I. Date of Initial Statement of Reasons: September 21, 2016

II. Dates and Locations of Scheduled Hearings:

(a) Notice Hearing: Date: December 7, 2016
    Location: San Diego, CA

(b) Discussion Hearing: Date: February 9, 2017
    Location: Rhonert Park, CA

(c) Adoption Hearing: Date: March 15, 2017
    Location: Teleconference

III. Description of Regulatory Action:

(a) Statement of Specific Purpose of Regulation Change and Factual Basis for Determining that Regulation Change is Reasonably Necessary:

   The Pacific Fishery Management Council (PFMC) coordinates west coast management of recreational and commercial ocean salmon fisheries in the federal fishery management zone (three to 200 miles offshore) along the coasts of Washington, Oregon and California. The annual PFMC ocean salmon regulation recommendations are subsequently implemented by the National Marine Fisheries Service (NMFS) effective on May 1 of each year.

   California's recreational salmon fishing regulations need to conform to the federal regulations to achieve optimum yield in California under the federal Salmon Fishery Management Plan. The Fish and Game Commission (Commission) adopts regulations for the ocean salmon recreational fishery in State waters (zero to three miles offshore) which are consistent with these federal fishery management goals.

   It is critical to have consistent State and federal regulations establishing season dates, bag/size limits and other management measures, and also critical that the State and federal regulations be effective concurrently in order to maintain continuity of management and enforcement. Conformance with federal regulations is also necessary to maintain continued State authority over its recreational salmon fishery and avoid federal preemption under the Magnuson-Stevens Fishery Conservation Act [16 USC §1856 (b)(1)].
On May 1, 2016, NMFS implemented the 2016 federal ocean salmon regulations, which included the PFMC’s recommendation to open the California ocean salmon recreational fishing season south of Horse Mountain on April 1, 2017. While federal waters south of Horse Mountain will open on April 1, 2017, State waters in this area will not open unless the Commission takes regulatory action to do so.

The 2017 season opening dates were not adopted into the State’s ocean salmon regulations in 2016 as a matter of precaution, in order to account for the possibility that these dates, along with minimum size limits, bag limits, and open fishing days, or other management measures, may be modified by NMFS and PFMC based on the most up-to-date salmon abundance information. Fishery monitoring and escapement information needed for target stocks and salmon species of special concern, including Sacramento River Winter-run Chinook which is listed as endangered under both federal and State Endangered Species Acts, is not available until the winter or early spring of 2017.

**Concurrent Regulatory Action**

The Commission will consider the most up-to-date information before determining if ocean salmon fishing should be authorized for April 2017. The proposed regulations would allow the Commission to adopt the April 1 opening date, or a later date in April, along with other fishery management measures for State waters that would be effective through April 30, 2017.

Two separate Commission actions are necessary to conform State regulations to federal rules that will apply in 2017. The first action would amend subsection 27.80(c), establishing salmon fishing regulations for the month of April 2017 consistent with federal regulations for the federal fishery management zone off California. Recreational salmon fishing regulations for May 1 through the end of 2017 will be considered in the second rulemaking action, tentatively scheduled for adoption in April 2017.

**Present Regulations**

Regulations for 2016 [subsections 27.80(c) and (d)] authorized ocean salmon recreational fishing seven days per week north of Horse Mountain including Humboldt Bay from May 16 through May 31, June 16 through June 30, July 16 through August 16, and September 1 through September 5, 2016. Between Horse Mountain and Point Arena, ocean salmon recreational fishing was authorized seven days per week from April 2 to November 13, 2016. Between Point Arena and Pigeon Point, ocean salmon recreational fishing was authorized seven days per week from April 2 to October 31, 2016. Between Pigeon Point and Point Sur, ocean salmon recreational fishing was authorized seven days per week from April 2 to July 15, 2016. For areas south of Point Sur, ocean salmon recreational fishing was authorized seven days per week from April 2 to May 31, 2016. The bag limit for all areas in 2016 was two fish per day (all species except coho). The areas north of Point Arena had a minimum size limit of 20 inches total.
length. The area between Point Arena and Pigeon Point had a minimum size limit of 24 inches total length through April 30, 2016 and 20 inches total length thereafter. Areas south of Pigeon Point had a minimum size limit of 24 inches total length. Since the existing regulations pertained only to the 2016 season, amending these regulations is essential to allow for any fishing in State waters during 2017.

