

APPENDIX B

“What We Do” Chart

In compliance with Fish and Game Code section 712.1, subsections (a) and (b)(2)(E), the department developed the following “What We Do” and associated tasks by building on the 2012 California Fish and Wildlife Strategic Vision process and the 2017 Expenditure Concept to Invest in our Natural Heritage for All Californians report. The department’s services are divided into eight service areas, each individually described, reflecting the department’s core programs and strategic goal. These service areas are divided into programs, subprograms, and ultimately into tasks, providing an increasingly detailed view of the department and the services it provides.

The full SBB task catalog can be downloaded as a Microsoft Excel file [here](#) through the department's [SBB webpage](#).

What We Do

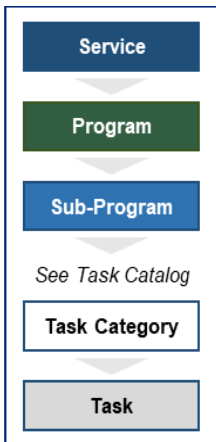

The department's mission is manage California's diverse fish, wildlife, and plant resources, and the habitats upon which they depend, for their ecological values and for their use and enjoyment by the public.

Public Use & Enjoyment	Species & Habitat Conservation	Lands & Facilities	Permitting & Environmental Protection	Education & Outreach	Law Enforcement	Operational Support	Administrative Support
<p>The department provides opportunities to connect with and sustainably utilize the state's diverse fish, wildlife, and plant resources and their surrounding habitats. These activities include cultural uses, wildlife viewing, hunting, recreational and commercial fishing, and aquaculture.</p>	<p>The department engages with many partners to monitor, manage, enhance, restore and conserve species, habitats, and ecosystems by providing economic incentives, working with land use planning processes, evaluating impacts from human-induced and natural pressures, implementing laws and policies, and acquiring and restoring land.</p>	<p>The department acquires and manages wildlife areas, ecological reserves, fish hatcheries, public access facilities and partnership lands to conserve a rich diversity of fish, wildlife, plants and their habitats for their intrinsic values and enjoyment by the public. These properties comprise habitats from every major ecosystem in the state.</p>	<p>The department provides fish and wildlife protection through oversight and authorization of actions that may affect species and habitats, and through response to oil spills in inland and marine waters.</p>	<p>The department strives to provide quality information, education and outreach services with clarity and insight to both internal and external audiences – fostering an understanding and appreciation of the department and the services it provides.</p>	<p>The department protects California's natural resources and provides public safety through professional, effective and responsive law enforcement efforts.</p>	<p>The department's operational support services provide specialized support across the department's scientific, technical, resource management, and policy programs. These services focus on improving the department's abilities to design, monitor, analyze, and utilize its resources throughout the state.</p>	<p>The department's administrative support services provide critical functions that help the department accomplish its mission by hiring staff, procuring goods, paying bills, responding to legal or legislative requests, and maintaining information technology operations.</p>

What We Do

The department's mission is manage California's diverse fish, wildlife, and plant resources, and the habitats upon which they depend, for their ecological values and for their use and enjoyment by the public.

Public Use & Enjoyment	Species & Habitat Conservation	Lands & Facilities	Permitting & Environmental Protection	Education & Outreach	Law Enforcement	Operational Support	Administrative Support

What We Do

Public Use & Enjoyment

Public Use & Enjoyment Overview

The department provides opportunities to connect with and sustainably utilize the state's diverse fish, wildlife, and plant resources and their surrounding habitats. These activities include cultural uses, wildlife viewing, hunting, recreational and commercial fishing, and aquaculture.

