What	Organization	Date/Time	Description
Invasive Species App	CDFW	Anytime Anywhere	Use the California Department of Fish and Wildlife (CDFW)'s new Invasive Species App (through EDDMaps) to record invasive species in your local park or any other natural area. Android app available now; iPhone app available soon.
Blog	UC IPM	All week	Invasive spotlight featured on Pests in the Urban Landscape blog from the University of California Integrated Pest Management program.
Webinar	DWR	June 3 1:00-1:30pm	“Water Wednesday: Delta Invaders” – Join Department of Water Resources scientist Gina Darin to discover what might happen if an animal or plant species is moved out of its native habitat and into a new environment. Learn about invasive species in the Delta, the problems they are causing, and what you can do to help. Recording available on the DWR YouTube channel .
Facebook	Elkhorn Slough Reserve	June 8 – 12	Daily posts on the Elkhorn Slough Reserve Facebook page will show you how to reduce your invasives by consuming your invasives! From plant dye to a tasty salad green, there’s lots of ways to use the invasives after you’ve removed them.

What	Organization	Date/Time	Description
Webinar	UCANR, Cal-IPC	June 8 12:00 -1:00pm	“Not All Those Who Wander Are Lost – They Are Looking for a Boot Brush!” Lunchtime talks from the University of California’s Division of Agriculture and Natural Resources and the California Invasive Plant Council, Monday-Friday. Register in advance to receive the Zoom link.
Webinar	UCANR, Cal-IPC	June 9 12:00 -1:00pm	“Amamos a Los Perros! Using Detection Dogs to Keep Islands Free of Invasive Mammals” - Register in advance to receive the Zoom link.
Webinar	UCANR, Cal-IPC	June 10 12:00 -1:00pm	“DNA is Everywhere! Using eDNA to Learn How Invasive Species Alter Whole Ecosystems” - Register in advance to receive the Zoom link.
Facebook	Elkhorn Slough Reserve	June 10 4:00pm	“Eucalyptus: Story of an Invasive”: Discover how the Reserve’s research and stewardship team partnered up to tackle the enormous issue of removing invasive Eucalyptus. Video recording will be available the next day.
Webinar	UCANR, Cal-IPC	June 11 12:00 -1:00pm	“Making the LA River More ‘Exotic’” - Register in advance to receive the Zoom link.
Webinar	UCANR, Cal-IPC	June 12 12:00 -1:00pm	“The Weird and Wild World of Phytophthora – Ubiquitous Yet Unfamiliar Plant Pathogens” - Register in advance to receive the Zoom link.
Facebook Live	Elkhorn Slough Reserve	June 13 12:00pm	“California Weeds and How to Spot Them”: Join Reserve Naturalists live from the Visitor Center’s native wildlife garden to explore common invasive weeds and meet a few native plants you might add to your gardens instead. Video recording will be available the next day.

Other Activities by CDFW and Partners for Action Week

What	Organization	Description
Bingo	CDFW	Play Invasive Species Bingo! Choose a card from the Action Week website, complete activities or look for species, and submit your completed card by June 16 to be entered in a prize drawing.
Word Search	CDFW	Be a Habitat Hero and learn about California’s invasive species!
Spot the Difference	CDFW	Can you tell the difference between invasive species and similar native ones? Learn which characteristics tell them apart.
Video	CDFW	CDFW’s Steelhead in the Classroom program describes how invasive species harm aquatic ecosystems and what you can do to help.
Learning activities	Yolo Basin Foundation	“Discover the Flyway from Home”: Resources for teachers, parents and students.
Learning activity	Back Bay Science Center	“Invader ID: Connecting Citizen Science with Real Time Research”: Become a citizen scientist and assist the Smithsonian Environmental Research Center with their research on fouling organisms.
Video	UC Cooperative Extension	Learn how to prevent the spread of the invasive plant dyer’s woad in Shasta and Siskiyou Counties