**Proposed Regulations**

For public notice purposes and to facilitate Commission discussion, the Department of Fish and Wildlife (Department) is proposing the following regulations to encompass the range of federal ocean salmon regulations that are expected to be in effect April 1 through April 30, 2017. This approach will allow the Commission to adopt State ocean salmon recreational fishing regulations to conform to those in effect in federal ocean waters shortly after the federal rules are promulgated.

(1) North of Horse Mountain and in Humboldt Bay: The fishery shall remain closed in this area during April. The remainder of the 2017 season will be decided in April by the PFMC and Commission and the section will be amended pursuant to the regulatory process.

(2) Between Horse Mountain and Point Arena: The season, if any, may open on a date within the range of April 1 through April 30, 2017. The proposed daily bag limit will be from zero to two fish, and the proposed minimum size will be from 20 to 26 inches total length. The exact opening date, along with daily bag limit, minimum size, and days of the week open will be determined by the Commission, considering federal regulations applicable to this area for April 2017.

(3) Between Point Arena and Pigeon Point: The season, if any, may open on a date within the range of April 1 through April 30, 2017. The proposed daily bag limit will be from zero to two fish, and the proposed minimum size will be from 20 to 26 inches total length. The exact opening date, along with daily bag limit, minimum size, and days of the week open will be determined by the Commission, considering federal regulations applicable to this area for April 2017.

(4) Between Pigeon Point and Point Sur: The season, if any, may open on a date within the range of April 1 through April 30, 2017. The proposed daily bag limit will be from zero to two fish, and the proposed minimum size will be from 20 to 26 inches total length. The exact opening date, along with daily bag limit, minimum size, and days of the week open will be determined by the Commission, considering federal regulations applicable to this area for April 2017.

(5) South of Point Sur: The season, if any, may open on a date within the range of April 1 through April 30, 2017. The proposed daily bag limit will be from zero to two fish, and the proposed minimum size will be from 20 to 26 inches total length. The exact opening date, along with
daily bag limit, minimum size, and days of the week open will be
determined by the Commission, considering federal regulations
applicable to this area for April 2017.

It is the policy of the State to encourage the conservation, maintenance, and
utilization of the living resources of the ocean and other waters under the
jurisdiction and influence of the State for the benefit of all the citizens of the
State. In addition, it is the policy of the State to promote the development of
local fisheries and distant-water fisheries based in California in harmony
with international law respecting fishing and the conservation of the living
resources of the ocean and other waters under the jurisdiction and influence
of the State. The objectives of this policy include, but are not limited to, the
maintenance of sufficient populations of all species of aquatic organisms to
ensure their continued existence and the maintenance of a sufficient
resource to support a reasonable sport use, taking into consideration the
necessity of regulating individual sport fishery bag limits to the quantity that
is sufficient to provide a satisfying sport. Adoption of scientifically-based
ocean salmon seasons, size limits, and bag and possession limits provides
for the maintenance of sufficient populations of salmon to maintain their
continued existence.

The benefits of the proposed regulations are concurrence with federal law,
sustainable management of ocean salmon resources, and promotion of
businesses that rely on recreational ocean salmon fishing.

(b) Authority and Reference Sections from Fish and Game Code for Regulation:

Authority: Sections 200, 202, 205, 220, 240, 316.5 and 2084, Fish and
Game Code.

Reference: Sections 200, 202, 205, 316.5 and 2084, Fish and Game Code.

(c) Specific Technology or Equipment Required by Regulatory Change:

None.

(d) Identification of Reports or Documents Supporting Regulation Change:

Council Adopted Management Measures and Environmental Assessment
Part 3 for 2016 Ocean Salmon Fishery Regulations.
(http://www.pcouncil.org/salmon/stock-assessment-and-fishery-evaluation-safe-
documents/preseason-reports/2016-preseason-report-iii/)
(e) Public Discussions of Proposed Regulations Prior to Notice Publication:

No public meetings are being held prior to the notice publication. The 45-day comment period provides adequate time for review of the proposed amendments.

