

Lower American River Conservancy Program Advisory Committee

Virtual Parkway Tour Agenda December 11, 2020, 1:00 p.m.

Please join the Advisory Committee (AC) and Wildlife Conservation Board (WCB) staff for the second [Virtual] Lower American River Parkway (Parkway) Tour. The goals of this tour are to educate the AC regarding the current conditions of the Parkway and to show current and potential natural and community investment sites. The tour will feature four sites along the middle stretch of the Parkway, from River Bend Park downstream to the Woodlake Area.

The American River Parkway includes those portions of the area between the Nimbus Dam and the confluence of the American River and the Sacramento River described in the 2008 American River Parkway Plan.

Members of the public are encouraged to attend. Specific times for individual tour presentations are approximate.

The virtual tour will be held via Microsoft Teams. Teleconferencing is not recommended due to visual media that will comprise the tour.

[Join Microsoft Teams Meeting](#)

[+1 916-535-0984](#) - Conference ID: 123 913 820#

- If joining for iPhone or Android users, you will need to have Microsoft Teams Meeting App installed on your phone. Click the Teams Meeting link and join as guest.
- If joining from a PC or Mac, you can either install or join in browser. Once you join, sign in as guest.
- If joining from a CDFW device, you should be able to connect like any other Teams Meeting.

You can also join just by phone though you will not be able to see the tour or Power Point.
