Other Announcements:

[Frontiers for Young Minds](#) is a journal platform where kids engage with leading scientists in reviewing and editing cutting-edge research. IEP researchers developed a collection of articles focused on the San Francisco Estuary and the animals that live in it. The collection is titled “[Where the river meets the ocean – Stories from San Francisco Estuary](#)”. Recently published articles focus on [sturgeon of the SF Estuary](#), [Black Sea Jellyfish](#), [strategies that fish use to survive in the SF Estuary](#), and [why estuaries are a happy place for fish](#). Check out these stories and more.
