth treatment facilities.

7 (J) The departments may contract with each county behavioral health program for
8 the provision of services.

9 (K) Funds shall be allocated to counties based on demonstrated need, including
10 the number of youth in the county, the prevalence of substance use disorders among
11 adults, and confirmed through statistical data, validated assessments, or submitted
12 reports prepared by the applicable county to demonstrate and validate need.

13 (L) The departments shall periodically evaluate the programs they are funding to
14 determine the effectiveness of the programs.

15 (M) The departments may use up to 4 percent of the moneys allocated to the Youth
16 Education, Prevention, Early Intervention and Treatment Account for
17 administrative costs related to implementation, evaluation, and oversight of the
18 programs.

19 (N) If the Department of Finance ever determines that funding pursuant to
20 cannabis taxation exceeds demand for youth prevention and treatment services in
21 the state, the departments shall provide a plan to the Department of Finance to
22 provide treatment services to adults as well as youth using these funds.

23 (O) The departments shall solicit input from volunteer health organizations,
24 physicians who treat addiction, treatment researchers, family therapy and
25 counseling providers, and professional education associations with relevant
26 expertise as to the administration of any grants made pursuant to this paragraph.

27 (2) Twenty percent shall be deposited in the Environmental Restoration and
28 Protection Account, and disbursed by the Controller as follows:

29 (A) To the Department of Fish and Wildlife and the Department of Parks and
30 Recreation for the cleanup, remediation, and restoration of environmental damage
31 in watersheds affected by cannabis cultivation and related activities including, but
32 not limited to, damage that occurred prior to enactment of this part, and to support
33 local partnerships for this purpose. The Department of Fish and Wildlife and the
34 Department of Parks and Recreation may distribute a portion of the funds they
35 receive from the Environmental Restoration and Protection Account through grants
36 for purposes specified in this paragraph.

37 (B) To the Department of Fish and Wildlife and the Department of Parks and
38 Recreation for the stewardship and operation of state-owned wildlife habitat areas
39 and state park units in a manner that discourages and prevents the illegal cultivation,
40 production, sale, and use of cannabis and cannabis products on public lands, and to
41 facilitate the investigation, enforcement, and prosecution of illegal cultivation,
42 production, sale, and use of cannabis or cannabis products on public lands.

1 (C) To the Department of Fish and Wildlife to assist in funding the watershed
2 enforcement program and multiagency taskforce established pursuant to
3 subdivisions (b) and (c) of ~~Section 12029~~ Sections 72205 and 72210 of the Fish and
4 ~~Game~~ Wildlife Code to facilitate the investigation, enforcement, and prosecution of
5 these offenses and to ensure the reduction of adverse impacts of cannabis
6 cultivation, production, sale, and use on fish and wildlife habitats throughout the
7 state.

8 (D) For purposes of this paragraph, the Secretary of the Natural Resources Agency
9 shall determine the allocation of revenues between the departments. During the first
10 five years of implementation, first consideration should be given to funding
11 purposes specified in subparagraph (A).

12 (E) Funds allocated pursuant to this paragraph shall be used to increase and
13 enhance activities described in subparagraphs (A), (B), and (C), and not replace
14 allocation of other funding for these purposes. Accordingly, annual General Fund
15 appropriations to the Department of Fish and Wildlife and the Department of Parks
16 and Recreation shall not be reduced below the levels provided in the Budget Act of
17 2014 (Chapter 25 of the Statutes of 2014).

18 (3) Twenty percent shall be deposited into the State and Local Government Law
19 Enforcement Account and disbursed by the Controller as follows:

20 (A) To the Department of the California Highway Patrol for conducting training
21 programs for detecting, testing and enforcing laws against driving under the
22 influence of alcohol and other drugs, including driving under the influence of
23 cannabis. The department may hire personnel to conduct the training programs
24 specified in this subparagraph.

25 (B) To the Department of the California Highway Patrol to fund internal
26 California Highway Patrol programs and grants to qualified nonprofit organizations
27 and local governments for education, prevention, and enforcement of laws related
28 to driving under the influence of alcohol and other drugs, including cannabis;
29 programs that help enforce traffic laws, educate the public in traffic safety, provide
30 varied and effective means of reducing fatalities, injuries, and economic losses from
31 collisions; and for the purchase of equipment related to enforcement of laws related
32 to driving under the influence of alcohol and other drugs, including cannabis.

33 (C) To the Board of State and Community Corrections for making grants to local
34 governments to assist with law enforcement, fire protection, or other local programs
35 addressing public health and safety associated with the implementation of the
36 Control, Regulate and Tax Adult Use of Marijuana Act. The board shall not make
37 any grants to local governments which have banned the cultivation, including
38 personal cultivation under paragraph (3) of subdivision (b) of Section 11362.2 of
39 the Health and Safety Code, or retail sale of cannabis or cannabis products pursuant
40 to Section 26200 of the Business and Professions Code or as otherwise provided by
41 law.

(D) For purposes of this paragraph, the Department of Finance shall determine the allocation of revenues between the agencies; provided, however, beginning in the 2022–23 fiscal year the amount allocated pursuant to subparagraph (A) shall not be less than ten million dollars (\$10,000,000) annually and the amount allocated pursuant to subparagraph (B) shall not be less than forty million dollars (\$40,000,000) annually. In determining the amount to be allocated before the 2022–23 fiscal year pursuant to this paragraph, the Department of Finance shall give initial priority to subparagraph (A).

(g) Funds allocated pursuant to subdivision (f) shall be used to increase the funding of programs and purposes identified and shall not be used to replace allocation of other funding for these purposes.

(h) Effective July 1, 2028, the Legislature may amend this section by majority vote to further the purposes of the Control, Regulate and Tax Adult Use of Marijuana Act, including allocating funds to programs other than those specified in subdivisions (d) and (f). Any revisions pursuant to this subdivision shall not result in a reduction of funds to accounts established pursuant to subdivisions (d) and (f) in any subsequent year from the amount allocated to each account in the 2027–28 fiscal year. Prior to July 1, 2028, the Legislature may not change the allocations to programs specified in subdivisions (d) and (f).

Comment. Subparagraph (C) of paragraph (2) of subdivision (f) of Section 34019 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 5907 was added to the Revenue and Taxation Code in 2016 by an initiative statute, Proposition 64. The Commission believes that the proposed technical revision of that section would not be an impermissible amendment. See discussion of initiative statutes *supra* at notes 5 and 6, and associated text.

Rev. & Tax. Code § 46618 (amended).

SEC. _____. Section 46618 of the Revenue and Taxation Code is amended to read:
46618. The board shall, in cooperation with the Department of Fish and Game Wildlife, the Taxpayers’ Rights Advocate, and other interested feepayer-oriented groups, develop a plan to reduce the time required to resolve petitions for redetermination and claims for refunds. The plan shall include determination of standard timeframes and special review of cases that take more time than the appropriate standard timeframe.

Comment. Section 46618 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Rev. & Tax. Code § 46751 (amended).

SEC. _____. Section 46751 of the Revenue and Taxation Code is amended to read:
46751. (a) The board shall provide any and all information obtained under this part to the Department of Fish and Game Wildlife.

(b) The Department of Fish and Game Wildlife and the board may utilize any information obtained pursuant to this part to develop data on oil spill prevention,

1 abatement, and removal within the state. Notwithstanding any other provision of
2 this section, the Department of Fish and Game Wildlife may make oil spill
3 prevention, abatement, and removal public.

4 (c) It shall be unlawful for the board, or any person having an administrative duty
5 under Chapter 7.4 (commencing with Section 8670.1) of Division 1 of Title 2 of the
6 Government Code or Division 7.8 (commencing with Section 8750) of the Public
7 Resources Code to make known, in any manner whatever, the business affairs,
8 operations, or any other information pertaining to a fee payer which was submitted
9 to the board in a report or return required by this part, or to permit any report or
10 copy thereof or any book containing any abstract or particulars thereof to be seen or
11 examined by any person not expressly authorized by subdivision (a), subdivision
12 (d), and this subdivision. However, the Governor may, by general or special order,
13 authorize examination of the records maintained by the board under this part by
14 other state officers, by officers of another state, by the federal government, if a
15 reciprocal arrangement exists, or by any other person. The information so obtained
16 pursuant to the order of the Governor shall not be made public except to the extent
17 and in the manner that the order may authorize that it be made public.

18 (d) The board may furnish to any state or federal agency investigating violations
19 of or enforcing any state or federal law related to crude oil and petroleum products
20 any crude oil and petroleum products information in the possession of the board that
21 is deemed necessary for the enforcement of those laws.

22 (e) Notwithstanding subdivision (c), the successors, receivers, trustees, executors,
23 administrators, assignees, and guarantors, if directly interested, may be given
24 information regarding the determination of any unpaid fee or the amount of fees,
25 interest, or penalties required to be collected or assessed.

26 (f) Nothing in this section shall be construed as limiting or increasing the public's
27 access to information on any aspect of oil spill prevention, abatement, and removal
28 collected pursuant to other state or local laws, regulations, or ordinances.

29 **Comment.** Section 46751 is amended to update references to the former Department of Fish and
30 Game. See Fish & Wildlife Code § 1500.

31 STREETS AND HIGHWAY CODE

32 **Sts. & Hy. Code § 91.8 (amended).**

33 SEC. _____. Section 91.8 of the Streets and Highway Code is amended to read:

34 91.8. (a) The department shall, within its maintenance program, establish
35 procedures for the removal and disposal of animal carcasses on state highways.

36 (b) Notwithstanding any other provision of law, including, but not limited to,
37 prohibitions on the possession and transportation of endangered or protected
38 species, or the property rights associated with livestock and other commercially
39 valuable animals, the department may remove or relocate an animal carcass from a
40 state highway for safety purposes.

1 (c) The department shall dispose of animal carcasses in an environmentally
2 appropriate manner considering both of the following:

3 (1) The animal's probable legal status, whether as domestic or commercial
4 property, wild, feral, protected, or endangered, as follows:

5 (A) When practicable, an owner of a domestic animal shall be notified of the
6 location or disposition of the animal carcass. Unless returned to the owner, license
7 tags, nameplates, or other identification shall be retained by the department for 30
8 days.

9 (B) A branded livestock carcass shall be removed from the roadway but not
10 otherwise transported until the owner is contacted. If the owner cannot be identified,
11 the department shall notify the regional brand inspector.

12 (C) In the case of wild, feral, protected, or endangered animals, disposal shall be
13 accomplished in accordance with applicable provisions of the Fish and ~~Game~~
14 Wildlife Code.

15 (2) If disposal technologies including, but not limited to, natural decomposition,
16 burial, incineration, donation, rendering, or composting are not available or
17 practicable, the department may use any nontraditional or novel technology that
18 may be appropriate under the circumstances.

19 (d) Animal carcasses shall not be relocated to or disposed of within 150 feet of
20 waterways or drainageways that lead directly to waterways, or buried within five
21 feet of groundwater.

22 (e) The department shall maintain a record of designated disposal sites used for
23 consolidation of animal carcasses.

24 **Comment.** Section 91.8 is amended to update a cross-reference to the former Fish and Game
25 Code.

26 **Sts. & Hy. Code § 156.3 (amended).**

27 SEC. _____. Section 156.3 of the Streets and Highway Code is amended to read:

28 156.3. For any project using state or federal transportation funds programmed
29 after January 1, 2006, the department shall ensure that, if the project affects a stream
30 crossing on a stream where anadromous fish are, or historically were, found, an
31 assessment of potential barriers to fish passage is done prior to commencing project
32 design. The department shall submit the assessment to the Department of Fish and
33 ~~Game~~ Wildlife and add it to the CALFISH database. If any structural barrier to
34 passage exists, remediation of the problem shall be designed into the project by the
35 implementing agency. New projects shall be constructed so that they do not present
36 a barrier to fish passage. When barriers to fish passage are being addressed, plans
37 and projects shall be developed in consultation with the Department of Fish and
38 ~~Game~~ Wildlife.

39 **Comment.** Section 156.3 is amended to update references to the former Department of Fish and
40 Game. See Fish & Wildlife Code § 1500.

1 **Sts. & Hy. Code § 156.4 (amended).**

2 SEC. _____. Section 156.4 of the Streets and Highway Code is amended to read:

3 156.4. For any repair or construction project using state or federal transportation
4 funds that affects a stream crossing on a stream where anadromous fish are, or
5 historically were, found, the department shall perform an assessment of the site for
6 potential barriers to fish passage and submit the assessment to the Department of
7 Fish and Game Wildlife.

8 **Comment.** Section 156.4 is amended to update a reference to the former Department of Fish and
9 Game. See Fish & Wildlife Code § 1500.

10 **Sts. & Hy. Code § 800 (amended).**

11 SEC. _____. Section 800 of the Streets and Highway Code is amended to read:

12 800. (a) The Advance Mitigation Program is hereby created in the department to
13 enhance communications between the department and stakeholders to protect
14 natural resources through project mitigation, to meet or exceed applicable
15 environmental requirements, to accelerate project delivery, and to mitigate, to the
16 maximum extent required by law, environmental impacts from transportation
17 infrastructure projects. The department shall consult on all activities pursuant to this
18 article with the Department of Fish and Wildlife, including activities pursuant to
19 Chapter 9 (commencing with Section 1850) of Division 2 Title 3 (commencing with
20 Section 64700) of Part 2 of Division 17 of the Fish and Game Wildlife Code.

21 (b) Commencing with the 2017–18 fiscal year, and for a period of four years, the
22 department shall set aside no less than thirty million dollars (\$30,000,000) annually
23 for the Advance Mitigation Program from the annual appropriations for the State
24 Highway Operation and Protection Program and the State Transportation
25 Improvement Program for the planning and implementation of projects in the
26 Advance Mitigation Program. Mitigation credits or values generated or obtained
27 with these funds may be used only for transportation improvements in the State
28 Transportation Improvement Program or the State Highway Operation and
29 Protection Program, and may be transferred to another agency, but only upon full
30 reimbursement of the department pursuant to subdivision (b) of Section 800.6.

31 (c) Upon the order of the Director of Finance, the Controller shall transfer the
32 amount identified for the Advance Mitigation Program in subdivision (b), as
33 determined by the department and the Department of Finance, to the Advance
34 Mitigation Account in the State Transportation Fund.

35 (d) The annual Budget Act and subsequent legislation may establish additional
36 provisions and requirements for the program.

37 **Comment.** Section 800 is amended to reflect the recodification of the former Fish and Game
38 Code.

39 **Sts. & Hy. Code § 800.5 (amended).**

40 SEC. _____. Section 800.5 of the Streets and Highway Code is amended to read:

1 800.5. For purposes of this article, the following terms have the following
2 meanings:

3 (a) “Acquire” and “acquisition” mean, with respect to land or a waterway,
4 acquisition of fee title or purchase of a conservation easement that protects
5 conservation and mitigation values on the land or waterway in perpetuity.

6 (b) “Administrative draft natural community conservation plan” means a
7 substantially complete draft of a natural community conservation plan that is
8 released after January 1, 2016, to the general public, plan participants, and the
9 department.

10 (c) “Advance mitigation” means mitigation implemented before, and in
11 anticipation of, environmental effects of planned transportation improvements.

12 (d) “Commission” means the California Transportation Commission.

13 (e) “Conservation easement” means a perpetual conservation easement that
14 complies with Chapter 4 (commencing with Section 815) of Title 2 of Part 2 of
15 Division 2 of the Civil Code.

16 (f) “Department” means the Department of Transportation.

17 (g) “Mitigation credit agreement” means a mitigation credit agreement pursuant
18 to Chapter 9 (commencing with Section 1850) of Division 2 Title 3 (commencing
19 with Section 64700) of Part 2 of Division 17 of the Fish and Game Wildlife Code.

20 (h) “Natural Communities Conservation Plan” means a plan developed pursuant
21 to Chapter 10 (commencing with Section 2800) of Division 3 Title 2 (commencing
22 with Section 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code.

23 (i) “Planned transportation improvement” means a transportation project that a
24 transportation agency has identified in a regional transportation plan, an
25 interregional transportation plan, a capital improvement program, or other approved
26 transportation planning document, excluding any project that is associated with or
27 interacting with the high-speed rail program. A planned transportation improvement
28 may include, but is not limited to, a transportation project that has been planned,
29 programmed, proposed for approval, or that has been approved.

30 (j) “Program” means the Advance Mitigation Program implemented pursuant to
31 this article.

32 (k) “Regional conservation investment strategy” means a regional conservation
33 investment strategy approved by the Department of Fish and Wildlife pursuant to
34 Chapter 9 (commencing with Section 1850) of Division 2 Title 3 (commencing with
35 Section 64700) of Part 2 of Division 17 of the Fish and Game Wildlife Code.

36 (l) “Regulatory agency” means a state or federal natural resource protection
37 agency with regulatory authority over planned transportation improvements. A
38 regulatory agency includes, but is not limited to, the Natural Resources Agency, the
39 Department of Fish and Wildlife, California regional water quality control boards,
40 the United States Fish and Wildlife Service, the National Marine Fisheries Service,
41 the United States Environmental Protection Agency, and the United States Army
42 Corps of Engineers.

1 (m) “Transportation agency” means the department, a metropolitan planning
2 organization, a regional transportation planning agency, or another public agency
3 that implements transportation improvements.

4 (n) “Transportation improvement” means a transportation capital improvement
5 project.

6 **Comment.** Section 800.5 is amended to reflect the recodification of the former Fish and Game
7 Code.

8 **Sts. & Hy. Code § 800.6 (amended).**

9 SEC. _____. Section 800.6 of the Streets and Highway Code is amended to read:

10 800.6. (a) The funds in the Advance Mitigation Account created in Section 800.7
11 shall be used only to do the following:

12 (1) Purchase, or fund the purchase of, credits from mitigation banks, conservation
13 banks, or in-lieu fee programs approved by one or more regulatory agencies. The
14 department may also establish mitigation banks, conservation banks, or in-lieu fee
15 programs, or fund the establishment of mitigation banks, conservation banks, or in-
16 lieu fee programs, in accordance with applicable state and federal standards, if the
17 department determines that those banks or in-lieu fee programs would provide
18 appropriate mitigation of the anticipated potential impacts of planned transportation
19 improvements identified pursuant to Section 800.8.

20 (2) Pay, or fund the payment of, mitigation fees or other costs or payments
21 associated with coverage for the department’s or other transportation agency’s
22 projects under natural community conservation plans approved pursuant to ~~Chapter~~
23 ~~10 (commencing with Section 2800) of Division 3 Title 2 (commencing with~~
24 ~~Section 64500) of Part 2 of Division 17~~ of the Fish and Game Wildlife Code, or
25 habitat conservation plans approved in accordance with the federal Endangered
26 Species Act. The department shall, upon commencement of a regional conservation
27 investment strategy pursuant to paragraph (3), provide written notification thereof
28 to the executive administrative officer of any administrative draft natural
29 community conservation plan, approved natural community conservation plan, or
30 approved regional federal habitat conservation plan that overlaps the proposed area
31 of the regional conservation investment strategy.

32 (3) Prepare, or fund the preparation of, regional conservation assessments and
33 regional conservation investment strategies. Where a regional conservation
34 investment strategy has been approved by the Department of Fish and Wildlife, the
35 department may do either of the following:

36 (A) Enter into, or fund the preparation of, mitigation credit agreements with the
37 Department of Fish and Wildlife; purchase credits from an established mitigation
38 credit agreement; or implement, or fund the implementation of, conservation actions
39 and habitat enhancement actions as needed to generate mitigation credits pursuant
40 to those mitigation credit agreements.

1 (B) Acquire, restore, manage, monitor, enhance, and preserve lands, waterways,
2 aquatic resources, or fisheries, or fund the acquisition, restoration, management,
3 monitoring, enhancement, and preservation of lands, waterways, aquatic resources,
4 or fisheries that would measurably advance a conservation objective in the regional
5 conservation investment strategy if the department concludes that the action or
6 actions could conserve or create environmental values that are appropriate to
7 mitigate the anticipated potential impacts of planned transportation improvements.

8 (4) Where the advance mitigation mechanisms in paragraphs (1) to (3), inclusive,
9 are not practicable, the department may implement advance mitigation, or fund the
10 implementation of advance mitigation, in accordance with a programmatic
11 mitigation plan pursuant to Section 800.9. No more than 25 percent of the funds in
12 the Advance Mitigation Account may be allocated for this purpose over a four-year
13 period.

14 (b) The department may use, or allow other transportation agencies to use,
15 mitigation credits or values generated or obtained under the program to fulfill the
16 mitigation requirements of planned transportation improvements if the applicable
17 transportation agency reimburses the program for all costs of purchasing or creating
18 the mitigation credits or values, as determined by the department. Those costs shall
19 be calculated using total cost accounting and shall include, as applicable, land
20 acquisition or conservation easement costs, monitoring and enforcement costs,
21 restoration costs, transaction costs, administrative costs, contingency costs, and land
22 management, monitoring, and protection costs.

23 (c) The department shall track all implemented advance mitigation projects to use
24 as credits for environmental mitigation.

25 (d) Projects or plans prepared pursuant to this section that overlap with any
26 approved natural community conservation plan or approved regional federal habitat
27 conservation plan, shall be consistent with that plan and shall include an explanation
28 of whether and to what extent they are consistent with any overlapping state or
29 federal recovery plan, or other state-approved or federal-approved conservation
30 strategy.

31 (e) Mitigation credits created pursuant to this section may be used for covered
32 activities under an approved natural community conservation plan only in
33 accordance with the requirements of the plan. Individuals and entities eligible for
34 coverage as a participating special entity under an approved natural community
35 conservation plan may use mitigation credits created pursuant to this section only if
36 the plan's implementing entity declines to extend coverage to the covered activity
37 proposed by the eligible individual or entity.

38 (f) By July 1, 2019, and biennially thereafter, the department, pursuant to Section
39 9795 of the Government Code, and notwithstanding Section 10231.5 of the
40 Government Code, shall submit to the Legislature a report that describes to what
41 extent the Advance Mitigation Program has accelerated the delivery of
42 transportation projects. At a minimum, the report shall include the following:

1 (1) An accounting of the Advance Mitigation Account funds.

2 (2) Identification of expected state and federal resource and regulatory agency
3 mitigation requirements for transportation projects utilizing the Advance Mitigation
4 Program.

5 (3) A discussion of the extent to which those requirements are satisfied using
6 advance mitigation credits.

7 (4) The use of funds to prepare, or to fund the preparation of, regional
8 conservation assessments and regional conservation investment strategies.

9 (5) Recommendations for maximizing the ability of the Advance Mitigation
10 Program to satisfy state and federal mitigation requirements.

11 (g) By July 1, 2018, or one year after the initial Advance Mitigation Program
12 investments have begun, whichever is earlier, and biennially thereafter, the
13 Department of Fish and Wildlife shall, pursuant to Section 9795 of the Government
14 Code, and notwithstanding Section 10231.5 of the Government Code, submit a
15 report to the Legislature that describes the extent to which the Advance Mitigation
16 Program has improved the quality and effectiveness of habitat mitigation provided
17 by the department for transportation projects and makes related recommendations
18 on how to maximize these attributes. The report shall also include recommendations
19 on how to maximize the quality and effectiveness of habitat mitigation developed
20 pursuant to the Advance Mitigation Program.

21 (h) Nothing in this article shall be construed to impose any restrictions or
22 requirements on the department for activities that do not involve the utilization of
23 Advance Mitigation Account funds. Nothing in this article shall be construed to
24 require the department to use the Advance Mitigation Program.

25 (i) Prior to making any expenditure from the Advance Mitigation Account, the
26 Director of Transportation shall make a determination and justification that the
27 proposed expenditure is likely to accelerate project delivery of specific projects.

28 (j) Any state water or transportation infrastructure agency that requests approval
29 of a regional conservation investment strategy pursuant to ~~subdivision (a) of Section~~
30 1852 Section 64935 of the Fish and Game Wildlife Code that may be used to
31 facilitate mitigation for an infrastructure project shall not be subject to the limitation
32 on the number of regional conservation investment strategies set in Section ~~1861~~
33 64810 of the Fish and Game Wildlife Code.

34 **Comment.** Section 800.6(a)(2) and (j) are amended to reflect the recodification of the former
35 Fish and Game Code.

36 VEHICLE CODE

37 **Veh. Code § 21117 (amended).**

38 SEC. ____ . Section 21117 of the Vehicle Code is amended to read:

39 21117. (a) Local authorities may, notwithstanding Section 21101 or 21101.6, by
40 written agreement approved by their legislative bodies, transfer among themselves

1 the responsibility for maintaining, operating, or controlling public access to any
2 highway under their respective jurisdictions located in or adjacent to an ecological
3 reserve or an environmentally sensitive area within their respective jurisdictions.

4 (b) An agreement entered into pursuant to subdivision (a) may authorize the local
5 authority having responsibility for the highway under the agreement to do all of the
6 following:

7 (1) Limit access by motor vehicles to the highway during certain hours of the day
8 or certain days of the week.

9 (2) Prohibit access by motor vehicles during certain hours of the day or certain
10 days of the week.

11 (3) Provide for the construction or erection of barricades or other devices designed
12 or intended to separate pedestrians from vehicles or motor vehicles.

13 (4) Establish and operate a program by which vehicular access is permitted only
14 in conjunction with specified educational programs or for disabled persons, or both.

15 (5) Issue temporary permits for special events valid for less than one day.

16 (c) As used in this section, the term “ecological reserve” has the same meaning as
17 defined in Section 1584 60755 of the Fish and Game Wildlife Code, and
18 “environmentally sensitive area” has the same meaning as defined in Section
19 30107.5 of the Public Resources Code.

20 **Comment.** Section 21117 is amended to reflect the recodification of the former Fish and Game
21 Code.

22 WATER CODE

23 **Water Code § 139.4 (amended).**

24 SEC. ____ . Section 139.4 of the Water Code is amended to read:

25 139.4. (a) The department and the Department of Fish and Game Wildlife shall
26 determine the principal options for the delta.

27 (b) The department shall evaluate and comparatively rate each option determined
28 in subdivision (a) for its ability to do the following:

29 (1) Prevent the disruption of water supplies derived from the Sacramento-San
30 Joaquin Delta.

31 (2) Improve the quality of drinking water supplies derived from the delta.

32 (3) Reduce the amount of salts contained in delta water and delivered to, and often
33 retained in, our agricultural areas.

34 (4) Maintain delta water quality for delta users.

35 (5) Assist in preserving delta lands.

36 (6) Protect water rights of the “area of origin” and protect the environments of the
37 Sacramento-San Joaquin river systems.

38 (7) Protect highways, utility facilities, and other infrastructure located within the
39 delta.

40 (8) Preserve, protect, and improve delta levees.

1 (c) The Department of Fish and Game Wildlife shall evaluate and comparatively
2 rate each option determined in subdivision (a) for its ability to restore salmon and
3 other fisheries that use the San Francisco Bay/Sacramento-San Joaquin Delta
4 Estuary.

5 (d) On or before January 1, 2008, the department and the Department of Fish and
6 Game Wildlife shall jointly report to the Legislature and Governor, in writing, with
7 regard to the results of the evaluation required by Section 139.2 and the comparative
8 ratings required by subdivisions (b) and (c).

9 **Comment.** Section 139.4 is amended to update references to the former Department of Fish and
10 Game. See Fish & Wildlife Code § 1500.

11 **Water Code § 233 (amended).**

12 SEC. _____. Section 233 of the Water Code is amended to read:

13 233. No plans or proposal for authorization of a project for construction or
14 operation by the State shall be submitted to the Legislature by the Department of
15 Water Resources unless the plans or proposal includes (1) the comments and
16 recommendations, if any, of the Department of Fish and Game Wildlife and (2)
17 provision for any water or facilities necessary for public recreation and the
18 preservation and enhancement of fish and wildlife resources that the Department of
19 Water Resources determines to be justifiable in terms of statewide interest, and
20 feasible, as a nonreimbursable cost of the project.

21 **Comment.** Section 233 is amended to update a reference to the former Department of Fish and
22 Game. See Fish & Wildlife Code § 1500.

23 **Water Code § 345 (amended).**

24 SEC. _____. Section 345 of the Water Code is amended to read:

25 345. The Department of Water Resources shall (a) plan recreation development
26 associated with state-constructed water projects in consultation with local public
27 agencies and affected state and federal agencies, (b) thereafter acquire land
28 necessary to implement and execute plans for such development pursuant to specific
29 legislative authorization. Such authorization shall specify to what extent, if any, the
30 power of eminent domain may be used.

31 It is hereby declared to be the intention of the Legislature, in enacting this section,
32 that no water resources development funds will be appropriated for the purpose of
33 acquiring land for recreation development associated with state-constructed water
34 projects, exclusive of land required for storage and conservation of water for such
35 projects.

36 In carrying out its duties under this section, the Department of Water Resources
37 may enter into contracts, leases, and agreements with other state agencies, the
38 federal government, local public agencies, and persons; and the Department of Fish
39 and Game Wildlife, the Department of Parks and Recreation and all other affected
40 state and local agencies shall cooperate with the Department of Water Resources to
41 that end.

1 **Comment.** Section 345 is amended to update a reference to the former Department of Fish and
2 Game. See Fish & Wildlife Code § 1500.

3 **Water Code § 359 (amended).**

4 SEC. _____. Section 359 of the Water Code is amended to read:

5 359. (a) Notwithstanding any other provision of law that requires an election for
6 the purpose of authorizing a contract with the United States, or for incurring the
7 obligation to repay loans from the United States, and except as otherwise limited or
8 prohibited by the California Constitution, a public water agency, as an alternative
9 procedure to submitting the proposal to an election, upon affirmative vote of four-
10 fifths of the members of the governing body thereof, may apply for, accept, provide
11 for the repayment together with interest thereon, and use funds made available by
12 the federal government pursuant to Public Law 95-18, pursuant to any other federal
13 act subsequently enacted during 1977 that specifically provides emergency drought
14 relief financing, or pursuant to existing federal relief programs receiving budget
15 augmentations in 1977 for drought assistance, and may enter into contracts that are
16 required to obtain those federal funds pursuant to the provisions of those federal acts
17 if the following conditions exist:

18 (1) The project is undertaken by a state, regional, or local governmental agency.

19 (2) As a result of the severe drought now existing in many parts of the state, the
20 agency has insufficient water supply needed to meet necessary agricultural,
21 domestic, industrial, recreational, and fish and wildlife needs within the service area
22 or area of jurisdiction of the agency.

23 (3) The project will develop or conserve water before October 31, 1978, and will
24 assist in mitigating the impacts of the drought.

25 (4) The agency affirms that it will comply, if applicable, with Sections 1602, 1603,
26 and 1605 Title 3 (commencing with Sections 69700) of Part 4 of Division 17 of the
27 Fish and Game Wildlife Code.

28 (5) The project will be completed on or before the completion date, if any,
29 required under the federal act providing the funding, but not later than March 1,
30 1978.

31 (b) Any obligation to repay loans shall be expressly limited to revenues of the
32 system improved by the proceeds of the contract.

33 (c) No application for federal funds pursuant to this section shall be made on or
34 after March 1, 1978.

35 (d) Notwithstanding the provisions of this section, a public agency shall not be
36 exempt from any provision of law that requires the submission of a proposal to an
37 election if a petition requesting such an election signed by 10 percent of the
38 registered voters within the public agency is presented to the governing board within
39 30 days following the submission of an application for federal funds.

40 (e) Notwithstanding the provisions of this section, a public water agency that
41 applied for federal funds for a project before January 1, 1978, may make application
42 to the Director of the Drought Emergency Task Force for extension of the required

completion date specified in paragraph (5) of subdivision (b). Following receipt of an application for extension, the Director of the Drought Emergency Task Force may extend the required completion date specified in paragraph (5) of subdivision (b) to a date not later than September 30, 1978, if the director finds that the project has been delayed by factors not controllable by the public water agency. If the Drought Emergency Task Force is dissolved, the Director of Water Resources shall exercise the authority vested in the Director of the Drought Emergency Task Force pursuant to this section.

(f) For the purposes of this section, “public water agency” means a city, district, agency, authority, or any other political subdivision of the state, except the state, that distributes water to the inhabitants thereof, is otherwise authorized by law to enter into contracts or agreements with the federal government for a water supply or for financing facilities for a water supply, and is otherwise required by law to submit those agreements or contracts or any other project involving long-term debt to an election within that public water agency.

Comment. Paragraph (4) of subdivision (a) of Section 359 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** In the tentative recommendation, Fish and Game Code Section 1602 would be continued in proposed Sections 69710, 69750, 69785, 70155, and 70165; Section 1603 would be continued in proposed Sections 69795, 69805, 69810, and 70050 through 70070; Section 1605 would be continued as proposed Sections 69850 through 69880. The proposed cross-reference revision above would refer to the title that contains all of those sections, rather than referring to the sections individually. That seems unproblematic, because the entire title relates to the substance of the referenced provisions.

The Commission requests public comment on whether that simplified reference would cause any problems.

Water Code § 1013 (amended).

SEC. _____. Section 1013 of the Water Code is amended to read:

1013. (a) The Imperial Irrigation District, acting under a contract with the United States for diversion and use of Colorado River water or pursuant to the California Constitution or to this chapter, or complying with an order of the Secretary of the Interior, a court, or the board, to reduce through conservation measures, the volume of the flow of water directly or indirectly into the Salton Sea, shall not be held liable for any effects to the Salton Sea or its bordering area resulting from the conservation measures.

(b) For the purposes of this section, and during the term of the Quantification Settlement Agreement as defined in subdivision (a) of Chapter 617 of the Statutes of 2002, “land fallowing conservation measures” means the generation of water to be made available for transfer or for environmental mitigation purposes by fallowing land or removing land from agricultural production regardless of whether the fallowing or removal from agricultural production is temporary or long term, and regardless of whether it occurs in the course of normal and customary agricultural production, if both of the following apply:

1 (1) The measure is part of a land fallowing conservation plan that includes
2 mitigation provisions adopted by the Board of Directors of the Imperial Irrigation
3 District.

4 (2) Before the Imperial Irrigation District adopts a land fallowing conservation
5 plan, the district shall consult with the Board of Supervisors of the County of
6 Imperial and obtain the board's assessment of whether the proposed land fallowing
7 conservation plan includes adequate measures to avoid or mitigate unreasonable
8 economic or environmental impacts in the County of Imperial.

9 (c) In order to minimize impacts on the environment, during the term of the
10 Quantification Settlement Agreement and for six years thereafter, in any evaluation
11 or assessment of the Imperial Irrigation District's use of water, it shall be
12 conclusively presumed that any water conserved, or used for mitigation purposes,
13 through land fallowing conservation measures has been conserved in the same
14 volume as if conserved by efficiency improvements, such as by reducing canal
15 seepage, canal spills, or surface or subsurface runoff from irrigation fields.

16 (d) If a party to the Quantification Settlement Agreement engages in water
17 efficiency conservation measures or land fallowing conservation measures to carry
18 out a Quantification Settlement Agreement transfer or to mitigate the environmental
19 impacts of a Quantification Settlement Agreement transfer, there may be no
20 forfeiture, diminution, or impairment of the right of that party to use of the water
21 conserved.

22 (e) During the period that the Quantification Settlement Agreement is in effect
23 and the Imperial Irrigation District is meeting its water delivery obligations under
24 the Quantification Settlement Agreement and its water delivery obligations under
25 ~~subdivision (c) of Section 2081.7~~ subdivision (b) of Section 63305 of the Fish and
26 Game Wildlife Code, no person or local agency, as defined in Section 21062 of the
27 Public Resources Code, may seek to obtain additional conserved Colorado River
28 water from the district, voluntarily or involuntarily, until the district has adopted a
29 resolution offering to make conserved Colorado River water available.

30 (f) During the initial term in which the Quantification Settlement Agreement is in
31 effect, any water transferred by the Imperial Irrigation District shall be subject to an
32 ecosystem restoration fee established by the Department of Fish and Game Wildlife,
33 in consultation with the board, to cover the proportional impacts to the Salton Sea
34 of the additional water transfer. The fee shall not exceed 10 percent of the amount
35 of any compensation received for the transfer of the water. The fee shall be
36 deposited in the Salton Sea Restoration Fund. This fee shall not apply to the
37 following transfers:

38 (1) Transfers to meet water delivery obligations under the Quantification
39 Settlement Agreement and related agreements, as defined in that agreement.

40 (2) Transfers to comply with ~~subdivision (c) of Section 2081.7~~ subdivision (b) of
41 Section 63305 of the Fish and Game Wildlife Code.

1 (3) Transfers pursuant to a Defensive Transfer Agreement as defined in the
2 Agreement for Acquisition of Conserved Water between the Imperial Irrigation
3 District and the Metropolitan Water District of Southern California.

4 (g) Subdivisions (c), (d), (e), and (f) shall not become operative unless the parties
5 have executed the Quantification Settlement Agreement on or before October 12,
6 2003.

7 (h) This section may not be construed to exempt the Imperial Irrigation District
8 from any requirement established under the California Environmental Quality Act
9 (Division 13 (commencing with Section 21000) of the Public Resources Code).

10 **Comment.** Subdivisions (e) and (f) of Section 1013 are amended to reflect the recodification of
11 the former Fish and Game Code. The section is also amended to update a reference to the former
12 Department of Fish and Game. See Fish & Wildlife Code § 1500.

13 **Water Code § 1275 (amended).**

14 SEC. _____. Section 1275 of the Water Code is amended to read:

15 1275. After an application has been perfected, the board may request additional
16 information reasonably necessary to clarify, amplify, correct, or otherwise
17 supplement the information required to be submitted under Article 2 (commencing
18 with Section 1260) or Article 3 (commencing with Section 1270). The board shall
19 provide a reasonable period for submitting the information. The additional
20 information may include, but is not limited to, any of the following:

21 (a) Information needed to demonstrate that unappropriated water is available for
22 appropriation.

23 (b) Information needed to comply, or demonstrate compliance with, any
24 applicable requirements of the Fish and Game Wildlife Code or the federal
25 Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.).

26 (c) Information needed to comply with Division 13 (commencing with Section
27 21000) of the Public Resources Code.

28 **Comment.** Section 1275 is amended to reflect the recodification of the former Fish and Game
29 Code.

30 **Water Code § 1701.3 (amended).**

31 SEC. _____. Section 1701.3 of the Water Code is amended to read:

32 1701.3. (a) After a petition is filed, the board may request additional information
33 reasonably necessary to clarify, amplify, correct, or otherwise supplement the
34 information required to be submitted under this chapter. The board shall provide a
35 reasonable period for submitting the information.

36 (b) The additional information may include, but need not be limited to, any of the
37 following:

38 (1) Information needed to demonstrate that the change will not injure any other
39 legal user of water.

(2) Information needed to demonstrate that the change will comply with any applicable requirements of the Fish and Game Wildlife Code or the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.).

(3) Information needed to comply with Division 13 (commencing with Section 21000) of the Public Resources Code.

Comment. Section 1701.3 is amended to reflect the recodification of the former Fish and Game Code.

Water Code § 6500 (amended).

SEC. _____. Section 6500 of the Water Code is amended to read:

6500. Whenever an application for approval of plans and specifications for a new dam, or for the enlargement of any dam, in any stream in this State state, is filed pursuant to Part 1 of this division, a copy of the application shall be filed with the Fish and Game Commission as required by the Fish and Game Wildlife Code.

Comment. Section 6500 is amended to reflect the recodification of the former Fish and Game Code. The section is also amended to make a technical correction.

Water Code § 6501 (amended).

SEC. _____. Section 6501 of the Water Code is amended to read:

6501. The provisions for the installation of fishways over or around dams and for the protection and preservation of fish in streams obstructed by dams are contained in Chapter 3 (commencing with Section 5900), Part 1, Division 6 Title 1 (commencing with Section 68000) and Chapter 1 (commencing with Section 69500) of Title 2 of Part 4 of Division 17 of the Fish and Game Wildlife Code.

Comment. Section 6501 is amended to reflect the recodification of the former Fish and Game Code.

Water Code § 8539 (amended).

SEC. _____. Section 8539 of the Water Code is amended to read:

8539. The Legislature hereby finds and declares that there is an urgent need for channel clearing and desnagging in many California waterways, and that these snags pose a severe danger and cause unnecessary erosion of banks.

The board, other state agencies, cities, counties, and districts are hereby authorized to cooperate with one another and with agencies of the United States in the performance of channel clearing and desnagging work within the Sacramento and San Joaquin Rivers and their tributaries, and may furnish money, services, equipment, and other property to that end. The board, as appropriate, shall consult with the Department of Water Resources, the State Lands Commission, and the Department of Fish and Game Wildlife in carrying out its responsibilities pursuant to this section.

Comment. Section 8539 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

1 **Water Code § 8610 (amended).**

2 SEC. _____. Section 8610 of the Water Code is amended to read:

3 8610. The board shall offer to lease to the Department of Fish and Game Wildlife,
4 or to an appropriate public resource protection or public conservation agency or
5 organization approved by the Department of Fish and Game Wildlife and the board,
6 any lands it acquires as replacement habitat as mitigation for adverse environmental
7 impacts of its projects. The lease agreement shall ensure that these lands are
8 managed to provide the mitigation for which they were acquired and shall include,
9 but not be limited to, provisions for funding management of those lands. Funds for
10 management of those lands may include, but are not limited to, funds appropriated
11 by the Legislature to the Department of Water Resources, the Reclamation Board,
12 or the Department of Fish and Game Wildlife, and funds available from local
13 entities. The lease agreement shall reserve the authority of the board to carry out
14 necessary flood control activities and mitigate adverse environmental impacts.

15 **Comment.** Section 8610 is amended to update references to the former Department of Fish and
16 Game. See Fish & Wildlife Code § 1500.

17 **Water Code § 8611 (amended).**

18 SEC. _____. Section 8611 of the Water Code is amended to read:

19 8611. (a) Except as provided in subdivision (b), prior to construction at a site of a
20 flood control, channel clearance, or bank stabilization project, the board, in
21 consultation with the Department of Fish and Game Wildlife, shall prepare and
22 adopt a mitigation plan which shall be implemented as part of the project. A
23 mitigation plan shall include, but not be limited to, all of the following:

24 (1) A description of the actions that the board proposes to take to ensure that the
25 project will meet all mitigation standards required by law with the objective of
26 ensuring that the project causes no net loss of riparian, fishery, or wildlife habitat.

27 (2) A designation of the agency or agencies responsible for implementing and
28 maintaining each mitigation element of the plan.

29 (3) A schedule for implementation of the mitigation ensuring that the mitigation
30 measures will be accomplished prior to, or concurrent with, construction of the
31 project, unless the board determines that to do so would be impracticable.

32 (4) A financing plan for the mitigation identifying the source or sources of funds
33 for the mitigation, the share of mitigation costs attributable to each source, and a
34 schedule of when the funds are to be provided.

35 The plan may take into consideration the environmental benefits of restoring,
36 maintaining, or increasing the sustainable diversity of native species and habitat
37 which may result from the project, if these benefits have been approved by the
38 Department of Fish and Game Wildlife. The Department of Fish and Game Wildlife
39 may submit a review of the plan and its recommendations to the board for inclusion
40 in the plan.

1 (b) No mitigation plan is required when the board is responding to an emergency
2 where no mitigation is required.

3 (c) For any project authorized pursuant to Section 12668, the agreement set forth
4 in subdivision (a) shall provide for the mitigation of the project with the objective
5 of providing a net long-term enhancement of the riparian habitat and fishery in the
6 project area. The degree of net enhancement required for each phase or part of the
7 project shall not be so great as to cause the project to be infeasible.

8 **Comment.** Section 8611 is amended to update references to the former Department of Fish and
9 Game. See Fish & Wildlife Code § 1500.

10 **Water Code § 11901 (amended).**

11 SEC. _____. Section 11901 of the Water Code is amended to read:

12 11901. (a) It is the purpose of this chapter to provide for the planning and
13 construction of water storage, conservation, and regulation facilities and associated
14 fish and wildlife and recreation features consistent with this declaration and to make
15 provision for funds therefor on a continuing basis, and to provide for the operation
16 and maintenance of such fish and wildlife and recreation features.

17 (b) In enacting this chapter, however, it is not the intent of the Legislature to
18 diminish any existing powers of the Department of Water Resources, the
19 Department of Parks and Recreation, or the Department of Fish and Game Wildlife,
20 but rather to provide specifically for the preservation and enhancement of fish and
21 wildlife resources and for a system of public recreation facilities at state water
22 projects as part of a coordinated plan for multipurpose use of these projects.

23 **Comment.** Section 11901 is amended to update a reference to the former Department of Fish
24 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
25 designations.

26 **Water Code § 11910 (amended).**

27 SEC. _____. Section 11910 of the Water Code is amended to read:

28 11910. There shall be incorporated in the planning and construction of each
29 project those features (including, but not limited to, additional storage capacity) that
30 the department, after giving full consideration to any recommendations which may
31 be made by the Department of Fish and Game Wildlife, the Department of Parks
32 and Recreation, any federal agency, and any local governmental agency with
33 jurisdiction over the area involved, determines necessary or desirable for the
34 preservation of fish and wildlife, and necessary or desirable to permit, on a year-
35 round basis, full utilization of the project for the enhancement of fish and wildlife
36 and for recreational purposes to the extent that those features are consistent with
37 other uses of the project, if any. It is the intent of the Legislature that there shall be
38 full and close coordination of all planning for the preservation and enhancement of
39 fish and wildlife and for recreation in connection with state water projects by and
40 between the Department of Water Resources, the Department of Parks and

1 Recreation, the Department of Fish and Wildlife, and all appropriate federal and
2 local agencies.

3 **Comment.** Section 11910 is amended to update a reference to the former Department of Fish
4 and Game. See Fish & Wildlife Code § 1500.

5 **Water Code § 11915.5 (amended).**

6 SEC. _____. Section 11915.5 of the Water Code is amended to read:

7 11915.5. (a) For the purpose of furthering recreation in any project of the
8 department, the department may exchange any real property it has acquired for
9 property in the state owned by the United States which is of substantially equal
10 value, whether or not such real property of the United States is adjacent to or needed
11 for any project of the department. Such title or rights as the department deems
12 necessary for the proper operation and maintenance of the water conservation, flood
13 control or power features of any water project shall not be included in any exchange
14 consummated under this section.

15 (b) Any such exchange involving real property acquired by the department solely
16 for recreation shall be concurred in by the Department of Parks and Recreation. Any
17 such exchange involving property acquired by the department solely for fish and
18 wildlife purposes shall be concurred in by the Department of Fish and ~~Game~~
19 Wildlife. Any such exchange involving property acquired solely for fish, wildlife
20 and recreational purposes shall be concurred in by the Department of Fish and ~~Game~~
21 Wildlife and the Department of Parks and Recreation. Real property of the United
22 States not necessary for a project of the department shall be acquired by the
23 department by exchange under this section only if another agency of state
24 government has agreed to acquire such real property from the department for the
25 actual cost to the department of the real property which is to be given in exchange
26 therefor; provided, that any amount appropriated to the department to reimburse it
27 for prior expenditures for acquisition of such land shall be deducted from the actual
28 cost.

29 **Comment.** Section 11915.5 is amended to update references to the former Department of Fish
30 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
31 designations.

32 **Water Code § 11917 (amended).**

33 SEC. _____. Section 11917 of the Water Code is amended to read:

34 11917. The Department of Fish and ~~Game~~ Wildlife shall manage fish and wildlife
35 resources at state water projects, including any such additional resources as are
36 created by such projects, in a manner compatible with the other uses of such
37 projects.

