

Northern Spotted Owl

The Service Remains Engaged

The U.S. Fish and Wildlife Service continues to assist Cal Fire and CDFW in the implementation of NSO Guidelines, implementation of Attachments A and B, the Survey Protocols, and with site abandonment requests.

A Top Priority for the Service

Is to develop a comprehensive BAOW management strategy across the landscape, focusing on areas that have the highest potential of success.

Service is also Focused on Proactive Conservation

Tools for conservation of NSO on Private Land:

Safe Harbor Agreements (SHAs)

General Conservation Plans (GCPs)

Habitat conservation Plans (HCPs)

In addition the YFWO is working on

Post-Fire management Guidance
