

## STAFF SUMMARY FOR APRIL 15-16, 2020

**23. WILDLIFE RESOURCES COMMITTEE****Today's Item****Information** ☐**Action** ☒

- (A) Receive summary from the Mar 5, 2020 WRC meeting, discuss proposed changes to the simplification of statewide inland sport fishing regulations since the WRC meeting, and potentially approve WRC recommendation.
- (B) Receive update on WRC work plan and timeline; discuss and potentially approve new topics for WRC review; and discuss and approve draft agenda topics for the May 14, 2020 WRC meeting.

**Summary of Previous/Future Actions**

- Most recent WRC meeting Mar 5, 2020; WRC, Sacramento
- **Today consider WRC recommendation, new topics, and approve agenda topics** **Apr 15-16, 2020; Teleconference**
- Next WRC meeting May 14, 2020; WRC, Teleconference

**Background**

WRC works under FGC direction to set and accomplish its work plan (Exhibit 1).

**(A) Meeting Summary**

WRC met on Mar 5, 2020 to discuss DFW's proposal for the simplification of statewide inland fishing regulations. A written summary of the meeting is provided in Exhibit 2.

*WRC Recommendations*

Based on public comment and the meeting discussions, WRC recommends that FGC support the proposed regulation changes for the statewide inland sport fishing regulations revision and simplification project, as proposed by DFW and presented during the WRC meeting.

*Updates to the Department's proposal*

WRC anticipated that DFW may incorporate changes to the proposal as a result of dialogue and comments at the Mar 5 meeting. Changes since the WRC meeting include:

1. Bifurcate the statewide regulation into two:
  - *rivers, streams, and creeks* (from last Saturday in Apr through Nov 15 = five trout daily bag limit, 10 trout in possession; and from Nov 16 through the Friday preceding the last Saturday in Apr = 0 trout bag limit, artificial lures with barbless hooks only), and
  - *lakes and reservoirs* (open all year, five trout daily bag limit, 10 trout in possession).
2. Add some waters to the list of *Special Fishing Regulations* in response to bifurcating the statewide regulation:
  - Lake Isabella (Kern County)

## STAFF SUMMARY FOR APRIL 15-16, 2020

- Downstream of Lake Isabella (Kern County)
  - Kings River (Fresno Co.) – (1) downstream of Hwy 180 crossing, and (2) from Pine Flat Road downstream to Cobbles (Alta) Weir.
  - Santa Ana River and Tributaries
  - Lytle Creek and Tributaries
  - Miller Canyon Creek
3. Change the bag/possession limits and/or seasons in:
- Walker River, East Fork
  - Bear Creek (Shasta and Siskiyou counties)
  - Bridgeport Reservoir and Bridgeport Reservoir Tributaries
  - Hobart Creek (Tuolumne County)
  - Mammoth Pool (Fresno and Madera cos.)
  - Mammoth Pool tributaries (Fresno and Madera counties)
  - Salmon Creek (Monterey County)
  - Mono Creek and tributaries (Fresno County)
  - Arroyo Seco River
  - Arroyo Grande Creek
  - Fish Slough
  - Kirman Lake and Tributaries
  - Owens River (134) and (134)(C)

An updated table of the proposal, including details for the above changes, is in Exhibit 3. The table incorporates a new coding system to help reference the various regulatory classes in which each water is being categorized. The coding system is explained in Exhibit 4, along with proposed changes to regulatory text.

Note that, after today's meeting, DFW anticipates it may identify further changes that it would recommend as a consequence of the statewide regulation split. Any further adjustments will be reflected at the notice hearing.

### **(B) Next Meeting**

The next WRC meeting is scheduled for May 14, 2020. Proposed agenda topics for the meeting are:

- Update on bullfrog and non-native turtle stakeholder engagement process
- Initial vetting of annual regulatory packages, including mammal hunting, waterfowl hunting, Central Valley sport fishing, and Klamath River Basin sport fishing

There are no new topics proposed for the May 2020 WRC meeting.

### **Significant Public Comments (N/A)**

## STAFF SUMMARY FOR APRIL 15-16, 2020

**Recommendation**

**FGC staff:** (A) Adopt the WRC recommendation, and further recommend that subsequent changes to the simplification of statewide inland fishing regulations proposal, as discussed today, be incorporated into the notice of proposed regulation. (B) Approve the agenda topics for the May 2020 WRC meeting.

**WRC:** (A) Support the proposed regulation changes for the statewide inland sport fishing regulations revision and simplification project, as proposed by DFW at the Mar 5 WRC meeting.

**Exhibits**

1. [WRC work plan, updated Apr 2, 2020](#)
2. [Summary of Mar 5 WRC meeting](#)
3. [DFW proposal for Section 7.50\(b\), Alphabetical List of Waters with Special Fishing Regulations](#)
4. [History, coding explanation, and proposed regulatory text](#)

**Motion/Direction**

Moved by \_\_\_\_\_ and seconded by \_\_\_\_\_ that the Commission approves the recommendation from the March 5, 2020 Wildlife Resources Committee meeting with additional changes to the simplification of statewide inland fishing regulations proposal, as recommended by the Department and discussed today, incorporated into the notice of proposed regulation. Further, the Commission approves the agenda topics for the May 2020 Wildlife Resources Committee meeting as proposed.

**OR**

Moved by \_\_\_\_\_ and seconded by \_\_\_\_\_ that the Commission approves the recommendation from the March 5, 2020 Wildlife Resources Committee meeting with additional changes to the simplification of statewide inland fishing regulations proposal, as recommended by the Department and discussed today, be incorporated into the notice of proposed regulation, except \_\_\_\_\_. Further, the Commission approves the agenda topics for the May 2020 Wildlife Resources Committee meeting as proposed, except \_\_\_\_\_.

### WILDLIFE RESOURCES COMMITTEE

Committee Co-Chairs: Commissioner Burns and President Sklar

### March 5, 2020 Meeting Summary

Following is a summary of the California Fish and Game Commission (Commission) Wildlife Resources Committee (WRC) meeting as prepared by staff. An audio recording of the meeting is available upon request.

#### Call to order

The meeting was called to order at 1:31 p.m. by Commissioner Burns at the Natural Resources Building, Redwood Room, 1416 Ninth Street, 14<sup>th</sup> Floor, Sacramento, CA 95814. Commissioner Burns gave welcoming remarks.

Wildlife Advisor Ari Cornman outlined meeting procedures and guidelines for participating in Committee discussions, noting that the Committee is a non-decision-making body that provides recommendations to the Commission on wildlife and inland fisheries items. He introduced Commission staff and California Department of Fish and Wildlife (Department) staff. The following Committee members, and Commission and Department staff, attended:

#### **Committee Co-Chairs**

Russell Burns	Present
Eric Sklar	Present

#### **Commission Staff**

Melissa Miller-Henson	Executive Director
Rachel Ballanti	Deputy Executive Director
Ari Cornman	Wildlife Advisor
Craig Castleton	Associate Government Program Analyst
Sherrie Fonbuena	Associate Government Program Analyst

#### **Department Staff**

David Bess	Chief, Law Enforcement Division
Chris Stoots	Captain, Law Enforcement Division
Roger Bloom	Acting Branch Chief, Fisheries Branch
Karen Mitchell	Senior Environmental Scientist (Specialist), Fisheries Branch
Ona Alminas	Senior Environmental Scientist, Regulations Unit

[

### **1. Approve agenda and order of items**

The Committee approved the agenda and order of items.

### **2. Public comment for items not on the agenda**

There was no public comment.

### **3. Simplification of statewide inland fishing regulations**

Roger Bloom asked if any in attendance had attended one of the town halls previously held by the Department. A show of hands indicated that many had. Roger said that the Department was still receiving input from stakeholders through the week before this meeting, and that the day's discussion is to continue to receive input.

#### *Discussion*

A stakeholder asked if there had been changes to the inland fishing regulations within the last month, and Roger acknowledged that there were. Copies of the current proposal were furnished to meeting participants. Co-chair Sklar assured everyone that there would be other opportunities beyond that day's meeting to provide comment.

Roger stated that the Golden Trout Wilderness had been changed to zero bag limit, barbless hook. A commenter asked for an explanation of section 7.0. Roger explained that section 7.0 held the district regulations and the use of bait by district, and under the proposal the district regulations would be repealed but the bait restrictions would remain.

A stakeholder clarified that in the proposal, the way it is currently written, the statewide regulation would apply to all waters in the state, except for specific protected waters that had different regulations listed individually.

