

For your information:

1. The US Fish and Wildlife Service (USFWS) has requested recommendations for priorities for next year's federal Quagga-Zebra Mussel Action Plan (QZAP) grants. CDFW is soliciting your input for priorities and will share these recommendations with the western states and USFWS at a meeting the first week of February, where the USFWS is taking input. Recommendations that will likely be received most favorably will directly relate to priority "Action Items" identified in the QZAP http://www.anstaskforce.gov/QZAP/QZAP_FINAL_Feb2010.pdf. Please send your recommendations (including a reference to their respective Action Item) to Martha Volkoff, Martha.Volkoff@wildlife.ca.gov, by COB 1/29/16.
2. If your agency is interested in applying (late) for the current grant cycle of Quagga and Zebra Mussel Infestation Prevention Grant please contact Eddie Hard, Edward.Hard@parks.ca.gov, with Division of Boating and Waterways (DBW), as soon as possible. Grant application and eligibility information can be found at <http://dbw.ca.gov/Funding/QZGrantApp.aspx>.
