CALIFORNIA CODE OF REGULATIONS
TITLE 14, DIVISION 1
SUBDIVISION 4, OFFICE OF SPILL PREVENTION AND RESPONSE
CHAPTER 6. FUND ADMINISTRATION
SUBCHAPTER 2. OIL SPILL PREVENTION AND ADMINISTRATION FUND FEE
SECTIONS 870.15 – 870.21

Notice Date: January 6, 2017

NOTICE IS HEREBY GIVEN that the Department of Fish & Wildlife, Office of Spill Prevention and Response (OSPR) will be requesting readoption of emergency regulations necessary to protect public health, safety and the environment. The readoption will ensure the immediate and ongoing implementation of protective standards for California's inland natural resources in regard to oil spills impacting surface waters. This readoption action is being taken in accordance with Government Code sections 11346.1 and 11349.6 of the California Administrative Procedure Act. These regulations will be submitted to OAL on January 13, 2017.

DILIGENT ADOPTION OF PERMANENT REGULATIONS

As required for readoption of emergency regulations, the OSPR has made substantial progress and is proceeding with diligence to comply with Government Code section 11346.1, subdivision (e). (Cal. Code Regs., title 1, section 52(b)(1).) The following actions demonstrate OSPR's progress toward the adoption of permanent regulations:

Since the emergency regulations were originally approved in October 2014 the OSPR has engaged in the following:

- Since September 2015 staff from OSPR has met with industry representatives several times, at their request, to discuss the draft regulations.
- In November 2015 OSPR held a workshop in Bakersfield to seek comment regarding the emergency regulations and explain their implementation.
- In 2016 OSPR has received at least six written comment letters from industry.
- On December 8, 2016 OSPR opened a 15-day public comment period from November 23, 2016 through December 8, 2016 and held a public hearing on December 8, 2016 to seek comment regarding proposed changes to the text and addition of documents relied upon.

Staff has spent much time evaluating industry's comments.

A copy of the text of the proposed emergency regulations and the Finding of Emergency are enclosed. These documents are also available for review on OSPR's website at: <https://www.wildlife.ca.gov/OSPR/Legal/Proposed-Regulations>

A readoption of the emergency regulations will ensure that oil spill preparedness and response standards necessary to protect against a present threat to public health, safety and the environment, remain in effect while OSPR works to complete the regular rulemaking process for permanent regulations.

As required for readoption of emergency regulations (Cal. Code Regs., title 1, section 52(b)(2)), there have been no material changes in emergency circumstances since the readoption of these regulations (OAL file number 2016-0115-03) in January 2016.

After submission of the proposed readoption to OAL, any interested person will have five (5) calendar days to submit related comments to OAL as set forth in Government Code section 11349.6.