IV. Description of Reasonable Alternatives to Regulatory Action:

(a) Alternatives to Regulation Change:

No alternatives were identified by or brought to the attention of Commission staff that would have the same desired regulatory effect.

(b) No Change Alternative:

The no change alternative would maintain existing regulations which do not provide an ocean salmon recreational fishing season for 2017. Federal regulations are anticipated to open the ocean salmon recreational fishing regulations south of Horse Mountain on April 1, 2017. The State must conform its ocean recreational fishing regulations for salmon in State waters (zero to three miles offshore) to the federal regulations for consistency and to avoid public confusion. Preemption of State regulatory authority by the NMFS could occur if State regulations are in conflict with federal regulations.

(c) Consideration of Alternatives:

In view of the information currently possessed, no reasonable alternative considered would be more effective in carrying out the purpose for which the regulation is proposed, would be as effective and less burdensome to affected private persons than the proposed regulation, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

V. Mitigation Measures Required by Regulatory Action:

The proposed regulatory action will have no negative impact on the environment; therefore, no mitigation measures are needed.

VI. Impact of Regulatory Action:

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

(a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:
The proposed action will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. The Department anticipates status quo fishing levels for April 2017 as compared to the April 2016 ocean salmon sport fishing season.

(b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State’s Environment:

The Commission does not anticipate that the proposed regulations will have any impact on the creation or elimination of jobs, the creation or elimination of businesses or the expansion of businesses in California because no changes in fishing activity levels are expected.

The Commission anticipates benefits to the health and welfare of California residents. Salmon sport fishing contributes to increased mental health of its practitioners, provides opportunities for multi-generational family activities and promotes respect for California’s environment by the future stewards of California’s natural resources.

The Commission anticipates benefits to the State’s environment in the sustainable management of salmon resources.

Additional benefits of the proposed regulations are concurrence with federal law, and promotion of businesses that rely on recreational ocean salmon fishing.

The Commission does not anticipate benefits to worker safety.

(c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

(d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

None.

(e) Nondiscretionary Costs/Savings to Local Agencies:

None.

(f) Programs Mandated on Local Agencies or School Districts:

None.
(g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code:

None.

(h) Effect on Housing Costs:

None.

VII. Economic Impact Assessment:

The proposed regulatory action would amend salmon fishing regulations for the month of April 2017 to be consistent with federal regulations for the federal fishery management zone off California. The proposed action is anticipated to preserve status quo fishing opportunities as compared to the April 2016 ocean salmon sport fishing season.

(a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State:

The Commission does not anticipate any impacts on the creation or elimination of jobs due to the proposed regulation. The Commission anticipates status quo fishing levels for April 2017 as compared to the April 2016 ocean salmon sport fishing season.

(b) Effects of the Regulation on the Creation of New Businesses or the Elimination of Existing Businesses Within the State:

The Commission does not anticipate any impacts on the creation of new businesses or the elimination of existing businesses due to the proposed regulation. The Commission anticipates status quo fishing levels for April 2017 as compared to the April 2016 ocean salmon sport fishing season.

(c) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State:

The Commission does not anticipate any impacts on the expansion of businesses in California due to the proposed regulation. The Commission anticipates status quo fishing levels for April 2017 as compared to the April 2016 ocean salmon sport fishing season.

(d) Benefits of the Regulation to the Health and Welfare of California Residents:

The Commission anticipates health and welfare benefits to California residents from recreation in, and enjoyment of, a sustainable and satisfying salmon fishery.

(e) Benefits of the Regulation to Worker Safety:
The proposed regulations conform to federal fisheries management allowable harvest levels, and ensure a sustainable fishery. As such, the agency is not aware of any consequences to worker safety that could arise from the proposed regulations.

(f) Benefits of the Regulation to the State's Environment:

The Commission anticipates benefits to the environment. Adoption of scientifically-based ocean salmon seasons, size limits, and bag and possession limits ensures sufficient residual populations of salmon and their continued existence.

