

## Refugio Response Joint Information Center

# Volunteering - How can I volunteer to help?

---

Volunteers' activities are being re-evaluated as the cleanup operations begin to shift from beach cleanup to beach monitoring.

Nearly 300 volunteers have been trained and more than half of those were deployed for beach cleaning activities. Volunteers contributed more than 1,700 hours and removed 205 bags of oily waste.

No additional volunteer applications are needed in this time, but please check back as operations progress. Visit <https://calspillwatch.dfg.ca.gov/Spill-Archive/Refugio-Incident/Volunteer> for more information.
