

Week-long/on-going

County	Organization	Time/Location	Project	Details	Registration required?
Sacramento	California Department of Fish and Wildlife	8am-2:30pm (Tue-Fri); 9am-2:30pm (Sat-Sun)	Invasive species education	Come join the Marine Invasive Species Program staff at CDFW’s Nimbus Hatchery Visitor Center to learn about invasive species and their impacts from June 5th-9th. Enjoy some invasive species activity sheets and coloring sheets, interactive displays showing how invasive species come to California, watch some invasive species educational videos, and check out our display of live and preserved invaders! Bring a bag lunch and have a picnic outside! The Visitor Center (2001 Nimbus Rd F, Gold River, CA 95670) is also open Saturday and Sunday, 9am-3pm. Seeking volunteers! Please email Karen.Bigham@wildlife.ca.gov for more information.	No
		Nimbus Hatchery Visitor Center			
Statewide	California Department of Fish and Wildlife	At your convenience	Quagga/zebra mussel monitoring	Join CDFW’s Invasive Species Program in a statewide citizen science effort to monitor for quagga mussels. Visit the citizen science page for instructions, to print data sheets, and to enter the results of your survey. Did you encounter any other aquatic invasive species? Tell us about those too!	No
		Any (fresh)waterbody			
Statewide (special interest in Placer, Sacramento, Yolo, and Los Angeles counties, and the Delta region)	California Department of Fish and Wildlife	Any time	California Nerodia Watch iNaturalist Project	Join the California Nerodia Watch project and help the Department of Fish and Wildlife monitor for the spread of existing <i>Nerodia</i> * watersnake populations, prevent the establishment of new populations, and facilitate rapid response management efforts to control or eradicate <i>Nerodia</i> watersnakes in California. * <i>Nerodia</i> are restricted in California, so take their pictures only, please! www.inaturalist.org/projects/california-nerodia-watch	Yes, register at iNaturalist.org or in the free app
		Wetlands, streams, canals, ponds, lakes, rivers			

To view the CISAW Map of Events and find additional information, please visit <https://www.wildlife.ca.gov/CISAW>

Statewide (primarily in Southern California)	University of California Cooperative Extension	Any time	Ongoing Citizen Science Activity	The University of California Cooperative Extension is working to bring awareness to the invasive Goldspotted Oak Borer, found in Southern California. We have a page dedicated to “ What You Can Do ,” as well as an online reporting system for this pest. The reporting system is designed for concerned members of the public (citizen scientists), to submit oak tree photos and comments directly to a group of knowledgeable individuals who are trained in Goldspotted Oak Borer (GSOB) damage identification. In return, our group of trained individuals work with members of the public to diagnose the cause of the oak’s decline and offer solutions.	No
		Oak trees			
Statewide	UC Integrated Pest Management Program	Any time	Invasive pests social media campaign	Learn more about invasive pests and other pests by signing up on social media for ongoing information updates from University of California Statewide Integrated Pest Management Program Blog: http://ucanr.edu/blogs/UCIPMurbanpests/ OR http://ipm.ucanr.edu/blogs/ Twitter: @ucipm and @ucipmurban Facebook: @ucipm and @ucipmurban YouTube: UCIPM	Yes; find UCIPM on your favorite social media platform
		Statewide			
Statewide	UC Integrated Pest Management Program	Any time	Wild Pig Damage App	The Wild Pig Damage app from the UC Integrated Pest Management Program is a citizen science opportunity available for Apple and Android. The app allows users to input data on wild pig location and damage which is added to a statewide map documenting environmental damage from this species.	Yes; search “wild pig damage” in app store
		Statewide			
Yolo	Putah Creek Council	Any time	Social media posts	The Putah Creek Council will feature information about one invasive species from the Putah Creek Watershed per day on social media platforms. For more information and social media links, please check out www.putahcreekcouncil.org www.putahcreekcouncil.org	Yes; follow on your favorite social media platform
		Putah Creek Watershed