A commenter expressed concern that eliminating size restrictions for rainbow trout on the Kern River would prevent trout restoration. Roger answered that, as a stocked river, the Department elected to propose an increase in opportunity in some areas to help protect other hatchery stock elsewhere. The stakeholder stated that he hoped the Kern River tributaries were protected by the proposal.

A stakeholder asked if the current proposal could be replaced with a system of statewide protection (particularly headwaters and tributaries), with specific waters opened individually. He also suggested a regulatory split between "still waters" and "moving waters". Roger answered that the Department considered the former idea, but it would create problems with changes in stocking regime. Also, such a change would result in more regulations than the currently proposed system. Co-chair Sklar asked about the impact on tributaries that typically close for the season but would be open year-round under the proposed regulations. Roger answered that the additional impacts to the tributaries would not be meaningful because many of the areas are inaccessible, and productivity and catch rates fall off precipitously during certain times of the year. The Department tried to balance increasing angling opportunity with conserving resources.

A commenter spoke about the North Yuba River and its tributaries, offered some history, and stated that the fishery was in decline due to predators and algae blooms. He raised concerns with opening the fishing year-round under the statewide regulation. Co-chair Sklar explained the purpose and reasoning behind simplification. Roger stated that the lower section of the North Yuba below highway 49 is already open year-round. Some of the tributaries are designated Wild Trout Waters. The Department is committed to long-term monitoring to detect overfishing and assess the effectiveness of the regulations. Co-chair Sklar said that the Commission wants to hear from the people that know the waters and that the Commission has a system for instituting emergency regulations when necessary. Ari noted that the Department intends to use adaptive management in managing the waters of the state, and that the menu framework embodied by the proposal allows the flexibility to adapt to changes but still maintain the regulatory system.

A commenter stressed the importance of management plans for rivers. Another commenter stressed that regulations should be based on scientific data.

A representative of Trout Unlimited expressed appreciation for the opportunities to provide feedback during development of the proposed regulations. He stressed that regulations should be based on either the best scientific data or substantial public opinion in favor of the change. He defended the existence of “boutique fisheries” to provide a diversity of angling opportunities. He questioned the need for the proposed regulation, stating the current regulations are not overly complex. Chief Bess explained that game wardens in the field regularly hear that the regulations are too complex, and that court cases have been dismissed because the judge could not understand the regulations.

Co-chair Sklar explained that a huge range of people participate in fishing and need to understand the regulations. A stakeholder stated that he can give advice to people who want to fish and encouraged the Department to develop an app for fishing regulations. Roger explained the complexity of the regulatory effort, and that it was a chance to fundamentally reexamine trout management in the state. Chief Bess explained that he counsels his officers to ask why regulations are in place, what the conservation benefit is, and what is being protected, as guidance for how to exercise their discretion. He added that those present at the meeting are subject matter experts in their local conditions, but much of the regulated public are not.

In response to a question, Co-chair Sklar gave examples of the many complaints the commissioners and Department have received about the complexity of the fishing regulations both from the public and the wildlife officers. He reviewed some of the meeting’s previous comments to ensure they were addressed and explained the need to regularly review the regulations. Co-chair Burns and Roger both reiterated that changes could be made to the regulation in the future as needed.

A commenter said that the East Carson River below Hangman’s Bridge only has one angler “refuge” for barbless artificial lures, which was being changed in the proposal, and asked if it and/or others could be preserved in Alpine County. Co-chair Sklar indicated that he wanted to think about the issue some more. Roger spoke about how aligning expectations with the actual experience creates angler satisfaction. He explained that the proposal struck a compromise to allow some opportunity on a stocked fish, angler experience, and protection of the fish populations, and was guided by Department and Commission policy and management goals.

[

A stakeholder discussed the upper Owens River and the regulatory changes that have occurred over the years. He agreed with the proposal to change the Owens River to a zero bag limit but had concerns with the change in gear restrictions. Roger answered that the change was in response to public input, and as a compromise the Department tried to balance experiences and protecting the resources. The stakeholder raised concerns about lobbyists, and Co-chair Burns responded that the Commission listens to all concerns, not just those from lobbyists. Roger offered some information about Department stocking and scientific data in the upper Owens River area.

Co-chair Burns asked if there would be changes to the proposed regulations based on the discussion today, and Roger indicated that the Department would consider all comments. A stakeholder praised the Department and Commission for facilitating public participation. Another stakeholder stated his satisfaction with creating a catch-and-release only, artificial bait rule for tributaries to Lake Tahoe.

Stakeholders asked about and expressed concerns about the resources to implement management, and Melissa Miller-Henson explained that the Department has the responsibility for day-to-day management of the fish resources, not the Commission. Roger added that the Department is looking into citizen science and volunteers to get more data.

A commenter asked about protecting upstream areas of the Carson River, and Roger answered that the experience would be different than under current regulations. Members of the public can always petition the Commission for regulation changes, but changes need to be consistent with policy.

A stakeholder asked about the Department's plans for data collection in the future, and Roger answered that the Department will be working on that after the regulation goes into effect.

A stakeholder raised concerns about stocking techniques and suggested spreading fish around during stocking, as opposed to the current practice of concentrating them.

Ari went over the schedule for future actions, including presenting the recommendation at the April 2020 Commission meeting and the notice hearing in June 2020. The Commission encourages comments at the April meeting, and the Department will present any changes to the proposal at that meeting so that the public is clear what will be proposed for the notice hearing.

### *Committee Recommendation*

WRC recommended that the Commission support the proposed regulation changes for the statewide inland sport fishing regulations revision and simplification project, as proposed by the Department and presented in the materials for the meeting.

### **Adjourn**

The Committee adjourned at 2:56 p.m.

(4) Almanor Lake tributaries (Lassen, Plumas and Shasta Cos.) upstream to the first lake.	Saturday preceding Memorial Day through Nov. 15	5 per day, 10 in possession	Saturday preceding Memorial Day through the last day in February	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	As winter snows shift later into the season, Plumas County fisheries frequently remain accessible into December. A September 30 closure protects spawning populations of wild Brown Trout.
(4.5) American River, North Fork, Middle Fork, South Fork and their tributaries above Folsom Lake (Placer, Eldorado, Amador, and Alpine cos.), <u>except Caples Creek.</u> (See Section 7.50(b)(X))	Last Saturday in Apr. through Nov. 15.	5 per day, 10 in possession	All year	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0			October 1 through the Friday preceding Memorial Day <b>I</b>	0 trout bag, artificial lures with barbless hooks <b>6</b>	A fall through spring angling season in conjunction with a separate summer season to segregate harvest and maximize opportunity. Significant restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations during these seasons, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	These are wild, tail water fisheries, growing in popularity, and potentially important to the conservation of American River steelhead. Adult fish run from Folsom and spawn mostly in tributaries. On the South Fork, Rainbow and Chinook run from December to March, with adults in the 20-30" range. This is near the Sacramento Metro area and word of the size, number and season is spreading, and fishing pressure is increasing. As fishing pressure increases, it is important to continue to protect the spawning run for these wild fisheries.