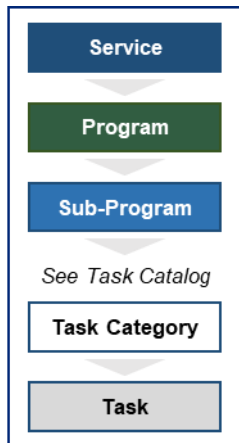

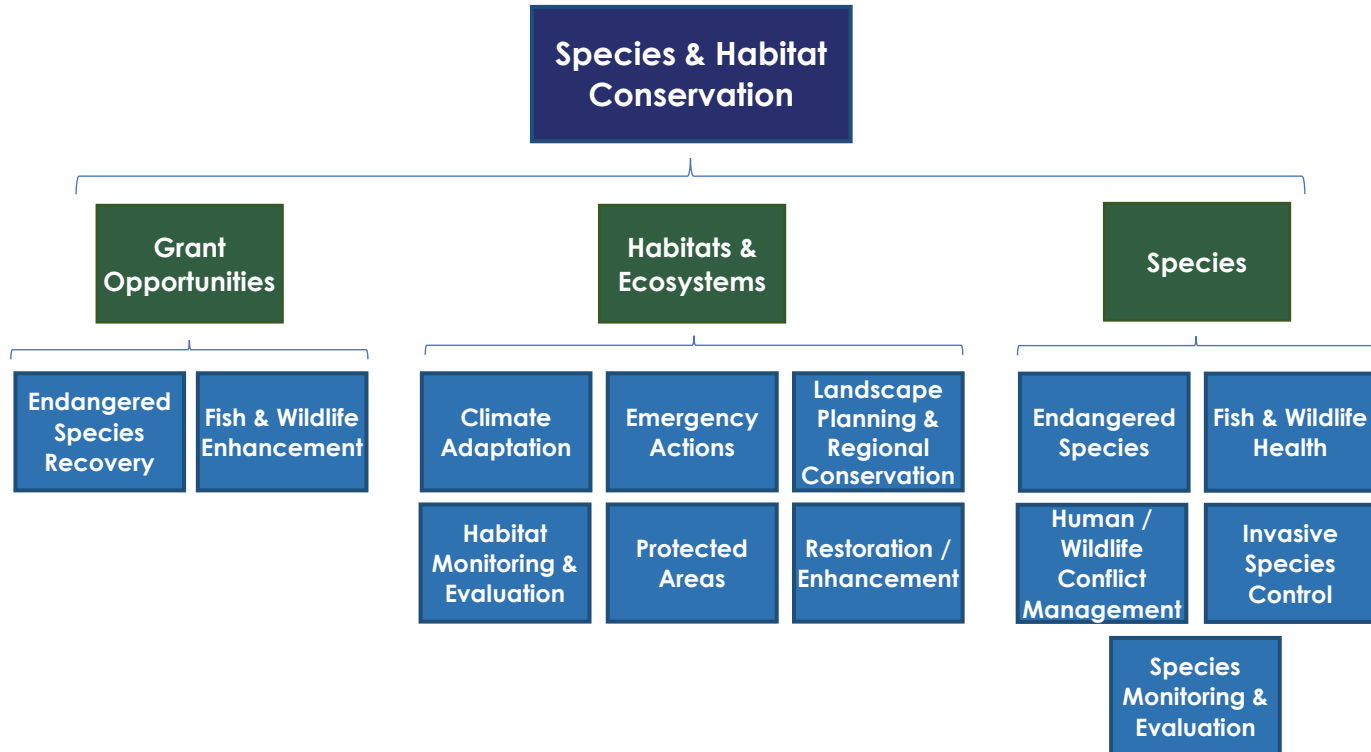

What We Do

Species & Habitat Conservation

Species & Habitat Conservation Overview

The department engages with many partners to monitor, manage, enhance, restore and conserve species, habitats, and ecosystems by providing economic incentives, working with land use planning processes, evaluating impacts from human-induced and natural pressures, implementing laws and policies, and acquiring and restoring land.

