Subject: Question About A Reference in the DIS/EIR

Hi Dennis,

Could someone direct me to where Appendix 4.10 is located in the appendices? I get 4.10 Cultural Resources. What I am looking for is "Tables of currently applicable measures are provided for reference in EIR Appendix 4.10." (See Table 4.7-1 Impacts to Air Quality Caused By Implementation of the Specific Plan and WRP) on page 4.75 in Section 4.7 - Air Quality.

Thank you.

Gordon

**008. E-mail from South Coast Air Quality Management District, Gordon Mize,
dated June 10, 2009**

Response 1

The comment requested information regarding the location of Appendix 4.10, as cited in **Table 4.7-1**, Impacts to Air Quality Caused by Implementation of the Specific Plan and WRP, of the Draft EIS/EIR. On June 16, 2009, a representative of CDFG responded to the comment, by e-mail, to clarify that the referenced Appendix 4.10 is an appendix to the certified Newhall Ranch Specific Plan Program EIR (May 2003) and is not an appendix to the Draft EIS/EIR for the proposed Project. The e-mail explained that the Newhall Ranch Specific Plan Program EIR and its appendices, as documents incorporated by reference (see Draft EIS/EIR, **Subsection 1.10**), were available for public review at the County of Los Angeles Public Library, Valencia Branch, 23743 West Valencia Boulevard, Santa Clarita, California 91355-2191. The comment will be included as part of the record and made available to the decision makers prior to a final decision on the proposed Project. Because the comment does not raise an environmental issue, no further response is provided.
