

**CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE
OFFICE OF SPILL PREVENTION AND RESPONSE**

**NOTICE OF 15-DAY PUBLIC COMMENT PERIOD
FOR MODIFICATIONS TO TEXT OF PROPOSED REGULATIONS**

July 27, 2022

Pursuant to the requirements of Government Code section 11346.8(c), and section 44 of Title 1 of the California Code of Regulations, the Office of Spill Prevention and Response (OSPR) is providing this 15-day continuation notice of changes made to sections 817.02, 817.04, 820.01, and 820.02 of Title 14, California Code of Regulations.

In February 2022, concurrent with this rulemaking action, OSPR noticed a separate rulemaking action proposing changes to several sections of Title 14, California Code of Regulations, which were approved by the Office of Administrative Law (OAL) on July 5, 2022 ([OAL Matter No. 2022-0525-04SR; General Provisions](#)), and that will be effective October 1, 2022. That rulemaking changed a few of the same sections being proposed for amendment in the current drills and exercises harmonization rulemaking action.

However, and it is important to note, none of the regulation text approved on July 5, 2022 overlap with the changes being proposed in this drills and exercises harmonization rulemaking action. Nevertheless, OAL advises that this additional 15-day comment period is required in this rulemaking action to notice the changes approved on July 5, 2022.

The following itemizes only the relevant subsections that were revised and approved on July 5, 2022, and which are the subject of this additional 15-day notice.

- 817.02(c)(3)(B)4.
- 817.04(c)(2)(B); (e)(5)(A) through (E); (f)(4)(A) through (C); (u)(7); (w)
- 820.01(d)(2); (j); (k)(3)(D)
- 820.02(l)

The changes to these subsections approved on July 5, 2022, are illustrated as follows:

- **Bold single underline** is used to denote text added in OAL Matter No. 2022-0525-04SR that is not being changed in this action;
- ~~**Bold single underline**~~ is used to denote deleted text in OAL Matter No. 2022-0525-04SR that has not been noticed to the public for repeal and is not being further changed in this action; and
- ~~**Bold single underline and double strikeout**~~ is used to denote text added in OAL Matter No. 2022-0525-04SR that is proposed for deletion in this action.

Changes illustrated any other way are those that were noticed in this drills and exercises rulemaking for the initial 45-day comment period (February 5, 2022 - March 21, 2022) and the first 15-day comment period (June 25, 2022 - July 11, 2022)

To be clear, there are no new revisions to the proposed drills and exercises harmonization text. To reiterate, the purpose of this notice is to reflect the text of the rulemaking action approved on July 5, 2022 (OAL Matter No. 2022-0525-04SR; General Provisions), with the changes that were previously noticed by this drills and exercises harmonization rulemaking action.

SUBMISSION OF WRITTEN COMMENTS

OSPR will accept written comments pertaining only to the above itemized changes between, Thursday, July 28, 2022 and Thursday, August 11, 2022. **All written comments must be received by OSPR no later than 11:59:59 p.m. (Pacific Standard Time) on August 11, 2022**, by mail or e-mail as follows:

Department of Fish and Wildlife
Office of Spill Prevention and Response
P.O. Box 944209
Sacramento, California 94244-2090
E-mail: OSPRRegulations@wildlife.ca.gov

All written, timely comments received by the above stated deadline, which pertain to the above itemized framed changes will be reviewed and responded to by OSPR as part of the compilation of the rulemaking file.

OSPR requests that comments be prepared on a separate document rather than as digital markups or digital notes embedded within the rulemaking documents.