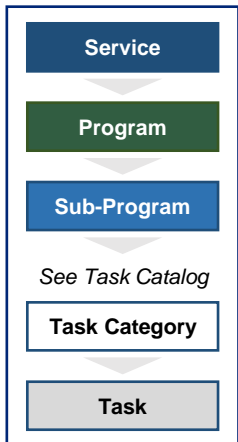

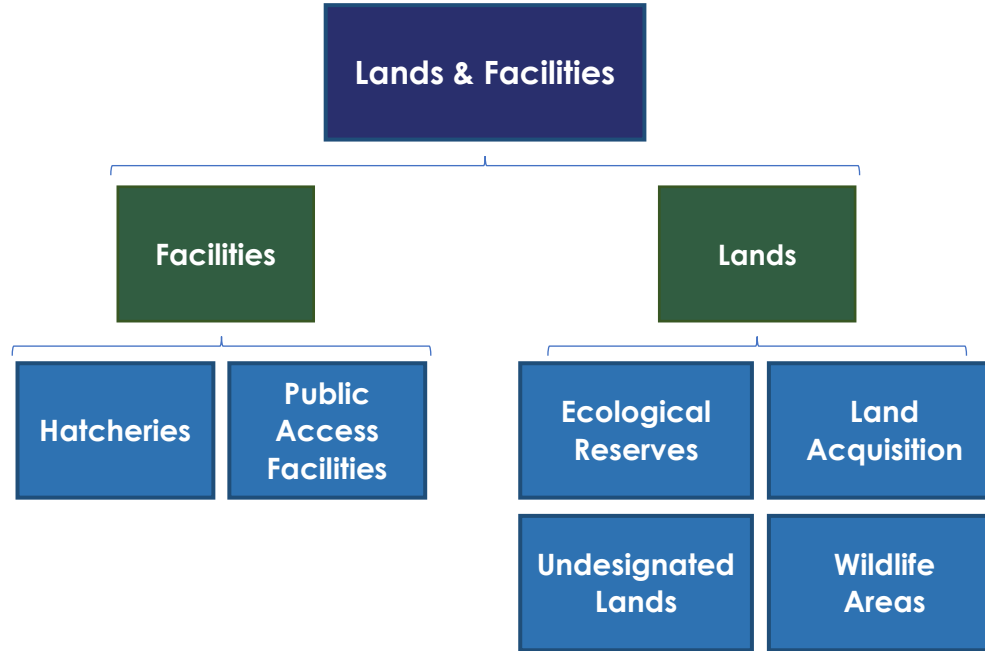

What We Do

Lands & Facilities

Lands & Facilities Overview

The department acquires and manages wildlife areas, ecological reserves, fish hatcheries, public access facilities and partnership lands to conserve a rich diversity of fish, wildlife, plants and their habitats for their intrinsic values and enjoyment by the public. These properties comprise habitats from every major ecosystem in the state.