							increase angling opportunities while reducing population level effects stemming from over-harvest and or associated hooking mortality.	
<b>(12) Arroyo Seco River (Monterey Co.). Also see Section 8.00(c). <del>(A)</del> The main stem Arroyo Seco and tributaries above the waterfall located approximately 3.5 miles upstream from the U.S. Forest Service Ranger Station.</b>	Last Saturday in Apr. through Nov. 15.	5	Move to statewide reg		<b>Saturday preceding Memorial Day through September 30 F</b>	<b>5 trout, no gear restrictions 1</b>	<b>A summer only angling season to protect spring and fall spawning fish populations. Limited daily harvest without additional possession for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.</b>	<b>This is not a stocked or self-sustaining fishery. Recommendation is to keep the current regulation.</b>
(13.5) Bass Lake (Siskiyou Co.).	Feb. 1 through Sept. 30.	5	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	<b>Move to statewide reg for lakes and reservoirs SL</b>		Waters with self-sustaining and stocked fisheries where the maximum catch can be harvested sustainably, with an emphasis on fisheries with high natural production and or some level of stocking.	
<b>* (15) Bear Creek and tributaries (Shasta and Siskiyou <del>Cos.</del> <u>Cos.</u>) between Ponderosa Way bridge and confluence with Fall River.</b>	Saturday preceding Memorial Day through Nov. 15	5 per day, 10 in possession	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	<b>2 trout, artificial lures 3</b>	A summer only angling season to protect spring and fall spawning fish populations. Limited daily harvest without additional possession for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	Public input suggested this regulation to help to protect spawning of Bear Creek trout (brook, rainbow, brown), which includes migratory trout from the Fall River Complex. Harvest is allowed during the summer months.
(17) Bear Creek (San Bernardino Co.) from Big Bear Dam to confluence of Santa Ana River.	All year. Only artificial lures with barbless hooks may be used.	2	All year.	2 trout, artificial lures	All year <b>A</b>	2 trout, artificial lures <b>3</b>		Essentially no change to the current regulation, except for the removal of the requirement for barbless hooks.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
(18.5) Bear River and tributaries (Placer Co.). (A) From Highway 20 south (downstream) 2.5 miles to the abandoned concrete dam (the Boardman Diversion Dam).	Last Saturday in April through Nov. 15 Maximum size limit: 14 inches total length	5 per day, 10 in possession	Saturday preceding Memorial Day through the last day in February	5 trout, no gear restrictions	Saturday preceding Memorial Day through the last day in February <b>G</b>	5 trout, no gear restrictions <b>1</b>	A spring angling closure to protect spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	
(19) Berryessa Lake tributaries (Lake and Napa Cos.).	Last Saturday in Apr. through Nov. 15	5	Saturday preceding Memorial Day through September 30	2 trout, 4 trout in possession, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	2 trout, 4 trout in possession, no gear restrictions <b>2</b>	A summer only season to protect spring and fall spawning fish populations. Limited daily harvest but with additional possession for waters with hatchery supplemented or moderately productive self-sustaining fisheries where there is moderate concern regarding harvest but minimal threat to total population.	Berryessa Lake tributaries fishery is dependent upon wild trout populations. Until trout population can be fully assessed for these tributaries, the bag limit was reduced from 5 fish to 2 fish to help maintain a sustainable fishery.
(19.5) Big Bear Lake tributaries (San Bernardino Co.)	Saturday preceding Memorial Day through last day of Feb.	5 per day, 10 in possession	Move to statewide reg		<b>Move to statewide reg for rivers, streams, and creeks SR</b>		<b>Alignment with traditional season, previous district regulations, and Commission Policy, for both wild and stocked fisheries with a goal of sustainable harvest, while allowing catch and release angling during the other part of the year in an effort to increase angling opportunities while reducing population level effects stemming from over-harvest and or associated hooking mortality.</b>	The proposed change does not significantly reduce angler opportunity and aligns with the simplification goals.
<u>(23) Big Sur River (Monterey Co.).</u> <del>(A) Big Sur River</del> and tributaries above the upstream end of the gorge pool at the boundary of Pfeiffer Big Sur State Park within the Ventana Wilderness Area.	Fourth Saturday in May through October 31.	0 trout, only artificial lures with barbless hooks may be used.			Saturday preceding Memorial Day through September 30 <b>F</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A summer only angling season to protect spring and fall spawning fish populations. Maximum restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	The proposed change does not significantly reduce angler opportunity and aligns with the simplification goals.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
(25.5) Boggy Creek (Fresno Co.) and tributaries (tributary to Thomas Edison Lake).	June 1 through October 15.	5 per day, 10 in possession	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	The proposed change does not significantly reduce angler opportunity and aligns with the simplification goals.
NEW (X) - Boulder Creek (San Diego Co.) upstream of El Capitan Reservoir, and all its tributaries.	All year	2	All year	2 trout, artificial lures	All year <b>A</b>	2 trout, artificial lures <b>3</b>	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	This water is being moved from the District General Regulations. There is no change to the current regulation, except for the removal of the requirement for barbless hooks.
<b>* NEW</b> (26.5) Bridgeport Reservoir <b>and</b> tributaries (Mono Co.). <del>All Bridgeport Reservoir tributaries</del> except Swauger Creek, from Bridgeport Reservoir upstream to Highway 395, and Swauger Creek, from Bridgeport Reservoir upstream to the private property fence line above the Forest Service campground.	Last Saturday in April through the Friday preceding Memorial Day and Oct. 1 through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures <b>with</b> barbless hooks may be used.	<b>1</b>	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	Last Saturday in April through Nov. 15 <b>B</b>	5 trout, no gear restrictions <b>1</b>	Waters with self-sustaining and stocked fisheries where the maximum catch can be harvested sustainably, with an emphasis on fisheries with high natural production and or some level of stocking.	<b>In response to public input, DFW is proposing to keep the current trout season for resort lakes in Inyo and Mono cos. to support local economic needs, public safety concerns, and local business operations.</b> Bridgeport Reservoir is moved from the Sierra District Regulation to join its tributaries and keep the traditional trout season of April-November. Higher summer bag limit reduced for simplification purposes.
	Saturday preceding Memorial Day through Sep. 30.	5 per day, 10 in possession	October 1 through the Friday preceding Memorial Day	0 trout, artificial lures with barbless hooks	-	-		Winter, and spring opportunity was considered in 2019, then decided to close to fishing to maintain the trout opener, and to keep it closed for safety during the winter.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
(27.5) Bucks Lake	All year.	5 trout per day. 10 trout in possession. 10 landlocked salmon per day. 20 landlocked salmon in possession.			Move to statewide reg for lakes and reservoirs <b>SL</b>		Waters with self-sustaining and stocked fisheries where the maximum catch can be harvested sustainably, with an emphasis on fisheries with high natural production and or some level of stocking.	No change to current regulation.
(28) Bucks Lake tributaries (Plumas Co.).	Saturday preceding Memorial Day through Sept. 30.	5 per day, 10 in possession	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	No change to current regulation, except for removal of possession limit.
(28.5) Burney Creek (Shasta Co.) from Burney Creek Falls downstream to Lake Britton.	Last Saturday in April through Nov. 15. Only artificial lures with barbless hooks may be used.	2 trout Maximum size limit: 14 inches total length.	All year	0 trout, artificial lures with barbless hooks	All year <b>A</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A year-round angling season to maximize opportunity while at the same time utilizing restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	Reduced bag and gear restrictions to protect resident and lake run wild trout populations.
(29) Butano Creek (San Mateo County) (A) Above Butano Falls	Last Saturday in April through Nov. 15	5 per day, 10 in possession	Saturday preceding Memorial Day through September 30	0 trout, artificial lures with barbless hooks	Saturday preceding Memorial Day through September 30 <b>F</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A summer only angling season to protect spring and fall spawning fish populations. Maximum restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	The low seasonal flow and sporadic densities of small wild trout is the purpose for reducing the take of trout on Butano Creek. Further scientific investigation is warranted. This is not a trophy trout water and only small wild trout are maintained.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
(30) Butt Creek and Butt Valley Reservoir Powerhouse Outfall (Plumas Co.).								
(A) Butt Creek.	Saturday preceding Memorial Day through Nov. 15.	5 per day, 10 in possession	Saturday preceding Memorial Day through the last day in February	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	As winter snows shift later into the season, Plumas County fisheries frequently remain accessible into December. A September 30 closure protects spawning populations of wild Brown Trout.
(B) Butt Valley Reservoir powerhouse outfall, from the powerhouse, downstream to a marker adjacent to Ponderosa Flat Campground.	Saturday preceding Memorial Day through Feb. 28.	2	Saturday preceding Memorial Day through the last day in February	2 trout, 4 trout possession limit, no gear restrictions	Saturday preceding Memorial Day through the last day in February <b>G</b>	2 trout, 4 trout possession limit, no gear restrictions <b>2</b>	Spring angling closure to protect spawning fish populations. Limited daily harvest, with additional possession, for waters with hatchery supplemented or moderately productive self-sustaining fisheries where there is moderate concern regarding harvest but minimal threat to total population.	No change to current regulation except for an added possession limit.
(31) Butt Valley Reservoir (Plumas Co.).	All year	2	All year	2 trout, 4 trout possession limit, no gear restrictions	All year <b>A</b>	2 trout, 4 trout possession limit, no gear restrictions <b>2</b>	A year-round angling season to maximize opportunity with limited daily harvest, with additional possession, for waters with hatchery supplemented or moderately productive self-sustaining fisheries where there is moderate concern regarding harvest but minimal threat to total population.	No change to current regulation except for an added possession limit.
(34) Cache Creek and tributaries (Lake Co.).	Last Saturday in Apr. through Nov. 15	5	Move to statewide reg		Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	The proposed angling season would protect important adult spawning periods, which are critical to maintaining these trout populations. The proposed change does not significantly reduce angler opportunity and aligns with the simplification goals.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
* (35.6) Canyon Creek upstream of the falls located about four miles north of the wilderness area boundary. (Trinity Co.)	Last Saturday in April through November 15.	2	Move to statewide reg		Move to statewide reg for rivers, streams, and creeks <b>SR</b>		Alignment with traditional season, previous district regulations, and Commission Policy, for both wild and stocked fisheries with a goal of sustainable harvest, while allowing catch and release angling during the other part of the year in an effort to increase angling opportunities while reducing population level effects stemming from over-harvest and or associated hooking mortality.	Although a popular trailhead ascending into the Trinity Alps, the remoteness and seasonal access will limit harvest potential.
NEW (X)- Caples Creek from the confluence with the Silver Fork American River upstream to Caples Lake Dam (El Dorado and Alpine cos.)	Last Saturday in Apr. through Nov. 15.	5 per day, 10 in possession			All year <b>A</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A year-round angling season to maximize opportunity while at the same time utilizing restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	Caples Creek is a California Fish and Game Commission designated Wild Trout Stream. The fishery is managed for wild Rainbow Trout, Brown Trout, and Brook Trout. Recent surveys (2017) found the upper section near the confluence with Kirkwood Creek is shifting to a predominantly wild Brook Trout fishery from a predominantly wild Rainbow Trout and wild Brown Trout fishery with somewhat low densities, particularly Brown Trout. The management objective for Caples Creek is to maintain a catch rate of 2 fish per hour and the recommended daily bag, possession limit and gear restriction is to align the regulation with the management objective.
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures	0						

