

# Summary Report of Black Bass Fishing Contests Held in 2021

Inland Fisheries Assessment and Monitoring Program

This project was funded in part by the Federal Aid in Sport Fish Restoration Act,  
Grant F21AF03649

## *Introduction*

Fishing contests represent an important component of recreational fishing in California and include tournaments and derbies. Black bass tournaments typically represent 90% of all fishing contests held in California; therefore this report focuses on the black bass subset.

### History of Fishing Contest Management

Beginning in 1975, organizers offering prizes for the taking of sport fish in any California water were required to obtain a fishing contest permit from the California Department of Fish and Wildlife (CDFW). Since 1985, organizers have been required to submit a “Fishing Contest Report” to the CDFW detailing the results of each permitted contest. In 1990 regulations were established that provided two types of contests, “Event” and “Annual.” An “Event” type contest permit is designed to regulate large fishing contests often run by commercial organizations. The “Annual” type contest permit is designed to gather data from smaller organized contests, such as those offered by bass clubs or individuals.

### Permitting Process

An “Event” type permit is required for contests in which more than 50 anglers will participate, or the sponsor is offering \$1,000 or more in cash or prizes. An “Event” contest permit targeting black bass may not exceed 3 days in duration, and no more than one “Event” type contest may be held on any water on the same day. The exception to this is the Sacramento–San Joaquin Delta (Delta). On the Delta, up to 3 “Event” permits may be issued per day as long as only one weigh-in location appears in each of the following counties: San Joaquin, Contra Costa, and Sacramento.

An “Annual” type permit is required for contests with 50 or fewer participants and the sponsor is offering less than \$1,000 in cash or prizes. Up to 12 individual contests may appear on each “Annual” type permit, and there is no limit to the number of “Annual” type permits that can be issued for each date and/or water.

### Reporting Requirement

For each permit issued, the organizer is required to complete and return a “Fishing Contest Report” to the CDFW within 30 days of the conclusion of each contest. Report compliance has varied from year to year. Beginning in 2007, in an effort to improve compliance, the CDFW began sending a “Letter of Notice” to organizers that specific contest reports were delinquent. In late 2008 CDFW improved reporting procedures by developing a writeable PDF form and e-mail submission procedures. In early 2016 CDFW instituted an online report form which allows tournament directors to submit their results directly to CDFW. This change has increased efficiency and accuracy for CDFW while streamlining the process for tournament directors.

## *Future of Fishing Contest Management*

Fishing contests can put intense fishing pressure on black bass fisheries. Adaptive management is essential to ensure fishery health while maintaining and improving recreational fisheries. Adaptive management includes activities implemented by CDFW, water control agencies, fishing contest sponsors, and the anglers.

### CDFW does its part by:

- Approving or denying permits to hold fishing contests according to regulations
- Rescinding permits of non-compliant sponsors
- Monitoring fishing contests with an observer
- Responding to angler inquiries and concerns regarding tournaments
- Assessing the effects of fishing contests on the fishery, including poor fish care, barotrauma incidence, and mortality rates

### Tournament organizations can do their part by:

- Enforcing proper fish care by participants during each contest
- Enforcing any aquatic invasive guidelines for all boats, such as quagga mussel inspections, and ensuring participants are aware of any required inspections
- Supplying anglers with properly aerated tanks at weigh in to keep fish healthy while waiting to weigh in.
- Informing participants of unique conditions at any water, such as the presence of protected aquatic species, areas off limits to fishing, or non-standard length or bag limits
- Submitting all tournament contest reports in a timely manner.
- Communicating with the local marina, water control agency, or property owner to ensure that appropriate permits and permissions have been obtained.

### Anglers can do their part by:

- Taking the best possible care of their fish at all points during the tournament. High mortality rates not only hurt an angler's performance in the tournament; they also negatively affect the fishery. The loss of large fish from the population reduces not only their density (and angler catch rates), but also reduces the spawning potential of the population. Larger females produce far more eggs than small females.
- Following directions from sponsors during weigh-ins
- Abiding by the special conditions identified for bass tournaments (See "Additional Resources")
- Following all guidelines and regulations relating to aquatic invasive and protected species

## *Additional Resources and FAQ*

Where are upcoming tournaments?

Upcoming fishing contests are listed online at:  
<https://nrm.dfg.ca.gov/FishingContests/default.aspx>

Where can I get more information on the contests scheduled in my area?

Contact Flower Moyer, Inland Fisheries Assessment and Monitoring Program, for more information at [jessica.moyer@wildlife.ca.gov](mailto:jessica.moyer@wildlife.ca.gov) or (916) 375-5484.

How do I apply for a fishing contest permit?

To apply for a fishing contest permit with CDFW, complete form FG-775, accessible online at: <https://www.wildlife.ca.gov/Fishing/Inland/Contests>

Mail or turn in your application, along with appropriate processing fee, at your regional CDFW headquarters, with an address line "ATTN: Fishing Contest Application." The appropriate addresses are listed on the third page of the Fishing Contest Application (FG-775).

**Permit Exemptions:**

Forms requesting exemption from fishing regulations are also available online at: <https://www.wildlife.ca.gov/Fishing/Inland/Contests>

How do I report the results of a fishing contest?

Within 30 days of the completion of each contest submit results through the online reporting service (<https://www.wildlife.ca.gov/Fishing/Inland/Black-Bass/Contest-Report>) or complete form FG-776, accessible online at: <https://www.wildlife.ca.gov/Fishing/Inland/Contests>

Submit this report via email to [contestreports@wildlife.ca.gov](mailto:contestreports@wildlife.ca.gov) or mail completed form to:
