

Supplement to the Final Statement of Reason

**Update to the Initial Statement of Reasons**

Section 364 (x)(4)(A)5:

The proposed change was incorrectly described in the Initial Statement of Reasons (ISOR). The ISOR states that the Department-Administered Muzzleloader Only Tule Elk Hunts is being changed from being opened for 17 consecutive days to twelve consecutive days. The proposed change is to nine consecutive days.

Section 364 (aa)(3)(B)5:

The proposed change was incorrectly described in the ISOR. The Commission is changing the Antlerless Military-Only Tule Elk Hunt from opening on the last Wednesday in September to the second Saturday in November. However, the ISOR stated that this hunt is being changed to open on the third Saturday in November.

**Summary and Response to Public Comments**

Summary and response to comments in the Supplemental Environmental Document are hereby incorporated by reference.

**Correction to the Final Statement of Reasons for Section 364.1**

In one instance, the increase in antlerless and bull tags to the SHARE landowners in Del Norte and Humboldt Counties is incorrectly described as being increased by 12 and eight tags respectively. These increases are actually six and 20 tags respectively.
