

LIVESTOCK LOSS DETERMINATION

Investigation ID: 012223-SIS

Date Investigated: 1/22/23

Cause of Death:

- Confirmed Wolf
- Probable Wolf
- Possible Wolf
- Non-Wolf Depredation
- Non-Depredation
- Unknown

General Area: Eastern Siskiyou County, private land, Whaleback pack area

General situation and animal information: Ranch personnel discovered a 90 lb. calf carcass on January 22. CDFW and Siskiyou County investigated the carcass that same day. The carcass had been nearly fully consumed, and therefore not enough carcass remained to allow a thorough investigation.

Physical evidence of wolf predation: None seen.

Evidence of wolf presence near the time of the animal(s) death/injury: A wolf track was found in the general vicinity of the carcass.

Summary: There was some hemorrhaging on the carcass to suggest predation, but not enough carcass remained to make a species determination.
