Subject: FW: Request for HRA Electronic Files Re; Newhall Ranch (RMDP) and SCP Draft EIS/EIR

Hi Aaron/Dennis,

I believe I incorrectly identified the name of the HRA that I need the electronic files for. The electronic files should be forwarded to my colleague Mr. James Koizumi at jkoizumi@aqmd.gov . The correct HRA is the Construction Health Risk Assessment for the Newhall Ranch Resource Management and Development Plan and Specific Plan described at the top of page 4.7-102 in Section 4.7 Air Quality.

Thank you.

Gordon

**009. E-mail from Gordon E. Mize, South Coast Air Quality Management District,
dated August 13, 2009**

Response 1

This comment corrected the name of the Health Risk Assessment (HRA) that Mr. Mize was requesting on behalf of the South Coast Air Quality Management District (SCAQMD), and provided the contact person for receiving the HRA electronic files. In response to SCAQMD's request, and at the direction of the U.S. Army Corps of Engineers (Corps) and California Department of Fish and Game (CDFG), Impact Sciences, Inc. (Thomas Worthington and Alan Sako) met with Gordon Mize and James Koizumi of SCAQMD on August 20, 2009. At that meeting, Impact Sciences provided to SCAQMD the entire Draft EIS/EIR Air Quality section and appendices (hard and electronic copies), and included the electronic modeling files for the HRA and Local Significance Threshold analysis found in the Draft EIS/EIR, **Section 4.7**, Air Quality. Please also see revised **Section 4.7** of the Final EIS/EIR. Because the comment does not address the content of the Draft EIS/EIR, no additional response is provided.