(g) Other Benefits of the Regulation:

The proposed regulations will provide for resource sustainability thus ensuring the continuation and future enjoyment of the salmon fishery. Maintaining healthy populations of salmon will also translate into sustained economic contributions to the State.
The Pacific Fishery Management Council (PFMC) coordinates west coast management of recreational and commercial ocean salmon fisheries in the federal fishery management zone (three to 200 miles offshore) along the coasts of Washington, Oregon and California. The annual PFMC ocean salmon regulation recommendations are subsequently implemented by the National Marine Fisheries Service (NMFS) effective on May 1 of each year.

California’s recreational salmon fishing regulations need to conform to the federal regulations to achieve optimum yield in California under the federal Salmon Fishery Management Plan. The Fish and Game Commission (Commission) adopts regulations for the ocean salmon recreational fishery in State waters (zero to three miles offshore) which are consistent with these federal fishery management goals.

Present Regulations
Regulations for 2016 [subsections 27.80(c) and (d)] authorized ocean salmon recreational fishing seven days per week north of Horse Mountain including Humboldt Bay from May 16 through May 31, June 16 through June 30, July 16 through August 16, and September 1 through September 5, 2016. Between Horse Mountain and Point Arena, ocean salmon recreational fishing was authorized seven days per week from April 2 to November 13, 2016. Between Point Arena and Pigeon Point, ocean salmon recreational fishing was authorized seven days per week from April 2 to October 31, 2016. Between Pigeon Point and Point Sur, ocean salmon recreational fishing was authorized seven days per week from April 2 to October 31, 2016. Between Pigeon Point and Point Sur, ocean salmon recreational fishing was authorized seven days per week from April 2 to October 31, 2016. For areas south of Point Sur, ocean salmon recreational fishing was authorized seven days per week from April 2 to May 31, 2016. The bag limit for all areas in 2016 was two fish per day (all species except coho). The areas north of Point Arena had a minimum size limit of 20 inches total length. The area between Point Arena and Pigeon Point had a minimum size limit of 24 inches total length through April 30, 2016 and 20 inches total length thereafter. Areas south of Pigeon Point had a minimum size limit of 24 inches total length. Since the existing regulations pertained only to the 2016 season, amendment of these regulations is essential to allow for any fishing in State waters during 2017.

Proposed Regulations
Two separate Commission actions are necessary to conform State regulations to federal rules that will apply in 2017. The first action would amend subsection 27.80(c), establishing salmon fishing regulations for the month of April 2017 consistent with federal regulations for the federal fishery management zone off California. Recreational salmon fishing regulations for May 1 through the end of 2017 will be considered in the second rulemaking action, tentatively scheduled for adoption in April 2017.

For public notice purposes and to facilitate Commission discussion, the Department of Fish and Wildlife (Department) is proposing the following regulations to encompass the range of federal ocean salmon regulations that are expected to be in effect April 1 through April 30, 2017. This approach will allow the Commission to adopt State ocean salmon recreational fishing regulations to conform to those in effect in federal ocean waters shortly after the federal rules are promulgated.
(1) North of Horse Mountain and in Humboldt Bay: The fishery shall remain closed in this area during April. The remainder of the 2017 season will be decided in April by the PFMC and Commission and the section will be amended pursuant to the regulatory process.

(2) South of Horse Mountain: The season, if any, may open on a date within the range of April 1 through April 30, 2017. The proposed daily bag limit will be from zero to two fish, and the proposed minimum size will be from 20 to 26 inches total length. The exact opening date, along with daily bag limit, minimum size, and days of the week open will be determined by the Commission, considering federal regulations applicable to each area for April 2017 and may be different for each area.

The benefits of the proposed regulations are concurrence with federal law, sustainable management of ocean salmon resources, and promotion of businesses that rely on recreational ocean salmon fishing.

The proposed regulations are neither inconsistent nor incompatible with existing State regulations. The legislature has delegated authority to the Commission to adopt sport fishing regulations in general (Sections 200, 202 and 205, Fish and Game Code) and salmon sport fishing regulations specifically (Section 316.5, Fish and Game Code). The proposed regulations are consistent with regulations for sport fishing in marine protected areas (Section 632, Title 14, CCR) and with general sport fishing regulations in Chapters 1 and 4 of Subdivision 1 of Division 1, Title 14, CCR. Commission staff has searched the California Code of Regulations and has found no other State regulations related to the recreational take of salmon in the ocean.
