15-DAY NOTICE TO ALL INTERESTED AND AFFECTED PARTIES:

This is to provide notice that the regulatory action relative to amending sections 3.00, 4.00, 5.00, 5.41, 5.85, 7.00, 7.50, 8.10, and adding sections 5.84, 5.89, 7.40, identified in Title 14, California Code of Regulations, which first appeared in the California Regulatory Notice Register on July 7, 2020; relating to Simplification of Statewide Inland Sport Fishing Regulations was adopted on October 14, 2020.

Additional Option for the Truckee River

The original rulemaking proposal included two options for the Truckee River: one proposed by California Department of Fish and Wildlife (DFW) and one proposed by a member of the public. At the August 19-20, 2020 discussion hearing, Commission staff announced to the Commission that representatives of the Department of Fish and Wildlife, Commission staff, and Montna Farms had reached a compromise using the two options, and “no change” language. This new alternative was described in detail to the Commission at its August 20, 2020 meeting. Further, in written staff summary materials for the October 14, 2020 adoption hearing and provided 15 days before the meeting, Commission staff indicated that it supported incorporation of the compromise into the final regulation.

When the compromise was introduced to the Commission, it was embodied in a written staff summary as: “Since the notice hearing, DFW staff, FGC staff, and representatives of Montna Farms have met in an effort to identify a compromise between the two options that protects trout while also retaining opportunity; all support a zero bag limit from the confluence of Trout Creek downstream to the mouth of Prosser Creek and a two fish bag limit from the mouth of Prosser Creek downstream to the Nevada state line for part of the year, using particular artificial gear.”

Likewise, the compromise was verbally summarized to the Commission as: “...a zero-bag limit from the confluence of trout Creek downstream to the mouth of Prosser Creek, and a two fish bag limit for at least part of the year from the mouth of Prosser Creek to the Nevada State line. And there are certain gear restrictions that are associated with each of those waters.”

During public comment George Osborn, a party to the compromise negotiations speaking on behalf of Montna Farms, expanded on the compromise thusly: “Under the compromise there is no take all year, [and] barbless flies were required for the entire stretch. Under the existing

regulations there is a two fish daily bag limit in the summer and barbless flies are required for only a portion of this stretch. For the stretch of river between Prosser Creek and [the Nevada] state line. The compromise retains the existing requirement for barbless lures in the winter and no take in the winter...but accepts the Department's proposed change that would allow barbed hooks in the summer, along with the existing two fish daily bag summer limit.”

Adoption

At the adoption hearing, the Preadoption Statement of Reasons (PSOR) and regulatory text were presented as exhibits for approval by the Commission. At the adoption hearing the Commission and public received a verbal reminder of the Truckee compromise alternative by Commission staff and the public. The Commission adopted the proposed regulation, with the understanding that the included exhibits encapsulated the compromise option, which was explained by Commission staff during the meeting and in the written materials.

The compromise was clearly indicated in the PSOR, but the regulatory text retained both options 1 and 2, as well as existing language, all open to full consideration by the Commission at the adoption hearing. The Commission understood the compromise from all materials and discussions, but the actual intended regulatory language-under consideration by, and ultimately adopted by the Commission may have been unclear to the public. The Commission is issuing this notice to clarify the actual regulatory language that was adopted on October 14, 2020.

Additional information and associated documents may be found on the Fish and Game Commission website at <https://fgc.ca.gov/Regulations/2020-New-and-Proposed>.

Please direct questions on the adopted regulations to FGC@fgc.ca.gov
