Background

MRC topics are referred by FGC and scheduled as appropriate. MRC agendas currently include several complex and time-intensive topics. MRC has placed emphasis on issues of imminent regulatory importance, and thus consideration of new topics will require planning relative to existing MRC workload.

FGC-referred topics and the draft timeline for those topics are shown in Exhibit 1, which also reflects FGC action in Jun.

Today provides an opportunity to confirm timing for any additionally referred topics, and to identify any potential new agenda topics to recommend to FGC for referral.

Significant Public Comments (N/A)**Recommendation**

Review current rulemaking calendar (Exhibit 2) and draft MRC schedule, schedule or re-schedule recommended projects for 2017, and consider any potential new topics to recommend to FGC.