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
	with barbless hooks may be used.							
(35.7) Caribou Reservoir (Plumas County)	Last Saturday in Apr. through Nov. 15	2	Move to statewide reg		Move to statewide reg for lakes and reservoirs <b>SL</b>		Waters with self-sustaining and stocked fisheries where the maximum catch can be harvested sustainably, with an emphasis on fisheries with high natural production and or some level of stocking.	
(38) Carson River, East Fork and tributaries (Alpine Co.). (B) Carson River, East Fork from Hangman's Bridge downstream to Nevada State Line.	All year. Only artificial lures with barbless hooks may be used.	0	Move to statewide reg		All year <b>A</b>	2 trout, artificial lures, 14 inch minimum <b>4</b>	A year-round angling season to maximize opportunity with limited selected harvest and protection for smaller age classes. Allows most individuals to spawn prior to entering the fishery.	Protect populations of wild brown and Rainbow Trout and Mountain Whitefish while still allowing harvest of hatchery fish, 100% of which were over 10" (Weaver and Mehalick, 2008) which may have entered this area.
<del>(39.3) Castle Creek (Shasta Co.)</del>	<del>Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.</del>	<del>0</del>	<del>-</del>	<del>-</del>				Covered under Sacramento River regulation above Shasta Lake 7.50(b) 156.
(39.5) <del>Cedar</del> Cedar Creek and tributaries upstream from Moon Lake access road (Lassen Co.).	Closed to all fishing all year		Saturday preceding Memorial Day through the last day in February	5 trout, no gear restrictions	Saturday preceding Memorial Day through the last day in February <b>G</b>	2 trout, artificial lures <b>3</b>	A spring angling closure to protect spawning fish populations. Limited daily harvest without additional possession for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	Stream is not stocked, more protection for wild trout while providing angling opportunity.
(42) Clear Lake tributaries (Lake Co.).	Last Saturday in Apr. through Nov. 15	5	Move to statewide reg		All year <b>A</b>	0 trout, artificial lures with barbless hooks <b>7</b>	A year-round angling season to maximize opportunity while at the same time utilizing restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest	Wild Rainbow Trout in Clear Lake tributaries encounter diversions, poor water quality and high temperatures. The proposed bag and gear limits are intended to provide protection to those fish.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
							of spawning fish, or to achieve fast action or trophy fisheries.	
(42.5) Cold Creek (Fresno Co.) and tributaries (tributary to Thomas Edison Lake).	June 1 through October 15.	5 per day, 10 in possession	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	The proposed change does not significantly reduce angler opportunity and aligns with the simplification goals.
(43) Convict Creek (Mono Co.).								
(B) Convict Creek downstream of the U.C. study area.	Last Saturday in April through the Friday preceding Memorial Day and Oct. 1 through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures with barbless hooks may be used.	2	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	Fall, winter, and spring opportunity was considered in 2019, then decided to close to fishing in fall, winter and spring to protect spawning fish (Rainbow Trout, Lahontan Cutthroat Trout and Brown Trout).
	Saturday preceding Memorial Day through Sept. 30.	5 per day, 10 in possession.	October 1 through the Friday preceding Memorial Day	0 trout, artificial lures with barbless hooks	-	-		Closed to protect spawning trout populations.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
* (C) Convict Creek upstream of the U.C. study area.	Last Saturday in April through Nov. 15.	5 per day, 10 in possession.	Move to statewide reg		Move to statewide reg for rivers, streams, and creeks SR		Alignment with traditional season, previous district regulations, and Commission Policy, for both wild and stocked fisheries with a goal of sustainable harvest, while allowing catch and release during the other part of the year in an effort to increase angling opportunities while reducing population level effects stemming from over-harvest and or associated hooking mortality.	Stocked water through campgrounds and resort area. Wilderness section above lake inaccessible in winter. Provides opportunity for catch and release angling in the winter.
* NEW (X) - Convict Lake (Mono County)	Last Saturday in Apr. through Nov. 15	5 per day, 10 in possession			Last Saturday in April through Nov. 15 B	5 trout, no gear restrictions 1		Convict Lake is moved from the Sierra District Regulation. In response to public input, DFW is proposing to keep the current trout season for resort lakes in Inyo and Mono cos. to support local economic needs, public safety concerns, and local business operations.
(48) Cottonwood Creek (Inyo Co.) and all tributaries upstream from the confluence of the main stem Cottonwood Creek and Little Cottonwood Creek, including the unnamed tributaries flowing through Horseshoe Meadow.					All year A	2 trout, artificial lures 3	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	
(A) Cottonwood Creek main stem between mouth of Little Cottonwood Creek and South Fork of Cottonwood Creek.	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used	0	Move to statewide reg	-		-		(A) and (B) combined into subparagraph for Cottonwood Creek above.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
<del>(B) Cottonwood Creek (1) and tributaries upstream from the confluence of South Fork Cottonwood Creek, (2) Little Cottonwood Creek and tributaries, (3) the South Fork of Cottonwood Creek and tributaries, and (4) the unnamed tributary flowing through Horseshoe Meadow.</del>	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used	5	Move to statewide reg	-	-	-		(A) and (B) combined into paragraph for Cottonwood Creek above.
(49) Cottonwood Creek drainage lakes (Inyo Co.).								
(A) Cottonwood Lakes 1, 2, 3 and 4 and their tributaries (Inyo Co.).	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used.	0	All year	2 trout, 4 trout in possession, no gear restrictions	September 1 through November 30 <b>H</b>	2 trout, artificial lures, 14 inch minimum <b>4</b>	A fall season to allow angling during the fall when summer temperatures make angling impacts more significant with limited selected harvest and protection for smaller age classes. Allows most individuals to spawn prior to entering the fishery.	California's only broodstock lakes for California Golden Trout.
(B) All remaining Cottonwood Creek drainage lakes.	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used	5	Move to statewide reg		All year <b>A</b>	2 trout, artificial lures <b>3</b>	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	Limit take to increase size of Golden Trout.
<del>(49.5) Cottonwood Creek and tributaries (Modoc Co.).</del>	<del>Saturday preceding Memorial Day through Nov. 15. Only artificial lures with barbless hooks may be used.</del>	0	-	-				Covered under new "Goose Lake tributaries" regulation.

(53.5) Davis Creek ( <u>Goose Lake tributary</u> ) and tributaries (Modoc Co.)	Saturday preceding Memorial Day through Nov. 15.	0	Saturday preceding Memorial Day through the last day in February	5 trout, no gear restrictions	Saturday preceding Memorial Day through the last day in February <b>G</b>	5 trout, no gear restrictions <b>1</b>	A spring angling closure to protect spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	Mixed trout species. Public opportunity to catch and keep trout in the area. Bag limit and gear restrictions to allow for take of Brown Trout which are more prevalent than native Goose Lake Redband Trout.
(54) Davis Lake tributaries (Plumas Co.).	Saturday preceding Memorial Day through Nov. 15.	5 per day, 10 in possession	Saturday preceding Memorial Day through the last day in February	5 trout, no gear restrictions	Saturday preceding Memorial Day through the last day in February <b>G</b>	5 trout, no gear restrictions <b>1</b>	A spring angling closure to protect spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	Increase in angling opportunity while protecting spring spawners.
(54.5) Deadman Creek (Mono Co.).								
(A) Deadman Creek downstream from Hwy. 395. See Owens River 7.50(b)(134).	Last Saturday in April through Nov. 15. Maximum size limit: 16 inches total length. Only artificial lures with barbless hooks may be used.	2	All year	0 trout, artificial lures with barbless hooks	All year <b>A</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A year-round angling season to maximize opportunity while at the same time utilizing restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	Deadman Creek is often dry above Big Springs. The goal is to protect fish when present, namely Rainbow Trout and Brown Trout.
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used	0	-					

