STATE OF CALIFORNIA
FISH AND GAME COMMISSION
FINAL STATEMENT OF REASONS FOR REGULATORY ACTION

Amend Section 265
Title 14, California Code of Regulations (CCR)
Re: Use of Dogs for Pursuit/Take of Mammals or for Dog Training

I. Date of Initial Statement of Reasons: August 8, 2017
II. Date of Final Statement of Reasons: March 2, 2018
III. Dates and Locations of Scheduled Hearings:
   (a) Notice Hearing: Date: April 26, 2017
       Location: Van Nuys, CA
   b) Discussion Hearings: Date: October 11, 2017
       Location: Atascadero, CA
   (c) Adoption Hearing: Date: December 6, 2017
       Location: San Diego, CA

IV. Update:

The Commission adopted the amendments to Section 265 at their December 6, 2017, meeting in San Diego, deleting subsections (d)(1) and (d)(2), thereby removing the prohibition on treeing switches and use of Global Positioning System equipment collars for dogs used for the pursuit/take of mammals. There have been no changes in applicable laws or to the effect of the proposed regulations from the laws and effects described in the Notice of Proposed Action.

V. Summary of Primary Considerations Raised in Support of or Opposition to the Proposed Actions and Reasons for Rejecting Those Considerations

See Attachment A and Oral Comments Received at Fish and Game Commission Hearings 265 Dog Collars.

VI. Location and Index of Rulemaking File:

A rulemaking file with attached file index is maintained at:
California Fish and Game Commission
1416 Ninth Street
Sacramento, California 95814

VII. Location of Department Files:

Department of Fish and Wildlife
1416 Ninth Street
Sacramento, California 95814

VIII. Description of Reasonable Alternatives to Regulatory Action:

(a) Alternatives to Regulation Change:

No alternatives were identified.

(b) No Change Alternative:

The no change alternative was considered and rejected because it would not eliminate the unnecessary regulation concerning the use of treeing switches. The no change alternative would also continue the regulation prohibiting the use of GPS equipped collars and therefore continue the problem of hunters unable to retrieve wounded game (wanton waste) or locating lost dogs.

(c) Consideration of Alternatives:

In view of information currently possessed, no reasonable alternative considered would be more effective in carrying out the purpose for which the regulation is proposed, would be as effective and less burdensome to affected private persons than the proposed regulation, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

IX. Impact of Regulatory Action:

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made.

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. Removing outdated prohibitions on treeing switches and GPS collars is not anticipated to affect current levels of hunting effort for species that can legally be pursued with dogs.

(b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family
activities and promotes respect for California’s environment by the future stewards of the State’s resources. The Commission anticipates benefits to the State’s environment in the sustainable management of natural resources.

The proposed action will not have significant impacts on jobs or business within California and does not provide benefits to worker safety.

(c) Cost Impacts on Representative Private Persons/Business:

The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

(d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

None.

(e) Other Nondiscretionary Costs/Savings to Local Agencies:

None.

(f) Programs Mandated on Local Agencies or School Districts:

None.

(g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed under Part 7 (commencing with Section 17500) of Division 4:

None.

(h) Effect on Housing Costs:

None.
Amend Section 265, Title 14, CCR, by deleting subsections (d)(1) and (d)(2). The current regulations prohibit the use of treeing switches and GPS collar equipment for dogs used in the taking of mammals. Recent changes to statutes have restricted the use of dogs by hunters to only the taking of wild pigs and deer. The prohibition on the use of treeing switches is therefore unnecessary. Allowing the use of GPS collar equipment will improve a hunter’s ability to find and retrieve downed game and lost dogs.

Benefits of the regulations

The regulation eliminates unnecessary language regarding the prohibition on the use of treeing switches; and, permits GPS equipped collars increasing the hunter’s ability to find and retrieve downed wild pigs and deer as well as lost dogs.

Consistency with State or Federal Regulations

The Fish and Game Commission, pursuant to Fish and Game Code Sections 200 and 203, has the sole authority to regulate hunting in California. Commission staff has searched the California Code of Regulations and has found the proposed changes pertaining to the use of dogs for hunting mammals to be consistent with the provisions of Title 14. Therefore, the Commission has determined that the proposed amendments are neither inconsistent nor incompatible with existing State regulations.

UPDATE

On December 6, 2017, the Fish and Game Commission adopted the amendments to Section 265, Title 14, California Code of Regulations, deleting subsections (d)(1) and (d)(2), thereby removing the prohibition on treeing switches and use of Global Positioning System equipment collars for dogs used for the pursuit/take of mammals.

There have been no changes in applicable laws or to the effect of the proposed regulations from the laws and effects described in the Notice of Proposed Action.
