

## STAFF SUMMARY FOR JUNE 24-25, 2020

**19. ANNUAL AND FIVE-YEAR PLM LICENSES AND PLANS (CONSENT)****Today's Item**Information Action 

Consider approving or amending annual and five-year private lands wildlife habitat enhancement and management (PLM) plan renewals and licenses for 49 properties:

- New five-year PLM plans and 2020-2024 licenses for 13 properties continuing their participation in the PLM program
- Annual PLM plans and 2020/2021 licenses for 35 properties
- A correction to the 2020/2021 proposed seasons for one property's annual plan (approved at the Apr 16, 2020 FGC meeting with incorrect seasons)

**Summary of Previous/Future Actions (N/A)****Background**

Fish and Game Code sections 3400-3409 and Title 14, Section 601, prescribe conditions for a PLM program that provides incentives for landholders to manage their property for the benefit of fish and wildlife in exchange for access to increased recreational opportunities, such as hunting tags or extended seasons ("harvest program"). In return for a harvest program, the landholder must prepare a biologically-sound wildlife management plan and complete specific wildlife habitat improvements on the PLM property.

There are generally three types of actions associated with the PLM program: (1) an initial five-year PLM license; (2) an annual list of PLM seasons, harvests, and habitat improvements; and (3) a "new" five-year PLM license renewal. Conditions are unique to each participant's property.

Proposed annual seasons, harvests, and habitat improvements for the 49 PLM properties have been reviewed by DFW and found to be in compliance with FGC regulations and policies for PLMs; applicants have identified the location where records will be kept and made available for inspection (Exhibit 1).

**Significant Public Comments (N/A)****Recommendation**

**FGC staff:** Approve annual seasons, harvests, and habitat improvements for the 49 PLM properties as recommended by DFW, under a motion to adopt the consent calendar.

**DFW:** Approve 49 PLM licenses and plans, under the conditions specified in exhibits 2, 3 and 4.

**Exhibits**

1. [DFW memo](#), received May 22, 2020
2. [PLM Area License: Annual Renewals, 2020/2021, Proposed Seasons, Harvests, and Habitat Improvements](#), received May 22, 2020

STAFF SUMMARY FOR JUNE 24-25, 2020

3. [PLM Area License: New Five-Year Management Plans, 2020-2024, Proposed Seasons, Harvests, and Habitat Improvements](#), received May 22, 2020
4. [PLM Area License: Correction to 2020/2021 Proposed Seasons, for Tejon Ranch](#), received May 22, 2020

**Motion/Direction**

Moved by \_\_\_\_\_ and seconded by \_\_\_\_\_ that the Commission adopts the staff recommendations for items 19-23 on the consent calendar.

# Memorandum

Original on file,  
received May 22, 2020

**Date:** May 20, 2020

**To:** Melissa Miller- Henson  
Executive Director  
Fish and Game Commission

**From:** Charlton H. Bonham  
Director

**Subject:** **Agenda Item for the June 24-25, 2020 Fish and Game Commission Meeting Private Lands Wildlife Habitat Enhancement and Management (PLM) Area Licenses**

The Department of Fish and Wildlife has reviewed the Annual and 5-year renewals for 49 properties in 13 counties consisting of approximately 275,192 acres. Corrections to the Tejon Ranch season dates are also included in this request.

The Annual renewal PLM areas were previously licensed under Commission regulations Section 601, Title 14, California Code of Regulations. Full payment was made for all tags used in 2019, and all habitat work was completed.

The 5-year renewal management plans are in compliance with Commission policy for private lands management. The applicants have identified the location where records will be kept and made available for inspection.

Tejon Ranch was approved at the April 16, 2020 Commission meeting with incorrect season dates. The Department of Fish and Wildlife is requesting the following changes be made:

- Change the either-sex deer early season end date from November 3, 2020 to November 8, 2020
- Change the either-sex deer late season start date from November 3, 2020 to November 9, 2020
- Change the spring turkey season from March 28, 2020 through May 3, 2020 to March 14, 2021 through May 17, 2021

Habitat improvements accomplished under these plans will enhance and maintain wildlife resources on and around the PLM areas. The goals and objectives stated in the management plans are compatible with Department management plans for appropriate species in these areas. In addition, access to public lands will not be diminished under implementation of these management plans.

Melissa Miller-Henson, Executive Director  
Fish and Game Commission  
May 20, 2020  
Page 2

The Department recommends that the Commission approve the specified wildlife management plans, applications, and each 2020/21 harvest program under conditions specified in the attached tables.