38 **Comment.** Section 11917 is amended to update a reference to the former Department of Fish
39 and Game. See Fish & Wildlife Code § 1500.

1 **Water Code § 12307 (amended).**

2 SEC. _____. Section 12307 of the Water Code is amended to read:

3 12307. (a) The Resources Agency, the department, the Reclamation Board, and
4 the Department of Fish and Game Wildlife shall enter into a memorandum of
5 understanding to coordinate the implementation of the programs subject to this
6 chapter.

7 (b) The memorandum of understanding shall provide that the Department of Fish
8 and Game Wildlife shall enforce any mitigation requirements involving programs
9 subject to this chapter.

10 **Comment.** Section 12307 is amended to update references to the former Department of Fish and
11 Game. See Fish & Wildlife Code § 1500.

12 **Water Code § 12314 (amended).**

13 SEC. _____. Section 12314 of the Water Code is amended to read:

14 12314. (a) Guided by the approved priority list developed pursuant to Section
15 12313, the department shall develop project plans to accomplish the needed flood
16 protection work in cooperation with the local public agency, the public beneficiary,
17 and the Department of Fish and Game Wildlife.

18 (b) The plans shall be subject to the approval of the appropriate local public
19 agency or agencies and subject to any cost-sharing agreement the department may
20 have entered into under Section 12312. Project plans may include, or be a
21 combination of, the improvement, rehabilitation, or modification of existing levees,
22 and the conveyance of interests in land to limit or to modify land management
23 practices which have a negative impact on flood control facilities.

24 (c) Project plans shall include provision for the protection of fish and wildlife
25 habitat determined to be necessary by the Department of Fish and Game Wildlife
26 and not injurious to the integrity of flood control works. The Department of Fish
27 and Game Wildlife shall consider the value of the riparian and fisheries habitat and
28 the need to provide greater flood protection in preparing its requirements, and shall
29 not approve any plan which calls for the use of channel islands or berms with
30 significant riparian communities as borrow sites for levee repair materials, unless
31 fully mitigated, or any plans that will result in a net long-term loss of riparian,
32 fisheries, or wildlife habitat.

33 (d) After the memorandum of understanding required pursuant to Section 12307
34 is amended as required by Section 78543, the Department of Fish and Game
35 Wildlife shall also make a written determination as part of its review and approval
36 of a plan or project pursuant to this section and Section 12987 that the proposed
37 expenditures are consistent with a net long-term habitat improvement program and
38 have a net benefit for aquatic species in the delta. The memorandum of
39 understanding in effect prior to the amendments required by Section 78543 shall
40 remain in effect with regard to levee projects and plans until the memorandum of
41 understanding is amended.

1 **Comment.** Section 12314 is amended to update references to the former Department of Fish and
2 Game. See Fish & Wildlife Code § 1500.

3 **Water Code § 12511 (amended).**

4 SEC. _____. Section 12511 of the Water Code is amended to read:
5 12511. The board consists of eight members appointed by the Governor as
6 provided in this chapter, two of whom shall be public members appointed by the
7 Governor, and the Director of Water Resources and the Director of Fish and Game
8 Wildlife or their designees.

9 **Comment.** Section 12511 is amended to update a reference to the Director of the former
10 Department of Fish and Game. See Fish & Wildlife Code § 1500.

11 **Water Code § 12525 (amended).**

12 SEC. _____. Section 12525 of the Water Code is amended to read:
13 12525. The board shall elect from among its members, other than the Director of
14 Water Resources or the Director of Fish and Game Wildlife or their designees, a
15 chairman chair who is ex officio the “Colorado River Commissioner.” The chairman
16 chair shall serve at the pleasure of the board.

17 **Comment.** Section 12525 is amended to update a reference to the Director of the former
18 Department of Fish and Game. See Fish & Wildlife Code § 1500. The section is also amended to
19 make the text gender neutral.

20 **Water Code § 12565 (amended).**

21 SEC. _____. Section 12565 of the Water Code is amended to read:
22 12565. The two hundred million dollars (\$200,000,000) made available to the
23 director pursuant to subdivision (a) of Section 12562 may be expended solely for
24 the lining of the All American Canal and the Coachella Branch of the All American
25 Canal and only if all of the following requirements have been met:

26 (a) The Salton Sea Authority commissions a study of seepage and subsurface
27 inflows to the Salton Sea from the All American Canal and the Coachella Branch of
28 the All American Canal, and that study is completed. The study shall determine the
29 nature of subsurface and drainage canal water movements from the unlined canals
30 to the Salton Sea and to existing adjacent wetlands, and shall quantify the amount
31 of water that may be lost to the Salton Sea and to those wetlands due to the canal
32 lining projects. The Salton Sea Science Subcommittee shall review the requests for
33 proposals for the study and shall be consulted in selecting the contractor responsible
34 for conducting the study.

35 (b) Environmental documentation and permits required by the California
36 Environmental Quality Act (Division 13 (commencing with Section 21000) of the
37 Public Resources Code), the National Environmental Policy Act of 1969 (42
38 U.S.C.A. Sec. 4321 et seq.), and any other applicable state and federal
39 environmental laws are approved and certified for the All American Canal Lining
40 Project or the Coachella Branch Lining Project.

(c) Pursuant to its responsibilities as a trustee agency under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code), the Director of Fish and Game Wildlife makes a finding that a canal lining project that is the subject of a request for funding pursuant to this chapter will avoid or mitigate all significant effects of the project on fisheries and other wildlife. The finding shall be accompanied by a statement from the United States Secretary of the Interior certifying that measures for the replacement of incidental fish and wildlife values adjacent to the All American Canal and the Coachella Branch of the All American Canal foregone as a result of the lining of the canal, or the mitigation of resulting impacts on fish and wildlife resources from the construction of a new canal, or a portion thereof, meet the statutory requirements of Section 203(a)(2) of Public Law 100-675. These mitigation measures shall be on an acre-for-acre basis, based on ecological equivalency, and shall be implemented concurrent with the construction of the canal lining project.

Comment. Subdivision (c) of Section 12565 is amended to update a reference to the Director of the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Water Code § 12582 (amended).

SEC. _____. Section 12582 of the Water Code is amended to read:

12582. Fish and wildlife values, both economic and recreational, shall be given consideration in any flood control or water conservation program. In the design, construction, and operation of projects, when engineering and economic features of the project make it practicable, adequate provisions shall be made for the protection of migratory fishes, and the designs for structures and facilities required for such protection shall be prepared in cooperation with the United States Fish and Wildlife Service and the California Department of Fish and Game Wildlife.

Comment. Section 12582 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Water Code § 12608 (amended).

SEC. _____. Section 12608 of the Water Code is amended to read:

12608. At any hearing by or on behalf of the department any county, city, state agency, including the Department of Fish and Game Wildlife, public district, association, or any person affected by or interested in the control, storage, and use of water resources, involved in the hearing may appear and present any petition, evidence, testimony, plan, data, information, or opinion bearing on the subject matter of the hearing including an evaluation of loss and damage to fish and other natural resources.

Comment. Section 12608 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

Water Code § 12846 (amended).

SEC. _____. Section 12846 of the Water Code is amended to read:

1 12846. The Department of Fish and Game Wildlife shall be responsible for the
2 management of all fish and wildlife resources at any project subject to the provisions
3 of this chapter.

4 **Comment.** Section 12846 is amended to update a reference to the former Department of Fish
5 and Game. See Fish & Wildlife Code § 1500.

6 **Water Code § 12882.4 (amended).**

7 SEC. _____. Section 12882.4 of the Water Code is amended to read:

8 12882.4. A copy of each application, except applications for loans for the
9 preparation of proposed feasibility reports, shall be transmitted by the department
10 to the Department of Parks and Recreation and to the Department of Fish and Game
11 Wildlife.

12 **Comment.** Section 12882.4 is amended to update a reference to the former Department of Fish
13 and Game. See Fish & Wildlife Code § 1500.

14 **Water Code § 12929.40 (amended).**

15 SEC. _____. Section 12929.40 of the Water Code is amended to read:

16 12929.40. In developing its recommendations for the appropriation of funds
17 pursuant to this chapter, the department shall consult with the Department of Fish
18 and Game Wildlife and other appropriate local, state, and federal agencies and
19 interested private groups and members of the public.

20 **Comment.** Section 12929.40 is amended to update a reference to the former Department of Fish
21 and Game. See Fish & Wildlife Code § 1500.

22 **Water Code § 12987 (amended).**

23 SEC. _____. Section 12987 of the Water Code is amended to read:

24 12987. (a) Local agencies maintaining project or nonproject levees shall be
25 eligible for reimbursement pursuant to this part upon submission to and approval by
26 the board of plans for the maintenance and improvement of the project or nonproject
27 levees, including plans for the annual routine maintenance of the levees, in
28 accordance with the criteria adopted by the board.

29 (b) The nonproject plans shall also be compatible with the plan for improvement
30 of the delta levees as set forth in Bulletin No. 192-82 of the department, dated
31 December 1982, and as approved in Section 12225. Both project and nonproject
32 plans shall include provisions to acquire easements along levees that allow for the
33 control and reversal of subsidence in areas where the department determines that
34 such an easement is desirable to maintain structural stability of the levee. The
35 easement shall (1) restrict the use of the land to open-space uses, nontillable crops,
36 the propagation of wildlife habitat, and other compatible uses, (2) provide full
37 access to the local agency for levee maintenance and improvement purposes, and
38 (3) allow the owner to retain reasonable rights of ingress and egress as well as
39 reasonable rights of access to the waterways for water supply and drainage. The
40 local agency cost of acquisition of the easements shall be reimbursable by the

1 department from moneys appropriated pursuant to paragraph (1) of subdivision (b)
2 of Section 12300, or any other sources appropriated by the Legislature for purposes
3 of this part.

4 (c) The plans shall also include provision for protection of the fish and wildlife
5 habitat determined to be necessary by the Department of Fish and Game Wildlife
6 and not injurious to the integrity of the levee. The Department of Fish and Game
7 Wildlife shall consider the value of the riparian and fisheries habitat and the need to
8 provide safe levees in preparing its requirements. The Department of Fish and Game
9 Wildlife shall not approve any plan which calls for the use of channel islands or
10 berms with significant riparian communities as borrow sites for levee repair
11 material, unless fully mitigated, or any plans which will result in a net long-term
12 loss of riparian, fisheries, or wildlife habitat.

13 (d) After the memorandum of understanding required pursuant to Section 12307
14 is amended as required by Section 78543, the Department of Fish and Game
15 Wildlife shall also make a written determination as part of its review and approval
16 of a plan or project pursuant to Section 12314 and this section that the proposed
17 expenditures are consistent with a net long-term habitat improvement program and
18 have a net benefit for aquatic species in the delta. The memorandum of
19 understanding in effect prior to the amendments required by Section 78543 shall
20 remain in effect with regard to levee projects and plans until the memorandum of
21 understanding is amended.

22 (e) The plans shall also take into account the most recently updated Delta Master
23 Recreation Plan prepared by the Resources Agency.

24 (f) Upon approval of the plans by the board, the local agencies shall enter into an
25 agreement with the board to perform the maintenance and improvement work,
26 including the annual routine maintenance work, specified in the plans. If
27 applications for state funding in any year exceed the state funds available, the board
28 shall apportion the funds among those levees or levee segments that are identified
29 by the department as most critical and beneficial, considering the needs of flood
30 control, water quality, recreation, navigation, habitat improvements, and fish and
31 wildlife.

32 **Comment.** Section 12987 is amended to update references to the former Department of Fish and
33 Game. See Fish & Wildlife Code § 1500.

34 **Water Code § 12994 (amended).**

35 SEC. _____. Section 12994 of the Water Code is amended to read:

36 12994. (a) The Legislature finds and declares all of the following:

37 (1) The CALFED Bay-Delta Program has identified as a core action the need for
38 emergency levee management planning for delta levees to improve system
39 reliability.

40 (2) Even with active levee maintenance, the threat of delta levee failures from
41 earthquake, flood, or poor levee foundation, will continue to exist.

1 (3) Because of this threat of failure, and the potential need to mobilize people and
2 equipment in an emergency to protect delta levees and public benefits, the
3 department needs authority that will enable it to act quickly.

4 (b) The department may do all of the following:

5 (1) In an emergency, as defined by Section 21060.3 of the Public Resources Code,
6 that requires immediate levee work to protect public benefits in the delta, the
7 department may use funds pursuant to this part without prior approval of a plan by
8 the board or the Department of Fish and Wildlife, in which case the requirements of
9 Sections 12314 and 12987, and the memorandum of understanding pursuant to
10 Section 12307, shall be carried out as soon as possible.

11 (A) The amount of funds that may be expended each year on emergency levee
12 work under this section shall not be greater than two hundred thousand dollars
13 (\$200,000) and the amount that may be expended per emergency levee site shall not
14 be greater than fifty thousand dollars (\$50,000). The local agency shall fund 25
15 percent of the total costs of the emergency repair at a site or shall fund an appropriate
16 share of the costs as approved by the board and based upon information of the local
17 agency's ability to pay for the repairs.

18 (B) Department contracts executed for emergency levee work under this section
19 shall be exempted from Department of General Services approval required under
20 the Public Contract Code.

21 (C) As soon as feasible after the emergency repair, the department shall submit a
22 report to the board describing the levee work, costs incurred, and plans for future
23 work at the site, including any necessary mitigation.

24 (D) This section is intended to supplement emergency services provided by the
25 state or the United States. Nothing in this section overrides or supersedes the
26 authority of the Director of Emergency Services under the California Emergency
27 Services Act (Chapter 7 (commencing with Section 8550) of Division 1 of Title 2
28 of the Government Code) or the Disaster Assistance Act (Chapter 7.5 (commencing
29 with Section 8680) of Division 1 of Title 2 of the Government Code).

30 (2) Prepare and submit to the board for adoption a delta emergency response plan
31 for levee failures. The plan is exempt from Chapter 3.5 (commencing with Section
32 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The plan may
33 include recommendations of the multiagency response team established pursuant to
34 paragraph (3) and may include, but not be limited to, the following:

35 (A) Standardized contracts for emergency levee work to be executed by the
36 department, local agencies, or other appropriate entities.

37 (B) Criteria for eligible emergency levee work.

38 (C) Definition of an emergency levee site.

39 (D) Documentation requirements.

40 (E) Proposals for complying with the federal Endangered Species Act of 1973 (16
41 U.S.C. Sec. 1531 et seq.) and the California Endangered Species Act (Chapter 1.5

1 ~~(commencing with Section 2050) of Division 3 Part 1 (commencing with Section~~
2 ~~62000) of Division 17 of the Fish and Game Wildlife Code)~~ in an emergency.

3 (F) Stages of emergency response that may occur in various situations.

4 (3) Establish a multiagency emergency response team, consisting of
5 representatives from the department, the board, the Department of Fish and
6 Wildlife, the California Conservation Corps, the Office of Emergency Services, the
7 Federal Emergency Management Agency, the United States Army Corps of
8 Engineers, and the United States Fish and Wildlife Service to advise on methods to
9 ensure that levee emergencies will be resolved as quickly and safely as possible.

10 **Comment.** Paragraph (2) of subdivision (b) of Section 12994 is amended to reflect the
11 recodification of the former Fish and Game Code.

12 **Water Code § 12999 (amended).**

13 SEC. ____ . Section 12999 of the Water Code is amended to read:

14 12999. (a) The department, in collaboration with the Department of Food and
15 Agriculture, the Department of Fish and Game Wildlife, and the Colorado River
16 Board of California may cooperate with the federal government, the other Colorado
17 River Basin states, and other entities for the purpose of preparing a plan to control
18 or eradicate tamarisk in the Colorado River watershed. The department, the
19 Department of Food and Agriculture, the Department of Fish and Game Wildlife,
20 and the Colorado River Board of California shall seek to collaborate with affected
21 California water agencies and other appropriate entities in that preparation. The plan
22 shall include the reestablishment of native vegetation and the identification of
23 potential federal and nonfederal funding sources for implementation pursuant to
24 subdivision (b).

25 (b) The department, in collaboration with the Department of Food and
26 Agriculture, the Department of Fish and Game Wildlife, the Colorado River Board
27 of California, and appropriate federal agencies, shall implement the plan within
28 California upon the appropriation of funds for that purpose. The department, the
29 Department of Food and Agriculture, the Department of Fish and Game Wildlife,
30 and the Colorado River Board of California shall seek to collaborate with affected
31 California water agencies and other appropriate entities in the implementation of the
32 plan.

33 (c) This section does not preclude the department or any other entity from
34 expending bond funds or nonstate funds for the control or eradication of tamarisk in
35 the Colorado River watershed.

36 **Comment.** Section 12999 is amended to update references to the former Department of Fish and
37 Game. See Fish & Wildlife Code § 1500.

38 **Water Code § 14901 (amended).**

39 SEC. ____ . Section 14901 of the Water Code is amended to read:

40 14901. The Legislature finds and declares as follows:

1 (a) A report on the San Joaquin Valley Drainage Program entitled, “A
2 Management Plan for Agricultural Subsurface Drainage and Related Problems on
3 the Westside San Joaquin Valley,” has identified 75,000 acres of irrigated
4 agricultural lands that should be retired by the year 2040 primarily due to
5 characteristics of low productivity, poor drainability, and high levels of selenium in
6 shallow groundwater.

7 (b) Federal, state, and local water organizations and officials should consider the
8 management plan and adopt those parts appropriate for their long-term strategy of
9 contributing to the management or solution of the drainage problems of the west
10 side of the San Joaquin Valley.

11 (c) The United States Department of the Interior and the State of California should
12 jointly develop a technical assistance program to ameliorate the drainage problems.

13 (d) The people of the state are concerned with the continued leaching of harmful
14 elements from these lands.

15 (e) Continued irrigation of these lands could create significant drainage and
16 environmental problems.

17 (f) Implementing solutions to the drainage and environmental problems
18 associated with these lands will be very costly.

19 (g) The department is responsible for water planning and development activities
20 throughout the state, has participated in the development of the plan for the
21 management of subsurface drainage problems, and shall take an active leadership
22 role in implementing the plan, including the land retirement element of the plan.

23 (h) Local agencies have decisionmaking authority, and are subject to court
24 judgments, and statutory and contractual obligations, relating to water use and
25 distribution. The department shall coordinate its activities under this chapter with
26 those local agencies.

27 (i) The federal government has ongoing statutory and contractual obligations to
28 provide drainage service to the lands within the San Luis Unit of the Central Valley
29 Project. The department shall recognize those obligations and shall coordinate land
30 retirement activities with appropriate federal agencies.

31 (j) The Department of Fish and ~~Game~~ Wildlife is responsible for the stewardship
32 of the state’s fish and wildlife resources and the habitat on which they depend, and
33 can offer its considerable expertise to the department on matters relating to the
34 management of lands in accordance with this chapter and shall be consulted
35 concerning the management of the lands acquired pursuant to this chapter and
36 managed as fish and wildlife habitat.

37 (k) The Department of Conservation is responsible for administering programs to
38 conserve the state’s agricultural lands and has information on the state’s soil and
39 farmlands and shall be consulted for the purpose of identifying agricultural lands
40 that may be acquired pursuant to this chapter.

41 **Comment.** Subdivision (j) of Section 14901 is amended to update a reference to the former
42 Department of Fish and Game. See Fish & Wildlife Code § 1500.

1 **Water Code § 14903 (amended).**

2 SEC. _____. Section 14903 of the Water Code is amended to read:

3 14903. (a) The San Joaquin Valley Drainage Relief Program is hereby established
4 in the department.

5 (b) The department shall carry out the program and may develop, in consultation
6 with the state board, the Department of Conservation, and the Department of Fish
7 and Game Wildlife, a land retirement demonstration program.

8 (c) The department may adopt regulations to carry out the program.

9 (d) The purpose of the program is to encourage the cessation of irrigation of
10 retirement land and to otherwise assist in the resolution of the agricultural
11 subsurface drainage problems in the San Joaquin Valley through the coordinated
12 efforts of federal, state, and local agencies, nonprofit organizations, and private
13 landowners who elect to participate in the program.

14 **Comment.** Section 14903 is amended to update a reference to the former Department of Fish
15 and Game. See Fish & Wildlife Code § 1500.

16 **Water Code § 14905 (amended).**

17 SEC. _____. Section 14905 of the Water Code is amended to read:

18 14905. The department may enter into agreements with the state board, the
19 Department of Fish and Game Wildlife, the Department of Conservation, possessors
20 of water rights, and other appropriate public agencies and nonprofit organizations
21 to provide for the purchase and management of retirement land and water pursuant
22 to this chapter.

23 **Comment.** Section 14905 is amended to update a reference to the former Department of Fish
24 and Game. See Fish & Wildlife Code § 1500.

25 **Water Code § 14906 (amended).**

26 SEC. _____. Section 14906 of the Water Code is amended to read:

27 14906. Property acquired pursuant to this chapter shall be managed as upland
28 habitat, wetlands, riparian habitat, or nonirrigated agricultural land, as appropriate.
29 The department shall coordinate with the Department of Fish and Game Wildlife to
30 ensure that adequate funding is available for management of the retirement land and
31 use of water for environmental purposes.

32 **Comment.** Section 14906 is amended to update a reference to the former Department of Fish
33 and Game. See Fish & Wildlife Code § 1500.

34 **Water Code § 14953 (amended).**

35 SEC. _____. Section 14953 of the Water Code is amended to read:

36 14953. (a) If a commercial shellfish growing area is threatened by point or
37 nonpoint source pollution, as specified in Section 14954, the regional board shall
38 form a technical advisory committee, within 90 days of the effective date of this act,
39 devoted solely to the threatened area. A technical advisory committee shall be
40 formed for any subsequently threatened area within 90 days of the date the threat is

1 identified pursuant to Section 14954. The technical advisory committee shall advise
2 and assist that board in developing a strategy for appropriate investigation and
3 remediation pursuant to Sections 14955 and 14956 to reduce pollution affecting that
4 area. The regional board shall give public notice of the formation of the technical
5 advisory committee. All meetings of the technical advisory committee shall be
6 public.

7 (b) For the purpose of subdivision (a), the technical advisory committee shall
8 include both of the following:

9 (1) One commercial shellfish grower from the threatened area, one representative
10 from the State Department of Health Services, one representative from the
11 Department of Fish and Game Wildlife, one representative from the California
12 Coastal Commission, one representative from each category of potential pollution
13 source, one representative from a local environmental group, and one representative
14 from the local health department.

15 (2) Additional members and a chairperson appointed by the regional board.

16 (c) Members of the technical advisory committee established pursuant to
17 subdivision (a) shall not receive a per diem or other compensation, and shall not be
18 reimbursed for any expenses.

19 **Comment.** Section 14953 is amended to update a reference to the former Department of Fish
20 and Game. See Fish & Wildlife Code § 1500.

21 **Water Code § 14954 (amended).**

22 SEC. _____. Section 14954 of the Water Code is amended to read:

23 14954. For the purpose of Section 14953, a commercial shellfish growing area is
24 threatened if any of the following applies:

25 (a) The State Department of Health Services downgrades the classification
26 applicable to the commercial shellfish growing area.

27 (b) The commercial shellfish growing area is subjected to harvest closure for more
28 than 30 days per calendar year during the previous three years.

29 (c) The State Department of Health Services classifies the commercial shellfish
30 growing area as restricted.

31 (d) The regional board, the Department of Fish and Game Wildlife, or the
32 California Coastal Commission determines that the commercial shellfish growing
33 area is threatened.

34 **Comment.** Section 14954 is amended to update a reference to the former Department of Fish
35 and Game. See Fish & Wildlife Code § 1500.

36 **Water Code § 31162 (amended).**

37 SEC. _____. Section 31162 of the Water Code is amended to read:

38 31162. The operation of all facilities and appliances permitted by Section 31161
39 shall be in accordance with rules and regulations applicable thereto adopted by the
40 board subject to the provisions of Section 531 68315 of the Fish and Game Wildlife
41 Code.

Comment. Section 31162 is amended to reflect the recodification of the former Fish and Game Code.

 **Note.** Section 31162 refers to Fish and Game Code Section 531. There is no such provision. However, Section 31162 was enacted in 1949. See 1949 Cal. Stat. ch. 274. At that time, the referenced provision did exist. It read: “The owner of a dam shall accord to the public for the purpose of fishing, the right of access to the waters impounded by the dam during the open season for the taking of fish in such stream or river, subject to the rules and regulations of the commission.” See 1933 Cal. Stat. ch. 73.

That language was continued in Fish and Game Code Section 5943. However, Section 5943 was amended in 1996 to provide that the fishing access rule “does not apply to any impoundment of water by a dam that is wholly located on privately owned land that is primarily agricultural or residential in nature if the impounded waters are from a stream or river that is not naturally frequented by fish and if the dam does not prevent the free passage of fish over or around the dam. The Legislature finds and declares that this subdivision is intended to be declaratory of existing law.” See 1996 Cal. Stat. ch. 273, § 1.

Section 31162 would be revised to refer to the rule as amended in 1996.

The Commission requests public comment on whether that approach would cause any problems.

Water Code § 78501 (amended).

SEC. _____. Section 78501 of the Water Code is amended to read:

78501. Unless the context otherwise requires, the following definitions govern the construction of this division:

(a) “Bay-delta” means the San Francisco Bay/Sacramento-San Joaquin Delta Estuary.

(b) “Board” means the State Water Resources Control Board.

(c) “CALFED” refers to a consortium of five state agencies, including the Resources Agency, the department, the Department of Fish and Game Wildlife, the California Environmental Protection Agency, and the board, and five federal agencies, including the United States Department of Interior, the United States Bureau of Reclamation, the United States Fish and Wildlife Service, the Environmental Protection Agency, and the National Marine Fisheries Service, with management and regulatory responsibilities in the bay-delta.

(d) “Clean Water Act” means the federal Clean Water Act (33 U.S.C.A. Sec. 1251 et seq.) and includes any amendments thereto.

(e) “Committee” means the Safe, Clean, Reliable Water Supply Finance Committee created pursuant to Section 78693.

(f) “Delta” means the Sacramento-San Joaquin Delta.

(g) “Department” means the Department of Water Resources.

(h) “Fund” means the Safe, Clean, Reliable Water Supply Fund created pursuant to Section 78505.

Comment. Section 78501 is amended to update a reference to the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

1 **Water Code § 78531 (amended).**

2 SEC. ____ . Section 78531 of the Water Code is amended to read:

3 78531. (a) Notwithstanding Section 13340 of the Government Code, the money
4 in the subaccount is hereby continuously appropriated, without regard to fiscal
5 years, to the Controller, to be allocated to pay the state's share of the costs for fish
6 and wildlife restoration measures required by Section 3406 of the Central Valley
7 Project Improvement Act (P.L. 102-575), in accordance with subdivisions (b) and
8 (c).

9 (b) Funds appropriated pursuant to subdivision (a) shall be allocated to the
10 Department of Fish and Game Wildlife or the department for expenditure pursuant
11 to the terms of the cost-sharing agreement between the United States and the State
12 of California as required by subsection (h) of Section 3406 of the Central Valley
13 Project Improvement Act, or any agreements supplemental thereto, for the payment
14 of costs allocated to the state for the protection and restoration of fish and wildlife
15 resources and habitat pursuant to Section 3406 of that federal act.

16 (c) The money in the subaccount may be used for both of the following purposes:

17 (1) To pay for the state's cost-sharing allocations or for actions directly
18 undertaken by the department or the Department of Fish and Game Wildlife relating
19 to fish and wildlife restoration actions required by Section 3406 of the Central
20 Valley Project Improvement Act (P.L. 102-575). For purposes of this paragraph,
21 and consistent with Attachment C of the "Principles for Agreement on Bay-Delta
22 standards between the State of California and the Federal Government," dated
23 December 15, 1994, preference for the screening of diversions shall be given to
24 projects, and projects within programs, identified in the Central Valley Project
25 Improvement Act (P.L. 102-575) for which deadlines have been established by state
26 or federal agencies, or by a state or federal court. Any preference established under
27 this paragraph shall be revised if the deadlines are extended or eliminated.

28 (2) To pay for administrative costs incurred in connection with the
29 implementation of this section by the department and the Department of Fish and
30 Game Wildlife related to fish and wildlife restoration measures undertaken pursuant
31 to Section 3406 of the Central Valley Project Improvement Act (P.L. 102-575), as
32 follows:

33 (A) Not more than 3 percent of the total amount deposited in the subaccount for
34 the use of the department may be used to pay the costs incurred in connection with
35 the administration of this article by the department.

36 (B) Not more than 3 percent of the total amount deposited in the subaccount for
37 the use of the Department of Fish and Game Wildlife may be used to pay the costs
38 incurred in connection with the administration of this article by the Department of
39 Fish and Game Wildlife.

40 **Comment.** Section 78531 is amended to update references to the former Department of Fish and
41 Game. See Fish & Wildlife Code § 1500.

1 **Water Code § 78543 (amended).**

2 SEC. _____. Section 78543 of the Water Code is amended to read:

3 78543. (a) No expenditure of funds may be made under this article unless the
4 Department of Fish and Game Wildlife makes a written determination as part of its
5 review and approval of a plan or project pursuant to Section 12314 or 12987 that
6 the proposed expenditures are consistent with a net long-term habitat improvement
7 program, and have a net benefit for aquatic species in the delta. The Department of
8 Fish and Game Wildlife shall make its determination in a reasonable and timely
9 manner following the submission of the project or plan to that department. For the
10 purposes of this article, an expenditure may include more than one levee project or
11 plan.

12 (b) The memorandum of understanding entered into pursuant to Section 12307
13 shall be amended to require, in accordance with this section, that projects or plans
14 be consistent with a net long-term habitat improvement program in the delta. The
15 memorandum of understanding shall define the term “net long-term habitat
16 improvement program in the delta” for purposes of this section. The memorandum
17 of understanding in effect prior to the amendment required by this section shall
18 continue to apply to levee projects and plans until the memorandum of
19 understanding is amended.

20 **Comment.** Section 78543 is amended to update references to the former Department of Fish and
21 Game. See Fish & Wildlife Code § 1500.

22 **Water Code § 78551 (amended).**

23 SEC. _____. Section 78551 of the Water Code is amended to read:

24 78551. (a) Notwithstanding Section 13340 of the Government Code, the money
25 in the subaccount is hereby continuously appropriated, without regard to fiscal
26 years, to the department, to pay the costs incurred by the department that are not
27 attributable to the State Water Project’s or the Central Valley Project’s share of costs
28 for the South Delta Barriers Program, and for the administration of this article.

29 (b) The costs identified in subdivision (a) include costs incurred for the purpose
30 of mitigating non-State Water Project or non-Central Valley Project impacts and for
31 the purpose of environmental enhancement in the delta.

32 (c) No funds shall be expended under this article unless the Department of Fish
33 and Game Wildlife determines, in writing, that a net habitat benefit will result.

34 **Comment.** Section 78551 is amended to update a reference to the former Department of Fish
35 and Game. See Fish & Wildlife Code § 1500.

36 **Water Code § 78647.2 (amended).**

37 SEC. _____. Section 78647.2 of the Water Code is amended to read:

38 78647.2. (a) The board shall administer a program under which a county, or a joint
39 powers authority in which a county is a participant, may submit an application to
40 the board for an eligible project requesting financial or technical assistance for the
41 purpose of developing a voluntary, incentive-based watershed rehabilitation project.

1 The board shall consult with other federal and state resource agencies, including,
2 but not limited to, the Department of Fish and Game Wildlife and the Department
3 of Forestry and Fire Protection, in the administration of the program. The Resources
4 Agency shall make a written recommendation to the board regarding each
5 application. The board shall consider the recommendations of the Resources
6 Agency and include, when appropriate, the recommendation in the board's final
7 decision.

8 (b) Notwithstanding subdivision (a), if a county, or a joint powers authority in
9 which a county is a participant, after a request to do so by a local public agency,
10 declines to submit an application for an eligible project for a watershed that is all or
11 in part within the boundaries of the county, a local public agency other than the
12 county or that joint powers agency may submit an application in accordance with
13 subdivision (a).

14 **Comment.** Section 78647.2 is amended to update a reference to the former Department of Fish
15 and Game. See Fish & Wildlife Code § 1500.

16 **Water Code § 78682.2 (amended).**

17 SEC. _____. Section 78682.2 of the Water Code is amended to read:

18 78682.2. The money in the subaccount shall be made available, upon
19 appropriation by the Legislature, for the acquisition and restoration of riparian
20 habitat, riverine aquatic habitat, and other lands in close proximity to rivers and
21 streams and for river and stream trail projects undertaken in accordance with any of
22 the following provisions:

23 (a) ~~Chapter 4 (commencing with Section 1300) Title 1 (commencing with Section~~
24 ~~54700) of Part 2 of Division 15 and Chapter 4.1 (commencing with Section 1385)~~
25 ~~of Division 2 Title 12 (commencing with Section 57700) Part 2 of Division 15~~ of
26 the Fish and Game Wildlife Code.

27 (b) Chapter 5 (commencing with Section 31200), Chapter 6 (commencing with
28 Section 31251), and Chapter 9 (commencing with Section 31400), of Division 21
29 of the Public Resources Code.

30 (c) Division 22.5 (commencing with Section 32500) of the Public Resources
31 Code.

32 (d) Urban river park acquisition and restoration projects undertaken pursuant to
33 Division 23 (commencing with Section 33000) of the Public Resources Code.

34 (e) River parkway projects undertaken by a state agency, city, county, city and
35 county, or pursuant to a joint powers agreement between two or more of these
36 entities.

37 **Comment.** Section 78682.2 is amended to reflect the recodification of the former Fish and Game
38 Code.

39 **Water Code § 79038 (amended).**

40 SEC. _____. Section 79038 of the Water Code is amended to read:

1 79038. (a) For the purposes of this article, the department shall give highest
2 priority to projects that include either of the following:

3 (1) Projects that have been assigned high priority for completion by the
4 department for flood protection purposes and by the Department of Conservation
5 for purposes of preserving agricultural land in accordance with the Agricultural
6 Land Stewardship Program Act of 1995 (Division 10.2 (commencing with Section
7 10200) of the Public Resources Code).

8 (2) Projects that have been assigned high priority for completion by the
9 department for flood protection purposes and by the Department of Fish and Game
10 Wildlife for wildlife habitat protection or restoration purposes.

11 (b) For restoration, enhancement, and protection projects, the services of the
12 California Conservation Corps or community conservation corps shall be used
13 whenever feasible.

14 **Comment.** Section 79038 is amended to update a reference to the former Department of Fish
15 and Game. See Fish & Wildlife Code § 1500.

16 **Water Code § 79050 (amended).**

17 SEC. _____. Section 79050 of the Water Code is amended to read:

18 79050. (a) No expenditure of funds may be made under this article unless the
19 Department of Fish and Game Wildlife makes a written determination as part of its
20 review and approval of a plan or project pursuant to Section 12314 or 12987. The
21 Department of Fish and Game Wildlife shall make its determination in a reasonable
22 and timely manner following the submission of the project or plan to that
23 department.

24 (b) For the purposes of this article, an expenditure may include more than one
25 levee project or plan.

26 **Comment.** Section 79050 is amended to update references to the former Department of Fish and
27 Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
28 designations.

29 **Water Code § 79068.8 (amended).**

30 SEC. _____. Section 79068.8 of the Water Code is amended to read:

31 79068.8. No expenditures of state funds may be made under this article until the
32 department or the Reclamation Board determines that all of the following
33 requirements have been met:

34 (a) There is a final environmental document prepared pursuant to the California
35 Environmental Quality Act (commencing with Section 21000 of the Public
36 Resources Code).

37 (b) The project is in compliance with the California Endangered Species Act
38 (~~Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1 (commencing~~
39 ~~with Section 62000) of Division 17~~ of the Fish and Game Wildlife Code), as
40 demonstrated by documentation such as comments received from the Department

1 of Fish and Game Wildlife, a permit obtained from the Department of Fish and
2 Game Wildlife, or other appropriate evidence.

3 (c) The local project proponent agrees to pay at least that portion of the nonfederal
4 capital costs of the project required by Section 12585.5.

5 (d) The local project proponent agrees to operate and maintain the completed
6 project.

7 (e) The local project proponent enters into an agreement indemnifying and
8 holding the state, its agencies, officers and employees free and harmless from any
9 and all liability arising out of the design, construction, operation and maintenance
10 of the project.

11 (f) The project is recommended for implementation by the department or the
12 Reclamation Board.

13 **Comment.** Section 79068.8 is amended to reflect the recodification of the former Fish and Game
14 Code, and to update references to the former Department of Fish and Game. See Fish & Wildlife
15 Code § 1500. The section is also amended to make a technical correction.

16 **Water Code § 79068.14 (amended).**

17 SEC. _____. Section 79068.14 of the Water Code is amended to read:

18 79068.14. (a) Twenty million dollars (\$20,000,000) in the subaccount, upon
19 appropriation to the Department of Fish and Game Wildlife, may be used by that
20 department, if it determines that any flood control project undertaken pursuant to
21 this article would result in a reduction of, or damage to, fish, wildlife, or riparian
22 habitat, to protect, improve, restore, create, or enhance fish, wildlife, and riparian
23 habitat of a comparable type to that which was reduced or damaged.

24 (b) Any land acquired pursuant to this section shall be acquired from willing
25 sellers.

26 **Comment.** Section 79068.14 is amended to update a reference to the former Department of Fish
27 and Game. See Fish & Wildlife Code § 1500.

28 **Water Code § 79104.204 (amended).**

29 SEC. _____. Section 79104.204 of the Water Code is amended to read:

30 79104.204. The money in the subaccount, upon appropriation by the Legislature
31 to the Department of Fish and Game Wildlife, shall be used by the Department of
32 Fish and Game Wildlife for direct expenditure and for grants to public agencies and
33 nonprofit organizations to protect, restore, acquire, and enhance habitat for salmon.
34 These funds may be used to match federal funding available for those purposes.

35 **Comment.** Section 79104.204 is amended to update references to the former Department of Fish
36 and Game. See Fish & Wildlife Code § 1500.

37 **Water Code § 79563.5 (amended).**

38 SEC. _____. Section 79563.5 of the Water Code is amended to read:

39 79563.5. (a) The board, to the extent that funds are appropriated pursuant to
40 Section 79563 of the Water Code for purposes that are consistent with this section,

1 shall fund the development of one or more integrated coastal watershed
2 management plans.

3 (b) The plans shall be designed to allow for the integration of projects funded by
4 the State Coastal Conservancy pursuant to Chapter 5.5 (commencing with Section
5 31220) of Division 21 of the Public Resources Code, and projects funded by the
6 board pursuant to Chapter 3 (commencing with Section 30915) and Article 5
7 (commencing with Section 30945) of Chapter 4, of Division 20.4 of the Public
8 Resources Code, within one or more coastal regions.

9 (c) The planning areas shall be selected by the board in consultation with the State
10 Coastal Conservancy and the Department of Fish and Game Wildlife and shall
11 include coastal watersheds that influence water quality in areas of special biological
12 significance.

13 (d) The board may only expend funds for the purposes of this section to the extent
14 the board determines that the expenditures are consistent with the requirements of
15 this chapter.

16 **Comment.** Section 79563.5 is amended to update a reference to the former Department of Fish
17 and Game. See Fish & Wildlife Code § 1500.

18 **Water Code § 79736 (amended).**

19 SEC. _____. Section 79736 of the Water Code is amended to read:

20 79736. Of the funds authorized by Section 79730, four hundred seventy-five
21 million dollars (\$475,000,000) shall be available to the Natural Resources Agency
22 to support projects that fulfill the obligations of the State of California in complying
23 with the terms of any of the following:

24 (a) Subsection (d) of Section 3406 of the Central Valley Project Improvement Act
25 (Title 34 of Public Law 102-575).

26 (b) Interstate compacts set forth in Section 66801 of the Government Code
27 pursuant to Title 7.42 (commencing with Section 66905) of the Government Code.

28 (c) Intrastate or multiparty water quantification settlement agreement provisions,
29 including ecosystem restoration projects, as set forth in Chapters 611, 612, 613, and
30 614 of the Statutes of 2003.

31 (d) The settlement agreement referenced in Section 2080.2 63350 of the Fish and
32 Game Wildlife Code.

33 (e) Any intrastate or multiparty settlement agreement related to water acted upon
34 or before December 31, 2013. Priority shall be given to projects that meet one or
35 more of the following criteria:

36 (1) The project is of statewide significance.

37 (2) The project restores natural aquatic or riparian functions, or wetlands habitat
38 for birds and aquatic species.

39 (3) The project protects or promotes the restoration of endangered or threatened
40 species.

(4) The project enhances the reliability of water supplies on a regional or interregional basis.

(5) The project provides significant regional or statewide economic benefits.

Comment. Section 79736 is amended to reflect the recodification of the former Fish and Game Code.

Water Code § 85032 (amended).

SEC. _____. Section 85032 of the Water Code is amended to read:

85032. This division does not affect any of the following:

(a) The Natural Community Conservation Planning Act (~~Chapter 10 (commencing with Section 2800) of Division 3 Title 2 (commencing with Section 64500) of Part 2 of Division 17 of the Fish and Game Wildlife Code~~).

(b) The California Endangered Species Act (~~Chapter 1.5 (commencing with Section 2050) of Division 3 Part 1 (commencing with Section 62000) of Division 17 of the Fish and Game Wildlife Code~~).

(c) The Fish and Game Wildlife Code.

(d) The Porter-Cologne Water Quality Control Act (Division 7 (commencing with Section 13000)).

(e) Chapter 8 (commencing with Section 12930) of Part 6 of Division 6.

(f) The California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(g) Section 1702.

(h) The application of the public trust doctrine.

(i) Any water right.

(j) The liability of the state for flood protection in the Delta or its watershed.

Comment. Section 85032 is amended to reflect the recodification of the former Fish and Game Code.

Water Code § 85034 (amended).

SEC. _____. Section 85034 of the Water Code is amended to read:

85034. (a) (1) The council shall administer all contracts, grants, easements, and agreements made or entered into by the California Bay-Delta Authority under Division 26.4 (commencing with Section 79400), as that division read on December 31, 2009.

(2) The exercise of the authority described in paragraph (1) is not subject to review or approval by the Department of General Services.

(3) A contract, lease, license, or any other agreement to which the California Bay-Delta Authority is a party is not void or voidable as a result of the implementation of this subdivision, but shall continue in full force and effect until the end of its term.

(b) The council shall be the successor to and shall assume from the California Bay-Delta Authority all of the administrative rights, abilities, obligations, and duties of that authority.

1 (c) The council shall have possession and control of all records, papers,
2 equipment, supplies, contracts, leases, agreements, and other property, real or
3 personal, connected with the administration of Division 26.4 (commencing with
4 Section 79400), as that division read on December 31, 2009, or held for the benefit
5 or use of the California Bay-Delta Authority.

6 (d) The council shall assume from the California Bay-Delta Authority all
7 responsibility to manage, in accordance with Chapter 5 (commencing with Section
8 85280) of Part 3, the science program element that was required to be undertaken
9 by Division 26.4 (commencing with Section 79400), as that division read on
10 December 31, 2009.

11 (e) Consistent with the responsibilities and duties assumed by the council pursuant
12 to this section, all staff, resources, and funding within the Natural Resources Agency
13 and the Department of Forestry and Fire Protection for the support of the CALFED
14 Bay-Delta Program are hereby transferred to, and may be expended for the purposes
15 of, the council. The executive officer of the council shall confer with the Director
16 of Fish and Game Wildlife, the director of the department, and the executive director
17 of the board regarding possible reallocation of the staff and resources. The status,
18 position, and rights of any officer or employee shall not be affected by this transfer
19 and all officers and employees shall be retained pursuant to the State Civil Service
20 Act (Part 2 (commencing with Section 18500) of Division 5 of Title 2 of the
21 Government Code).

22 **Comment.** Subdivision (e) of Section 85034 is amended to update a reference to the Director of
23 the former Department of Fish and Game. See Fish & Wildlife Code § 1500.

24 **Water Code § 85084.5 (amended).**

25 SEC. _____. Section 85084.5 of the Water Code is amended to read:

26 85084.5. The Department of Fish and Game Wildlife, in consultation with the
27 United States Fish and Wildlife Service and the National Marine Fisheries Service
28 and based on the best available science, shall develop and recommend to the board
29 Delta flow criteria and quantifiable biological objectives for aquatic and terrestrial
30 species of concern dependent on the Delta. The recommendations shall be
31 developed no later than 12 months after the date of enactment of this division.

32 **Comment.** Section 85084.5 is amended to update a reference to the former Department of Fish
33 and Game. See Fish & Wildlife Code § 1500.

34 **Water Code § 85085 (amended).**

35 SEC. _____. Section 85085 of the Water Code is amended to read:

36 85085. The department shall do all of the following:

37 (a) Coordinate with the Department of Fish and Game Wildlife, the board, the
38 California regional water quality control boards, and the State Lands Commission
39 efforts to cooperate with the United States Bureau of Reclamation to construct and
40 implement the Two-Gates Fish Protection Demonstration Project by December 1,
41 2010.

- 1 (b) Evaluate the effectiveness of the Three Mile Slough Barrier project.
2 (c) Expeditiously move ahead with other near term actions as identified in the
3 Strategic Plan.
4 (d) Assist in implementing early action ecosystem restoration projects, including,
5 but not limited to, Dutch Slough tidal marsh restoration and Meins Island tidal
6 marsh restoration.

7 **Comment.** Section 85085 is amended to update a reference to the former Department of Fish
8 and Game. See Fish & Wildlife Code § 1500.

9 **Water Code § 85087 (amended).**

10 SEC. _____. Section 85087 of the Water Code is amended to read:

11 85087. The board, by December 31, 2010, shall submit to the Legislature a
12 prioritized schedule and estimate of costs to complete instream flow studies for the
13 Delta and for high priority rivers and streams in the Delta watershed, not otherwise
14 covered by Section 85086, by 2012, and for all major rivers and streams outside the
15 Sacramento River watershed by 2018. In developing this schedule, the board shall
16 consult with the Department of Fish and Game Wildlife as to the timing of its
17 submission of recommendations for instream flow needs.

18 **Comment.** Section 85087 is amended to update a reference to the former Department of Fish
19 and Game. See Fish & Wildlife Code § 1500.

20 **Water Code § 85320 (amended).**

21 SEC. _____. Section 85320 of the Water Code is amended to read:

22 85320. (a) The Bay Delta Conservation Plan (BDCP) shall be considered for
23 inclusion in the Delta Plan in accordance with this chapter.

24 (b) The BDCP shall not be incorporated into the Delta Plan and the public benefits
25 associated with the BDCP shall not be eligible for state funding, unless the BDCP
26 does all of the following:

27 (1) ~~Complies with Chapter 10 (commencing with Section 2800) of Division 3~~
28 ~~Title 2 (commencing with Section 64500) of Part 2 of Division 17~~ of the Fish and
29 Game Wildlife Code.

30 (2) Complies with Division 13 (commencing with Section 21000) of the Public
31 Resources Code, including a comprehensive review and analysis of all of the
32 following:

33 (A) A reasonable range of flow criteria, rates of diversion, and other operational
34 criteria required to satisfy the criteria for approval of a natural community
35 conservation plan as provided in subdivision (a) of ~~Section 2820~~ 64580 of the Fish
36 and Game Wildlife Code, and other operational requirements and flows necessary
37 for recovering the Delta ecosystem and restoring fisheries under a reasonable range
38 of hydrologic conditions, which will identify the remaining water available for
39 export and other beneficial uses.

