Subject: Extension of Time for Public Input – CDFW Draft Instream Flow Recommendations for the Lower Ventura River and Coyote Creek

Dear Stakeholders:

On February 26, 2021, the California Department of Fish and Wildlife (CDFW) released draft flow recommendations for sections of the Ventura River watershed in its report *DRAFT Instream Flow Regime Recommendations for the Lower Ventura River, Ventura County* (CDFW 2021) for a 30-day public input period set to end on March 29, 2021. To allow additional time for stakeholder review, CDFW has extended the public input period and will be accepting input on the draft flow recommendations through April 16, 2021. Please send any input on these draft flow recommendations to InstreamFlow@wildlife.ca.gov.

Sincerely,

DocuSigned by:
