Re: Incidental Take Permit for 2081-2015-044-03 Foxboro Knoll Project, Solano County, Amendment
No. 1

Dear Sir or Madam:

Enclosed please find one fully executed original of the Amendment #1 to the above listed Incidental Take Permit, for your files.

Please let me know if you should require any additional information.

Sincerely,

BAYLESS AND HICKS, INC.

Stephen M. Hicks

AMENDMENT NO. 1
(A Minor Amendment)
California Endangered Species Act
Incidental Take Permit No. 2081-2015-044-03
Vacaville Land Investors, Inc.
Foxboro Knoll Project in Solano County

INTRODUCTION

On December 18, 2015, the California Department of Fish and Wildlife (CDFW) issued Incidental Take Permit No. 2081-2015-044-03 (ITP) to Vacaville Land Investors, Inc. (Permittee), authorizing take of California tiger salamander (CTS; *Ambystoma californiense*) (Covered Species) associated with and incidental to the Foxboro Knoll Project in Solano County, California (Project). The Project as described in the ITP as originally issued by CDFW includes the permanent land conversion of approximately 26.4 acres of undeveloped land into a housing development comprised of approximately 58 residential lots. In issuing the ITP, CDFW found, among other things, that Permittee's compliance with the Conditions of Approval of the ITP would fully mitigate Project impacts of the taking on the Covered Species and that issuance of the ITP would not jeopardize the continued existence of the Covered Species.

On November 25, 2019, CDFW received from the Permittee a request to renew the ITP and resume conducting Covered Activities starting in May 2020.

This Minor Amendment No. 1 (Amendment) makes the following changes to the existing ITP:

This Amendment changes the expiration date from December 31, 2019 to December 31, 2023.

AMENDMENT

The ITP is amended as follows (amended language in ***bold italics***; deleted language in ~~strikethrough~~):

1. The last sentence of the second paragraph on page 1 (Effective Date and Expiration Date of this ITP) shall be amended to read:

Unless renewed by CDFW, this ITP's authorization to take the Covered Species shall expire on December 31, ~~2019~~**2023**.

All terms and conditions of the ITP and MMRP that are not expressly amended herein remain in effect and must be implemented and adhered to by the Permittee.

FINDINGS

Issuance of this Amendment will not increase the amount of take of the Covered Species compared to the Project as originally approved, nor will this Amendment increase other Project

impacts on the Covered Species [i.e., "impacts of taking" as used in Fish and Game Code section 2081, subd. (b)(2)].

Discussion: This Amendment makes one specific change to the ITP as originally issued. The change includes extension of the original ITP expiration date. The resulting impacts to the Covered Species, however, including the temporary and permanent impacts to Covered Species habitat as a result of the Project, will remain the same.

CDFW has determined that the extension of time will not increase the amount of take or the severity of other impacts of the taking on the Covered Species. Given the circumstances of this Project, CDFW believes that the changes to the Project or Conditions of the ITP described in this Amendment will not increase impacts to the Covered Species.

Issuance of this Amendment does not affect CDFW's previous determination that issuance of the ITP meets and is otherwise consistent with the permitting criteria set forth in Fish and Game Code section 2081, subdivisions (b) and (c).

Discussion: CDFW determined in December 2015 that the Project, as approved, met the standards for issuance of an ITP under CESA. This determination included findings that, among other things, the impacts of the taking would be minimized and fully mitigated and that the Project would not jeopardize the continued existence of the Covered Species. Those findings are unchanged with respect to this Amendment because the Project and ITP as amended: (1) will have no effect on the amount or severity of Project impacts on the Covered Species, as discussed above, and (2) does not alter the measures that will be undertaken to minimize and mitigate previously authorized impacts on the Covered Species. Permittee's continued adherence to and implementation of the avoidance and minimization measures set forth in the ITP's Conditions of Approval and MMRP will minimize and fully mitigate impacts of the taking on the Covered Species.

None of the factors that would trigger the need for subsequent or supplemental environmental analysis of the Project under Public Resources Code section 21166 or California Code of Regulations, title 14, sections 15162 and 15163, exist as a result of this Amendment.

Discussion: CDFW issued the ITP in December 2015 as a responsible agency under the California Environmental Quality Act (CEQA) (Pub. Resources Code, § 21000 et seq.) after, among other things, considering the Environmental Impact Report by the City of Vacaville as the lead agency for the Project. As explained in the findings below, CDFW finds for purposes of CESA that this Amendment is a minor change to the original ITP. CDFW finds for the same reasons under CEQA that approval of the Amendment will not result in and does not have the potential to create any new significant or substantially more severe environmental effects than previously analyzed and disclosed by the City of Vacaville during its lead agency review of the Project, particularly with respect to the impacts authorized by CDFW pursuant to the ITP as amended. As a result, CDFW finds that no additional subsequent or supplemental environmental review is required by CEQA as part of CDFW's approval of this Amendment.

CDFW finds that this Amendment is a Minor Amendment, as defined in California Code of Regulations, title 14, section 783.6, subdivision (c)(4).

Discussion: This Amendment extends the expiration date of the original ITP. This change to the ITP will not: (1) increase the level of take or other Project impacts on Covered Species previously analyzed and authorized by the ITP, (2) affect Permittee's substantive mitigation obligations under the ITP, (3) require further environmental review under CEQA, or (4) increase temporal impacts on the Covered Species. Therefore, this Amendment will not significantly modify the scope or nature of the permitted Project or activity, or the minimization, mitigation, or monitoring measures in the ITP. CDFW has determined that the change to the ITP constitutes a Minor Amendment as defined in California Code of Regulations, title 14, section 783.6, subdivision (c)(4).

The authorization provided by this Amendment is not valid until Permittee signs and dates the acknowledgement below, and returns one of the duplicate originals of this Amendment by registered first class mail to CDFW at:
