

Directions to be sent with the Excel Self- Assessment. Thanks!

Are you ready to Step Up to Supervision?

Deciding whether or not supervision is right for you can be difficult and daunting. Please take a few minutes to complete this self-assessment based on several competencies identified by both CalHR and the Department as keys for successful supervision.

Try to be as honest as you can when answering the questions and assessing your abilities and experience. This assessment will help you highlight skills you may already possess and identify those areas in which you may need improvement or additional experience. While certainly not a comprehensive list of all the knowledge, skills, and abilities required as a supervisor, this assessment can be a helpful tool for creating an action plan when Stepping Up to Supervision.

Please complete this assessment prior to class and have it with you for reference during the webinar.

Thank you!