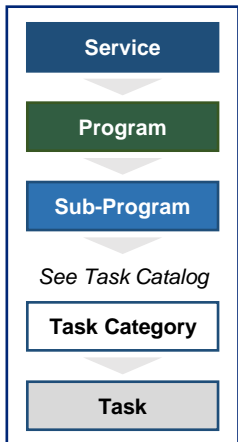

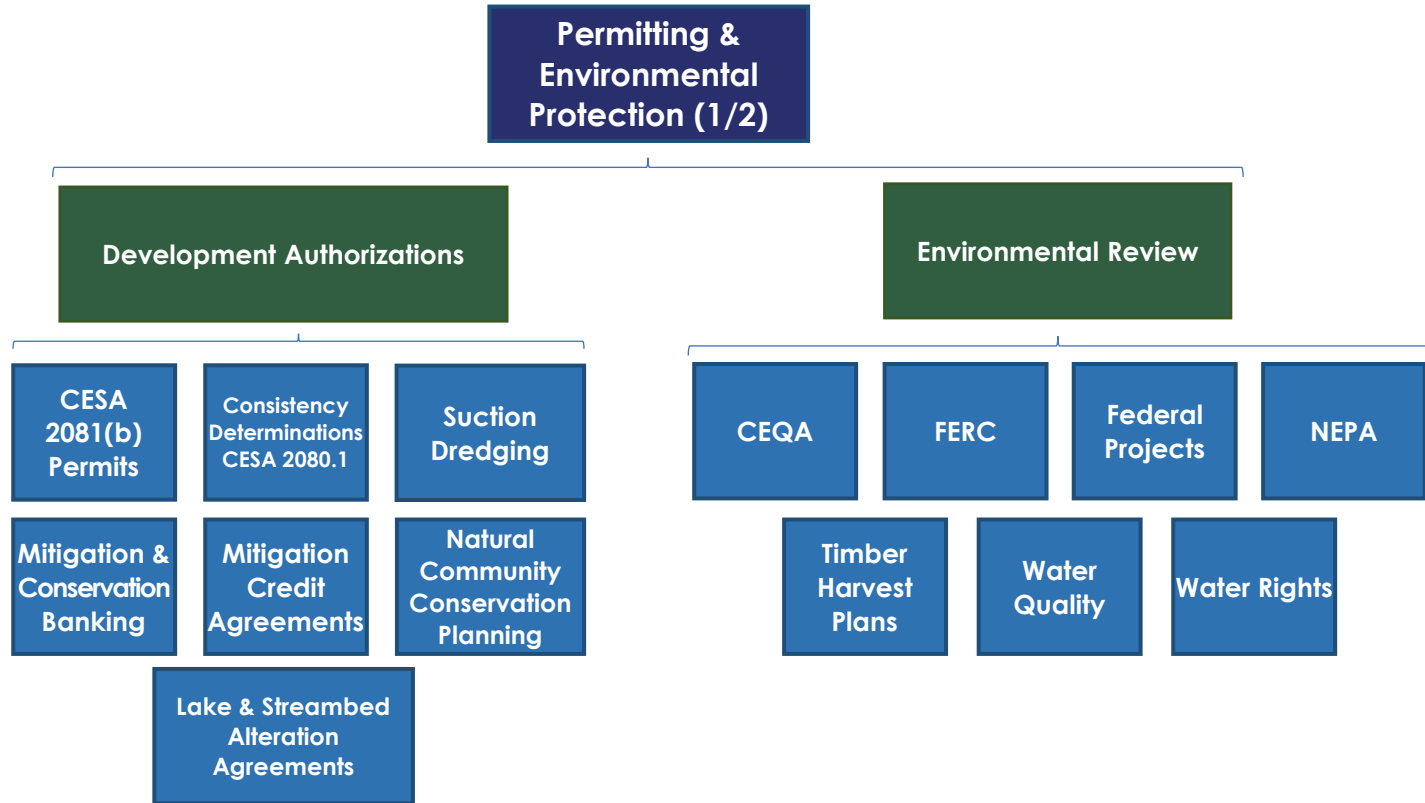

What We Do

Permitting & Environmental Protection (1 of 2)

Permitting & Environmental Protection Overview

The department provides fish and wildlife protection through oversight and authorization of actions that may affect species and habitats, and through response to oil spills in inland and marine waters.