1 (B) A reasonable range of Delta conveyance alternatives, including through-
2 Delta, dual conveyance, and isolated conveyance alternatives and including further
3 capacity and design options of a lined canal, an unlined canal, and pipelines.

4 (C) The potential effects of climate change, possible sea level rise up to 55 inches,
5 and possible changes in total precipitation and runoff patterns on the conveyance
6 alternatives and habitat restoration activities considered in the environmental impact
7 report.

8 (D) The potential effects on migratory fish and aquatic resources.

9 (E) The potential effects on Sacramento River and San Joaquin River flood
10 management.

11 (F) The resilience and recovery of Delta conveyance alternatives in the event of
12 catastrophic loss caused by earthquake or flood or other natural disaster.

13 (G) The potential effects of each Delta conveyance alternative on Delta water
14 quality.

15 (c) The department shall consult with the council and the Delta Independent
16 Science Board during the development of the BDCP. The council shall be a
17 responsible agency in the development of the environmental impact report. The
18 Delta Independent Science Board shall review the draft environmental impact report
19 and submit its comments to the council and the Department of Fish and Game
20 Wildlife.

21 (d) If the Department of Fish and Game Wildlife approves the BDCP as a natural
22 community conservation plan pursuant to Chapter 10 (~~commencing with Section~~
23 ~~2800) of Division 3 Title 2 (commencing with Section 64500) of Part 2 of Division~~
24 17 of the Fish and Game Wildlife Code, the council shall have at least one public
25 hearing concerning the incorporation of the BDCP into the Delta Plan.

26 (e) If the Department of Fish and Game Wildlife approves the BDCP as a natural
27 community conservation plan pursuant to Chapter 10 (~~commencing with Section~~
28 ~~2800) of Division 3 Title 2 (commencing with Section 64500) of Part 2 of Division~~
29 17 of the Fish and Game Wildlife Code and determines that the BDCP meets the
30 requirements of this section, and the BDCP has been approved as a habitat
31 conservation plan pursuant to the federal Endangered Species Act (16 U.S.C.
32 Section 1531 et seq.), the council shall incorporate the BDCP into the Delta Plan.
33 The Department of Fish and Game's Wildlife's determination that the BDCP has
34 met the requirements of this section may be appealed to the council.

35 (f) The department, in coordination with the Department of Fish and Game
36 Wildlife, or any successor agencies charged with BDCP implementation, shall
37 report to the council on the implementation of the BDCP at least once a year,
38 including the status of monitoring programs and adaptive management.

39 (g) The council may make recommendations to BDCP implementing agencies
40 regarding the implementation of the BDCP. BDCP implementing agencies shall
41 consult with the council on these recommendations. These recommendations shall

1 not change the terms and conditions of the permits issued by state and federal
2 regulatory agencies.

3 **Comment.** Section 85320 is amended to reflect the recodification of the former Fish and Game
4 Code. The section is also amended to update references to the former Department of Fish and Game.
5 See Fish & Wildlife Code § 1500.

6 **Water Code § 85322 (amended).**

7 SEC. _____. Section 85322 of the Water Code is amended to read:

8 85322. This chapter does not amend, or create any additional legal obligation or
9 cause of action under, ~~Chapter 10 (commencing with Section 2800) of Division 3~~
10 Title 2 (commencing with Section 64500) of Part 2 of Division 17 of the Fish and
11 Game Wildlife Code or Division 13 (commencing with Section 21000) of the Public
12 Resources Code.

13 **Comment.** Section 85322 is amended to reflect the recodification of the former Fish and Game
14 Code.

15 WELFARE AND INSTITUTIONS CODE

16 **Welf. & Inst. Code § 256 (amended).**

17 SEC. _____. Section 256 of the Welfare and Institutions Code is amended to read:

18 256. Subject to the orders of the juvenile court, a juvenile hearing officer may
19 hear and dispose of any case in which a minor under the age of 18 years as of the
20 date of the alleged offense is charged with (1) any violation of the Vehicle Code,
21 except Section 23136, 23140, 23152, or 23153 of that code, not declared to be a
22 felony, (2) a violation of subdivision (m) of Section 602 of the Penal Code, (3) a
23 violation of the Fish and Game Wildlife Code not declared to be a felony, (4) a
24 violation of any of the equipment provisions of the Harbors and Navigation Code
25 or the vessel registration provisions of the Vehicle Code, (5) a violation of any
26 provision of state or local law relating to traffic offenses, loitering or curfew, or
27 evasion of fares on a public transportation system, as defined by Section 99211 of
28 the Public Utilities Code, (6) a violation of Section 27176 of the Streets and
29 Highways Code, (7) a violation of Section 640 or 640a of the Penal Code, (8) a
30 violation of the rules and regulations established pursuant to Sections 5003 and 5008
31 of the Public Resources Code, (9) a violation of Section 33211.6 of the Public
32 Resources Code, (10) a violation of Section 25658, 25658.5, 25661, or 25662 of the
33 Business and Professions Code, (11) a violation of subdivision (f) of Section 647 of
34 the Penal Code, (12) a misdemeanor violation of Section 594 of the Penal Code,
35 involving defacing property with paint or any other liquid, (13) a violation of
36 subdivision (b), (d), or (e) of Section 594.1 of the Penal Code, (14) a violation of
37 subdivision (b) of Section 11357 of the Health and Safety Code, (15) any infraction,
38 (16) any misdemeanor for which the minor is cited to appear by a probation officer
39 pursuant to subdivision (f) of Section 660.5, or (17) a violation of subdivision (b) of

1 Section 601 that is due to having four or more truancies, as described in Section
2 48260 of the Education Code, within one school year.

3 **Comment.** Section 256 is amended to reflect the recodification of the former Fish and Game
4 Code.

5 **Welf. & Inst. Code § 258 (amended).**

6 SEC. _____. Section 258 of the Welfare and Institutions Code is amended to read:

7 258. (a) Upon a hearing conducted in accordance with Section 257, and upon
8 either an admission by the minor of the commission of a violation charged, or a
9 finding that the minor did in fact commit the violation, the judge, referee, or juvenile
10 hearing officer may do any of the following:

11 (1) Reprimand the minor and take no further action.

12 (2) Direct that the probation officer undertake a program of supervision of the
13 minor for a period not to exceed six months, in addition to or in place of the
14 following orders.

15 (3) Order that the minor pay a fine up to the amount that an adult would pay for
16 the same violation, unless the violation is otherwise specified within this section, in
17 which case the fine shall not exceed two hundred fifty dollars (\$250). This fine may
18 be levied in addition to or in place of the following orders and the court may waive
19 any or all of this fine, if the minor is unable to pay. In determining the minor's ability
20 to pay, the court shall not consider the ability of the minor's family to pay.

21 (4) Subject to the minor's right to a restitution hearing, order that the minor pay
22 restitution to the victim, in lieu of all or a portion of the fine specified in paragraph
23 (3). The total dollar amount of the fine, restitution, and any program fees ordered
24 pursuant to paragraph (9) shall not exceed the maximum amount which may be
25 ordered pursuant to paragraph (3). This paragraph shall not be construed to limit the
26 right to recover damages, less any amount actually paid in restitution, in a civil
27 action.

28 (5) Order that the driving privileges of the minor be suspended or restricted as
29 provided in the Vehicle Code or, notwithstanding Section 13203 of the Vehicle
30 Code or any other provision of law, when the Vehicle Code does not provide for the
31 suspension or restriction of driving privileges, that, in addition to any other order,
32 the driving privileges of the minor be suspended or restricted for a period of not to
33 exceed 30 days.

34 (6) In the case of a traffic related offense, order the minor to attend a licensed
35 traffic school, or other court approved program of traffic school instruction pursuant
36 to Chapter 1.5 (commencing with Section 11200) of Division 5 of the Vehicle Code,
37 to be completed by the juvenile within 60 days of the court order.

38 (7) Order that the minor produce satisfactory evidence that the vehicle or its
39 equipment has been made to conform with the requirements of the Vehicle Code
40 pursuant to Section 40150 of the Vehicle Code if the violation involved an
41 equipment violation.

1 (8) Order that the minor perform community service work in a public entity or
2 any private nonprofit entity, for not more than 50 hours over a period of 60 days,
3 during times other than his or her hours of school attendance or employment. Work
4 performed pursuant to this paragraph shall not exceed 30 hours during any 30-day
5 period. The timeframes established by this paragraph shall not be modified except
6 in unusual cases where the interests of justice would best be served. When the order
7 to work is made by a referee or a juvenile hearing officer, it shall be approved by a
8 judge of the juvenile court.

9 For purposes of this paragraph, a judge, referee, or juvenile hearing officer shall
10 not, without the consent of the minor, order the minor to perform work with a private
11 nonprofit entity that is affiliated with any religion.

12 (9) In the case of a misdemeanor, order that the minor participate in and complete
13 a counseling or educational program, or, if the offense involved a violation of a
14 controlled substance law, a drug treatment program, if those programs are available.
15 Fees for participation shall be subject to the right to a hearing as the minor's ability
16 to pay and shall not, together with any fine or restitution order, exceed the maximum
17 amount that may be ordered pursuant to paragraph (3).

18 (10) Require that the minor attend a school program without unexcused absence.

19 (11) If the offense is a misdemeanor committed between 10 p.m. and 6 a.m.,
20 require that the minor be at his or her legal residence at hours to be specified by the
21 juvenile hearing officer between the hours of 10 p.m. and 6 a.m., except for a
22 medical or other emergency, unless the minor is accompanied by his or her parent,
23 guardian, or other person in charge of the minor. The maximum length of an order
24 made pursuant to this paragraph shall be six months from the effective date of the
25 order.

26 (12) Make any or all of the following orders with respect to a violation of the Fish
27 and Game Wildlife Code which is not charged as a felony:

28 (A) That the fishing or hunting license involved be suspended or restricted.

29 (B) That the minor work in a park or conservation area for a total of not to exceed
30 20 hours over a period not to exceed 30 days, during times other than his or her
31 hours of school attendance or employment.

32 (C) That the minor forfeit, pursuant to Section ~~12157~~ 4570 of the Fish and Game
33 Wildlife Code, any device or apparatus designed to be, and capable of being, used
34 to take birds, mammals, fish, reptiles, or amphibians and that was used in committing
35 the violation charged. The judge, referee, or juvenile hearing officer shall, if the
36 minor committed an offense that is punishable under Section ~~12008 or 12008.1~~
37 5320, 5400, 5600, 5900, 5950, 6202, or 6204 of the Fish and Game Wildlife Code,
38 order the device or apparatus forfeited pursuant to Section ~~12157~~ 4570 of the Fish
39 and Game Wildlife Code.

40 (13) If the violation charged is of an ordinance of a city, county, or local agency
41 relating to loitering, curfew, or fare evasion on a public transportation system, as
42 defined by Section 99211 of the Public Utilities Code, or is a violation of Section

1 640 or 640a of the Penal Code, make the order that the minor shall perform
2 community service for a total time not to exceed 20 hours over a period not to exceed
3 30 days, during times other than his or her hours of school attendance or
4 employment.

5 (b) If the minor is before the court on the basis of truancy, as described in
6 subdivision (b) of Section 601, all of the following procedures and limitations shall
7 apply:

8 (1) The judge, referee, or juvenile hearing officer shall not proceed with a hearing
9 unless both of the following have been provided to the court:

10 (A) Evidence that the minor's school has undertaken the actions specified in
11 subdivisions (a), (b), and (c) of Section 48264.5 of the Education Code. If the school
12 district does not have an attendance review board, as described in Section 48321 of
13 the Education Code, the minor's school is not required to provide evidence to the
14 court of any actions the school has undertaken that demonstrate the intervention of
15 a school attendance review board.

16 (B) The available record of previous attempts to address the minor's truancy.

17 (2) The court is encouraged to set the hearing outside of school hours, so as to
18 avoid causing the minor to miss additional school time.

19 (3) Pursuant to paragraph (1) of subdivision (a) of Section 257, the minor and his
20 or her parents shall be advised of the minor's right to refuse consent to a hearing
21 conducted upon a written notice to appear.

22 (4) The minor's parents shall be permitted to participate in the hearing.

23 (5) The judge, referee, or juvenile hearing officer may continue the hearing to
24 allow the minor the opportunity to demonstrate improved attendance before
25 imposing any of the orders specified in paragraph (6). Upon demonstration of
26 improved attendance, the court may dismiss the case.

27 (6) Upon a finding that the minor violated subdivision (b) of Section 601, the
28 judge, referee, or juvenile hearing officer shall direct his or her orders at improving
29 the minor's school attendance. The judge, referee, or juvenile hearing officer may
30 do any of the following:

31 (A) Order the minor to perform community service work, as described in Section
32 48264.5 of the Education Code, which may be performed at the minor's school.

33 (B) Order the payment of a fine by the minor of not more than fifty dollars (\$50),
34 for which a parent or legal guardian of the minor may be jointly liable. The fine
35 described in this subparagraph shall not be subject to Section 1464 of the Penal Code
36 or additional penalty pursuant to any other law. The minor, at his or her discretion,
37 may perform community service, as described in subparagraph (A), in lieu of any
38 fine imposed under this subparagraph.

39 (C) Order a combination of community service work described in subparagraph
40 (A) and payment of a portion of the fine described in subparagraph (B).

41 (D) Restrict driving privileges in the manner set forth in paragraph (5) of
42 subdivision (a). The minor may request removal of the driving restrictions if he or

1 she provides proof of school attendance, high school graduation, GED completion,
2 or enrollment in adult education, a community college, or a trade program. Any
3 driving restriction shall be removed at the time the minor attains 18 years of age.

4 (c)(1) The judge, referee, or juvenile hearing officer shall retain jurisdiction of the
5 case until all orders made under this section have been fully complied with.

6 (2) If a minor is before the judge, referee, or juvenile hearing officer on the basis
7 of truancy, jurisdiction shall be terminated upon the minor attaining 18 years of age.

8 **Comment.** Paragraph (12) of subdivision (a) of Section 258 is amended to reflect the
9 recodification of the former Fish and Game Code.

10  **Note.** In the tentative recommendation, the provisions of the existing Fish and Game Code
11 sections cross-referenced in paragraph (12) of subdivision (a) of the section above have been
12 continued in several different sections of the proposed Fish and Wildlife Code.

13 **The Commission requests public comment on the proposed conforming revision of those**
14 **provisions in the section above.**

15 **Welf. & Inst. Code § 1760.5 (amended).**

16 SEC. _____. Section 1760.5 of the Welfare and Institutions Code is amended to
17 read:

18 1760.5. (a) The director may require persons committed to the authority to
19 perform work necessary and proper to be done by the Department of Forestry and
20 Fire Protection, the Department of Water Resources, the Department of Parks and
21 Recreation, and the Department of Fish and Game Wildlife, by the Division of State
22 Lands, by the United States Department of Agriculture, and by the federal officials
23 and departments in charge of national forests and parks within this state.

24 (b) For the purposes of this section, the director, with the approval of the
25 Department of General Services, may enter into contracts with federal and state
26 officials and departments. All moneys received by the director pursuant to any of
27 those contracts shall be paid into the State Treasury to the credit and in augmentation
28 of the current appropriation for the support of the authority. The director may
29 provide, from those moneys, for the payment of wages to the wards for work they
30 do pursuant to any of those contracts, the wages to be paid into the Indemnity Fund
31 created pursuant to Section 13967 of the Government Code, or to the parents or
32 dependents of the ward, or to the ward in the manner and in those proportions as the
33 Department of the Youth Authority directs.

34 **Comment.** Section 1760.5 is amended to update a reference to the former Department of Fish
35 and Game. See Fish & Wildlife Code § 1500. The section is also amended to add subdivision
36 designations.

Department of Fish & Wildlife End-of-Year Legislative Report

November 2019

[AB 44](#)

([Friedman D](#)) Fur products: prohibition.

Introduced: 12/3/2018

Last Amend: 9/6/2019

Status: 10/12/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 764, Statutes of 2019.

Location: 10/12/2019-A. CHAPTERED

Summary: Would make it unlawful to sell, offer for sale, display for sale, trade, or otherwise distribute for monetary or nonmonetary consideration a fur product, as defined, in the state. The bill would also make it unlawful to manufacture a fur product in the state for sale. The bill would exempt from these prohibitions used fur products, as defined, fur products used for specified purposes, and any activity expressly authorized by federal law. The bill would require a person that sells or trades any fur product exempt from this prohibition to maintain records of each sale or trade of an exempt fur product for at least one year, except as provided.

[AB 202](#)

([Mathis R](#)) Endangered species: conservation: California State Safe Harbor Agreement Program Act.

Introduced: 1/14/2019

Last Amend: 2/26/2019

Status: 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was N.R. & W. on 4/24/2019)(May be acted upon Jan 2020)

Location: 7/10/2019-S. 2 YEAR

Summary: Would delete the January 1, 2020, repeal date of the California State Safe Harbor Agreement Program Act, thereby extending the operation of the act indefinitely. Because submission of false, inaccurate, or misleading information on an application for a state safe harbor agreement under the act would be a crime, this bill would extend the application of a crime, thus imposing a state-mandated local program.

[AB 231](#)

([Mathis R](#)) California Environmental Quality Act: exemption: recycled water.

Introduced: 1/17/2019

Status: 5/9/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 2/7/2019)(May be acted upon Jan 2020)(Recorded 4/26/2019)

Location: 2/7/2019-A. 2 YEAR

Summary: Would exempt from CEQA a project to construct or expand a recycled water pipeline for the purpose of mitigating drought conditions for which a state of emergency was proclaimed by the Governor if the project meets specified criteria. Because a lead agency would be required to determine if a project qualifies for this exemption, this bill would impose a state-mandated local program. The bill would also exempt from CEQA the development and approval of building standards by state agencies for recycled water systems.

[AB 243](#)

([Kamlager-Dove D](#)) Implicit bias training: peace officers.

Introduced: 1/18/2019

Last Amend: 4/22/2019

Status: 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/12/2019)(May be acted upon Jan 2020)

Location: 8/30/2019-S. 2 YEAR

Summary: Current law requires every peace officer to participate in expanded training prescribed by the Commission on Peace Officer Standards and Training that includes and examines evidence-based patterns, practices, and protocols that make up racial and identity profiling, including implicit bias. Once basic training is completed, current law requires specified peace officers to complete a refresher course on racial and identity profiling at least every 5 years. This bill would require those peace officers currently required to take the refresher course every 5 years, and additional peace officers, as specified, to instead take refresher training on racial and identity profiling, including the understanding of implicit bias and the promotion of bias-reducing strategies, at least every 2 years.

AB 255 **(Limón D) Coastal resources: oil spills: grants.**

Introduced: 1/23/2019

Status: 7/12/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 84, Statutes of 2019.

Location: 7/12/2019-A. CHAPTERED

Summary: The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act authorizes the administrator for oil spill response to offer grants to a local government with jurisdiction over or directly adjacent to waters of the state to provide oil spill response equipment to be deployed by a certified local spill response manager, as provided. This bill would provide that Native American tribes and other public entities are also eligible to receive those grants.

AB 256 **(Aquiar-Curry D) Wildlife: California Winter Rice Habitat Incentive Program.**

Introduced: 1/23/2019

Last Amend: 9/3/2019

Status: 10/2/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 420, Statutes of 2019.

Location: 10/2/2019-A. CHAPTERED

Summary: Current law requires the lessees of the rice lands to have the owners of record execute the contracts and defines “productive agricultural rice lands that are winter-flooded” for these purposes. Current law requires each contract to include, among other things, an agreement by the owner and any lessee to restore, enhance, and protect the waterfowl habitat character of the described land. This bill would no longer require the lessees of the rice lands to have the owners of record execute the contracts and would revise the definition of “productive agricultural rice lands that are winter-flooded.” The bill would revise that agreement to instead require an agreement by the owner or the lessee to restore, enhance, and protect the waterfowl habitat character of an established number of acres of described land that may be annually rotated provided that the minimum contracted acreage amount is achieved for each of the contracted winter flooding seasons.

AB 273 **(Gonzalez D) Fur-bearing and nongame mammals: recreational and commercial fur trapping: prohibition.**

Introduced: 1/24/2019

Last Amend: 3/5/2019

Status: 9/4/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 216, Statutes of 2019.

Location: 9/4/2019-A. CHAPTERED

Summary: Would prohibit the trapping of any fur-bearing mammal or nongame mammal for purposes of recreation or commerce in fur and would prohibit the sale of the raw fur of any fur-bearing mammal or nongame mammal otherwise lawfully taken pursuant to the Fish and Game Code or regulations adopted pursuant to that code. Because a violation of these provisions would

be a crime, this bill would impose a state-mandated local program. The bill would also make other conforming changes.

AB 284 (Frazier D) Junior hunting licenses: eligibility: age requirement.

Introduced: 1/28/2019

Status: 5/17/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 4/3/2019)(May be acted upon Jan 2020)

Location: 5/17/2019-A. 2 YEAR

Summary: Current law requires the Department of Fish and Wildlife to issue various types of hunting licenses, including a discounted hunting license known as a junior hunting license, upon payment of a certain fee from an eligible applicant. Current law, until July 1, 2020, expands the eligibility for a junior hunting license from persons who are under 16 years of age on July 1 of the licensing year to persons who are under 18 years of age on July 1 of the licensing year, as specified, and makes conforming changes related to that expanded eligibility. This bill would extend, this expanded eligibility, for a junior hunting license indefinitely.

AB 286 (Bonta D) Taxation: cannabis.

Introduced: 1/28/2019

Last Amend: 4/3/2019

Status: 5/16/2019-In committee: Held under submission.

Location: 5/1/2019-A. APPR. SUSPENSE FILE

Summary: The Control, Regulate and Tax Adult Use of Marijuana Act imposes duties on the Bureau of Cannabis Control in the Department of Consumer Affairs, the Department of Food and Agriculture, and the State Department of Public Health with respect to the creation, issuance, denial, suspension and revocation of commercial cannabis licenses, and imposes an excise tax commencing January 1, 2018, on the purchase of cannabis and cannabis products at the rate of 15% of the average market price of any retail sale by a cannabis retailer. Commencing January 1, 2018, AUMA also imposes a cultivation tax upon all cultivators on all harvested cannabis that enters the commercial market, at specified rates per dry-weight ounce of cannabis flowers and leaves. This bill would reduce that excise tax rate to 11% on and after the operative date of this bill until July 1, 2022, at which time the excise tax rate would revert back to 15%.

AB 298 (Mathis R) Housing: home purchase assistance program: first responders: Legislative Analyst: study and report.

Introduced: 1/28/2019

Status: 5/3/2019-Failed Deadline pursuant to Rule 61(a)(3). (Last location was H. & C.D. on 2/15/2019)(May be acted upon Jan 2020)

Location: 5/3/2019-A. 2 YEAR

Summary: Would require the Legislative Analyst to conduct a study, and present the findings thereof to the Legislature, to inform the creation of a low-interest loan program for first responders. The bill would require the report to be submitted on or before January 1, 2024. The bill would require the report to include a recommendation as to which state department is best suited to administer the program, an estimation of the amount of funding that would be necessary to conduct the program, and recommendations for qualifications for participation in the program.

AB 312 (Cooley D) State government: administrative regulations: review.

Introduced: 1/29/2019

Status: 5/17/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 4/3/2019)(May be acted upon Jan 2020)

Location: 5/17/2019-A. 2 YEAR

Summary: Would require each state agency to, on or before January 1, 2022, review its regulations, identify any regulations that are duplicative, overlapping, inconsistent, or out of date, revise those identified regulations, as provided, and report its findings and actions taken to the

Legislature and Governor, as specified. The bill would repeal these provisions on January 1, 2023.

AB 352 (Garcia, Eduardo D) Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020.

Introduced: 2/4/2019

Last Amend: 8/14/2019

Status: 8/14/2019-From committee chair, with author's amendments: Amend, and re-refer to committee. Read second time, amended, and re-referred to Com. on EQ.

Location: 8/14/2019-S. E.Q.

Summary: Would enact the Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$3,920,000,000 pursuant to the State General Obligation Bond Law to finance a wildfire prevention, safe drinking water, drought preparation, and flood protection program. The bill would provide for the submission of these provisions to the voters at the November 3, 2020, statewide general election. The bill would provide that its provisions are severable.

AB 392 (Weber D) Peace officers: deadly force.

Introduced: 2/6/2019

Last Amend: 5/23/2019

Status: 8/19/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 170, Statutes of 2019.

Location: 8/19/2019-A. CHAPTERED

Summary: Would redefine the circumstances under which a homicide by a peace officer is deemed justifiable to include when the officer reasonably believes, based on the totality of the circumstances, that deadly force is necessary to defend against an imminent threat of death or serious bodily injury to the officer or to another person, or to apprehend a fleeing person for a felony that threatened or resulted in death or serious bodily injury, if the officer reasonably believes that the person will cause death or serious bodily injury to another unless the person is immediately apprehended.

AB 394 (Obernolte R) California Environmental Quality Act: exemption: egress route projects: fire safety.

Introduced: 2/6/2019

Last Amend: 9/6/2019

Status: 10/2/2019-Vetoed by Governor.

Location: 10/2/2019-A. VETOED

Summary: Would, until January 1, 2025, exempt from CEQA egress route projects undertaken by a public agency that are specifically recommended by the State Board of Forestry and Fire Protection that improve the fire safety of an existing subdivision if certain conditions are met. The bill would require the lead agency to hold a noticed public meeting to hear and respond to public comments before determining that a project is exempt. The bill would require the lead agency, if it determines that a project is not subject to CEQA and approves or carries out that project, to file a notice of exemption with the Office of Planning and Research and with the clerk of the county in which the project will be located.

AB 430 (Gallagher R) Housing development: Camp Fire Housing Assistance Act of 2019.

Introduced: 2/7/2019

Last Amend: 8/27/2019

Status: 10/11/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 745, Statutes of 2019.

Location: 10/11/2019-A. CHAPTERED

Summary: Current law authorizes a development proponent to submit an application for a

development permit that is subject to a streamlined, ministerial approval process and not subject to a conditional use permit if the development satisfies specified objective planning standards, including that the development is a multifamily housing development that contains 2 or more residential units. This bill would authorize a development proponent to submit an application for a residential development, or mixed-use development that includes residential units with a specified percentage of space designated for residential use, within the territorial boundaries or a specialized residential planning area identified in the general plan of, and adjacent to existing urban development within, specified cities that is subject to a similar streamlined, ministerial approval process and not subject to a conditional use permit if the development satisfies specified objective planning standards.

AB 431 **(Gallagher R) California Environmental Quality Act: exemptions: projects in Town of Paradise and Butte County.**

Introduced: 2/7/2019

Last Amend: 3/19/2019

Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 2/15/2019)(May be acted upon Jan 2020)

Location: 4/26/2019-A. 2 YEAR

Summary: Would exempt from CEQA projects or activities related to the provision of sewer treatment or water service to the Town of Paradise or related to the improvement of evacuation routes in the Town of Paradise. The bill would also exempt from CEQA projects or activities undertaken by the Paradise Irrigation District related to the provision of water service.

AB 441 **(Eggman D) Water: underground storage.**

Introduced: 2/11/2019

Last Amend: 3/27/2019

Status: 5/17/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 4/24/2019)(May be acted upon Jan 2020)

Location: 5/17/2019-A. 2 YEAR

Summary: Under current law, the right to water or to the use of water is limited to that amount of water that may be reasonably required for the beneficial use to be served. Current law provides for the reversion of water rights to which a person is entitled when the person fails to beneficially use the water for a period of 5 years. Current law declares that the storing of water underground, and related diversions for that purpose, constitute a beneficial use of water if the stored water is thereafter applied to the beneficial purposes for which the appropriation for storage was made. This bill would instead provide that any diversion of water to underground storage constitutes a diversion of water for beneficial use for which an appropriation may be made if the diverted water is put to beneficial use, as specified.

AB 448 **(Garcia, Eduardo D) Water rights: stockponds.**

Introduced: 2/11/2019

Last Amend: 4/3/2019

Status: 5/17/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 4/24/2019)(May be acted upon Jan 2020)

Location: 5/17/2019-A. 2 YEAR

Summary: Would provide that the owner of a stockpond built prior to January 1, 2019, that does not have a capacity greater than 10 acre-feet may obtain a right to appropriate water for the principal purpose of watering livestock if that person files a claim for a water right with the State Water Resources Control Board accompanied by a fee not later than December 31, 2021, with certain exceptions. Upon the issuance of a certificate by the board for an appropriation of water obtained under the bill's provisions, the bill would require the board to provide in writing conditions to which the appropriation is subject.

- AB 454** **(Kalra D) Migratory birds: California Migratory Bird Protection Act.**
Introduced: 2/11/2019
Last Amend: 5/16/2019
Status: 9/27/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 349, Statutes of 2019.
Location: 9/27/2019-A. CHAPTERED
Summary: Current federal law, the Migratory Bird Treaty Act, provides for the protection of migratory birds, as specified. The federal act also authorizes states and territories of the United States to make and enforce laws or regulations that give further protection to migratory birds, their nests, and eggs. Current state law makes unlawful the taking or possession of any migratory nongame bird, or part of any migratory nongame bird, as designated in the federal act, except as provided by rules and regulations adopted by the United States Secretary of the Interior under provisions of the federal act. This bill, the California Migratory Bird Protection Act, would instead, until January 20, 2025, make unlawful the taking or possession of any migratory nongame bird designated in the federal act before January 1, 2017, any additional migratory nongame bird that may be designated in the federal act after that date, or any part of those migratory nongame birds, except as provided by rules and regulations adopted by the United States Secretary of the Interior under the federal act before January 1, 2017, or subsequent rules or regulations adopted pursuant to the federal act, unless those rules or regulations are inconsistent with the Fish and Game Code.
- AB 467** **(Boerner Horvath D) Competitions on state property: prize compensation: gender equity.**
Introduced: 2/11/2019
Last Amend: 6/14/2019
Status: 9/9/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 276, Statutes of 2019.
Location: 9/9/2019-A. CHAPTERED
Summary: Would require the Department of Parks and Recreation, the State Lands Commission and the California Coastal Commission to include in permit or lease conditions, for a competition event to be held on land under the jurisdiction of the entity, as described, and that awards prize compensation, as defined, to competitors in gendered categories, a requirement that the prize compensation be identical between the gendered categories at each participant level.
- AB 527** **(Voepel R) Importation, possession, or sale of endangered wildlife.**
Introduced: 2/13/2019
Last Amend: 4/22/2019
Status: 6/4/2019-Failed Deadline pursuant to Rule 61(a)(8). (Last location was APPR. on 4/23/2019)
Location: 6/4/2019-A. 2 YEAR
Summary: Would delay the commencement of the prohibition on importing into the state for commercial purposes, possessing with intent to sell, or selling within the state, the dead body, or a part or product thereof, of a crocodile or alligator until January 1, 2030. The bill would also require a specified disclosure on all products sold in the state prior to January 1, 2030, failure to do so being punishable as a misdemeanor. By creating a new crime, this bill would impose a state-mandated local program.
- AB 559** **(Arambula D) Millerton Lake State Recreation Area: acquisition of land.**
Introduced: 2/13/2019
Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was W.,P. & W. on 2/25/2019)(May be acted upon Jan 2020)
Location: 4/26/2019-A. 2 YEAR
Summary: Would require the Department of Parks and Recreation to effectively manage lands currently within its jurisdiction in the Millerton Lake State Recreation Area adjacent to the San Joaquin River, and would authorize the department to enter into an agreement with the

conservancy to manage lands acquired by the conservancy adjacent to the state recreation area, as specified.

AB 584 **(Gallagher R) Sport fishing licenses.**

Introduced: 2/14/2019

Status: 5/3/2019-Failed Deadline pursuant to Rule 61(a)(3). (Last location was PRINT on 2/14/2019)(May be acted upon Jan 2020)

Location: 5/3/2019-A. 2 YEAR

Summary: Current law requires every person 16 years of age or older who takes any fish, reptile, or amphibian for any purpose other than profit to first obtain a sport fishing license for that purpose, with specified exceptions, and to have that license on their person or in their immediate possession when engaged in carrying out any activity authorized by the license. This bill would make nonsubstantive changes to this provision.

AB 658 **(Arambula D) Water rights: water management.**

Introduced: 2/15/2019

Last Amend: 7/11/2019

Status: 10/9/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 678, Statutes of 2019.

Location: 10/9/2019-A. CHAPTERED

Summary: Would authorize a groundwater sustainability agency or local agency to apply for, and the board to issue, a conditional temporary permit for diversion of surface water to underground storage for beneficial use that advances the sustainability goal of a groundwater basin, as specified.

AB 719 **(Rubio, Blanca D) Endangered wildlife: crocodiles and alligators.**

Introduced: 2/19/2019

Last Amend: 8/13/2019

Status: 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/19/2019)(May be acted upon Jan 2020)

Location: 8/30/2019-S. 2 YEAR

Summary: Current law makes it a misdemeanor to import into the state for commercial purposes, to possess with intent to sell, or to sell within the state, the dead body, or a part or product thereof, of a polar bear, leopard, ocelot, tiger, cheetah, jaguar, sable antelope, wolf, zebra, whale, cobra, python, sea turtle, colobus monkey, kangaroo, vicuna, sea otter, free-roaming feral horse, dolphin, porpoise, Spanish lynx, or elephant. This bill would require manufacturers of products that use the hides of crocodiles or alligators, after consultation with the Department of Fish and Wildlife, to submit to the Director of Fish and Wildlife proposals for technologies or processes that allow for the tracking or tracing of the source of origin of crocodile or alligator hides used to manufacture products sold in this state and require humane treatment of farmed crocodiles and alligators, as well as humane slaughtering techniques. The bill would require the director, on or before March 30, 2021, to approve technologies or processes that meet those requirements.

AB 782 **(Berman D) California Environmental Quality Act: exemption: public agencies: land transfers.**

Introduced: 2/19/2019

Last Amend: 5/28/2019

Status: 8/30/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 181, Statutes of 2019.

Location: 8/30/2019-A. CHAPTERED

Summary: CEQA requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would exempt from CEQA the

acquisition, sale, or other transfer of interest in land by a public agency for certain purposes, or the granting or acceptance of funding by a public agency for those purposes.

AB 834 (Quirk D) Freshwater and Estuarine Harmful Algal Bloom Program.

Introduced: 2/20/2019

Last Amend: 8/30/2019

Status: 9/27/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 354, Statutes of 2019.

Location: 9/27/2019-A. CHAPTERED

Summary: Would require the State Water Resources Control Board to establish a Freshwater and Estuarine Harmful Algal Bloom Program to protect water quality and public health from harmful algal blooms. The bill would require the state board, in consultation with specified entities, among other things, to coordinate immediate and long-term algal bloom event incident response, as provided, and conduct and support algal bloom field assessment and ambient monitoring at the state, regional, watershed, and site-specific waterbody scales.

AB 855 (McCarty D) Department of Justice: law enforcement policies on the use of deadly force.

Introduced: 2/20/2019

Last Amend: 3/19/2019

Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was PUB. S. on 3/18/2019)(May be acted upon Jan 2020)

Location: 4/26/2019-A. 2 YEAR

Summary: Would require the Attorney General to convene a task force, as specified, to study the use of deadly force by law enforcement officers and to develop recommendations, including a model written policy, for law enforcement agencies.

AB 883 (Dahle R) Fish and wildlife: catastrophic wildfires: report.

Introduced: 2/20/2019

Status: 5/17/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 4/24/2019)(May be acted upon Jan 2020)

Location: 5/17/2019-A. 2 YEAR

Summary: Would require the Department of Fish and Wildlife, in consultation with the Department of Forestry and Fire Protection, on or before December 31, 2020, and by December 31 each year thereafter, to study, investigate, and report to the Legislature on the impacts on wildlife and wildlife habitat resulting from any catastrophic wildfire, as defined, that occurred during that calendar year, including specified information on a catastrophic wildfire's impact on ecosystems, biodiversity, and protected species in the state.

AB 889 (Maienschein D) Animal research.

Introduced: 2/20/2019

Last Amend: 4/1/2019

Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was HEALTH on 3/4/2019)(May be acted upon Jan 2020)

Location: 4/26/2019-A. 2 YEAR

Summary: Current law prohibits the keeping or use of animals for diagnostic purposes, education, or research without approval by the State Department of Public Health. Current law authorizes the department to prescribe rules under which persons who wish to keep or use animals for those purposes may obtain approval from the department, and to promulgate regulations governing the use of animals for those purposes. Current law exempts certain persons from those requirements, including persons who use or keep animals for animal training and animal cosmetics, among other things. This bill would define "animal" for purposes of these provisions as any live vertebrate nonhuman animal used for diagnostic purposes, education, or research, as specified.

- AB 935** (**Rivas, Robert** D) **Oil and gas: facilities and operations: monitoring and reporting.**
Introduced: 2/20/2019
Last Amend: 3/21/2019
Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 3/21/2019)(May be acted upon Jan 2020)
Location: 4/26/2019-A. 2 YEAR
Summary: Under current law, the Division of Oil, Gas, and Geothermal Resources in the Department of Conservation regulates the drilling, operation, maintenance, and abandonment of oil and gas wells in the state. Current law defines various terms for those purposes, including "production facility. This bill "Would define the term "sensitive production facility" for those purposes to mean a production facility that is located within certain areas, including, among others, an area containing a building intended for human occupancy that is located within 2,500 feet of the production facility.
- AB 936** (**Rivas, Robert** D) **Oil spills: response and contingency planning.**
Introduced: 2/20/2019
Last Amend: 9/6/2019
Status: 10/12/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 770, Statutes of 2019.
Location: 10/12/2019-A. CHAPTERED
Summary: Would define "nonfloating oil" for purposes of the Lempert-Keene-Seastrand Oil Spill Prevention and Response Act. The bill would require the administrator to hold, on or before January 1, 2022, a technology workshop that shall include the topic of technology for addressing nonfloating oil spills, and, in fulfilling specified duties, to consider information gained from technology workshops, as well as available scientific and technical literature concerning nonfloating oil spill response technology. The bill would require the administrator to include in the revision to the California oil spill contingency plan due on or before January 1, 2023, provisions addressing nonfloating oil.
- AB 948** (**Kalra** D) **Coyote Valley Conservation Program.**
Introduced: 2/20/2019
Last Amend: 8/12/2019
Status: 9/27/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 356, Statutes of 2019.
Location: 9/27/2019-A. CHAPTERED
Summary: Current law creates the Santa Clara Valley Open-Space Authority, and prescribes the jurisdiction and functions and duties of the authority. Current law authorizes the authority, among other things, to acquire, hold, and dispose of real and personal property, within the authority's jurisdiction, necessary to the full exercise of its powers. This bill would authorize the authority to establish and administer the Coyote Valley Conservation Program to address resource and recreational goals of the Coyote Valley, as defined. The bill would authorize the authority to collaborate with state, regional, and local partners to help achieve specified goals of the program. The bill would authorize the authority to, among other things, acquire and dispose of interests and options in real property.
- AB 1013** (**Obernolte** R) **State agencies: grant applications.**
Introduced: 2/21/2019
Last Amend: 8/20/2019
Status: 10/3/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 498, Statutes of 2019.
Location: 10/3/2019-A. CHAPTERED
Summary: Current law authorizes various state agencies to award grant money for various purposes. This bill would prohibit a state agency from permitting an evaluator to review a discretionary grant application submitted by an organization or a person for which the evaluator

was a representative, voting member, or staff member within the 2-year period preceding receipt of that application.

AB 1040 **(Muratsuchi D) Protection of cetaceans: unlawful activities.**

Introduced: 2/21/2019

Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was W.,P. & W. on 3/7/2019)(May be acted upon Jan 2020)

Location: 4/26/2019-A. 2 YEAR

Summary: Current law makes it unlawful to hold in captivity an orca, whether wild caught or captive bred, for any purpose, including for display, performance, or entertainment purposes; to breed or impregnate an orca held in captivity; to export, collect, or import the semen, other gametes, or embryos of an orca held in captivity for the purpose of artificial insemination; or to export, transport, move, or sell an orca located in the state to another state or country. Current law creates certain exceptions to these provisions, including an exception that authorizes an orca located in the state on January 1, 2017, to continue to be held in captivity for its current purpose and, after June 1, 2017, to continue to be used for educational presentations. This bill would expand these provisions to include cetaceans, which the bill would define to mean a whale, dolphin, and porpoise in the order Cetacea.

AB 1117 **(Grayson D) Peace officers: peer support.**

Introduced: 2/21/2019

Last Amend: 9/6/2019

Status: 10/8/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 621, Statutes of 2019.

Location: 10/8/2019-A. CHAPTERED

Summary: The California Emergency Services Act also authorizes the governing body of a city, county, city and county, or an official designated by ordinance adopted by that governing body, to proclaim a local emergency, as defined. This bill would enact the Law Enforcement Peer Support and Crisis Referral Services Program. The bill would authorize a local or regional law enforcement agency to establish a peer support and crisis referral program to provide an agencywide network of peer representatives available to aid fellow employees on emotional or professional issues. The bill would, for purposes of the act, define a "peer support team" as a team composed of law enforcement personnel, as defined, who have completed a peer support training course, as specified.

AB 1149 **(Fong R) California Environmental Quality Act: record of proceedings.**

Introduced: 2/21/2019

Last Amend: 4/23/2019

Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 3/25/2019)(May be acted upon Jan 2020)

Location: 4/26/2019-A. 2 YEAR

Summary: CEQA requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. In an action or proceeding alleging the lead agency violated the act, the act requires the lead agency to prepare and certify the record of proceedings and requires the parties to pay any reasonable costs or fees imposed for the preparation of the record of proceedings, as specified.

AB 1160 **(Dahle R) Forestry: timber operations: sustained yield plans.**

Introduced: 2/21/2019

Last Amend: 4/11/2019

Status: 7/12/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 108, Statutes of 2019.

Location: 7/12/2019-A. CHAPTERED

Summary: The Z'berg-Nejedly Forest Practice Act of 1973 prohibits a person from conducting timber operations, as defined, unless a timber harvesting plan prepared by a registered professional forester has been submitted to, and approved by, the Department of Forestry and Fire Protection. The act requires the State Board of Forestry and Fire Protection to adopt district forest practice rules and regulations, as provided, and requires a sustained yield plan that is prepared and approved in accordance with these rules and regulations to be effective for a period of no more than 10 years. This bill would instead require the sustained yield plan to be effective for a period of no more than 20 years.

AB 1184 (Gloria D) Public records: writing transmitted by electronic mail: retention.

Introduced: 2/21/2019

Last Amend: 8/30/2019

Status: 10/13/2019-Vetoed by Governor.

Location: 10/13/2019-A. VETOED

Summary: Would, unless a longer retention period is required by statute or regulation, or established by the Secretary of State pursuant to the State Records Management Act, require a public agency, for purposes of the California Public Records Act, to retain and preserve for at least 2 years every public record, as defined, that is transmitted by electronic mail.

AB 1190 (Irwin D) Unmanned aircraft: state and local regulation: limitations.

Introduced: 2/21/2019

Last Amend: 5/1/2019

Status: 6/19/2019-Referred to Com. on RLS.

Location: 5/24/2019-S. RLS.

Summary: Would, among other things, prohibit a state or local agency from adopting any law or regulation that bans the operation of an unmanned aircraft system. The bill would also authorize a local agency to adopt regulations to enforce FAA regulations regarding the operation of unmanned aircraft systems and would authorize local agencies to regulate the operation of unmanned aircraft and unmanned aircraft systems within their jurisdictions, as specified. The bill would also authorize a local agency to require an unmanned aircraft operator to provide proof of federal, state, or local registration to licensing or enforcement officials.

AB 1197 (Santiago D) California Environmental Quality Act: exemption: City of Los Angeles: supportive housing and emergency shelters.

Introduced: 2/21/2019

Last Amend: 9/6/2019

Status: 9/26/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 340, Statutes of 2019.

Location: 9/26/2019-A. CHAPTERED

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would, until January 1, 2025, exempt from the requirements of CEQA certain activities approved or carried out by the City of Los Angeles and other eligible public agencies, as defined, related to supportive housing and emergency shelters, as defined.

AB 1237 (Aguiar-Curry D) Greenhouse Gas Reduction Fund: guidelines.

Introduced: 2/21/2019

Last Amend: 8/13/2019

Status: 9/27/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 357, Statutes of 2019.

Location: 9/27/2019-A. CHAPTERED

Summary: Current law requires the Department of Finance to annually submit a report to the appropriate committees of the Legislature on the status of the projects funded with moneys from the Greenhouse Gas Reduction Fund. This bill, no later than January 1, 2021, would require an agency that receives an appropriation from the Greenhouse Gas Reduction Fund to post on the internet website of the agency's program from which moneys from the fund are being allocated the guidelines, as specified, for how moneys from the fund are allocated for competitive financing programs, as specified.

AB 1244 **(Fong R) Environmental quality: judicial review: housing projects.**

Introduced: 2/21/2019

Status: 5/3/2019-Failed Deadline pursuant to Rule 61(a)(3). (Last location was NAT. RES. on 3/11/2019)(May be acted upon Jan 2020)

Location: 5/3/2019-A. 2 YEAR

Summary: Would, in an action or proceeding seeking judicial review under the California Environmental Quality Act, prohibit a court from staying or enjoining a housing project for which an environmental impact report has been certified, unless the court makes specified findings.

AB 1254 **(Kamlager-Dove D) Bobcats: take prohibition: hunting season: management plan.**

Introduced: 2/21/2019

Last Amend: 9/5/2019

Status: 10/12/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 766, Statutes of 2019.

Location: 10/12/2019-A. CHAPTERED

Summary: Current law authorizes nongame mammals, among other specified species, that are found to be injuring growing crops or other property to be taken at any time or in any manner by specified persons in accordance with the Fish and Game Code and regulations adopted pursuant to that code. Current law authorizes the department to enter into cooperative agreements with any state or federal agency for the purpose of controlling harmful nongame mammals. Current law also authorizes the department to enter into cooperative contracts with the United States Fish and Wildlife Service for the control of nongame mammals. This bill would make it unlawful to hunt, trap, or otherwise take a bobcat, except under specified circumstances, including under a depredation permit. The bill, upon appropriation of funds by the Legislature for this purpose, commencing January 1, 2025, would authorize the commission to open a bobcat hunting season in any area determined by the commission to require a hunt, as specified.

AB 1260 **(Maienschein D) Endangered wildlife.**

Introduced: 2/21/2019

Last Amend: 4/11/2019

Status: 10/12/2019-Approved by the Governor. Chaptered by Secretary of State - Chapter 767, Statutes of 2019.

Location: 10/12/2019-A. CHAPTERED

Summary: Would, commencing January 1, 2022, make it a misdemeanor to import into the state for commercial purposes, to possess with intent to sell, or to sell within the state, the dead body or other part or product of an iguana, skink, caiman, hippopotamus, or a Teju, Ring, or Nile lizard. By creating a new crime, the bill would impose a state-mandated local program.

AB 1305 **(Obernolte R) Junior hunting licenses: eligibility: age requirement.**

Introduced: 2/22/2019

Last Amend: 6/18/2019

Status: 6/19/2019-Withdrawn from committee. Re-referred to Com. on RLS.

Location: 6/19/2019-S. RLS.

