Los Angeles	Madrona Marsh Preserve and Nature Center	8:45am-12pm Madrona Marsh Preserve	Invasive plants; habitat restoration	Help us remove non-native plants, replace them with locally grown native plants, and pick up trash left at the Preserve. Soon, the work you will have done will attract many birds, butterflies and other insects. Open to adults and students 14 years and older. Children between the ages of 14-18 must have a waiver signed by a parent or legal guardian. Participants must arrive on time and wear close-toed shoes. Snacks and drinks provided at 10:30 a.m. www.friendsofmadronamarsh.com	No
Los Angeles	Palos Verdes Peninsula Land Conservancy	9am – 12pm Portuguese Bend Reserve, 2 Park Place, Rancho Palos Verdes	Invasive plants; habitat restoration	Join us during our Outdoor Volunteer Day at Portuguese Bend Reserve. Our Outdoor Volunteer days are open to all, no experience needed! We will be working on one of our many restoration sites to remove invasive weeds and plant/maintain native shrubs. Your work will help improve the land for people and wildlife alike! Please be aware that this volunteer day includes a small hike to the restoration site (15 minutes). This event is not recommended for small children or disabled persons. This event will meet at Del Cerro Park, next to Portuguese Bend Reserve at the intersection of Crenshaw and Burrell Lane. Thank you for supporting the Palos Verdes Land Conservancy	Yes. www.pvplc.volunteerhub.com
Marin	Richardson Bay Audubon Center and Sanctuary	10am-2pm 376 Greenwood Beach Rd, Tiburon	Invasive plants; habitat restoration	For this 2019 California Invasive Species Action Week we will be heading to Aramburu Island for some habitat restoration work.	Yes. ftorres@ audubon.org

To view the CISAW Map of Events and find additional information, please visit <https://www.wildlife.ca.gov/CISAW>

County	Organization	Time/Location	Project	June 1 - Details	Registration required?
				<p>The project site is located in Richardson Bay, a short boat ride or kayak paddle from our center in Tiburon, CA. The 17-acre island, Aramburu, was created in the early 1960s by dredge spoils and fill from nearby development. Visiting Aramburu Island Sanctuary offers volunteers a great opportunity to view resting and foraging waterbirds. The main task of each volunteer event is to restore the island due to wintering waterbirds using it as a resting spot. We will be pulling invasive plants; this requires some bending over. The work is moderately strenuous.</p> <p>We encourage our volunteers to bring:</p> <ul style="list-style-type: none"> • Good shoes and clothes they don't mind getting dirty • Snacks and/or lunch • Water bottle <p>Those under 16 are REQUIRED to bring an adult volunteer with them. When you RSVP make sure to register all individuals. We are restricted in the number of volunteers we can bring due to the size of our boat and quantity of kayaks, so RSVPs are required.</p>	
Marin	Golden Gate National Parks Conservancy	10am-1pm Golden Gate National Recreation Area, Oakwood Valley	Invasive plants	<p>We will be hand-pulling invasive plants to restore critical habitat for the endangered species, such as Coho salmon and Mission blue butterfly, that call the Golden Gate National Recreation Area home.</p> <p>Volunteers of all ages are welcome, and no experience is necessary. We will provide tools, gloves, work instruction, an interpretive talk, and snack. Be sure to dress in clothes that can get dirty, and please wear long pants and closed-toe shoes. The exact meeting location will be sent after registration, so please RSVP. Community service hours can be provided for this event.</p> <p>We host weekly volunteer programs on Wednesday afternoons and Saturday mornings - please check our calendar at https://www.parksconservancy.org/programs/park-stewardship-marin for more volunteer opportunities!</p>	<p>Yes. https://www.parksconservancy.org/programs/park-stewardship-marin</p>

