

# Jones Ranch Turkey Hunt

“My roommate and I drove out the night before and got there in time to roost birds. When we woke up the next morning, we heard birds gobbling their heads off just up the canyon. We quickly got dressed and headed to a spot roughly 100 yards away from them. A couple of tree yelps and purrs later, the birds practically sprinted into our setup and we doubled on

two nice toms. Jon is awesome and was very helpful when telling us about the property. Thanks for the great weekend.”