Summary: Current law requires the Department of Fish and Wildlife to issue various types of hunting licenses, including a discounted hunting license known as a junior hunting license, upon payment of a certain fee from an eligible applicant. Current law provides that, until July 1, 2020, a person is eligible for a junior hunting license if the person is under 18 years of age on July 1 of the licensing year. Existing law provides that, on and after July 1, 2020, a person is eligible for a junior hunting license if the person is under 16 years of age on July 1 of the licensing year. Current law makes conforming changes to certain other types of hunting licenses as a result of the age change for a junior hunting license. This bill would extend the eligibility for a junior hunting license to a person who is under 18 years of age on July 1 of the licensing year until July 1, 2021.

AB 1387 (Wood D) Sport fishing licenses: 12-consecutive-month licenses.

Introduced: 2/22/2019

Last Amend: 5/20/2019

Status: 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was N.R. & W. on 6/12/2019)(May be acted upon Jan 2020)

Location: 7/10/2019-S. 2 YEAR

Summary: Current law requires a resident or a nonresident, 16 years of age or older, upon payment of a specified fee, to be issued a sport fishing license for the period of a calendar year, or, if issued after the beginning of the year, for the remainder thereof. Existing law also requires the issuance of shorter term licenses upon payment of a specified lesser fee. This bill, in addition to sport fishing licenses for the periods specified above, would require a sport fishing license to be issued to a resident or nonresident for the period of 12 consecutive months, upon payment of a fee that is equal to 130% of the fees for issuance of resident or nonresident calendar-year sport fishing licenses, as applicable.

AB 1472 (Stone, Mark D) California Dungeness Crab Commission.

Introduced: 2/22/2019

Last Amend: 6/19/2019

Status: 9/15/2019-Failed Deadline pursuant to Rule 61(a)(15). (Last location was INACTIVE FILE on 9/12/2019)(May be acted upon Jan 2020)

Location: 9/15/2019-A. 2 YEAR

Summary: Would create the California Dungeness Crab Commission. The bill would specify the membership, powers, duties, and responsibilities of the commission. The commission would be authorized to approve the payment of a stipend to commission members, as specified. The commission also would be authorized to carry out programs of education, public information, promotion, marketing, and research relating to Dungeness crab. The bill would authorize the commission to levy an assessment, as specified, on Dungeness crab fishers, as defined, and would authorize the expenditure of those moneys for the purposes of carrying out the commission's powers, duties, and responsibilities, thereby making an appropriation.

AB 1549 (O'Donnell D) Wildlife: deer: Santa Catalina Island: report.

Introduced: 2/22/2019

Last Amend: 3/21/2019

Status: 5/17/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 4/24/2019)(May be acted upon Jan 2020)

Location: 5/17/2019-A. 2 YEAR

Summary: Would require the Department of Fish and Wildlife to develop, by January 1, 2022, a report, in consultation with other relevant state agencies, local governments, federal agencies, nongovernmental organizations, landowners, and scientific entities, to inform and coordinate management decisions regarding deer on Santa Catalina Island that includes, among other things, estimates of the historic, current, and future deer population on the island and an assessment of the overall health of the deer population on the island.

- AB 1561** (**Rubio, Blanca** D) **Endangered wildlife: crocodiles and alligators.**
Introduced: 2/22/2019
Last Amend: 9/6/2019
Status: 9/9/2019-Read second time. Ordered to third reading. Re-referred to Com. on RLS. pursuant to Senate Rule 29.10(c).
Location: 9/9/2019-S. RLS.
Summary: Would delay the commencement of the prohibition on importing into the state for commercial purposes, possessing with intent to sell, or selling within the state, the dead body, or a part or product thereof, of a crocodile or alligator until January 1, 2021. This bill contains other related provisions.
- AB 1612** (**Quirk** D) **Department of Fish and Wildlife: Invasive Species Response Fund.**
Introduced: 2/22/2019
Last Amend: 3/28/2019
Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was W., P. & W. on 3/28/2019)(May be acted upon Jan 2020)
Location: 4/26/2019-A. 2 YEAR
Summary: Would establish the Invasive Species Response Fund in the State Treasury and would continuously appropriate money deposited in the fund to the Department of Fish and Wildlife to respond to nonnative vertebrate species invasions in coordination with other relevant government agencies. The bill would require any money received by the department from the federal government for the purpose of controlling and eradicating nonnative vertebrate species to be deposited in the fund.
- AB 1657** (**Garcia, Eduardo** D) **Salton Sea: Office of the Salton Sea: Salton Sea Oversight Committee.**
Introduced: 2/22/2019
Status: 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was N.R. & W. on 6/12/2019)(May be acted upon Jan 2020)
Location: 7/10/2019-S. 2 YEAR
Summary: The Salton Sea Restoration Act requires the Secretary of the Natural Resources Agency, in consultation and coordination with the Salton Sea Authority, to lead Salton Sea restoration efforts. This bill would establish an Office of the Salton Sea within the Natural Resources Agency. The bill would require the secretary to establish a Salton Sea Oversight Committee.
- AB 1788** (**Bloom** D) **Pesticides: use of anticoagulants.**
Introduced: 2/22/2019
Last Amend: 6/24/2019
Status: 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. on 7/9/2019)(May be acted upon Jan 2020)
Location: 8/30/2019-S. 2 YEAR
Summary: Current law prohibits the use of any pesticide that contains one or more of specified anticoagulants in wildlife habitat areas, as defined. Current law exempts from this prohibition the use of these pesticides for agricultural activities, as defined. Existing law requires the director, and each county agricultural commissioner under the direction and supervision of the director, to enforce the provisions regulating the use of pesticides. This bill would create the California Ecosystems Protection Act of 2019 and expand this prohibition against the use of a pesticide containing specified anticoagulants in wildlife habitat areas to the entire state.
- AB 1798** (**Levine** D) **California Racial Justice Act: death penalty.**
Introduced: 2/22/2019
Last Amend: 3/21/2019

Status: 5/17/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 5/1/2019)(May be acted upon Jan 2020)

Location: 5/17/2019-A. 2 YEAR

Summary: Would prohibit a person from being executed pursuant to a judgment that was either sought or obtained on the basis of race if the court makes a finding that race was a significant factor in seeking or imposing the death penalty. The bill would provide that a finding that race was a significant factor would include statistical evidence or other evidence that death sentences were sought or imposed significantly more frequently upon persons of one race than upon persons of another race or that race was a significant factor in decisions to exercise preemptory challenges during jury selection.

SB 1

(Atkins D) California Environmental, Public Health, and Workers Defense Act of 2019.

Introduced: 12/3/2018

Last Amend: 9/10/2019

Status: 9/27/2019-Vetoed by the Governor. In Senate. Consideration of Governor's veto pending.

Location: 9/27/2019-S. VETOED

Summary: Current state law regulates the discharge of air pollutants into the atmosphere. The Porter-Cologne Water Quality Control Act regulates the discharge of pollutants into the waters of the state. The California Safe Drinking Water Act establishes standards for drinking water and regulates drinking water systems. The California Endangered Species Act requires the Fish and Game Commission to establish a list of endangered species and a list of threatened species, and generally prohibits the taking of those species. This bill would, until January 20, 2025, require specified agencies to take prescribed actions regarding certain federal requirements and standards pertaining to air, water, and protected species, as specified. By imposing new duties on local agencies, this bill would impose a state-mandated local program.

SB 4

(McGuire D) Housing.

Introduced: 12/3/2018

Last Amend: 4/10/2019

Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was GOV. & F. on 4/2/2019)(May be acted upon Jan 2020)

Location: 4/26/2019-S. 2 YEAR

Summary: Would authorize a development proponent of a neighborhood multifamily project or eligible transit-oriented development (TOD) project located on an eligible parcel to submit an application for a streamlined, ministerial approval process that is not subject to a conditional use permit. The bill would define a "neighborhood multifamily project" to mean a project to construct a multifamily unit of up to 2 residential dwelling units in a nonurban community, as defined, or up to 4 residential dwelling units in an urban community, as defined, that meets local height, setback, and lot coverage zoning requirements as they existed on July 1, 2019.

SB 19

(Dodd D) Water resources: stream gages.

Introduced: 12/3/2018

Last Amend: 6/11/2019

Status: 9/27/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 361, Statutes of 2019.

Location: 9/27/2019-S. CHAPTERED

Summary: Would require the Department of Water Resources and the State Water Resources Control Board, upon an appropriation of funds by the Legislature, to develop a plan to deploy a network of stream gages that includes a determination of funding needs and opportunities for modernizing and reactivating existing gages and deploying new gages, as specified. The bill would require the department and the board, in consultation with the Department of Fish and Wildlife, the Department of Conservation, the Central Valley Flood Protection Board, interested stakeholders, and, to the extent they wish to consult, local agencies, to develop the plan to

address significant gaps in information necessary for water management and the conservation of freshwater species.

SB 45

(Allen D) Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020.

Introduced: 12/3/2018

Last Amend: 9/10/2019

Status: 9/10/2019-Senate Rule 29.3(b) suspended. (Ayes 29. Noes 8.) From committee with author's amendments. Read second time and amended. Re-referred to Com. on APPR.

Location: 4/25/2019-S. APPR.

Summary: Would enact the Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$4,189,000,000 pursuant to the State General Obligation Bond Law to finance projects for a wildfire prevention, safe drinking water, drought preparation, and flood protection program.

SB 50

(Wiener D) Planning and zoning: housing development: streamlined approval: incentives.

Introduced: 12/3/2018

Last Amend: 6/4/2019

Status: 6/4/2019-Failed Deadline pursuant to Rule 61(a)(5). (Last location was APPR. SUSPENSE FILE on 5/13/2019)(May be acted upon Jan 2020)

Location: 6/4/2019-S. 2 YEAR

Summary: Would authorize a development proponent of a neighborhood multifamily project located on an eligible parcel to submit an application for a streamlined, ministerial approval process that is not subject to a conditional use permit. The bill would define a "neighborhood multifamily project" to mean a project to construct a multifamily structure on vacant land, or to convert an existing structure that does not require substantial exterior alteration into a multifamily structure, consisting of up to 4 residential dwelling units and that meets local height, setback, and lot coverage zoning requirements as they existed on July 1, 2019.

SB 62

(Dodd D) Endangered species: accidental take associated with routine and ongoing agricultural activities: state safe harbor agreements.

Introduced: 1/3/2019

Last Amend: 4/3/2019

Status: 7/30/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 137, Statutes of 2019.

Location: 7/30/2019-S. CHAPTERED

Summary: The California Endangered Species Act requires the Department of Fish and Wildlife to adopt regulations for the issuance of incidental take permits. The act also provides, until January 1, 2020, that the accidental take of candidate, threatened, or endangered species resulting from an act that occurs on a farm or a ranch in the course of otherwise lawful routine and ongoing agricultural activities is not prohibited by the act. This bill would extend this exception to January 1, 2024, and would limit this exception to an act by a person acting as a farmer or rancher, a bona fide employee of a farmer or rancher, or an individual otherwise contracted by a farmer or rancher.

SB 69

(Wiener D) Ocean Resiliency Act of 2019.

Introduced: 1/9/2019

Last Amend: 7/11/2019

Status: 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/21/2019)(May be acted upon Jan 2020)

Location: 8/30/2019-A. 2 YEAR

Summary: Current law requires the Fish and Game Commission to establish fish hatcheries for the purposes of stocking the waters of California with fish, and requires the Department of Fish

and Wildlife to maintain and operate those hatcheries. This bill would require the department to develop and implement a plan, in collaboration with specified scientists, experts, and representatives, as part of its fish hatchery operations for the improvement of the survival of hatchery-produced salmon, and the increased contribution of the hatchery program to commercial and recreational salmon fisheries.

- SB 85** (Committee on Budget and Fiscal Review) **Public resources: omnibus trailer bill.**
Introduced: 1/10/2019
Last Amend: 6/11/2019
Status: 6/27/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 31, Statutes of 2019.
Location: 6/27/2019-S. CHAPTERED
Summary: Would require the Controller to continue to annually transfer \$30,000,000 from the General Fund, less any amount transferred to the Habitat Conservation Fund from specified accounts and funds, to the Habitat Conservation Fund until June 30, 2030, and would continuously appropriate that amount on an annual basis in the same proportions to the specified entities until July 1, 2030. The bill would also make conforming and nonsubstantive changes.
- SB 183** (Borgeas R) **Property: wild animals.**
Introduced: 1/29/2019
Status: 2/6/2019-Referred to Com. on RLS.
Location: 1/29/2019-S. RLS.
Summary: Current law provides that animals that are wild by nature may be the subject of ownership while those animals are living only in specified circumstances. This bill would make nonsubstantive changes to that provision of law.
- SB 195** (Nielsen R) **Sierra Nevada Conservancy.**
Introduced: 1/31/2019
Status: 2/13/2019-Referred to Com. on RLS.
Location: 1/31/2019-S. RLS.
Summary: Current law establishes the Sierra Nevada Conservancy and prescribes the functions and duties of the conservancy with regard to the preservation of specified lands in the Sierra Nevada Region, as defined. Current law makes specified findings and declarations relating to the importance and significance of the Sierra Nevada Region and the need to protect, conserve, restore, and enhance lands within the region. This bill would make nonsubstantive changes in those findings and declarations.
- SB 198** (Bates R) **California Environmental Quality Act: historical resources.**
Introduced: 1/31/2019
Status: 2/13/2019-Referred to Com. on RLS.
Location: 1/31/2019-S. RLS.
Summary: CEQA provides that a project may have a significant effect on the environment if the project may cause a substantial adverse change in the significance of a historical resource. This bill would make nonsubstantive changes in the provision relating to historical resources.
- SB 226** (Nielsen R) **Watershed restoration: wildfires: grant program.**
Introduced: 2/7/2019
Last Amend: 7/3/2019
Status: 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/14/2019)(May be acted upon Jan 2020)
Location: 8/30/2019-A. 2 YEAR
Summary: Would, upon appropriation by the Legislature, require the National Resources Agency to develop and implement a watershed restoration grant program, as provided, for purposes of awarding grants to eligible counties, as defined, to assist them with watershed restoration on

watersheds that have been affected by wildfire, as specified. The bill would require the agency to develop guidelines for the grant program, as provided. The bill would require an eligible county receiving funds pursuant to the grant program to submit annually to the agency a report regarding projects funded by the grant program, as provided.

SB 230 **(Caballero D) Law enforcement: use of deadly force: training: policies.**

Introduced: 2/7/2019

Last Amend: 9/3/2019

Status: 9/13/2019-Chaptered by Secretary of State. Chapter 285, Statutes of 2019.

Location: 9/12/2019-S. CHAPTERED

Summary: Would, by no later than January 1, 2021, require each law enforcement agency to maintain a policy that provides guidelines on the use of force, utilizing deescalation techniques and other alternatives to force when feasible, specific guidelines for the application of deadly force, and factors for evaluating and reviewing all use of force incidents, among other things. The bill would require each agency to make their use of force policy accessible to the public. By imposing additional duties on local agencies, this bill would create a state-mandated local program.

SB 243 **(Borgeas R) San Joaquin River Conservancy.**

Introduced: 2/11/2019

Status: 2/21/2019-Referred to Com. on RLS.

Location: 2/11/2019-S. RLS.

Summary: Current law establishes the San Joaquin River Conservancy and prescribes the functions and responsibilities of the conservancy with regard to the protection and conservation of public lands in the San Joaquin River Parkway, as described. Current law requires the conservancy to administer any funds appropriated to it and any revenue generated by member agencies of the conservancy for the parkway and contributed to the conservancy, and authorizes the conservancy to expend those funds for capital improvements, land acquisitions, or support of the conservancy's operations. This bill would make a nonsubstantive change in that provision requiring the conservancy to administer those funds.

SB 247 **(Dodd D) Wildland fire prevention: vegetation management.**

Introduced: 2/11/2019

Last Amend: 9/3/2019

Status: 10/2/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 406, Statutes of 2019.

Location: 10/2/2019-S. CHAPTERED

Summary: Would require an electrical corporation, within one month of the completion of each substantial portion of the vegetation management requirements in its wildfire mitigation plan, to notify the Wildfire Safety Division of the completion. The bill would require the division to audit the completed work and would require the audit to specify any failure of the electrical corporation to fully comply with the vegetation management requirements. The bill would require the division to provide the audit to the electrical corporation and to provide the electrical corporation a reasonable time period to correct and eliminate deficiencies specified in the audit.

SB 262 **(McGuire D) Marine resources: commercial fishing and aquaculture: regulation of operations.**

Introduced: 2/12/2019

Last Amend: 9/3/2019

Status: 10/2/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 472, Statutes of 2019.

Location: 10/2/2019-S. CHAPTERED

Summary: Current law regulating commercial fishing imposes, or authorizes the imposition of, various license, permit, and registration fees. Current law requires specified persons to pay

landing fees relating to the sale of fish quarterly to the Department of Fish and Wildlife, based on a rate schedule applicable to listed aquatic species. Current law authorizes the department to assess a fee on persons growing aquaculture products on public lands and in public waters based on the price per pound of the products sold, not to exceed the rates provided in the rate schedule applicable to wild-caught aquatic species. This bill would make that landing fee rate schedule applicable to the 2020 calendar year, and require that the schedule be adjusted annually thereafter pursuant to that specified federal index.

SB 307 (Roth D) Water conveyance: use of facility with unused capacity.

Introduced: 2/15/2019

Last Amend: 4/30/2019

Status: 7/31/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 169, Statutes of 2019.

Location: 7/31/2019-S. CHAPTERED

Summary: Current law prohibits the state or a regional or local public agency from denying a bona fide transferor of water from using a water conveyance facility that has unused capacity for the period of time for which that capacity is available, if fair compensation is paid for that use and other requirements are met. This bill would, notwithstanding that provision, prohibit a transferor of water from using a water conveyance facility that has unused capacity to transfer water from a groundwater basin underlying desert lands, as defined, that is in the vicinity of specified federal lands or state lands to outside of the groundwater basin unless the State Lands Commission, in consultation with the Department of Fish and Wildlife and the Department of Water Resources, finds that the transfer of the water will not adversely affect the natural or cultural resources of those federal or state lands, as provided.

SB 313 (Hueso D) Animals: prohibition on use in circuses.

Introduced: 2/15/2019

Last Amend: 8/12/2019

Status: 10/12/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 768, Statutes of 2019.

Location: 10/12/2019-S. CHAPTERED

Summary: Would prohibit a person from sponsoring, conducting, or operating a circus, as defined, in this state that uses any animal other than a domestic dog, domestic cat, or domesticated horse. The bill would prohibit a person from exhibiting or using any animal other than a domestic dog, domestic cat, or domesticated horse in a circus in this state. The bill would authorize a civil penalty against a person who violates these prohibitions pursuant to an action brought by the Attorney General, the Department of Fish and Wildlife, the Department of Food and Agriculture, a district attorney, a city attorney, or a city prosecutor.

SB 395 (Archuleta D) Wild game mammals: accidental taking and possession of wildlife: collision with a vehicle: wildlife salvage permits.

Introduced: 2/20/2019

Last Amend: 9/6/2019

Status: 10/13/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 869, Statutes of 2019.

Location: 10/13/2019-S. CHAPTERED

Summary: Would, upon appropriation by the Legislature, authorize the Fish and Game Commission to establish, in consultation with specified public agencies and stakeholders, a pilot program no later than January 1, 2022, for the issuance of wildlife salvage permits through a user-friendly and cell-phone-friendly web-based portal developed by the Department of Fish and Wildlife to persons desiring to recover, possess, use, or transport, for purposes of salvaging wild game meat for human consumption of, any deer, elk, pronghorn antelope, or wild pig that has been accidentally killed as a result of a vehicle collision on a roadway within California.

- SB 402** **(Borgeas R) Vehicles: off-highway vehicle recreation: County of Inyo.**
Introduced: 2/20/2019
Last Amend: 5/13/2019
Status: 8/30/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 211, Statutes of 2019.
Location: 8/30/2019-S. CHAPTERED
Summary: Current law, until January 1, 2020, authorizes the County of Inyo to establish a pilot project that would exempt specified combined-use highways in the unincorporated area in the County of Inyo from this prohibition to link together existing roads in the unincorporated portion of the county to existing trails and trailheads on federal Bureau of Land Management or United States Forest Service lands in order to provide a unified linkage of trail systems for off-highway motor vehicles, as prescribed. Current law requires the County of Inyo, in consultation with the Department of the California Highway Patrol, the Department of Transportation, and the Department of Parks and Recreation, to prepare and submit to the Legislature a report evaluating the effectiveness of the pilot project by January 1, 2019, as specified. This bill would extend the operation of that pilot project until January 1, 2025, and would require the County of Inyo, in consultation with the above-mentioned entities, to submit an additional evaluation report to the Legislature by January 1, 2024.
- SB 410** **(Nielsen R) Hunting and fishing guides.**
Introduced: 2/20/2019
Status: 4/26/2019-Failed Deadline pursuant to Rule 61(a)(2). (Last location was N.R. & W. on 2/28/2019)(May be acted upon Jan 2020)
Location: 4/26/2019-S. 2 YEAR
Summary: Currentlaw requires a person who engages in the business of guiding or packing, or who acts as a guide for any consideration or compensation, to first obtain a guide license from the Department of Fish and Wildlife before engaging in those activities. Current law requires an application for a guide license to contain specified information and requires an applicant to submit proof of having obtained a surety bond in the amount of not less than \$1,000 as a condition of receiving a license. Under current law, a guide license is valid from February 1 to January 31 of the succeeding year or, if issued after February 1, for the remainder of the license year. This bill would change the valid period of a guide license to the period of a calendar year, as provided, and would make related conforming changes.
- SB 416** **(Hueso D) Employment: workers' compensation.**
Introduced: 2/20/2019
Last Amend: 9/5/2019
Status: 9/15/2019-Failed Deadline pursuant to Rule 61(a)(15). (Last location was DESK on 9/13/2019)(May be acted upon Jan 2020)
Location: 9/15/2019-A. 2 YEAR
Summary: Current law establishes a workers' compensation system to compensate employees for injuries sustained arising out of and in the course of their employment. Existing law designates illnesses and conditions that constitute a compensable injury for various employees, such as members of the Department of the California Highway Patrol, firefighters, and certain peace officers. These injuries include, but are not limited to, hernia, pneumonia, heart trouble, cancer, meningitis, and exposure to biochemical substances, when the illness or condition develops or manifests itself during a period when the officer or employee is in service of the employer, as specified. Would expand the coverage of the above provisions relating to compensable injuries to include all persons defined as peace officers under certain provisions of law, except as specified. This bill contains other related provisions and other existing laws.
- SB 474** **(Stern D) The California Wildlife Protection Act of 1990: Habitat Conservation Fund.**
Introduced: 2/21/2019
Last Amend: 5/21/2019

Status: 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was W.,P. & W. on 6/6/2019)(May be acted upon Jan 2020)

Location: 7/10/2019-A. 2 YEAR

Summary: Would establish the Wildlife Protection Subaccount in the Habitat Conservation Fund and would require the Controller, if an appropriation is made for this purpose in any fiscal year, to transfer \$30,000,000 from the General Fund to the subaccount, less any amount transferred from specified accounts and funds, to be expended by the board for the acquisition, enhancement, or restoration of wildlife habitat.

SB 518 (**Wieckowski D**) **Civil actions: settlement offers.**

Introduced: 2/21/2019

Last Amend: 6/20/2019

Status: 10/12/2019-Vetoed by the Governor. In Senate. Consideration of Governor's veto pending.

Location: 10/12/2019-S. VETOED

Summary: Current law, in a civil action to be resolved by trial or arbitration, authorizes a party to serve an offer in writing on any other party to the action to allow judgment to be taken or an award to be entered in accordance with the terms and conditions stated at the time. Existing law shifts specified postoffer costs to a plaintiff who does not accept a defendant's offer if the plaintiff fails to obtain a more favorable judgment or award. Current law also authorizes a court or arbitrator to order a party who does not accept the opposing party's offer and fails to obtain a more favorable judgment or award to cover the postoffer costs for the services of expert witnesses, as specified. Current law exempts certain actions from those provisions, including any labor arbitration filed pursuant to a memorandum of understanding under the Ralph C. Dills Act. This bill would also exempt from those provisions any action to enforce the California Public Records Act.

SB 542 (**Stern D**) **Workers' compensation.**

Introduced: 2/22/2019

Last Amend: 9/6/2019

Status: 10/1/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 390, Statutes of 2019.

Location: 10/1/2019-S. CHAPTERED

Summary: Under current law, a person injured in the course of employment is generally entitled to receive workers' compensation on account of that injury. Current law provides that, in the case of certain state and local firefighting personnel and peace officers, the term "injury" includes various medical conditions that are developed or manifested during a period while the member is in the service of the department or unit, and establishes a disputable presumption in this regard. This bill would provide, only until January 1, 2025, that in the case of certain state and local firefighting personnel and peace officers, the term "injury" also includes post-traumatic stress that develops or manifests itself during a period in which the injured person is in the service of the department or unit. The bill would apply to injuries occurring on or after January 1, 2020.

SB 566 (**Borgeas R**) **Fish and Game Commission.**

Introduced: 2/22/2019

Status: 3/7/2019-Referred to Com. on RLS.

Location: 2/22/2019-S. RLS.

Summary: The California Constitution establishes the 5-member Fish and Game Commission, with members appointed by the Governor and approved by the Senate. Current statutory law states the intent of the Legislature to encourage the Governor and the Senate Committee on Rules to consider certain minimum qualifications in selecting, appointing, and confirming commissioners to serve on the commission. This bill would make a nonsubstantive change to this provision.

- [SB 587](#) (Monning D) California Sea Otter Fund.**
Introduced: 2/22/2019
Last Amend: 8/12/2019
Status: 8/12/2019-From committee with author's amendments. Read second time and amended. Re-referred to Com. on RLS.
Location: 2/22/2019-S. RLS.
Summary: Current law, until January 1, 2021, establishes the California Sea Otter Fund and allows individuals to designate on their personal income tax returns that a specified amount in excess of their tax liability be transferred to the fund. Current law requires money in that fund, upon appropriation by the Legislature, to be allocated to the Department of Fish and Wildlife for the purposes of establishing a sea otter fund to be used for sea otter conservation, and to the State Coastal Conservancy for competitive grants and contracts for research, projects, and programs related to the Federal Sea Otter Recovery Plan or improving the nearshore ocean ecosystem. This bill would extend the operation of these provisions to January 1, 2026.
- [SB 632](#) (Galgiani D) California Environmental Quality Act: State Board of Forestry and Fire Protection: vegetation treatment program: final program environmental impact report.**
Introduced: 2/22/2019
Last Amend: 7/11/2019
Status: 10/2/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 411, Statutes of 2019.
Location: 10/2/2019-S. CHAPTERED
Summary: Current law establishes the State Board of Forestry and Fire Protection and vests the board with authority over wildland forest resources. This bill would require the board, as soon as practicably feasible, but by no later than February 1, 2020, to complete its environmental review under CEQA and certify a specific final program environmental impact report for a vegetation treatment program. The bill would repeal these provisions on January 1, 2021.
- [SB 744](#) (Caballero D) Planning and zoning: California Environmental Quality Act: permanent supportive housing.**
Introduced: 2/22/2019
Last Amend: 7/11/2019
Status: 9/26/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 346, Statutes of 2019.
Location: 9/26/2019-S. CHAPTERED
Summary: CEQA requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. Current law authorizes the court, upon the motion of a party, to award attorney's fees to a prevailing party in an action that has resulted in the enforcement of an important right affecting the public interest if 3 conditions are met. This bill would specify that a decision of a public agency to seek funding from, or the department's awarding of funds pursuant to, the No Place Like Home Program is not a project for purposes of CEQA.
- [SB 757](#) (Allen D) Fish and Game Code: name change.**
Introduced: 2/22/2019
Status: 3/14/2019-Referred to Com. on RLS.
Location: 2/22/2019-S. RLS.
Summary: Current law establishes the Fish and Game Code. This bill would rename the Fish and Game Code as the Fish and Wildlife Code and would require that any reference to the Fish and Game Code in that code or any other code means the Fish and Wildlife Code.

SB 761 (Jones R) Forestry: exemptions: emergency notices: reporting.

Introduced: 2/22/2019

Status: 3/14/2019-Referred to Com. on RLS.

Location: 2/22/2019-S. RLS.

Summary: Current law authorizes a registered professional forester in an emergency to file, on behalf of a timber owner or operator, a specified emergency notice with the department that allows for the immediate commencement of timber operations. Current law requires the Department of Forestry and Fire Protection and State Board of Forestry and Fire Protection, in consultation with the Department of Fish and Wildlife and the State Water Resources Control Board, commencing December 31, 2019, and annually thereafter, to review and submit a report to the Legislature on the trends in the use of, compliance with, and effectiveness of, these exemptions and emergency notice provisions, as specified. This bill would make nonsubstantive changes in that reporting requirement.

SB 785 (Committee on Natural Resources and Water) Public resources: parklands, freshwater resources, and coastal resources: off-highway motor vehicles: public lands.

Introduced: 3/11/2019

Last Amend: 9/3/2019

Status: 10/2/2019-Approved by the Governor. Chaptered by Secretary of State. Chapter 469, Statutes of 2019.

Location: 10/2/2019-S. CHAPTERED

Summary: Current law, until January 1, 2020, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water within the state, dreissenid mussels, and authorizes the Director of Fish and Wildlife or the director's designee to engage in various enforcement activities with regard to dreissenid mussels. Among those activities, current law authorizes the director to conduct inspections of waters of the state and facilities located within waters of the state that may contain dreissenid mussels and, if those mussels are detected or may be present, order the closure of the affected waters or facilities to conveyances or otherwise restrict access to the affected waters or facilities, with the concurrence of the Secretary of the Natural Resources Agency. This bill would extend to January 1, 2030, the repeal date of those provisions.

116TH CONGRESS
1ST SESSION

H. R. 3399

To amend the Nutria Eradication and Control Act of 2003 to include California in the program, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JUNE 21, 2019

Mr. HARDER of California (for himself, Mr. COSTA, Mr. COX of California, and Mr. GARAMENDI) introduced the following bill; which was referred to the Committee on Natural Resources

A BILL

To amend the Nutria Eradication and Control Act of 2003 to include California in the program, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. NUTRIA ERADICATION IN CALIFORNIA.**

4 The Nutria Eradication and Control Act of 2003
5 (Public Law 108–16) is amended—

6 (1) in section 2—

7 (A) in subsection (a)—

8 (i) in paragraph (2), by striking
9 “Maryland and Louisiana” and inserting

1 “Maryland, Louisiana, and California”;
2 and

3 (ii) in paragraph (3), by striking
4 “Louisiana. Consequently, marsh loss is
5 accelerating.” and inserting “Louisiana
6 and California. Consequently, marsh loss,
7 loss of public and private wetlands, and
8 loss of agricultural lands are accel-
9 erating.”; and

10 (B) in subsection (b), by striking “the
11 State of Maryland and the State of Louisiana”
12 and inserting “Maryland, Louisiana, and Cali-
13 fornia”; and
14 (2) in section 3—

15 (A) by amending subsection (a) to read as
16 follows:

17 “(a) GRANT AUTHORITY.—The Secretary of the Inte-
18 rior (referred to in this Act as the ‘Secretary’), subject
19 to the availability of appropriations, may provide financial
20 assistance to Maryland, Louisiana, and California for a
21 program to implement measures to eradicate or control
22 nutria and restore marshland, public and private wetlands,
23 and agricultural lands damaged by nutria.”;

24 (B) by amending subsection (b) to read as
25 follows:

1 “(b) GOALS.—The goals of the program shall be to—

2 “(1) eradicate nutria in Maryland and Cali-
3 fornia;

4 “(2) eradicate or control nutria in Louisiana;
5 and

6 “(3) restore marshland, public and private wet-
7 lands, and agricultural lands damaged by nutria.”;
8 and

9 (C) in subsection (f), by striking “State of
10 Maryland” and all that follows and inserting
11 “Maryland program, \$2,000,000 for the Lou-
12 isiana program, and \$7,000,000 for the Cali-
13 fornia program for each of fiscal years 2020
14 through 2025.”

○

STAFF SUMMARY FOR **AUGUST 22-23, 2018****17. STRATEGIC PLANNING****Today's Item****Information** ☐**Action** ☒

This is a standing agenda item for 2018-19 FGC meetings as FGC develops a new strategic plan. Today's discussion and potential action will take place in a workshop format.

Summary of Previous/Future Actions

- | | |
|--------------------------------------------------------------------------|---------------------------------|
| • First FGC strategic planning meeting | Feb 22, 2018; Sacramento |
| • Discussion held over to Jun meeting | Apr 18-19, 2018; Ventura |
| • Discussion of mission, vision, core values | Jun 20-21, 2018; Sacramento |
| • Today's discussion of potential mission, vision and core values | Aug 22-23, 2018; Fortuna |
| • Consider adopting mission, vision and core values | Oct 17-18, 2018; Fresno |

Background

FGC created its current strategic plan in 1998, which includes a mission statement and a vision statement. Over the ensuing 20 years, much has changed, not the least of which is a commission with broader authorities and a more ecosystem-based approach to addressing fish and wildlife issues. With the upcoming 150-year anniversary of FGC, the time is right to reassess its mission and vision statements, and to potentially adopt a set of core values or a core values statement.

At its Feb 22, 2018 strategic planning kickoff meeting, FGC discussed the overall goals of a new strategic plan and the type of strategic planning process in which to engage. FGC determined that it is seeking a streamlined planning process, given that there is significant information and input on which to build a new strategic plan, including the 2012 "California Fish and Wildlife Strategic Vision: Recommendations for Enhancing the State's Fish and Wildlife Management Agencies."

Today's meeting marks the second focused on potential changes to FGC's mission and vision (Exhibit 6) and a potential statement of core values. As requested during the Jun 2018 FGC meeting, staff has prepared a document that provides samples of mission and vision statements for other fish and game commissions in the United States as well as the U.S. Fish and Wildlife Service; in some cases, there is not a separate fish and game commission from the state's wildlife management agency (Exhibit 1).

After the Jun 2018 discussion, some commissioners were able to provide feedback on the current mission and vision statements, as well as potential core values (Exhibit 2) to help facilitate additional discussion during today's workshop. In addition, to complement the work of FGC, staff has reviewed and discussed potential changes to the mission and vision statements and identified potential core values (exhibits 3-5). These exhibits are meant to help facilitate an engaging discussion with commissioners to develop thoughtful and forward-thinking strategic planning documents.

STAFF SUMMARY FOR AUGUST 22-23, 2018

Today's discussion is being held in a workshop format so that commissioners, staff and stakeholders can have a direct dialogue about the ideas generated to date, to develop additional ideas, and provide guidance to staff on potential changes to the mission and vision statements and on potential core values. FGC is scheduled to consider adopting the mission, vision and core values at its Oct 17-18, 2018 meeting.

Significant Public Comments (N/A)**Recommendation (N/A)****Exhibits**

1. Samples of mission and vision statements and core values from other states, dated Aug 10, 2018
2. Input from commissioners on potential mission, vision and core values, dated Aug 13, 2018
3. Input from FGC staff on FGC vision, dated Aug 14, 2018
4. Input from FGC staff on FGC mission, dated Aug 14, 2018
5. Input from FGC staff on FGC potential core values, dated Aug 14, 2018
6. Current FGC mission and vision statements, adopted in 1998

Motion/Direction

Provide staff with direction on potential changes to the mission and vision statements, as well as core values.

California Fish and Game Commission

Commission Mission, Vision and Core Values

Adopted December 13, 2018

Mission

The mission of the California Fish and Game Commission, in partnership with the California Department of Fish and Wildlife, is to provide leadership for transparent and open dialogue where information, ideas and facts are easily available, understood and discussed to ensure that California will have abundant, healthy, and diverse fish and wildlife that thrive within dynamic ecosystems, managed with public confidence and participation, through actions that are thoughtful, bold, and visionary in an ever-changing environment.

We recognize our responsibility to hold California's fish and wildlife and their habitats in the public trust, as well as their cultural and intrinsic value, and therefore work collaboratively with other federal, tribal, state and local government agencies, non-governmental organizations and the people of California to establish scientifically-sound policies and regulations to protect, enhance and restore California's native fish and wildlife in their natural habitats, and to secure a rich and sustainable outdoor heritage for all generations to experience and enjoy through both consumptive and non-consumptive activities.

Vision

The vision of the California Fish and Game Commission is a healthy and biodiverse, natural California in which an array of native fish and wildlife thrive within dynamic ecosystems and inspire human interaction and enjoyment.

Core Values

Integrity

We hold ourselves to the highest ethical and professional standards, pledging to transparently fulfill our duties and deliver on our commitments to protect and hold California's fish and wildlife and their ecosystems in the public trust, to ensure consistency of expectations and outcomes. We ensure that our choice or order of decision-making does not arbitrarily prioritize one interest group over others. We hold ourselves accountable to act in accordance with our values and code of ethics, even when it is difficult. Our actions reflect honesty, truthfulness, respect and accuracy.

Transparency

We recognize the important and wide-ranging impacts the Commission's decisions have on California's wildlife, wildlife habitat and residents, and that these decisions should be made based on a variety of inputs in an open, inclusive and public process that solicits a diverse set of perspectives. We strive to communicate with our partners, our stakeholders and the public responsively and openly about how and why decisions are made. We use adaptive processes and consistently gather as much information as possible to ensure the Commission is best informed for thoughtful decision-making, while acknowledging that decisions are most often made with incomplete information.

Innovation

We respond to the ever-changing natural and human environments by evaluating the efficiency and effectiveness of our decisions and processes, identifying new ideas that challenge conventional wisdom and historical biases, and seeking opportunities for innovation. We recognize that innovation always involves some element of risk, and that creative problem-solving and implementing forward-thinking solutions where value is added is key to meeting the constantly evolving needs of our stakeholders and California's fish and wildlife. We take time to frame challenges, adapt, and execute new and useful ideas, including applying advances in sound science, evolving concepts of wildlife management, and public values toward wildlife in new and bold ways. We encourage novelty, creativity and flexibility as we proactively meet challenges and problem-solve.

Collaboration

We value collaboration, including teamwork and partnerships, in problem-solving and in developing policies and regulations. Teamwork is actively fostered and is one of the main ways we function. Collaborative efforts extend beyond the Commission and its staff to empower a diversity of stakeholders, other federal, tribal, state and local agencies, non-governmental organizations, and the people of California to participate in our problem-solving and decision-making processes and, where appropriate, engage in working groups that are inclusive and transparent.

We pursue productive and considerate partnerships, rather than relationships solely based on a formal legal agreement, and celebrate one another's successes as we take them to the next level together. A partnership is a mutually beneficial arrangement that leverages resources to achieve shared goals between and among the partners, based on mutual respect, open-mindedness, trust, and genuine appreciation of one another's contribution. Our primary partner is our sister agency, the California Department of Fish and Wildlife.

Excellence

We pursue quality, proactively assessing performance and striving to continuously improve the delivery of fair and accessible services, work products and decisions, as well as the efficiency and cost-effectiveness with which these are delivered. We are committed to being and delivering the best, and are diligent about creating better ways of doing what we do. We take pride in our efforts and what we make possible. We approach every challenge with an expectation and determination to succeed.

Stewardship

We hold the state's wildlife and their habitats and ecosystems in trust for the public, respecting that they have intrinsic value and are essential to the well-being of all California residents. We give attention to the environmental and human stressors, including climate change, development and other threats, that affect the resilience and health of our wildlife and their habitats and ecosystems. We use credible science, evolving concepts of wildlife management, and public values toward wildlife to evaluate programs, policies and regulations that will help achieve our stewardship goals. We recognize the dynamic nature of and stay abreast of changes in science, and that it should include the evaluation principles of relevance, inclusiveness, objectivity, transparency, timeliness, verification, validation and peer review of information as appropriate.

STAFF SUMMARY FOR AUGUST 7-8, 2019

15. STRATEGIC PLANNING

Today's Item

Information ☒Action ☐

This is a standing agenda item for 2018-19 FGC meetings as FGC develops a new strategic plan. Today's discussion and potential action will take place in a workshop format, to receive input on a series of strategic planning questions that will help guide development of draft goals.

Summary of Previous/Future Actions

- | | |
|----------------------------------------------------|----------------------------------|
| • First FGC strategic planning meeting | Feb 22, 2018; Sacramento |
| • Discussion of draft mission, vision, core values | Jun, Aug, Oct 2018; various |
| • Adopted mission, vision, and core values | Dec 12-13, 2018; Oceanside |
| • Received updates | Feb, Apr, Jun 2019; various |
| • Today's input on seven key questions | Aug 7-8, 2019; Sacramento |

Background

In anticipation of FGC's upcoming 150-year anniversary in 2020, a strategic planning process was initiated in early 2018 (see Exhibit 1 for background). In the first of a three-phase process, FGC reassessed its mission and vision, and developed a set of core values, in concert with staff and stakeholders. Adopted in Dec 2018, the revised mission, vision, and new core values (Exhibit 2) are serving to guide a forward-thinking update to the strategic plan.

In Jun 2019, staff reported that the second phase of the planning process was ramping up, to consist primarily of data gathering and synthesis with staff, stakeholders and commissioners. Staff has been reviewing strategic plans developed by other wildlife-focused organizations, assessing surveys conducted through other strategic planning processes, developing a series of questions for an online survey as well as in-person and phone interviews, and creating lists of participants for the survey and interviews. The information gathered during this phase will be analyzed and used to help guide development of draft goals for FGC consideration.

This agenda item will be held in a workshop format, where commissioners can receive input from members of the public on seven key questions:

1. Briefly describe, in a few words or sentences, how you and/or your organization perceive FGC.
2. What do you believe are FGC's three greatest strengths?
3. What are FGC's three areas in greatest need of improvement?
4. What are the three greatest opportunities available to FGC as it moves forward over the next five years?
5. What are the three greatest obstacles FGC is facing in the next five years?
6. In the next five years, what goals do you believe should be the highest priority for FGC?

STAFF SUMMARY FOR AUGUST 7-8, 2019

7. What is your level of trust that FGC leaders are responsible stewards of the resources under their authority?

This item will begin at 3:00 p.m. or 30 minutes after the last agenda item heard today, whichever is later.

Significant Public Comments (N/A)

Recommendation

Exhibits

1. Staff summary from Agenda Item 23, Strategic Planning, June 12-13, 2019 (for background only)
2. FGC mission, vision and core values, adopted Dec 13, 2018

Motion/Direction (N/A)

Q1 My primary (current or most recent) experience with the commission is/was as a:

Answered: 97 Skipped: 1

ANSWER CHOICES	RESPONSES	
Commissioner	0.00%	0
Commission staff member	1.03%	1
CDFW staff member	17.53%	17
Other tribal, federal, state, or local government agency staff member	8.25%	8
Tribe, federal, state, or local policymaker (legislator, legislative staff, council member, board member, etc.)	3.09%	3
Representative of non-government organization	15.46%	15
Representative of an ocean-dependent industry	4.12%	4
Member of the public	42.27%	41
Other (please specify)	8.25%	8
TOTAL		97

#	OTHER (PLEASE SPECIFY)
1	Fly Fishing Club interested in regulation changes in order to better save Coho Salmon and Steelhead populations. Please eliminate bait angling in the Steelhead season regulations.
2	County Fish and Game Commissioner
3	Biological Monitor - [REDACTED]
4	Fishing / hiking resort owner and avid fisherman
5	University faculty
6	Marine scientist
7	Those in charge of the poisoning of Lake Davis and the attorneys they hired to defend the lawsuit by 30-some damaged private businesses in Plumas County
8	Hunter Education Instructor

Q2 What subjects under the authority of the Commission are of greatest interest to you or your organization?

Answered: 98 Skipped: 0

ANSWER CHOICES	RESPONSES	
Commercial fishing	24.49%	24
Recreational ocean fishing	34.69%	34
Recreational inland fishing	31.63%	31
Hunting and trapping	38.78%	38
Aquaculture	15.31%	15
Protected areas (wildlife areas, ecological reserves, marine protected areas)	57.14%	56
Threatened and endangered species	57.14%	56
Restricted species	20.41%	20
Nuisance species	24.49%	24
General interest	26.53%	26
Other (please specify)	21.43%	21
Total Respondents: 98		

#	OTHER (PLEASE SPECIFY)	
1	1602 permitting	
2	Fish and Wildlife Public Education Programs - Especially in the Public School System	
3	Birds of Special Concern	
4	Changes within the Department regarding hatchery infrastructure and the upgrade of the stocking for all inland waters for anglers, we pay a good price the 3rd highest in the US for our fishing licenses and the return is minimal.	
5	Access to important mineral resources within protected areas.	
6	Abalone	
7	Timberland Conservation	
8	laws passed about hunting and fishing you never saw first.	
9	Recreational multi-use trail opportunity on public lands	
10	Purple Urchin Barren/ Kelp Forest Crisis	
11	Water Use	
12	Habitat protection from vineyard development.	
13	foraging wood off the beaches	
14	Scuba diving and Abalone diving	
15	Ensuring wildlife exists for and is accessible to all.	
16	Marine fisheries management	
17	Habitat restoration and preservation	
18	Poisoning of CA Lakes to eradicate Pike or invasive species.	
19	Tribal Traditional subsistence and ceremonial fishing, gathering and uses	
20	Wildlife conservation in general	
21	re-establish native species	

Q3 What do you believe are the Commission's greatest strengths? (List up to three)

Answered: 89 Skipped: 9

#	RESPONSES
1	I'm not sure yet. Need to focus on protecting the water supply for steelhead and coho, and the habitat they live in.
2	Hunting and fishing regulations
3	Transparency and availability of briefing documents, ISORs etc.
4	unknown
5	1. Listening to all concerned parties. 2. Decisions based on best science. 3. Transparency.
6	Being from the public sector.
7
8	Calling the public's attention to issues. Protecting wildlife and endangered species. Keeping wild areas accessible to me, my children and grandchildren.
9	Setting Policy For The Dept. of Fish and Wildlife
10	Have had good staff work.
11	N/A
12	Current leadership, diversity, long history of wildlife conservation and management direction
13	Management of species Preservation of ecosystems Arbitrator between, commercial, recreational and environmental groups
14	Budget recommendations regarding F&G in California
15	The ability to combine policy and science into meaningful decision-making.
16	Hopefully they include fishing and hunting not just the copious amounts of conservation and special interests within what the DFW has aligned themselves with that you must protect. I would like to see more info on their Bio's as to their fishing and hunting interests, so I'm lacking in their strengths.
17	changing venues to allow the public to attend without having to travel great distances to voice opinions and participate.
18	Open to listening to the greater outdoor community
19	Involvement with CDFW planning and resource protection.
20	i don't know.
21	Make sound decisions based on peer reviewed science and management practices
22	the amount of lands owned
23	not sure
24	Their greatest strength is coming up with fair bag limits for fishing and hunting.
25	The support of the commercial fishing industry.
26	1) Responsiveness to Stakeholders 2) Knowledgeable personnel 3) Collaboration with professionals from other agencies
27	not sure looks like the special interest groups have more control over wild life management than you do.
28	1. statutory authority 2. independence 3. public transparency
29	Communication with the public & tribes seems to be good.
30	The power it could have for change
31	The commission has the ability, if left to do its job, to increase the health of wildlife and habitat both inshore and offshore as well as the proper science based wildlife management of CA diverse habitat.