County	Organization	Time/Location	Project	June 1 - Details	Registration required?
Monterey	Elkhorn Slough Reserve	10am-12pm Elkhorn Slough Reserve, 1700 Elkhorn Road, Watsonville, CA 95076	Invasive plants	Whack the Weeds Work Day: Help us reduce invasive plants at Elkhorn Slough Reserve! Participants will learn about local native and non-native species while helping our stewardship team remove non-native plants around our Visitor Center garden. Tools are provided. No pre-requisite knowledge required, we will train you on-site. A native seed-ball craft station and hands-on activities will be available all day in the Visitor Center.	No
Orange	The Bolsa Chica Conservancy	9am – 12pm Harriett Wieder Regional Park 19251 Seapoint St. Huntington Beach	Invasive plants	<p>Join The Bolsa Chica Conservancy as we work to remove invasive plant species from our habitat restoration site in Harriett Wieder Regional Park.</p> <p>During this service, volunteers will assist Conservancy staff members with removing non-native/invasive plant species from our project site, learn about the past restoration work that has been completed to date, and what it will take to make this project a future success! If you joined in our planting activities last year, you will be amazed with the noticeable changes seen in the park today.</p> <p>Volunteers are an essential part to making this project a future success, and we hope you can all join us on our day of service during the Invasive Species Action Week! Please bring along any family members or friends that would be interesting in lending a helping hand.</p> <p>We recommend arriving 10 - 15 minutes early to secure parking and carpooling if possible as it is fairly limited. Please come in closed-toe shoes, as you will be working in off-road terrain! Come prepared with sun protection with a water bottle, sun glasses, sun screen, and/or a hat!</p> <p>The Conservancy appreciates donations of heavy-duty trash bags, work gloves, neoprene gloves, and paper towels to assist with our habitat restoration projects. Please encourage your participants to bring a donation item if possible.</p>	Yes. https://cisawbcc.eventbrite.com

County	Organization	Time/Location	Project	June 1 - Details	Registration required?
Orange	UC Cooperative Extension	9am-12pm UC ANR South Coast Research & Extension Center, 7601 Irvine Blvd, Irvine	Plants & insects	<p>A series of three classes.</p> <p>June 1 – Landscape Design Basics: Discuss basic best management practices for the urban landscape, including hardscapes, to conserve water and minimize water utilizing low impact plants, mulch, etc. Discuss invasive plants/weeds commonly found/sold in this area – especially Mexican Feather grass, Santa Barbara daisy, and <i>Vinca major</i>.</p> <p>June 8 – Landscape Irrigation and Turf presented by Juan Garcia, IRWD. This class will address common irrigation maintenance and design issues. Introduce water-conserving products currently on the market. Recommend turf types (warm season) and turf alternatives. Discuss use of trees in turf areas. Includes a talk about invasive insect pests found in the urban landscape and basic strategies to minimize/eliminate the problem.</p> <p>June 22 – Design and Irrigation plan review. Review landscape plans drawn by attendees of their home. Break out with Master Gardener volunteer consultation and group input.</p>	<p>Yes, \$60 for 3 classes. http://ucanr.edu/survey/survey.cfm?surveynumber=26456</p>
San Diego	Agua Hedionda Lagoon Foundation	9am-12pm Kelly Trail, Agua Hedionda Lagoon	Invasive plants	<p>The AHLF's June cleanup event will focus on removing invasive plant species from the Kelly Trail. Kelly Trail is a 1 mile public access trail bordering the CDFW Agua Hedionda Lagoon Ecological Preserve. At the event, volunteers will focus on removing invasive species which may spread into the preserve, and help with general trail maintenance.</p>	<p>Yes. info@aguahedionda.org or (760) 804-1969</p>
Ventura	NPS Santa Monica Mtns NRA	9am-12pm Zuma Canyon Trailhead	Invasive plants	<p>Zuma Canyon (Malibu) is a National Park Service site which burned during the 2018 Woolsey fire, damaging young restoration plants and leaving open ground areas susceptible to invasion by aggressive weeds. Volunteers have helped replant natives in lower Zuma since the fire, bringing native cover back to the area. This will be our final planting event for the season, before the summer heat! Our goal for this event is to plant coastal sage scrub species in restoration areas destroyed by the fire. We'll also spend some time controlling invasive species that have encroached on native plantings and surrounding habitat. With the help of the</p>	<p>Yes. https://www.eventbrite.com/e/restoring-zuma-canyon-after-the-woolsey-fire-tickets-6166701169 2</p>
