

Golden Eagle Science Team Update

JANUARY 20, 2019

Golden Eagle Science Team - History

- GEWG established in 2011
- Research Subgroup formed after 1st GEWG meeting
- Research Subgroup renamed the Golden Eagle Science Team, led by CDFW and NDOW.
- Golden Eagle Science Team provides regular updates to the GEWG, and topics addressed within this group may be informed by the GEWG

Golden Eagle Science Team - Purpose

The purpose of the Golden Eagle Science Team is to ensure conservation efforts on eagles in California and Nevada are based on the best available scientific information. Activities may include assessing data gaps, proposing / developing scientific research, providing scientific review and advice to agencies, and ensuring research methods (e.g., inventory, monitoring) are rigorous.

Golden Eagle Science Team – Ongoing Activities

- First meeting is February 21, 2019
- Agenda topics:
 - Database efforts
 - Mortality investigations
 - Updates from USFWS on national eagle news
 - Updates from USFWS on WGET
 - Several research presentations/updates
 - Discussion of a statewide monitoring effort
 - Revisiting a research priority list