32	Preservation
33	There are none. Worst state agency we've ever dealt with.
34	None. The commission continues to ignore all public comments. They continue to submit meeting documents stating no substantial public input when this is far from the truth
35	In my limited experience, staff was competent. I saw leadership from the Chair.
36	1) The commission's openness and respect when speaking to the public is by far one of its greatest strength. It has not always been so, and as a woman who represents an NGO, I can say with confidence that I have always felt heard and respected when speaking at meetings. 2) The commissions clear interest in protecting our state's vulnerable species is an obvious strength, and I hope to see it continue to strengthen.
37	Ability to weigh access with protection
38	Information gathering Information analysis Environmental recovery
39	The ability to both have a public forum for discussion of relevant issues, and to utilize the expertise of the Department of Fish and Wildlife staff.
40	They are in California.
41	Grant program
42	None right now
43	Unknown
44	Providing venues for constructive public input on ocean/land management for recreational hunting, harvesting (especially of red abalone) and fishing.
45	reliance on latest science representation of hunters and fishers listen to all sides in meetings
46	The ability to protect our resources. The ability to protect our wildlife and the authority to do it
47	don't know
48	No idea
49	Set regulations to best ensure viable and healthy fish and wildlife populations to insure a resource that will thrive.
50	not acting on marine issues
51	Political correctness
52	Big game management Trout planting program
53	I don't know if there are any--I've been a local commissioner and feel like policy is set in a vacuum.
54	Ability to work cooperatively with California Fish and Wildlife Department
55	Members of the public; non-partisan; ability to translate the science of the DFW into actions understood by the public.
56	You have thousands of people who pay you to do your job of insuring hunting and fishing for future generations.
57	Open discussion of issues
58	Represent a diversity of backgrounds Provide a check on CDFW
59	Protecting species and their habitats Supporting research and conservation Promoting ecological stewardship within the public sector
60	Ability to add public input on DFW decisions
61	Ability to protect land and species.
62	None that I can think of.
63	regulatory and protection,
64	Using science to guide action. Planning for the future. Communication.
65	Ability to help guide policy
66	Directing funding

67	Kicking the can down the road Being responsive to special wealthy interests
68	The ability to properly manage the recreational fishing impact on our ocean resources. The ability to have foresight into the potential impact on ESA listed species; ie vertical line and whale interaction. (primarily crabbing) Maintaining equality with user groups.
69	Ability to address needs of the environment and listen to the needs of the environmentalist
70	I'm not at all happy about anything the commissions doing right now
71	1) Communication (including providing for public participation and input); 2) Transparency, particularly with meeting notices, meeting streaming, and meeting notes.
72	opportunity to protect threatened and endangered habitat and species.
73	Independence from the DFW; practical experience; interest in protecting the interests of the public users of wildlife areas
74	Unsure, but hope it can bring up policy needs to staff for review.
75	Knowledgeable, passion, dedication to conservation
76	allowing public comment
77	None None None
78	Wildlife Management Protecting wildlife habitats from the illegal use of OUR public lands. Delovping access to public land that is land locked by private ownership.
79	attempting to protect the ecosystem
80	Responsiveness, agility and foresight
81	Protection of resources while maintaining public access to said resources.
82	N/A
83	Ability to manage the wildlife in regards to the North American Wildlife Model . To apply scientific wildlife management not legislative feel good management with no scientific background.
84	Ability to respond to regulatory needs without direct legislative action Use of Commissioners to adjudicate and resolve controversial issues
85	Response to public.
86	Providing protection for ALL fish and wildlife in California and California state ocean waters.
87	Coordination between private and public lands Using science-based decisions in management policy Including the public
88	Staff's accessibility
89	A history of conservation and wildlife management

Q4 What do you believe are the Commission's areas in greatest need of improvement? (List up to three)

Answered: 91 Skipped: 7

#	RESPONSES
1	Protecting coastal waters historically home to Steelhead and Coho Salmon. Increasing flow requirements for City Water agencies to provide more flow from July-September at critical growth periods and highest use periods Approve elimination of Bait angling during Steelhead season
2	Invasive species management, listed species recovery and water resources management, alignment with other state resource agency departments
3	Taking Commission Meetings to the Central Coast of CA, as well as other areas, where their topics will be of interest.
4	better contact (and associated input mechanisms) from the Hunting and fishing public. We need to know how AND WHEN YOU WANT TO HEAR OUR INPUT AND CONCERNS.
5	1. Before wildlife are harmed, excellent population and mortality accounting should be required from the department. Need greater insistence to stakeholders to provide scientific evidence when they argue for decisions to harm wildlife. 2. When information is lacking, decisions should default to highest wildlife conservation value, rather than stakeholder desires. 3. Would like to see a better understanding that maintaining the status quo is a decision. Proponents of current policies and regulations have an advantage unrelated to the value of their position, and this should be countered with additional opportunities for those proposing changes to policy.
6	Should have more hunting and fishing experience. Listen to staff more, public less.
7	The Commission's purpose and goal's seem to be shrouded by some over commitment to paperwork. For example, in an attempt to plant trees as mitigation, the Commission is nit-picking every little detail of a 4 acre, 0.2 mi long plot. We want to plant trees. I thought the Commission wanted us to plant trees. Instead we are sending over the serial number of the hand tools that will be used (mcleods, post-hole diggers). If the result of one 1602 agreement (3 year process) is for mitigation, and that mitigation requires 1602 (3 year process) then it would seem the Commission has lost all values, purpose, and goals.
8	Having the power to actually get things done
9	Public Relations - Getting The Commission's Resource Protection Role Out To The Public And Land Use Industries.
10	1. Qualifications of members. Should have sufficient biological background to understand science and issues. 2. In past, some commissioners have disregarded scientific information and legal requirements and arbitrarily made decisions to not list species (e.g., Tricolored Blackbird in previous considerations).
11	N/A
12	Less catering to the "blast and cast" community
13	transparency better marketing and communication with public balancing public access and use
14	Simplified regulations
15	Size of staffing relative to size of workload.
16	Work on areas that need culling i.e., protection of certain mammals that are predatory. More time at the meetings for the public to voice. Better understanding of what is needed for the Department, and not the government. This should be a free standing Commission not influenced by the Governor.
17	focusing on science-based work instead of emotional pleas; improving their relationship with legislators to prevent (or at least lessen) laws inconsistent with best practice land & animal management; establish the reputation as the go-to resource for all fish and game management in the United States.
18	At times, ruling according to political agendas rather than what's good for Californians. Need to respect all viewpoints equally. The change in focus from protecting hunting and fishing to limiting hunting and fishing opportunities

19	Although I do think the that the Commission needs to change their name to align with DFW name.
20	Need to consider all economic benefit related to other resources, e.g., minerals, when making determinations that would affect access to minerals.
21	Receive and act on recreational consumptive fisherman's feedback and observations. Hold the DFW accountable for poor management practices and unsubstantiated data Replace or rotate biologists within the DFW staff.
22	more access to hunting locatons. being able to access the land that is available
23	applying science based decesions
24	Their greatest weakness is not using science and best practices to make decisions based on wildlife management. They listen to groups of animal activists or base decisions based on people's feelings instead of facts. Another huge weakness is the management and follow up of MLPAs. Once again, they do not use science or facts to warrant many of the closures.
25	Dealing with Environmental Organizations.
26	fight for science based wildlife management over any other means. Reverse the lead ammo ban. Spend dollars from pittman robertson (PR) act on properties that allow hunting and directly involve hunting, so to encourage more hunters and thus more PR dollars.
27	1) The CESA definition of Take is biologically deficient 2) Allowing some CDFW personnel to act as activists rather than as scientists 3) Lack of training for CDFW personnel regarding the above
28	Ask the Governor not to sign any bill about wildlife management or public access till the commission reviews it first.
29	Allowing the public more opportunities on public land.
30	Scientific expertise and lack of staffing commensurate to mission/responsibilities too much workload for volunteer commissioners inability to direct DFW as per statute
31	N/A
32	It needs to act on urgent matters in a more timely matter instead of conducting research for five years and then acting on a ecological issue when it's too late to actually solve the issue. The commission needs to not prioritize commercial fisherman's need to harvest as much product as possible and instead focus on keeping fisheries sustainable and healthy above all else
33	Follow science based wildlife management policies as a rule and consider heart/feeling based policies as a last resort. fight the legislature and senate who want to take your governing recommendations away from you and put in in the hands of people who do not understand the North American Model of Wildlife Conservation and are acting in bad faith for non-hunting organizations.
34	Nicer attitude when dealing with boaters and hikers.
35	Completely devoid of ethics. Zero accountability. Severely incompetent staff.
36	Listening to fishermen not CDFW staff members
37	Needs to be proactive in protecting species and habitat. It should initiate CESA listings.
38	1) Diversity, equity and environmental justice is the number one area of improvement. The commission and their staff need to better represent the people of California, and currently do not. Additionally, environmental justice should be a top priority for the commission. 2) The second area of improvement for the commission should be timeliness in release of agenda item information. At this time, staff reports of agenda items are released so close to the written comment deadline, that putting together comprehensive written commentary is very difficult.
39	Ability to weigh access with protection - access seems to be taking higher priority. Addressing sea level rise issues will become highest priority very quickly.
40	Public contact and outreach
41	Update on the operation model of the Commission meetings (should every issue be afforded hearing time or are there other means of dealing with issues). Focus on general interest wildlife and future thinking.
42	They are people trying to do a difficult job.

43	Provide grants for Water Wardens to investigate stream and creek destruction.
44	Manage the abalone/urchin situation better
45	Think about lowering recreational fishing licenses cost for senior citizens. It cost nearly \$100 for us for fishing licenses this year. It is the one outdoor recreation that the 2 of us do together and becoming unaffordable on our frozen low income at 76 and 78 years of age.
46	Recognizing ALL evidence presented at meetings Moving on the constructive input provided at said venues.
47	work with tribal entities post agendas earlier improve enforcement of regulations
48	The commission needs to transition commercial fishing into a sustainable smaller, better regulated industry It needs to change to an emphasis on restoring our wildlife resources for future generations.
49	don't know
50	No idea
51	?
52	The purple Urchin situation
53	Protecting bio-diversity of our coastal ocean areas
54	Urchin removal programs
55	-Climate change policy with regards to streamflow and listed species; __Reform the permitting process--get State to give CDFW enough funding to run their programs without soaking the restoration community for reducing sediment delivery to salmonid streams though inflated fees; --Provide the political clout to get money on the ground sooner--grant programs are a waste of time--block grants should be considered.
56	!.Need to increase contact and communication with the Pacific Fishery Management Council 2. Commission needs to familiarize itself more with the California commercial and recreational fishing community.
57	Establishing independence of the appointing authority; using the scientific/technical input from DFW & others but still using independent judgement in serving the public good;
58	DFW needs to remember the original vision and purpose of the department.
59	Incorporating science in decision making
60	Commission needs to act more proactively Commission needs to act even when CDFW is dragging its feet
61	Developing a more holistic ecosystem approach to species conservation,protection, and restoration efforts. Public outreach and education to better understand human impacts on ecosystems. Networking with private sector scientists and restoration specialists.
62	Better independent science evaluation of policy decisions
63	Ability to protect land and species.
64	Public perception of poisoning and destroying local rural economies in the name of Pike.
65	getting rid of " red tape ", more grant money,
66	Staffing levels. Educating the public.
67	The lack of using real, data-driven science to make decisions! Decisions are often made by opinion rather than fact.
68	More staff for wardens to protect the wildlife
69	Timely engagement with external stakeholders Reasonable data needs vs making decisions- staff don't seem to be able to make decisions or implement plans without excessive studies, often studies with little or no value
70	Get the CDFW back into the field and hire more biologists and less public relations
71	What I listed above are both the strengths and needs I see in the industry.
72	Listening to staff and the conservationists
73	Stop taxing the commercial fisherman if they can't fish.

74	Collaborating with other relevant Boards or Commissions (particularly the Board of Forestry and Fire Protection--there are a number of old joint policies between the Fish and Game Commission and the Board of Forestry and Fire Protection that have not been revisited in decades despite their continued relevance.)
75	include Tribes in decision-making and advisory committees, include Tribal beneficial uses instead of just commercial and sports-fishing what about Tribal subsistence fishing and cultural considerations.
76	Independence from the DFW - the ability to disagree when the administrative agency pursues a policy convenient to it or consistent with current executive policy, but not legislative authority.
77	Need to more critically assess staff report, as on state listing of NSO, and listen and weight more heavily the input of public and non govt advocacy organizations with expertise on small landowner impact of state listing as with NSO listing. Recognize we travel far to be heard for 3 minutes and appreciate your taking that as evidence we have serious problems and hope for your help with them.
78	With the limited number of Commissioners, it is difficult to make sure all communities, and interests, across the state are represented. Particularly in regards to human-wildlife-conflict in urban areas (it is difficult for the Commission to devote the time needed for this issue given all their other priorities and needs)
79	Movement away from special interest groups - and back to the sportsmen that support the DFW
80	Actually fish Touch, feel, catch fish, communicate with anglers on the water several times a week. WATER QUALITY, CAUSES OF HAB
81	See question #3
82	enforcement of polluters, including cattle grazers enforcement of poaching (hunting and fishing) need more wardens (increasing pay could help) reestablish deer herds through predator control and habitat restoration set deer seasons later in the year, move them all 1 month later
83	Public engagement, long range mission, proactive for the betterment of recreational hunting and fishing
84	1. Act with the interest of all areas of California. 2. Supporting Southern California needs above those of the rest of the state. 3. Management of Deer populations by allowing doe hunts.
85	Currently the commission needs to stop "feel good" issues from being approved. Their duty is to protect our hunting and fishing rights with the use of wildlife management science.
86	Some Commissioners represent agendas rather than facts and do the bidding of special interest groups over what may actually be best for the resource and CA citizens
87	Consider animal welfare more.
88	Favoring game species over non game species
89	Oversight of private land management ranches in using best science that aligns with public land management. Review your mission periodically to make sure it aligns with the latest science Incorporate ethics into your mission and management strategies
90	1. A balanced approach that is focused on science and not politics. 2. Lack of fishery/hunting experience. 3. Transparency (special interests have unfair access to Commissioners)
91	Preserving the history of conservation and wildlife management

Q5 What do you believe are the greatest opportunities available to the Commission as it moves forward? (List up to three)

Answered: 91 Skipped: 7

#	RESPONSES
1	Protecting coastal waters historically home to Steelhead and Coho Salmon. Increasing flow requirements for City Water agencies to provide more flow from July-September at critical growth periods and highest use periods Approve elimination of Bait angling during Steelhead season
2	Leveraging the County fish and game commissions to provide more connectivity to statewide resource management and stakeholder engagement, ability to help legislators understand natural resource management issues better and use the legislative process better for wildlife and overall environmental management
3	Building consensus among consumptive and non-consumptive use advocates
4	Become more like AZ. Track their efforts, progress, community outreach/input. Defend and foster the sports of hunting and fishing in the usually antagonistic news media. Try to get past their efforts to villify the taking of fish and game.
5	1. Outreach to broader communities. 2. Refocusing on fish and wildlife conservation opportunities rather than consumptive opportunities. 3. More effective explanation to stakeholders about norms of conduct and the value of various kinds of content representing their position.
6	Fix the horribly run department, very cost ineffective and very poor results.
7	Stop pushing underground regulations Focus on law intent rather than paperwork Identify values that the Commission can propagate within itself.
8	Protecting threatened and endangered species. Protecting our rivers, bays and ocean. Keeping wild areas and rivers accessible.
9	More Interaction With Private Landowners To Adopt CDFW Policies That Encourage Best Land Use Management Practices Including "Set Asides".
10	Advocate for increased funding for conservation programs
11	N/A
12	Continued reliance on the Department's excellent and dedicated staff professionals; ostensibly a wildlife-friendly governor's administration and legislature (opportunities for updating outdated laws/regulations/policies/programs?); new and innovative technologies
13	prove to the public that adaptive management goes both ways in management and decision making use truthful science to inform decision making help to increase participation in hunting and fishing
14	Promote recreational hunting and fishing and commit funds to improve hunting and fishing.
15	Interaction with new stakeholders who have not previously heard of or worked with the Commission.
16	See #4
17	educate the legislature on their abilities and capabilities to manage wildlife, improve social media presence, and improve networking with other state's DFG agencies.
18	Decide to review all the pertinent facts and science before falling prey to political agendas and/or influences. Reach out more to rural communities and rural stakeholders.
19	Ability to direct staff and policy to protect our natural resources. Increase wildlife and lands protection staff.
20	I don't know.
21	Make sound decisions for managing recreational ocean fisheries
22	to teach the benefits of hunting
23	Using more science and facts to make decisions. Not throwing science and facts out

	the window based on some people's feelings about animals.
24	Gaining more support from the commercial fishing industry.
25	improve access to hunting area
26	1) Improvement of CESA by re-defining take in an ecologically pertinent manner (upgrade to the federal definition of take) 2) Improvement of CDFW through improved training of personnel 3) Hire trained scientists instead of untrained activists
27	Listen to the science based wildlife management and not special interest groups please.
28	Public in-put Listening to the communities their decision affects Understand public land is for the public; not just the resources
29	gain authority to hire/fire Director of DFW utilize statute to direct DFW
30	More collaboration with tribal nations.
31	Act on the purple urchin barren issue. Work to preserve and protect the last kelp and red abalone on the north coast
32	To keep hunting and fishing as a way of life in this state
33	Take input from consumptive users and non-government organizations such as the Hunting and Conservation Coalition to increase the opportunities for hunting and fishing in CA while maintaining good habitat and wildlife numbers.
34	To keep an eye on toxin, pesticide run-off, etc. and any links to declines in species. To work more closely with volunteer groups to help habitat fro critters and fish.
35	The commission should be dissolved and replaced with something accountable to the public that actually has our best interests at heart.
36	Only opportunities they can benefit from is to listen to seasoned fishermen
37	Sustainable fisheries Ending by bycatch Using CESA effectively
38	1) Working with the public, specifically populations that are traditionally undeserved and underrepresented, to increase the reach and the equity of the commissions decision-making process
39	Ability to weigh access with protection (the human population is continuing to rise, so now is the time to protect the coast, or it will be too late. Adding sea level rise issues to that makes addressing coastal protection even more critical.
40	Coordinate better with the DFW Service Based Budget proceedings and the WCB to create a more comprehensive focus for the future of wildlife.
41	They have some latitude to move the state forward.
42	local information al presentations around the state.
43	Bring back abalone season
44	Taking care of seniors who want to fish but can't afford the \$\$\$
45	Work closely with the public
46	open to public comment chance to address climate change build resilience in wildlife management
47	To preserve our unique wildlife. To transition from a harvesting mode to a preservation mode.
48	don't know
49	No idea
50	Work with outside organizations that have a "stake" in this resource.
51	Rotating closed mpa areas
52	Working/leading the public in a public private enterprise the revive abalone stocks.
53	Working with recreational and commercial fishermen to help remove/abate invasive purple urchin
54	-Reform CDFW's antiquated operations and streamline restoration and permitting;
55	Combining environmental awareness and concern with the need to supply needed protein and recreational opportunity to California's citizens. Now that many fish stocks are rebuilt, we need to find a way to harvest them without depleting their

	populations. Also hope that the Commission can influence water agencies to allow sufficient flows to rebuild depleted salmon populations.	
56	The FGC needs to find ways to serve all residents not just those who hunt, fish, hike, kayak, or in some way intentionally engage with wildlife. Many people, esp urban residents, would greatly benefit from enriched natural areas and wildlife populations close to their homes - they don't have the luxury of making special time/plans to engage, they need opportunities close at hand. They could benefit physically, emotionally, medically and educationally if they had more frequent wildlife encounters as they simply lived their lives, not needing to make extraordinary efforts to do so. I know the Commission's statutory duties don't offer lots of opportunities to do this but I believe they are there if sought.	
57	Sport hunting Commercial fishing As long as the commissions actions are influenced by people's need to make money and/or need for glutinous hunting. You'll never make the right decision.	
58	The greatest opportunity of the DFW is the support of those whom they serve, those who buy licenses and tags. Each person pays to be an advocate. If you have a need, just ask, and help is on the way.	
59	Try some management experiments when appropriate and evaluate outcomes	
60	Stakeholders, fishermen and scientists want to actively engage with management. Need to be open to partnerships	
61	Working and networking with private sector scientists, restoration practitioners, and cultural experts for ecosystem management, protection, and conservation. The climate crisis is a motivating platform for public education, awareness, and motivation for promoting ecosystem conservation and human impacts at home and throughout the state.	
62	Be more directed by independent science rather than just here say or DFW recommendations	
63	Protection of endangered species. Protection of habitat. Limiting commercial fishing, to protect species.	
64	Stock our Lakes with non-contaminated fish and pay local communities for economic hardships caused by their actions.	
65	developing aquaculture/research centres on the north coast,	
66	Climate change will radically change habitats and species populations and ranges. Getting on top of the changes, predicting and responding to them.	
67	To be a guiding and helping resource for the commercial fishing community.	
68	Work with external agencies and stakeholders as well as local public who often know and understand resources as well or better than commission or CDFW staff.	
69	Saving our state's wildlife for future generations	
70	Communication and public outreach are a must — both written and broadcasted.	
71	Working more with HEI's about hunter issues	
72	Not sure, saying commercial crab fisherman are killing whales but allowing sport fisherman to continue crabbing is insane. Since the commercial fisherman are paying huge and highly regulated	
73	Working with other regulatory Boards to address issues that impact both natural resources and human health and safety. For example, fuel reduction projects that could improve native species' habitats or could completely remove habitat.	
74	Tribal Commission, tribal subsistence and cultural considerations, co-management with Tribes and learning from Tribes about traditional management strategies.	
75	Continue to preserve public access to public lands for hunting, fishing, and general "multiple use" recreation; balanced with preserving the resource.	
76	Small private forest landowners need economic incentives and a stop to economic punishment for our stewardship of threatened/ endangered species. Also, urge DFG to streamline and better coordinate with other agencies to enable rapid fuel reduction efforts especially on small private lands, to prevent catastrophic wildfire statewide. Offer generous and quick easy funding to individual/non industrial small forest landowners to support the above. Don't just give grants to environmental NGOs .	
77	Hold more of the commission meetings in southern California. Engage community members and CDFW staff in more informal forums. (The formal Commission meetings can be a bit intimidating for citizens to participate in)	

78	Return to the sportsmen opportunity to hunt and fish Simplification of regulations
79	One must spend more time fishing & hunting. Without the real experiences you have nothing to go on. Biologists lie, manipulate data & books aren't what's in the real world.
80	Developing youth involvement by easier access to the resources of this state i.e. calendar year fishing licenses, etc.. Using the biologist and there studies to make discussions in managing of the wildlife in this state instead of the political motivated system that has plagued this state in past years.
81	stocking and reestablishing native fish capable of reproducing; not triploid. enforce take regulations establish more catch and release angling have more deer hunts with muzzleloader have crossbow
82	Updating big game hunting seasons to reflect climate change impacts, focusing on more ways to re-invigorate the public interest in the outdoors
83	Provide programs to get youths to be more involved in outdoor activities. Stock more fish in the lakes
84	We open closed Cow cod Closed18 years to Rebuilt
85	Start to use Wildlife Management Science not Feel good preservation management.
86	We need to use Commission authority to review and execute the PEIR for aquaculture development so that California can help establish for the nation practical and sustainable standards for marine aquaculture that will feed our citizens, generate and alternative to harmful commercial fishing and conserve precious natural resources.
87	The commission should uplift modern and technological advancements in fishing.
88	To engage the general public more.
89	Incorporating sustainability into all decisions
90	1. Opportunity to support sustainable, vibrant and viable recreational and commercial opportunities. 2. Need to rebuild trust with the consumptive user groups. 3. Move from being a political body to a science based and science driven body (unbiased science that is)
91	opening up the public lands to a new generation of hunters and fishers.

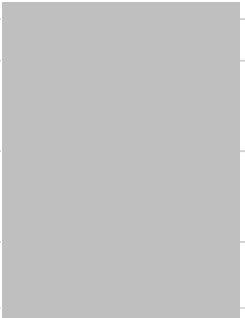

Q6 What do you believe are the greatest obstacles or challenges the Commission is facing? (List up to three)

Answered: 89 Skipped: 9

#	RESPONSES
1	Growth, Development that is demanding water that doesn't exist. Finding a way to put the 8 million gallons of water the city dumps in the ocean - back into the aquifer Stopping the growth and development
2	Too much attachment to cultural sensitivities regarding wildlife issues, climate change, population
3	Perceived or real conflicts of interest of Commissioners. Lack of consumptive use representation.
4	see above... the media penchant to villify hunting (and fishing to some lesser degree)
5	1. Prioritizing petitions based on conservation impact, developing methods for reducing demands on the department. 2. Clarification of expectations about when and how stakeholders should approach the commission vs. seeking legislation. 3. Including broader public participation.
6	Poorly run department. Appointments of people who don't know anything about fishing and hunting. Communicating with the public.
7	Somehow the Commission has turned an blind eye to employees who bastardize the process of protecting the environment. The greatest obstacle the Commission faces is maintaining any relevance as the Commission allows such behavior. The Millennials are growing up and they won't be bullied by oppressive regulators.
8	Government interference, neglect, and underfunding. Citizens' apathy and unawareness.
9	Educating Landowners to "Do The Right Thing" As Stewards of The States' Fish and Wildlife Resources.
10	1. Complacency regarding the adequacy of existing programs and funding 2. Lack of support from the legislature 3. Excessive influence from vested interests
11	N/A
12	climate change (good luck, pikas!), varying support/opposition to fish and wildlife conservation and management through transitioning administrations, public support and funding for fish and wildlife conservation and support
13	litigation legislation bureaucracy
14	Public pressure from people who don't understand nature.
15	An increase in authority without an increase in staffing capacity.
16	Not let outside influences make your decisions. Also, see #4.
17	Reduced number of fishers and hunters; lack of respect from legislators.
18	Increased pressure from anti-hunting forces.
19	I don't know.
20	Anthropomorphic and emotional public views for management. Decisions based on an abundance of caution instead of sound peer reviewed science
21	educating the public on the benefits of hunting
22	They need to go back to making science based decisions about wildlife. Just because some people in our state do not enjoy fishing, hunting, and outdoor activities based on their beliefs it does not mean those things should be limited or restricted to others.
23	Whale Entanglements, Changing Climate, CBD.
24	Do not allow the legislature to take over the commissions duties.
25	1) Lack of a biologically-sound definition of take 2) Lack of quality training for CDFW personnel 3) Lack of trained scientists & too many untrained activists within the ranks of CDFW personnel

26	The take over of special interest groups to get legislators to pass laws not base on good science based findings.
27	Depending on staff's recommendations too much and dismissing or not openly listening and understanding the public's view point
28	authority, funding, staffing
29	N/A
30	To keep hunting and fishing as a way of life in this state Nutria eradication Wildlife population surveys
31	CA Legislators who take campaign contributions to forward the non-hunting legislation which has popped up over the last few year which removes your purpose from the wildlife management equation.
32	Rampant corruption within the department. Extreme and excessive regulatory bloat that serves no purpose other than the enrich their own bureaucratic empire. Total disregard for the public is supposedly serves.
33	Negligence to further investigate CDFW requests and the validity of the request as it pertains to resource management, stakeholder input and compliance with the MLMA
34	Economic interests that interfere with science and regulation in the larger public interest
35	Successfully hearing from all parties that need to be involved in the decision-making process in a timely and efficient manner.
36	Influence by well-financed access advocates.
37	Climate change
38	Narrow special interest focus.
39	The political environment. Loud, uneducated people.
40	Big wine money and lack of on the ground aggressive wardens.
41	The urchin takeover
42	Unknown
43	The snail's pace that "research" takes and the anxiousness of the public to have restrictions lifted (red abalone) Collecting data and then actually implementing action-based decisions that include ALL the data
44	resistance to change circumventing regulations while fishing or hunting illegal harvest for commercial use
45	Backlash from an ingrained, entitled industry/public that feels if an animal/fish is there, it should be available for harvest with no thought for the future
46	too many environmental restrictions....restrictions are good and useful...too many of them are not.
47	No idea
48	Politics.
49	poor scientific data
50	Organizational inertia Keeping pace with the rest of the world
51	--People are not hunting or fishing like they did in the past--the model of a fee-supported organization is outdated. Fund CDFW for climate change, protection of critical habitats, and restoration.
52	Sacramento and San Joaquin valley salmon populations need to be rebuilt. Can only be done by improving water flows in the Central Valley. Northern California coastal watersheds also need much improvement to assist salmon recovery. Climate change and development in Southern California is also threatening native aquatic species.
53	Incorporating climate change science into the complex of regulations and decisions the FGC makes annually; balancing the often competing interests/needs of resource users (hunters, anglers, hikers), ensuring healthy wildlife populations, protecting wildlife for their intrinsic/spiritual values, while also allowing reasonable/responsible economic use; and like most things in the public policy arena, dealing with false information in the era of social media.
54	Irresponsible people who kill for sport and money

55	The greatest obstacle is forgetting the original vision and purpose on which the department was founded, and listening and adopting the philosophies of other groups who don't share that original vision.
56	Dealing with climate change Navigating state/federal management issues
57	CDFW Antiquated regulations Non-nimble policy processes
58	The current administration and "leadership". An ecosystem and ecologically disconnected general public. Climate change.
59	Political interference resulting from vested financial interest in how DFW and Resources Agency decisions are made. The recent veto of SB 1 is an example of financial political interference in decision making.
60	Republicans.
61	Credibility.
62	controlling the black market fishing
63	Politics, vested interests, illegal take.
64	Fear of legal action from any group that does not agree with a decision, a desire to be "liked" rather than respected and an inability to make hard decisions
65	Funding
66	Empowerment of staff to do the right thing
67	To much influence from public / private funding which buys policy for special interest group's agendas unfairly.
68	Public sediment about management actions. Appropriate follow up to any management action; enforcement.
69	The commission is faces challenges in the sense that the state is becoming anti-gun and more pro environmental, by doing this conservation of the states wildlife and fisheries will suffer.
70	Taking away hardworking people s jobs
71	Making informed decisions about species in the light of climate change.
72	Shifting mind so that Tribes are included more integrated.
73	Lack of independent staff resources (apart from DFW staff); DFW's lack of adequate resources to administer wildlands; the attempted paradigm shift from "lands are open for use unless restricted for specific reasons after a public process" to "lands are closed unless opened upon a determination of adequate administrative resources.
74	Equating environmental organizations' request for candidacy for listing and what's best for the environment. Slowness of decision making cycle especially on urgent public safety issues like the intersection of wildfire prevention and timber harvest rules regarding species protection. Need for legislative education on issues DFG commission deals with.
75	Urban human-wildlife conflict Representing the interests of 40 million people with only a handful of commissioners
76	Allowing special non consumption groups to write regulations
77	Getting out of the office & into the great outdoors. What might work for one body of water doesn't work for all bodies of water.
78	Polical influence period.
79	funding going to appropriate areas establishing later hunting seasons spend less on stocking triploid trout and more in establishing native fishers where appropriate.
80	Pressure from narrowly focused special interest groups, lawsuits designed to harass the commission, public disconnect from the natural environment
81	excess regulation
82	Don't take so long to fix things
83	The continued obstruction by organization like PITA, FUNDS for Animals, Center For Bio Diversity that try to block all issues of wildlife scientific management.
84	Again, Commissioners representing political agendas rather than what may be best for the resource.
85	The Commission still acts as if we are living in the 20th century. 21st Century

	pressure on wildlife must be recognized.	
86	Limits imposed by state legislation.	
87	The Commission seems to me to be too responsive to consumptive users like hunters, ranchers and fisherman without the science to back up such things as hunting quotas and ethics need to be incorporated into all policies	
88	1. A lack of requisite knowledge and experience with what they are charged to manage. 2. Public perception - distrust and ulterior motives. 3. Preconceived biases and/or opinions	
89	dealing with the vocal, angry , non-paying activist class that wants to do away with classic conservation/wildlife management	

Q7 Of the items you have identified in questions 3-6, which do you believe should be the highest priority for the Commission in the near-term?

Answered: 89 Skipped: 9

#	RESPONSES
1	Eliminate Bait angling on Steelhead waters. Leave more water in the Rivers - San Lorenzo, Soquel, Aptos
2	Working more in alignment with other state resource agency departments
3	Consensus building.
4	N/A
5	Clarification of expectations about when and how stakeholders should approach the commission vs. seeking legislation.
6	Re organization of the department to become more effective.
7	Values and Purpose. With values comes purpose. If the Commission actually believes in these then there will be buy-in throughout the Commission and unnecessarily oppressive regulations will not need to be propagated.
8	Making the public more aware. Pressuring governments to increase funding and enforce appropriate laws.
9	Number 4
10	Advocate for increased funding for conservation programs
11	N/A
12	identifying long-term funding strategies for fish and wildlife conservation and management, especially in the face of declining revenues from hunting and fishing; utilizing new technologies
13	better marketing and communication to the public use of truthful science in decision making transparency
14	simplification of regulations
15	Identifying and obtaining additional staff positions.
16	The highest priority should be not to open up all the waters within CA to year-round fishing with a 5 fish limit. Making sure there is good SCIENCE behind any decision they make on any water. Reassess all the reasons the special regs in certain water were put their and for what reason, obviously the protection of the resource.
17	significantly improve their standing in the eyes of the legislature.
18	Decide to review all the pertinent facts and science before falling prey to political agendas and/or influences.
19	protect CA natural resources, esp water.
20	I don't know.
21	The Abalone fishery
22	providing hunters with more opportunities and places to hunt
23	They should be expanding fishing and hunting opportunities in our state. There are many people that would like to eat organic meat, but they do not know where to start in learning about hunting and fishing.
24	Communicating with the commercial fishing industry.
25	Define CESA take in a manner that is biologically pertinent (i.e., upgrade to the federal definition)
26	All of them!!!!
27	Opportunities for the public to access and recreate on public lands
28	effective policy management over DFW

29	Notifying tribes of changes and/or opportunities for collaboration.
30	Help the coastal ecosystem!!! Our ocean is hurting, the ecosystem isn't healthy and is not balanced. Bring back the kelp forest, help stop purple urchin barrens and help to keep the kelp forest ecosystem healthy for abalone and young rockfish
31	To keep hunting and fishing as a way of life in this state
32	Science Based Wildlife Management
33	Ending the corrupt, unethical and excessive bureaucracy that dictates current policy.
34	Seek input from seasoned fishermen and FOLLOW the MLMA. Input from seasoned fishermen should be a large portion for the commission when it comes to changes in regs or implementing new processes. Encourage LED to implement and follow through with a review of current regs with at least 1 member of each port. Request meetings for MRC be attended by more than the regular 3 people when asking for votes on topics scheduled for commission meetings. Meetings are not held correctly to obtain wide stakeholder input. Make smaller meetings available via teleconference
35	Being proactive
36	Incorporation of environmental equity and justice into strategic plan and all decision making.
37	Better interpretive signage where the public is allowed in areas where there are sensitive resources.
38	Climate change
39	Coordination with other state agencies (policy, budget and vision).
40	Wolves.
41	Provide local wTer warden for Napa County to respond quickly to environmental damage.
42	Bringing back abalone season
43	Discounted or free Sr. Fishing licenses
44	Applying action-based research that includes not only the department and its granted university-related research but also citizen observations and data.
45	protecting natural resources
46	The willingness of the commission to place moratoriums on the taking of certain species to allow for the recovery of the system.
47	don't know
48	No idea
49	#5
50	purple urchin eradication
51	Transformation of the organization
52	Urchin removal
53	Climate change-- advocacy for addressing ways to mitigate the impacts; -Stop the fee-based model, it really discourages landowners from doing restoration and thus impacts species on the verge of extinction.
54	Rebuild depleted and environmentally threatened salmon populations.
55	1) Incorporating climate change science and considerations and 2) exploring the needs and ways to serve the general population.
56	Protect our environment from people. Get another job and find new hobbies.
57	Remember and keep the original vision and purpose of the DFG.
58	state/federal issues
59	Commercial Fisheries management
60	Climate change is a real crisis. A more ecological ecosystem approach to species management, conservation, and protection is needed now more than ever. However, if deleterious anthropogenic activities are to continue these efforts will not be enough. Public awareness of their collective and individual contributions to the climate crisis is needed to enact change.

61	Use independent science, peer reviewed, to make decisions
62	Protection of ecosystems from encroachment.
63	Financially restore communities to their heights when DFG caused the hardships faced still today from their actions.
64	Responding to the effects of climate change.
65	Making decisions using real, data driven science rather than opinion!
66	Funding
67	Working with other stakeholders and allowing their opinions to carry equal weight
68	Hire biologists
69	To manage recreational impacts on ocean resources.
70	Working towards more open conversations with hunters about land conservation
71	To protect the commercial dungeons fisherman and prove that it's not crab pots killing whales it is most likely deeper fishing like long line fishing and ships killing whales out deep and they float iinto the gear.
72	Collaborating with the Board of Forestry and Fire Protection to update Joint Policies.
73	Tribal participation.
74	Protecting public rights to use public lands (see FGC 1528, 1745, sec. 25 art. I Cal. Const.) in the face of demands by environmentalists, water developers, and flood control (generally that public use be restricted inorder to accommodate environmental/habitat concerns traceable to the reallocation of water by water marketers and the narrow concerns of flood control entities to be free of the public.
75	Wildfire prevention facilitation of funding for small non industrial forest landowners to save existing wildlife.
76	Finding more ways to engage citizens outside of formal commission meetings.
77	Simplification of regulations
78	Realizing that not all areas are the same, such as changing the fishing season at Eagle Lake to last thru feb 28th. No bathrooms are open, no water available, roads not plowed, lake iced over with thin spots, no rescue available, no enforcement available, no sheriff available & roads impassible or gated & locked. The lack of bathroom facilities alone would kill a recreational area Come May with frozen poop everywhere that eventually would drain into the lake. Sub zero temperatures would kill anyone who would fall thru the ice & rescue is 45 minutes away on a good day but without ice rescue equipment. Good for the goose but not the gander. Each lak and body of water is unique. It's not a one size fit all.
79	Biological based decisions instead of the politically driven management that we see today.
80	law enforcement, especially poaching and polution
81	Re-igniting public interest and reviewing/ adjusting big game seasons
82	Managing deer populations
83	Use of Scientific Conservation Wildlife Management to set up policy. I don't think it is possible to change currently because of the structure of the commission's curren appointments and the constant threat of the groups that will threaten lawsuits and go to the legislature if they don't like the commissions policies.
84	Approve the PEIR for marine aquaculture
85	Changing focus from "enough to keep animals from going extinct" to "protecting current populations and expanding those populations."
86	Protection of endangered species.
87	Incorporating the latest and best science Ethics
88	Rebuilding trust! This could be done by ensuring that minimum qualifications for a Commissioner. Knowledge of fishing and hunting activities should be a prerequisite for membership - not political favor
89	5

Q8 Are there specific emerging issues on which the Commission should place greater focus?

Answered: 91 Skipped: 7

#	RESPONSES
1	Water and too much development. Soon the San Lorenzo will be a trickle with no fish. Who will care?
2	The current hysteria around fuel management and lack of emphasis on land use planning and building codes is something the commission should get involved in. Additionally, invasive species management is woefully inadequate in the state and there is constant pressure on our natives from them. Finally, recognizing that the state's residents are by and large and increasingly conservationists and not hunters and fishers and having the commission focus its efforts accordingly would be good.
3	Invasive species eradication, especially Striped Bass on the Central to South Coast, where they were not historically present and are affecting T&E Steelhead. SB impacts on the coast are not the 'red herring' that they are in the Delta.
4	- Elimination of bear hunt. Refocus on reducing conflicts. - Depredation regulations: improve population and mortality accounting and data collection to reduce conflicts. Emphasis on solutions that are scientifically proven to work long-term, and evaluation of long term impacts of lethal methods. - Focus on biological and ecosystem impacts of hunting. - Improve reporting on take, hunter outcomes, mortality accounting generally. - Provision of scientific information on why certain populations are declining or increasing. Specifically - Where and why are ungulate and sheep herds declining, and how that can be mitigated.
5	Decline in habits. Decline in game species. Poor pr., Especially wardens.
6	Tackling the issues of underground regulation within the Commission. You know the saying "fix yourself before trying to fix others"? Ya, go do that.
7	Use of rodent poisons and weed killers that affect bees, butterflies, and small and large mammals.
8	The Loss Of Critical Habitats.
9	1. Effects of pesticides, especially neonicotinoids, on wildlife species. 2. Climate change impacts on habitats and species
10	N/A
11	Perhaps something surrounding increasing megafires and the associated loss of habitat?
12	marine special planning for all groups increase in restricted fishing areas ocean acidification and pollution
13	Consider privatizing trout hatcheries and stocking programs.
14	Continue to focus on tribal perspectives.
15	See #7 - Special Regs leave along in Eastern Sierra. Focus on your job and not trying to make a benchmark for 150 years, I don't believe anyone is really interested; we are all interested in a sustainable inland hatchery program that will keep the majority of anglers happy and also keep the "Natural born trout" in existence.
16	again, establishing a stronger voice & position with the state legislature.
17	All issues are important
18	Water habitat.
19	yes. Habitat preservation has been affected without consideration for access to important economic resources (e.g., minerals). Although the State has abundant high quality aggregate resources, urban expansion and habitat preservation measures have been allowed without consideration for accessing important resources. We should re-look at our habitat conservation areas with an eye towards limited mineral resource development within close economic range of our market areas.
20	Recreational efforts to control the urchin population to reduce pressure on the red abalone population

21	hunting restriction on newly acquired land
22	They should be expanding opportunities for hunting and fishing.
23	Climate Change.
24	The definition of CESA take is not biologically sufficient for conservation and too many CDFW personnel perform as activists rather than as scientists.
25	Talk to the Governor if he appointed you to do a job tell him to let you do it.
26	Helping to get resource management plans completed in a timely manner. Staff has kept lands closed for many, 10+ yrs. using the excuse there is no management plan. Either don't have the funding or time. Poor excuse when you see their other priority projects get approved in very short timelines.
27	protecting habitat and species populations vs. setting bag limits for diminishing populations
28	N/A
29	The urchin crisis and the dying abalone
30	Nutria eradication Sound population surveys
31	Including the hunting and angling Californians and their heritage in your mission statements and objectives
32	We're very concerned about the urchin barrens in the Channel Islands and off the CA north coast. The urchins can consume the kelp which fosters so many other creatures, then filter feed so the abalone and competitors have no chance.
33	Vindictive actions against rural residents in regards to water use and environmental impact. People should not have to pay out large sums of money to a useless agency to simply exist on their property.
34	Yes, removing the 96 hour pull interval. Spiny lobster decline in value over the past 2 years. Not allowing a snap shoot of fisheries in order to produce fishery management in lieu of scientific data
35	Loss of federal ESA protections Lack of state funds to buy habitat - must get Greenhouse Gas Reduction Funds to WCB in the Working and Natural Lands portfolio.
36	Commercial aquaculture in state waters
37	Population growth, sea level rise
38	MLPs and urchin barrens
39	Climate shift and the impacts on species.
40	Wolves.
41	Ground water overdrought reducing surface flows.
42	The urchins taking over
43	Unknown
44	Red Abalone. Issues related to climate change as related to species protection and harvest.
45	climate change coastal resilience MPAs as oceans warm may need to move
46	The warming of the Pacific and the impact on resource management.
47	include the influx of population on the coast coupled with any one or more issues, such as encroachment on habitats, preservation of habitats
48	No idea
49	Stay focused on the mission and need.
50	restoring the kelp forests
51	Not protecting the ways of the past
52	Urchin removal
53	- Water policy--quit sending water to SoCal and wasteful farm practices _ Climate Action-incentivize best practices for meeting the challenges of climate disaster projections - Fund programs that offset impacts from cannabis and incentivize those who practice BMPs.
54	Review regulations regarding rebuilt fish populations in California coastal waters.

55	na
56	Purple urchin
57	The Commission needs to regain and preserve relations with those who buy licenses and tags, who's interests have been replaced with the interest of researchers and special interest groups. License holders are not stepchildren, they are the funding and the job.
58	Ocean acidification Management using spatial techniques and harvest rights
59	Climate change
60	Climate change.
61	Protection of S.F. Bay-Delta fish & wildlife from abusive water extraction. Support the CWRCB's new flow requirements for San Joaquin inflows. Do not agree with settlement flows if they are not as high as Water Board's recommendations.
62	Protection of ecosystems.
63	Restore damaged communities to their heights by investing in bringing tourists back to the region to their heydays.
64	Purple urchin overbloom and the loss of kelp forests.
65	Guiding policy that is common-sense and science based!
66	The loss of seaweed and kelp forests and their associated animal species
67	Programmatic agreements with external stakeholders
68	Stop the selling out of our states wildlife resources in order to sell more fishing and hunting licenses for revenue in the false concept that this will pay off in any way. The FFF is a joke!
69	Whale entanglement with recreational crab gear is very important to all of us. There needs to be a concerted effort to bring everyone on board with the issues.
70	Engaging and communication with local authorities
71	Yes protecting the commercial crab fisherman.
72	Fire is a huge topic for which the Fish and Game Commission should dedicate some time and discussion. The Governor has prioritized fire prevention projects which alter vegetation throughout the landscape and may affect fish and wildlife in a variety of ways. Additionally, large scale, high intensity fires may remove important habitat. The Fish and Game Commission should at least be informed about fire-related issues and possibly enact regulations or policies where appropriate.
73	ocean and inland aquatic habitat collapse.
74	Lands owned by the state and therefore subject to the right to fish; lands formerly owned by the state and expressly subject to the reservation of the right to fish; lands formerly owned by the state, conveyed out after 11/8/1910, by an instrument without and express reservation of the right to fish; the ongoing obligation of state agencies to reserve in the people the absolute right to fish upon the sale or transfer of state-owned land (see section 25, article I, Cal. Const.; People v San Luis Obispo Sportsmans Assc., (1978) 22 Cal. 3d 440).
75	Aligning rules with new EPA focus. Wildfire prevention and associated wildlife habitat protection. This takes big money and small Forest landowners are only eligible for CFIP.
76	As a CDFW staff member, I work a lot on human-coyote conflicts in Southern California. One thing that we are finding is that coyotes fall between the gaps in the State's wildlife regs (they are not a game species, and not a protected species). There is a lot of misinformation about coyote management and conservation and several grassroots organizations are pressuring their local cities to make new rules about lethal control of coyotes based on this misinformation.
77	Elk Management statewide - Rebuff special Mountain Lion zones -
78	The restoration of the native spawn of Eagle Lake rainbow trout. Improving water quality issues and controlling/eliminating the cause of the last 2 years of Cyanobacteria. Which Eagle Lake never had to the current extremes before.
79	R-3 get the youth invoked.
80	do not open sensitive angling areas to take by any method
81	Innovating public recruitment and emphasizing the importance of hunting and fishing, protecting hunting and fishing. Make it as easy as possible to learn how to address the commission

82	wildfire intervention, controlled burns to remove excess under growth
83	Wildlife connectivity, increasing area of conserved lands, more investment into conservation
84	All water issues in the Sacramento River Delta
85	North American Model of Wildlife Management Model to manage our wildlife.
86	Approve the PEIR for marine aquaculture
87	Fisheries and the fact that we are emptying our oceans. At some point, the Commission will have to send the bad news to fisheries that they can't keep going like they always have.
88	Gray wolf and gray wolf habitat protection. Protection of natural wildlife migrations corridors.
89	Climate change needs to drive management policies in addition to an ethical component. If you fail to address climate change, we will jus speed up extinction rates of many species of fish and animals.
90	Yes! Participation in recreational and commercial fishing and recreational hunting activities. Focus on real science and not paid for science (or opinions masqueraded as science)
91	Wolves, wolves & cougar population explosions.

