

## **Russian River Voluntary Drought Initiative Public Information Meeting**

**Join Us! Thursday May 21<sup>st</sup>, 2015 6:30 – 8:30 PM**

**Mary Agatha Furth Ctr • 8400 Old Redwood Highway • Windsor**

We need your immediate help to conserve water and protect streamflows for endangered coho salmon and threatened steelhead trout in Mark West Creek and Mill Creek watersheds. These creeks are critical habitat for the listed species and numerous others.

Please join the Department of Fish and Wildlife and other conservation organizations for this important, informational event concerning landowner participation in voluntary drought agreements and other voluntary programs to help protect aquatic resources and keep your water supply secure. Learn how you can do your part and share your suggestions on how together we can make a difference.

**For more information please contact the Department of Fish and Wildlife**
