See reverse for inset maps of the San Francisco Bay and Los Angeles areas, and further regulatory information and gear definitions.

This map is for general informational purposes only and is not to be used for determining the exact boundaries of the listed fishing districts or for other legal and navigational purposes. Districts exist only in state waters three nautical miles from shore.

Gear Definitions	<p>“Troll line” FGC §9025.5(b), §9028: A line with one or more hooks towed by a vessel underway and making way. Troll lines and hand-lines more than 900 feet in length are not permitted unless they are used as set lines.</p> <p>“Set line” FGC §8601, §8601.5(a): Any line used to take fish that is anchored to the bottom on each end and is not free to drift with the tide or current is a set line. Set lines shall be marked at both ends with buoys displaying above their waterlines, in numerals at least 2 in. high, the fisherman’s identification number. It is unlawful to use set lines with hooks more than 100 feet above the anchor or ocean bottom.</p>
Minimum Size Limit	FGC §8392: 22 in. total length. It is permissible to swing or fan the tail.
Season	FGC §8391: Open year-round.
Take Limit	None
FGC §7856(f)	Sturgeon or striped bass shall not be possessed aboard a commercial fishing vessel.