Q9 The Commission recently adopted six core values to guide its work and the work of its staff. On a scale of 1 to 5, how well do you think the Commission and its staff is currently doing in meeting these core values? A score of 1 represents unsatisfactory performance and a score of 5 represents excellent performance.

1	Really?	

Q13 Is there anything else you wish to communicate to the Commission?

Answered: 64 Skipped: 34

#	RESPONSES
1	I can help.
2	I know you have your work cut out for you so please don't take criticism as anything other than my attempt to provide data to help you improve in your unenviable task of managing our natural resources.
3	No
4	...
5	Best Wishes From A Former F&G Executive Secretary.
6	N/A
7	Good luck with the new strategic planning effort. The more you can engage the public and keep the process transparent, the better the outcome and buy-in will be. This survey is a great start.
8	The hunting and fishing community believe in conservation and environmental stewardship. But every day our right to enjoy our favorite sports seem to get harder and harder to enjoy. We all want a sustainable future, but over regulation is not always the answer. The commission was put in place to help us have a future, not to overregulate us out of existence.
9	Consider a special Sierra Trout Stamp to fund improvements to hatcheries. Also, consider creating tight standards and contracting with private sector to operate hatcheries.
10	N/A
11	See #4 and #7, and keep up the good work, we need more support from the Commissioners and a strong back-bone.
12	Thank you for all your work to improve the management of our natural resources.
13	Continue to reach out to communities and make sure everyone is heard
14	I am worried many people in our state are missing out on opportunities to harvest their own fish and game.
15	Support and communicate with commercial fishermen.
16	The definition of CESA take is insufficient to effect conservation of listed species and too many CDFW personnel perform as activists rather than as scientists.
17	please stand up and do your job.
18	The CA Department of Fish and Wildlife is one of the most frustrating agencies to deal. Both in my professional life working for the County and as a private citizen and volunteer.
19	N/A
20	I hope as a commission you will listen to hunters and anglers ideas or opposition on new legislation. The feeling of people who utilize the outdoors for food and recreation is that as a commission you only listen to groups who want to see the end to hunting and fishing in this state.
21	Keep fighting the fight against the houses removing your purpose for being there.
22	The commission has failed on every conceivable level. It has failed to protect the environment by imposing idiotic irrational policies that cause additional environmental harm. It has failed the people of California by imposing draconian fees, regulations and penalties. It has failed the government of California by creating a bureaucratic monster that does nothing but waste tax dollars. Nothing good has come from the Commission and nothing ever will. It needs to be disbanded and done away with as soon as possible for the good of every living creature in the state of California.
23	I encourage them to communicate with a large variety of commercial fishermen, have a more open dialogue, put the breaks on certain regs instead of making deals

	solely to acquire funds rather than what is best for a fishery
24	Integrity is a key principle
25	Gratitude for their hard work, I know it isn't easy!
26	I appreciate the difficulty of your position and wish you well.
27	No
28	Thank you for the difficult job that you do.
29	Please we need water warden . Our local warden is not prepared to address deforestation and creek destruction.
30	No
31	no
32	no
33	?
34	raise money for abalone restoration/ urchin eradication
35	Listen to citizen scientist
36	Be more vocal and visit the communities you serve.
37	Please remember that fishing and hunting licenses as well as commercial landing taxes supply a large amount of the Commission and Department's funding. Less fishing and hunting in California equates to less funding for needed environmental projects.
38	My 30 years experience with the Commission (first as a Dept employee and then a representative of interested organizations) it seems to me the Commission is frequently seen as simply choosing between hunting/fishing and environmental/animal rights interests. I realize people connected with those views are the people who most frequently appeal to the Commission but some tools to go beyond that framework need to be used to ensure the public interest is served.
39	No
40	Stop involving the DFW in things like gender issues, that is another department.
41	Stewardship is a life long practice having live most my life being as self sufficient as possible, living very close to the land in remote areas. As a fisheries biologist and aquatic ecologist I have been fortunate to practice ecological stewardship in all areas of my life. I support and value the commissions continued work and efforts to promote stewardship and ecological principals, for the valuable ecosystems in California through conservation, protection, and management. Thank you for the opportunity to participate in this survey.
42	Don't know the new commission values, so didn't respond on that.
43	No
44	Stay out of our counties when you do them NO Good. You destroyed my business by poisoning Lake Davis in 1997 and 2007. The US govt added to it with ill conceived Depressions of 2003 and 2008. Then they allowed the Twin Towers to be bombed in 2001. All of these events destroyed Eastern Plumas County's economy and we have yet to recover. But what do you care? I wonder?
45	Thank you.
46	Stop thinking what you believe is true and work beyond to seek truth in matters.
47	I am a member of many state and federal committees; The Dungeness Crab Gear working group, TriState Crab commission, Cordell Bank Advisory Council, California Salmon Council, to name a few. I am also a commercial fishing who has to provide for his family and crew. I love this ocean and want to see the resource remain for generations to come. Please help all of us attain this. Thank you very much,
48	No
49	Thank you for providing this opportunity to give my input! I know these sorts of processes are time consuming and your responses will likely range all over the map. I appreciate you taking the time to review my responses and consider all your stakeholders' input.
50	In your "goals" you identify "stewardship." Most readers would see this as the obligation to protect the underlying resource, the plants, animals, and lands subject to your jurisdiction. This seems to improperly minimize your obligation to encourage

	public use of public lands (GFC 1528, 1745)
51	Please urge too staff to share the rumored NSO policy changes with all staff and stakeholders in advance of oct 23 NSO Forum. And urge them to coordinate with USFWS to full extent possible and urge them to be transparent about rumored statewide SHA on NSOs, in advance of oct 23 NSO forum, with DFG NSO Forum advisorv committee members. Thank you, [REDACTED]
52	As a CDFW employee, I appreciate all the work the Commission is doing to help manage and conserve California's wildlife. It is a big order/challenge to do so in a state that is as ecologically and socially diverse as California. Thank you.
53	Wildlife management by politics is not sound science.
54	Realize that many of your field And office employees are worthless and on the agendas set forth by good old boys and doing nothing to protect or serve their token waters properly. .
55	Question 11 lends it self to profiling your participates and it should be removed.
56	I have a proposal to adjust the dates of deer hunting in A zone. How do I approach this with the commission?
57	Access for mobility challenged people
58	We are in need of bold and forward thinking leadership in conservation and wildlife mgmt. We should be a world leader and model. We have more work to do.
59	Have a nice day!
60	n/a
61	Thank you for doing a great job of protecting fish and wildlife in California.
62	No
63	I entered 4 under stewardship; but feel that an explanation is required. I think the FGC goes overboard in this role - erring on the side of preservation or over-caution will further reduce participation in these outdoor activities.
64	Defend that constituency that has always protected California lands and waters: Hunters and fisherman

California Fish and Game Commission

Key Themes from Strategic Planning Public Survey Results

December 5, 2019

Background

In anticipation of the California Fish and Game Commission's (Commission) upcoming 150-year anniversary in April 2020, a strategic planning process was initiated in early 2018. In the first of a three-phase process, the Commission reassessed its mission and vision, and developed a set of core values, in concert with staff and stakeholders. In June 2019, staff began the second phase of the planning process, consisting primarily of data gathering and synthesis with staff, stakeholders and commissioners.

In October 2019, staff solicited broader input on key questions through an online survey sent to a randomly selected subset of the Commission's mailing lists; nearly 100 respondents participated in the survey. In this document, results for responses to questions about strengths, areas in need of improvement, opportunities, and obstacles or challenges, as well as a question on top priorities for the Commission, are categorized and summarized. Respondents were asked to provide a maximum of three items per question for the first four questions, and one item for the priority question.

It should be noted that a number of the responses to all questions conflated the work done by the Commission and the work of the California Department of Fish and Wildlife, consistent with the experience of Commission staff. Recognizing and keeping in mind the often imperfect distinction between the two organizations, staff has summarized survey responses to the open-ended questions.

What do you believe are the Commission's greatest strengths?

The top areas the public listed as the Commission's greatest strengths were:

- stakeholder engagement,
- work in wildlife and land conservation,
- the Commission's level of authority and power to enact regulations, and
- a strong use of science in decision-making.

Other strengths included commissioner background or personal qualities, good management of resources, adequate public access for resources, transparency, staff qualities, and partner collaboration.

What do you believe are the Commission's areas in greatest need of improvement?

The top areas the public listed as in greatest need of improvement are:

- public engagement,
- the apparent lack of the use of science in decision-making, and
- wildlife and lands conservation.

Other areas mentioned frequently include commissioner background (more specific knowledge and understanding of hunting, fishing, science, etc.) or level of engagement, work with tribes and partners, and proactive management.

Additionally, areas mentioned by more than two individuals include enforcing regulations, political interference, the need for more precautionary management, the number of hunting/fishing opportunities, public lands access, need for predator management, water management, more staff, slow processes, and managing urchins/abalone.

What do you believe are the greatest opportunities available to the Commission as it moves forward?

The top areas the public listed as greatest opportunities are:

- greater outreach and public engagement,
- increase wildlife and lands conservation,
- creating hunting and fishing opportunities, and
- better use of science in decision-making.

Many respondents also listed more sustainable fisheries, greater collaboration with tribes and stakeholders, and soliciting more public input into decision making.

Other areas which received more than two responses include improving the functioning of the California Department of Fish and Wildlife, coordinating with other agencies or states, improving access to lands and resources, better coordination with the California State Legislature, and protecting kelp and abalone.

What do you believe are the greatest obstacles or challenges the Commission is facing?

The top area the public listed as the Commission's greatest obstacles or challenges was:

- outside or non-scientific influences in decision-making, either from the public, non-governmental organizations and other activists, or from political pressures.

Many respondents also included climate change, qualities or backgrounds of the commissioners, and lack of funding as obstacles.

Other obstacles receiving more than two responses include a lack of enforcement, a lack of public knowledge or interest, a resistance to change, slow processes, growth and development, and a lack of legislative support.

Of the items you have identified in the above questions, which do you believe should be the highest priority for the Commission in the near-term?

Asked to identify a top priority of the issues already discussed, the public listed collaborations – either with tribes, stakeholders or other agencies – as the top priority. A greater focus on conservation and stronger use of science in decision-making were also top priorities. Greater public engagement, addressing climate change, greater funding, and an examination of values were also listed.

Wildlife Officers Shut Down Illegal Cannabis Grows on CDFW Property

November 15, 2019

Trash, poached deer and numerous environmental violations discovered

In October, wildlife officers at the California Department of Fish and Wildlife (CDFW) shut down several illegal cannabis grows in Kern and Tehama counties. The properties are owned by CDFW and set aside as protected wildlife habitat.

Support for the different missions was provided by several entities, including the California Department of Justice, the National Guard, the Kern County Sheriff's Office and the Tehama County Sheriff's Office.

In Kern County, wildlife officers eradicated nearly 10,000 illegal cannabis plants. One grow was discovered on the [Allensworth Ecological Reserve](#) with approximately 509 plants. Four subjects were arrested for felony cultivation, conspiracy, possession of methamphetamine, possession of a stolen firearm and numerous environmental violations. During the course of

that investigation, officers located and eradicated another two plots adjacent to the ecological reserve with another 6,799 plants.

A third illegal grow site was discovered on CDFW land in western Kern County. Approximately 2,270 plants were eradicated and six search warrants were served all within a quarter mile of each other. There were no suspects at the locations.

“Sadly, discovering thousands of illegal plants on CDFW property demonstrates the extent those involved in illegal cultivation will go to grow their product,” said David Bess, CDFW Deputy Director and Chief of the Law Enforcement Division. “Those individuals engaged in this egregious behavior have no respect for the unique species of plants and wildlife that depend on these protected areas to live and thrive.”

In Tehama County, an illegal grow was discovered along Antelope Creek in the **Tehama Wildlife Area**. Approximately 2,500 fully budded plants were eradicated and nearly 250 lbs. of processed cannabis was seized. Evidence of a poached deer was also discovered. No suspects were onsite or arrested. Each property contained numerous environmental violations including litter, pollution, habitat destruction, illegal water diversions, alteration of a streambed, sediment discharge and other serious environmental crimes.

All these illegal cannabis grows were located in counties with sensitive wildlife habitat which are home to several important species of plants, birds, mammals and fish found nowhere else in the world.

CDFW encourages the public to report illegal cannabis cultivation and environmental crimes such as water pollution, water diversions and poaching to the CalTIP hotline by calling (888) 334-2258 or texting information to “TIP411” (847411).

New Wildlife Care Fund Established for Animals at Wildlife Waystation

November 25, 2019

After 40 years of caring for abandoned and surrendered exotic and domestic animals in Southern California, the Wildlife Waystation closed its doors earlier this year.

With the aid of the California Department of Fish and Wildlife (CDFW), nearly half of the 500 animals at the Waystation have found homes at other sanctuaries, including grizzly bears, black bears, African lions, tigers, bison, hyenas, primates, exotic small cats, birds, reptiles and horses.

But the remaining animals – including 39 chimpanzees that will need to be kept together in a number of family units – are in critical need of help. Thanks to a partnership with the Santa Monica-based non-profit Seventh Generation Advisors (SGA), a new fund has been established to accept tax-deductible donations from members of the public who would like to contribute to the costs for vital veterinary care, feeding and housing for the wild animals that are still at the Wildlife Waystation.

CDFW assumed oversight of the care and placement of the wild animals on-site when Wildlife Waystation's board of directors voluntarily surrendered its restricted species permits in August 2019. CDFW and Los Angeles County, in coordination with remaining Wildlife Waystation staff and board members, are collaborating to rehome the animals and ensure that they are being properly cared for in the interim.

However, there are particular challenges for about five dozen magnificent animals that require very specific handling. In some cases, specialized sanctuaries have agreed to take the animals, but will need time to build additional enclosures. The animals may remain at the Waystation for many months until those facilities are ready.

“Many members of the public have indicated they would like to commit specifically to the animals who are still waiting for permanent homes,” said Wildlife Waystation board member Kate Thompson. “We are grateful for SGA’s expertise in receiving and managing public donations, and we hope that their involvement will help ensure that the animals’ transition goes smoothly and they receive the resources they need without delay.”

CDFW, SGA and the Wildlife Waystation board would like to recognize the dedication of existing Wildlife Waystation staff, who have developed relationships with the animals over the decades and have continued to report to work since the permits were surrendered in August.

“These are animals that are used to being around humans to some degree, and that continuity of care is key to their safety and comfort,” said Ed Pert, CDFW’s South Coast Region Manager. “There is definitely no shortage of concern for their welfare, but until now, we lacked the ability to meet the growing public desire to provide financial support for these animals. With SGA’s participation, each entity can focus on the role for which they’re best suited, and donors can be confident that their contributions will be earmarked for the direct care of the animals.”

“We are pleased to help by establishing this special Wildlife Rescue Fund and providing services at no cost to the teams that are protecting these animals and ensuring their care and wellbeing in their new homes,” said Terry Tamminen, SGA President.

SGA, Wildlife Waystation and CDFW are coordinating closely to identify and meet the animals’ most pressing needs and to approve all expenditures from the new Wildlife Rescue Fund. Seventh Generation Advisors is a 501c3 non-profit corporation (Tax ID: 20-8771636). Donations are tax-deductible to the extent provided by state and federal law and no goods or services will be provided to donors in return for contributions.

More information about the chimps at Wildlife Waystation can be found on SGA’s website. If you would like to make a donation toward the care of Wildlife Waystation animals, please visit <https://7thgenerationadvisors.org> or email SGA Programs Director Kristina Haddad at kristina@sgadvisors.org.

State of California
Department of Fish and Wildlife

Memorandum

Date: November 7, 2019

To: Melissa Miller-Henson
Executive Director
Fish and Game Commission

From: Charlton H. Bonham
Director

Subject: **Submittal of Initial Statement of Reasons to Amend Sections 360, 361, 362, 364, and 364.1, Title 14, California Code of Regulations (CCR)**

The Department of Fish and Wildlife (Department) requests the Fish and Game Commission (Commission) authorize publication of notice of its intent to amend Sections 360, 361, 362, 364, and 364.1, Title 14, CCR. The Department proposes the following changes to the existing mammal hunting regulations for the 2020-21 season:

1. Section 360 Deer:
 - a. Modify the number of deer tags in hunt zones in Subsection 360(c) by presenting ranges, recommendations for which will be finalized prior to adoption
 - b. Modify season dates in subsection 360(c)(5) for Additional Hunts G-8 (Fort Hunter Liggett Antlerless Deer Hunt) and in subsection 360(c)(32) J-10 (Fort Hunter Liggett Junior Either-Sex Deer Hunt) to account for the annual calendar shift
2. Section 361 Archery Deer Hunting:
 - a. Modify the number of deer tags in hunt zones in subsection 361(b) by presenting ranges, recommendations for which will be finalized prior to adoption
 - b. Modify season dates in subsection 361(b)(28) for Archery Hunt A-33 (Fort Hunter Liggett Late Season Archery Either-Sex Deer Hunt) to account for the annual calendar shift
 - c. Minor editorial changes in subsection 361(b)(26) for Archery Hunt A-31 (Los Angeles Archery Either-Sex Deer Hunt) to reference the correct definition for either-sex deer provided in Section 351, Title 14, CCR.
3. Section 362 Bighorn Sheep:
 - a. Modify the number of desert bighorn sheep tags in hunt zones in subsection 362(d) by presenting ranges, recommendations for which will be finalized prior to adoption
4. Section 364 Elk:
 - a. Modify the number of elk tags in hunt zones in subsections 364(r) through (aa) by presenting ranges, recommendations for which will be finalized prior to adoption

Melissa Miller-Henson, Executive Director
Fish and Game Commission
November 7, 2019
Page 2

- b. Modify season dates in subsections 364(u)(12)(C) for Department Administered General Methods Tule Elk Hunts, 364(v)(7)(A) for Department Administered Apprentice Hunts, and 364(w)(6)(B) for Department Administered Archery Only Hunts to account for the annual calendar shift
- 5. Section 364.1 SHARE Elk:
 - a. Modify the number of SHARE elk tags in hunt zones in subsections 364.1(i) through (l) by presenting ranges, recommendations for which will be finalized prior to adoption

If you have any questions regarding this item, please contact Kari Lewis, Wildlife Branch Chief, at (916) 445-3789. The public notice for this rulemaking should identify Environmental Program Manager, Brad Burkholder as the Department's point of contact. He can be reached at (916) 445-1829 or via email at:

A. ESTIMATED PRIVATE SECTOR COST IMPACTS *Include calculations and assumptions in the rulemaking record.*

1. Check the appropriate box(es) below to indicate whether this regulation:

- | | |
|----------------------------------------------------------------|---------------------------------------------------------------------------|
| <input type="checkbox"/> a. Impacts business and/or employees | <input type="checkbox"/> e. Imposes reporting requirements |
| <input type="checkbox"/> b. Impacts small businesses | <input type="checkbox"/> f. Imposes prescriptive instead of performance |
| <input type="checkbox"/> c. Impacts jobs or occupations | <input type="checkbox"/> g. Impacts individuals |
| <input type="checkbox"/> d. Impacts California competitiveness | <input checked="" type="checkbox"/> h. None of the above (Explain below): |

Minor amendments to hunting regulations with no private sector costs.***If any box in Items 1 a through g is checked, complete this Economic Impact Statement.******If box in Item 1.h. is checked, complete the Fiscal Impact Statement as appropriate.***2. The _____ estimates that the economic impact of this regulation (which includes the fiscal impact) is:
(Agency/Department)

- ☐ Below \$10 million
- ☐ Between \$10 and \$25 million
- ☐ Between \$25 and \$50 million
- ☐ Over \$50 million *[If the economic impact is over \$50 million, agencies are required to submit a [Standardized Regulatory Impact Assessment](#) as specified in Government Code Section 11346.3(c)]*

3. Enter the total number of businesses impacted: _____

Describe the types of businesses (Include nonprofits): _____

Enter the number or percentage of total
businesses impacted that are small businesses: _____

4. Enter the number of businesses that will be created: _____ eliminated: _____

Explain: _____

5. Indicate the geographic extent of impacts: ☐ Statewide
☐ Local or regional (List areas): _____

6. Enter the number of jobs created: _____ and eliminated: _____

Describe the types of jobs or occupations impacted: _____

7. Will the regulation affect the ability of California businesses to compete with
other states by making it more costly to produce goods or services here? ☐ YES ☐ NO

If YES, explain briefly: _____

**ECONOMIC AND FISCAL IMPACT STATEMENT
(REGULATIONS AND ORDERS)**

STD. 399 (REV. 12/2013)

ECONOMIC IMPACT STATEMENT (CONTINUED)**B. ESTIMATED COSTS** *Include calculations and assumptions in the rulemaking record.*

1. What are the total statewide dollar costs that businesses and individuals may incur to comply with this regulation over its lifetime? \$ _____
 - a. Initial costs for a small business: \$ _____ Annual ongoing costs: \$ _____ Years: _____
 - b. Initial costs for a typical business: \$ _____ Annual ongoing costs: \$ _____ Years: _____
 - c. Initial costs for an individual: \$ _____ Annual ongoing costs: \$ _____ Years: _____
 - d. Describe other economic costs that may occur: _____
2. If multiple industries are impacted, enter the share of total costs for each industry: _____
3. If the regulation imposes reporting requirements, enter the annual costs a typical business may incur to comply with these requirements. *Include the dollar costs to do programming, record keeping, reporting, and other paperwork, whether or not the paperwork must be submitted.* \$ _____
4. Will this regulation directly impact housing costs? ☐ YES ☐ NO
 If YES, enter the annual dollar cost per housing unit: \$ _____
 Number of units: _____
5. Are there comparable Federal regulations? ☐ YES ☐ NO
 Explain the need for State regulation given the existence or absence of Federal regulations: _____
 Enter any additional costs to businesses and/or individuals that may be due to State - Federal differences: \$ _____

C. ESTIMATED BENEFITS *Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.*

1. Briefly summarize the benefits of the regulation, which may include among others, the health and welfare of California residents, worker safety and the State's environment: _____
2. Are the benefits the result of: ☐ specific statutory requirements, or ☐ goals developed by the agency based on broad statutory authority?
 Explain: _____
3. What are the total statewide benefits from this regulation over its lifetime? \$ _____
4. Briefly describe any expansion of businesses currently doing business within the State of California that would result from this regulation: _____

D. ALTERNATIVES TO THE REGULATION *Include calculations and assumptions in the rulemaking record. Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.*

1. List alternatives considered and describe them below. If no alternatives were considered, explain why not: _____

**ECONOMIC AND FISCAL IMPACT STATEMENT
(REGULATIONS AND ORDERS)**

STD. 399 (REV. 12/2013)

ECONOMIC IMPACT STATEMENT (CONTINUED)

2. Summarize the total statewide costs and benefits from this regulation and each alternative considered:

Regulation: Benefit: \$ _____ Cost: \$ _____

Alternative 1: Benefit: \$ _____ Cost: \$ _____

Alternative 2: Benefit: \$ _____ Cost: \$ _____

3. Briefly discuss any quantification issues that are relevant to a comparison of estimated costs and benefits for this regulation or alternatives: _____

4. Rulemaking law requires agencies to consider performance standards as an alternative, if a regulation mandates the use of specific technologies or equipment, or prescribes specific actions or procedures. Were performance standards considered to lower compliance costs? ☐ YES ☐ NOExplain: _____
_____**E. MAJOR REGULATIONS** *Include calculations and assumptions in the rulemaking record.****California Environmental Protection Agency (Cal/EPA) boards, offices and departments are required to submit the following (per Health and Safety Code section 57005). Otherwise, skip to E4.***1. Will the estimated costs of this regulation to California business enterprises **exceed \$10 million**? ☐ YES ☐ NO***If YES, complete E2. and E3******If NO, skip to E4***

2. Briefly describe each alternative, or combination of alternatives, for which a cost-effectiveness analysis was performed:

Alternative 1: _____

Alternative 2: _____

(Attach additional pages for other alternatives)

3. For the regulation, and each alternative just described, enter the estimated total cost and overall cost-effectiveness ratio:

Regulation: Total Cost \$ _____ Cost-effectiveness ratio: \$ _____

Alternative 1: Total Cost \$ _____ Cost-effectiveness ratio: \$ _____

Alternative 2: Total Cost \$ _____ Cost-effectiveness ratio: \$ _____

4. Will the regulation subject to OAL review have an estimated economic impact to business enterprises and individuals located in or doing business in California exceeding \$50 million in any 12-month period between the date the major regulation is estimated to be filed with the Secretary of State through 12 months after the major regulation is estimated to be fully implemented?

☐ YES ☒ NO*If YES, agencies are required to submit a [Standardized Regulatory Impact Assessment \(SRIA\)](#) as specified in Government Code Section 11346.3(c) and to include the SRIA in the Initial Statement of Reasons.*

5. Briefly describe the following:

The increase or decrease of investment in the State: _____

The incentive for innovation in products, materials or processes: _____

The benefits of the regulations, including, but not limited to, benefits to the health, safety, and welfare of California residents, worker safety, and the state's environment and quality of life, among any other benefits identified by the agency: _____

**ECONOMIC AND FISCAL IMPACT STATEMENT
(REGULATIONS AND ORDERS)**

STD. 399 (REV. 12/2013)

FISCAL IMPACT STATEMENT**A. FISCAL EFFECT ON LOCAL GOVERNMENT** *Indicate appropriate boxes 1 through 6 and attach calculations and assumptions of fiscal impact for the current year and two subsequent Fiscal Years.*

- ☐ 1. Additional expenditures in the current State Fiscal Year which are reimbursable by the State. (Approximate)
(Pursuant to Section 6 of Article XIII B of the California Constitution and Sections 17500 et seq. of the Government Code).

\$ _____

- ☐ a. Funding provided in _____
Budget Act of _____ or Chapter _____, Statutes of _____

State of California
Fish and Game Commission
Initial Statement of Reasons for Regulatory Action

Amend Subsection 360(c)
Title 14, California Code of Regulations
Re: Deer: Additional Hunts

I. Date of Initial Statement of Reasons: November 13, 2019

II. Dates and Locations of Scheduled Hearings

(a) Notice Hearing	Date:	December 11, 2019
	Location:	Sacramento, CA
(b) Discussion Hearing	Date:	February 6, 2020
	Location:	Sacramento, CA
(c) Adoption Hearing	Date:	April 16, 2020
	Location:	Sacramento, CA

III. Description of Regulatory Action

(a) Statement of Specific Purpose of Regulatory Change and Factual Basis for Determining that Regulation Change is Reasonably Necessary

The Fish and Game Commission (Commission) periodically considers the recommendations of the Department of Fish and Wildlife (Department) in establishing deer regulations. Subsection 360(c) provides definitions, hunting zone descriptions, season opening and closing dates, and tag quotas for Additional Hunts of deer.

In order to maintain appropriate harvest levels and hunting quality it is necessary to periodically adjust tag quotas (total number of hunting tags to be made available) in response to dynamic environmental and biological conditions. Current regulations in subsection 360(c) specify deer license tag quotas for each hunt zone in accordance with management goals and objectives.

The specific recommended regulation changes are:

1. Number of Tags

Existing regulations provide for the number of deer hunting tags in the Additional Hunts. The proposed action initially provides a range (e.g., [0 - 100]) of tag numbers for each zone from which a final number will be determined based on the post-winter status of each deer herd. The maximum number of tags available in the proposed range is at or below the number of tags analyzed in the 2007 Final Environmental Document regarding Deer Hunting and the approved deer herd management plans. Ranges are necessary at this time because the final number of tags cannot be determined until spring herd data are collected in March/April and analyzed. A low-end quota range of zero (0) tags is used in the event final tag quotas need to be reduced. Hunts may be cancelled due to events such as fire, disease or other factors.

In early spring, surveys of deer herds are conducted to determine the proportion of fawns that have survived the winter. This information is used in conjunction with the prior year harvest and fall herd composition data to estimate overall herd size, sex and age ratios, and the predicted allowable deer harvest (ADH) for next season. The number of bucks and does needs to be estimated prior to the hunting season to determine how many surplus deer are likely to exist over and above the number required to maintain the desired buck to doe ratio objectives stated in approved deer herd management plans.

Actual tag numbers for each affected zone will be reflected in the Final Statement of Reasons and will be selected from the range of values recommended in this proposal. The recommended number of tags is intended to allow an appropriate level of hunting opportunity and harvest of bucks and does in the population, while achieving or maintaining buck to doe ratios at, or near, objective levels set forth in approved deer herd management plans. The final recommendations for the number of tags to be issued will be based upon findings from the annual harvest and herd composition counts.

The current tag quota of zero (0) for additional deer hunt G-9 (Camp Roberts Antlerless Deer Hunt) reflects the Base's closure to hunting while construction was under way on the base. Construction was scheduled for completion in 2013; however, the timetable for resumption of base hunting programs has not been determined. The Department is currently in meetings with base command, and a decision regarding tag quotas is anticipated prior to the April 2020 Fish and Game Commission meeting. At this time, the current tag quota of zero (0) has been modified to the former tag quota of thirty (30) in anticipation of the possible resumption of deer hunting activities by the Base in the 2020/2021 season. However, if Base operations take precedence over conducting the G-9 hunt, the tag quota will be reduced to zero (0) and reflected in the Final Statement of Reasons.

2. Modify Additional Hunt G-8 (Fort Hunter Liggett Antlerless Deer Hunt)

Existing regulations for Additional Hunt G-8 provide for hunting to begin on October 7 and October 14, and continue for 3 and 2 days respectively, including the Columbus Day holiday, in order to accommodate Base operations and other hunt opportunities. Tags are split between military and the public.

The current proposal would modify the season to account for the annual calendar shift by changing the season dates to open on October 3 and continue for two (2) consecutive days, including the Columbus Day holiday, and reopen on October 10 and continue for three (3) consecutive days. No loss of hunter opportunity would result from this action and the proposal is consistent with existing deer herd management plan recommendations.

The tag split will be deleted, and the tags will be available to any hunter, military or public.

3. Modify Additional Hunt J-10

Existing regulations for Additional Hunt J-10 (Fort Hunter Liggett Junior Either-Sex Deer Hunt) provide for hunting to begin on October 7 and October 14, and continue for 3 and 2 days respectively, including the Columbus Day holiday, in order to accommodate Base operations and other hunt opportunities. Tags are split between military and the public.

The current proposal would modify the season to account for the annual calendar shift by changing the season dates to open on October 3 and continue for two (2) consecutive

days, including the Columbus Day holiday, and reopen on October 10 and continue for three (3) consecutive days. No loss of hunter opportunity would result from this action and the proposal is consistent with existing deer herd management plan recommendations.

The tag split will be deleted, and the tags will be available to any hunter, military or public.

(b) Goals and Benefits of the Regulation

The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family activities and promotes respect for California's environment by the future stewards of the State's resources. The Commission anticipates benefits to the State's environment in the sustainable management of natural resources.

(c) Authority and Reference

Authority: Section(s) 200, 203, 265, 460, 3051, 3452, 3453, 3953 and 4334, Fish and Game Code.

Reference: Section(s) 200, 203, 203.1, 255, 265, 458, 459, 460, 3051, 3452, 3453, 3953 and 4334, Fish and Game Code.

(d) Specific Technology or Equipment Required by Regulatory Change: None

(e) Identification of Reports or Documents Supporting Regulation Change: None

(f) Public Discussions of Proposed Regulations Prior to Notice Publication

Fish and Game Commission Wildlife Resources Committee meetings held in Sacramento on May 16, 2019, and in Santa Rosa on September 10, 2019.

IV. Description of Reasonable Alternatives to Regulatory Action

(a) Alternatives to Regulation Change

1. Number of Tags

There is no reasonable alternative to the proposed action.

2. Modify Season for Additional Hunt G-8

There is no reasonable alternative to the proposed action.

3. Modify Season Additional Hunt J-10

There is no reasonable alternative to the proposed action.

(b) No Change Alternative

1. Number of Tags

The "No Change Alternative" was considered and found inadequate to attain the project objectives. Retaining the current number of tags for the hunts listed may not be responsive to changes in the status of the herds. The deer herd management plans specify objective levels for the proportion of bucks to does in the herds. These ratios are maintained and managed in part by modifying the number of tags. The "No Change Alternative" would not allow management of the desired proportion of bucks stated in the approved deer herd management plans.

2. Modify Additional Hunt G-8

The “No Change Alternative” was considered and found inadequate to attain the project objectives. Retaining the current season length and timing would be unresponsive to Base operations, scheduled activities and unnecessarily restrict hunter opportunity.

3. Modify Additional Hunt J-10

The “No Change Alternative” was considered and found inadequate to attain the project objectives. Retaining the current season length and timing would be unresponsive to Base operations, scheduled activities and/or unnecessarily restrict hunter opportunity.

V. Mitigation Measures Required by Regulatory Action

The proposed regulatory action will have no negative impact on the environment; therefore, no mitigation measures are needed. The maximum number of tags available in the proposed range is at or below the number of tags analyzed in the 2007 Final Environmental Document regarding Deer Hunting and the approved deer herd management plans.

VI. Impact of Regulatory Action

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed action adjusts tag quotas for existing hunts and modifies season dates for hunts on military land. Given the number of tags available and the area over which they are distributed, these proposals are economically neutral to business.

(b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State’s Environment

The proposed action will not have significant impacts on the creation or elimination of jobs or the creation of new businesses or the elimination of existing businesses within California because it is unlikely to result in a change in hunting effort. The proposed action does not provide benefits to worker safety because it does not address working conditions.

The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family activities and promotes respect for California’s environment by the future stewards of the State’s resources. The Commission anticipates benefits to the State’s environment in the sustainable management of natural resources.

(c) Cost Impacts on a Representative Private Person or Business

The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with this proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None
- (e) Nondiscretionary Costs/Savings to Local Agencies: None
- (f) Programs Mandated on Local Agencies or School Districts: None
- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None
- (h) Effect on Housing Costs: None

VII. Economic Impact Assessment

(a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State

The regulation will not affect the creation or elimination of jobs because no significant changes in hunting activity levels are anticipated.

(b) Effects of the Regulation on the Creation of New Businesses or the Elimination of Existing Businesses Within the State

The regulation will not impact the creation of new businesses or the elimination of businesses because no significant changes in hunting activity levels are anticipated.

(c) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State

The regulation will not affect the expansion of businesses currently doing business within the State because no significant changes in hunting activity levels are anticipated.

(d) Benefits of the Regulation to the Health and Welfare of California Residents

The proposed regulation will benefit the health and welfare of California residents by maintaining sustainable deer populations and providing opportunities for the public to participate in a healthy outdoor activity.

(e) Benefits of the Regulation to Worker Safety

The proposed regulation will not affect worker safety.

(f) Benefits of the Regulation to the State's Environment

It is the policy of the State to encourage the conservation, maintenance, and utilization of the State's living resources. The proposed action will further this core objective.

Informative Digest/Policy Statement Overview

Existing regulations provide for the number of deer hunting tags in subsection 360(c) Additional Hunts. The proposed action provides a recommended range of tag numbers for each hunt from which a final number will be determined, based on the post-winter status of each deer herd. These ranges are necessary at this time because the final number of tags cannot be determined until spring herd data are collected in March/April and analyzed.

The proposed action changes the number of tags for all existing hunts (except those on military installations) to a series of ranges as indicated in the table below.

Deer: § 360(c) Additional Hunts			
Tag Allocations			
§	Hunt Number (and Title)	Current 2019	Proposed 2020 [Range]
(1)	G-1 (Late Season Buck Hunt for Zone C-4)	2,710	[0 - 5,000]
(2)	G-3 (Goodale Buck Hunt)	25	[0 – 50]
(3)	G-6 (Kern River Deer Herd Buck Hunt)	50	[0 – 100]
(4)	G-7 (Beale Either-Sex Deer Hunt)	20 Military*	[20 Military*]
(5)	G-8 (Fort Hunter Liggett Antlerless Deer Hunt)	10 Military* & 10 Public	[20*]
(6)	G-9 (Camp Roberts Antlerless Deer Hunt)	0	[30*]
(7)	G-10 (Camp Pendleton Either-Sex Deer Hunt)	250 Military*	[250 Military*]
(8)	G-11 (Vandenberg Either-Sex Deer Hunt)	0	[0 – 500]
(9)	G-12 (Gray Lodge Shotgun Either-Sex Deer Hunt)	30	[0 – 50]
(10)	G-13 (San Diego Antlerless Deer Hunt)	300	[0 – 300]
(11)	G-19 (Sutter-Yuba Wildlife Areas Either-Sex Deer Hunt)	25	[0 – 50]
(12)	G-21 (Ventana Wilderness Buck Hunt)	25	[0 – 100]
(13)	G-37 (Anderson Flat Buck Hunt)	25	[0 – 50]

	Deer: § 360(c) Additional Hunts Tag Allocations		
§	Hunt Number (and Title)	Current 2019	Proposed 2020 [Range]
(14)	G-38 (X-10 Late Season Buck Hunt)	300	[0 – 300]
(15)	G-39 (Round Valley Late Season Buck Hunt)	2	[0 – 150]
(16)	M-3 (Doyle Muzzleloading Rifle Buck Hunt)	20	[0 – 75]
(17)	M-4 (Horse Lake Muzzleloading Rifle Buck Hunt)	10	[0 – 50]
(18)	M-5 (East Lassen Muzzleloading Rifle Buck Hunt)	5	[0 – 50]
(19)	M-6 (San Diego Muzzleloading Rifle Either-Sex Deer Hunt)	80	[0 – 100]
(20)	M-7 (Ventura Muzzleloading Rifle Either-Sex Deer Hunt)	150	[0 – 150]
(21)	M-8 (Bass Hill Muzzleloading Rifle Buck Hunt)	20	[0 – 50]
(22)	M-9 (Devil's Garden Muzzleloading Rifle Buck Hunt)	15	[0 – 100]
(23)	M-11 (Northwestern California Muzzleloading Rifle Buck Hunt)	20	[0 – 200]
(24)	MA-1 (San Luis Obispo Muzzleloading Rifle/Archery Either-Sex Deer Hunt)	150	[0 – 150]
(25)	MA-3 (Santa Barbara Muzzleloading Rifle/Archery Buck Hunt)	150	[0 – 150]
(26)	J-1 Lake Sonoma Apprentice Either-Sex Deer Hunt)	25	[0 – 25]
(27)	J-3 (Tehama Wildlife Area Apprentice Buck Hunt)	15	[0 – 30]
(28)	J-4 Shasta-Trinity Apprentice Buck Hunt)	15	[0 – 50]

	Deer: § 360(c) Additional Hunts Tag Allocations		
§	Hunt Number (and Title)	Current 2019	Proposed 2020 [Range]
(29)	J-7 (Carson River Apprentice Either-Sex Deer Hunt)	0	[0 – 50]
(30)	J-8 (Daugherty Hill Wildlife Area Apprentice Either-Sex Deer Hunt)	15	[0 – 20]
(31)	J-9 (Little Dry Creek Apprentice Shotgun Either-Sex Deer Hunt)	5	[0 – 10]
(32)	J-10 (Fort Hunter Liggett Apprentice Either-Sex Deer Hunt)	25 Military & 60 Public	[30*]
(33)	J-11 (San Bernardino Apprentice Either-Sex Deer Hunt)	40	[0 – 50]
(34)	J-12 (Round Valley Apprentice Buck Hunt)	10	[0 – 20]
(35)	J-13 (Los Angeles Apprentice Either-Sex Deer Hunt)	40	[0 – 100]
(36)	J-14 (Riverside Apprentice Either-Sex Deer Hunt)	30	[0 – 75]
(37)	J-15 (Anderson Flat Apprentice Buck Hunt)	10	[0 – 30]
(38)	J-16 (Bucks Mountain-Nevada City Apprentice Either-Sex Deer Hunt)	75	[0 – 75]
(39)	J-17 (Blue Canyon Apprentice Either-Sex Deer Hunt)	25	[0 – 25]
(40)	J-18 (Pacific-Grizzly Flat Apprentice Either-Sex Deer Hunt)	75	[0 – 75]
(41)	J-19 (Zone X-7a Apprentice Either-Sex Deer Hunt)	25	[0 – 40]
(42)	J-20 (Zone X-7b Apprentice Either-Sex Deer Hunt)	20	[0 – 20]
(43)	J-21 (East Tehama Apprentice Either-Sex Deer Hunt)	50	[0 – 80]

* Specific numbers of tags are provided for military hunts through a system which restricts hunter access to desired levels and ensures biologically conservative hunting programs. Military only tags are designated for Department of Defense and eligible personnel as authorized by the Installation Commander.

Existing regulations for Additional Hunts G-8 (Fort Hunter Liggett Antlerless Deer Hunt) and J-10 (Fort Hunter Liggett Apprentice Either-Sex Deer Hunt) provide for hunting to begin on October 7 and continue for three consecutive days and reopen on October 14 and continue for two consecutive days, including the Columbus Day holiday. -The proposal would modify the season to account for the annual calendar shift. The proposal would change the season dates to open on October 3 and October 10, for two and three consecutive days respectively and include the Columbus Day holiday.

Benefits of the regulations

Deer herd management plans specify objective levels for the proportion of bucks to does in the herds. These ratios are maintained and managed in part by annually modifying the number of hunting tags. The final recommended values for the license tag numbers will be based upon findings from the annual harvest and herd composition counts. Adjusting tag allocations in response to current deer herd conditions contributes to the sustainable management of healthy deer populations and the maintenance of continued hunting opportunities.

Non-monetary benefits to the public

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity and the increase in openness and transparency in business and government.

Consistency and Compatibility with State Regulations

The Fish and Game Commission, pursuant to Fish and Game Code sections 200 and 203, has the sole authority to regulate deer hunting in California. Commission staff has searched the California Code of Regulations and has found the proposed changes pertaining to deer tag allocations are consistent with sections 360, 702, 708.5 and 708.6 of Title 14. Therefore, the Commission has determined that the proposed amendments are neither inconsistent nor incompatible with existing State regulations.

Proposed Regulatory Language

Subsection (c), Section 360, Title 14 CCR, is amended to read:

§360. Deer

(c) Additional Hunts.

(1) G-1 (Late Season Buck Hunt for Zone C-4).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: ~~2,740~~ [0 - 5,000].

(2) G-3 (Goodale Buck Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: ~~25~~ [0 - 50].

(3) G-6 (Kern River Deer Herd Buck Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: ~~50~~ [0 - 100].

(4) G-7 (Beale Either Sex Hunt).

. . . *[No changes to subsections (A) through (E)]*

(5) G-8 (Fort Hunter Liggett Antlerless Deer Hunt).

. . . *[No changes to subsection (A)]*

(B) Season: The season for additional hunt G-8 (Fort Hunter Liggett Antlerless Deer Hunt) shall open on October ~~7~~ 3 and extend for ~~3~~ 2 consecutive days and reopen on October ~~14~~ 10 and extend for ~~2~~ 3 consecutive days, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

. . . *[No changes to subsections (C)]*

(D) Number of Tags: ~~20 (10 military and 10 general public)~~.

. . . *[No changes to subsections (E)]*

(6) G-9 (Camp Roberts Antlerless Deer Hunt).

. . . *[No changes to subsections (A) through (E)]*

(7) G-10 (Camp Pendleton Either-Sex Deer Hunt).

. . . *[No changes to subsections (A) through (E)]*

(8) G-11 (Vandenberg Either-Sex Deer Hunt).

. . . *[No changes to subsection (A) through (E)]*

(9) G-12 (Gray Lodge Shotgun Either-Sex Deer Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: ~~30~~ [0 - 50].

. . . *[No changes to subsection (E)]*

(10) G-13 (San Diego Antlerless Deer Hunt).

. . . *[No changes to subsections (A) through (C)]*

- (D) Number of Tags: ~~300~~ [0 - 300].
- (11) G-19 (Sutter-Yuba Wildlife Areas Either-Sex Deer Hunt).
... *[No changes to subsections (A) and (C)]*
- (D) Number of Tags: ~~25~~ [0 - 50].
... *[No changes to subsection (E)]*
- (12) G-21 (Ventana Wilderness Buck Hunt).
... *[No changes to subsections (A) through (C)]*
- (D) Number of Tags: ~~25~~ [0 - 100].
- (13) G-37 (Anderson Flat Buck Hunt).
... *[No changes to subsections (A) through (C)]*

(43) J-21 (East Tehama Apprentice Either-Sex Deer Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: ~~50~~ [0 - 80].

. . . *[No changes to subsection (E)]*

(44) Conditions for Additional Hunts.

. . . *[No changes to subsections (A) and (B)]*

Note: Authority: Sections 200, 203, 265, 460, 3051, 3452, 3453, 3953 and 4334, Fish and Game Code. Reference: Sections 200, 203, 203.1, 255, 265, 458, 459, 460, 3051, 3452, 3453, 3953 and 4334, Fish and Game Code.

DRAFT

State of California
Fish and Game Commission
Initial Statement of Reasons for Regulatory Action

Amend Subsection 361(b)
Title 14, California Code of Regulations
Re: Archery Deer Hunting

I. Date of Initial Statement of Reasons: November 13, 2019

II. Dates and Locations of Scheduled Hearings

(a) Notice Hearing	Date:	December 11, 2019
	Location:	Sacramento, CA
(b) Discussion Hearing	Date:	February 6, 2020
	Location:	Sacramento, CA
(c) Adoption Hearing	Date:	April 16, 2020
	Location:	Sacramento, CA

III. Description of Regulatory Action

(a) Statement of Specific Purpose of Regulatory Change and Factual Basis for Determining that Regulation Change is Reasonably Necessary

The Fish and Game Commission (Commission) periodically considers the recommendations of the Department of Fish and Wildlife (Department) in establishing deer regulations. Subsection 361(b) provides definitions, hunting zone descriptions, season opening and closing dates, and tag quotas for Archery Deer Hunting.

In order to maintain appropriate harvest levels and hunting quality it is necessary to periodically adjust tag quotas (total number of hunting tags to be made available) in response to dynamic environmental and biological conditions. Current regulations in subsection 361(b) specify deer license tag quotas for each hunt zone in accordance with management goals and objectives.

The specific recommended regulation changes are:

1. Number of Tags

Existing regulations provide for the number of deer hunting tags for area-specific archery hunts. The proposed action initially provides a range (e.g., [0- 100]) of tag numbers for each zone from which a final number will be determined based on the post-winter status of each deer herd. The maximum number of tags available in the proposed range is at or below the number of tags analyzed in the 2007 Final Environmental Document regarding Deer Hunting and the approved deer herd management plans. Ranges are necessary at this time because the final number of tags cannot be determined until spring herd data are collected in March/April and analyzed. A low-end quota range of zero (0) tags is used in the event final tag quotas need to be reduced. Hunts may be cancelled due to events such as fire, disease or other factors.

In early spring, surveys of deer herds are conducted to determine the proportion of fawns that have survived the winter. This information is used in conjunction with the prior year

harvest and fall herd composition data to estimate overall herd size, sex and age ratios, and the predicted allowable deer harvest (ADH) for next season. The number of bucks and does needs to be estimated prior to the hunting season to determine how many surplus deer are likely to exist over and above the number required to maintain the desired buck to doe ratio objectives stated in the approved deer herd management plans.