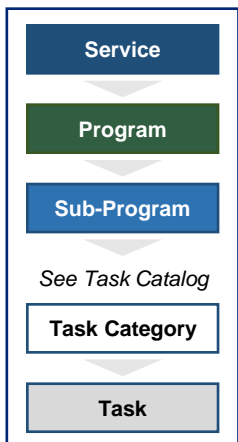

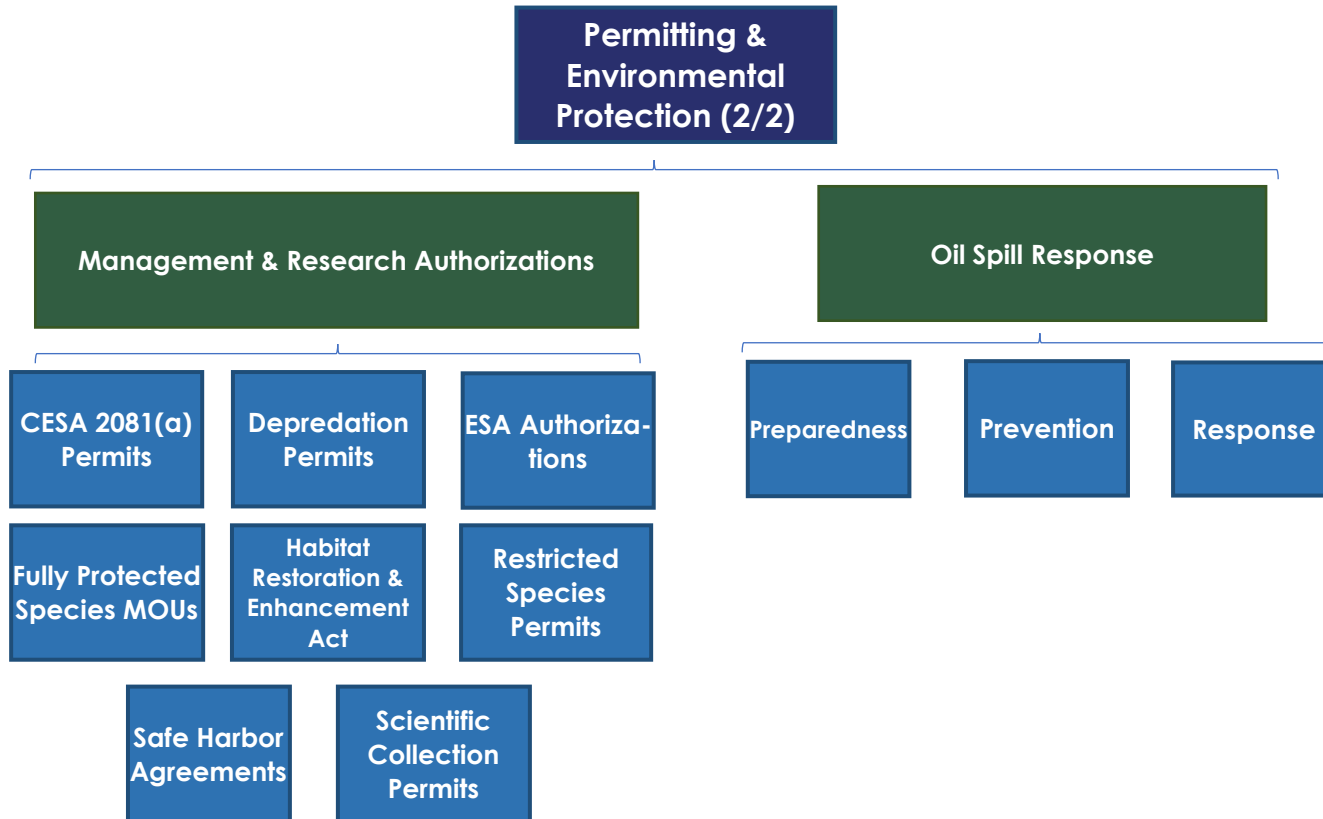

What We Do

Permitting & Environmental Protection (2 of 2)

Permitting & Environmental Protection Overview

The department provides fish and wildlife protection through oversight and authorization of actions that may affect species and habitats, and through response to oil spills in inland and marine waters.

