

## Upland Game Bird Account: P1880103

### 2018-19 Final Report

#### CWA Badger Almond Public Hunt Program

Through the Upland Game Bird Account, California Waterfowl's Hunt Program provided 19 hunt dates, reaching 216 upland game bird hunters. The opportunity was held at Goose Lake in Kern County. The property consists of 2,200 acres of upland and wetland habitat. These opportunities were offered through California Waterfowl's Hunt Program via an online lottery system. During the grant cycle, California Waterfowl advertised and promoted these regional hunting opportunities. A total of 19 hunt dates provided 216 upland game hunters the chance to pursue pheasants from December 1 through February 3. In addition to pheasants, hunters were able to harvest doves and waterfowl when in season.

Task 1 ) Advertise and promote hunts: advertisements in Western Outdoor News Southern CA news publication, CWA Magazine, CWA webpage, E News Blast, and Facebook.

Task 2) Design/implement system: Through Active Newtwork. Hunters applied via a lottery system to hunt specific dates throughout the hunting season. Hunters were drawn at random the month prior to hunt date. The new application system was implemented, designed, and running by July 14, 2018.

Task 3). Purchase and Release Pheasants: Purchased from local vendor at lower cost than estimated. This resulted in purchasing 200 additional pheasants.

Task 4-6) Released pheasants and conduct hunts: 900 pheasants were released from December 1-February 3rd. 216 upland game hunters harvested 626 pheasant, during 19 offered hunt dates. Pheasants were released daily and housed on site. CWA obtained the appropriate permits, tags, and signage to make the property an Upland Game Bird Club.