Actual tag numbers for each affected zone will be reflected in the Final Statement of Reasons and will be selected from the range of values recommended in this proposal. The recommended number of tags is intended to allow an appropriate level of hunting opportunity and harvest of bucks and does in the population, while achieving or maintaining the buck to doe ratios at, or near, objective levels set forth in approved deer herd management plans. These final recommendations for the number of tags to be issued will be based upon findings from the annual harvest and herd composition counts.

2. Modify hunt A-33 (Fort Hunter Liggett Late Season Archery Either-Sex Deer Hunt)

Existing regulations for A-33 provide for hunting to open beginning the first Saturday in October and continuing through November 12, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31. Tags are split between military and the public.

The current proposal would modify the season to account for the annual calendar shift by changing the season dates to open beginning the first Saturday in October and continuing through November 11, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

The tag split will be deleted, and the tags will be available to any hunter, military or public.

3. Minor non-substantive correction for A-31 (Los Angeles Archery Either-Sex Deer Hunt). Existing regulations incorrectly reference a definition for either-sex deer, it should be subsection 351(c), not (b).

(b) Goals and Benefits of the Regulation

The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family activities and promotes respect for California's environment by the future stewards of the State's resources. The Commission anticipates benefits to the State's environment in the sustainable management of natural resources.

(c) Authority and Reference

Authority: Section(s) 200, 203, 265, 3453, and 4370, Fish and Game Code.

Reference: Section(s) 200, 203, 203.1, 255, 265, and 4370, Fish and Game Code.

(d) Specific Technology or Equipment Required by Regulatory Change. None

(e) Identification of Reports or Documents Supporting Regulation Change: None

(f) Public Discussions of Proposed Regulations Prior to Notice Publication

Fish and Game Commission Wildlife Resources Committee meetings held in Sacramento on May 16, 2019 and in Santa Rosa on September 10, 2019.

IV. Description of Reasonable Alternatives to Regulatory Action

(a) Alternatives to Regulation Change

No alternatives were identified.

(b) No Change Alternative

1. Number of Tags

The “No Change Alternative” was considered and found inadequate to attain the project objectives. Retaining the current number of tags for the hunts listed may not be responsive to changes in the status of the herds. The deer herd management plans specify objective levels for the proportion of bucks to does in the herds. These ratios are maintained and managed in part by modifying the number of tags. The “No Change Alternative” would not allow management of the desired proportion of bucks stated in the approved deer herd management plans.

2. Modify hunt for A-33 (Fort Hunter Liggett Late Season Archery Either-Sex Deer Hunt)

The “No Change Alternative” was considered and found inadequate to attain the project objectives. Retaining the current season length and timing would be unresponsive to Base operations, scheduled activities and unnecessarily restrict hunter opportunity.

V. Mitigation Measures Required by Regulatory Action

The proposed regulatory action will have no negative impact on the environment; therefore, no mitigation measures are needed. The maximum number of tags available in the proposed range is at or below the number of tags analyzed in the 2007 Final Environmental Document regarding Deer Hunting and the approved deer herd management plans.

VI. Impact of Regulatory Action

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed action adjusts tag quotas for existing hunts. Given the number of tags available and the area over which they are distributed, these proposals are economically neutral to business.

(b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State’s Environment

The proposed action will not have significant impacts on the creation or elimination of jobs or the creation of new businesses or the elimination of existing businesses within California

because it is unlikely to result in a change in hunting effort. The proposed action does not provide benefits to worker safety because it does not address working conditions.

The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family activities and promotes respect for California's environment by the future stewards of the State's resources. The Commission anticipates benefits to the State's environment in the sustainable management of natural resources.

(c) Cost Impacts on a Representative Private Person or Business

The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with this proposed action.

(d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State. None

(e) Nondiscretionary Costs/Savings to Local Agencies. None

(f) Programs Mandated on Local Agencies or School Districts. None

(g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code. None

(h) Effect on Housing Costs. None

VII. Economic Impact Assessment

(a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State

The regulation will not affect the creation or elimination of jobs because no significant changes in hunting activity levels are anticipated.

(b) Effects of the Regulation on the Creation of New Businesses or the Elimination of Existing Businesses Within the State

The regulation will not impact the creation of new businesses or the elimination of businesses because no significant changes in hunting activity levels are anticipated.

(c) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State

The regulation will not affect the expansion of businesses currently doing business within the State because no significant changes in hunting activity levels are anticipated.

(d) Benefits of the Regulation to the Health and Welfare of California Residents

The proposed regulation will benefit the health and welfare of California residents by maintaining sustainable deer populations and providing opportunities for the public to participate in a healthy outdoor activity.

(e) Benefits of the Regulation to Worker Safety

The proposed regulation will not affect worker safety.

(f) Benefits of the Regulation to the State's Environment

It is the policy of the State to encourage the conservation, maintenance, and utilization of the State's living resources. The proposed action will further this core objective.

Informative Digest/Policy Statement Overview

Existing regulations provide for the number of deer hunting tags for existing area-specific archery hunts. The proposed action provides a recommended range of tag numbers for each hunt from which a final number will be determined, based on the post-winter status of each deer herd. These ranges are necessary at this time because the final number of tags cannot be determined until spring herd data are collected and analyzed in March/April and analyzed.

The proposed action changes the number of tags for all existing hunts (except those on military installations) to a series of ranges as indicated in the table below.

Archery Deer Hunting: § 361(b)			
Tag Allocations			
§	Hunt Number (and Title)	Current 2019	Proposed 2020 [Range]
(1)	A-1 (C Zones Archery Only Hunt)	1,945	[0 - 3,000]
(2)	A-3 (Zone X-1 Archery Hunt)	100	[0 - 1,000]
(3)	A-4 (Zone X-2 Archery Hunt)	10	[0 - 100]
(4)	A-5 (Zone X-3a Archery Hunt)	40	[0 - 300]
(5)	A-6 (Zone X-3b Archery Hunt)	70	[0 - 400]
(6)	A-7 (Zone X-4 Archery Hunt)	120	[0 - 400]
(7)	A-8 (Zone X-5a Archery Hunt)	15	[0 - 100]
(8)	A-9 (Zone X-5b Archery Hunt)	5	[0 - 100]
(9)	A-11 (Zone X-6a Archery Hunt)	50	[0 - 200]
(10)	A-12 (Zone X-6b Archery Hunt)	90	[0 - 300]
(11)	A-13 (Zone X-7a Archery Hunt)	45	[0 - 200]
(12)	A-14 (Zone X-7b Archery Hunt)	25	[0 - 100]
(13)	A-15 (Zone X-8 Archery Hunt)	40	[0 - 100]
(14)	A-16 (Zone X-9a Archery Hunt)	140	[0 - 500]
(15)	A-17 (Zone X-9b Archery Hunt)	300	[0 - 500]

Archery Deer Hunting: § 361(b) Tag Allocations			
§	Hunt Number (and Title)	Current 2019	Proposed 2020 [Range]
(16)	A-18 (Zone X-9c Archery Hunt)	350	[0 - 500]
(17)	A-19 (Zone X-10 Archery Hunt)	100	[0 - 200]
(18)	A-20 (Zone X-12 Archery Hunt)	100	[0 - 500]
(19)	A-21 (Anderson Flat Archery Buck Hunt)	25	[0 - 100]
(20)	A-22 (San Diego Archery Either-Sex Deer Hunt)	1,000	[0 - 1,500]
(21)	A-24 (Monterey Archery Either-Sex Deer Hunt)	100	[0 - 200]
(22)	A-25 (Lake Sonoma Archery Either-Sex Deer Hunt)	35	[0 - 75]
(23)	A-26 (Bass Hill Archery Buck Hunt)	30	[0 - 100]
(24)	A-27 (Devil's Garden Archery Buck Hunt)	5	[0 - 75]
(25)	A-30 (Covelo Archery Buck Hunt)	40	[0 - 100]
(26)	A-31 (Los Angeles Archery Either-Sex Deer Hunt)	1,000	[0 - 1,500]
(27)	A-32 (Ventura/Los Angeles Archery Late Season Either-Sex Deer Hunt)	250	[0 - 300]
(28)	A-33 (Fort Hunter Liggett Late Season Archery Either-Sex Deer Hunt)	50* (25 Military & 25 Public)	50*

* Specific numbers of tags are provided for military hunts through a system which restricts hunter access to desired levels and ensures biologically conservative hunting programs. Military only tags are designated for Department of Defense and eligible personnel as authorized by the Installation Commander.

Existing regulations for Hunt A-33 (Fort Hunter Liggett Late Season Archery Either-Sex Deer Hunt) provide for hunting to open beginning the first Saturday in October and continue through November 12, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31. The current proposal would modify the season to account for the annual calendar shift by changing the season dates to open beginning the first Saturday in October

and continue through November 11, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

Benefits of the regulations

Deer herd management plans specify objective levels for the proportion of bucks to does in the herds. These ratios are maintained and managed in part by annually modifying the number of hunting tags. The final recommended values for the license tag numbers will be based upon findings from the annual harvest and herd composition counts. Adjusting tag allocations in response to current deer herd conditions contributes to the sustainable management of healthy deer populations and the maintenance of continued hunting opportunities.

Non-monetary benefits to the public

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity and the increase in openness and transparency in business and government.

Consistency and Compatibility with State Regulations

The Fish and Game Commission, pursuant to Fish and Game Code sections 200 and 203, has the sole authority to regulate deer hunting in California. Commission staff has searched the California Code of Regulations and has found the proposed changes pertaining to deer tag allocations are consistent with sections 361, 702, 708.5 and 708.6 of Title 14. Therefore, the Commission has determined that the proposed amendments are neither inconsistent nor incompatible with existing State regulations.

Proposed Regulatory Language

Subsection (b) of Section 361, Title 14, CCR is amended to read:

§361. Archery Deer Hunting.

(b) Archery Hunting With Area-specific Archery Tags. Deer may be taken only with archery equipment specified in Section 354, only during the archery seasons as follows:

(1) A-1 (C Zones Archery Only Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~1,945~~ [0 - 3,000] A-1 (C Zones Archery Only Hunt) tags are valid in Zones C-1, C-2, C-3, and C-4 only during the archery season as specified above in subsections 361(b)(1)(B)1 through 4.

(2) A-3 (Zone X-1 Archery Hunt)

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~400~~ [0 - 1,000].

(3) A-4 (Zone X-2 Archery Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~40~~ [0 – 100].

(4) A-5 (Zone X-3a Archery Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~40~~ [0 – 300].

(5) A-6 (Zone X-3b Archery Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~70~~ [0 – 400].

(6) A-7 (Zone X-4 Archery Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~120~~ [0 - 400].

(7) A-8 (Zone X-5a Archery Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~40~~ [0 - 100].

(8) A-9 (Zone X-5b Archery Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~5~~ [0 - 100].

(9) A-11 (Zone X-6a Archery Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: ~~50~~ [0 - 200].

(10) A-12 (Zone X-6b Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 90 [0 - 300].

(11) A-13 (Zone X-7a Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 45 [0 - 200].

(12) A-14 (Zone X-7b Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 25 [0 - 100].

(13) A-15 (Zone X-8 Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 40 [0 - 100].

(14) A-16 (Zone X-9a Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 30 [0 - 500].

(15) A-17 (Zone X-9b Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 240 [0 - 500].

(16) A-18 (Zone X-9c Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 350 [0 - 500].

(17) A-19 (Zone X-10 Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 400 [0 - 200].

(18) A-20 (Zone X-12 Archery Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 40 [0 - 500].

(19) A-21 (Anderson Flat Archery Buck Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 25 [0 - 100].

(20) A-22 (San Diego Archery Either-Sex Deer Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 4,000 [0 - 1,500].

(21) A-24 (Monterey Archery Either-Sex Deer Hunt).

. . . *[No changes to subsections (A) through (C)]*

(D) Number of Tags: 400 [0 - 200].

(22) A-25 (Lake Sonoma Archery Either-Sex Deer Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: 35 [0 - 75].

. . . [No changes to subsection (E)]

(23) A-26 (Bass Hill Archery Buck Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: 30 [0 - 100].

(24) A-27 (Devil's Garden Archery Buck Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: 40 [0 - 75].

(25) A-30 (Covelo Archery Buck Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: 40 [0 - 100].

(26) A-31 (Los Angeles Archery Either-Sex Deer Hunt).

. . . [No changes to subsections (A) through (B)]

(C) Bag and Possession Limit: One either-sex deer (see subsection 351-(b)-(c)) per tag.

(D) Number of Tags: 1,000 [0 - 1,500].

(27) A-32 (Ventura/Los Angeles Late Season Archery Either-Sex Deer Hunt).

. . . [No changes to subsections (A) through (C)]

(D) Number of Tags: 250 [0 - 300].

(28) A-33 (Fort Hunter Liggett Late Season Archery Either-Sex Deer Hunt).

. . . [No changes to subsection (A)]

(B) Season: The season for hunt A-33 (Fort Hunter Liggett Late Season Archery Either-Sex Deer Hunt) shall be open beginning the first Saturday in October and continuing through November 12-11, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

. . . [No changes to subsection (C)]

(D) Number of Tags: 50 (25 military and 25 general public).

. . . [No changes to subsection (E)]

Note: Authority cited: Sections 200, 203, 265, 3453, and 4370, Fish and Game Code.

DRAFT

State of California
Fish and Game Commission
Initial Statement of Reasons for Regulatory Action

Amend Section 362
Title 14, California Code of Regulations
Re: Nelson Bighorn Sheep

I. Date of Initial Statement of Reasons: November 13, 2019

II. Dates and Locations of Scheduled Hearings

- | | |
|------------------------|-----------------------------------------------------|
| (a) Notice Hearing | Date: December 11, 2019
Location: Sacramento, CA |
| (b) Discussion Hearing | Date: February 6, 2019
Location: Sacramento, CA |
| (c) Adoption Hearing | Date: April 16, 2019
Location: Sacramento, CA |

III. Description of Regulatory Action

(a) Statement of Specific Purpose of Regulatory Change and Factual Basis for Determining that Regulation Change is Reasonably Necessary

In accordance with management goals and objectives, and in order to maintain hunting quality, it is necessary to periodically consider tag quotas for hunting. Current regulations specify the number of bighorn sheep hunting tags for the 2019 season. The proposed action initially provides a range of tag numbers from which a final number will be determined based on the post-winter status. A low-end quota range of zero (0) tags is used in the event final tag quotas need to be reduced.

Preliminarily, the tag numbers are presented as ranges (e.g., [0-3]) in the table in subsection 362(d) of the amended Regulatory Text. Final tag quota recommendations for each zone will be identified and presented to the Fish and Game Commission and interested and affected parties prior to the adoption hearing.

Final tag quotas for bighorn sheep cannot be determined until surveys are completed and all data are analyzed. Surveys and analyses are scheduled for completion by Spring 2020. Final tag quotas will recommend a biologically appropriate harvest of bighorn sheep. Due to the timing of administrative procedures and requirements of the Fish and Game Code, the Department submits proposed regulatory changes to the Fish and Game Commission prior to completion of all surveys, necessitating a proposed range of tags. Monitoring continues and final tag quotas for each zone will be recommended in the Preadoption Statement of Reasons based upon findings from 2019-2020 fall/winter surveys.

(b) Goals and Benefits of the Regulation

The goals and benefits of the regulations are to provide for the conservation and maintenance of bighorn sheep populations to ensure their persistence. It is the policy of this State to

encourage the preservation, conservation and maintenance of wild resources under the jurisdiction and influence of the state including, but not limited to sections 1801 and 4900 of the Fish and Game Code.

(c) Authority and Reference

Authority: Sections 200, 203, 265, 1050, and 4902, Fish and Game Code

Reference: Sections 1050, 3950, and 4902, Fish and Game Code

(d) Specific Technology or Equipment Required by Regulatory Change. None

(e) Identification of Reports or Documents Supporting Regulation Change. None

(f) Public Discussions of Proposed Regulations Prior to Notice Publication

Fish and Game Commission's Wildlife Resources Committee meeting held on May 16, 2019 in Sacramento and on September 10, 2019 in Santa Rosa, California.

IV. Description of Reasonable Alternatives to Regulatory Action

(a) Alternatives to Regulation Change

No alternatives were identified.

(b) No Change Alternative

The no-change alternative was considered and rejected because it would not attain project objectives of providing for hunting opportunities while maintaining bighorn sheep populations within desired population objectives. Retaining the current tag quota for each zone may not be responsive to biologically-based changes in the status of various herds. The no-change alternative would not allow for adjustment of tag quotas in response to changing environmental/biological conditions.

V. Mitigation Measures Required by Regulatory Action

The proposed regulatory action will have no negative impact on the environment; therefore, no mitigation measures are needed. The maximum number of tags available in the proposed range is at or below the number of tags analyzed in the 2019 Final Environmental Document regarding bighorn sheep hunting.

VI. Impact of Regulatory Action

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

The proposed regulations adjust tag quotas for existing hunts to provide public recreational opportunity and could result in minor increases or decreases in hunting days and hunter

spending on equipment, fuel, food, and accommodations. Given the number of tags available and the area over which they are distributed, the proposed regulations are anticipated to be economically neutral for business.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment.

The Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new business, the elimination of existing businesses or the expansion of businesses in California. Minor variations in hunting regulations are, by themselves, unlikely to provide a substantial enough economic stimulus to the state.

The Commission anticipates benefits to the health and welfare of California residents because hunting is an outdoor activity that can provide exercise, a greater awareness of the connections between wildlife and habitat, and fresh game to eat. The proposed regulation will not affect worker safety. The Commission anticipates benefits to the state's environment through the maintenance of sufficient populations of bighorn sheep to ensure their continued existence.

- (c) Cost Impacts on a Representative Private Person or Business

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State. None.

- (e) Nondiscretionary Costs/Savings to Local Agencies. None.

- (f) Programs Mandated on Local Agencies or School Districts. None.

- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code. None.

- (h) Effect on Housing Costs. None.

VII. Economic Impact Assessment

- (a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State

No impacts on the creation or elimination of jobs within businesses that provide services to bighorn sheep hunters may result from the adoption of the proposed bighorn sheep hunting regulations for the 2020-21 hunt season.

- (b) Effects of the Regulation on the Creation of New Businesses or the Elimination of Existing Businesses Within the State

The proposed regulation is not anticipated to prompt the creation of new businesses or the elimination of existing businesses within the state. Minor variations in regulations pertaining to hunting are, by themselves, unlikely to stimulate the creation of new businesses or cause the elimination of existing businesses. The number of hunting trips and the economic contributions from the trips are not expected to change substantially.

(c) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State

The proposed variations in bighorn sheep tag quotas are, by themselves, unlikely to stimulate substantial expansion of businesses currently doing business in the state. The long-term intent of the proposed regulations is to sustainably manage bighorn sheep populations, and consequently, the long-term viability of various businesses that serve recreational bighorn sheep hunters.

(d) Benefits of the Regulation to the Health and Welfare of California Residents

Hunting is an outdoor activity that can provide several health and welfare benefits to California residents. Hunters and their families benefit from fresh game to eat, and from the benefits of outdoor recreation, including exercise. People who hunt have a special connection with the outdoors and an awareness of the relationships between wildlife, habitat, and humans. With that awareness comes an understanding of the role humans play in being caretakers of the environment. Hunting is a tradition that is often passed from one generation to the next creating a special bond between family members and friends.

(e) Benefits of the Regulation to Worker Safety

The proposed regulation will not affect worker safety.

(f) Benefits of the Regulation to the State's Environment

As set forth in Fish and Game Code section 1801, it is the policy of the state to encourage the conservation, maintenance, and utilization of wildlife resources for the benefit of all the citizens of the state. The objectives of this policy include, but are not limited to, the maintenance of sufficient populations of bighorn sheep to ensure their continued existence and the maintenance of a sufficient resource to support recreational opportunity. Adoption of scientifically-based bighorn sheep seasons and tag quotas provides for the maintenance of sufficient bighorn sheep populations to ensure those objectives are met. The fees that hunters pay for licenses and tags fund big game conservation.

Informative Digest/Policy Statement Overview

The current regulation in Section 362, Title 14, CCR, provides for limited hunting of Nelson bighorn rams in specified areas of the State. The proposed change is intended to adjust the number of tags available for the 2020 season based on bighorn sheep fall/winter population surveys conducted by the Department. Final tag quota recommendations will be made pending completion of all surveys and data analyses. quota recommendations will be made pending completion of all surveys and data analyses.

HUNT ZONE	NUMBER OF TAGS [proposed range]
Zone 1 – Marble/Clipper Mountains	[0-5]
Zone 2 - Kelso Peak/Old Dad Mountains	[0-4]
Zone 3 - Clark/Kingston Mountain Ranges	[0-4]
Zone 4 - Orocopia Mountains	[0-2]
Zone 5 - San Gorgonio Wilderness	[0-3]
Zone 6 - Sheep Hole Mountains	[0-2]
Zone 7 - White Mountains	[0-6]
Zone 8 - South Bristol Mountains	[0-3]
Zone 9 – Cady Mountains	[0-4]
Zone 10 – Newberry, Rodman, Ord Mountains	[0-6]
Open Zone Fund-Raising Tag	[0-1]
Marble/Clipper/South Bristol Mountains Fund-Raising Tag	[0-1]
Cady Mountains Fund-Raising Tag	[0-1]
TOTAL	[0-42]

Benefits of the regulations

The benefits of the proposed regulations are consistency with statute and the sustainable management of the State's wildlife resources.

Non-monetary benefits to the public

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity, and the increase in openness and transparency in business and government.

Evaluation of incompatibility with existing regulations

The Commission has reviewed its regulations in Title 14, CCR, and conducted a search of other regulations on this topic and has concluded that the proposed amendments are neither inconsistent nor incompatible with existing State regulations. No other State agency has the authority to promulgate wildlife hunting regulations.

Proposed Regulatory Language

Section 362, Title 14 CCR, is amended to read:

§362 Nelson Bighorn Sheep

. . . [*No changes to subsections (a) through (c)]*

(d) Number of License Tags:

<i>Nelson Bighorn Sheep Hunt Zones</i>	<i>Tag Allocation</i>
Zone 1 - Marble/Clipper Mountains	5 [0-5]
Zone 2 - Kelso Peak/Old Dad Mountains	0 [0-4]
Zone 3 - Clark/Kingston Mountain Ranges	4 [0-4]
Zone 4 - Orocopia Mountains	4 [0-2]
Zone 5 - San Gorgonio Wilderness	0 [0-3]
Zone 6 - Sheep Hole Mountains	0 [0-2]
Zone 7 - White Mountains	6 [0-6]
Zone 8 - South Bristol Mountains	2 [0-3]
Zone 9 - Cady Mountains	2 [0-4]
Zone 10 - Newberry, Rodman, Ord Mountains	6 [0-6]

Marble/Clipper/South Bristol Mountains Fund-Raising Tag	4 [0-1]
Cady Mountains Fund-Raising Tag	4 [0-1]
Total:	29 [0-42]

. . . [*No changes to subsection (e)*]

Note: Authority cited: Sections 200, 203, 265, 1050 and 4902, Fish and Game Code. Reference: Sections 1050, 3950 and 4902, Fish and Game Code.

DRAFT

State of California
Fish and Game Commission
Initial Statement of Reasons for Regulatory Action
Amend Section 364
Title 14, California Code of Regulations
Re: Elk

I. Date of Initial Statement of Reasons: November 14, 2019

II. Dates and Locations of Scheduled Hearings

- | | | |
|------------------------|-----------|-------------------|
| (a) Notice Hearing | Date: | December 11, 2019 |
| | Location: | Sacramento, CA |
| (b) Discussion Hearing | Date: | February 6, 2020 |
| | Location: | Sacramento, CA |
| (c) Adoption Hearing | Date: | April 16, 2020 |
| | Location: | Sacramento, CA |

III. Description of Regulatory Action

(a) Statement of Specific Purpose of Regulatory Change and Factual Basis for Determining that Regulation Change is Reasonably Necessary

The Fish and Game Commission (Commission) periodically considers the recommendations of the Department of Fish and Wildlife (Department) in establishing elk regulations. Section 364 provides definitions, hunting zone descriptions, season opening and closing dates, and tag quotas for elk.

In order to maintain appropriate harvest levels and hunting quality it is necessary to periodically adjust tag quotas (total number of hunting tags to be made available) in response to dynamic environmental and biological conditions. Current regulations in Section 364 specify elk license tag quotas for each hunt zone in accordance with management goals and objectives.

The specific recommended regulation changes are:

1) Number of Tags

Proposed amendments to Section 364 will establish new tag quotas to adjust for periodic fluctuations in elk population numbers. Proposed tag quotas are presented as ranges shown in brackets, e.g. [0-4], in the tables of the amended Regulatory Text (subsections 364 (r) through (aa)) attached to this Initial Statement of Reasons. The ranges allow the final number of tags to be determined based on analysis of survey and harvest data from the 2019-20 hunt season. These results are anticipated in the spring of 2020 and a final analysis will support the Department's recommendation for the number of tags to be allocated to each hunt prior to the Commission's adoption hearing in April 2020.

2) Modify Season Dates on Fort Hunter Liggett

Due to military use constraints at Fort Hunter Liggett, hunt dates are annually subject to change, and may be adjusted or cancelled by the Commanding Officer. There are several changes to the hunt openers on the Fort Hunter Liggett Military Base. The changes to the 2020 season openers will be.

(u) Department Administered General Methods Tule Elk Hunts

(12)(C) Fort Hunter Liggett General Public: Shall open on the fourth Tuesday in December and continue for 13 consecutive days.

(v) Department Administered Apprentice Hunts

(7)(A) General method Apprentice: Shall open on the fourth Tuesday in December and continue for 13 consecutive days.

(w) Department Administered Archery Only Hunt

(6)(B) Shall open on the First Saturday in November and continue for 9 consecutive days.

(b) Goals and Benefits of the Regulation

The proposed regulations will contribute to the sustainable management of elk populations in California. Existing elk herd management goals specify objective levels for the proportion of bulls to cows in the herds. These ratios are maintained and managed in part by periodically modifying the number of tags. The final recommended number of tags will be based upon findings from annual harvest, herd composition counts, and population estimates where appropriate.

(c) Authority and Reference

Authority: Section(s) 200, 203, 203.1, 265, 332 and 1050, Fish and Game Code.

Reference: Section(s) 332, 1050, 1570, 1571, 1572, 1573 and 1574, Fish and Game Code.

(d) Specific Technology or Equipment Required by Regulatory Change: None

(e) Identification of Reports or Documents Supporting Regulation Change: None

(f) Public Discussions of Proposed Regulations Prior to Notice Publication:

This proposal was discussed at Wildlife Resources Committee Meetings on May 16, 2019, in Sacramento and September 10, 2019 in Santa Rosa.

IV. Description of Reasonable Alternatives to Regulatory Action

(a) Alternatives to Regulation Change

No alternatives were identified.

(b) No Change Alternative

1. Number of Tags

The “no-change alternative” was considered and rejected because it would not meet project objectives. Elk hunts and opportunity must be adjusted periodically in response to a variety of environmental and biological conditions.

2. Modify Season Dates on Fort Hunter Liggett

The “no-change alternative” was considered and found inadequate to meet project objectives. Retaining current season length and timing would be unresponsive to Base operations, scheduled activities, and/or unnecessarily restrict hunter opportunity.

V. Mitigation Measures Required by Regulatory Action

The proposed regulatory action will have no negative impact on the environment; therefore, no mitigation measures are needed. The maximum number of tags available in the proposed range is at or below the number of tags analyzed in the 2010 Environmental Document, and its 2019 Final Supplemental Environmental Document regarding elk hunting.

VI. Impact of Regulatory Action

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. Considering the relatively small number of tags issued over the entire state, this proposal is economically neutral to business.

(b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State’s Environment

The Commission anticipates no to minor positive impacts on the creation or elimination of jobs within the state, and no impact on the creation of new business, the elimination of existing businesses or the expansion of businesses in California as minor variations in hunting regulations are, by themselves, unlikely to provide a substantial enough economic stimulus to the state. The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family activities and promotes respect for California’s environment by the future stewards of the State’s resources. The proposed action will not provide benefits to worker safety. The Commission anticipates benefits to the State’s environment in the sustainable management of natural resources.

(c) Cost Impacts on a Representative Private Person or Business

The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with this proposed action.

(d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None

(e) Nondiscretionary Costs/Savings to Local Agencies: None

(f) Programs Mandated on Local Agencies or School Districts: None

(g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None

(h) Effect on Housing Costs: None

VII. Economic Impact Assessment

(a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State

No impact to minor positive impacts on the creation of jobs within businesses that provide services to elk hunters may result from the adoption of the proposed elk hunting regulations for the 2020-21 season.

(b) Effects of the Regulation on the Creation of New Businesses or the Elimination of Existing Businesses Within the State

The proposed regulation is not anticipated to prompt the creation of new businesses or the elimination of existing businesses within the state. Minor variations in regulations pertaining to hunting are, by themselves, unlikely to stimulate the creation of new businesses or cause the elimination of existing businesses. The number of hunting trips and the economic contributions from the trips are not expected to change substantially.

(c) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State

The proposed minor variations in elk tag quotas are, by themselves, unlikely to stimulate substantial expansion of businesses currently doing business in the state. The long-term intent of the proposed regulations is to sustainably manage elk populations, and consequently, the long-term viability of various businesses that serve recreational elk hunters.

(d) Benefits of the Regulation to the Health and Welfare of California Residents

Hunting is an outdoor activity that can provide several health and welfare benefits to California residents. Hunters and their families benefit from fresh game to eat, and from the benefits of outdoor recreation, including exercise. People who hunt have a special connection with the outdoors and an awareness of the relationships between wildlife, habitat, and humans. With that awareness comes an understanding of the role humans play in being caretakers of the environment. Hunting is a tradition that is often passed from one generation to the next creating a special bond between family members and friends.

(e) Benefits of the Regulation to Worker Safety

The proposed regulation will not affect worker safety.

(f) Benefits of the Regulation to the State's Environment

As set forth in Fish and Game Code section 1801, it is the policy of the state to encourage the conservation, maintenance, and utilization of fish and wildlife resources for the benefit of all the citizens of the state. The objectives of this policy include, but are not limited to, the maintenance of sufficient populations of elk to ensure their continued existence and the maintenance of a sufficient resource to support recreational opportunity. Adoption of scientifically based elk seasons and tag quotas provides for the maintenance of sufficient elk

populations to ensure those objectives are met. The fees that hunters pay for licenses and tags fund wildlife conservation.

(g) Other Benefits of the Regulation

Hunting seasons provide incentives for private landowners to maintain habitats that benefit elk and other forest and upland dependent species.

Informative Digest/Policy Statement Overview

Current regulations in Section 364, Title 14, CCR, provide definitions, hunting zone descriptions, season dates, and elk license tag quotas. In order to achieve elk herd management goals and objectives and maintain hunting quality, it is periodically necessary to adjust quotas, seasons, hunt areas and other criteria in response to dynamic environmental and biological conditions. The proposed amendments to Section 364 will establish the 2020 tag quotas, season dates, and tag distribution within each hunt adjusting for annual fluctuations in populations.

Proposed Amendments: The proposed ranges of elk tags for 2020 are presented in the Proposed Regulatory Text of Section 364.

1. Subsections 364(r) through (aa) specify elk license tag quota ranges for each hunt in accordance with management goals and objectives.
2. Modify Season Dates. Due to military use constraints at Fort Hunter Liggett, hunt dates are annually subject to change and may be adjusted or cancelled by the Commanding Officer.

Benefits of the regulations

The proposed regulations will contribute to the sustainable management of elk populations in California. Existing elk herd management goals specify objective levels for the proportion of bulls to cows in the herds. These ratios are maintained and managed in part by periodically modifying the number of tags. The final recommended number of tags will be based upon findings from annual harvest, herd composition counts, and population estimates where appropriate.

Non-monetary benefits to the public

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity and the increase in openness and transparency in business and government.

Evaluation of incompatibility with existing regulations

The Fish and Game Commission, pursuant to Fish and Game Code Sections 200 and 203, has the sole authority to regulate elk hunting in California. Commission staff has searched the California Code of Regulations and has found the proposed changes pertaining to elk tag allocations are consistent with Title 14. Therefore, the Commission has determined that the proposed amendments are neither inconsistent nor incompatible with existing State regulations.

PROPOSED REGULATORY TEXT

Section 364 is amended to read as follows:

§364. Elk Hunts, Seasons, and Number of Tags.

. . . [No changes subsections (a) through (q)]

§	Hunt	1. Bull Tags	2. Antlerless Tags	3. Either-Sex Tags	4. Spike Tags
		5. Season			
(r) Department Administered General Methods Roosevelt Elk Hunts					
(1)(A)	Siskiyou	20 <u>[0-38]</u>	20 <u>[0-42]</u>		
		Shall open on the Wednesday preceding the second Saturday in September and continue for 12 consecutive days.			
(2)(A)	Northwestern	15 <u>[0-44]</u>	0 <u>[0-58]</u>	3 <u>[0-3]</u>	
		Shall open on the first Wednesday in September and continue for 23 consecutive days.			
(3)(A)	Marble Mountains	35 <u>[0-70]</u>	40 <u>[0-30]</u>		
		Shall open on the Wednesday preceding the second Saturday in September and continue for 12 consecutive days.			
(s) Department Administered General Methods Rocky Mountain Elk Hunts					
(1)(A)	Northeastern California	15 <u>[0-30]</u>			
	Bull	The bull season shall open on the Wednesday preceding the third Saturday in September and continue for 12 consecutive days			
(B)	Northeastern California		40 <u>[0-10]</u>		
	Antlerless	The antlerless season shall open on the second Wednesday in November and continue for 12 consecutive days.			

(t) Department Administered General Methods Roosevelt/Tule Elk Hunts					
(1)(A)	Mendocino	2 [0-4]	0 [0-4]		
		The season shall open on the Wednesday preceding the fourth Saturday in September and continue for 12 consecutive days.			
(u) Department Administered General Methods Tule Elk Hunts					
(1)(A)	Cache Creek Bull	2 [0-4]			
		The Bull season shall open on the second Saturday in October and continue for 16 consecutive days.			
(B)	Antlerless		2 [0-4]		
		The Antlerless season shall open on the third Saturday in October and continue for 16 consecutive days.			
(2)(A)	La Panza Period 1	6 [0-12]	5 [0-10]		
		Shall open on the second Saturday in October and extend for 23 consecutive days			
(B)	Period 2	6 [0-12]	6 [0-12]		
		Shall open on the second Saturday in November and extend for 23 consecutive days.			
(3)(A)	Bishop Period 3	0 [0-10]	0 [0-30]		
		Shall open on the third Saturday in October and extend for 9 consecutive days.			
(B)	Period 4	0 [0-10]	0 [0-30]		
		Shall open on the first Saturday in November and extend for 9 consecutive days.			
(C)	Period 5	0 [0-10]	0 [0-30]		
		Shall open on the first Saturday in December and continue for 9 consecutive days.			
(4)(A)	Independence Period 2	4 [0-10]	4 [0-30]		
		Shall open on the first Saturday in October and extend for 9 consecutive days.			
(B)	Period 3	4 [0-10]	4 [0-30]		

		Shall open on the third Saturday in October and extend for 9 consecutive days.
--	--	--------------------------------------------------------------------------------

(C)	Period 4	\emptyset [0-10]	4 [0-30]		
		Shall open on the first Saturday in November and extend for 9 consecutive days.			
(D)	Period 5	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the first Saturday in December and continue for 9 consecutive days.			
(5)(A)	Lone Pine Period 2	4 [0-10]	4 [0-30]		
		Shall open on the first Saturday in October and extend for 9 consecutive days.			
(B)	Period 3	4 [0-10]	4 [0-30]		
		Shall open on the third Saturday in October and extend for 9 consecutive days.			
(C)	Period 4	\emptyset [0-10]	4 [0-30]		
		Shall open on the first Saturday in November and extend for 9 consecutive days.			
(D)	Period 5	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the first Saturday in December and continue for 9 consecutive days.			
(6)(A)	Tinemaha Period 2	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the first Saturday in October and extend for 9 consecutive days.			
(B)	Period 3	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the third Saturday in October and extend for 9 consecutive days.			
(C)	Period 4	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the first Saturday in November and extend for 9 consecutive days.			
(D)	Period 5	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the first Saturday in December and continue for 9 consecutive days.			
(7)(A)	West Tinemaha Period 1	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the second Saturday in September and extend for 16 consecutive days.			

(B)	Period 2	θ [0-10]	θ [0-30]		
		Shall open on the first Saturday in October and extend for 9 consecutive days.			
(C)	Period 3	θ [0-10]	θ [0-30]		
		Shall open on the third Saturday in October and extend for 9 consecutive days.			
(D)	Period 4	θ [0-10]	θ [0-30]		
		Shall open on the first Saturday in November and extend for 9 consecutive days.

		Shall open on the third Saturday in October and extend for 9 consecutive days			
(D)	Period 4	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the first Saturday in November and extend for 9 consecutive days.			
(E)	Period 5	\emptyset [0-10]	\emptyset [0-30]		
		Shall open on the first Saturday in December and continue for 9 consecutive days.			
(11)(A)	Grizzly Island Period 1	\emptyset [0-3]	6 [0-12]		\emptyset [0-6]
		Shall open on the second Tuesday after the first Saturday in August and continue for 4 consecutive days.			
(B)	Period 2	\emptyset [0-3]	2 [0-12]		-4 [0-6]
		Shall open on the first Thursday following the opening of period one and continue for 4 consecutive days.			
(C)	Period 3	\emptyset [0-3]	6 [0-12]		\emptyset [0-6]
		Shall open on the first Tuesday following the opening of period two and continue for 4 consecutive days			
(D)	Period 4	\emptyset [0-3]	-4 [0-12]		2 [0-6]
		Shall open on the first Thursday following the opening of period three and continue for 4 consecutive days.			

(E)	Period 5	0 [0-3]	8 [0-12]		0 [0-6]
		Shall open on the first Tuesday following the opening of period four and continue for 4 consecutive days			
(F)	Period 6	0 [0-3]	0 [0-12]		0 [0-6]
		Shall open on the first Thursday following the opening of period five and continue for 4 consecutive days.			
(G)	Period 7	0 [0-3]	8 [0-12]		0 [0-6]
		Shall open on the first Tuesday following the opening of period six and continue for 4 consecutive days			
(H)	Period 8	0 [0-3]	0 [0-12]		6 [0-6]
		Shall open on the first Thursday following the opening of period seven and continue for 4 consecutive days.			
(I)	Period 9	0 [0-3]	8 [0-12]		0 [0-6]
		Shall open on the first Tuesday following the opening of period eight and continue for 4 consecutive days.			
(J)	Period 10	0 [0-3]	0 [0-12]		0 [0-6]
		Shall open on the first Thursday following the opening of period nine and continue for 4 consecutive days.			
(K)	Period 11	0 [0-3]	8 [0-12]		0 [0-6]
		Shall open on the first Tuesday following the opening of period ten and continue for 4 consecutive days.			
(L)	Period 12	3 [0-3]			0 [0-6]
		Shall open on the first Thursday following the opening of period eleven and continue for 4 consecutive days.			
(M)	Period 13	0 [0-3]	8 [0-12]		0 [0-6]
		Shall open on the first Tuesday following the opening of period twelve and continue for 4 consecutive days.			
(12)(A)	Fort Hunter Liggett General Public Period 1	0	0 [0-16]		
		Shall open on the first Thursday in November and continue for 9 consecutive days.			
(B)	Period 2	0	0 [0-16]		

		Shall open November 22- <u>25</u> and continue for 9 consecutive days.
--	--	------------------------------------------------------------------------

(C)	Period 3	0 [0-14]	0		
		Shall open on the third Saturday <u>fourth Tuesday</u> in December and continue for 12-13 consecutive days.			
(13)(A)	East Park Reservoir	2 [0-4]	2 [0-8]		
		Shall open the first Saturday in September and continue for 27 consecutive days.			
(14)(A)	San Luis Reservoir	0 [0-10]	0 [0-10]	5 [0-10]	
		Shall open on the first Saturday in October and continue for 23 consecutive days.			
(15)(A)	Bear Valley	2 [0-4]	4 [0-2]		
		Shall open on the second Saturday in October and continue for 9 consecutive days.			
(16)(A)	Lake Pillsbury Period 1		-4 [0-4]		
		Shall open on the Wednesday preceding the second Saturday in September and continue for 10 consecutive days.			
(B)	Period 2	2 [0-4]			
		Shall open Monday following the fourth Saturday in September and continue for 10 consecutive days.			
(17)(A)	Santa Clara	0 [0-4]	0		
		Shall open on the second Saturday in October and continue for 16 consecutive days.			
(18)(A)	Alameda	0 [0-4]	0		
		Shall open on the second Saturday in October and continue for 16 consecutive days.			
(v) Department Administered Apprentice Hunts					
(1)(A)	Marble Mountain			-4 [0-4]	
	General Methods Roosevelt Elk Apprentice	Shall open on the Wednesday preceding the second Saturday in September and continue for 12 consecutive days.			

(2)(A)	Northeast California			2 [0-4]	
	General Methods Rocky Mountain Elk Apprentice	Shall open on the Wednesday preceding the third Saturday in September and continue for 12 consecutive days			
(3)(A)	Cache Creek	4 [0-2]	0 [0-2]		
	General Methods Tule Elk Apprentice	Shall open on the second Saturday in October and continue for 16 consecutive days.			
(4)(A)	La Panza	0 [0-2]	4 [0-2]		
	General Methods Tule Elk Apprentice	Shall open on the second Saturday in October and extend for 23 consecutive days.			
(5)(A)	Bishop	0 [0-10]	0 [0-30]		
	General Methods Tule Elk Apprentice Period 2	Shall open on the first Saturday in October and extend for 9 consecutive days.			
(6)(A)	Grizzly Island		3 [0-4]		0 [0-4]
	General Methods Tule Elk Apprentice Period 1	Shall open on the second Tuesday after the first Saturday in August and continue for 4 consecutive days			
(B)	Period 2		0 [0-4]		2 [0-4]
		Shall open on the first Thursday following the opening of period one and continue for 4 consecutive days.			
(C)	Period 3		3 [0-4]		0 [0-4]
		Shall open on the first Tuesday following the opening of period two and continue for 4 consecutive days.			

(D)	Period 4		0 [0-4]		2 [0-4]
		Shall open on the first Thursday following the opening of period three and continue for 4 consecutive days.			
(7)(A)	Fort Hunter Liggett	0 [0-2]	0 [0-8]		
	General Public General Methods Apprentice	Shall open on the third Saturday <u>fourth Tuesday</u> in December and continue for 12 <u>13</u> consecutive days.			
(w) Department Administered Archery Only Hunts					
(1)(A)	Northeast California Archery Only	0	0	10 [0-20]	
		Shall open on the Wednesday preceding the first Saturday in September and continue for 12 consecutive days.			
(2)(A)	Owens Valley Multiple Zone Archery Only	3 [0-10]	0 [0-5]		
		Shall open on the second Saturday in August and extend for 9 consecutive days.			
(3)(A)	Lone Pine Archery Only Period 1	0 [0-10]	1 [0-30]		
		Shall open on the second Saturday in September and extend for 16 consecutive days.			
(4)(A)	Tinemaha Archery Only Period 1	0 [0-10]	0 [0-30]		
		Shall open on the second Saturday in September and extend for 16 consecutive days.			
(5)(A)	Whitney Archery Only Period 1	0 [0-10]	0 [0-30]		
		Shall open on the second Saturday in September and extend for 16 consecutive days.			
(6)(A)	Fort Hunter Liggett			3 [0-10]	
	General Public Archery Only Either Sex	Shall open on the last Saturday in July and continue for 9 consecutive days.			
(B)	Fort Hunter Liggett		-4 [0-10]		

	General Public Archery Only Antlerless	Shall open on the Second <u>First</u> Saturday in November and continue for 9 consecutive days.			
(x) Department Administered Muzzleloader Only Tule Elk Hunts					
(1)(A)	Bishop Muzzleloader Only Period 1	0 <u>[0-10]</u>	0 <u>[0-30]</u>		
	Shall open on the second Saturday in September and extend for 16 consecutive days.				
(2)(A)	Independence Muzzleloader Only Period 1	4 <u>[0-10]</u>	0 <u>[0-10]</u>		
	Shall open on the second Saturday in September and extend for 16 consecutive days.				
(3)(A)	Goodale Muzzleloader Only Period 1	0 <u>[0-10]</u>	4 <u>[0-10]</u>		
	Shall open on the second Saturday in September and extend for 16 consecutive days.				
(4)(A)	Fort Hunter Liggett General Public Muzzleloader Only	-4 <u>[0-10]</u>	0 <u>[0-10]</u>		
	Shall open on the fourth Saturday in November and continue for 9 consecutive days.				
(y) Department Administered Muzzleloader/Archery Only Hunts					
(1)(A)	Marble Mountain Muzzleloader/Archery Roosevelt Elk			40 <u>[0-20]</u>	
	Shall open on the last Saturday in October and extend for 9 consecutive days.				
(z) Fund Raising Elk tags					
		1			

(1)(A)	Multi-zone Fund Raising Tags	Siskiyou and Marble Mountains Roosevelt Elk Season shall open on the Wednesday preceding the first Saturday in September and continue for 19 consecutive days. Northwestern Roosevelt Elk Season shall open on the last Wednesday in August and continue for 30 consecutive days. Northeastern Rocky Mountain Elk Season shall open on the Wednesday preceding the last Saturday in August and continue for 33 consecutive days. La Panza Tule Elk Season shall open on the first Saturday in October and extend for 65 consecutive days.			
(2)(A)	Grizzly Island Fund Raising Tags	1			
		Shall open on the first Saturday in August and continue for 30 consecutive days.			
(3)(A)	Owens Valley Fund Raising Tags	1			
		Shall open on the last Saturday in July and extend for 30 consecutive days.			
(aa) Military Only Tule Elk Hunts					
(1)(A)	Fort Hunter Liggett Military Only General Methods Early Season	0 [0-2]	0 [0-2]		
		The early season shall open on the second Monday in August and continue for 5 consecutive days and reopen on the fourth Monday in August and continue for 5 consecutive days			
(B)	Period 1		0 [0-16]		
		Shall open on the first Thursday in November and continue for 9 consecutive days.			
(C)	Period 2		0 [0-14]		
		Shall open November 22 and continue for 9 consecutive days.			
(D)	Period 3	0 [0-16]			
		Shall open on the third Saturday in December and continue for 12 consecutive days.			
(2)(A)		0 [0-2]	0 [0-8]		

	Fort Hunter Liggett Military Only General Methods Apprentice	Shall open on the third Saturday in December and continue for 12 consecutive days.			
(3)(A)	Fort Hunter Liggett Military Only			3 [0-6]	
	Archery Only Either sex	Shall open on the last Saturday in July and continue for 9 consecutive days.			
(B)	Antlerless		4 [0-10]		
		Shall open on the Second Saturday in November and continue for 9 consecutive days.			
(4)(A)	Fort Hunter Liggett Military Only	4 [0-6]			
	Muzzleloader Only	Shall open on the third Saturday in November and continue for 9 consecutive days.