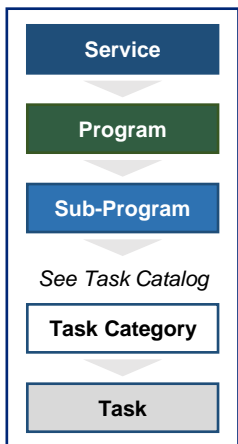

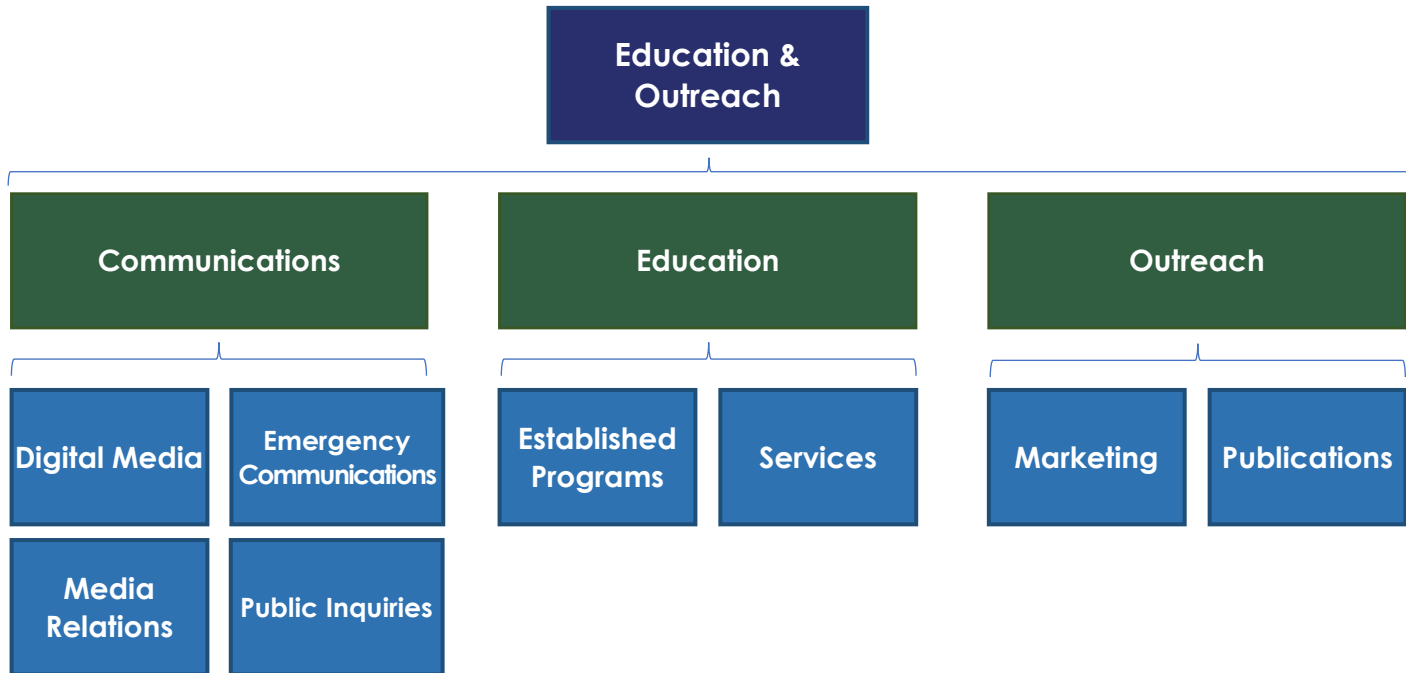

What We Do

Education & Outreach

Education & Outreach Overview

The department strives to provide quality information, education and outreach services with clarity and insight to both internal and external audiences – fostering an understanding and appreciation of the department and the services it provides.

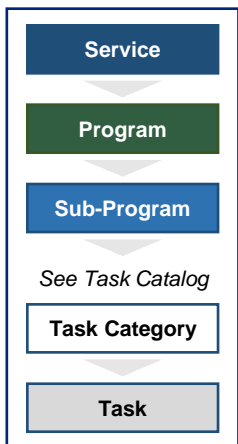

What We Do

Law Enforcement

Law Enforcement Overview

The department protects California's natural resources and provides public safety through professional, effective and responsive law enforcement efforts.

