

# Hábitats

# Ribereño

A photograph of a brown rabbit sitting in a rocky stream bed. The rabbit is positioned on the left side of the frame, facing right. It is surrounded by dense green foliage and rocks. The stream bed is composed of various sized rocks and pebbles. The water in the stream is shallow and clear, with some rocks visible beneath the surface. The background is filled with thick green bushes and trees.

# RIBEREÑO

AGUA • ALIMENTO • REFUGIO •

The image is a composite. The top half shows a real-world river scene with a rocky bank, dense evergreen trees, and a steep, rocky hillside in the background. Two dragonflies are shown in flight over the water. The bottom half is a semi-transparent blue overlay that reveals an underwater scene. This scene includes several rainbow trout swimming near the rocky riverbed, a crayfish, and some small aquatic insects. The word 'Acuático' is written in white text on the left side of the blue overlay.