Saturday, June 2nd

County	Organization	Time/Location	Project	Details	Registration required?
Contra Costa	East Bay Regional Park District	9:00am – 12:00pm	Invasive plant removal	Come lend a hand and help remove invasive species from a Delta wetland. Please bring water, work gloves, hat, and clothes for variable weather. Prepare for general grubbiness. Big Break Regional Shoreline is located at 69 Big Break Road, Oakley, CA 94561	No
		Big Break Regional Shoreline			
El Dorado	League to Save Lake Tahoe	8:30am – 12:00pm	Clean up day	All ages are invited to this great opportunity to give back to your community and keep our Lake and community clean! Check in at Commons Beach picnic tables at 8:30 am to enjoy breakfast snacks and redeem a volunteer t-shirt. We will provide the cleanup materials. The cleanup will take place from 9 – 11:30 am along designated routes. After the cleanup, lunch will also be provided. Bring your reusable water bottle and friends! If you have cleanup gloves, feel free to bring those also! Bike, walk or carpool and receive a raffle ticket for a fun prize! Volunteers under 18 will need to have a guardian sign off on the waiver at the event.	Pre-registration is recommended. To RSVP and more information, contact Dana Tanner at Dana@VisitTahoeCity.com or call (530) 583-3348
		Tahoe City Cleanup Day			
Lake	County of Lake Department of Water Resources	9:00am – 5:00pm	Quagga mussel demonstration	This event will provide outreach, education, and quagga mussel demonstrations at the Lakeport 3rd street ramp in downtown Lakeport near Library park. This event will raise awareness on the importance of the Clean, Drain, Dry campaign for preventing spread of AIS. Currently there are no Quagga mussels present in Clear Lake and events like this help continue the legacy of preventing damaging invasive species from entering the ecosystem that provides recreation, economy, and services to the Lake county human, plant, and animal community.	No
		Clear Lake			
Los Angeles	California State Parks Foundation	8:30am – 11:00am	Habitat restoration and invasive plant removal	Learn about habitat restoration and get your hands dirty removing invasive plants in these special State Parks! Ages 8 and up are welcome with a legal guardian. Target species include: Smilo, Bermuda, Fountain grs; Fennel; Thistle; Mustard; Oxtongue; and more...	Yes; here
		Rio de Los Angeles State Park			

To view the CISAW Map of Events and find additional information, please visit <https://www.wildlife.ca.gov/CISAW>

Los Angeles	Madrona Marsh Preserve and Nature Center	9:00am-12:00pm	Habitat Restoration	Invasive non-native plants will compete with native plants for water, nutrients, and sunlight. Removing the invasive plants allows native plants to thrive. All four of the species selected to be removed are in their peak growth and many have developed seed heads. These plants produce a high volume of seeds that remain viable long after they disperse or are easily spread. Only two plants will be given to each group to ensure focused and efficient removal of those specific species.	Yes; HERE
		Madrona Marsh Preserve			
Los Angeles	Mountains Restoration Trust	9:00am – 12:00pm	Volunteer Crayfish Removal	Join our technicians in removing invasive crayfish from Medea Creek. Participants will learn stream ecology and habitat restoration fundamentals while working alongside trained biologists. Please arrive with shoes with good traction, work clothes with long sleeves and pants, a hat, eye protection, and plenty of water and sunscreen. Meet at 5901 Conifer Street Oak Park, CA 91377. Parking available on Park View Dr	Yes; here
		Medea Creek			
Los Angeles	National Park Service	9:00am – 12:00pm	Volunteer Crayfish Removal	<p>Our event will involve the removal of carnation spurge along main hiking trails and near restoration areas at Zuma Canyon in Malibu. Carnation spurge (<i>Euphorbia terracina</i>) is a highly invasive plant that threatens natural resources in the Santa Monica Mountains. This invader spreads quickly and is toxic to humans and wildlife. We have been removing carnation spurge in Zuma Canyon in recent years and have made good progress. With the help of the community, we can keep this harmful invasive species in check and protect the native species that call Zuma their home.</p> <p>Please bring water, sunscreen and a sun hat. Wear hiking attire. That means closed toe shoes and we suggest wearing long pants and a light long sleeve shirt if you have one.</p> <p>Directions: Park at the Zuma Canyon Trailhead: Pacific Coast Hwy to Busch Drive (near Zuma Beach). Go north on Busch Drive. Turn right on Rainsford Place. Turn left on Bonsall Drive. Parking lot at end of road.</p>	No, but appreciated; here
		Zuma Canyon			
Mendocino	Mussel Dogs	7am-3pm	Quagga/zebra mussel detection dog demonstration	Come to one of our boat inspection stations to learn why it's important to CLEAN, DRAIN, and DRY your watercraft, and meet Captain, Popeye, Nemo, Noah, or Sinbad....our Mussel Dogs!	No
		Lake Mendocino			

To view the CISAW Map of Events and find additional information, please visit <https://www.wildlife.ca.gov/CISAW>

