Meeting Agenda
August 8, 2019*

California Natural Resources Building – Auditorium, First Floor
1416 Ninth Street, Sacramento, CA 95814

The session will be live streamed; visit www.fgc.ca.gov the day of the meeting.

*This session will be held immediately following the conclusion of the California Fish and Game Commission’s August 7-8 meeting, and will begin at approximately 11:00 AM, or 15 minutes after the Commission meeting concludes.

The Commission is hosting this public listening session to offer stakeholders an opportunity to provide input on what constitutes a “climate resilient water portfolio” for California and, specifically, on water resiliency for fish and wildlife.

State agencies are asking Californians to help shape a roadmap for meeting future water needs and ensuring environmental and economic resilience through the 21st century. Input from the public will help the California Natural Resources Agency, California Environmental Protection Agency, and California Department of Food and Agriculture craft recommendations to fulfill Governor Newsom’s April 29 executive order, calling for a suite of actions to build a climate-resilient water system and ensure healthy waterways.
