

Interagency Ecological Program Field Monitoring Status as of August 28, 2023

Agency	Survey	Schedule	Current Status	Comments
CDFW Adult Striped Bass	002	Feb – May	Out of Season	Survey being revamped for 2024.
CDFW Fall Mid-Water Trawl	003	Sep – Dec	Out of Season	Season to begin with September survey on 9/5/2023 with addition of 8 stations to monthly surveys. Will also include additional SMSCG added zooplankton samples through October.
CDFW Adult Sturgeon	005	Aug – Oct	Out of Season	Survey discontinued.
CDFW Summer Towntnet Survey	007	Jun – Aug	Occurring	Completed first 5 of 6 surveys. Sixth and final survey of season to be conducted 8/21-8/25.
CDFW Bay Study	011/012	Jan – Dec	Occurring	No skipped stations or tows.
CDFW 20-mm Survey	033	Mar – Jul	Out of Season	
USFWS/CDFW Mosssdale Trawl	071	Jan – Dec	Occurring	Monitoring 3 days/week with paired CDFW/USFWS crews.
CDFW Knights Landing Screw Traps	074	Aug 2022 – Jun 2023	Out of Season	
CDFW Tisssdale Screw Trap	N/A	Aug 2022 – Jun 2023	Out of Season	
CDFW Upper Estuary Zooplankton	077	Jan – Dec	Occurring	
CDFW Spring Kodiak Trawl	088	Jan – May	Out of Season	Survey discontinued.
CDFW Smelt Larval Survey	096	Dec – Mar	Out of Season	
CDFW Larval Entrainment Study	352	Jan – May	Out of Season	

Agency	Survey	Schedule	Current Status	Comments
DWR Yolo Bypass Fish Monitoring	047	Jan – Dec	Occurring	The YBFMP is continuing regular beach seine, lower trophic, and water quality sampling. Fyke and rotary screw trap sampling are out of season.
DWR Environmental Monitoring Program, Discrete	072	Jan – Dec	Occurring	
DWR Environmental Monitoring Program, Continuous	072	Jan – Dec	Occurring	
DWR San Joaquin River Dissolved Oxygen	073	Jan – Dec	Occurring	
UC Davis Suisun Marsh Monitoring	093	Jan – Dec	Occurring	
UC Santa Cruz/NMFS Enhanced Acoustic Telemetry	333	Jan – Dec	Out of season	Plan to start next season Oct/Nov.
USFWS DJFMP – Beach Seines	053	Jan – Dec	Occurring	Beach Seine sampling occurs at all sites (except SAC seine; seasonal) once per week. Water levels are dropping on both the Sacramento and San Joaquin Rivers which has allowed more sites to be sampled. Sampling on the San Joaquin continues to be problematic due to high water and deep mud at most sites.
USFWS DJFMP – Chipps and Sacramento Trawls	053	Jan – Dec	Occurring	Chipps and Sacramento Trawls are being conducted three days per week as scheduled. On Wednesday, July 26 sampling was limited to four tows at Chipps due to equipment issues.
USFWS Enhanced Delta Smelt Monitoring	325	Jan – Dec	Occurring	Delta Smelt monitoring is being conducted four days per week as scheduled.

Agency	Survey	Schedule	Current Status	Comments
USFWS Red Bluff Diversion Dam Screw Traps	N/A	Jan – Dec	Ongoing	Bi-weekly reports can be found on the SacPAS: Central Valley Prediction & Assessment of Salmon web page. http://www.cbr.washington.edu/sacramento/dataquery_red_bluff_graph.html
USFWS Delta Boat Electrofishing Survey	N/A	Jan – Dec	Ongoing	E-fishing is being conducted two days per week as scheduled.
USGS Continuous Flow-Water Quality Monitoring	029/030	Jan – Dec	Ongoing	
Salvage	N/A	N/A	Ongoing	Link to Salvage Website https://wildlife.ca.gov/Conservation/Delta/Salvage-Monitoring
