

Notice of Public Meetings

The California Department of Fish and Wildlife (CDFW) is inviting trout anglers to voice their interests, needs and novel ideas about the statewide management of trout resources.

A series of upcoming public meetings will provide opportunities to learn about and discuss three specific topics of interest:

- The revision of the Strategic Plan for Trout Management, last published in 2003.
- The creation of a new Strategic Plan for Trout Hatcheries
- Simplification of inland trout angling regulations.

CDFW will compile public comments and use them to help guide development in all three of these areas.

Meetings are in-person only and no conference line or webcast will be available.

Bishop
