

Grove Incident - Oil Recovery Assessment*

Evaporation: 11,193 gallons
25 percent

Liquid oil: 24,234 gallons
54 percent

Oil in recovered sediment:
2,306 gallons
5 percent

Unrecovered oil: 6,619 gallons
15 percent

Oil in recovered vegetation
and Protective Clothing:
420 gallons – 1 percent

*All volumes are estimates based on chemical analysis of recovered materials, measurement of pure liquid oil, and calculation of evaporated oil derived from modeling.