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
* (B) Deadman Creek upstream from Hwy. 395.	Last Saturday in April through Nov. 15.	5 per day, 10 in possession.	Move to statewide reg		Move to statewide reg for rivers, streams, and creeks <b>SR</b>		Alignment with traditional season, previous district regulations, and Commission Policy, for both wild and stocked fisheries with a goal of sustainable harvest, while allowing catch and release angling during the other part of the year in an effort to increase angling opportunities while reducing population level effects stemming from over-harvest and or associated hooking mortality.	Extending the angling season will increase angling opportunity on a stocked water that goes through a USFS campground. Provides opportunity for catch and release angling in the winter.
(55) Deep Creek (San Bernardino Co.) from headwaters at Little Green Valley to confluence of Willow Creek.	All year. Only artificial lures with barbless hooks-may be use	2	All year.	2 trout, artificial lures	All year. <b>A</b>	2 trout, artificial lures <b>3</b>	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	Essentially no change to the current regulation, except for the removal of the requirement for barbless hooks.
(58) Diaz Lake (Inyo Co.).	First Saturday in Mar. through Nov. 15.	5 per day, 10 in possession	Move to statewide reg		Move to statewide reg for lakes and reservoirs <b>SL</b>		Waters with self-sustaining and stocked fisheries where the maximum catch can be harvested sustainably, with an emphasis on fisheries with high natural production and or some level of stocking.	Currently open year-round. Cold water fishery in winter (trout stocked). Warm water fishery in summer (trout not stocked due to temp). Proposed change would allow a possession limit year-round.
	Nov. 16 through the Friday preceding the first Saturday in Mar.	5						Moved to a statewide regulation for lakes and reservoirs.
NEW – (X) Dismal Creek (Modoc County)	Saturday preceding Memorial Day through Nov. 15	5 per day, 10 in possession	Saturday preceding Memorial Day through the last day in February	0 trout, artificial lures with barbless hooks	Saturday preceding Memorial Day through the last day in February <b>G</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A spring angling closure to protect spawning fish populations. Maximum restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of	Special regulation to protect Warner Lake Redband Trout.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
							spawning fish, or to achieve fast action or trophy fisheries.	
(61) Eagle Lake and tributaries (Lassen Co.).								
(A) Eagle Lake.	Saturday preceding Memorial Day through Dec. 31.	2 per day, 4 in possession.	Saturday preceding Memorial Day through the last day in February	2 trout, 4 trout in possession, no gear restrictions	Saturday preceding Memorial Day through the last day in February <b>G</b>	2 trout, 4 trout in possession, no gear restrictions <b>2</b>	A spring angling closure to protect spawning fish populations. Limited daily harvest, with additional possession, for waters with hatchery supplemented or moderately productive self-sustaining fisheries where there is moderate concern regarding harvest but minimal threat to total population.	Public comments noted. Winter angling activity will likely be minimal due to cold conditions and poor access (winter road conditions), impacts from take during this time are anticipated to be insignificant; safety issues may arise if ice fishing is possible, however people have ice fished on the lake previously during the existing season.
(B) Eagle Lake inside the break-water at the Gallatin Marina and Pine Creek Slough and Pine Creek below State Highway 44.	Closed to all fishing all year.		Closed to all fishing all year.		Closed to all fishing all year.			Change includes clarification to water area boundary.
(C) Eagle Lake tributaries, including Pine Creek above State Hwy. 44.	Saturday preceding Memorial Day through Nov. 15.	5 per day, 10 in possession	Closed all year		Saturday preceding Memorial Day through the last day in February <b>G</b>	5 trout, no gear restrictions <b>1</b>	A spring angling closure to protect spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	This section was proposed for closure during Eagle Lake Rainbow Trout restoration efforts. Restoration has been delayed/changed; therefore, continued angling with take will not hinder restoration efforts at this time. Public comments noted.
(63) Eel River (Humboldt, Lake, Mendocino and Trinity cos.).

NEW (X) -Kitchen Creek (San Diego Co.) upstream of Lake Morena, and all its tributaries.			All year	2 trout, artificial lures	All year <b>A</b>	2 trout, artificial lures <b>3</b>	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	This water is being moved from the Southern District Regulations to keep current 2 trout bag limit. There is no change to current regulation, except for the removal of the requirement for barbless hooks.
(91) Klamath River Regulations (See Section 1.74 for salmon punch-card requirements.								
(A) Klamath River main stem and all tributaries above Iron Gate Dam, except Shovel Creek and tributaries. The Klamath River main stem within 250 feet of the mouth of Shovel Creek is closed to all fishing November 16 through June 15.	Last Saturday in Apr. through Nov. 15	5 per day, 10 in possession	Saturday preceding Memorial Day through September 30	5 trout, no gear restrictions	Saturday preceding Memorial Day through September 30 <b>F</b>	5 trout, no gear restrictions <b>1</b>	A summer only angling season to protect spring and fall spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	Remote fishery with little pressure. Allow take during non-spawn season, similar to previous reg. Zero limit for the remainder of the year to protect spawning fish and allow angling opportunity. Self-sustaining, wild trout fishery.
					October 1 through the Friday preceding Memorial Day <b>I</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A fall through spring angling season in conjunction with a separate summer season to segregate harvest and maximize opportunity. Significant restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations during these seasons, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	
(B) Shovel Creek and tributaries above mouth of Panther Creek.	Last Saturday in Apr. through Nov. 15.	5	-	-				Combined paragraphs (B) and (C) for Klamath River for simplification purposes.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
<del>(C) Shovel Creek and tributaries up to and including Panther Creek.</del>	<del>Closed to all fishing all year</del>							Not applicable with revisions to A of this subsection.
(96) Lagunitas Lake (Marin Co.).	All year. Maximum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used	2	All year	2 trout, artificial lures	All year <b>A</b>	2 trout, artificial lures <b>3</b>	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	Lagunitas Lake is stocked by CDFW with hatchery trout to maintain a "Put-And-Take" fishery. "Put-And -Take" fisheries are meant for anglers to harvest the stocked fish. A maximum size limit and barbless hook requirements work counter to the objective of this fishery. Since this lake has a lower a number of stocking events, a 2 fish limit may allow more trout to persist throughout the regional stocking season versus a 5 trout limit.
(96.5) Lane Lake (Mono Co.).	Last Saturday in Apr. through Nov. 15.	2	All year	2 trout, artificial lures	All year <b>A</b>	2 trout, artificial lures <b>3</b>	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	
<del>(98) Lassen Creek and tributaries (Modoc Co.)</del>	<del>Saturday preceding Memorial Day through Nov. 15. Only artificial lures with barbless hooks may be used.</del>	<del>0</del>	<del>-</del>	<del>-</del>				Covered under new "Goose Lake and tributaries" regulation.

<del>(A) Pine Creek Slough and Pine Creek below State Highway 44.</del>	Closed to fishing all year							Moved under Eagle Lake regulations for simplification purposes.
<del>(B) Pine Creek above State Highway 44.</del>	Saturday preceding Memorial Day through Nov. 15.	5 per day 10 in possession	-	-				Moved under Eagle Lake regulations for simplification purposes.
(139.5) Pine Creek (Goose Lake Tributary) and tributaries (Modoc Co.).	Saturday preceding Memorial Day through November 15. Only artificial lures with barbless hooks may be used.	0			Saturday preceding Memorial Day through the last day in February <b>G</b>	5 trout, no gear restrictions <b>1</b>	A spring angling closure to protect spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	Mixed trout species. Public opportunity to catch and keep trout in the area. Bag limit and gear restrictions to allow for take of Brown Trout which are more prevalent than native Goose Lake Redband Trout.
NEW (X) - Pine Valley Creek (San Diego Co.) upstream of Barrett Lake, and all its tributaries.	All year. Only artificial lures with barbless hooks may be used.	2	All year	2 trout, artificial lures	All year <b>A</b>	2 trout, artificial lures <b>3</b>	A year-round angling season to maximize opportunity with limited daily harvest, without additional possession, for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	This water was moved from the Southern District Regulations. There is no change to the current regulation, except for the removal of the requirement for barbless hooks.
(141) Pit River (Shasta and Modoc cos.).								
<del>*(A) Pit River (Modoc County)</del> from the Hwy 395 bridge/South Fork Pit River crossing near the town of Likely downstream to the Highway 299 (Canby) bridge/Pit River crossing.	All year	0	All year	0 trout, artificial lures with barbless hooks	Move to statewide reg for rivers, streams, and creeks <b>SR</b>		<b>Alignment with traditional season, previous district regulations, and Commission Policy, for both wild and stocked fisheries with a goal of sustainable harvest, while allowing catch and release angling during the other part of the year in an effort to increase angling opportunities while reducing population level effects</b>	This section of river supports a fishery more typical of a warm water fishery, trout are not common. Most anglers seek sunfish and catfish, this section of river should be moved to statewide reg. The purpose of the old regulation was to provide an extended season for species other

