

Please mail tags from Trinity River fish (after knots have been removed) to:
Trinity River Project
5341 Ericson Way
Arcata, CA 95521

Thank you for returning the tag you recovered in the Trinity River Basin.

We place tags on a portion of the returning adult salmon and steelhead to determine their respective run size, angler harvest and spawner escapement for the year. **Reward tags have "Reward" imprinted on them. Rewards will be paid whether tags were recovered by angling, found attached to dead fish or found loose/unattached.** You should receive your check approximately eight weeks from the date we receive this completed form. Non-reward tag information is important too, so thank you for sending those in as well. **Return tags in the season you collect them. Tags sent outside of current season will not be eligible for reward.** Please fill out information below:

NAME: _____

ADDRESS: _____

Email Address: _____

TAG # (eg X02368): _____

Check one below:

I caught the fish I found the tag on a dead fish I found the tag loose