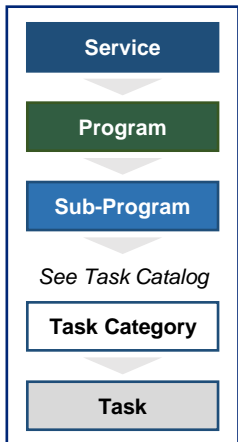

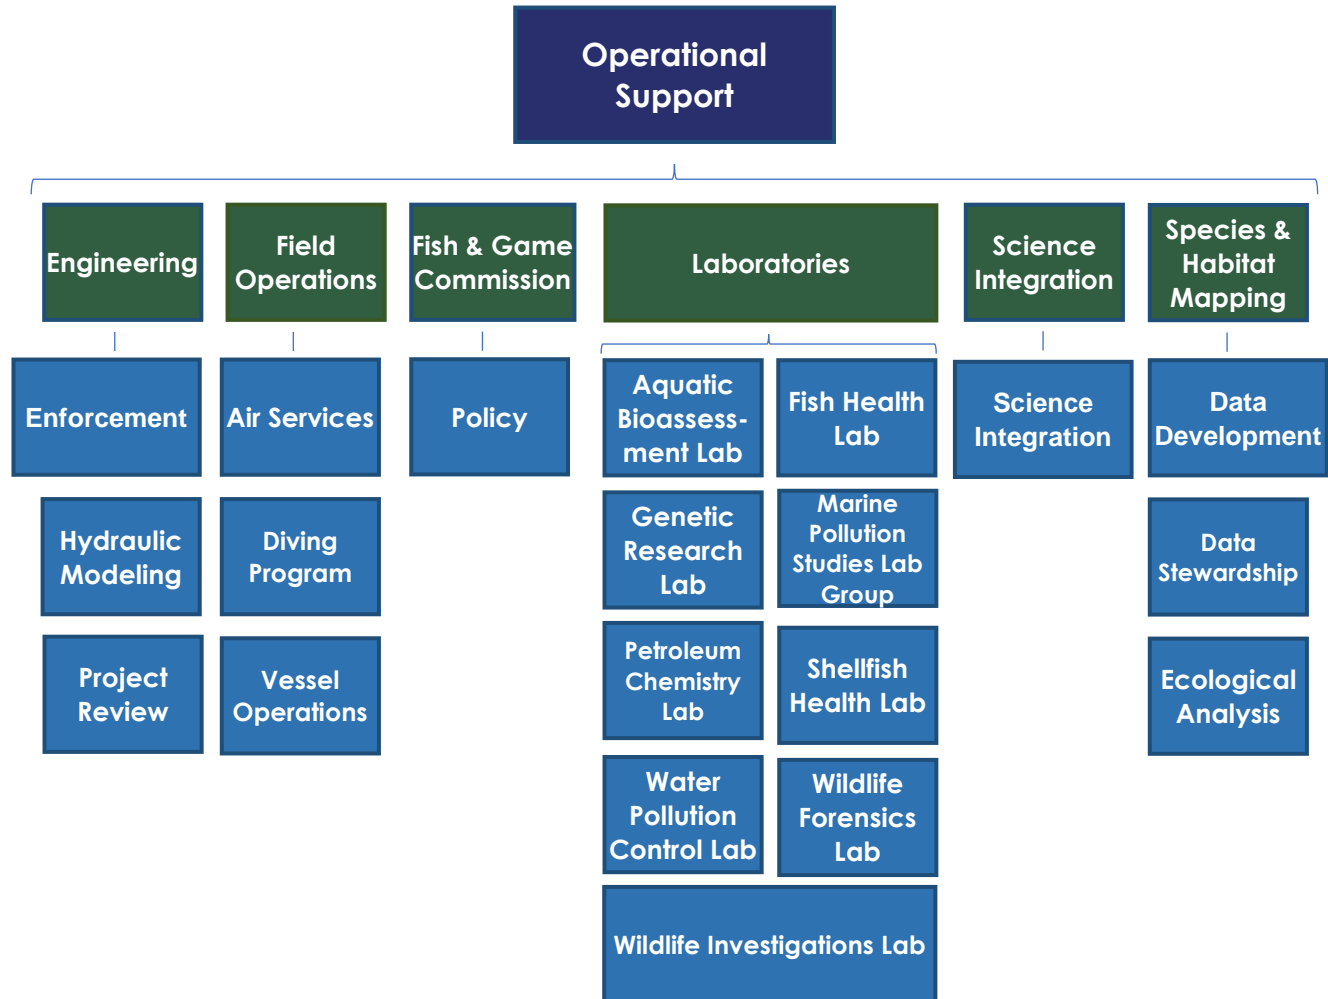

What We Do

Operational Support

Operational Support Overview

The department's operational support services provide specialized support across the department's scientific, technical, resource management, and policy programs. These services focus on improving the department's abilities to design, monitor, analyze, and utilize its resources throughout the state.

What We Do

Administrative Support

Administrative Support Overview

The department's administrative support services provide critical functions that help the department accomplish its mission by hiring staff, procuring goods, paying bills, responding to legal or legislative requests, and maintaining information technology operations.