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
							stemming from over-harvest and or associated hooking mortality.	than trout; with the new statewide year-round season, this reg is not needed. Other sections of the upper Pit River need to be addressed (upper North and South forks)
NEW (A) Pit River, South Fork (Modoc Co.) and tributaries upstream of the Highway 395 bridge in Likely.					Saturday preceding Memorial Day through the last day in February <b>G</b>	5 trout, no gear restrictions <b>1</b>	A spring angling closure to protect spawning fish populations. Minimum restrictions on harvest and gear for robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries where the maximum catch can be harvested sustainably.	(Addition from public) waters not listed would fall under statewide reg, year-round season; could have adverse impacts on wild trout populations in tributaries due to over-fishing/harvest during spawning season. Provide opportunity for stocked trout (in SF Pit) and wild Brown Trout (upper tributaries) angling.
NEW (B) - Pit River, North Fork (Modoc Co.) and tributaries from the confluence with the South Fork in Alturas upstream to (including) Franklin Creek.					Saturday preceding Memorial Day through the last day in February <b>G</b>	2 trout, artificial lures <b>3</b>	A spring angling closure to protect spawning fish populations. Limited daily harvest without additional possession for less productive self-sustaining fisheries where there is moderate concern regarding harvest with minimal threat to total population.	Waters not listed would fall under statewide reg, year-round season, 5/10 bag/possession, no gear restrictions; could have adverse impacts on wild native trout populations due to over-fishing/harvest. Provide angling opportunity while giving some protection to wild/native Redband Trout, avoiding spawning season with a small bag limit.
( <del>B</del> C) From Pit No. 3 (Britton Dam) downstream to the outlet of the Pit No. 3 Powerhouse.	Last Saturday in Apr. through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures with barbless hooks may be used.	2			All year <b>A</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A year-round angling season to maximize opportunity while at the same time utilizing restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	Reduced bag limit to provide reprieve to a popular fishery while allowing a year-round angling opportunity and simplifying the regulations.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0						Moved to a year-round regulation.
(C) Pit River, from Pit No. 3 Powerhouse downstream to Pit No. 7 dam-Shasta Lake.	Last Saturday in Apr. through Nov. 15.	5			All year <b>A</b>	2 trout, 4 trout in possession, no gear restrictions <b>2</b>	A year-round angling season to maximize opportunity with limited daily harvest, with additional possession, for waters with hatchery supplemented or moderately productive self-sustaining fisheries where there is moderate concern regarding harvest but minimal threat to total population.	Reduced bag limit was a compromise to allow year-round harvest.
-	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0						Moved to a year-round regulation.
(D) From Pit No. 7 dam downstream to Shasta Lake.	All year.	5	-	-				Combined former paragraphs (D) into new paragraph (D) for Pit River for simplification purposes.
(144) Portuguese Creek, West Fork (Madera Co.) from headwaters downstream to confluence with the East Fork Portuguese Creek.	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used	0	Saturday preceding Memorial Day through the last day in February	0 trout, artificial lures with barbless hooks	Saturday preceding Memorial Day through the last day in February <b>G</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A spring angling closure to protect spawning fish populations. Maximum restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	Proposed regulation protects spawning populations of Lahontan Cutthroat Trout with minimal loss of angler opportunity in the spring season and provides additional angling opportunity in the winter.

Body of Water	Current Open Season and Special Regulations	Current Daily Bag and Possession Limit	2019 Proposed Open Season	2019 Proposed Daily Bag, Possession Limit, & Gear Restrictions	2020 Proposed Open Season	2020 Proposed Daily Bag, Possession Limit, & Gear Restrictions	Justification/Rationale Based on Fisheries Management Goals and Objectives	Additional Comments and Considerations (e.g., Biological, Public Input, Traditional Values, Socioeconomics)
<b>* (145) Prosser Creek from the Prosser Reservoir dam downstream to the confluence with the Truckee River (Nevada Co.).</b>	Last Saturday in Apr. through Nov. 15. Minimum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used.	2	All year	2 trout, 4 fish possession limit, no gear restrictions	All year <b>A</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A year-round angling season to maximize opportunity while at the same time utilizing restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	Significant restoration was recently completed in Prosser Creek to increase spawning habitat for trout. A zero trout limit will protect spawning populations of wild trout and migrating trout searching out coldwater refuge from the Truckee River.
(146) Purisima Creek (San Mateo Co.).	Last Saturday in Apr. through Nov. 15	5 trout	Saturday preceding Memorial Day through September 30	0 trout, artificial lures with barbless hooks	Saturday preceding Memorial Day through September 30 <b>F</b>	0 trout, artificial lures with barbless hooks <b>6</b>	A summer only angling season to protect spring and fall spawning fish populations. Maximum restrictions on harvest and gear to reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.	The low seasonal flow and sporadic densities of small wild trout is the purpose for reducing the take of trout on Purisima Creek.
(147) Putah Creek (Solano and Yolo Cos.) <del>from Solano Lake to Monticello Dam.</del>	All year. Only artificial lures and with barbless hooks may be used.	0 trout			All year <b>A</b>	0 trout, artificial lures with barbless hooks <b>6</b>		Amend area boundary description to clarify that the regulation includes Solano Lake.
(150.5) Robinson Creek (Mono Co.).

**California Department of Fish and Wildlife**  
**Simplification of Statewide Inland Fishing Regulations Trout Regulations**  
**History, Coding Explanation, and Proposed Regulatory Text**  
*Updated for April 15-16, 2020 FGC Meeting*

History

In 2012, the Department of Fish and Wildlife (Department) presented to the Fish and Game Commission (Commission) its proposal to conduct a comprehensive evaluation of the inland (freshwater) sport fishing regulations to address complaints from anglers regarding such regulations. Many waters have not been monitored for regulation effectiveness, and changes in hatchery stocking and angling practices warranted an updated evaluation of the sport fishing regulations. The Commission agreed the regulations were complex and gave its support for this Simplification of Statewide Inland Fishing Regulations effort (Project). The Department has been working to develop a process to simplify sport fishing regulations guided by five tenets:

1. Maintain or increase angling opportunity;
2. Improve regulatory consistency across waters;
3. Align sport fishing regulations with the Department's current fisheries management goals and objectives;
4. Reduce complexity and confusion; and
5. Protect the resources.

Purpose

As part of the Project, the Department has developed a suite of regulations, or "menu," comprised of angling seasons, bag and possession limits, size limits, and gear restrictions, to standardize and reduce the number of Special Fishing Regulations in Title 14, Subsection 7.50(b) and eliminate inland waters from the District General Regulations in Title 14, Section 7.00(a-g). This menu is the foundation of Project. The Commission endorsed the menu of inland trout regulations, as described below, allowing the Department to select from a standardized suite of established management approaches. As the menu has evolved between 2019 and 2020, Department staff have worked with stakeholders to assess and select the most appropriate regulations for inland trout waters statewide.

Trout Regulations Menu and Coding

After significant review of Special Fishing Regulations in Title 14, Section 7.50(b) it became apparent much of the complexity and associated public frustration stemmed from the diversity of different regulations established over decades that had limited alignment or consistency. The use of District Fishing Regulations in Title 14, Section 7.00 increases confusion and inconsistency by applying political boundaries in contrast to the watershed approach found within the Special Fishing Regulations. Although some of the regulations fit with apparent management objectives, others did not, or were no longer valid for current fisheries. The regulations menu described below is the result of a collaborative effort by fisheries biologists throughout the state to standardize the

Special Fishing Regulations based on fisheries management goals, which include maximizing fishing opportunity (most liberal) and protecting sensitive fishery populations (most conservative). The process for developing the menu started with identifying the frequency of the most commonly used special regulations, identifying valid/invalid regulations, and then consolidating the valid regulations into a suite of biologically justifiable regulations that most effectively manage California's trout populations. By achieving statewide consistency across inland trout waters within Special Fishing Regulations, the District General Regulations in Title 14 Section 7.00 have been pared down and replaced by a Statewide Regulation for all inland trout waters, which are described in newly added Section 5.85.

