

# Rarity Change Report

from Wednesday, January 24, 2018 to Monday, October 15, 2018

The list below shows changes that have been made to the rarity ranks of natural communities during the time period specified above. Changes are most often made based on data from additional projects (“Update from report”) or on use of NatureServe’s rarity rank calculator that assigns conservation status ranks (“Rank calculator”). Newly-added communities are also provided with their ranks (“New”)

<https://www.wildlife.ca.gov/Data/VegCAMP/Natural-Communities>

## Primary Life form: Tree

CaCode	Name		Old rank	New rank
