2020 Ocean Salmon Sport Regulations

OR/CA Border to Horse Mountain (KMZ):

June 6 – August 9*

- Minimum size limit: 20 inches total length
- Klamath Control Zone** (KCZ) closed in August
- Additional closures around mouth of Klamath, Smith & Eel rivers (see §27.75 T14 CCR)

Horse Mountain to Point Arena (Fort Bragg):

May 1 – November 8*

- Minimum size limit: 20 inches total length

Point Arena to Pigeon Point (San Francisco):

May 1 – November 8*

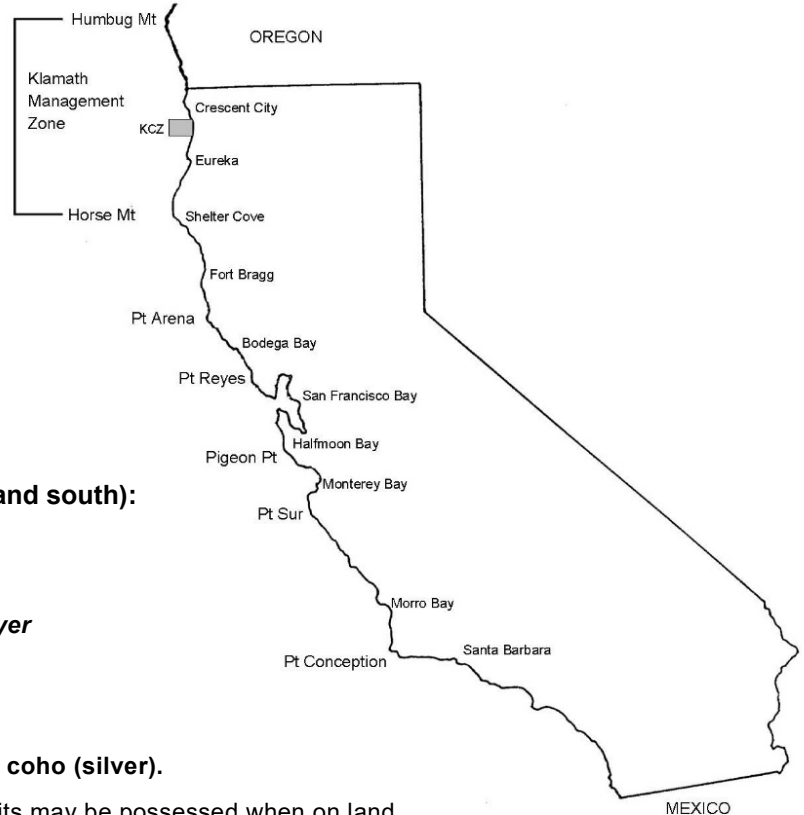

- Minimum size limit: 20 inches total length

Pigeon Point to U.S./Mexico Border (Monterey and south):

May 1 – October 4*

- Minimum size limit: 24 inches total length

**See in-season management on the back of this flyer for potential changes.*

General Sport Regulations

- **Daily bag limit: 2 salmon of any species except coho (silver).**
- **Possession limit:** No more than two daily bag limits may be possessed when on land. On a vessel in ocean waters, no person shall possess or bring ashore more than one daily bag limit.
- **Retention of coho (silver) salmon or steelhead trout is prohibited in any ocean fishery.**
- **Salmon may not be filleted on any boat or prior to being brought ashore.**
- **Salmon may only be taken by angling as defined in §1.05 T14 CCR.** No sinkers or weights exceeding 4 lbs. may be used, except that a fishing line may be attached to a sinker or weight of any size if such sinker or weight is suspended by a separate line and the fishing line is released automatically by a mechanical device from the sinker or weight when any fish is hooked.
- **North of Point Conception:** No more than two single-point, single-shank barbless hooks shall be used and no more than one rod per angler when fishing for salmon or fishing from a boat with salmon on board.
- **Horse Mountain to Point Conception:** When fishing with bait and angling by any means other than TROLLING¹, no more than two single-point, single-shank barbless CIRCLE HOOKS² shall be used. The distance between the two hooks must not exceed 5 inches when measured from the top of the eye of the top hook to the inner base of the curve of the lower hook and both hooks must be permanently tied in place (hard tied).

NOTE: These special gear restrictions apply to each angler fishing for salmon or fishing from any boat or floating device with salmon on board.

1. TROLLING is defined as angling from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions.

2. A CIRCLE HOOK is defined as a hook with a generally circular shape and a point which turns inwards, pointing directly to the shank at a 90-degree angle.

- **Recovery of coded-wire tag from salmon head:** Any person in possession of a recreationally taken salmon with a missing adipose fin (the small, fleshy fin on the back of the fish between the back fin and tail) shall immediately relinquish the head of the salmon, upon request by an authorized agent or employee of the Department, to facilitate the recovery of any coded-wire tag (§1.73 T14 CCR).
- ****Klamath Control Zone:** The ocean area at the Klamath River mouth bounded on the north by 41°38'48" N. lat. (approximately 6 nautical miles north of the Klamath River mouth); on the west, by 124°23'00" W. long. (approximately 12 nautical miles off shore); and on the south, by 41°26'48" N. lat. (approximately 6 nautical miles south of the Klamath River mouth).
- **In-season management:** NMFS may by in-season action close recreational fisheries between May 1 and June 15, 2020 in the Fort Bragg, San Francisco, and Monterey subareas on the recommendation of the California Department of Fish and Wildlife. The recommendation to close would be informed by an evaluation of actions or orders enacted by jurisdictions in these subareas to address public health concerns related to COVID-19 that would make access to the ocean salmon recreational fishery impracticable (e.g., restrictions on activities or closure of harbors, launch ramps and other forms of access). If NMFS closes these subareas May 1-15, May 16-31, June 1-15, or an additive combination of these specific date ranges in succession; NMFS may by in-season action extend the season in the California KMZ beyond August 9 not to exceed August 31 if the STT determines that such opening would not increase impacts to stocks in the FMP beyond those described in Table 5 of Pre-III for 2020, and would otherwise meet the objectives described in that table, including but not limited to 50/50 harvest sharing with the Klamath River Tribes (Yurok and Hoopa Valley Tribe).
