- Army Corp
- US Fish and Wildlife
- DWR

# Implementation: Monitoring

ENSURE GOALS AND OBJECTIVES ARE MET AND ADAPT IF APPROPRIATE

An aerial photograph of a river winding through a landscape. The river is dark and occupies the right side of the frame. The left bank is densely wooded with green trees. The right bank is a mix of green trees and brown, open fields. In the background, several high-voltage power lines are visible against the sky. The overall scene is a natural, somewhat rural setting.
