

## **TITLE 14. Fish and Game Commission Notice of Proposed Changes in Regulations**

**NOTICE IS HEREBY GIVEN** that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 200, 203, 203.1, 265, 1050 and 4902 of the Fish and Game Code and to implement, interpret or make specific sections 1050, 3950 and 4902 of said Code, proposes to amend Section 362, Title 14, California Code of Regulations, relating to Nelson bighorn sheep hunting.

### **Informative Digest/Policy Statement Overview**

Current regulations in Section 362 provide definitions, hunting zone descriptions, season opening and closing dates, tag quotas (total number of hunting tags to be made available), and bag and possession limits for Nelson bighorn sheep hunting. Individuals are awarded a bighorn sheep hunting tag through the Department's Big Game Drawing. A limited number of fundraising tags are also available for purchase, usually by auction, via non-governmental organizations that assist the Department with fundraising.

Harvest of a Nelson bighorn sheep is authorized for an individual with a tag for a respective hunt zone and season. Tag quotas are established based on a variety of factors including population density and abundance, age and sex composition, and distribution. The Department has identified the following areas in which bighorn sheep hunting opportunities need to be reduced.

The proposed changes to Section 362 includes amending subsection 362(d) to modify the hunt tag quota for the general lottery in the Marble and Clipper Mountains Hunt Zone 1 and a pertinent fundraising tag. Currently, the Marble and Clipper Mountains public tag quota is 5 tags, and 1 for the Marble, Clipper, and South Bristol Mountains Fundraising tag. For 2023, the proposed tag allocation for the Marble and Clipper Mountains is [0-5] tags for the public tag quota, and [0-1] rams for the Marble, Clipper, and South Bristol Mountains Fundraising Tag.

The Marble and Clipper Mountains populations have been subject to extreme drought, low recruitment, and respiratory disease in recent years, and the most recent population estimates suggest a decline. Specifically, the Department's 2022 population estimate from the summer of 2022 was only 25 to 83 adult male sheep such that the mature (2-yrs+) population available for hunting could be less than 25 rams. Therefore, the current tag quota of 5 tags may exceed the 15% threshold. Furthermore, annual surveys during 2015–2022 indicated between 0 and 0.18 lambs per ewe survived from the previous year to be counted as yearlings (i.e., recruitment). The minimum recruitment rate for a sustainable population is on the order of 0.20. Low recruitment rates are attributed to impacts from severe drought, and to impacts of a respiratory disease-causing pathogen (*Mycoplasma ovipneumoniae*) first detected in the Marble Mountains population in 2013. For these reasons, a tag quota range is proposed that will allow consistency with management unit plan recommendations and prevent a possible violation of Fish and Game Code. Due to concerns regarding the low population and reproduction estimates, the Department is taking a precautionary approach by proposing the option of reducing the total tag quota by up to six tags for next year's season. The Department will consider minimum population viability recommendations in unit planning documents for the Marble and Clipper Mountains units, and the desert bighorn sheep population statewide when recommending harvest tag quotas.

### *Benefit of the Regulations:*

The proposed regulatory action is designed to help achieve management objectives related to current environmental, biological, and social conditions, as outlined in the Marble and Clipper Mountains Management Plans, and to comply with the 15 percent threshold identified in Fish and Game Code 4902(b)(2).

### *Consistency and Compatibility with Existing Regulations:*

Article IV, Section 20 of the State Constitution specifies that the Legislature may delegate to Commission such powers relating to the protection and propagation of fish and game as the Legislature sees fit. Commission staff has searched the California Code of Regulations and has found no other state regulations that address the tag quotas (total number of hunting tags to be made available), and bag and possession limits for bighorn sheep hunting. The Commission has reviewed its own regulations and finds that the proposed regulations are consistent with other big game mammal regulations in Title 14, CCR, and therefore finds that the proposed regulations are neither inconsistent nor incompatible with existing state regulations.

## Impact of Regulatory Action/Results of the Economic Impact Assessment

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The Commission estimates that five hunting guides that contract with bighorn sheep tag holders to provide guide services will lose the opportunity to compete for contracts for trips with five hunters with drawn tags and one hunter with a fundraising tag due to the proposed reduction in tags. However, in sum, the proposed regulation is not anticipated to have a significant statewide adverse economic impact directly affecting business broadly, including the ability of California businesses to compete with businesses in other states. This

regulatory action will not impose cost impacts that a representative individual hunter would necessarily incur in reasonable compliance with the proposed regulation.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate the creation of jobs and anticipates the elimination of up to 1 full-time-equivalent (FTE) job comprised of 15 temporary (3.5 week) jobs for hunting guide aids (sub-guides) within the state. No significant impacts to the creation of new business, the elimination of existing businesses, or the expansion of businesses in California are anticipated. The Commission does not anticipate direct benefits to the general health and welfare of California residents or to worker safety, but anticipates benefits to the environment.

- (c) Cost Impacts on a Representative Private Person or Business:

The Commission estimates that five bighorn sheep guides will lose the opportunity to compete for contracts for hunting trips with four public tag hunters and one fundraising tag hunter due to the proposed reduction in tags for the affected hunt zone. The hunt guides receive an estimated average of \$9,000 per public drawn hunt and an average of \$14,500 for a fundraising tag hunt and with the loss of six hunts the combined loss to all bighorn sheep guides is estimated to be approximately \$59,500 over the hunting season ( $\$9,000 \times 5$ ) public tags + ( $\$14,500 \times 1$ ) fundraising tag = \$59,500 or approximately \$11,900 per guide in income opportunity losses.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

The Department anticipates an estimated decline of \$73,534 in tag sales revenue with the implementation of the proposed regulation.

- (e) Nondiscretionary Costs/Savings to Local Agencies:

None.

- (f) Programs Mandated on Local Agencies or School Districts:

None.

- (g) Costs Imposed on any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code:

None.

(h) Effect on Housing Costs:

None.

### **Effect on Small Business**

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code Sections 11342.580 and 11346.2(a)(1).

### **Consideration of Alternatives**

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.
