

CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

A message about invasive species issues in California...

The following information is being forwarded on behalf of Pacific States Marine Fisheries Commission:

Western Aquatic Invasive Species Webinar Series

Please join us for the Western Aquatic Invasive Species webinar series hosted by the Pacific States Marine Fisheries Commission. The series focuses on collaborative activities in the western states to prevent the introduction and spread of aquatic invasive species, such as quagga and zebra mussels.

Webinar #4: February 16, 2017, 10:00am-11:00am Pacific Time

Monitoring for quagga and zebra mussels: *Developing and maintaining a monitoring program to detect an introduction of dreissenids*

Join the Pacific States Marine Fisheries Commission and a panel of three experts: Denise Hosler (Bureau of Reclamation), Steve Wells (Portland State University), and Tom Woolf (Idaho Department of Agriculture), as they discuss considerations when developing an effective and comprehensive AIS monitoring program, with a focus on monitoring associated with quagga and zebra mussels using plankton tows, eDNA (PCR) and substrate sampling.
