| DWR Yolo Bypass Fish Monitoring | 047 | Jan – Dec | Occurring | The YBFMP is continuing regular fyke trap, rotary screw trap, beach seine, lower trophic, and water quality sampling. Beach seining at a subset of sites (n=3) was not possible from 4/2-5/16 due to high water levels. |
| DWR Environmental Monitoring Program, Discrete | 072 | Jan – Dec | Occurring | |
| DWR Environmental Monitoring Program, Continuous | 072 | Jan – Dec | Occurring | Occurring as normal |
| DWR San Joaquin River Dissolved Oxygen | 073 | Jan – Dec | Occurring | |
| UC Davis Suisun Marsh Monitoring | 093 | Jan – Dec | Occurring | Occurring as normal |
| UC Santa Cruz/NMFS Enhanced Acoustic Tagging | 333 | Jan – Dec | Occurring | Occurring as normal |
| USFWS DJFMP – Beach Seines | 053 | Jan – Dec | Occurring | Beach seine sampling continues as scheduled for all regions. Due to a high percentage of code 4's, DJFMP has modified its sampling methods to allow the sampling of alternate sites if the historic site(s) are not able to be sampled due to SAV, Tule encroachment, heavy mud and any other obstacles that may interfere with sampling. |
| USFWS DJFMP – Chipps and Sacramento Trawls | 053 | Jan – Dec | Occurring | Chipps and Sac Trawls have been sampling three days per week starting May 1. |
| USFWS Enhanced Delta Smelt Monitoring | 325 | Jan – Dec | Occurring | EDSM monitoring is currently in the portion of the sampling season which utilizes larval nets to collect samples. Sampling is occurring four days a week as scheduled. |