The menu described below is divided into three categories (Statewide Regulation, Season, and Bag/ Possession Limits plus Gear Restrictions) of varying options for the 200+ inland waters in the State of California. The Statewide Regulation is designated by "SL" for lakes and reservoirs (subsection 5.85(a)(1)), and "SR" for Rivers and Streams (subsection 5.85(a)(2)), the Season is designated by capital letters for options A-J, and the Bag/ Possession Limits plus Gear Restrictions is designated by numbers for options 1-7. A coding for combined options of B5, for instance, would signify a water with a Season of Last Saturday in April through November 15, and a Bag/ Possession Limit plus Gear Restriction of 2 trout, artificial lures w/18" minimum size. Waters designated by "HSS" are those moved to the newly added Section 7.40 of Title 14 under the separated Alphabetical List of Hatchery Steelhead and Salmon Waters with Special Fishing Regulations and are shown as strikeout in Section 7.50.

#### Statewide Regulations

##### **SL Lakes and Reservoirs: Open all year, five trout daily bag limit, 10 trout in**

**possession** = Robust, self-sustaining and stocked fisheries w/ maximum sustainable harvest with emphasis on high natural yield and or elevated stocking rates.

##### **SR Rivers and Streams: Last Saturday in April through November 15, five trout daily bag limit, 10 trout in possession; and, November 16 through the Friday preceding the last Saturday in April, 0 trout bag limit, artificial lures with barbless hooks only = Alignment with traditional season, previous district regulations, and Commission Policy, for both wild and stocked fisheries with a goal of sustainable harvest, while allowing catch and release during the other part of the year in an effort to increase angling opportunities while reducing population level effects stemming from over-harvest and or associated hooking mortality.**

#### Seasons (New seasons are in bold and underlined)

A. **All year** = Most liberal and focused on maximizing opportunity.

- B. **Last Saturday in April through November 15 = Spring and summer angling season for both stocked and wild trout. Alignment with traditional trout season and Commission Policy for trout opener. Limited protections for spring and fall spawning trout.**
- C. **November 16 through the Friday preceding the last Saturday in April = For use in conjunction with a spring and summer angling season to implement more restrictive bag limits and gear restrictions during spring and fall spawning.**
- D. **Last Saturday in April through July 31 = Alignment with a “traditional” trout opener to support local communities for seasonal economic and fiscal needs (i.e., spring and summer tourism), and public safety concerns.**
- E. **August 1 through November 15 = Summer and fall angling season to allow for limited/selected harvest or closures to protect spawning runs, thermal refuges, or periods of elevated water temperatures.**
- F. Saturday preceding Memorial Day through September 30 = Summer angling season where both spring and fall spawning trout aggregations occur.
- G. Saturday preceding Memorial Day through the last day in February = Spring fishing closure to protect spring spawning trout.
- H. September 1 through November 30 = Fall angling season to either protect fall spawning trout aggregations or allow angling during the fall when summer temperatures make angling impacts more significant.
- I. October 1 through the Friday preceding Memorial Day = For use in conjunction with a summer angling season to implement more restrictive bag limits and gear restrictions during spring and fall spawning.
- J. Closed to fishing all year = Most conservative and used to protect populations that are state or federally listed under either Endangered Species Act or imperiled populations that angling could have a significant negative effect.

Bag and Possession Limits and Gear Restrictions (New restrictions are in bold and underlined)

1. 5 trout, no gear restrictions = (most liberal) Robust, self-sustaining fisheries with low to moderate angling, or stocked fisheries with maximum sustainable harvest.
2. 2 trout per day, 4 trout in possession, no gear restrictions = Limited daily harvest but with additional possession, set for limited effect to hatchery supplemented or productive self-sustaining fisheries to allow some harvest. Moderate concern regarding harvest with minimal threat to total population.

3. **2 trout, artificial lures = Limited daily harvest without additional possession, set for limited effect to less productive self-sustaining fisheries to allow some harvest. Moderate concern regarding harvest with minimal threat to total population.**
4. 2 trout, artificial lures with 14" total length minimum = Limited selected harvest with protection for smaller age classes. Allows most individuals to spawn prior to entering the fishery.
5. 2 trout, artificial lures with 18" total length minimum = Limited selected harvest with protection for smaller age classes in high productivity systems that can produce large trout. Allows individuals to spawn prior to trophy sized harvest.
6. 0 trout, artificial lures with barbless hooks = Reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning fish, or to achieve fast action or trophy fisheries.
7. **0 trout, artificial flies with barbless hooks = (most conservative) Reduce angling impacts to listed or sensitive populations, mitigate high use areas, seasonally eliminate harvest of spawning trout, achieve fast action or trophy fisheries, and or promote/retain unique angling experiences.**

HSS Refers to waters moved to the 7.40 regulations table, due to the anadromous nature of the water or stretch of water: Alphabetical List of Hatchery Trout, Hatchery Steelhead, and Salmon Waters with Special Fishing Regulations

Del## Refers to a regulation that has been deleted that will be explained in the Initial Statement of Reasons (ISOR)

## **Proposed Regulatory Language**

### **Section 3.00, Title 14, CCR, is amended to read:**

#### **§ 3.00. Fishing Hours.**

(a) Day Defined: One hour before sunrise to one hour after sunset. Remaining hours are night.

(b) All fish may be taken day or night, except as follows:

(1) WATERS WITH RESTRICTED FISHING HOURS FOR ALL SPECIES:

(A) American River between Business 80 and Nimbus Dam (Sacramento Co.): Night fishing prohibited.

(B) Heenan Lake, (Alpine Co.): See section 7.50(b)(76)(A)(XX)(X).

(C) Mono County: Night fishing is prohibited in all Mono County waters except Topaz Lake, where fishing is prohibited from two hours after sunset to one hour before sunrise.

(D) Tahoe Lake (Placer and El Dorado Cos.): Fishing is prohibited from two hours after sunset to one hour before sunrise.

(2) WATERS WHERE NIGHT AND DAY FISHING IS ALLOWED, BUT NO TROUT OR SALMON MAY BE TAKEN AT NIGHT:

(A) North Coast District

(B) North Central District, all waters except no fishing hour restrictions at Berryessa Lake (Napa Co.) and Mendocino Lake (Mendocino Co.)

(C) South Central District, all waters except no fishing hour restrictions at Coyote Lake (Santa Clara Co.)

(D) Valley District, north of Interstate 80, all waters except no fishing hour restrictions at Camp Far West Lake (Nevada, Placer, and Yuba cos.), Collins Lake (Yuba Co.), Oroville Lake (Butte Co.) and Wildwood Lake (Nevada Co.)

(E) Shasta, Siskiyou, Lassen, and Tehama counties.

Also, see Section 27.56.

Note: Authority cited: Sections 200, 205, 265, 270 and 275, Fish and Game Code.

Reference: Sections 110, 200 and 205, Fish and Game Code.

### **Section 4.00, Title 14, CCR, is amended to read:**

#### **§ 4.00. Bait - General.**

Legally acquired and possessed invertebrates, mollusks, crustaceans, amphibians (except salamanders), fish eggs and treated and processed foods may be used for bait, except:

(a) No species specified as endangered, threatened, candidate, fully-protected, or otherwise protected under state and federal law may be used as bait.

(b) No salamander may be used as bait. See section 5.05 for other amphibians that may be used as bait.

(c) See Section 5.35 for restrictions on crayfish;

(d) See Section 7.50(b)(74XX) for restriction on bait collecting on Hat Creek;

(e) No trout may be maintained or possessed in a live condition in any container on or attached to any boat;

(f) Except for restrictions listed under special regulations, dead ocean fish may be used as bait statewide. This section supersedes the provisions of sections 4.10, 4.15, 4.20, 4.25 and 4.30.

Note: Authority cited: Sections 200, 205 and 265, Fish and Game Code. Reference: Sections 200, 201, 205, 265 and 5505, Fish and Game Code.

**Section 5.00, Title 14, CCR, is amended to read:**

**§ 5.00. Black Bass.**

It is unlawful to take or possess black bass except as provided below:

(Note: Some waters are closed to all fishing under Section 7.50.)

(a) General Statewide Restrictions:

(1) Lakes/Reservoirs and the Sacramento-San Joaquin Delta: The following waters, except for those listed in subsection (b) Special Regulations (below), are open to fishing all year, with a 12-inch minimum size limit and a five-fish daily bag limit: All lakes and reservoirs in the State, and the Sacramento-San Joaquin River Delta, (see Section 1.71 for definition of the Delta).

(2) Rivers/Streams and Private Ponds: Rivers, streams, canals, and lakes or ponds entirely on private lands, which are not listed in subsection (b) Special Regulations (below), are open all year with no size limit and a five-fish daily bag limit.

