

LIVESTOCK LOSS DETERMINATION

Investigation ID: 122922-SIS

Date Investigated: 12/29/22

Cause of Death:

- Confirmed Wolf
- Probable Wolf
- Possible Wolf
- Non-Wolf Depredation
- Non-Depredation
- Unknown

General Area: Eastern Siskiyou County, private land, Whaleback pack area

General situation and animal information: A rancher discovered the carcass of a 150 lb. calf December 28. Siskiyou County staff investigated the carcass that same day. The calf appeared to have died the previous night. The carcass was mostly consumed, but enough hide remained to allow for a sufficient investigation.

Physical evidence of wolf predation: The size of teeth marks with associated hemorrhage and location of attack areas were consistent with wolf attack.

Evidence of wolf presence near the time of the animal(s) death/injury: Wolf tracks were at the carcass.

Summary: Evidence indicated that the calf was killed by wolves in the early morning of December 28.