San Diego	California State Parks	8:30am-1:30pm	Invasive Plant Removal	Help celebrate California Invasive Species Action Week and promote biodiversity by removing invasive plant species at Torrey Pines Extension! Kids ages 12 and up are welcome with a legal guardian. Preregistration is required to ensure we have enough tools and lunches. Volunteers needed: 15	Yes; register HERE
		Torrey Pines State Natural Reserve			
San Francisco	Golden Gate Audubon Society	9:00am – 12:00pm	Invasive Plant Removal	Remove non-native invasive plant species (radish, thistle, garland daisy, mustard, algerian sea lavender, etc.)	Yes; here
		Pier 94			
Santa Clara	Grassroots Ecology	9:00am – 11:30am	Habitat Restoration	<p>Who: Volunteers of all ages are welcome; minors under 18 require a parent to approve the online waiver when registering for this event, and children under 12 require an accompanying adult unless prior approval is obtained from the workday supervisor. Groups can contact Jeremy Merckling at jeremy*grassrootsecology.org for their own special program dates/hours.</p> <p>What: Help us continue our ongoing efforts to increase wildlife habitat at McClellan Ranch by planting native plants, removing invasive plants, sheet mulching and this is a great opportunity to do a bit of wildlife watching and learn about our local native habitat.</p> <p>Where: Meet near the main parking lot at McClellan Ranch Preserve, 22221 McClellan Road in Cupertino.</p> <p>Please bring: a reusable water bottle, dress for outdoor work (sturdy shoes and long pants recommended).</p> <p>Minors under 18 must bring a waiver form signed by a parent</p> <p>We provide gloves and tools</p>	Yes; HERE
		McClellan Ranch Preserve			
Sonoma	Mussel Dogs	7am-3pm	Quagga/zebra mussel detection dog demonstration	Come to one of our boat inspection stations to learn why it's important to CLEAN, DRAIN, and DRY your watercraft, and meet Captain, Popeye, Nemo, Noah, or Sinbad....our Mussel Dogs!	No
		Lake Sonoma			
Stanislaus	Mussel Dogs	8am-2pm	Quagga/zebra mussel detection dog demonstration	Come to one of our boat inspection stations to learn why it's important to CLEAN, DRAIN, and DRY your watercraft, and meet Captain, Popeye, Nemo, Noah, or Sinbad....our Mussel Dogs!	No
		Modesto Reservoir			

Sunday, June 3rd

County	Organization	Time/Location	Project	Details	Registration required?
Lake	County of Lake Department of Water Resources	9:00am – 5:00pm	Quagga mussel demonstration	This event will provide outreach, education, and quagga mussel demonstrations at the Lakeport 3rd street ramp in downtown Lakeport near Library park. This event will raise awareness on the importance of the Clean, Drain, Dry campaign for preventing spread of AIS. 		Lake Mendocino			
Orange	Bolsa Chica Land Trust	9:00am – 12:00pm	Restore native habitats	The Bolsa Chica Land Trust Stewards meet (rain or shine) to restore native plant habitat at the Bolsa Chica Ecological Reserve. Our goal is to restore the degraded former farm land to a sustainable native habitat of California grasslands and Coastal Sage Scrub. We meet at the Reserve parking lot located at the corner of Warner Avenue and Pacific Coast Highway (the entrance is on Warner Avenue, 3842 Warner Ave, Huntington Beach). We supply the tools/equipment, water and some snacks for the volunteers. We ask that volunteers wear long pants and closed-toed shoes that can get dirty along with sunscreen since we will be in the sun the whole morning. We also ask that everyone under 14 be accompanied by a parent or guardian. Please try to carpool if possible because our parking lot is very small. Email Erin@BCLandTrust.org for more information.	No
		Bolsa Chica Ecological Reserve

Santa Clara County	Grassroots Ecology	9:00am-12:00pm	Volunteer habitat restoration	<p>Enjoy hands-on activities such as weeding, planting, and creating habitat structures that will enrich our environment and leave you with a smile!</p> <p>Where: The easiest way to find Foothills Park is to route to the Foothills Park Interpretive Center. Once inside the park, look for signs with the Grassroots Ecology logo to find where we are working that day since we meet at different locations for each workday. Call/text Alisa Kim at (562) 400-0885 if lost (phone reception is spotty in the park).</p> <p>Who: All are welcome, you don't have to be a Palo Alto resident! Minors under 18 require an online waiver, and children under 12 require an accompanying adult.</p> <p>Please bring: A reusable water bottle and clothes for the outdoors. Sturdy closed-toe shoes, long pants, layers, and a hat are recommended. We provide gloves, tools, and snacks.</p>	Yes; HERE
