Welcome to a meeting of the California Fish and Game Commission’s Wildlife Resources Committee. The Committee is chaired by up to two Commissioners; these assignments are made by the Commission.

The goal of the Committee is to allow greater time to investigate issues before the Commission than would otherwise be possible. Committee meetings are less formal in nature and provide for additional access to the Commission. The Committee follows the noticing requirements of the Bagley-Keene Open Meeting Act. It is important to note that the Committee chairs cannot take action independent of the full Commission; instead, the chairs make recommendations to the full Commission at regularly scheduled meetings.

The Commission’s goal is the preservation of our heritage and conservation of our natural resources through informed decision-making; Committee meetings are vital in developing recommendations to help the Commission achieve that goal. In that spirit, we provide the following information to be as effective and efficient toward that end. Welcome, and please let us know if you have any questions.

PERSONS WITH DISABILITIES
Persons with disabilities needing reasonable accommodation to participate in public meetings or other Commission activities are invited to contact the Reasonable Accommodation Coordinator at (916) 651-1214. Today, DFW will update WRC on its efforts to date, outline its future plans for the proposal, and propose a new timeline. 7. BULLFROGS AND NON-NATIVE TURTLES

Today’s Item Information ☒ Direction ☐
Receive an update on implementation of the bullfrog and non-native turtle stakeholder engagement plan.

Summary of Previous/Future Actions
- FGC stakeholder engagement plan approved Oct 11-12, 2017; Atascadero
- FGC referred plan to WRC Dec 12-13, 2018; Oceanside
- Update and discussion May 16, 2019; WRC; Sacramento Sep 10, 2019; WRC, Santa Rosa

Background
Annually there are approximately two million non-native American bullfrogs and 300,000 non-native turtles (mostly red-eared sliders and softshell turtles) imported into California for food and the pet trade. Even though these species are not imported into California with the intention of being released, they have established wild populations that threaten native amphibians, fish, and wildlife by direct predation, competition for resources and habitat, and disease. See Exhibit 1 for further background.

In Apr 2017, FGC directed FGC staff with DFW's assistance to develop a proposal for stakeholder engagement to further evaluate possible solutions to address the impacts of American bullfrogs and non-native turtles on native wildlife. The staff proposal was presented to FGC in Oct 2017, a revised version was approved by FGC in Oct 2018 (Exhibit 2), and the stakeholder engagement plan was referred to WRC in Dec 2018 to track progress in implementing the plan.

Today, staff will provide an update on progress since the May 2019 meeting, including interagency planning, convening of the environmental/animal welfare team and efforts to convene the industry team.

Melissa Miller-Henson  

Dear Director Miller Henson,  
I have lived in Morro Bay for 35 years and have watched and enjoyed seeing the Black Brant Geese winter in our Estuary. Unfortunately, our eel grass has diminished over the years, not sure why?, so now the Brants have less to eat. Their numbers have gone down to a fraction of what we use to see here.  
Please revisit you 'take' of these geese by hunting.

6. SIMPLIFICATION OF STATEWIDE INLAND FISHING REGULATIONS

Today’s Item  Information ☒  Action ☐
Receive an update on the simplification of statewide inland fishing regulations rulemaking.

Summary of Previous/Future Actions

- Initial WRC introduction  Sep 20, 2018; WRC, Sacramento
- Discussion and “menu” recommendation  Jan 10, 2019; WRC; Ontario
- FGC support of “menu” concept  Feb 6, 2019; Sacramento
- Today’s update and discussion  May 16, 2019; WRC, Sacramento

Background

For years, FGC and DFW have received complaints from anglers about the complexity of freshwater sport fishing regulations. Some anglers (or potential anglers) may be dissuaded from fishing due to actual or perceived difficulty in complying with the regulations. For example, currently there are 212 special regulation waters in Section 7.50(b), including 88 different seasons, 13 different size restrictions, 10 different gear restrictions, and 6 different bag and possession limits.

To help address angler concerns, DFW has proposed to change and simplify inland sportfishing seasons and bag limits, for trout waters only; the proposal excludes anadromous waters. The goals for the revisions are:

- maintain or increase angling opportunity;
- improve regulatory consistency across waters;
- align sport fishing regulations with DFW’s fisheries management goals and objectives;
- reduce complexity and confusion; and
- protect fishery resources.

In basic terms, DFW designed a framework for the simplification based on a “menu” concept, where one of several predefined season and bag limit combinations would be chosen for specific waterways. In Jan 2019, DFW presented its proposed menu approach to WRC. In Feb 2019, FGC approved WRC’s recommendation to support the menu concept, with an expectation that DFW would return to WRC with a more detailed proposal after public outreach meetings.

To date, DFW has held six outreach meetings across the state to solicit input from the public, and has received considerable feedback during and subsequent to the meetings. DFW is currently analyzing and integrating the feedback into its proposal. Today, DFW will update WRC on its efforts to date, outline its future plans for the proposal, and discuss implications for the overall timeline. FGC staff supports the additional effort DFW has made to reach and engage recreational fishermen across the state, and believes that such efforts will ultimately result in a proposal that can be more broadly supported during the rulemaking process.

Recommendation

FGC staff: Recommend that FGC consider today’s discussion regarding potential adjustments to next steps, WRC vetting, and timeline for the statewide inland fishing regulations development and rulemaking. If appropriate, recommend that FGC revise the regulatory timetable to reflect modifications.
