

California Department of Fish and Wildlife

Our Mission Statement

To manage California's diverse fish, wildlife, and plant resources, and the habitats upon which they depend, for their ecological values and for their use and enjoyment by the public.

Directed by the Legislature, driven by our strategic visioning efforts, and building upon our recent budget evaluation work, CDFW is conducting a comprehensive Service Based Budget (SBB) review.

The Service Based Budgeting Project at CDFW

SBB is a budgeting approach that identifies the tasks needed to accomplish the Department's Mission. This review will help inform the future budget based on detailed cost estimates and staffing requirements needed to complete these tasks. The SBB approach is task-based, labor-focused, and organized by CDFW's services to the public.

The SBB project is governed by a team of CDFW executive leaders and is a collaborative effort of managers and employees from across the Department working alongside independent consultants from Deloitte. Deloitte is a leading management consulting firm with extensive credentials in projects of this kind.

The SBB project is a long-term effort running through 2021, when the Service Based Budget Review Report is due to the Legislature. As milestones are accomplished, internal and external stakeholders will be kept informed.

Questions and Feedback

Please contact the Department at SBBinfo@wildlife.ca.gov with questions or feedback related to the SBB project.

SBB Model