(b) Special Regulations: Counties and individual waters listed below are those having regulations different from the General Statewide Restrictions in subsection (a).

Area or Body of Water	Open Season	Size (total length)	Bag Limit
DISTRICTS AND COUNTIES WITH SPECIAL REGULATIONS			
(1) Colorado River District: All waters (Bag and size limits conform with Arizona regulations.).	All year.	13-inch minimum.	6
(2) Inyo County: all streams east of Highway 395 from the southern Inyo County line north to the junction of Highway 6 and east of Highway 6 to the Mono County line., <u>except those streams listed by name in the Special Regulations.</u>	All year.	12-inch minimum.	5

**Section 5.41, Title 14, CCR, is amended to read:**

**§ 5.41. Landlocked Salmon.**

- (a) Open season: All year.
- (b) Daily bag limit: Five.
- (c) Possession limit: Ten.
- (d) Size limit: None.
- (e) ~~See exceptions in Section 7.50(b) for Bucks Lake, Lake Pardee, New Bullards Bar Reservoir, upper Scotts Flat Reservoir, and Trinity Reservoir~~Exceptions:
  - (1) Bucks Lake, New Bullards Bar Reservoir, Pardee Lake, Upper Scotts Flat Reservoir, and Trinity Lake
    - (A) Daily bag limit: Ten
    - (B) Possession limit: Twenty

Note: Authority cited: Sections 200, 205, 219 and 265, Fish and Game Code.

Reference: Sections  
200, 205 and 265, Fish and Game Code.

**Section 5.84, Title 14, CCR, is added to read:**

**§ 5.84. Brook Trout.**

(a) Open Season: All year.

(b) Limit: Ten.

(c) Size Limit: None.

(d) Brook Trout bag limits may be taken in addition to the statewide trout daily bag and possession limits specified in Section 5.85.

(e) Exceptions:

(1) Red Lake in Alpine County.

(2) All waters in Section 7.50(b), Alphabetical List of Waters with Special Fishing Regulations.

Note: Authority cited: Sections 200, 205, 219, 265 and 275, Fish and Game Code.

Reference: Sections 200, 205, 255, 265, 270 and 275, Fish and Game Code.

**Section 5.85, Title 14, CCR, is amended to read:**

**§ 5.85. Trout and Salmon.**

~~See Chapter 3, District Trout, Salmon and Special Regulations.~~

Daily bag and possession limits, unless otherwise noted, mean the total number of trout in combination.

(a) General Statewide Regulations:

(1) All inland lakes, reservoirs, and ponds entirely on private lands, except those listed in Section 7.50(b), are open to fishing all year with a five-trout daily bag limit, and 10 trout possession limit.

(2) All inland streams, rivers, and canals, except those listed in Section 7.50(b), are open to fishing from the last Saturday in April through November 15, with a five-trout daily bag limit, and 10 trout possession limit; and, from November 16 through the Friday preceding the last Saturday in April, with a 0 (zero) trout bag limit, only artificial lures with barbless hooks may be used. In waters where the bag limit for trout is 0 (zero), trout must be released unharmed, and should not be removed from the water.

(b) Exceptions:

(1) Individual waters listed by name in Section 7.50(b), Alphabetical List of Waters with Special Fishing Regulations, are those having regulations different from the General Statewide Regulations for trout

(2) Brook Trout bag limits may be taken in addition to the statewide trout daily bag and possession limits. See Section 5.84.

Note: Authority cited: Sections 200, 205, 219, 265 and 275, Fish and Game Code.

Reference: Sections 200, 205, 255, 265, 270 and 275, Fish and Game Code.

**Section 5.89, Title 14, CCR, is added to read:**

**§ 5.89. Salmon**

See Chapter 3, Trout, Salmon and Special Regulations

Note Authority cited: Sections 200, 205, 219, 265 and 275, Fish and Game Code.

Reference: Sections 200, 205, 255, 265, 270 and 275, Fish and Game Code.

**Section 7.00, Title 14, CCR, is amended to read:**

**§ 7.00. District General Regulations**

Unless otherwise provided, waters shown as open to ~~trout~~ hatchery trout and hatchery steelhead fishing in subsections (a) through (g) below, are open to fishing for other species. Gear restrictions listed in this section apply to the take of all species of fish unless otherwise noted. Every body of water listed in subsections (a) through (g) of Section 7.00 (below) is closed to all fishing, except during the open season as shown. Unless otherwise provided, waters closed to ~~trout~~ hatchery trout and hatchery steelhead fishing are closed to fishing for all other species, except that these closures do not apply to fishing for amphibians (see Section 5.05), freshwater clams (see Section 5.20), crayfish (see Section 5.35), and lamprey (see Section 5.40), using legal fishing methods other than hook-and-line fishing, and saltwater clams, crabs, ghost shrimp, and blue mud shrimp (see Ocean Regulations Booklet ~~Sections~~ sections 29.20 to 29.87). Crabs may only be taken using hoop nets or by hand, and Dungeness crab may only be taken within the North Coast District and Sonoma and Mendocino counties.

Daily bag and possession limits, unless otherwise provided, mean the total number of ~~trout~~ hatchery trout and hatchery steelhead. Unless otherwise provided, no more than one daily bag limit may be possessed. Coho (silver) salmon may not be taken in any of the waters of the State, except in Lake Oroville and Oroville-Thermalito Complex (Diversion Pool, Forebay, and Afterbay) and the Feather River from the Diversion Pool Dam to the Fish Barrier Dam. Incidentally hooked Coho (silver) salmon, except those in Lake Oroville and Oroville-Thermalito Complex (Diversion Pool, Forebay, and Afterbay) and the Feather River from the Diversion Pool Dam to the Fish Barrier Dam, must be immediately released unharmed to the waters where they are hooked. In waters where the bag limit for hatchery trout and hatchery steelhead is zero, fish for which the bag limit is zero must be released unharmed, and should not be removed from the water. These waters may also be subject to restrictions on fishing methods and gear (sections 2.00 through 2.45), fishing hours (~~section~~ Section 3.00), and the use of bait (sections 4.00 through 4.30).

<i>District/Water</i>	<i><u>Open Season and Gear Restrictions</u></i>	<i><u>Daily Bag and Possession Limit</u></i>
(a) North Coast District		

<del>(1) All lakes and reservoirs except those listed by name in the Special Regulations.</del>	<del>All year.</del>	<del>5 trout per day. 10 trout in possession.</del>

**Section 7.40, Title 14, CCR, is added to read:**

**§ 7.40. Alphabetical List of Hatchery Steelhead and Salmon Waters with Special Fishing Regulations.**

(a) General Provisions

(b) Table

**Section 7.50, Title 14, CCR, is amended to read:**

**§ 7.50. Alphabetical List of Trout Waters with Special Fishing Regulations.**

(a) General Provisions:

~~(1) Every body of water listed below is closed to the take of trout and trout fishing, unless otherwise noted.~~

~~(21) Every body of water listed below is closed to all fishing except during the open season as shown.~~ Unless otherwise provided, waters shown as open to trout fishing below, are open to fishing for other species. ~~Every body of water listed below is closed to all fishing except during the open season as shown.~~ Gear restrictions listed in this section apply to the take of all species of fish unless otherwise noted.

~~(32) Unless otherwise provided, waters closed to trout fishing are closed to fishing for all other species, except that these closures do not apply to fishing for amphibians (see Section 5.05), freshwater clams (see Section 5.20), crayfish (see Section 5.35), and lamprey (see Section 5.40), using legal fishing methods other than hook-and-line fishing, and saltwater clams, crabs, ghost shrimp, and blue mud shrimp (see Ocean Regulations Booklet Sections sections 29.20 to 29.87).~~ Crabs may only be taken using hoop nets or by hand, and Dungeness crab may only be taken within the North Coast District and Sonoma and Mendocino counties.

~~(43) Daily bag and possession limits, unless otherwise noted, mean the total number of trout.~~

~~(54) Unless otherwise provided, it is unlawful to possess more than one daily bag limit.~~

~~(65) These waters may also be subject to restrictions on fishing methods and gear (sections 2.00 through 2.40), fishing hours (section Section 3.00), and the use of bait (sections 4.00 through 4.30).~~

(6) For waters listed below that open to fishing on the Saturday preceding Memorial Day, the date will be specified here and updated annually. In 2020, the Saturday preceding Memorial Day is May 23.

(7) For waters listed below that close to fishing on the Friday preceding Memorial Day, the date will be specified here and updated annually. In 2021, the Friday preceding Memorial Day is May 28.