DRAFT

State of California
Fish and Game Commission
Initial Statement of Reasons for Regulatory Action

Amend Section 364.1
Title 14, California Code of Regulations
Re: SHARE Elk Hunts

I. Date of Initial Statement of Reasons: November 13, 2019

II. Dates and Locations of Scheduled Hearings

(a) Notice Hearing	Date:	December 11, 2019
	Location:	Sacramento, CA
(b) Discussion Hearing	Date:	February 6, 2020
	Location:	Sacramento, CA
(c) Adoption Hearing	Date:	April 16, 2020
	Location:	Sacramento, CA

III. Description of Regulatory Action

(a) Statement of Specific Purpose of Regulatory Change and Factual Basis for Determining that Regulation Change is Reasonably Necessary:

The Fish and Game Commission (Commission) periodically considers the recommendations of the Department of Fish and Wildlife (Department) in establishing elk regulations. Section 364.1 identifies hunting zones, season opening and closing dates, and tag quotas for SHARE Elk Hunts.

In order to maintain appropriate harvest levels and hunting quality it is necessary to periodically adjust tag quotas (total number of hunting tags to be made available) in response to dynamic environmental and biological conditions. Current regulations in Section 364.1 specify elk license tag quotas for each hunt zone in accordance with management goals and objectives.

1. Number of Tags

Proposed amendments to Section 364.1 will establish new tag quotas to adjust for periodic fluctuations in elk populations. The proposed tag quotas are presented within ranges shown in brackets, e.g. [0-4], in the tables of the amended Regulatory Text (subsections 364.1(i) through (l)) attached to this Initial Statement of Reasons. The ranges allow the final number of tags to be determined based on the analysis of survey and harvest data from the 2019-20 hunt season. These results are anticipated in the spring of 2020 and a final analysis will support the Department's recommendation for the number of tags to be allocated to each hunt prior to the Commission's adoption hearing in April 2020.

The Shared Habitat Alliance for Recreational Enhancement (SHARE) Program private property elk hunts correspond with elk hunt zones identified in Section 364. These regulations authorize

SHARE elk hunts with separate seasons and tag quotas. The SHARE program will issue tags under the Department's existing tag distribution procedures.

(b) Goals and Benefits of the Regulation:

The proposed regulations will contribute to the sustainable management of elk populations and to relieve depredation damage to landowners in California. The final values for the license tag numbers will be based upon findings from annual harvest and herd composition counts where appropriate.

(c) Authority and Reference:

Authority: Sections 332 and 1050, Fish and Game Code.

Reference: Sections 332, 1050 and 1574, Fish and Game Code.

(d) Specific Technology or Equipment Required by Regulatory Change: None.

(e) Identification of Reports or Documents Supporting Regulation Change: None

(f) Public Discussions of Proposed Regulations Prior to Notice Publication:

Fish and Game Commission's Wildlife Resources Committee meetings held on May 16, 2019 in Sacramento and on September 10, 2019 in Santa Rosa.

IV. Description of Reasonable Alternatives to Regulatory Action

(a) Alternatives to Regulation Change:

No alternatives were identified

(b) No Change Alternative:

The no-change alternative was considered and rejected because it would not attain the project objectives. Elk hunts and opportunity must be adjusted periodically in response to a variety of environmental and biological conditions including forage availability, population structure, and over-winter survival rates. Elk populations have increased, and landowner conflicts have also escalated in several areas. Adjusting tag quotas provides for appropriate harvest levels within the hunt zones.

V. Mitigation Measures Required by Regulatory Action

The proposed regulatory action will have no negative impact on the environment; therefore, no mitigation measures are needed. The maximum number of tags available in the proposed range is at or below the number of tags analyzed in the 2010 Environmental Document, and its 2019 Final Supplemental Environmental Document regarding elk hunting.

VI. Impact of Regulatory Action

This proposed action adjusts tag quotas in an effort to meet management goals and provide hunting opportunities for the public. Given the number of tags available, and the area over which they are distributed, this proposal is economically neutral to business.

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission anticipates no to minor positive impacts on the creation or elimination of jobs within the state, and no impact on the creation of new business, the elimination of existing businesses or the expansion of businesses in California as minor variations in hunting regulations are, by themselves, unlikely to provide a substantial enough economic stimulus to the state. The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family activities and promotes respect for California's environment by the future stewards of the State's resources. The proposed action will not provide benefits to worker safety. The Commission anticipates benefits to the State's environment in the sustainable management of natural resources.

- (c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with this proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.

- (e) Nondiscretionary Costs/Savings to Local Agencies: None.

- (f) Programs Mandated on Local Agencies or School Districts: None.

- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.

- (h) Effect on Housing Costs: None.

VII. Economic Impact Assessment

The proposed action will have no statewide economic or fiscal impact because the proposed action would not constitute a significant change from the 2019 elk season. The number of tags to be set in regulation for 2020 is intended to achieve or maintain the levels set forth in the approved management plans and environmental documents to sustainably manage elk populations and maintain hunting opportunities in subsequent seasons.

- (a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State:

Little to minor positive impacts on the creation of jobs within businesses that provide services to elk hunters may result from the adoption of the proposed SHARE elk hunting regulations for the 2020-21 season.

- (b) Effects of the Regulation on the Creation of New Businesses or the Elimination of Existing Businesses Within the State:

The proposed regulation is not anticipated to prompt the creation of new businesses or the elimination of existing businesses within the state. Minor variations in regulations pertaining to hunting are, by themselves, unlikely to stimulate the creation of new businesses or cause the

elimination of existing businesses. The number of hunting trips and the economic contributions from the trips are not expected to change substantially.

(c) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State:

The proposed SHARE elk tag quotas are, by themselves, unlikely to stimulate substantial expansion of businesses currently doing business in the state. The long-term intent of the proposed regulations is to sustainably manage elk populations, and consequently, the long-term viability of various businesses that serve recreational elk hunters.

(d) Benefits of the Regulation to the Health and Welfare of California Residents:

Hunting is an outdoor activity that can provide several health and welfare benefits to California residents. Hunters and their families benefit from fresh game to eat, and from the benefits of outdoor recreation, including exercise. People who hunt have a special connection with the outdoors and an awareness of the relationships between wildlife, habitat, and humans. With that awareness comes an understanding of the role humans play in being caretakers of the environment. Hunting is a tradition that is often passed from one generation to the next creating a special bond between family members and friends.

(e) Benefits of the Regulation to Worker Safety:

The proposed regulation will not affect worker safety.

(f) Benefits of the Regulation to the State's Environment:

As set forth in Fish and Game Code section 1800, it is the policy of the state to encourage the conservation, maintenance, and utilization of fish and wildlife resources for the benefit of all the citizens of the state. The objectives of this policy include, but are not limited to, the maintenance of sufficient populations of elk to ensure their continued existence and the maintenance of a sufficient resource to support recreational opportunity. Adoption of scientifically-based elk seasons and tag quotas provides for the maintenance of sufficient elk populations to ensure those objectives are met. The fees that hunters pay for licenses and tags fund wildlife conservation

(g) Other Benefits of the Regulation:

The SHARE Program provides incentives to private landowners to allow public access.

Informative Digest/Policy Statement Overview

Current regulations in Section 364.1, SHARE Elk Hunts, T14, CCR, specify elk tag quotas for each hunt area. In order to achieve elk herd management goals and objectives and maintain hunting quality, it is periodically necessary to adjust quotas in response to dynamic environmental and biological conditions.

Preliminary tag quota ranges are indicated pending final 2020 tag allocations in accordance with elk management goals and objectives. Survey data collected between August 2019, and March 2020, will be the basis for the final tag numbers recommended to the Commission at the April 2020 adoption hearing.

The preliminary tag quota ranges for 2020 are found in the attached proposed Regulatory Text of Section 364.1.

Benefits of the regulations:

The proposed regulations will contribute to the sustainable management of elk populations and to relieve depredation damage to landowners in California. The final values for the license tag numbers will be based upon findings from annual harvest and herd composition counts where appropriate.

Non-monetary benefits to the public:

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity and the increase in openness and transparency in business and government.

Evaluation of Incompatibility with existing regulations:

The Fish and Game Commission, pursuant to Fish and Game Code Sections 200 and 203, has the sole authority to regulate elk hunting in California. Commission staff has searched the California Code of Regulations and has found the proposed changes pertaining to elk tag allocations are consistent with Title 14. Therefore, the Commission has determined that the proposed amendments are neither inconsistent nor incompatible with existing State regulations.

Proposed Regulatory Language

Section 364.1, Title 14, CCR is amended to read:

§ 364.1. Department Administered Shared Habitat Alliance for Recreational Enhancement (SHARE) Elk Hunts.

. . . [No changes subsections (a) through (h)]

State of California
Department of Fish and Wildlife

Memorandum

Date: November 13, 2019

To: Melissa Miller-Henson
Executive Director
Fish and Game Commission

From: Charlton H. Bonham
Director

Subject: **Submittal of Initial Statement of Reasons to Amend Sections 502 and 507, Title 14, California Code of Regulations (CCR), Waterfowl, Migratory, American Coot and Common Moorhen**

The Department of Fish and Wildlife (Department) requests that the Fish and Game Commission (Commission) authorize publishing notice of its intent to amend sections 502 and 507 Title 14, CCR. The Department is proposing seven changes to the existing waterfowl regulations for the 2020-21 season:

1. Open the duck season on the fourth Saturday of October and close January 31 in subsection 502(d)(2)(B) for the Southern San Joaquin Valley Zone, in subsection 502(d)(3)(B) for the Southern California Zone, and in subsection 502(d)(5)(B) for the Balance of State Zone;
2. Open the duck season on the second Saturday in October and close January 20 in subsection 502(d)(1)(B) for the Northeastern Zone;
3. Open the regular goose season on the fourth Saturday in October and close January 31 in subsection 502(d)(2)(B) for the Southern San Joaquin Valley Zone and in subsection 502(d)(3)(B) for the Southern California Zone;
4. Open the Late Season for geese on the weekend after the Youth Hunt Days in subsection 502(d)(5)(B) for the Balance of State Zone and in subsection 502(d)(6)(A)9 for the Imperial County Special Management Area. If item 5 is enacted, the Late Season for geese would occur after the Veterans and Active Military Personnel Waterfowl Hunting Days;
5. Create a new subsection 502(f) to designate two days as Veterans and Active Military Personnel Waterfowl Hunting Days for the Northeastern, Southern San Joaquin Valley, Southern California, Colorado River and Balance of State zones;
6. Allow up to five days of falconry-only season in new subsections 502(g)(1)(B)2 for the Balance of State Zone, 502(g)(1)(B)3 for the Southern San Joaquin Valley Zone, and 502(g)(1)(B)4 for the Southern California Zone;
7. Delete reference to "No. BB in lead" in subsection 507(a)(4).

Melissa Miller-Henson, Executive Director
Fish and Game Commission
November 13, 2019
Page 2

The 2020 draft Environmental Document for Migratory Game Bird Hunting is under development and will be provided to the Commission prior to the discussion hearing.

If you have any questions regarding this item, please contact Kari Lewis, Wildlife Branch Chief, at (916) 445-3789. The public notice for this rulemaking should identify Senior Environmental Scientist, Melanie Weaver as the Department's point of contact. She can be reached at (916) 445-3717 or via email at Melanie.Weaver@wildlife.ca.gov.

| <input type="checkbox"/> d. Impacts California competitiveness | <input checked="" type="checkbox"/> h. None of the above (Explain below): |

The proposed waterfowl regulations do not impact private sector costs.***If any box in Items 1 a through g is checked, complete this Economic Impact Statement.******If box in Item 1.h. is checked, complete the Fiscal Impact Statement as appropriate.***2. The _____ estimates that the economic impact of this regulation (which includes the fiscal impact) is:
(Agency/Department)

- ☐ Below \$10 million
- ☐ Between \$10 and \$25 million
- ☐ Between \$25 and \$50 million
- ☐ Over \$50 million *[If the economic impact is over \$50 million, agencies are required to submit a [Standardized Regulatory Impact Assessment](#) as specified in Government Code Section 11346.3(c)]*

3. Enter the total number of businesses impacted: _____

Describe the types of businesses (Include nonprofits): _____

Enter the number or percentage of total
businesses impacted that are small businesses: _____

4. Enter the number of businesses that will be created: _____ eliminated: _____

Explain: _____

5. Indicate the geographic extent of impacts: ☐ Statewide
☐ Local or regional (List areas): _____

6. Enter the number of jobs created: _____ and eliminated: _____

Describe the types of jobs or occupations impacted: _____

7. Will the regulation affect the ability of California businesses to compete with
other states by making it more costly to produce goods or services here? ☐ YES ☐ NO

If YES, explain briefly: _____

**ECONOMIC AND FISCAL IMPACT STATEMENT
(REGULATIONS AND ORDERS)**

STD. 399 (REV. 12/2013)

ECONOMIC IMPACT STATEMENT (CONTINUED)**B. ESTIMATED COSTS** *Include calculations and assumptions in the rulemaking record.*

1. What are the total statewide dollar costs that businesses and individuals may incur to comply with this regulation over its lifetime? \$ _____
 - a. Initial costs for a small business: \$ _____ Annual ongoing costs: \$ _____ Years: _____
 - b. Initial costs for a typical business: \$ _____ Annual ongoing costs: \$ _____ Years: _____
 - c. Initial costs for an individual: \$ _____ Annual ongoing costs: \$ _____ Years: _____
 - d. Describe other economic costs that may occur: _____

2. If multiple industries are impacted, enter the share of total costs for each industry: _____

3. If the regulation imposes reporting requirements, enter the annual costs a typical business may incur to comply with these requirements.
Include the dollar costs to do programming, record keeping, reporting, and other paperwork, whether or not the paperwork must be submitted. \$ _____
4. Will this regulation directly impact housing costs? ☐ YES ☐ NO
If YES, enter the annual dollar cost per housing unit: \$ _____
Number of units: _____
5. Are there comparable Federal regulations? ☐ YES ☐ NO
Explain the need for State regulation given the existence or absence of Federal regulations: _____

Enter any additional costs to businesses and/or individuals that may be due to State - Federal differences: \$ _____

C. ESTIMATED BENEFITS *Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.*

1. Briefly summarize the benefits of the regulation, which may include among others, the health and welfare of California residents, worker safety and the State's environment: _____

2. Are the benefits the result of: ☐ specific statutory requirements, or ☐ goals developed by the agency based on broad statutory authority?
Explain: _____
3. What are the total statewide benefits from this regulation over its lifetime? \$ _____
4. Briefly describe any expansion of businesses currently doing business within the State of California that would result from this regulation: _____

D. ALTERNATIVES TO THE REGULATION *Include calculations and assumptions in the rulemaking record. Estimation of the dollar value of benefits is not specifically required by rulemaking law, but encouraged.*

1. List alternatives considered and describe them below. If no alternatives were considered, explain why not: _____

**ECONOMIC AND FISCAL IMPACT STATEMENT
(REGULATIONS AND ORDERS)**

STD. 399 (REV. 12/2013)

State of California
Fish and Game Commission
Initial Statement of Reasons for Regulatory Action

Amend Sections 502 and 507
Title 14, California Code of Regulations
Re: Waterfowl, Migratory; American Coot and Common Moorhen (Common Gallinule)

I. Date of Initial Statement of Reasons: November 13, 2019

II. Dates and Locations of Scheduled Hearings

- | | |
|------------------------|-----------------------------------------------------|
| (a) Notice Hearing | Date: December 11, 2019
Location: Sacramento, CA |
| (b) Discussion Hearing | Date: February 6, 2020
Location: Sacramento, CA |
| (c) Adoption Hearing | Date: April 16, 2020
Location: Sacramento, CA |

III. Description of Regulatory Action

- (a) Statement of Specific Purpose of Regulatory Change and Factual Basis for Determining that Regulation Change is Reasonably Necessary:

The U.S. Fish and Wildlife Service (Service) annually establishes federal regulation frameworks (Frameworks) for migratory bird hunting. California must set its waterfowl hunting regulations within the Frameworks. The Frameworks describe the earliest dates that waterfowl hunting seasons may open, the maximum number of days hunting can occur, the latest dates that hunting seasons must close, and the maximum daily bag limit. The proposed hunting season Frameworks for a given year are developed in the fall of the prior year for a majority of species and populations. For example, the breeding populations (including the California Breeding Population Survey) and habitat conditions observed in 2019 and the regulatory alternatives selected for the 2019 hunting season will be used to develop the Frameworks for the 2020-21 season.

States may make recommendations to change the Frameworks. These recommendations are made to flyway councils in August or September. The councils may elect to forward recommendations to the Service. The Service may elect to incorporate proposed changes in the Frameworks. The Service considers these and other recommendations at the Service's Regulation Committee public meeting held in late October. Proposed season Frameworks are typically published in the Federal Register by mid-December and final Frameworks published by late February.

Section 355 of the Fish and Game Code authorizes the Fish and Game Commission (Commission) to adopt annual regulations pertaining to the hunting of migratory birds that conform with, or further restrict, the regulations prescribed by the Service pursuant to its

authority under the Migratory Bird Treaty Act. The Commission selects and establishes in State regulations the specific hunting season dates and daily bag limits within the Frameworks.

Current regulations in Section 502, Title 14, California Code of Regulations (CCR), provide definitions, hunting zone descriptions, season opening and closing dates, and daily bag and possession limits. The proposed Frameworks for the 2020-21 season were approved by the flyway councils and were considered for adoption at the Service's Regulations Committee meeting October 8-9, 2019. The proposed Frameworks allow for a liberal duck season which includes: a 107-day season; 7 daily duck limit including 7 mallards but only 2 hen mallards, 1 pintail, 2 canvasback, 2 redheads, and 2 scaup (during an 86 day season; daily bag limit decrease from 3 to 2); and closing no later than January 31. Duck daily bag limit ranges and duck season length ranges are provided to allow the Commission flexibility.

A range of season length and bag limit (zero bag limit represents a closed season) are also provided for black brant. The range is necessary, as the black brant Framework cannot be determined until the Pacific Flyway Winter Brant Survey is conducted in January 2020. The regulatory package is determined by the most current Winter Brant Survey, rather than the prior year survey. The regulatory package will be prescribed per the Black Brant Harvest Strategy pending results of the survey, well before the Commission's adoption meeting. See the table in the Informative Digest for the range of season and bag limits. Lastly, Federal regulations require that California's hunting regulations conform to those of Arizona in the Colorado River Zone and those of Oregon in the North Coast Special Management Area.

The Department recommended changes to Section 502 are:

- 1) Open the duck season on the second Saturday in October and close January 20 in subsection 502(d)(1)(B) for the Northeastern Zone. This recommendation reduces the duck season length to 103 days.

The existing duck season length in this zone is 105 days and closes on a Friday. The Northeastern Zone is considered a staging area and the habitat becomes unavailable to waterfowl by late fall, typically, so the season opens sooner than the rest of the zones. The Friday closure was allowed because the Youth Hunt Days occur before the season to allow youth hunters opportunity commensurate with waterfowl occurrence and to provide as many days to hunters as possible in this zone because of habitat conditions. Two days need to be removed to allow for the Veterans and Active Military Personnel Day recommendation, see item 5 below.

- 2) Open the duck season on the fourth Saturday of October and close January 31 in subsection 502(d)(2)(B) for the Southern San Joaquin Valley Zone, in subsection 502(d)(3)(B) for the Southern California Zone, and in subsection 502(d)(5)(B) for the Balance of State Zone. This recommendation reduces the duck season length to 100 days.

The existing duck season length for the referenced zones is 105 days. In the prior year rulemaking, the Commission adopted a later season closing date of January 31 in these zones because Frameworks were changed to allow a later closing date. Historically, the latest closing date in the Frameworks was the last Sunday in January. Closing on January 31 and maintaining a traditional opening Saturday in later October results in an

annual adjustment to the season length; from 105 to 100 days for the upcoming season. This annual adjustment also results in modifications to the regular and Late Goose seasons, Youth Hunt Days and Falconry seasons, see below.

- 3) Open the regular goose season on the fourth Saturday in October and close January 31 in subsection 502(d)(2)(B) for the Southern San Joaquin Valley Zone and in subsection 502(d)(3)(B) for the Southern California Zone. This recommendation reduces the season length to 100 days.

The existing goose season length for the referenced zones is 105 days. See item 1 above for the justification. This annual adjustment also results in modifications to Late Goose, Youth Hunt Days and Falconry seasons.

- 4) Open the Late Season for geese on the weekend after the Youth Hunt Days in subsection 502(5)(B) for the Balance of State Zone and in subsection 502(d)(6)(A)9 for the Imperial County Special Management Area. If item 5 (below) is enacted, the Late Season for geese would occur after the Veterans and Active Military Personnel Waterfowl Hunting Days.

The existing regulation opens the Late Season for geese on the same weekend as the Youth Hunt Days in these referenced areas. The proposed change is intended to allow greater flexibility for those wanting to participate in the Youth Hunt Days and or the Late Seasons for geese.

- 5) Designate two days as Veterans and Active Military Personnel Waterfowl Hunting Days (VAMP Days hereafter) for the Northeastern, Southern San Joaquin Valley, Southern California, and Balance of State zones. This recommendation creates a new subsection, 502(f)(1)(A)(B)(C)1-4 and renumbering will occur for the subsequent section (Falconry Take of Ducks subsection becomes 502(g)(1)).

Federal legislation was passed to allow up to two days designated as VAMP Days if states choose. These days may coincide with the Youth Hunt Days or held separately and must occur with 14 days of the regular duck season opening and closing dates. VAMP Days can be held on weekdays, unlike the Youth Hunt Days. Both the Youth Hunt and VAMP Days can be held concurrently with Late Goose seasons. The Department is recommending creating two VAMP Days to occur after the Youth Hunt Days in all zones except the Northeastern Zone where the VAMP Days will occur on the weekend after the close of the general waterfowl season; the Youth Hunt Days in this zone occur prior to the opening of the season. Allowable species include Ducks, American Coots, Common Moorhens, and Geese for the Southern San Joaquin Valley, Southern California, and Colorado River zones because not all 107 days (per Frameworks) will be used as recommended. However, in the Northeastern and Balance of State zones all 107 days for geese have been used as recommended in the Regular and Late Seasons to address crop depredation complaints. Persons participating in this special hunt must possess and present upon demand verification of eligibility to participate in this hunt. Verification for veterans includes: A Veterans Affairs issued Veterans ID Card; or State issued driver's license or Identification Card with Veteran Designation. Active Duty and Retired must present a current Military Identification Card. Veterans can apply for a Veteran ID card at: <https://www.va.gov/records/get-veteran-id-cards/vic/>.

- 6) Allow up to five days of falconry-only season in subsection 502(g)(1)(B)2 for the Balance of State Zone, in subsection 502(g)(1)(B)3 for the Southern San Joaquin Valley Zone and in subsection 502(g)(1)(B)4 for the Southern California Zone.

The existing regulation uses all available days for Duck, Goose, and Youth Hunt Day seasons in these zones. The recommended opening and closing days (Items 1-3) do not use all allotted days for ducks or geese, depending on the zone. The length of the falconry-only season is contingent upon enactment and placement of the VAMP Days.

Current regulations in Section 507(a)(4), Title 14, CCR, describe the shotgun size and shot shell type authorized for the taking of migratory game birds.

The Department is recommending deleting the reference to lead and No BB:

- 1) Shotgun shells may not be used or possessed that contain shot size larger than ~~No BB in lead~~ or T shot in steel or other nontoxic shot approved by the U.S. Fish and Wildlife Service. All shot shall be loose in the shell.

This section is being corrected to comply with legislation in effect regarding the use of non-lead ammunition when taking any wildlife with a firearm in California and improve clarity of the regulation.

(b) Goals and Benefits of the Regulation

The goals and benefits of the regulations are to provide for the conservation and maintenance of sufficient waterfowl populations to ensure their continued existence.

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity and the increase in openness and transparency in business and government.

(c) Authority and Reference

Authority: Section(s) 265 and 355, Fish and Game Code

Reference: Section(s) 265, 355, and 356, Fish and Game Code

(d) Specific Technology or Equipment Required by Regulatory Change: None.

(e) Identification of Reports or Documents Supporting Regulation Change: None.

(f) Public Discussions of Proposed Regulations Prior to Notice Publication

This proposal was discussed at the Commission's Wildlife Resources Committee meeting held on September 10, 2019 and a public scoping session will be held in late October or early November 2019.

IV. Description of Reasonable Alternatives to Regulatory Action

(a) Alternatives to Regulation Change

No other alternatives were identified.

(b) No Change Alternative

- 1) The No Change Alternative would not open the duck season on the second Saturday in October and close January 20 in the Northeastern Zone.
- 2) The No Change Alternative would not open duck season on the fourth Saturday of October and close January 31 in the Southern San Joaquin Valley, Southern California, and Balance of State zones.
- 3) The No Change Alternative would not open the regular goose season on the fourth Saturday in October and close January 31 for the Southern San Joaquin Valley and Southern California zones.
- 4) The No Change Alternative would not open the Late Season for geese on the weekend after the Youth Hunt Days in the Balance of State Zone and the Imperial County Special Management Area; or after the Veterans and Active Military Personnel Waterfowl Hunting Days, if enacted.
- 5) The No Change Alternative would not designate two days as Veterans and Active Military Personnel Waterfowl Hunting Days.
- 6) The No Change Alternative would not allow up to five days of falconry-only season in the Balance of State, Southern San Joaquin Valley and the Southern California zones.
- 7) The No Change Alternative would not delete the reference to No. BB in lead.

V. Mitigation Measures Required by Regulatory Action

The proposed regulatory action will have no negative impact on the environment; therefore, no mitigation measures are needed.

VI. Impact of Regulatory Action

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

The proposed regulations would provide additional recreational opportunity to the public and could result in minor increases in hunting days and hunter spending on equipment, fuel, food and accommodations.

(b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new business, the elimination of existing businesses, or the expansion of businesses in California. The proposed waterfowl regulations will set the 2020-21 waterfowl hunting season dates and bag limits within the federal Frameworks. Little to minor positive impacts to jobs and/or businesses that provide services to waterfowl hunters may result from the proposed regulations for the 2020-21 waterfowl hunting season.

The most recent U.S. Fish and Wildlife national survey of fishing, hunting, and wildlife-associated recreation for California, estimated that migratory bird hunters contributed about \$169,115,000 to businesses in California during the 2011 migratory bird hunting season. The impacted businesses are generally small businesses employing a few individuals and, like all small businesses, are subject to failure for a variety of causes. Additionally, the long-term intent of the proposed regulations is to sustainably manage waterfowl populations, and consequently, the long-term viability of the same small businesses.

(c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

(d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.

(e) Nondiscretionary Costs/Savings to Local Agencies: None.

(f) Programs Mandated on Local Agencies or School Districts: None.

(g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.

(h) Effect on Housing Costs: None.

VII. Economic Impact Assessment

(a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State:

Little to minor positive impacts on the creation of jobs within businesses that provide services to waterfowl hunters may result from the adoption of the proposed waterfowl hunting regulations for the 2020-21 season. The most recent U.S. Fish and Wildlife national survey of fishing, hunting, and wildlife-associated recreation for California, estimated that waterfowl hunters contributed about \$169,115,000 to small businesses in California during the 2011 waterfowl hunting season. The impacted businesses are generally small businesses employing few individuals and, like all small businesses, are subject to failure for a variety of causes. Additionally, the long-term intent of the proposed regulations is to sustainably manage waterfowl populations, and consequently, the long-term viability of the same small businesses. The 2011 report is posted on the U.S. Department of Commerce website https://wsfrprograms.fws.gov/Subpages/NationalSurvey/2011_Survey.htm.

(b) Effects of the Regulation on the Creation of New Businesses or the Elimination of Existing Businesses Within the State:

The proposed regulation is not anticipated to prompt the creation of new businesses or the elimination of existing businesses within the state. Minor variations in regulations pertaining to hunting are, by themselves, unlikely to stimulate the creation of new businesses or cause the elimination of existing businesses. The number of hunting trips and the economic contributions from the trips are not expected to change substantially.

(c) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State:

The proposed minor variations in waterfowl bag limits are, by themselves, unlikely to stimulate substantial expansion of businesses currently doing business in the state. The long-term intent of the proposed regulations is to sustainably manage waterfowl populations, and consequently, the long-term viability of various businesses that serve recreational waterfowl hunters.

(d) Benefits of the Regulation to the Health and Welfare of California Residents:

Hunting is an outdoor activity that can provide several health and welfare benefits to California residents. Hunters and their families benefit from fresh game to eat, and from the benefits of outdoor recreation, including exercise. People who hunt have a special connection with the outdoors and an awareness of the relationships between wildlife, habitat and humans. With that awareness comes an understanding of the role humans play in being caretakers of the environment. Hunting is a tradition that is often passed from one generation to the next, creating a special bond between family members and friends.

(e) Benefits of the Regulation to Worker Safety:

The regulations will not affect worker safety because they do not address working conditions.

(f) Benefits of the Regulation to the State's Environment:

As set forth in Fish and Game Code section 1801, it is the policy of the state to encourage the preservation, conservation, and maintenance of waterfowl resources for all citizens of the state. The objectives of this policy include, but are not limited to, maintenance of sufficient populations and their habitats, provide for beneficial use and enjoyment, to perpetuate the waterfowl resource for their intrinsic and ecological values, and to maintain diversified recreation use including sport hunting consistent with the status of this resource. Adoption of scientifically based waterfowl hunting regulations provides for the maintenance of sufficient waterfowl populations to ensure these objectives are met. Further, the fees that hunters pay for licenses and stamps fund wildlife conservation.

(g) Other Benefits of the Regulation:

Hunting seasons provide an incentive for private landowners to maintain waterfowl habitat, mainly wetlands, that benefit waterfowl and other wetland dependent wildlife.

Informative Digest/Policy Statement Overview

Current regulations in Section 502, Title 14, California Code of Regulations (CCR), provide definitions, hunting zone descriptions, season opening and closing dates, and daily bag and possession limits. The proposed Frameworks for the 2020-21 season were approved by the flyway councils and will be considered for adoption at the Service's Regulations Committee meeting October 8-9, 2019. The proposed Frameworks allow for a liberal duck season which includes: a 107-day season, 7 daily duck limit including 7 mallards but only 2 hen mallards, 1 pintail, 2 canvasback, 2 redheads, and 2 scaup (during an 86 day season; daily bag limit decrease from 3 to 2); and closing no later than January 31. Duck daily bag limit ranges and duck season length ranges are provided to allow the Commission flexibility.

A range of season length and bag limit (zero bag limit represents a closed season) is also provided for black brant. The range is necessary, as the black brant Framework cannot be determined until the Pacific Flyway Winter Brant Survey is conducted in January 2020. The regulatory package is determined by the most current Winter Brant Survey, rather than the prior year survey. The regulatory package will be prescribed per the Black Brant Harvest Strategy pending results of the survey, well before the Commission's adoption meeting. See the table in the Informative Digest for the range of season and bag limits. Lastly, Federal regulations require that California's hunting regulations conform to those of Arizona in the Colorado River Zone and those of Oregon in the North Coast Special Management Area.

The Department recommended changes to Section 502 are:

- 1) Open the duck season on the second Saturday in October and close January 20 in subsection 502(d)(1)(B) for the Northeastern Zone. This recommendation reduces the duck season length to 103 days.
- 2) Open the duck season on the fourth Saturday of October and close January 31 in subsection 502(d)(2)(B) for the Southern San Joaquin Valley Zone, in subsection 502(d)(3)(B) for the Southern California Zone, and in subsection 502(d)(5)(B) for the Balance of State Zone. This recommendation reduces the duck season length to 100 days.
- 3) Open the regular goose season on the fourth Saturday in October and close January 31 in subsection 502(d)(2)(B) for the Southern San Joaquin Valley Zone and in subsection 502(d)(3)(B) for the Southern California Zone. This recommendation reduces the season length to 100 days.
- 4) Open the Late Season for geese on the weekend after the Youth Hunt Days in subsection 502(5)(B) for the Balance of State Zone and in subsection 502(d)(6)(A)9 for the Imperial County Special Management Area. If item 5 (below) is enacted, the Late Season for geese would occur after the Veterans and Active Military Personnel Waterfowl Hunting Days.
- 5) Designate two days as Veterans and Active Military Personnel Waterfowl Hunting Days (VAMP Days hereafter) for the Northeastern, Southern San Joaquin Valley, Southern California, and Balance of State zones. This recommendation creates a new

subsection, 502(f)(1)(A)(B)(C)1-4 and renumbering will occur for the subsequent section (Falconry Take of Ducks subsection becomes 502(g)(1)).

- 6) Allow up to five days of falconry-only season in subsection 502(g)(1)(B)2. for the Balance of State Zone, in subsection 502(g)(1)(B)3. for the Southern San Joaquin Valley Zone and in subsection 502(g)(1)(B)4. for the Southern California Zone.

Current regulations in Section 507(a)(4), Title 14, CCR, describe the shotgun size and shot shell type authorized for the taking of migratory game birds.

The Department is recommending deleting the reference to lead and No BB:

- 1) ... Shotgun shells may not be used or possessed that contain shot size larger than ~~No-
BB in lead or~~ T shot in steel or other nontoxic shot approved by the U.S. Fish and Wildlife Service. All shot shall be loose in the shell.

Minor editorial changes are also proposed to clarify and simplify the regulations and to comply with existing federal Frameworks.

Benefits of the regulations

The benefits of the proposed regulations are consistency with federal law and the sustainable management of the State's waterfowl resources. Positive impacts to jobs and/or businesses that provide services to waterfowl hunters will be realized with the continued adoption of waterfowl hunting seasons in 2020-21.

Non-monetary benefits to the public

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity, and the increase in openness and transparency in business and government.

Evaluation of incompatibility with existing regulations

The Commission has reviewed its regulations in Title 14, CCR, and conducted a search of other regulations on this topic and has concluded that the proposed amendments to Sections 502 and 507 are neither inconsistent nor incompatible with existing State regulations. No other State agency has the authority to promulgate waterfowl hunting regulations.

Summary of Proposed Waterfowl Hunting Regulations for 2020-21			
AREA	SPECIES	SEASONS	DAILY BAG & POSSESSION LIMITS
Statewide	Coots & Moorhens	Concurrent w/duck season	25/day. 75 in possession
Northeastern Zone <i>Season may be split for Ducks, Pintail, Canvasback, Scaup, Dark Geese and White Geese. White geese and dark geese may be split 3-ways.</i>	Ducks	No longer than 105 days	[4-7]/day, which may include: [3-7] mallards no more than [1-2] females. 1 pintail, 2 canvasback, 2 redheads, 2 scaup. Possession limit triple the daily bag.
	Scaup	No longer than 86 days	
	Geese	No longer than 105 days except for Canada geese which cannot exceed 100 days or beyond Jan 17	30/day, which may include: 20 white geese, 10 dark geese, no more than 2 Large Canada geese. Possession limit triple the daily bag.
Southern San Joaquin Valley Zone <i>Season may be split for Ducks, Pintail, Canvasback and scaup</i>	Ducks	No longer than 105 days	[4-7]/day, which may include: [3-7] mallards no more than [1-2] females. 1 pintail, 2 canvasback, 2 redheads, 2 scaup. Possession limit triple the daily bag.
	Scaup	No longer than 86 days	
	Geese	No longer than 105 days	30/day, which may include: 20 white geese, 10 dark geese. Possession limit triple the daily bag.
Southern California Zone <i>Season may be split for Ducks, Pintail, Canvasback and Scaup</i>	Ducks	No longer than 105 days	[4-7]/day, which may include: [3-7] mallards no more than [1-2] females. 1 pintail, 2 canvasback, 2 redheads, 2 scaup. Possession limit triple the daily bag.
	Scaup	No longer than 86 days	
	Geese	No longer than 105 days	23/day, which may include: 20 white geese, 3 dark geese. Possession limit triple the daily bag.
Colorado River Zone <i>Season may be split for Ducks, Pintail, Canvasback and Scaup</i>	Ducks	No longer than 105 days	7/day, which may include: 7 mallards no more than 2 females or Mexican-like ducks. 1 pintail, 2 canvasback, 2 redheads, 2 scaup. Possession limit triple the daily bag.
	Scaup	No longer than 86 days	
	Geese	No longer than 105 days	24/day, up to 20 white geese, up to 4 dark geese. Possession limit triple the daily bag.
Balance of State Zone <i>Season may be split for Ducks, Pintail, Canvasback, Scaup and Dark and White Geese.</i>	Ducks	No longer than 105 days	[4-7]/day, which may include: [3-7] mallards no more than [1-2] females. 1 pintail, 2 canvasback, 2 redheads, 2 scaup. Possession limit triple the daily bag.
	Scaup	No longer than 86 days	
	Geese	Early Season: 5 days (Canada goose only) Regular Season: no longer than 100 days Late Season: 5 days (whitefronts and white geese)	30/day, which may include: 20 white geese, 10 dark geese. Possession limit triple the daily bag.

SPECIAL MANAGEMENT AREAS	SPECIES	SEASON	DAILY BAG & POSSESSION LIMITS
North Coast <i>Season may be split</i>	All Canada Geese	No longer than 105 days except for Large Canada geese which cannot exceed 100 days or extend beyond the last Sunday in Jan	10/day, only 1 may be a Large Canada goose. Possession limit triple the daily bag. Large Canada geese are closed during the Late Season.
Humboldt Bay South Spit (West Side)	All species	Closed during brant season	
Klamath Basin	Dark and white geese	105 days except for Canada geese which cannot exceed 100 days or extend beyond Janu 17	30/day, which may include: 20 white geese, 10 dark geese only 2 may be a Large Canada goose. Possession limit triple the daily bag.
Sacramento Valley	White-fronted geese	Open concurrently with general goose season through Dec 21	3/day. Possession limit triple the daily bag.
Morro Bay	All species	Open in designated areas only	Waterfowl season opens concurrently with brant season.
Martis Creek Lake	All species	Closed until Nov 16	
Northern Brant	Black Brant	No longer than 37 days and closing no later than Dec 14.	[0-2]/day. Possession limit triple the daily bag.
Balance of State Brant	Black Brant	No longer than 37 days and closing no later than Dec 15.	[0-2]/day. Possession limit triple the daily bag.
Imperial County <i>Season may be split</i>	White Geese	No longer than 105 days	20/day. Possession limit triple the daily bag.
YOUTH WATERFOWL HUNTING DAYS	(NOTE: To participate in these Youth Waterfowl Hunts, federal regulations require that hunters must be 17 years of age or younger and must be accompanied by a non-hunting adult 18 years of age or older.)		
	SPECIES	SEASON	DAILY BAG & POSSESSION LIMITS
Northeastern Zone	Same as regular season	The Saturday fourteen days before the opening of waterfowl season extending for 2 days.	Same as regular season
Southern San Joaquin Valley Zone	Same as regular season	The first Saturday in February extending for 2 days.	Same as regular season
Southern California Zone	Same as regular season	The first Saturday in February extending for 2 days.	Same as regular season
Colorado River Zone	Same as regular season	The first Saturday in February extending for 2 days.	Same as regular season
Balance of State Zone	Same as regular season	The first Saturday in February extending for 2 days.	Same as regular season
VETERANS AND ACTIVE MILITARY PERSONNEL WATERFOWL HUNTING DAYS	(NOTE: Veterans (as defined in Section 101 of Title 38, United States Code) and members of the Armed Forces on active duty, including members of the National Guard and Reserves on active duty (other than training), may participate.)		
	SPECIES	SEASON	DAILY BAG & POSSESSION LIMITS
Northeastern Zone	Ducks, Coots, and Moorhens	No longer than 2 days.	Same as regular season
Balance of State Zone	Ducks, Coots, and Moorhens	No longer than 2 days.	Same as regular season
Southern San Joaquin Valley Zone	Same as regular season	No longer than 2 days.	Same as regular season
Southern California Zone	Same as regular season	No longer than 2 days.	Same as regular season
FALCONRY	SPECIES	SEASON	DAILY BAG & POSSESSION LIMITS
Northeastern Zone	Ducks, Coots, and Moorhens	No longer than 107 days.	3/day. Possession limit 9
Balance of State Zone	Same as regular season	No longer than 107 days.	3/day. Possession limit 9
Southern San Joaquin Valley Zone	Ducks, Coots, and Moorhens	No longer than 107 days.	3/day. Possession limit 9
Southern California Zone	Same as regular season	No longer than 107 days.	3/day. Possession limit 9
Colorado River Zone	Ducks, Coots, and Moorhens	No longer than 107 days.	3/day. Possession limit 9

Proposed Regulatory Language

Section 502, Title 14 CCR, is amended to read:

§502. Waterfowl, Migratory; American Coot and Common Moorhen (Common Gallinule).

... [No changes to subsections (a) through (b)]

(c) Seasons and Bag and Possession Limits for American Coots, and Common Moorhens.		
(1) Statewide Provisions.		
<i>(A) Species</i>	<i>(B) Season</i>	<i>(C) Daily Bag and Possession Limits</i>
American Coot and Common Moorhen	Concurrent with duck season(s)	Daily bag limit: 25, either all of one species or a mixture of these species. Possession limit: triple the daily bag limit.
(d) Seasons and Bag and Possession Limits for Ducks and Geese by Zone.		
(1) Northeastern California Zone (NOTE: SEE SUBSECTION 502(d)(6) BELOW FOR SPECIAL SEASONS AND CLOSURES.)		
<i>(A) Species</i>	<i>(B) Season</i>	<i>(C) Daily Bag and Possession Limits</i>
Ducks (including Mergansers)	From the first Saturday in October extending for 105 days. Scaup: from the first Saturday in October extending for a period of 58 days and from the third Saturday in December extending for a period of 28 days. <u>[Opening no earlier than the Saturday closest to October 1 and closing no later than January 31.</u> <u>Season may be split into two segments and no longer than 105 days except for scaup season can be no longer than 86 days.]</u>	Daily bag limit: 7 <u>[4-7]</u> Daily bag limit may include: • 7 <u>[3-7]</u> mallards, but not more than 2 [1-2] females. • 1 pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 <u>2</u> scaup (either sex). Possession limit: triple the daily bag limit.
Geese	Regular Season: Small and Large Canada Geese: from the first Saturday in October extending for 100 days. <u>[Opening no earlier than the Saturday closest to October 1 and closing no later than January 17.</u> <u>Season will be no longer than 100 days.]</u> White-fronted and white geese from the first Saturday in October	Daily bag limit: 30 Daily bag limit may include: • 20 white geese. • 10 dark geese but not more than 2 Large Canada geese (see definitions: 502(a)). Possession limit: triple the daily bag limit.

	<p>extending for a period of 58 days and from the first Saturday in January extending for a period of 14 days.</p> <p><u>[opening no earlier than the Saturday closest to October 1 and closing no later than January 31.</u></p> <p><u>Season may be split into two segments and no longer than 100 days.]</u></p> <p>Late Season: White-fronted and white geese from February 7 extending for 33 days. <u>[Season will be no longer than 38 days and closing no later than March 10.]</u></p> <p>During the Late Season, hunting is only permitted on Type C wildlife areas listed in Section 550-552, navigable waters, and private lands with the permission of the land owner under provisions of Section 2016, Fish and Game Code. Hunting is prohibited on Type A and Type B wildlife areas, the Klamath Basin National Wildlife Refuge Complex, the Modoc National Wildlife Refuge, and any waters which are on, encompassed by, bounded over, flow over, flow through, or are adjacent to any Type A and Type B wildlife areas, the Klamath Basin National Wildlife Refuge Complex, or the Modoc National Wildlife Refuge.</p>	
(2) Southern San Joaquin Valley Zone (NOTE: SEE SUBSECTION 502(d)(6) BELOW FOR SPECIAL SEASONS AND CLOSURES.)		
(A) Species	(B) Season	(C) Daily Bag and Possession Limits
Ducks (including Mergansers)	<p>From the third Saturday in October extending for 105 days.</p> <p>Scaup: from November 7 extending for 86 days.</p> <p><u>[Opening no earlier than the Saturday closest to October 1 and closing no later than January 31.</u></p> <p><u>Season may be split into two segments and no longer than 105</u></p>	<p>Daily bag limit: 7-[4-7]</p> <p>Daily bag limit may include:</p> <ul style="list-style-type: none"> • 7-[3-7] mallards, but not more than 2-[1-2] females. • 2-1 pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3-2 scaup (either sex). <p>Possession limit: triple the daily bag limit.</p>

	<u>days except for scaup season can be no longer than 86 days.]</u>	
Geese	From the third Saturday in October extending for 105 days. <u>[Opening no earlier than the Saturday closest to October 1 and closing no later than January 31. Season will be no longer than 105 days.]</u>	Daily bag limit: 30 Daily bag limit may include: • 20 white geese. • 10 dark geese (see definitions: 502(a)). Possession limit: triple the daily bag limit.

(3) Southern California Zone (NOTE: SEE SUBSECTION 502(d)(6) BELOW FOR SPECIAL SEASONS AND CLOSURES.)

<i>(A) Species</i>	<i>(B) Season</i>	<i>(C) Daily Bag and Possession Limits</i>
Ducks (including Mergansers)	From the third Saturday in October extending for 105 days. Scaup: from November 7 extending for 86 days. <u>[Opening no earlier than the Saturday closest to October 1 and closing no later than January 31.</u> <u>Season may be split into two segments and no longer than 105 days except for scaup season can be no longer than 86 days.]</u>	Daily bag limit: 7 <u>[4-7]</u> Daily bag limit may include: • 7 <u>[3-7]</u> mallards, but not more than 2 <u>[1-2]</u> females. • 2 <u>1</u> pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 <u>2</u> scaup (either sex). Possession limit: triple the daily bag limit.
Geese	From the third Saturday in October extending for 105 days. <u>[Opening no earlier than the Saturday closest to October 1 and closing no later than January 31. Season will be no longer than 105 days.]</u>	Daily bag limit: 23 Daily bag limit may include: • 20 white geese. • 3 dark geese (see definitions: 502(a)). Possession limit: triple the daily bag limit.

(4) Colorado River Zone (NOTE: SEE SUBSECTION 502(d)(6) BELOW FOR SPECIAL SEASONS AND CLOSURES.)

<i>(A) Species</i>	<i>(B) Season</i>	<i>(C) Daily Bag and Possession Limits</i>
Ducks (including Mergansers).	From the third Friday in October extending for 101 days. Scaup: from the first Saturday in November extending for 86 days. <u>[Opening no earlier than the Saturday closest to October 1 and closing no later than January 31.</u> <u>Season may be split into two segments and no longer than 105</u>	Daily bag limit: 7 Daily bag limit may include: • 7 mallards, but not more than 2 females or Mexican-like ducks. • 2 <u>1</u> pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 <u>2</u> scaup (either sex).

Proposed Regulatory Language

Section 507, Title 14 CCR, is amended to read:

§ 507. Provisions Related to the Taking of Migratory Game Birds.

. . . *[No changes to subsections (a)(1) through (3)]*

(4) Shotguns 10 Gauge or Smaller. Shotguns 10 gauge or smaller using shot shells only and incapable of holding more than three shells in the magazine and chamber combined may be used. except no shotgun larger than 12 gauge shall be used in areas open to hunting on, over or adjacent to the waters of Morro Bay, San Luis Obispo County. If a plug is used to reduce the capacity of a magazine to fulfill the requirements of this section, the plug must be of one piece construction incapable of removal without disassembling the gun. Shotgun shells may not be used or possessed that contain shot size larger than ~~No. BB in lead or~~ T shot in steel or other nontoxic shot approved by the U.S. Fish and Wildlife Service. All shot shall be loose in the shell.

. . . *[No changes to subsections (b) through (d)]*
