

2015-2016 Drought Proposals - Funded List

Project Type	Proposal Number	Project Title	Applicant	Project Description	County	CDFW Region	Recommended Amount
PD	D243	Peters Creek Water Storage / Creek Diversion Forbearance Design Project – Portola Redwoods State Park	Trout Unlimited	Restore streamflows and access to thermal refugia impacted by the current drought by producing 100% designs for: (1) offstream tank storage sufficient to allow dry season forbearance; (2) modifications to diversion structure to provide passage for all life stages.	San Mateo	3	\$69,947
ED	D231	The Klamath Youth Climate Change Mitigation Project	Mid Klamath Watershed Council	This project will teach Middle Klamath students about the impacts of climate change and drought on fisheries and communities through citizen science programs, in-class curriculum, guest presentations, and hands-on field trips.	Humboldt, Siskiyou	1	\$12,983
PD	D235	Los Molinos Mutual Water Company Northside Water Use Efficiency Improvement Masterplan	Los Molinos Mutual Water Company	This project will produce a feasibility study and master plan to identify and describe projects that LMMWC will implement to improve water use efficiency and enable LMMWC to increase the amount of water left instream to benefit Chinook salmon and steelhead trout migration. It will develop project-specific information describing site-specific project components and associated costs and expected water savings. The product will support the acquisition of funding to accelerate water use efficiency improvements.	Tehama	1	\$89,790
TE	D244	Upper San Luis Rey River Groundwater Recharge and Habitat Protection	San Luis Rey Watershed Council	The objectives are to increase groundwater recharge in Pauma Creek and the San Luis Rey River through community based water conservation actions to increase surface water flow to protect the resilient trout population and sustainably manage water availability to local residents.	San Diego	5	\$176,731
ED	D230	Salmon and Water Conservation in Sacramento Schools	South Yuba River Citizens League	To better prepare Sacramento region schoolchildren to protect chinook salmon and steelhead trout populations and habitat in future droughts.	Sacramento	2	\$99,889
PD	D228	Sisar Creek Arizona Crossing Replacement Design Alternatives Analysis	Friends of the Santa Clara River	Alternatives study & 65% design to replace Arizona crossing (PAD ID 713895) on Sisar Creek to allow steelhead migration upstream to refugia, rearing & spawning habitat from the Pacific Ocean; advance NMFS Recovery Plan goals. Partners bring 18% cost share.	Ventura	5	\$51,916
PL	D233	Drought Mitigation Planning Project for the Buckeye Forest (BF)	The Conservation Fund	Reduce impacts accelerated by drought conditions to restore & protect aquatic habitat through the development of a site-specific, prioritized plan for erosion prevention, control, & habitat restoration on 43 mi of roads in the TCF Buckeye Forest (BF).	Sonoma	3	\$92,797
PL	D246	South Fork Battle Creek Erosion Prevention Planning Project	Resource Conservation District of Tehama County (RCBTC)	Conduct an erosion inventory and assessment along 12 miles of Ponderosa Way, an unmaintained road in Battle Creek's South Fork watershed. The assessment will lead to a prioritized plan-of action for future erosion/sediment control projects that can proceed directly to implementation.	Tehama	1	\$67,732
TOTAL							\$661,785
