

# EPIMS

The Department of Fish and Wildlife (CDFW) has a new Environmental Permit Information Management System (EPIMS). EPIMS enables applicants to complete applications online and streamlines issuance of permits. Capabilities include submittal of supplemental documentation (i.e., plans, diagrams, maps, photos, studies), calculation of permit fees, electronic signatures, email alerts, and applicant tracking of permit progress.

### Going Green

Removing paper forms is a big step in CDFW going paperless.

### Streamlining

Delays associated with paper applications are removed.

### Support

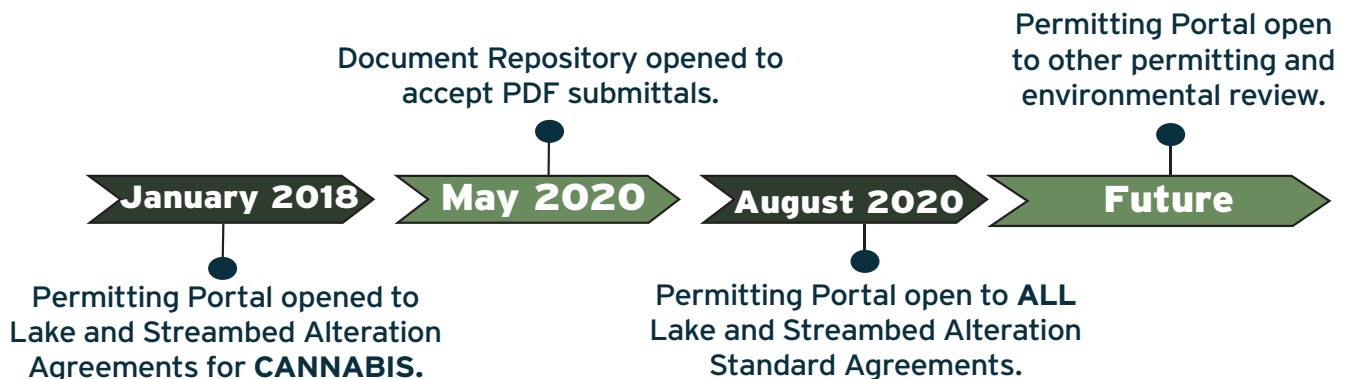

EPIMS HelpDesk  
Call 1 (833) 303-7467  
(Mon-Fri)

### Tracking

Status alerts enable permit tracking from start to finish.

## Implementation Timeline
